****Time Frame: Year & Quarter:**
Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)
Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**

By September 30, 2019: 22 SNAP-Ed eligible school sites and/or community-based organizations will make changes to policies, the physical environment, and/or institutional capacity to support improved nutrition and physical activity behaviors among students, parents, teachers, seniors and other community members that are SNAP-Ed eligible.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

School and Community Environment Changes:

- Physical Activity
  - Structured Physical Activity
  - Murals and/or Stencils
- Healthy Eating
  - Smarter Lunchrooms Movement (SLM)
  - Edible Gardens
  - Wellness Policies
- Access to Healthy Food
  - Food Security

Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. **FFY 2017 (Year 1) Objective(s):**

    a. By September 30, 2017: LIA educators and 150 trained extenders (classroom teachers and afterschool staff) will reach 3,500 elementary students with direct education, 150 parents with direct education, and 3,000 parents with indirect education at 22 SNAP-Ed eligible school sites.

    b. By September 30, 2017: LIA staff will work with partners, including school wellness committees, to improve at least 7 of the 16 site environments by establishing or reinvigorating school or community gardens and/or adopting SLM strategies.

    c. By September 30, 2017: LIA staff will work with partners, including school wellness committees, to implement School Wellness Policies (SWP) and make physical activity related environmental or policy changes at 3 of 16 of these sites.

    d. By September 30, 2017: a new structured PA program such as CATCH will be implemented by LIA educators and 12 extenders such as classroom teachers, after school staff and PE specialists at 3 of the 22 SNAP Ed eligible school sites already receiving nutrition education.

    e. By September 30, 2017, LIAs will provide direct/indirect nutrition education to approximately 100 SNAP-Ed eligible seniors at food banks, pantries, and/or events at SNAP-Ed eligible sites.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30, 2018: LIA educators and 150 trained extenders (classroom teachers and afterschool staff) will reach 3,500 elementary students with direct education, and 150 parents with direct education, 3,000 parents with indirect education at 22 SNAP-Ed eligible school sites.

    b. By September 20, 2018: LIA staff will work with partners, including school wellness committees, to improve at least 6 additional of the 16 site environments by establishing or reinvigorating school or community gardens and/or adopting SLM strategies.

    c. By September 30, 2018: LIA staff will work with partners including school wellness committees to implement physical activity related environmental or policy changes at 6 of 16 of these sites.

    d. By September 30, 2018: a new structured PA program such as CATCH will be implemented by LIA educators and 12 extenders such as classroom teachers, after school staff and PE specialists at 6 of the 22 SNAP Ed eligible school sites already receiving nutrition education.

e. By September 30, 2018, LIAs will provide direct/indirect nutrition education to approximately 100 SNAP-Ed eligible seniors at food banks, pantries, and /or events at SNAP-Ed Eligible sites.

2. **FFY 2019 (Year 3) Objective(s):**

a. By September 30, 2019: LIA educators and 150 trained extenders (classroom teachers and afterschool staff) will reach 3,500 elementary students with direct education and 150 parents with indirect education at 22 SNAP-Ed eligible school sites.

b. By September 30, 2019: LIA staff will work with partners to improve at least 6 additional of the 16 site environments by establishing or reinvigorating school or community gardens and/or adopting SLM strategies and school/district level wellness policy language including SLM.

c. By September 30, 2019: LIA staff will work with partners including school wellness committees to make physical activity related environmental or policy changes at 9 of the 16 sites and enhance school or district wellness policy language to include PA programs and guidelines.

d. By September 30, 2019: a new structured PA program such as CATCH will be implemented by LIA educators and 12 extenders such as classroom teachers, after school staff and PE specialists at 9 of the 22 SNAP Ed eligible school sites already receiving nutrition education.

e. By September 30, 2019, LIAs will provide direct/indirect nutrition education to approximately 100 SNAP-Ed eligible seniors at food banks, pantries, and/or events at SNAP-Ed eligible sites.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Kings County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

By September 30, 2019: 22 SNAP-Ed eligible school sites and/or community-based organizations will make changes to policies, the physical environment, and/or institutional capacity to support improved nutrition and physical activity behaviors among students, parents, teachers, seniors and other community members that are SNAP-Ed eligible.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Provide direct nutrition education using approved curricula either through direct delivery or by extenders to 3,000 youth at 16 SNAP-Ed eligible schools each year. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**

By September 30, 2019: increase access to and demand for healthy fruits, vegetables, and beverages at 6 SNAP-Ed qualifying neighborhood retail stores through adopted and implemented policy and physical site changes.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Healthy retail PSE strategies include:

- corner store market conversions
- healthy food and beverage policies/stocking standards
- healthy in-store marketing and promotions
- store exterior improvements

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017: provide healthy food and beverage merchandising materials, conduct quarterly taste testing of healthy food/beverage recipes, and provide twice yearly owner/retail staff education opportunities to at least 2 retail stores.

   b. By September 30, 2017: provide support for at least 1 Fruit and Veggie Fest marketing event in at least 1 qualifying retail location and conduct indirect education at farmers' markets at 2 sites in qualifying census tracts.

c. By September 30, 2017: 2 retail stores in SNAP-Ed qualifying areas will increase access and/or promotion of healthy foods and beverages.

d. By September 30, 2017: provide food resource management education to adults at 5 school and/or community sites and promote the retail, emergency food and farmers market opportunities to access healthy fruits, vegetables and beverages to class participants.

e. By September 30, 2017: implement approved SNAP-Ed nutrition education materials, resources and/or curriculum in at least 6 public housing facilities and/or community based organizations.

f. By Sept 30, 2017: Kings County CNAP will implement a healthy retailer recognition and incentive program in up to 2 selected SNAP-Ed qualifying neighborhoods.

2. **FFY 2018 (Year 2) Objective(s):**

a. By September 30, 2018: provide healthy food and beverage merchandising materials, conduct quarterly taste testing of healthy food/beverage recipes, and provide twice yearly owner/retail staff education opportunities to at least 2 additional retail stores.

b. By September 30, 2018: provide support for at least 1 Fruit and Veggie Fest marketing event in at least 1 qualifying retail location and conduct indirect education at farmers' markets at 2 sites in qualifying census tracts.

c. By September 30, 2018: 2 additional retail stores in SNAP-Ed qualifying areas will increase access and/or promotion of healthy foods and beverages.

d. By September 30, 2018: provide food resource management education to adults at 3 additional school and/or community sites and promote the retail, emergency food and farmers market opportunities to access healthy fruits, vegetables and beverages to class participants.

e. By September 30, 2018: implement approved SNAP-Ed nutrition education materials, resources and/or curriculum in at least 2 additional public housing facilities and/or community based organizations.

3. **FFY 2019 (Year 3) Objective(s):**

a. By September 30, 2019: provide healthy food and beverage merchandising materials, conduct quarterly taste testing of healthy food/beverage recipes, and provide twice yearly owner/retail staff education opportunities to at least 2 additional retail stores.

b. By September 30, 2019: provide support for at least 1 Fruit and Veggie Fest marketing event in at least 1 qualifying retail location and conduct indirect education at farmers' markets at 2 sites in qualifying census tracts.

c. By September 30, 2019; provide food resource management education to adults at 3 additional school and/or community sites and promote the retail, emergency food and farmers' market opportunities to access healthy fruits, vegetables and beverages to class participants.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Kings County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):

By September 30, 2019: increase access to and demand for healthy fruits, vegetables, and beverages at 6 SNAP-Ed qualifying neighborhood retail stores through adopted and implemented policy and physical site changes.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Provide healthy marketing materials, which may include NEOPB Retail and Harvest of the Month signage, posters, newsletters, and NEOPB recipe cards to 6 SNAP-Ed qualifying retailers.	CED X CEI MPR C&C X TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	Quarterly progress report Pictures
3.2	Educators will provide culturally appropriate indirect education single sessions at least 6 retail partners, and direct education in at least 6 SNAP-Ed approved public housing facilities/community based organizations. In Year 1, provide direct nutrition education using approved curricula through direct delivery to 200 unduplicated SNAP-Ed adult participants at approved public housing facilities/community based organizations. In Year 2, provide direct nutrition education using approved curricula through direct delivery to 200 unduplicated SNAP-Ed adult participants at approved public housing facilities/community based organizations. In Year 3, provide direct nutrition education using approved curricula through direct delivery to 200 unduplicated SNAP-Ed adult participants at approved public housing facilities/community based organizations.	X CED X CEI MPR C&C TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	Sign-in forms Lesson plans Handouts ATF Qtrly Progress Report

3.3	Educate at least 6 independent retailer managers/owners on the health importance of fruits, vegetables and healthy beverages and the proper fruit and vegetable storage and display protocol to help improve the quality and quantity of fruits and vegetables available to local SNAP-Ed-eligible residents. Provide training and technical assistance as needed. 							Total Non-Capital Equipment/Supplies:	**$655**	

3. Materials:

	Budget Adjustment: Add/Delete/Increase/Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Publications, Advertising	Digital outdoor advertising LED billboard and traditional billboards. Located on the primary Cross-County freeway. A guaranteed minimum of 1,800 spots per day. Receives 38,762 impressions. During the first 4 weeks, it is estimated that KCAO will reach 46,479 adults 18+ and average of 3.3 times. Discounted rate of $500.00/2-weeks. Total cost for 2 week program is $500.00.	$500.00	1	$500	
2			Raw Food Supplies	For taste testing and cooking demonstration, the program will have to purchase raw foods, such as fresh fruits and vegetables and other healthy foods pursuant to approved recipes. Projection: Taste testing for 600 participants per year at $2.50 per testing.	$2.50	600	$1,500	
3			Program Supplies	Program supplies will be required to implement and evaluate nutrition and physical activity education. The following are examples of some supplies required to prepare food. More than one of each supply might be required as multiple workshops will occur simultaneously, and some items bought from last year may have broken or need replacing due to high-usage. Some examples of itemized supplies costs include: gloves ($250), soap ($150), hand sanitizer ($150), sanitizing wipes ($150), water and ice (per state food codes and Rethink Your Drink recipes: $150), etc. Some examples of itemized taste testing costs include: spoons ($150), forks ($150), cups ($150), plates ($200), napkins ($150), bowls ($100), water dispenser ($80), etc. Nominal value supplies are also needed to promote physical activity.	$150.00	12.20	$1,830	
4			Garden Supplies	The program will prepare ground to plant vegetables and grow them. Community kids and adults will be involved and trained on how to plant and harvest healthy foods such as fresh fruits and vegetables. Also use the same grown vegetables to prepare approved recipes, involving individuals in this. Garden-based nutrition education will be conducted and will aim to integrate physical activity while involving community members. Veggie seeds and seedlings (20 variety pack $29.50x3=$147.50), seedling trays ($6.99 x15=$104.85) plant pot tags 100-$50, small gardening tools such as towels, shears, watering cans and gloves $500, steel poultry neeting $30.97; Landscaping fabric (150 aq ft - $9.98), Misc Hardware (brackes, screws, nails, glue -$30; Lumber ($16.37 x 20 = $327) Large gardening tools (Transfer Shovel $9.98 x2=$19.96, Digging Shovel $19.98), 48"x100' wildlife resistant galvanized steel mesh - deer fence ($79 x2 = $158), poultry netting for fence border ($8.97 x 2=$ 17.94) Irrigation supplies (drip lines, emitter, timers, faucets) $250, replacement soil and fertilizer $500; Deer fencing $50; Rain barrels and fittings $100. Some items may require tax and shipping charges $304.82	$63.62	41.20	$2,621

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Lake County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

County Name: Lake

SECTION A: OVERVIEW

1. SNAP-Ed Implementing Agency Names

x	California Department of Social Services: CDSS: Lake County Department of Social Services (CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
x	California Department of Public Health: CDPH: Lake County Health Services (LHD)
	California Department of Aging: CDA: (Area Agency on Aging: AAA)
x	Catholic Charities of California: CCC: (Catholic Charities of the Diocese of Santa Rosa: CCSR)

2. State Level Goals and Objectives

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP-Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. Jurisdiction Description

Lake County has a population of 64,699 making it a small rural county located in northern California. With 46.6% of its population SNAP-Ed eligible, this is 13.3% higher than the state. The majority of the population lives around the natural lake named Clearlake. Clearlake is the largest lake entirely in California and surrounded by mountains, making it difficult to access. There is little to no industry in Lake Count, with most jobs provided by city or county government. Although Lake County has an abundance of land there are a limited number of fruit and vegetable farmers. Most farms are mono crops including pear, grape, and walnut orchards.

There are two incorporated cities in Lake County where the 30% of the population live, Lakeport with a population of 4,807 and Clearlake with a population of 15,194 residents. According to the 2015 SNAP-Ed Lake County profile 27.8% can find affordable fruits and vegetables, which is in the incorporated city areas. The other 70% of the population live in areas where food access is a concern due to price and variety of products in small markets. According to the 2013 Lake County Health Needs Assessment one-third of the county population reported to be "food insecure", data shows that 1 in 5 households in Lakeport and Clearlake area do not have access to a vehicle. Clearlake Oaks is an especially vulnerable community, data shows that 17.5% of the population are without vehicles and are more than 1/2 mile from a small corner store. In reference to the Healthy Stores for Healthy Community Survey done by the Tobacco Prevention Program at the Lake County Health Services Department, 84.9% of food stores in Lake County sell sugary drinks at the checkout. Of all the food stores in Lake County only 49.1% sell fresh fruit or vegetables and of these stores 62.3% accept CalFresh or WIC. Given this data, food stores that accept EBT could be improved by increased fresh fruit and vegetable prevalence, and could benefit from healthy checkout lines without the choice of sugar sweetened beverages.

According to the 2015 SNAP-Ed Lake County Profile, SNAP-Ed residents are comprised of 66.3% white non-Hispanic origin, a growing population of 23.1% Hispanic origin, 2.1% American Indian and the other 8.5% consists of African Americans, Asian Americans, and other identified races. The primary language spoken in Lake County is English, according to the 2015 Census Bureau there has been an increase of 2.4% of the Hispanic population from 2014 to 2015, potentially increasing the Spanish speaking community.

Children under 5 years old are 5.8% of the total population, 3.5% of the 5.8% live in households that are less than 185% of the federal poverty level. Children 5-19 years of age consist of 17% of the population and 9% of the 17% live in households that are under 185% of the federal poverty level. 82.5% of the schools in Lake County are SNAP-Ed eligible school sites. 73.4% of students rely and participate in the free/reduced lunch program. Lake County students participate in free/reduced lunch at a rate of 11.8% higher than the state average. It is astounding that food insecurity rates are at 32.4% for children in Lake County; yet the prevalence of children that are overweight between the ages of 2-17 is 58.9%; this is 29.9% higher than the state average.

According to the Robert Wood Johnson County Health Rankings, Lake County falls 57 of 57 counties in the category of Health Behaviors and 56 out of 57 for overall Health Outcomes. Health Behaviors includes nutrition and physical activity factors including adult obesity, food environment index, physical inactivity and access to exercise opportunities as well as other factors that influence overall health. The overweight prevalence is 70.1% and the obesity prevalence is 35.3% among the Lake County SNAP-Ed population. Taking a look at economic factors the median household income is $36,973 and as of 2014 the median price of a home was $172,000.

4. Community Assessment

The following data sources were used to portray Lake Counties economic well-being, diet and nutrition, food insecurity, child poverty, food accessibility, and the food environment: Robert Wood Johnson Foundation, 2015 SNAP-Ed County Profile, Kids Data, Census Bureau, Lake City Realtors Association, USDA Economic Research Service- Food Environment Atlas, and the Lake County Health Needs Assessment.

- **Lake County Community Health Needs Assessment** was designed to provide the foundation for policymakers, community organizers and advocates to strategically plan services and make needed improvements in Lake County. The assessment process included reviewing existing data, conducting surveys, focus groups, and interviews to obtain the communities perspectives about health needs. Highlights of findings include:
    - Approximately 34% of children (one-third higher than the state average) live at or below the 185% federal poverty level, with 73.4% of students eligible for free/reduced price meals. Given this data, Lake County students would benefit from nutrition education paired with physical activity related interventions.
    - Approximately 33% of low-income adults report not being "food secure."
    - Transportation issues impact access to services.
    - Lake County residents are more likely than other California residents to:
        - Have higher rates of obesity
        - Not enter care early enough to have adequate prenatal care
        - Have higher rates of drug (including prescription) use
    - There are 4 priorities and one related to SNAP-Ed: promotion and support of healthy choice/healthy behaviors.

Using the data sources listed above, the LHD will primarily focus on nutrition education interventions to the student population. CCC, LHD and CWD: Lake Family Resource Center will focus on community and family education to increase food security by teaching classes focused on food security, healthy foods, and healthy beverages.

Together LFRC and LHD will collaborate together to streamline our efforts with the Native American population. A specific focus will be retail, homeless and veterans for CWD: LFRC. The same data reinforced the need for interactive booths at community events to reach a larger number of the Lake County SNAP population. All efforts will be streamlined with the Lake County Harvest of the Month schedule to reinforce eating local fresh produce and eating seasonally to decrease cost on fruits and vegetables.

5. Community Change Goals

Lake County Health Needs Assessment addressed four recommended priorities including promotion and support of healthy choices/healthy behaviors, promotion and support of emotional and mental well-being, prevention and treatment of use/misuse of legal and illegal substances, including prescription drugs and medications, and promotion of collaborative relationships among Lake County health and human services providers. Two of the recommended priorities fit in with the SNAP-Ed Guidance to promote and support healthy food and beverage options and to increase collaboration among service providers. The SNAP-Ed three-year IWP will align with the Health Needs Assessment by means of preventative health education. This will be completed by promoting healthier eating through gardens, cooking classes, and increasing healthy food access.

Long-term community goals to address county level data include increasing access to healthy food options in areas with corner stores and low or no access to transportation. Increasing access also includes local food systems like community gardens to engage the community in growing their own food. To inspire a culture shift, nutrition education and physical activity integration in the school system will be a major focus. The school system approach will be multi-tiered including environmental support to increase access to healthy food, healthy beverages, and physical activity in preschool, K-12, and afterschool.

The SNAP-Ed goals that align with community change goals to address unmet needs through the Integrated Work Plan include:

1. **Support local food systems**
   - Work with retailers
   - Increase participation at farmers markets
   - Increase EBT participation at farmers markets
   - Harvest of the Month program
     - Schools
     - Retail
     - Farmers Market
     - Restaurants
     - Food Distribution Sites

2. **Increasing access to healthy foods**
   - Retail campaign where food access is an obstacle
   - Support community gardens
   - Collaboration with all food related grants in the county
   - Working with Food Distribution Sites to write Healthy Food procurement and donation policies

3. Increase food security throughout the county

- Working with food distribution sites to make physical environment and policy changes to support healthy food choices and increase availability of healthy foods
- Nutrition education classes with an emphasis on cooking on a budget

4. Creating a culture where physical activity is intertwined into the community

- Increase bike lanes
- Increase sidewalks
- Increase bike racks
- Joint use agreements
- Physical activity promotion

5. Environmental changes at the school level to create a healthier school environment

- Wellness Policy participation
- Train the trainer HOTM-teachers to support sustainable nutrition education in schools
- Youth Health Coalition
- Increase access to healthy food options at school cafeterias (local produce if possible)
- School gardens
- Cooking classes
- Water filling stations
- School events with a nutrition focus

Lake County **Three-Year Integrated Work Plan FFY 2017–2019** **Rev. 5/23/2017**

Specifically Lake County SNAP-Ed LIAs will achieve the following three-year objectives:

1. By September 30, 2019, engage 5 school districts including 8 preschool sites, 14 K-12 sites, and 5 after-school sites to create an environment that makes the healthy food, healthy beverage options and physical activity part of the school culture by participating in district wellness policies committees, supporting and training teachers, influencing school foodservice interventions, and enhancing and supporting school gardens.
2. By September 30, 2019, coordinate and collaborate with at least 12 community based entities and 5 community events per year to provide nutrition, physical activity, community advocacy, food security education, and environmental supports.
3. By September 30, 2019 increase access to fruits and vegetables and healthy beverages for the SNAP-Ed eligible population by working with a minimum of 3 large retail stores, 1 farmers market, and at least 1 food distribution site by providing cooking demos and adopting and implementing policy and physical site changes.

These objectives are part of a greater goal of improving health, allowing all the LIAs to collaborate with other agencies working to better health in Lake County. The SNAP-Ed PSE focus for the next three years will include:

- Farm to Fork
- Farm to School
- Water Filling Stations
- Early Childhood Education
- Wellness Policies
- Physical Activity
- Healthy Food and Beverage Standards
- Healthy food and beverage policies/stocking standards
- Local procurement
- Purchased/donated food policies
- Healthy in-store marketing and promotions

6. Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]

Partnership and collaboration is at the core of all SNAP-Ed interventions in Lake County. The Health Education Coalition (CNAP) meets each month to align efforts to reach the SNAP-Ed population. The Health Education Coalition (CNAP) has one primary goal, to align efforts with the Lake County Harvest of the Month calendar to increase seasonal procurement, support local farmers, and create a culture where our community members are educated consumers. Funded partners include Woman's Infants and Children, CCC, CDSS, CalFresh, and Farm to School. Non-funded partners include Tobacco Education, Lead Prevention Program, Cal Prep, and Lake County Office of Education.

Partners from the following agencies attend the Health Education Coalition (CNAP): Lake Family Resource Center-CWD, Catholic Charities of the Diocese of Santa Rosa, Farm to School Grant, Partnerships to Improve Community Health, North Coast Opportunities, WIC, Health Leadership Network, Redwood Community Services, CAL PREP, Lake County Breastfeeding Coalition, Partnership Health Plan of California, Tobacco Education Program, Lead Prevention Program, Maternal Child and Adolescent Health, Dental Disease Prevention, Planned Parenthood, Health Magnet School, Lake County Office of Education, Early Head Start, Lake County Department of Social Services, Childcare Planning Council, Head Start, Lakeside Health Center, and Mendocino College.

SNAP-Ed staff also attends other meetings to further reach the target population and build on existing resources to pull multiple funding streams to maximize results for each intervention. Lake County SNAP-Ed services and activities are also promoted through connections with other agencies, such as the County Welfare Department, etc. Integral collaborative efforts also include the Foodservice Directors Collaborative, Health Leadership Network, County Garden Collaborative, Breastfeeding Coalition, and the Farm to School Implementation grant at the Konocti Unified School District.

7. Key Messages

x	Food Safety	x	Physical Activity	x	Fiber-Rich Foods
x	Whole Grains	x	My Plate-Healthy Eating Plan	x	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
x	Fruits & Vegetables	x	Limit Added Sugars or Caloric Sweeteners	x	Other *(specify): Farm to Fork*
x	Fats and Oils	x	Food Shopping/ Preparation	x	Other *(specify)*: Eating on a budget
x	Lean Meat & Beans				
x	Sodium & Potassium				
x	Promote Healthy Weight				

8. Educational Materials, Resources and Curriculum

All curriculum and materials used will be from the approved USDA SNAP-Ed Connection website, and/or **FFY 2016** USDA approved California Department of Social Services, Catholic Charities of California or the CDPH Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list. All curricula and materials will be defined and appropriate for the target audience identified in Section B: Target Audience Description of this document.

9. Intervention and Evaluation Plan Narrative Summary

All of the LIAs interventions will motivate behavior on the individual level to increase knowledge and promote behavior change with the MyPlate nutrition messaging foundation. The largest target population will be at eligible school sites, complemented with secondary sites at preschool, afterschool, retail, community centers, and farmers markets. The implementing agencies (LHD, CCC, CWD) in Lake County will collaborate to provide a comprehensive approach to address strategies and interventions that promote the 2015 Dietary Guidelines to increase consumption and access to healthy foods and drinks; decrease consumption and access of less healthy foods and drinks; and increase opportunities and physical activity among the SNAP-Ed eligible population. The strategies and interventions will include community events, class series, training and technical assistance, media and public relations, environmental change approaches, and monthly coordination and collaboration to leverage efforts by funded and unfunded partners. CWDs are funded for FFY 17 only and therefore this may impact the reach numbers for FFY 18 and 19.

State Goal 1: increase consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages will be met by local objective 1, 2, and 3 using a multi-sector approach.

Schools: Local Objective 1

Objective 1a and 1c: in schools improve dietary quality of meals and snacks will be achieved by working over a three year span with district level Wellness Committees to create policies to increase healthy options for meals and snacks and decrease access to food and beverages with added sugar.

Objective 1b: collaboration with foodservice directors will enable influence to increase locally purchased fruits and vegetable, and in turn to market Harvest of the Month in the meals and the salad bar to align with direct classroom education. The Smarter Lunchroom Movement techniques will be used to improve appeal of meals in the cafeteria, so that students will be more likely to eat the food that they are required to take as part of the reimbursable lunch.

Food Distribution Sites: Local Objective 3

Objective 1a, 1b, and 1c: purchasing and donating policies at food distribution sites will decrease purchasing of unhealthy foods including food and beverages with added sugar and increase purchasing of healthy food. In addition an increase in purchasing of fruits and vegetables, to overall increase the dietary quality of meals and snacks for the population that relies on food distribution sites. Monthly nutrition workshops and food demos at food distribution sites will educate consumers on techniques to improve dietary quality of meals and snacks.

Retail Sites: Local Objective 3

Objective 1a, 1b, 1c: building relationships with store owners will increase healthy-in store marketing and promotions of healthy food and decreasing marketing of unhealthy foods. Resulting in an increase of fruits and vegetable availability and decrease in unhealthy food including intake of added sugar foods and beverages. Monthly nutrition workshops and food demos in the retail stores will educate consumers on techniques to improve dietary quality of meals and snacks.

State Goal 2: Increase Physical Activity

Increasing physical activity will be addressed with local objective 1 and 2. Local objective 1 includes training teachers to teach physical activity, promote physical activities at school events, work with Wellness Committees to integrate physical activity requirements into the policy, and most importantly encourage implementation of physical activity into the teacher's daily routine. Physical activity education will also be weaved into community classes and outreach events.

State Goal 3: Improve Food Resource Management

Objective 3a: local objective 1, 2, and 3 will improve food resource management behaviors through direct and indirect education to parents at school sites, community groups including veterans, homeless, migrant workers, tribal members, parishioners, and other SNAP-Ed populations.

Objective 3b: food security is tied into local objective 3 and includes food distribution sites, and food giveaways. CalFresh outreach workers will be notified of community events to increase access to SNAP-Ed benefits.

State Goal 4: Physical and Social Environment Outcomes

Objective 4a: local objective 1 will leverage efforts in the school setting by fostering champion administrators, teachers, and staff to promote and teach direct nutrition education as part of the preschool, K-12, and after school curriculum. Wellness Policy committees will act as a place to pull together multi-sector partnerships to make changes in the environmental school setting. Including aspects of the Smarter Lunchrooms movement to improve food environments and increase the consumption of fruits and vegetables. School gardens will also help to increase fruit and vegetable consumption and will provide garden-enhanced nutrition education. Coordination and collaboration with outside community groups will continue to reinforce school wellness and increase the possibility of additional environmental support and media coverage.

Objective 4b: Improvements in the proportion of healthy to unhealthy food environments in SNAP-Ed communities will be addressed by local objective 2 and 3. Parishes will be encouraged to establish a healthy beverage policy. Retail stores will be encouraged to procure locally and to increase healthy in-store marketing and promotions. Food distribution sites will be encouraged to create healthy food and beverage policies.

Goal 5: Improve access to and/or appeal of physical activity opportunities

Objective 5a: annual improvements to increase physical activity will occur as part of local objective 1. Environmental changes will occur at eligible preschool sites using stencil kits to increase active play. Gardens will also be an environmental change at eligible K-12 school sites to increase outdoor and active learning opportunities. Physical activity education training and technical assistance will target teachers and afterschool site supervisors to incorporate physical activity into daily routines.

Objective 5b: increasing physical activity opportunities and improved environments community wide will be supported by local objective 2. This objective will be achieved by educating the SNAP-Ed population on physical activity opportunities in the community, as well as education on how to incorporate daily physical activity into everyday life. To increase opportunities and environment supports for physical activity it will require coordination and collaboration with city planners, and other agencies to advocate for bike lanes, sidewalks, bike racks, complete streets, and joint use agreements as explained in local objective 2.

Evaluation processes will be used to improve services for all local objectives. All three agencies will use Process Evaluation on an ongoing basis. The LHD will use the (RE-AIM) framework on an annual basis to evaluate environmental changes. CWD will use pre and post tests for the 5 part series.

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

By September 30, 2019, engage 5 school districts including 8 preschool sites, 14 K-12 sites, and 5 after-school sites to create an environment that makes healthy food, healthy beverage options, and physical activity part of the school culture by participating in district wellness policies committees, supporting and training teachers, influencing school foodservice interventions, and enhancing and supporting school gardens.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Total PSE Strategies – 4

School Environmental Changes:

1. Wellness Policies
   - Policies regarding sale of foods/beverages on school grounds or for school-related functions, i.e bake sales, fundraisers, vending
   - Policies regarding use of foods/beverages on school grounds or for school-related functions, i.e. special events (potlucks, birthdays, celebrations, etc.)
   - Policies regarding teacher-led, classroom wellness education activities
2. Healthy Eating
   - Farm to School programs - fostering partnerships between farmers and schools to increase availability of affordable, local produce
   - Smarter Lunchroom – encourage low cost/no-cost solutions to improve child eating behaviors in the lunchroom
   - Edible Gardens – support availability of fresh, local produce on-demand at community sites
   - Training sessions for teachers to conduct effective nutrition education activities

3. Physical Activity
   - Physical activity games utilizing murals/stencils
   - Safe Routes to Schools – conduct walkability audits for purpose of collecting information about the safety and accessibility around a school
   - Training sessions for teachers to conduct effective physical education activities
4. Water-Filling Stations

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 30, 2017, engage a minimum of 12 school sites, 4 preschool sites, and 1 after school site to train a minimum of 150 teachers/site supervisors at eligible school sites. Using SNAP-Ed approved curriculum, trained teachers will conduct monthly direct nutrition education lessons that align with Harvest of the Month taste tests to reach 5,000 students monthly to increase knowledge, self-efficacy skills, increase fruit and vegetable intake and decrease sugar sweetened beverage intake.

   b. By September 30, 2017, participate in 2 district wellness policy committees to collaborate and assess nutrition and physical activity intervention needs to influence school policies, the physical environment, nutrition education and physical activity promotion to support nutrition and physical activity in the student population.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, engage a minimum of 14 school sites, 6 preschool sites, and 3 after school sites to train 200 teachers/site supervisors at eligible school sites. Using SNAP-Ed approved curriculum, trained teachers will conduct monthly direct nutrition education lessons that align with Harvest of the Month taste tests to reach 6,000 students monthly to increase knowledge, self-efficacy skills, increase fruit and vegetable intake, and decrease sugar sweetened beverage intake.

   b. By September 30, 2018, participate in 2 district wellness policy committees to implement one intervention or system change at each district that aligns with needs from the previous year and aligns with NEOP nutrition education and physical activity promotion.

3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019 engage a minimum of 14 school sites, 8 preschool sites, and 5 after school sites to train 250 teachers/site supervisors at eligible school sites. Using SNAP-Ed approved curriculum, trained teachers will conduct monthly direct nutrition education lessons that align with Harvest of the Month taste tests to reach 7,500 students monthly to increase knowledge, self-efficacy skills, increase fruit and vegetable intake, and decrease sugar sweetened beverage intake.

    b. By September 30, 2019, continue to participate in 2 school site wellness policies committees to evaluate environmental change or intervention from previous year and start to work with 1 additional wellness policy committee to assess needs for nutrition and physical activity promotion.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Lake County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019, engage 5 school districts including 8 preschools, 14 K-12, and 5 after-school sites to create an environment that makes healthy food, healthy beverage options, and physical activity part of the school culture by participating in district wellness policies committees, supporting and training teachers, influencing school foodservice interventions, and enhancing and supporting school gardens.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Foster relationships and inspire teachers to teach NEOP approved, grade appropriate, monthly nutrition education lessons: Growing Health Habits (K-4th) or Nourish (5th-12th) reinforced with monthly Harvest of the Month taste tests. SNAP-Ed staff will provide yearly training during staff meetings and ongoing technical assistance. Year 1: 12 eligible sites, 150 trained K-12 teachers, reaching 5,000 students monthly. Year 2: 14 eligible sites, 200 trained K-12 teachers, reaching 6,000 students monthly. Year 3: 14 eligible sites, 250 trained K-12 teachers, reaching 7,500 students monthly. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**

By September 30, 2019 increase access to fruits and vegetables and healthy beverages for the SNAP-Ed eligible population by working with a minimum of 3 large retail stores, 1 farmers market, and at least 1 food distribution site by providing cooking demos and adopting and implementing policy and physical site changes.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Healthy food and beverage policies/stocking standards
Local procurement
Purchased/donated food policies
Healthy in-store marketing and promotions

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, review current procurement and stocking standards for at least 1 food distribution site.
    b. By September 30, 2017, conduct cooking demos at 3 retail stores and 1 farmers market using NEOP approved recipes reinforced with the Harvest of the Month produce from the Lake County Schedule to reach 300 indirect participants.

2. FFY 2018 (Year 2) Objective(s):

a. By September 30, 2018, provide technical assistance to at least 1 food distribution sites to create and adopt healthy food and beverage policies/stocking standards, and purchasing and donating food polices.

b. By September 30, 2018, continue to conduct cooking demos at 3 retail stores and 1 farmers market using NEOP approved recipes reinforced with the Harvest of the Month to reach 300 indirect participants and influence and provide materials for healthy in-store marketing and promotions.

3. FFY 2019 (Year 3) Objective(s):

a. By September 30, 2019, conduct an assessment for at least 1 food distribution site and provide training and technical assistance for sustaining policy change.

b. By September 30, 2019, continue to conduct cooking demos at 3 retail stores, attempt to influence local procurement, and continue to promote healthy in-store marketing techniques, and conduct cooking demos at 1 farmers market reaching 400 indirect participants.

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):
By September 30, 2019 increase access to fruits and vegetables and healthy beverages for the SNAP-Ed eligible population by working with a minimum of 3 large retail stores, 1 farmers market, and at least 1 food distribution site by providing cooking demos and adopting and implementing policy and physical site changes.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Host a monthly workshop or distribute nutrition education materials at least 1 food distribution site and 3 retail sites to provide nutrition education, cooking demos, healthy beverage promotion, physical activity, community advocacy reinforced with the HOTM Lake County schedule to reach 410 SNAP-Ed Participants each year. Each employee has a county cell phone these two positions (Program Coordinator and Program Support Specialists) are in the field almost daily in a very rural area with over 100 miles around a lake and mountains. They are at schools, farmers markets, events all grant approved. For their scope of work they have to have cell phone to be able to communicate with the organizations they are working with since they are in the field daily.	2.02	$60.51	12	$1,467

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Lassen County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.

- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Lassen County is a rural county located in the northeastern region of California with a population of 34,018 residents. The county is split in to four areas where the majority of the population lives; The Susanville area is the most populated, Bieber, Westwood and Herlong / Doyle area. According to the SNAP-Ed County profiles 29.5% (6,900) of the population is SNAP-Ed eligible (income<185%FPL). SNAP-Ed eligible participants are 70.3% White, 9.5 American Indian/Alaska native, 8.7% Hispanic, 5.2% African American, 2.7% Asian, 1.7% multiracial, and 1.8% are unknown. Children below the age of 6 comprise the largest percentage of SNAP-Ed eligible participants at 37%, followed closely by school age children at 36.3%, older adults at 30.9% and adults at 26.8%. The primary spoken language is English.

There are 9 census tracts in Lassen County; Three of the census tracts are eligible for SNAP-Ed interventions according to the most recent (2010-2014) American Community Survey (ACS) data. The county has 8 school districts with 24 public schools, 17 (70.9%) are eligible for SNAP-Ed services. A number of means-tested sites are eligible for SNAP-Ed services including 3 Federally Qualified Health Centers, 1 Women, Infants and Children (WIC) clinic that has 4 outreach sites, 4 Head Start locations, 3 SNAP Ed eligible Early Childcare and education sites, 3 family resource centers, 9 food assistance sites and 3 senior nutrition sites. The majority of these sites are located in the area of Susanville, which is the only incorporated city in Lassen County. Ten of the schools in the Herlong/Doyle, Bieber, and Westwood areas qualify for interventions based on Free and Reduced Price Meals (FRPM).

According to Lassen County's SNAP-Ed County Profile we are below California's State Profile average when it comes to the percentage of adults that are overweight or obese: Lassen County is 54.2% versus California's average of 62.5% of all adults and Lassen County's SNAP-Ed eligible adults is 37.1% with the California average of 67.3%. Lassen County has a higher food insecurity rate than that of California: Lassen County is 17.7% overall and 28.1% in children compared to California at 15% overall and 25.1% in children. Lassen County has higher rate of Sugar sweetened beverage consumption compared to California rates; In Lassen County 45% of children report that they consume one or more sugar sweetened beverage per day compared to California rates of 41% of children.

4. **Community Assessment**

According to the 2015 annual County Health Rankings, compiled by the Robert Wood Johnson Foundation and the University of South Carolina Population Health institutes, Lassen County is ranked 36th among California's 57 Counties in health outcomes and 38th out 57 when it comes to health factors. The Lucile Packard Foundation for Children's Health provided information related to healthy food choices and beverage choices for children in Lassen County. The jurisdiction description comes in part from the SNAP-Ed County Profiles prepared by CDPH which includes county-level data from a variety of sources such as American Communities Survey (ACS) five-year estimates (2010- 2014), Department of Social Services Cal Fresh Annual trends data, the California Health Interview Survey, Feeding American's Map the Food Gap, and Food Insecurity in Your County report.
The FFY 17-19 Integrated Work Plan was developed using information listed in the jurisdiction section, various reports, input from community partners and experience gained from the Local Implementing Agencies (LIAs) providing SNAP-Ed nutrition interventions for over 2 years in the county.

One of our community partners, Lassen County Nutrition Action Plan coalition, emphasized that youth in our community needs help establishing healthy eating habits and healthy beverage choices. According to Kidsdata.org, which is a Program of Lucile Packard Foundation for Children's Health data summary, Lassen County had a rate of 45% of children and teens (ages 2-17) reporting they consumed one or more sugar sweetened beverages per day compared to California at 41%. The County profile indicated that 51.3% of all children and teens (2-17) reporting they consumed fast food one or more times in the past week which is better than the State average of 72.4%.

TheFFY17-19 IWP will be on elementary school aged children and establishing healthy food and beverage habits at a young age while conveying the message through several different venues. We will provide education to schools that qualify with Free and Reduced Price Meals to provide direct and indirect education to school aged children with intervention strategies aimed at educating children on proper nutrition and the importance of physical activity. We will augment these strategies through the use of media messages and activities that support healthy beverage promotion on a broad scale at complementary settings such as community events to reach SNAP-Ed eligible children at eligible sites in all parts of the county.

The work plan was developed taking into consideration the PSA 2 Area Plan 2012-2016. According to the California Department of Aging, 14% of the 60+ year old population is living in poverty (≤ 125% FPL), and 32.8% of older adults age 65 or older are at 185% FPL (SNAP-Ed County Profile, 2014). It is recognized that residents of low-income communities have less access to healthy foods but an abundance of unhealthy foods compared to their higher income counterparts. In addition, 13% of residents age 60 and over in Lassen and an additional 6 surrounding counties, are only sometimes able to find fruits and vegetables in their neighborhood (CHIS, 2014). Furthermore, in that same county region, 36.6% of seniors reported not able to afford enough food.

The aging of the population is particularly noticeable in PSA 2, where the senior population is already a significant element of the overall population and is continuing to grow. It is projected that the retiring "Baby-Boomers" will choose to retire within the PSA 2 AAA area at twice the percentage anticipated for California as a whole. In 2013, PSA 2 found that more than 27% of seniors surveyed had issues around acquiring at least 2 meals per day as reported in the PSA 2 Area Plan. Furthermore, 50% of the seniors surveyed in Lassen County are at nutrition risk. As a result of these findings, local intervention strategies include efforts aimed at improving access to healthy foods and beverages.

5. **Community Change Goals**

Nutrition and obesity prevention are the focus areas for Lassen County to increase the overall health of its residents. Lassen County's SNAP-Ed funded LIAs will concentrate their efforts on the SNAP-Ed eligible portion of the county's population and on SNAP-Ed allowable interventions and activities which align with the United States Department of Agriculture (USDA)- Western Regional Office (WRO) Evaluation Framework.

Lassen County will focus on nutrition education and obesity prevention as areas of need that are essential to increasing the overall health of county residents. The data directed the work plan towards school-based settings and community wide outreach events. We will be providing direct and indirect education through the use of approved curriculum in qualifying schools and providing indirect education to the public at community events.

LIAs will support long term community change goal in the county by working with community partners to identify and convene community–wide, multi-sector coalitions to meet the following goals:

1. Improve nutrition and physical activity knowledge in elementary school aged children
2. Create an environment that makes healthy food and beverage options the routine, easy choice in elementary school aged children.
3. Provide evidence–based education with a focus on behavior change goals in elementary school aged children and their parents.
4. Ensure opportunities for physical activity around the targeted institutions where SNAP-Ed populations can be found.

Lassen County SNAP-Ed LIAs will achieve the following three-year objectives:

1. By September 30, 2019 we will assist 15% of qualifying schools in Lassen County making changes to school wellness / nutrition policies and physical environment to support improved nutrition and physical activity behaviors among students, parents, and teachers through indirect and direct education in classroom and community settings.

2. By September 30, 2019, we will increase awareness of and access to healthy fruits, vegetables and other healthy options, beverages and physical activity resources to seniors and promote PSE changes in a minimum of one SNAP-Ed eligibly congregate meal sites.

These objectives will allow the LIA's to focus on the age specific groups to meet the goals within the parameters of the SNAP- Ed funds. We will focus on the following PSE strategies in the following settings:

- School settings Senior Congregate Meal Centers

The PSE strategies are detailed within each three-year objective, and speak to the connection to our community change goals.

6. **Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]**

Lassen County has a CNAP team that partners with the Lassen County Food Council and Lassen County Tobacco Use Reduction Program to address nutritional needs the community as they arise. The SNAP-Ed program will educate qualifying populations through demonstrations and classes. The Lassen County Food Council has plans to work with food banks, food pantries and soup kitchens to reach populations in food desserts. We participate in other community events that are hosted by the Lassen County Office of Education: Children's Fair, California Day, after school programs, Safe Routes to School, etc. Center for Healthy Communities (CHC,) at California State University, Chico is the AAA in Lassen County and collaborates with Lassen County Public Health on the integrated work plan and promoting SNAP-Ed services and activities by connecting with each other when completing the IWP activities. The Lassen County CNAP meets four times per year, while the Lassen County Food Council meets monthly.

X	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All educational materials, resources, and curriculum will be from approved resources and on the USDA SNAP-Ed Connection website (https://snaped.fns.usda.gov/), and / or FFY 2017 – 2019 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the California Department of Public Health- Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list.

Lassen County reviewed the approved integrated curriculum list provided by the state agencies, and reviewed each different piece to determine the best option for our target population. Curriculum, materials and resources were chosen to best reflect the needs of the population, as well as our SNAP-Ed three year and annual objectives. Most of our chosen curriculum is geared towards school-based settings, as this reflects the detail provided throughout our narrative summaries and below in the target audience description.

9. **Intervention and Evaluation Plan Narrative Summary**

The implementing agencies in Lassen County will conduct nutrition education and obesity prevention services at SNAP-Ed eligible sites. The intervention plan includes activities that provide comprehensive education on the benefits of balanced nutrition and physical activity. The LIAs will continue to provide direct and indirect nutrition education and provide physical activity education and promotion. LIAs will also train and support teachers as extenders to provide direct education in the classroom. Additionally, nutrition education will be provided to adults and older adult SNAP-Ed populations about healthy choices in the grocery store which will lead to better health outcomes using materials such as MyPlate and the Dietary Guidelines. The focus will be on behavioral changes to incorporate healthy food and beverage selection; increasing knowledge of MyPlate recommendations and exposure to and acceptance of new healthy foods.

The integrated work plan also work beyond the individual SNAP-Ed eligible populations to the environmental level of the Social Ecological Model (SEM) by including policy, systems and environmental (PSE) change efforts that include assisting in the implementation of school wellness policies that promote access to healthy foods and beverages, and physical activity.

Progressing to sector level of the SEM, LIAs will identify strategic partners and community-wide, multi-sector coalitions will convene to work on improving nutrition and physical activity. Community partners will be educated about supporting the marketing of healthy foods and beverages versus less healthy choices by supporting efforts to establish zoning ordinances around schools.

Evaluation processes will be used to improve services for all local objectives and intervention strategies. The evaluation plan includes formative, process and outcome evaluation activities using State and locally developed surveys. The locally developed Report of Activity Form (RAF) which is used to collect supporting documentation needed for the SNAP-Ed Activity Tracking Form (ATF). Education and Administration Reporting Systems (EARS) will be generated from the online ATF. Separate tracking of direct education taught by LIA staff and site staff trained by LIAs, such as teachers, will continue in an effort to better monitor effectiveness.

Participants will be requested to complete an evaluation survey that address, but is not limited to, the following indicators from the Western Region SNAP-Ed Evaluation Framework: Nutrition, Physical Activity, and Obesity Prevention Outcomes: MyPlate Behaviors (ST1 & MT1), Physical Activity Behaviors (ST3 & MT3), Fruit and Vegetables (LT2), Non-Dairy Beverages (LT5), Physical Activity Recommended Labels (LT7), and Entertainment Screen Time (LT8). At the environmental level, LIAs will also report as appropriate on the following SNAP-Ed Evaluation Framework indicators: Identification of Opportunities (ST4), Partnerships (ST6), and Marketing and Messaging (MT6). At the sector level, LIAs will report as appropriate on the following SNAP-Ed Evaluation Framework indicators: Community Partnerships (ST8), and Education (MT10). All LHD PSE projects will be reported using the RE- AIM evaluation framework to assess Reach, effectiveness, Adoption, Implementation, and Maintenance (RE-AIM).

The Center for Healthy Communities **("CHC," AAA** PSA2-LIA) will collaborate with **Lassen County LHD** and other unfunded partners to provide comprehensive multi-level behavior-focused strategies and intervention, which include nutrition education, physical activity, training and technical assistance to SNAP-eligible seniors and senior congregate meal sites to improve their health and well-being. CHC in collaboration with Lassen County LHD will provide an evidenced-based direct nutrition/ physical activity education to the senior sites. CHC will address the following approved interventions:

- Staff: Ongoing training and technical assistance regarding nutrition, physical activity, gardening, food safety, and/or food resource management as they relate to the SNAP-Ed senior population as well as environmental support for increased consumption of healthy foods and beverages, food safety, and increased physical activity among seniors at two congregate meal sites.
- Assist congregate meal site staff to create and implement policy and/or environmental changes (i.e. Increase of fresh fruits and vegetables in menus by 25%, increase physical activity opportunities at congregate sites by 25%, decrease the sodium content in meals served by 10%, etc.) Currently, CHC is identifying a policy environmental change related to healthy beverage options at one SNAP-Ed eligible site.
- Coordinate with local SNAP-Ed LIAs to create a complete and a collaborative county work plan

CHC Evaluation Plan Strategies

CHC will use a series of process evaluation protocols and fidelity measures to assess the trainings. Effectiveness of training on nutrition and physical activity will be measured by pre and post surveys. Ongoing results from this evaluation will inform subsequent nutrition trainings and technical assistance activities. The evaluation results will be used to revise and improve future trainings and identify possible environmental change efforts.

For direct education lessons, CHC will use curriculum-specific evaluations to determine program effectiveness.

Evaluation of environmental supports will focus on changes in at least one senior congregate meal site where nutrition education is provided. The environmental changes resulting from the development/adoption of a healthy food and beverage policy will be measured using RE-AIM, as indicated in the Western Regional SNAP-Ed Evaluation Framework: Nutrition, Physical Activity, and Obesity Prevention Outcome.

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

1. By September 30, 2019 we will assist 15% of qualifying schools in Lassen County making changes to school wellness/nutrition policies and physical environment to support improved nutrition and physical activity behaviors among students, parents, and teachers through indirect and direct education in classroom and community settings.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

School Environment Changes:

- Increased Knowledge Physical Activity
  - Structured Physical Activity
  - Murals / Stencils
  - Safe Routes to School
- Support Healthy Eating
  - Edible Gardens
- Update School Wellness Policy
  - Assist in the development and / or implementation of written site wellness policies and procedures to improve the nutrition and physical activity environment and to reduce screen time.

Lassen County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, SNAP-Ed funded partner activities will reach 100 school aged children and their parents with direct education at schools and 450 school aged children and their parents with indirect education at local community events; and will provide training and TA, as well as support the development and/or implementation of wellness policies in approved school sites that we provide education to.
2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, SNAP-Ed funded partner activities will reach 200 school aged children and their parents with direct education at schools and 450 school aged children and their parents with indirect education at local community events; and will provide training and TA, as well as support the development and/or implementation of wellness policies in approved school sites that we provide education to.
3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, SNAP-Ed funded partner activities will reach 200 school aged children and their parents with direct education at schools and 450 school aged children and their parents with indirect education at local community events; and will provide training and TA, as well as support the development and/or implementation of wellness policies in approved school sites that we provide education to.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Lassen County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019 we will assist 15% of qualifying schools in Lassen County making changes to school wellness/nutrition policies and physical environment to support improved nutrition and physical activity behaviors among students, parents, and teachers through indirect and direct education in classroom and community settings.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Provide indirect education activities at community events throughout all three years. Activities include but are not limited to classroom, cafeteria, and lobby display boards; family activity nights, family newsletters, etc. and may communicate messages from ReThink Your Drink, Harvest of the Month, etc. Food and beverage demonstrations and taste test may be provided. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**
By September 30, 2019, we will increase awareness of and access to healthy fruits, vegetables and other healthy options, beverages and physical activity resources to seniors and promote PSE changes in two SNAP-Ed eligibly congregate meal sites.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Promote Healthy Food and Beverage Standards

PSE Structured Physical Activity Programs

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017, PSA 2 AAA will provide a minimum of two staff trainings on nutrition, physical activity, food safety, and/or gardening training ongoing TA at a minimum of one congregate senior meal site.

   b. By September 30 2016, PSA 2 AAA increase the knowledge and consumptions of healthy foods and beverages in 30 seniors

   c. By September 30, 2016 PSA 2 will create and implement a PSE strategy and/or healthy site changes at one congregate senior nutrition meal site.

2. **FFY 2018 (Year 2) Objective(s):**

   a. By September 30, 2018, PSA 2 AAA will provide a minimum of two staff trainings on nutrition, physical activity, food safety, and/or gardening training ongoing TA at a minimum of one congregate senior meal site.

   b. By September 30, 2018, PSA 2 AAA increase the knowledge and consumptions of healthy foods and beverages in 30 seniors.

   c. By September 30, 2018 PSA 2 will monitor and update, as needed, PSE strategies and/or healthy site changes at one congregate senior nutrition meal site.

2. **FFY 2019 (Year 3) Objective(s):**

   a. By September 30, 2019, PSA 2 AAA will provide a minimum of two staff trainings on nutrition, physical activity, food safety, and/or gardening training ongoing TA at a two congregate senior meal site.

   b. By September 30, 2019, PSA 2 AAA will increase the knowledge and consumptions of healthy foods and beverages in 35 seniors.

   c. By September 30, 2019 PSA 2 will monitor and update, as needed, PSE strategies and/or healthy site changes at one congregate senior nutrition meal site.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Lassen County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

By September 30, 2019, we will increase awareness of and access to healthy fruits, vegetables and other healthy options, beverages and physical activity resources to seniors and promote PSE changes in two SNAP-Ed eligibly congregate meal sites.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Provide ongoing training and technical assistance to senior congregate site staff at one (year 1 and 2) and two (year 3) congregate meal sites. Trainings and technical assistance will promote approved nutrition education as well as environmental supports for increased consumption of healthy foods, beverages and increased physical activity among seniors. FFY 2018 SNAP-Ed Budget

Organization Name:	California Department of Aging
County/Jurisdiction:	PSA 2: Lassen, Modoc, Shasta, Siskiyou, Trinity (CSU, Chico Research Foundation)
FFY 2018 Total Budget:	**$33,055.00**
Budget Adjustment Request #:	

	Expenses*	FFY 2017 Carry-In Budget****	FFY 2017 Budget	FFY 2018 Budget	% Difference
1	Salaries/Benefits		$20,471	$25,740	25.74%
2	Non-Capital Equipment/Supplies		$264	$234	-11.36%
3	Materials		$1,092	$519	-52.47%
4	Travel		$2,000	$1,212	-39.40%
5	Building/Space		$99	$78	-21.21%
6	Maintenance		$122	$124	1.64%
7	Equipment and Other Capital Expenditures		$0	$0	
8	Contracts/Sub-Grants/ Agreements**		$0	$0	
	Total Direct Costs:	**$0**	**$24,048**	**$27,907**	16.05%
9	Indirect Costs*** Indirect Cost Rate= 18.5%		$5,269	$5,148	-2.30%
	Total Federal Funds	**$0**	**$29,317**	**$33,055**	12.75%

	Budget Categories	Justification For Greater Than 5% Difference From FFY 2017 Budget
1	Salaries/Benefits	Increase due to overall budget increase and benefit rates increases.
2	Non-Capital Equipment/Supplies	Decreased rates used in proration to better align with actuals.
3	Materials	Utilizing curriculum and support materials purchased in FFY 2017
4	Travel	Decreased to better align with need
5	Building/Space	Cost per month and FTE for proration updated, off-campus rent for office and storage space was consolidaded to decrease overall cost.
6	Maintenance	Cost per month and FTE for proration updated
7	Equipment and Other Capital Expenditures	
8	Contracts/Sub-Grants/ Agreements**	Not needed in 2018
9	Indirect Costs	Federally negotiated indirect cost rate agreement decreased from 22% to 18.5% of MTDC

*Provide narrative describing all expenses.

**Retain copies on site.

***Provide assurances that the indirect cost rate is an approved rate (Financial and Cost Policy Supplement).

****Please note that funds cannot be carried over into the next Federal Fiscal Year if the funds are in the last year of their 2-year period of performance.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

City of Long Beach

Three-Year
Integrated Work Plan
FFY 2017–2019

County Name: City of Long Beach

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
x	**California Department of Public Health: CDPH: (Local Health Department: LHD)**
	California Department of Aging: CDA: (Area Agency on Aging: AAA)
	Catholic Charities of California: CCC: (Catholic Charities of California: CCC)

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.

- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

City of Long Beach

Three-Year
Integrated Work Plan
FFY 2017–2019

3. **Jurisdiction Description**

The City of Long Beach (CLB) is an urban city in southern Los Angeles County - 7th largest in California and 36th largest in the nation - that based on 2014 ACS population estimates is home to nearly half million (473,577) diverse residents. Long Beach has an ethnic mix of Latinos (41.3%), Caucasians (28.8%), African-Americans (13.5%), Native Hawaiian or Pacific Islander (1.7%), and Asians (12.8%), including the largest population of Cambodians outside of Southeast Asia. In total, 20.6% of the City's population 5 years and older speak English less than "very well." Although there are many upper-income neighborhoods within the City of Long Beach, 20.7% of the population is living below poverty. Total percent living below the poverty level is higher than Los Angeles County as a whole (18.7%) and/or California (16.4%). Based on the 2010-2014 American Community Survey 5-year estimates, 18,576 households currently receive SNAP (CalFresh) benefits.

The CLB's Department of Health and Human Services (LBDHHS) – 1 of 3 city-operated local health jurisdictions in California and one of only 3 local health departments in California that has received national accreditation to date – has been committed to improving the lives of CLB residents for over 100 years. Local provision of public health services allows the LBDHHS to tailor its programs to meet the distinctive and diverse public health and human services needs of the residents of the City of Long Beach. In its Community Health Improvement Plan (CHIP), LBDHHS concluded that 3 behaviors (lack of physical activity, poor nutrition, and tobacco use) contribute to 5 chronic diseases (heart disease, cancer, respiratory conditions, stroke and diabetes). These 5 diseases account for 66% of all deaths in Long Beach. Two of the 3 behaviors identified – poor nutrition and lack of physical activity – are key contributors to obesity. For these reasons, Long Beach benefits from the program and evidence-based activities funded through the Nutrition Education and Obesity Prevention Grant (NEOP) program.

Obesity, and related chronic diseases, are significant problems in Long Beach with more than half (64%) of all adults classified as either overweight or obese. Only half of adults are meeting physical activity recommendations and only about 1 in 7 Long Beach adults are eating the minimum recommendation of fruits and vegetables per day.

Based on the Free and Reduced Meal (FRPM) data, 59 of the 89 schools within Long Beach Unified School District are eligible for NEOP funding, among them 37 have >80% of students qualify for the program. In 2010, over 27.2% of students in the Long Beach Unified School District were classified as obese, and another 19.8% were overweight. Data from 2009 shows that out of all 58 counties and jurisdictions in the state, Long Beach had the highest rate of obesity/overweight (40.4%) among low-income 2-to-5 year olds. Some neighborhoods, including those that make up our Communities of Excellence (CX3) Neighborhoods, have even higher youth obesity rates: Downtown West – 30.6%; North – 32.7%; and West – 28.6%. Less than 40% of 5th (25.6%), 7th (35%) and 9th (37.4%) graders in Long Beach Unified, who participated in the 2014-2015 California Departments of Education Physical Fitness Test, met all six of the Healthy Fitness Zone standards (HFZ) – this drops to less than 20.8-30.1% for youth classified as "economically disadvantaged." And recent findings from the 2010-2011 California Healthy Kids Survey found that while 81% of participants in grade 5 reported that they ate breakfast that morning, the percent drops down to only 59% for

participants in the 11th grade. The report also showed that only 58% of 5th graders stated that they exercised 5 days a week or more and that 28% felt they were not the right weight. When asked about body weight and body image, 29% of 5th graders who participated in the study reported that they were sometimes teased about how their body looks. Based on this data, The City of Long Beach benefits from nutrition education paired with physical activity related interventions that target both kids and adults in the school, afterschool, and community environments.

Long Beach has a large variety of recreational opportunities for its residents and visitors, with an estimated 2,600 acres of recreation open space. The City of Long Beach is ranked 24 out of 60 largest cities for park space, with 20% of the population not served by a park within a 10 minute walking distance. Within Long Beach's total 50.26 square miles, the quantity and perceived accessibility of green space varies. There is a lack of green space compounded by population growth in the Downtown, Central, West, and North sections of the city that makes access to recreation open space problematic for much of the population in these areas. Data from the 2011 LA County Health Survey and Long Beach Community Health Assessment shows us that only 39% of children and teens are engaging in regular physical activity, a decline from the 40.7% reported in 2007 and 14.9% of neighborhoods do not have a walking path, park, playground, or sports field. Program activities funded through the NEOP grant seek to address some of the barriers by providing nutrition and physical activity programming at park, schools, and community sites throughout the City and improving mobility options for SNAP-Ed eligible neighborhoods. Working together with the City's Development Services and Public Works departments as well as multiple community based organizations we hope to build upon the momentum that currently exists to help make our low-income neighborhoods more pedestrian and bike friendly for all residents.

In addition to having less open and recreational space, low-income neighborhoods in Long Beach have less access to healthy food options as compared with the more affluent neighborhoods in the East and Southeast parts of town. Communities of Excellence (CX3) was conducted in 2009, 2010 and again in 2013, a total of 10 neighborhoods have been assessed. Data from the surveys showed that in the low-income Central, Downtown and Westside CX3 neighborhoods residents have less access to fresh and affordable fruits and vegetables, other healthy food sources and that safety and walkability are areas of concern for all 10 neighborhoods. To address the challenges identified by our CX3 assessments, other data sources, and qualitative data shared community participants and partners, we plan to continue the PSE work began in FY14 to improve and promote walkability in our 10 CX3 neighborhoods, increasing healthy food access through partnerships with local retail stores, as well as our school and community gardens/farms. We will also plan to provide both direct and indirect nutrition education as part of these activities.

4. **Community Assessment**

The assessment data utilized to identify intervention strategies includes the following: information on demographics, health, and community and environmental settings. By utilizing a comprehensive set of assessment measures to inform the development of the work plan, the City of Long Beach SNAP-Ed local implementing agency partnership (LIA partnership) has identified the populations and areas of highest need and designed a strategy to implement a coordinated set of interventions that address all levels of the socio-ecological model and provide long term benefit to the SNAP-Ed eligible population. The data identified

and input from funded and unfunded partners was vital to help us identify priority strategies, especially as we face decreasing funds in FFY17-19. Our needs assessment identified that our direct nutrition education classes for adults, children, and families that take place in community settings, our work conducted in partnership with LBUSD, and our policy systems and environmental change objectives related to healthy markets, community gardens, and pedestrian/bike transportation should remain top priorities. As funds decrease, we will unfortunately have to decrease our presence at community events and will look for a new funding source to continue the Jr. Beach Runners' program. These changes are reflected in our FFY17-19 workplan.

Based on existing data sets, the following are examples of the assessment data used to describe the City of Long Beach's Health Jurisdiction and identify strategies to be implemented as part of our FFY17-19 work plan:

- City of Long Beach Department of Health and Human Services, Community Health Improvement Plan
- Los Angeles County Department of Public Health, 2011 LA Health Survey.
- City of Long Beach Department of Health and Human Services, Community Health Assessment, 2013
- Los Angeles County Department of Public Health, 2007 LA Health Survey.
- Long Beach Unified School District, Youth Body Mass Index (BMI), 2010: http://lbcdb.cgu.edu/datatables
- Polhamus, B, et al, Pediatric Nutrition Surveillance 2009 Report, Atlanta: US Department of Health and Human Services, Centers for Disease Control and Prevention, 2011
- Long Beach Unified School District, California Healthy Kids Survey Report, 2010-2011
- 2014 City Park Facts, information also available at http://parkscore.tpl.org
- U.S. Bureau of the Census 5-Year American Community Survey, 2010-2014
- California Department of Education, 2014-2015 California Physical Fitness Report
- California Department of Education, -2014-15 California Longitudinal Pupil Achievement Data System (CALPADS) Fall 1, Free and Reduced Meal Data (FRPM)

This work plan was also informed by Communities of Excellence in Nutrition, Physical Activity, and Obesity Prevention (CX3) assessments conducted in ten low-income neighborhoods as well as meetings with community groups and members to share the findings and identify areas for future action. Organizations and groups within our CX3 neighborhoods are interested in working together on initiatives and activities to improve food systems and increase access to healthy foods through retail and garden programs. These ideas and actions are also in line with the Policy, Systems and Environment (PSE) change efforts detailed in the Intervention Plan. In FFY17 we will again re-assess our CX3 neighborhoods and adjust strategies as necessary to meet any changes to the identified needs of our SNAP-Ed population. As we face decreasing funds in the upcoming years, LHD community assessments activities were done with LHD staff, subcontractors, and

non-funded partners to identify goals and prioritize activities included in the FFY17-19 Workplan. The community assessment also provided us with the opportunity to identify potential new partners and opportunities for coordination and collaboration to ensure the needs of our jurisdiction are met.

5. **Community Change Goals**

Based on results of the Community Assessments, existing and new data were incorporated into our LIA assessment pool to help determine local need. We worked with our funded and un-funded partners to determine our community change goals (that relate to this SNAP-Ed work plan). They include:

1. Increase consumption of and access to fruits, vegetables, and other healthy foods
    - Increasing healthy retail options from local corner stores
    - Increasing healthy food options from community gardens and/or farms
    - Increasing consumption through direct and indirect nutrition education activities
    - Increasing food resource management skills for SNAP-Ed eligible residents in Long Beach
    - Increasing food consumption via indirect education conducted at community events
    - Support school efforts to implement Smarter Lunch Room at select elementary schools throughout the district.
2. Increase physical activity rates for all residents
    - Increase opportunities for physical activity in school, after-school, and in neighborhood settings
    - Support policies that promote safe active transport
    - Improve mobility for SNAP-Ed eligible adults and children to get to/from work, school, parks, and to access healthy food sources in their neighborhoods.
    - Promote walk/bike to school week at eligible school sites.
3. Increase/Improve environmental supports for nutrition and physical activity
    - Increasing access to healthy foods in schools and neighborhoods via gardens, farms, and healthy market programs.
    - Further development and promotion of plans and toolkits to improve safe active transport
    - Provide training to implement evidence-based physical activity curriculum in both school and after-school programs.
    - Provide resources, training, and technical assistance to community partners.
    - Support community groups and local policies designed to improve mobility, access to healthy foods, and/or improve physical activity levels.

We recognize that many of these community change goals are multi-year strategies, and require the support of external partners and additional funding streams. The City of Long Beach DHHS (LHD), along with our funded and un-funded partners, are committed to working together to achieve these community goals – LHD contributions will be based on agency expertise and SNAP-Ed allowability.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

City of Long Beach

Three-Year
Integrated Work Plan
FFY 2017–2019

The LHD, and its partners, has selected to work in the Live, Learn, Shop, Work, and Play portfolio settings and determined based on the larger community change goals, to set SMART local objectives FFY17-19 around the following areas:

1. By September 30, 2019, conduct series-based and single-session nutrition education classes for SNAP-Ed eligible **adults and/or families** (at least 300 unduplicated) to increase consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans. Classes will include interactive cooking demonstrations, healthy food tasting, and/or physical activity integration when time and space allow.
2. By September 30, 2019, conduct series-based and single-session nutrition education classes as well as physical activity promotion activities for SNAP-Ed eligible **children and teens** (at least 400 unduplicated) to increase consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans. Classes will include interactive cooking demonstrations, healthy food tasting, and/or physical activity integration when time and space allow. Included in this objective are activities conducted as part of the Power Up Your Summer campaign for youth.
3. By September 30, 2019, increase consumption and access to fruits and vegetables from community gardens through the support of at least 1 community-based garden (LB Peace Garden) and promote participation in community gardens and urban farms in SNAP-Ed eligible neighborhoods throughout Long Beach by hosting garden based nutrition education classes, cooking demonstration, garden harvest stands, community garden workdays, and/or community events in the garden(s) to reach at least 600 SNAPE-Ed eligible adults/children.
4. By September 30, 2019 Host and/or participate in at least 20 community health fairs, events, farmers' Markets and/or forums in SNAP-Ed eligible neighborhoods. Participation in events may include hosting education booths, cooking demonstrations, PA integration activities and/or presentations. (at least 10,000 reached)
5. By September 30, 2019, increase access to fresh fruits, vegetables, and other healthy foods, use the CX3 Store Survey and Scorecard as a guide, and provide resources and technical assistance to at least 3 new corner stores located in SNAP-Ed eligible neighborhoods who participate in our voluntary Healthy Retail Program.
6. By September 30, 2017, conduct series-based classes for youth (3rd-5th grade) at 8 after-school programs located on eligible school sites (at least 200 unduplicated) and host/attend physical activity events for participants and their families. The classes will be conducted in the fall, spring, and summer sessions and will be designed to increase physical activity and the consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans. Classes will include healthy food tasting and physical activity integration.
7. By September 30, 2019 increase consumption of fruits and vegetables by conducting nutrition education classes for youth at eligible schools in Long Beach that include tastings and, where possible, provide support to establish/maintain a school garden that will be linked to the classroom education. HOTM parent letters will be used to reach adults. Provide technical assistance and resources to support the school districts Smarter Lunch Room objectives. Also, increase opportunities for physical activity and support safe active transportation efforts by increase physical activity levels, implementing SPARK activities at school sites that received training in FFY15-16 and promoting walk/bike to school day each year in October. (50,000 children and 3,500 adults reached)

8. By September 30, 2019, continue to collaborate and coordinate meetings with funded and un-funded partner agencies in the community at least six times per year to support strategies and interventions designed to achieve our PSE goals and objectives related to mobility (walk/bike), access to healthy foods and other environmental supports for nutrition/physical activity. Provide coordinated nutrition and physical activity education, information, and resources to low-income SNAP-Ed eligible community members in Long Beach as part of a collective impact approach.

SNAP-Ed funding will work to support local SNAP-Ed eligible neighborhoods. Given that the City of Long Beach is its own health jurisdiction within a larger county (Los Angeles County), the City of Long Beach Department of Health and Human Services will work on the 10 local objectives listed above – with the support and collaboration with other programs/agencies/entities that may or may not receive SNAP-Ed funding working within its population reach and area of expertise. Through these collaborations, the LHD is uniquely positioned to support these larger community change goals with work in nutrition education, media and public relations, coalition building, and training support and technical assistance. Much of the larger community change goal work will require additional funding to support capital improvements and policy advocacy, but the SNAP-Ed contribution will remain exclusive to SNAP-Ed eligible populations and allowable activities. Direct education is the foundation of SNAP-Ed. The LHD will provide nutrition and physical activity education, as well as support for policy, systems and environmental changes.

Although there are no other SNAP-Ed LIA's in the jurisdiction, our LHD funded partners will work together with community partners to ensure a coordinated approach to achieving our FY17-19 Objectives. We will also work collectively with our partners to leverage existing resources and seek out new funding sources to help fill gaps created by decreased NEOP funding levels in FFY18-19.

6. Partnerships and Collaborative Efforts

The City of Long Beach LHD partnership includes individuals and agencies, both Food and Nutrition Service (FNS) funded and unfunded, that serve the low-income population in food and nutrition related education, assistance, and physical activity programs and promotions. The goal of the group is to increase our collective impact by coordinating and leveraging nutrition messages, education, and services between United States Department of Agriculture (USDA) funded nutrition assistance programs and other applicable agencies in the City to increase food security and health in the target population. Agencies included in this partnership, which provided input into the development of this plan, include: Long Beach Unified School District, Long Beach WIC, Long Beach Tobacco Education Program, Long Beach Parks and Recreation, City Fabrick, Long Beach FRESH, Project Plateful, The Children's Clinic, Building Healthy Communities, Long Beach Alliance for Food and Fitness, and staff from the City's Development Services and Public Works Departments. Our LHD partnership meetings 2-4 times each year to coordinate and collaborate together to help us achieve our project's goals and objectives.

Throughout the year we participate in multiple community groups that align with our behavioral and/or PSE goals and objectives. The groups include: the Long Beach Alliance for Food and Fitness Collaborative (monthly), the BHC Food Access and Neighborhood Workgroups (monthly), W. Long Beach Livability

Committee (Quarterly), Long Beach Best Start Collaborative (monthly) and multiple mobility related meetings and committees (6-12x a year).. We also meet with our funded partners each month and provide technical assistance and coordination as needed.
In addition to our local meetings and collaborative groups, we will promote SNAP-Ed services and activities within our jurisdiction by connecting with other agencies, such as the LA County Department of Social Services. We will continue to participate in the Los Angeles County CNAP group which consist of agencies that are both Food and Nutrition Service (FNS) funded and unfunded that serve the low-income population in food and nutrition related education, assistance, and physical activity programs and promotions. The goal of the group is to coordinate and leverage nutrition messages, education, and services between United States Department of Agriculture (USDA) funded nutrition assistance programs and other applicable agencies in the county to increase food security and health in the target population. Los Angeles County specific scope of work, objectives and strategic plan will be developed with the goal of increasing access to healthy foods, beverages and physical activity for the target population. Los Angeles County CNAP member agencies include: Women, Infant and Children (WIC), Area Agency on Aging (AAA), Department of Aging (DOA), Long Beach Department of Health and Human Services (LBDHHS) Pasadena DPH, Los Angeles Unified School District (LAUSD), UC Cooperative Extension (EFNEP), 211, Department of Public Social Services (DPSS), Child & Adult Care Food Program (CACFP), Los Angeles County DPH, Food Banks, Restaurants, California Food Policy Advocates, Farmers' Markets, Hunger Coalition LA, Eat Fresh, L.A. Kitchen, Maternal Child and Adolescent Health (MCAH) and others as applicable. The meeting is scheduled and coordinated by LA County DPH approximately 4 times each fiscal year (quarterly).

	Sodium & Potassium				
x	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All educational materials, resources, and curriculum will be approved through the USDA SNAP-Ed Connection website (https://snaped.fns.usda.gov/), and/or FFY 2017-2019 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the California Department of Public Health - Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list. All curricula and materials will be defined and appropriate for the target audience identified in Section B: Target Audience Description of this document and selected to achieve the goals and objectives identified in Section C: Intervention Plan.

9. **Intervention and Evaluation Plan Narrative Summary**

The implementing agency (LHD) in the City of Long Beach will provide comprehensive multi-level behavior-focused strategies and interventions which include nutrition education and physical activity promotion, community events, training and technical assistance, while also utilizing media and public relations and coordination/collaboration with partners throughout the city health jurisdiction. The agency will promote the current Dietary Guidelines and SNAP-Ed intervention strategies that have been proven to support behavior change.

The LHD will conduct activities at the individual and interpersonal level of the Social Ecological Model. They will also incorporate the environmental approach which may address several or all elements of the socio-ecological model targeting interpersonal as well as organizational and community venues; address Training and Technical Assistance of their personnel or the community. Additionally, the LHD will provide Community/Nutrition Education Direct, Community/Nutrition Education Indirect, Media, Social Media, Public Relations and Messaging, Technical Assistance, and Coordination and Collaboration with their service populations.

To achieve the objectives detailed in this plan, and to best meet the needs of the SNAP-Ed community, the LHD will conduct activities in the Live, Learn, Shop, Work, and Play settings. Activities are designed to complement and reinforce each other and will collectively reach all targeted age groups.

The LHD will employ evidence-based, practice-tested, research-tested, and emerging interventions to achieve the Local Objectives outlined in the Intervention Plan. The objectives and activities for the integrated work plan were derived from results obtained via the agency's community assessments, input from community partners. As the City of Long Beach is its own health jurisdiction, the LHD created the Work Plan so that objectives and activities will be done based on its experience and expertise in order to successfully complete the Work Plan Objectives.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

City of Long Beach

Three-Year
Integrated Work Plan
FFY 2017–2019

A summary of our Work Plan Interventions for FFY 17-19:

Direct Nutrition Education Interventions

- Single session and series-based nutrition and physical activity education classes/workshops designed to increase physical activity levels as well as the consumption of fruits, vegetables, and other healthy foods. Using evidence-based curriculum and resources, these direct nutrition education activities will be conducted at school, community, housing, work, parks, and after-school sites to reach adults, children, teens, and families.

Indirect Nutrition Education Interventions

- Promote participation in community gardens by hosting educational garden tours, cooking demonstrations, garden harvest stands, and/or community events in the garden.
- Create and post signage in the gardens that promote eating fruits and vegetables.
- Host and/or participate in community health fairs, events, farmers' markets, physical activity focused events, and/or community forums. Participation in these events may include distribution of approved material at education booths, cooking demonstrations, PA integrations activities and/or presentations.
- Healthy food demonstrations and activities conducted at food retail stores.
- Activities that promote walking/biking in the community/schools.

Policy, Systems, and Environmental Change Interventions

- Healthy Market Partnership Program
- Community Gardens
- School Gardens
- Improved Mobility (Walking/Biking)
- Support policies related to healthy food access and safe active transport
- Smarter Lunch Room Movement
- Conduct CX3 (re-assess) to measure changes in the food retail and walkability indicators for targeted CX3 neighborhoods.

Collaboration, Training and Technical Assistance

- Provide resources and training to staff and community partners to encourage and support consistent nutrition education messaging and education city-wide
- Attend and participate in local efforts/community groups to support State and Local Level Objectives
- Collaborate and coordinate with funded and un-funded partners to achieve Local Level Objectives

- Participate in mobility related meetings/committees that support PSE strategies outlined in this work plan.
- Share data and priority recommendations from CX3 neighborhood assessments with partners and community leaders.

Our Evaluation Plan Summary for FFY17-19 includes:

Formative Evaluation
Communities of Excellence in Nutrition, Physical Activity, and Obesity Prevention (CX³) assessments were collected in 10 neighborhoods where NEOP funded efforts were implemented. Assessments were aggregated and analyzed by the California Department of Public Health. The data is being used to mobilize community members to support and work toward change in their communities. In 2017 we will re-assess to identify changes in the walkability and retail environment and will revise our PSE efforts based on the new findings.

Process & Outcome Evaluation
Process evaluation will detail reach of SNAP-Ed programming and progress toward local implementation goals through use of the online Activity Tracking Form and corresponding EARS and SAAR reports, as well as analysis of progress toward completion of project deliverables. Information gleaned from these evaluation activities can be used to identify implementation challenges that must be addressed and successes that must be leveraged to continuously improve NEOP programming.

Policy, Systems, and Environmental Change strategies implemented by subcontracted community partner and internal programs will be monitored using the RE-AIM framework. Data collected can be used to make course corrections and improvements to the strategy during implementation and maintenance phases. The data collected can also add to the evidence base for related strategies, helping to strengthen future PSE interventions.

Impact Evaluation
Impact Outcome Evaluation (IOE) of the nutrition education conducted in the classroom will be conducted using the Network Youth Survey. A matched-pair, pre/post evaluation design will be used to collect data from individual participants. To increase rigor of our IOE, we will be looking to compare sites that have access to a garden as part of their intervention against those who do not and/or sites where SPARK has been implemented.

Three-Year
Integrated Work Plan
FFY 2017–2019

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

By September 30, 2019, conduct series-based and single-session nutrition education classes for SNAP-Ed eligible **adults and/or families** (at least 300 unduplicated) to increase consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Community Gardens: may be used for class site (1.4), produce produced in garden may be incorporated into lesson (1.4), and gardens support behavior change by increasing access to fresh fruits and vegetables (Local Objective #3).
- Healthy Market Partnership Program (Local Objective #5): support behavior change by increasing access to fresh fruits and vegetables.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

    a. By September 30, 2017, conduct series-based and single-session nutrition education classes for SNAP-Ed eligible adults and/or families (at least 150 unduplicated) to increase consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans. Classes will include healthy food tasting and/or physical activity integration when time and space allow.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30, 2018, conduct series-based and single-session nutrition education classes for SNAP-Ed eligible adults and/or families (at least 75 unduplicated) to increase consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans. Classes will include healthy food tasting and/or physical activity integration when time and space allow.

City of Long Beach

Three-Year
Integrated Work Plan
FFY 2017–2019

3. **FFY 2019 (Year 3) Objective(s):**

   a. By September 30, 2019, conduct series-based and single-session nutrition education classes for SNAP-Ed eligible adults and/or families (at least 75 unduplicated) to increase consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans. Classes will include healthy food tasting and/or physical activity integration when time and space allow.

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):
By September 30, 2019, conduct series-based nutrition education classes for SNAP-Ed eligible adults and/or families (at least 100 unduplicated) to increase consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation

FFY 2017–2019

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**

By September 30, 2019, conduct series-based and single-session nutrition education classes as well as physical activity promotion activities for SNAP-Ed eligible **children and teens** (at least 400 unduplicated) to increase consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Community and School Gardens: may be used for class site (2.4), produce from the garden may be incorporated into lesson, and gardens support behavior change by increasing access to fresh fruits and vegetables (Local Objectives #3 and #7).
- Mobility/Safe Active Transportation: efforts to improve pedestrian and bike options encourage and support physical activity (Local Objectives #7 and #8).

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

    a. By September 30, 2017, conduct series-based and single-session nutrition education classes as well as physical activity promotion activities for SNAP-Ed eligible **children and teens** (at least 200 unduplicated) to increase consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans. Classes will include interactive cooking demonstrations, healthy food tasting, and/or physical activity integration when time and space allow. Included in this objective are activities conducted as part of the Power Up Your Summer campaign for youth.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30, 2018, conduct series-based and single-session nutrition education classes as well as physical activity promotion activities for SNAP-Ed eligible **children and teens** (at least 100 unduplicated) to increase consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans. Classes will include interactive cooking demonstrations, healthy food tasting, and/or physical activity integration when time and space allow. Included in this objective are activities conducted as part of the Power Up Your Summer campaign for youth.

3. **FFY 2019 (Year 3) Objective(s):**

    a. By September 30, 2019, conduct series-based and single-session nutrition education classes as well as physical activity promotion activities for SNAP-Ed eligible **children and teens** (at least 100 unduplicated) to increase consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans. Classes will include interactive cooking demonstrations, healthy food tasting, and/or physical activity integration when time and space allow. Included in this objective are activities conducted as part of the Power Up Your Summer campaign for youth.

SECTION C: INTERVENTION PLAN

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

City of Long Beach

Three-Year
Integrated Work Plan
FFY 2017–2019

I. **Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):**
To increase access to fresh fruits, vegetables, and other healthy foods, by September 30, 2019, using the CX3 Store Survey and Scorecard as a guide, provide resources and technical assistance to at least 3 new corner stores located in SNAP-Ed eligible neighborhoods who participate in our voluntary Healthy Market Partnership Program.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Community Gardens/Farms – possible link to provide low-cost fruits and vegetables to be sold in our healthy markets. (Local Objective #3)
- Mobility/Safe Active Transportation: efforts to improve pedestrian and bike options encourage and support physical activity (Local Objective #8) and as described in CX3 Safety and Walkability Assessments, may improve access to healthy foods sold at local markets that participate in the Healthy Market Partnership program.
- Healthy Retail

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. To increase access to fresh fruits, vegetables, and other healthy foods, by September 30, 2017, using the CX3 Store Survey and Scorecard as a guide, provide resources and technical assistance to at least 1 new corner store located in SNAP-Ed eligible neighborhoods who participate in our voluntary Healthy Market Partnership Program.
2. **FFY 2018 (Year 2) Objective(s):**
    a. To increase access to fresh fruits, vegetables, and other healthy foods, by September 30, 2018, using the CX3 Store Survey and Scorecard as a guide, provide resources and technical assistance to at least 1 additional corner store located in SNAP-Ed eligible neighborhoods who participate in our voluntary Healthy Market Partnership Program.
3. **FFY 2019 (Year 3) Objective(s):**

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #6 (FFY 2017–FFY 2019):**

By September 30, 2017, conduct series-based classes for youth (3rd-5th grade) at 8 after-school programs located on eligible school sites (at least 200 unduplicated) and host/attend physical activity events for participants and their families designed to increase physical activity and the consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
	Goal 4: Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Community and School Gardens – used as possible education sites, access to healthy foods, and will reinforce fruits and vegetables featured as part of classes. (Local Objectives #3 and #7)
- Mobility/Safe Active Transportation: efforts to improve pedestrian and bike options encourage and support physical activity (Local Objective #8)

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, conduct series-based classes for youth (3rd-5th grade) at 8 after-school programs located on eligible school sites (at least 200 unduplicated) and host/attend physical activity events for participants and their families. The classes will be conducted in the fall, spring, and summer sessions and will be designed to increase physical activity and the consumption of fruits, vegetables, and other healthy foods as described in the USDA Dietary Guidelines for Americans. Classes will include healthy food tasting and physical activity integration.
2. **FFY 2018 (Year 2) Objective(s):**
    a. Due to decreased funding, and based on priorities identified by funded and un-funded community partners, this objective will not be funded by NEOP/SNAP-Ed in FFY18. We will work with our partners to try and identify a new funding source to sustain this activity and will continue to provide technical assistance, coordination and collaboration, and nutrition resources as appropriate.

Three-Year
Integrated Work Plan
FFY 2017–2019

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #8 (FFY 2017–FFY 2019):**

By September 30, 2019, continue to collaborate and coordinate meetings with funded and un-funded partner agencies in the community at least six times per year to support strategies and interventions designed to achieve our PSE goals and objectives related to mobility (walk/bike), access to healthy foods and other environmental supports for nutrition/physical activity.

SNAP-Ed State Goals:

	Goal 1: Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Community and School Gardens (Local Objectives #3 and #7)
- Mobility/Safe Active Transportation: efforts to improve pedestrian and bike options encourage and support physical activity
- Healthy Retail (Local Objective #5)

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, continue to collaborate and coordinate meetings with funded and un-funded partner agencies in the community at least six times per year to support strategies and interventions designed to achieve our PSE goals and objectives related to mobility (walk/bike), access to healthy foods and other environmental supports for nutrition/physical activity. Provide coordinated nutrition and physical activity education, information, and resources to low-income SNAP-Ed eligible community members in Long Beach as part of a collective impact approach.

City of Long Beach

Three-Year
Integrated Work Plan
FFY 2017–2019

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, continue to collaborate and coordinate meetings with funded and un-funded partner agencies in the community at least six times per year to support strategies and interventions designed to achieve our PSE goals and objectives related to mobility (walk/bike), access to healthy foods and other environmental supports for nutrition/physical activity. Provide coordinated nutrition and physical activity education, information, and resources to low-income SNAP-Ed eligible community members in Long Beach as part of a collective impact approach.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, continue to collaborate and coordinate meetings with funded and un-funded partner agencies in the community at least six times per year to support strategies and interventions designed to achieve our PSE goals and objectives related to mobility (walk/bike), access to healthy foods and other environmental supports for nutrition/physical activity. Provide coordinated nutrition and physical activity education, information, and resources to low-income SNAP-Ed eligible community members in Long Beach as part of a collective impact approach.

Three-Year SNAP-Ed Local Objective #8 (FFY 2017–FFY 2019):
By September 30, 2019, continue to collaborate and coordinate meetings with funded and un-funded partner agencies in the community at least six times per year to coordinate and support strategies and interventions designed to achieve our PSE goals and objectives related to mobility (walk/bike), access to healthy foods and other environmental supports for nutrition/physical activity.

Definition and basis for calculations of benefit rate(s):
Describe what is covered in the benefit rate for your agency.

Includes PERS/PARS, Pension Bond, FICA, Medicare, Insurance, and Workers Comp costs as a percentage of salaries.

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: City of Long Beach Department of Health and Human Services

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	Office supplies includes paper, pens, ink/toner, and other small office supplies for LHD staff conducting NEOP funded activities. The cost is estimated at $26 per month x 12 months x 6.23 FTE	6.23	$26.20	12	$1,959	
2			Postage	Cost for mailing out program materials and required documents as part of our FFY17 Workplan and Contract. Cost is estimated at 2 pieces per month x .49 x 12 months + shipping costs of $20 x 2 times per year.	1	$51.76	1	$52	
				Theft-sensitive equipment/supplies that are less than $5,000 (Computers, printers, projectors, etc.)					
1			None					$0	
							Total Non-Capital Equipment/Supplies:	**$2,011**	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Printing	Cost for printing program marketing material such as flyers, brochures, small posters, and banners etc. ($4,000), and NEOP approved material such as 10-tips, recipe cards, retail material, etc. ($2,000). Cost estimates received by City approved vendors. All vendors used are approved by the City bid process to ensure lowest cost vendor is used each time.	$6,000.00	1	$6,000	
2			Food Demo Expenses	Cost is for food and supplies (cups, plates, table covers, gloves, etc.) used to conduct our food demonstrations/tasting activities included in our FFY17 workplan objectives. Cost is estimated at $2 per sample + .50 for related supplies x 3000 samples.	$2.50	3000	$7,500	
3			Small Cooking Items	Cost for the purchase/replacement of small cooking items (cutting boards, mixing bowls, storage containers, etc) necessary to conduct food demonstrations. Cost is estimated at $100 for the year for small cooking items + 2 beverage dispensers for RYD water at $30 each.	$160.00	1	$160	
4			Garden Supplies	Cost for the purchase of supplies such as gardening tools, rakes, shovels, hoes, clippers, gloves, liner, wire, rope, troffs, soil, fertilizer, fruit/veggie seeds, plants, pots, mulch, picks, etc, to support edible gardens located in SNAP-Ed eligible neighborhoods. The cost for garden supplies was estimated based on actual costs to support the gardens in FFY17. All supported community gardens/garden plots are located at NEOP eligible sites and integrated into direct/indirect education and PSE activities. The cost is an average of $80 per month x 12 months for supplies to support plots at 2-3 community gardens. Supplies purchased follow the USDA/NEOP guidance for garden supplies.	$80.00	12	$960	
5			Material Translation	Cost is for the translation of approved material (flyers, brochures, recipe cards, etc) into Khmer (Cambodian). Cost is estimated at $50 per page x 5 pages.	$50.00	5	$250	
6			Community Event Expenses	Cost includes expenses related to hosting/participating in community nutrition education events (Kids in the Kitchen, Power Up Your Summer, Frruit and Veggie Fest, etc.). Examples of event costs include: registration fees ($100), facilities usage related fees (space, maintenance, etc.) ($100), rental of tents, chairs, tables, stage, and sound system ($3000). Events estimated at 2-3 per year, 250-1,000 reached per event). For community events again these costs are estimated based on actual community event related expenses in FFY17 and/or based on cost estimates received by City approved vendors (all vendors used are approved by the City and a bid process is completed to ensure the lowest cost vendor is used each time for each service). *Costs per items will follow CDPH pre-approved cost amounts and/or be pre-approved by NEOP prior to rental.*	$3,200.00	1	$3,200	
7			Art Supplies	Cost estimate includes purchase of paint, brushes, colored pencils, and other small art supplies (markers, construction paper, wooden sticks used for plant markers, and small items such as pipe cleaners and yarn) for conducting nutrition education activities with youth as part of our IWP activities. Cost is estimated at $5 per person x 50 people.	$5.00	50	$250	

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: City of Long Beach Department of Health and Human Services

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved					
8			Staff Shirts	Logo Shirts to be used/worn by NEOP/LHD funded staff at NEOP sponsored/funded events. Logo (program name with Champions for Change/SNAP-Ed logo) shirts are worn by LHD funded staff and are used to help "brand" the program while conducting community based activities, are worn for public events where media are present, and ensure that the work we do is recognized as being "SNAP-Ed" funded and not just a LB Health Department Program. Price is estimated at $23 per FTE x 6.23 FTE	$23.00	6.23	$143
9			Nutrition/Physical Education Materials	Cost for purchase of approved nutrition/physical activity education materials. Cost is estimated at approximately $4 each x 350 items. Material will be used to support direct education and PSE activities included in IWP at approved sites. Cost would include materials/supplies identified as necessary to conduct activities included in our selected evidence/practice/research based curriculums (SPARK, CATCH, etc.) and MyPlate support materials such as tear sheets, brochures, and posters.	$4.00	350	$1,400
						Total Materials:	**$19,863**

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Los Angeles County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

County Name: Los Angeles County

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency (counterpart local agency) Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
X	California Department of Public Health: CDPH: (Local Health Department: LHD) – Los Angeles County Department of Public Health (LHD)
X	California Department of Aging: CDA: (Area Agency on Aging: AAA) – County of Los Angeles Workforce Development, Aging and Community Services Area Agency on Aging (AAA)
X	Catholic Charities of California: CCC: (Catholic Charities of California: CCC) – Catholic Charities of Los Angeles (CCLA)

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*..

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Los Angeles County (LAC) is one of the most geographically diverse counties in California, spanning more than 4,000 square miles of urban, suburban, and rural settings. According to the 2014 U.S. Census estimate, LAC is home to more than 10 million residents and is the most populous county in the United States. There are eight LAC service plan areas (SPA) comprising of 88 incorporated cities governed by mayors and city councils, 81 school districts governed by their school boards and more than 100 unincorporated communities. Of the 2,343 census tracts in LAC, 707 (30.2%) census tracts are SNAP-Ed eligible (≥50% residents living in households with incomes ≤185% FPL) based on all races data. Of the 2,283 schools in LAC, 1,736 (76.1%) are SNAP-Ed eligible.

Demographics

Of LAC's roughly 10 million residents, 3,637,604 (37.4%) are SNAP-Ed eligible (income ≤185% FPL). Of the SNAP-Ed eligible population in LAC, 49.3% are children <6, 47.8% are youth ages 6-17, 34.1% are adults ages 18-64, and 33.4% are seniors >65. Of the SNAP-Ed eligible population in LAC, 64.2% are Hispanic, 15.4% are Caucasian, 9.7% are Asian, 9.1% are African American, 0.2% identify as American Indian/Alaska Native, 0.2% as Native Hawaiian/Other Pacific Islander, 0.2% as another race, and 1.1% identify as multiracial. The majority of LAC's SNAP-Ed eligible population is either English or Spanish speaking (or bilingual).

Food Security & Food Assistance Programs

Food insecurity is a significant and growing concern in LAC. 14.7% of residents experience some type of food insecurity. Predictably, the problem is more severe among lower income populations, with 41% of households living at or below 100% FPL experiencing some form of food insecurity and 19% of households in poverty experiencing very low food security (disrupted eating patterns and reduced food intake). Lack of access to safe, nutritious, quality and affordable food has significant impacts on health including impaired development in children, increased risk for mental health conditions in adolescents, and malnutrition and worsened medical conditions in seniors. Despite high rates of eligibility, only 32.4% of eligible residents are enrolled in CalFresh (1,178,282 residents). Although federally funded food assistance programs can support residents struggling with food insecurity, participation rates remain low.

Health Outcomes & Health Behavior

The average weight of adults and children has increased in LAC in the past decade which has contributed to increases in obesity-related chronic illnesses and continue to rank among the top ten leading causes of premature death in LAC, including heart disease, stroke, diabetes, colorectal cancer, and hypertension. The adult overweight/obesity prevalence in LAC is 63.4% overall and 70.5% in SNAP-Ed eligible adults. Poor diet contributes to the obesity epidemic in LAC. According to results from the 2011 Los Angeles County Health Survey, only 16% of adults report eating five or more servings of fruits and vegetables in the past day. Only 57.3% of youth ages 2-17 consume 2 or more servings of fruits per day. Sixty-seven percent of all adults and 73.1% of SNAP-Ed eligible adults report consuming fast food 1 or more times in the past week and 80.5% of youth ages 2-17 report fast food consumption one or more times in the past week. Thirty-six percent of LAC adults report drinking at least one soda or sugar sweetened beverage (SSB) per day. Regular physical activity contributes to positive health outcomes, reducing the risk of chronic conditions such as obesity, heart disease, and diabetes. Despite the health benefits and recent increases in percentage of adults meeting recommended physical activity guidelines, only 15.7% of youth ages 2-17 are physically active for at least one hour each day and 26% of adults report minimal to no physical activity. Sedentary behavior is more prevalent among lower income populations and among seniors, 50% of whom are sedentary.

Health Environment

Individual health behavior is heavily impacted by the health environment, which can facilitate or inhibit positive healthy nutrition and physical activity behavior. Only 64.8% of adults in LAC can always find fruits and vegetables in their neighborhood. The rate decreases substantially for SNAP-Ed eligible adults, only 32.5% of whom can always find affordable fruits and vegetables in their neighborhood. Of adults reporting that it is somewhat or very difficult to access fresh produce, 77% state that this is because produce is too expensive, 43% state that this is because the quality of produce where they shop is poor, and 28% state that fresh produce is not available at all in their neighborhood stores. LAC has a relatively low number of recreational facilities (n= 7.3) per 100,000 residents but the percentage of children and teens (ages 1-17 years) who have a park or open space within walking distance is above the state rate at 86.2% and 84.7%, respectively. Fifty-two percent of adults in LAC report using walking paths, parks, playgrounds, or sports fields in their neighborhoods, 34% of adults report that they do not use these resources, and 14% reported that their neighborhood does not have these assets. Only 62% of residents living in poverty report having well-maintained streets and sidewalks and adequate lighting in their neighborhood as compared to 71% of residents with higher household incomes.

Nutrition Education and Policy, System, and Environmental Change Strategy (PSE) Efforts

A context scan of PSE strategies and nutrition education programs for obesity prevention was conducted in FFY 2015. A total of 111 PSE and 70 nutrition education programs were implemented in LAC. Fifty-two percent of PSE programs and 48% of nutrition education programs catalogued were county-wide efforts. At least $209,871,248 was invested in PSE and nutrition education programs in LAC. Major funders of this work outside of SNAP-Ed funding included First 5 LA, Centers for Disease Control and Prevention, The California Endowment, and Kaiser Permanente investing in a total of 63 PSE programs and 13 nutrition education programs combined. PSEs were implemented by a wide range of organization types, though the majority of programs were operated by nonprofit organizations and community-based organizations as well as government agencies and their subcontractors. There was a relatively even split between environmental (68), systems (64), and policy (57) focuses with most policy strategies focusing on organizational (33) or regulatory policy (32). 58% of the PSE programs implemented a combination of policy, systems, and environmental strategies with 21 programs implementing all three types in one strategy. Most PSE programs did not target a particular demographic with only 21 programs identifying a target age group [children and youth (4); children and adults/families (9); adults or parents (6); seniors (1); all ages (1)] and only 13 identifying a target ethnic group [Hispanic/Latino (3); Asian/Pacific Islander (4); Multiple Ethnicities (6)]. The majorities of programs had a PSE focus of nutrition (52) [physical activity (24); both nutrition and physical activity (35)]. Eighty-one PSE programs target increasing access to healthy food and beverages, 28 target decreasing access to unhealthy foods and beverages, and 56 target increasing access to physical activity opportunities. The majority of nutrition education programs are run by nonprofit and community-based organizations (34), clinics/health service providers/insurance companies (19), or government agencies and subcontractors (10). Of the 70 nutrition education programs, 47 identify a target age group [children and youth (10); children and adults/families (21); adults (8); seniors (3); all ages (5)] and 30 identify a target ethnic group [Hispanic/Latino (15); African American (1); Asian/Pacific Islander (2); Multiple ethnicities (12)]. The majority of nutrition education programs were held in community centers (41), clinics (20), and schools (18). Topics for nutrition education programs were varied [promoting a healthy weight (49); fruit and vegetable consumption (42); food shopping/preparation (41); MyPlate (7); Other (27)].

City of Pasadena and Long Beach

While the cities of Pasadena and Long Beach are geographically located within the boundaries of Los Angeles County, they are unique because they are two of three cities in the state of California that maintain their own independent public health department. Both public health departments receive SNAP-Ed funding,

and have developed individual work plans to capture their efforts to provide nutrition education and employ obesity prevention strategies to reach a low-income audience. Los Angeles LHD communicates and collaborates with Pasadena and Long Beach LHDs on various programmatic activities, including the County Nutrition Action Partnership (CNAP) for the County.

4. **Community Assessment**

LHD gathered jurisdictional information and related data in part from the SNAP-Ed County Profiles prepared by CDPH for LAC. This includes a variety of data sources such as American Communities Survey (ACS) estimates, Department of Social Services CalFresh Annual Trends data, the California Health Interview Survey, Feeding America Map the Food Gap, and Food Insecurity in Your County. In addition, LHD used the Census Bureau's ACS Public Use Microdata Sample (PUMS) files to create custom tables to identify target audiences and related demographic information for the SNAP-Ed eligible population. Additional data for relevant point estimates used in strategic program planning include results of the Los Angeles County Health Survey (randomized digit dial phone survey using Computer-assisted telephone interviewing (CATI) system to gather data on approximately 8,000 households), and other related sources. CX3 assessments were conducted in FFY 2013-2014 providing contextual neighborhood characteristics for mobilization and engagement of communities for the purpose of community engagement and selection of PSE. Results of assessments indicated ongoing challenges in LAC related to access to and consumption of recommended amounts of healthy foods as well as access to opportunities for physical activity.

Subcontracted agencies will engage in formative evaluation, conducting community assessments for targeted intervention strategies to meet the needs of their local community.

Related to Media, LACDPH will utilize the same data sources to plan and coordinate community events and county forums with other partners to ensure delivery of synchronized messaging. The CNAP will be an integral part of this effort in using the associated data as well, to ensure effective partnerships in achieving all goals and objectives.

AAA conducted the following needs assessments of older adults, age 60 and older and identified food insecurity (number one) and the access to and consumption of fruits and vegetables (number three) are the major issues for older adults in the community. The focus of SNAP-Ed program will target culturally diverse low-income older adults at or below 100% FPL or 185% FPL who frequent Older Americans Act nutrition sites in LAC. AAA will provide SNAP-Ed programming to 37 qualified sites comprising of but not limited to community centers, senior centers, senior housing, churches, and Parks and Recreation centers, in low income concentrated areas.

The context scan discussed in the "Nutrition Education and Policy, System, and Environmental Change Strategy (PSE) Efforts" section above also yielded critical information about PSE and nutrition education implementation in LAC that can be leveraged to shape programmatic decisions. A need was expressed for regular tracking of PSE and nutrition education investments in the region (SNAP-Ed and other investments) and for building an infrastructure for self-assessment and feedback from community partners on quality of coordination and best practice dissemination. Another identified issue was the need to prioritize and provide guidance on specific, effective PSE and nutrition education strategies (recommended 3-5 PSE strategies), enabling higher synergy among efforts and maximizing

impact (suggested strategies included healthy retail and restaurants, reducing access and consumption of SSBs, increasing access and improving quality of parks and open spaces), with LHD serving as a "clearing house" and technical assistance provider for community partners in regards to evidence based PSE strategies and nutrition education. A major theme in the findings was the need for LHD to facilitate and convene collaboratives of large institutional partners and local community-based organizations and disseminate data and information in a timely and strategic manner. These needs can be addressed through collaborative efforts, particularly through collective impact-type activities spearheaded by LHD (more details below). An additional finding was an expressed need for LHD to provide strategic funding and guidance to community partners allowing for enhanced sustainability of efforts, promoting collaboration, and convening funders to promote synergy across efforts. Lastly, the context scan results suggest that LHD should promote innovation and strive to lead the field for systems approaches to addressing obesity in LAC. All findings were considered through the subcontracting and program development process to ensure lessons learned from past grant cycles would be applied to future programming.

5. **Community Change Goals**

In LAC, the high rates of overweight and obesity mirror national trends, demonstrating the impact of chronic disease conditions associated with poor nutrition and physical inactivity. A county-wide goal established by the Community Health Improvement Plan 2015-2020 and the Los Angeles County Health Agency Strategic Priorities seeks to reduce obesity rates by 2% for both adults and for children by 2020. In order to contribute to LAC's broad efforts to achieve this goal, LIAs are seeking broad community change in five priority areas:

1) ***Promote healthy and safe community environments that support healthy nutrition and physical activity.*** This goal will be pursued by increasing the number of communities that implement policies, programs, and practices that improve nutrition and physical activity throughout the life cycle and across sectors. LAC entities will increase its engagement with local public institutions, businesses, and community-based organizations to improve access to and demand for healthy food and beverage options. LAC will also pursue public education efforts to promote increased consumption of fruits, vegetables, and water while encouraging smaller portion sizes and reduced consumption of sugary beverages and sodium. PSEs including Farm to Institution (Section C: Objective 2), behavioral economic strategies (Section C: Objective 3), organizational policies that increase healthy food and beverages and/or increase physical activity (Section C: Objective 5), healthy retail (Section C: Objectives 2 & 3), urban agriculture(Section C: Objective 4), healthy jurisdiction plans, active transportation, and healthy park plans (Section C: Objective 6) will be implemented in SNAP-Ed eligible census tracts to ensure that efforts to improve environments are targeting low-income, underserved communities.

2) ***Improve regional capacity to help community members understand basic health information and empower them to make healthy decisions regarding nutrition and physical activity.*** This goal will be pursued by developing and utilizing evidence-informed or evidence-based, accessible and actionable health education materials and health messages. Educational efforts will raise individual capacity for improved health behaviors. Additionally, efforts will increase demand for and help sustain PSE changes. SNAP-Ed direct and indirect education will be delivered in a range of settings where people live, learn, work, eat, play and pray to increase the dose of the interventions, helping to further this community goal. Champions for Change communications and media campaigns will help disseminate nutrition and physical activity messaging and raise awareness

about community PSE changes. Activities related to direct and indirect education and media campaigns can be found across all Local Objectives detailed in Section C. These activities will ensure operationalization of this community change goal.

3) ***Increase health equity in the LAC.*** Health equity will be achieved by strengthening organizational capacity to implement health equity initiatives, generating and disseminating data and reports on the social determinants of health and health disparities, providing information that helps inform policy efforts, engaging stakeholders and key partners in addressing disparities in obesity, and building capacity of community members to identify and address issues they deem most critical. Through work with subcontracted agencies, LHD will leverage innovative nutrition education delivery and PSE-implementation models that promote community engagement including the Youth Participatory Action Research (YPAR) and Community Based Participatory Research (CBPR) models. Local Objectives 1-6 will be executed in close partnership with subcontracted agencies. These agencies will utilize these models as part of their scopes of work, building coalitions and engaging community to select PSE strategies, implement and promote PSEs, and ensure the sustainability of PSEs they help to execute. The most vulnerable communities will be targeted for intervention with special attention paid to the alarming prevalence of food insecurity in the county. Food insecurity, in particular will be addressed through Local Objective 6 via the County Nutrition Action Partnership (CNAP) group and other critical coalition efforts.

4) ***Increase application of and contribution to obesity-prevention evidence-base*****.** LAC will evaluate efforts and disseminate findings in order to continuously improve regional work and ensure interventions are maximally effective as well as to make broader contributions to the field. A robust and multi-tiered SNAP-Ed evaluation plan will generate actionable data that can be used for program improvement, to make targeted investments, and for the purpose of best practice dissemination.

5) ***Increase integration and strengthen nutrition education and chronic disease prevention efforts in health systems*****.** Agencies working on obesity and related chronic disease prevention efforts will engage health care settings, providing guidance, training, technical assistance, and creating linkages between health systems and community resources in order to strengthen health care provider capacity to deliver obesity related nutrition information and food security resources to patients as needed. Among these efforts, priority will be given to developing and implementing approaches for ensuring food security among LAC's low-income population. This priority will be addressed through Local Objective 7 via collaborative efforts in CNAP and other internal LHD programs and partners.

6) ***Increase collaboration and enhance synergy among obesity prevention efforts in LAC.*** Through local SNAP-Ed implementation, partnerships and coalition building will be a driving principle and required activity for agencies subcontracted by LHD. LIA partners will work to identify and convene key institutional stakeholders, working toward increased information sharing, established shared monitoring and evaluation strategies, and enhanced alignment of programmatic activities. Activities related to this community change goal can be identified in all Local Objectives detailed in Section C. Broader, multi-sector collaboration efforts planned by LHD as part of the County Health Agency plan to improve health through effective, integrated, comprehensive, and culturally appropriate services, programs, and policies are detailed in Section C Local Objective 7.

6. **Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]**

LHD, CCLA, and AAA will engage in strategic partnerships with public, private, and nonprofit entities, leverage LAC's capacity, resources, and existing efforts to achieve the change goals stated above and ensure that the impact is sustained over time

To learn about the stated needs of potential collaborative partners, LHD conducted key informant interviews in the Spring of 2015. Of the twelve identified key informants nine accepted interview requests and participated in a thirty minute to one hour semi-structured interview. Participants represented a cross section of perspectives from organizations focused on public health advocacy, health care service delivery, direct health education services, public policy and intergovernmental collaboration addressing public health concerns. The interview consisted of twelve questions covering the respondent's role in relation to obesity prevention within the county, depth of knowledge in this arena, awareness of collaboratives, existing partnerships and opportunities and challenges relating to development of a countywide coalition. Broad sentiment towards development of a county-led obesity prevention coalition indicated that LHD may be an ideal entity to spearhead collective impact work by driving community investments, identifying needs and unifying and aligning efforts. Several anticipated challenges were voiced including fatigue given the number of existing collaboratives, concerns with addressing needs of such a large, diverse population and limited sustainability infrastructure. Many respondents reiterated the importance of having specific aims and defined target outcomes. Yet there was significant variation in responses when asked to identify niches that could be filled.

Leveraging these findings and lessons learned from existing activities, LHD plans to spearhead collaborative efforts through the following strategies:

County Nutrition Action Partnership
LAC CNAP task force will meet 4-6 times annually and will consist of agencies that are both Food and Nutrition Service (FNS) funded as well as unfunded that serve the low-income population in food and nutrition related education, assistance, and physical activity programs and promotions. The goal of CNAP is to coordinate and leverage nutrition messages, education, and services between United States Department of Agriculture (USDA) funded nutrition assistance programs and other applicable agencies in the county to increase food security and health in the target population. LAC specific scope of work, objectives and strategic plan was developed with the goal of increasing access to healthy foods, beverages and physical activity for the target population. LAC CNAP member agencies currently include: LHD, AAA, CCLA, Long Beach Department of Public Health, Pasadena Department of Public Health, Los Angeles Unified School District (LAUSD), UC Cooperative Extension (EFNEP), 211, Department of Public Social Services (DPSS), Child & Adult Care Food Program (CACFP), Women, Infant and Children (WIC), LA Regional Food Banks, Restaurants, California Food Policy Advocates, Farmer's Markets, Hunger Coalition LA, Eat Fresh, L.A. Kitchen, Maternal Child and Adolescent Health (MCAH) and others as applicable. CNAP will focus efforts on addressing food insecurity through expanding awareness of emergency food programs and increasing participation in food assistance programs. Initial programmatic efforts will focus on expanding participation in the Summer Meals Program. CNAP will also serve as a venue where LIAs and other key partners can promote and coordinate SNAP-Ed services and activities.

Existing Collaborative Efforts
As evidenced by the results of the Context Scan discussed above as well as the results of our key informant interviews, there are many ongoing collaborative efforts addressing obesity-related issues in LAC. To deepen relationships with stakeholders, share resources and information, and to ensure that stated community change goals are represented in these efforts, LIAs will participate in collaboratives and initiatives that are strategically aligned with local SNAP-Ed

objectives and activities. In particular, LIA partners have explored partnerships in the following efforts: an LAC-wide gleaning initiative, Department of Public Health Healthy Retail Workgroup, the Healthy and Sustainable Inglewood Collaborative, California Hunger Action Coalition, Hunger Action LA, SPA Office-led collaborative efforts, community-based food bank networks, faith-based health collaborative efforts, and others. Engaging in these efforts will be critical, not only to advance obesity prevention goals but to ensure that as LHD continues to develop the infrastructure for a county-wide collective impact-type obesity prevention project, the relationships and partnerships will be well established and the strategic value add for participation in the project will be clear for stakeholders.

Encouraging Partnership through SNAP-Ed activities

Partnerships will be cultivated and utilized to strengthen NEOP activities. Partnerships will be encouraged through the subcontracting process and coalition building will be required in funded partner scopes of work. Additionally, partner programs and related grant projects within the Department of Public Health include Policies for Livable, Active Communities and Environments (PLACE) program, Injury and Violence Prevention Program, Tobacco Control and Prevention Program, Substance Abuse Prevention and Control, CDC funded Sodium Reduction Initiative and Diabetes Prevention Program will be engaged for their content expertise, cross-promotion opportunities, and collective impact potential. External partners, including LA Food Policy Council, American Heart Association, Kaiser Permanente, and Asian Pacific Islander Obesity Prevention Alliance, will also be engaged to enhance PSE work. "LIAs will promote SNAP-Ed services and activities by connecting with other agencies, such as County Welfare Departments, etc."

Building toward Collective Impact

LHD will lead efforts to build infrastructure and partnerships to support an obesity prevention collective impact project in LAC.

Collective Impact Key Elements:

1. Common Agenda: LHD will work with LIA and other strategic partners to refine and hone in on an obesity prevention agenda that will best meet the needs of SNAP-Ed eligible populations in LAC. LIA partners will promote this unified agenda, particularly with funded partners and entities engaged in PSE work in order to ensure that all SNAP-Ed activities support this agenda.

2. Shared Measurement: LIAs and funded partners will vet and use the same, or aligned evaluation methods and tools. When additional partners are brought into the collective impact initiative, those evaluation plans will be expanded and applied with other programmatic activities in LAC. Using the same frameworks and assessments for formative, process, and outcome evaluation (evaluation plans discussed in more detail below) will provide initiative-wide data that can be leveraged for best practice development, continuous improvement, impact assessment, and dissemination of results to a wide range of stakeholders.

3. Mutually Reinforcing Activities: LHD will play a strong role in identifying synergies, coordinating joint action, and promoting partnerships to maximize impact. The work plan will act as a scaffolding to promote programmatic alignment, but ongoing technical assistance and guidance from LHD will ensure that programmatic activities are not only aligned, but are intentionally supportive of one another.

4. Continuous Communication: LHD will work with LIA partners, subcontractors, and other strategic partners that join the effort to ensure ongoing communication regarding programmatic updates, recent research and relevant data sources, and best practice dissemination. LHD will facilitate regular meetings and calls, creating more opportunities for partners to work collaboratively.

5. Backbone Support: LHD will take a leadership role in creating supportive infrastructure for a collective impact-like initiative. LHD will provide meeting space, meeting facilitation, and serve in a knowledge management/information dissemination capacity. In order to successfully take on this role, LHD will 1) Guide vision and strategy toward achieving community change goals with all local SNAP-Ed partners; 2) Support aligned objectives by making connections and encouraging collaborative problem solving and program implementation; 3) Establish shared measurement practices by sharing evaluation tools and methods, providing technical assistance, reinforcing the use of shared measurement tools, and disseminating evaluation results to stakeholders; 4) Build public will and advance initiative goals by using LHD research and data to educate and inform local decision makers and community stakeholders, promote obesity prevention efforts through local conferences, presentations, and media; 5) Leverage local funding of obesity prevention programs by facilitating collaborative efforts.

7. **Key Messages**

X	Food Safety	x	Physical Activity	x	Fiber-Rich Foods
x	Whole Grains	x	My Plate-Healthy Eating Plan	x	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
x	Fruits & Vegetables	x	Limit Added Sugars or Caloric Sweeteners	x	Other *(specify): Portion Size*
x	Fats and Oils	x	Food Shopping/ Preparation		Other *(specify)*:
x	Lean Meat & Beans				
x	Sodium & Potassium				
x	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All curricula and materials used will be from the approved USDA SNAP-Ed Connection website, and/or FFY 2016 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the CDPH Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list. All curricula and materials will be defined and appropriate for the target audience identified in Section B: Target Audience Description of this document.

9. **Intervention and Evaluation Plan Narrative Summary**

INTERVENTION PLAN

In order to achieve population level changes in health behavior and health outcomes, the policies and environments that influence behavior must be addressed alongside knowledge and awareness in multiple dimensions simultaneously. LIAs implementing SNAP-Ed interventions in LAC will seek to maximize impact through a “population dose” approach, consisting of multi sector interventions that address obesity at all layers of the social ecological model (SEM). A

streamlined set of institutional and environmental PSE strategies combined with direct and indirect education strategies designed to promote and reinforce PSE efforts and a strong emphasis on collaborative efforts will ensure that programmatic elements are mutually reinforcing, working together to deepen impact.

The SNAP-Ed implementing agencies, LHD, AAA, and CCLA, will collaborate to deliver multi-level SNAP-Ed programming in a variety of settings to increase access to and consumption of healthier foods and beverages, increase access to and engagement in physical activity, and improve food resource management in low-income communities throughout the county. LHD, AAA, and CCLA will reach low-income individuals where children, adults, and seniors eat, live, shop, learn, work, play, and pray. While LIAs will work together to coordinate and align PSE efforts, share resources and information, and collaborate to address the high level of food insecurity in LAC, each LIA will take an individualized approach to address the aforementioned community change goals with their respective communities and target populations.

Los Angeles County Department of Public Health (LHD)

LHD will draw from the three core functions of public health to support the implementation of SNAP-Ed in the county, locally known as the Champions for Change- Healthy Communities Initiative, including assessment, policy development, and assurance. LHD will implement essential public health services including 1) utilizing existing data sources and conducting additional needs assessments to support effective SNAP-Ed delivery 2) informing, educating, and empowering SNAP-Ed eligible individuals to make healthy choices within limited budgets, 3) mobilizing community partnerships, 4) developing policies that support obesity prevention efforts 5) promoting federally funded food assistance programs to SNAP-Ed eligible individuals, 5) assuring a competent workforce to support PSE implementation, and 6) evaluating the effectiveness of SNAP-Ed programs and PSE efforts.

To support the Champions for Change Healthy Communities Initiative, LHD will select subcontracted agencies to execute PSE strategies, nutrition education, and physical activity promotion across the county in communities demonstrating high need (obesity prevalence; proportion of SNAP-Ed eligible individuals in the jurisdiction, etc). Interventions will focus on facilitating healthy behaviors in the following ways: increasing access to fresh fruits and vegetables in a range of environments; establish policy and/or build environment change to support consumption of healthy food and beverages; policy and/or built environment change to support increased physical activity; and increasing access to urban agriculture opportunities. Subcontracted agencies are encouraged to select strategies, including the selection of specific direct and indirect education, to enhance synergy across activities at the individual, institutional, and environmental layers of the SEM. Synergy can be created either by adopting a mix of strategies that target different outcomes adopted in the same environment or by selecting strategies that target the same outcomes and adopting in different environments and at different layers of the SEM. Subcontractors will also be encouraged to adopt a network model to partner and site selection so that strategies can be scaled across multiple sites that have centralized administration or decision making.

Each subcontracted agency will select from a menu of institutional level and environmental level PSE strategies that enables them to address the aforementioned broad intervention categories. At least one strategy will be selected from four institutional level options:

- Facilitating procurement of fresh fruits and vegetables including locally sourced produce from local farms, community gardens, and/or gleaning programs at qualifying sites (SNAP-Ed allowable examples include: Farm to Fork, Farm to School, increasing produce for sale at local corner store markets);

- Implementing behavioral economics strategies (SNAP-Ed allowable examples include: Smarter Lunchroom Movement, market makeovers, healthy vending machines);
- Developing, expanding, and/or implementing organizational policies that increase healthy food and beverages and/or increase physical activity at qualifying sites (SNAP-Ed allowable examples include: school wellness policy, food pantry procurement and distribution policy); and
- Building and implementing community edible gardens at qualifying sites that include a produce distribution plan (SNAP-Ed allowable examples include community edible gardens, school edible gardens).

At least one strategy will be selected from four environmental level options:

- Establish food hub, purchasing plan, supply chain distribution change, or other projects/plans that improve availability of affordable, fresh fruits and vegetables for retailers, schools, and/or other food providers in qualifying jurisdictions.
- Establish a healthy parks plan (city ordinance, parks and recreation master plan, or other similar plan) that improves healthy food and beverage availability, water access, pedestrian and bicycle access, and/or other opportunities for physical activity within parks, trails, and green spaces in qualifying jurisdictions.
- Establish active transportation policies (Complete streets, Safe Routes to School, or similar policies that increase opportunities for physical activity in qualifying jurisdictions, prioritizing improvements in low-income neighborhoods.
- Establish a plan (zoning ordinance, and or other land-use policy) that will encourage/require greater density of community gardens and/or urban agriculture in qualifying jurisdictions, while prioritizing open vacant lot transformation in low-income neighborhoods.

The number and distribution of strategies outlined above will be determined by a competitive Request for Proposals. Regardless of strategies selected, all subcontractors will follow the same methodology to achieve results at the individual, institutional, environmental layers of the SEM.

Individual Layer

- Conduct formative research (e.g., focus groups, surveys, etc.) among target population to determine needs and interest in topics related to healthy eating, physical activity, and food resource management and determine linguistic and culturally specific needs.
- Create a nutrition education and/or physical activity plan that includes: a) Service delivery model, b) SNAP-Ed approved curricula, c) Necessary printed materials, resources, and equipment, and d) Description of how education classes are integrated into institutional and environmental layer PSE strategies.
- Promote classes within institutional settings, as well as within SNAP-Ed eligible settings (e.g. WIC clinics, CalFresh enrollment offices, qualifying schools, qualifying community centers, etc.).
- Conduct a minimum total of 150 nutrition education and/or physical activity classes at qualifying institutional sites.

Institutional Layer

- Conduct community assessments and formative evaluation to identify community needs, inform PSE activities, and engage community members to support PSE change.
- Develop a plan for improving nutrition and/or physical activity practices, standards, and access in the qualified settings. This includes: a) Proposed institutional PSE strategies; b) Selection of approved baseline assessments needed and how they will be conducted (e.g. surveys, photovoice, interviews, etc.); c) Selection of approved program activities that garner support and inform community about PSE changes.
- Convene community and institutional stakeholders and facilitate task force/committee meetings to support the implementation of selected PSE strategies, including: a) Review baseline summary report b) Review best practices for selected PSE strategy(ies) c) Coordination of staff training regarding PSE implementation, community engagement, and programmatic activities to support PSE.
- Promote PSE key programmatic activities and achievements to stakeholders and target audience (e.g., newsletters, email blasts, bulletin boards, community events, etc.) to garner support and identify additional partners and champions for PSE implementation, and to promote related direct and indirect education activities.
- Develop a sustainability plan to ensure viability of PSE change beyond the grant period, which includes but is not limited to: a) Expansion of current relationships and partnerships; b) Seeking and securing funding for continued implementation of PSE strategy(ies).
- Monitor progress of all PSE projects utilizing the RE-AIM Framework, including baseline and follow-up assessments, and participate in any other evaluations as requested by LHD.

Environmental Layer

- Conduct community assessments and formative evaluation to identify community needs, inform PSE activities, and engage community members to support PSE change.
- Develop a plan for improving nutrition and/or physical activity environment within the community. This includes: a) Proposed PSE strategy b) Selection of issue(s) to research/assess, and how it will be conducted (e.g. surveys, photovoice, interviews, etc.) c) Selection of approved program activities that support and inform community about PSE changes, and complement nutrition education and physical activity promotion, and institutional PSE strategy. D) Selection of approved community engagement models (Youth Participatory Action Research, Community Based Participatory Research) to be utilized for PSE strategy.
- Convene community members and key stakeholders and facilitate coalition meetings to support PSE implementation. Guide coalition members to: conduct approved formative evaluation and assessment(s) relevant to PSE strategy, gather and analyze data, complete coalition strategy plan, coordinate relevant training regarding PSE implementation, community engagement, and programmatic activities to support PSE, participate in presentations and meetings with key stakeholders/decision makers, and identify champions from the coalition to lead media activities.
- Promote PSE key programmatic activities and achievements to stakeholders and target audience (e.g., newsletters, email blasts, bulletin boards, community events, social marketing campaign material distribution and social media activity, presentations, press releases and media advisories, etc.) to garner support and identify additional partners and champions for PSE implementation, to promote related direct and indirect education activities, and to highlight key programmatic activities, PSE milestones, and/or other achievements.

- Develop a sustainability plan to ensure viability of PSE change beyond the grant period, which includes but is not limited to: a) Expansion of current relationships and partnerships. B) Seeking and securing funding for continued implementation of PSE strategy(ies).
- Monitor progress of all PSE projects utilizing the RE-AIM Framework, including baseline and follow-up assessments, and participate in any other evaluations as requested by LHD.

Progression through the 3-year period will be demonstrated by focusing on community assessment, coalition building, and action planning in year 1 while building knowledge, awareness, and community buy-in for PSE change through direct and indirect education efforts. Year 2 will continue direct and indirect education, maintain community and partner engagement, and focus on execution of institutional level PSE changes, while beginning to engage, educate, and inform stakeholders and decision makers that influence environmental level PSE changes. Year 3 will continue direct and indirect education, maintain community and partner engagement, continue implementation and maintenance of institutional PSE changes, and focus on adoption of environmental level PSE changes. This progression of activities is intended to set partners up for success by ensuring that PSE changes are community based and community driven and that there is demand and support for PSE changes at all levels.

LHD staff will provide technical assistance and training, identify and share best practices, and convene partners to facilitate collaboration and ensure activities are mutually reinforcing and aligned. LHD will also focus efforts on broader collaborative efforts that support SNAP-Ed strategies discussed here and address the community change goals discussed above.

Los Angeles County Area Agency on Aging (AAA)

Older adults have unique nutritional needs and challenges that separate them from the rest of the population. LAC has the highest population in low-income older adults in California (CDA 2016 Population Projections for Intrastate Funding Formula). According to the California Department of Aging, older adults age 60 and older comprise approximately 11.8% of the LAC population (LA County 1,187,331) and over 148,000 <100% FPL older adults in LAC are living below the Federal Poverty Guidelines (FPG). That is roughly one out of every 8 “at-risk” older adults living below FPG. Older adults living below FPG in LAC are facing food insecurity and do not have enough money to make ends meet, lacking sufficient resources for basic expenses such as food and shelter, and choosing between paying for food and paying for medicine or medical care. For older adults, there is a significant relationship between food insecurity and poor health. Food insecure older adults are at higher risk of experiencing negative nutrition and health consequences. They have profound impacts on the demand for social services, especially the need for adequate and culturally appropriate nutrition services. Having access to nutritious, affordable, and quality food is essential to the well-being of individuals, particularly the elderly. Recognizing these facts, efforts have been made by the AAA to address food insecurity in older adults by providing healthy meals once daily to 106 Older American Act Title IIIC Congregate Nutrition Programs throughout LAC serving over 2.5 million congregate and home delivered meals annually to 42,000 unduplicated older adults. The Title IIIC program target older individuals aged 60 years or older who are in greatest economic or social need, and gives particular attention to low-income, minority individuals living in rural areas. To address nutritional needs and food insecurity, Los Angeles older adults will stand to benefit from an integrated SNAP-Ed evidence-based nutrition education and obesity prevention program. SNAP-Ed will provide the necessary tools to educate and reinforce positive behavior and environmental changes to sustain a healthy and active lifestyle for low income older adults in LAC.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Los Angeles County **Three-Year Integrated Work Plan FFY 2017–2019** **Rev. 5/23/2017**

The key performance outcomes for AAA's SNAP-Ed intervention activities are designed to strategically impact the knowledge, behavior and environment of low-income older adults by encouraging active lifestyles and choosing healthy food choices within their limited budget using evidence-based nutrition education and physical activity topics. SNAP-Ed intervention activities for AAA focus on the following:

- Make half your plate fruits and vegetables, at least half your grains whole grains, and switch to fat-free or low-fat milk and milk products;
- Increase physical activity and reduce time spent in sedentary behaviors as part of a healthy lifestyle;
- Maintain appropriate calorie balance during older age; and
- Policy Change: 1) Incorporating sodium reduction and increasing key nutrients such as potassium rich foods in Title IIIC nutrition sites menus and 2) Conducting nutrition education training focusing on low sodium to all Title IIIC nutrition sites participants.
- AAA plans to implement an approved evidence-based activity, the Eat Smart, Live Strong (ESLS) curriculum which includes four sessions to promote increased fruit and vegetable consumption and physical activity as direct education. Instructors will also begin and end each session with appropriate level exercises.
- AAA estimated # of unduplicated older adults: 1,200

In addition, to educate and encourage healthy beverages choices, the AAA plans to deliver Rethink Your Drink and the Dietary Approaches to Stop Hypertension (DASH) eating plan, which may reduce high blood pressure and other cardiovascular risk factors, as indirect education strategies.

- AAA estimated # of older adults reached: 6,400

Catholic Charities of Los Angeles (CCLA)

CCLA operates 22 community centers, seven homeless shelters, and additional services including immigration processing, counseling programs, youth recreation and young adult employment preparation throughout LAC. In 2014-2015 CCLA provided 108,715 unduplicated clients with 926,551 services. All of the community centers and homeless shelters provide emergency food assistance programs, and several offer CalFresh application assistance. In the primary communities where SNAP-Ed services are offered 67% of the program participants have incomes of less than $20,801; 79% of the participants are Latinos; 11% African American; 5% Caucasian; 2% Asian; 3% Other. SNAP-Ed services will target CalFresh eligible participants who utilize the emergency food programs and other services at the community centers and homeless shelters, and at area churches.

CCLA will provide nutrition education at its community centers, food pantries, homeless shelters, and at area churches with a predominantly poverty-level Latino population. Evidence-based material and curriculum will be used to conduct direct nutrition education in English and Spanish to a population of primarily Latino women who will receive at least one, and up to six 30-60 minute exposures. These education sessions will cover nutrition topics as well as physical activity promotion. Brief indirect nutrition education interventions will include evidence-based materials and be conducted in 5-15 minute sessions in both English and Spanish to Latino, African-American, Caucasian and Asian participants. Services will be provided in conjunction with CalFresh application assistance at community center sites.

In addition to nutrition education the agency will engage in the following PSE, community engagement, and direct/indirect education activities:

- Online Resource/Social Media work in promoting and incorporating EatFresh.org during education activities, and incorporating the website in agency-wide online platforms and SNAP-Ed efforts as a consistent platform for community sharing, interactive learning and empowerment for healthier choices.

- Healthy Food and Beverage Standards in work at community centers and churches, including the identification, formulation and implementation of health and wellness policies at churches and community centers. Additionally, sources of purchased and donated foods in the agency's food pantries will be reviewed, and policies will be drafted and adopted in regional pantries, and ultimately in the agency at large.
- Promote Participation in Federal Food Nutrition Assistance Programs and other related food resource and social service programs by linking CalFresh recipients with SNAP-Ed services and vice-versa, and continuing to incorporate SNAP-Ed programming into related food resources programs. Work with collaborative partners in identifying and mapping nutrition services and federal food programs in individual Service Planning Areas (SPA's) and finally in all of Los Angeles County.
- Farm to Fork and Gardening Initiatives with work to increase fresh produce in food pantries and initiating church-based community gardens. Local producers, retailers and organizations will be identified to donate fresh produce to food pantries, and agreements implemented and maintained to ensure increased availability of fresh produce at these sites. Additional partnerships will be sought in the community. A community garden site will be identified at a church, and, working with parishioners, a garden will be initiated and maintained, in conjunction with direct and indirect education activities.
- Physical Activity Opportunities with new classes at community centers and churches. Sites will be identified and volunteer teachers recruited to teach structured physical activity classes/groups at churches and community centers. Partnerships will be maintained to continue physical activity efforts.
- Promote Access and Appeal for Drinking Water in community centers and churches by providing water (bottles, cups, dispensers, fountains), combined with healthy beverage messaging.
- Provide Education and Collaborate with Key Community Members: Train-the-Trainer in working with church and community groups by identifying key stakeholders and ministry heads that would benefit from training opportunities to provide education to a larger reach of SNAP-Ed eligible individuals.

EVALUATION PLAN

Formative Evaluation

The context scan discussed above and RE-AIM monitoring and evaluation was used to inform intervention planning for FFY 2017-2019. Key informant interviews conducted regarding collaborative efforts will be leveraged to guide coalition building efforts over the course of three years. Additionally, subcontracted agencies will conduct formative evaluation and community assessments as part of their PSE work, with assessment tools and methods being selected based on proposed PSE strategy.

Process & Outcome Evaluation

Process evaluation will capture reach of SNAP-Ed programming and progress toward local implementation goals through use of the online Activity Tracking Form and corresponding EARS and SAAR reports, as well as analysis of progress toward completion of project deliverables. Information gleaned from these evaluation activities can be used to identify implementation challenges that must be addressed and successes that must be leveraged to continuously improve SNAP-Ed programming.

PSE

PSEs implemented by LHD subcontracted community partners and internal programs, CCLA, and AAA will be monitored using the RE-AIM framework. Data collected can be used to make course corrections and improvements to the strategy during implementation and maintenance phases. The data collected can also add to the evidence base for related strategies, helping to strengthen future PSE interventions.

Direct Education

LHD will participate in Impact Outcome Evaluation (IOE) of nutrition education class series for youth and adults will be conducted using the Food Behavior Checklist, and the Network Youth Survey. A matched-pair, pre/post evaluation design will be used to collect data from individual participants. LHD will explore opportunities to increase rigor of IOE each year.

AAA's SNAP-Ed intervention activities will be monitored and evaluated using CDA approved data cards; pre/post surveys Food Behavior Checklist and the Rapid Assessment of Physical Activity (RAPA) from training. All required participants' information and the activities provided will be reported quarterly using the Education and Administrative Reporting System (EARS) data to support key performance outcomes from the SNAP-Ed intervention activities.

CCLA will conduct outcome evaluations of direct education participants. The agency will work with expert evaluators in conducting pre-test and post-test surveys at a minimum of two target sites per year. The agency will use the Education and Administrative Reporting System (EARS) data to support key performance outcomes from the SNAP-Ed intervention activities.

Enhanced Evaluation

Enhanced evaluation of SNAP-Ed activities in LAC for FY 2017-19 builds upon prior efforts, and examines both reach and impact of evidence-based interventions. Data synthesis (including simulation modeling to assess program impact at various levels of the SEM) and dissemination of results in various forms (reports, peer-reviewed journal publications, presentations at national and state NEOPB-approved conferences, sharing forums, etc.) is a continuing priority across all interventions. Complementary evaluation activities may be considered to support the selected priority focus areas.

<u>Primary focus areas</u>:

1) Continued analysis and dissemination of results from the multi-level evaluation approach conducted during FY 2014-16 (e.g., population, environmental, and individual-level data collection) to inform program development and improvement efforts in FY 2017-19 [Aligns with all Objectives in the Integrated Work Plan]; and
2) Targeted program impact evaluation based on strategic priorities (e.g., examining community interventions selected by funded partners in the Request for Proposals process). [Of particular interest are the strategies that align with State Objectives 1a, 1b; 3a, 3b; and 5b].

Data collection activities (including, but not limited to):

- Population health trends –Indicators will be tracked via population-based surveys including the Los Angeles County Health Survey, possible internet panel surveys of the County population, and/or field poll surveys, as they apply. [Aligns with State Goal 1 and 2]

Population Indicators
Health status
Eating behaviors (e.g., fruit and vegetable consumption)
Physical activity behaviors
Knowledge and attitudes toward healthy eating
Obesity rates
Chronic disease prevalence
Shopping behaviors

- Program reach and assessment of environmental changes and impact – data collection and program monitoring activities may include CX3 assessments, RE-AIM tracking, intercept surveys of communities targeted by specific environmental supports, case studies, organizational capacity assessments, and integrated review of neighborhood characteristics, healthy food access, walkability and others. [Aligns with State Goals 4 and 5]
- Public education / health marketing campaign – data collection to report number of impressions of individuals, determine resonance of SNAP-Ed educational materials through post-campaign internet panel survey assessments, etc. [Aligns with State Goal 1]
- Targeted program impact/outcome evaluation – In addition to other evaluation activities, DPH will execute a 3-year Master Agreement Work Order (MAWO) for Evaluation Services to perform the following components. The vendor must provide evaluation services to measure reach and impact of SNAP-Ed services in Los Angeles County, and must integrate the following methods/approaches into broader overall data analysis and dissemination efforts pertaining to SNAP-Ed evaluation activities at all layers. In partnerships with and/or under the guidance of DPH, the services being requested include the following:

    1. Community assets and SNAP-Ed strategies mapping
        a. Environmental-level: Repeated qualitative and quantitative assessments of where each of the funded community based organizations' (CBOs') strategies are being implemented; if they are coordinated or concentrated in the same geographic area or community; whether implementation corresponds to complementary overlaps of strategies being used, with consideration of both SNAP-eligible population reach and intervention impact. The mapping can be carried at defined intervals to inform program improvement efforts across the entire grant period (e.g., 2016-17 versus 2018-19).

2. Estimates of health behaviors and indicators by city or community
    a. Population-level: Tracking of key health indicators based on population surveillance datasets (e.g., CHIS NE or LACHS) by city and community, relevant to SNAP-Ed work—this approach allows for tracking of health indicator changes over the duration of the 3-year grant term. Produce health indicator summaries on obesity rates, diabetes rates, dietary behaviors (e.g., fruit and vegetable intake), and physical activity by defined areas on an interval basis.

3. Cost analysis (e.g., healthcare costs)
    a. Population- and Program-level: A series of SNAP-Ed program participant surveys and statistical analyses (including economic or healthcare cost assessments when feasible) for Los Angeles County will be carried out to describe economic impacts of target strategies in relation to the health behavior outcomes being tracked by the program. Assessments are to be completed in Year 1 and Year 3 of the 3-year grant cycle. Selected Evaluation Services vendor will be asked to work with specific CBOs to evaluate SNAP-Ed strategies and to help improve these strategies based on these evaluation findings. The vendor may be required to earmark resources for these activities, to be given to the CBOs selected by DPH. Success stories will be produced through a community-participatory approach.

4. Targeted evaluation
    a. Two of the following evaluation methods and/or come to consensus with DPH about the selected methods for use in two-targeted assessments of interventions to be selected by DPH:
        i. Intercept Surveys at intervention sites.
        ii. Social network analysis of a coalition or capacity building process.
        iii. PSE data analysis and synthesis using RE-AIM and selected tools from the USDA Evaluation Framework, and/or data analysis of pre/post nutrition education surveys.

SECTION B: Target Audience Description

1. Gender	%		2. Age	#
Male	47.7		0 to 5 years old (Preschool):	374,765
Female	52.3		6 to 17 years old (School Age):	753,542
			18 to 64 years old (Adult):	2,148,279
			65 years old and over (Senior):	361,018
Total:	100			3,637,604

3. Ethnicity/Race

Ethnicity

Total Percentage Hispanic/Latino	Total Percentage Not Hispanic/Latino	Total Percentage Ethnicity
64.2%	35.8%	100%

RACE	**Hispanic/Latino**	**Not Hispanic/Latino**

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):** SEM Layer: Individual By September 2019, LIA's and/or subcontractors will conduct a minimum of 9,000 evidence-based nutrition education and physical activity promotion classes for SNAP-Ed eligible children and adults where they live, learn, work, play, pray, and shop to improve dietary quality and levels of physical activity as well as garner support for PSE interventions.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
	Goal 4: Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:** Individual Layer activities will support all PSE projects discussed in Objectives 2-6 below.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 2017, LIAs and/or subcontractors will identify 200-300 qualifying locations for provision of direct education in support of PSE projects including increasing access to fruits and vegetables, behavioral economics, urban agriculture, and organizational and jurisdictional policies.
   b. By September 2017, LIAs and/or subcontractors will provide 2000-3000 nutrition education and/or physical activity promotion classes to reach a minimum of 20,000 SNAP-Ed eligible individuals in support of PSE projects.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 2018, LIAs and/or subcontractors will provide 2000-3000 nutrition education and/or physical activity promotion classes to reach a minimum of 20,000 SNAP-Ed eligible individuals in support of PSE projects.

3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 2019, LIAs and/or subcontractors will provide 2000-3000 nutrition education and/or physical activity promotion classes to reach a minimum of 20,000 SNAP-Ed eligible individuals in support of PSE projects.

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019): SEM Layer: Individual By September 2019, LIA's and/or subcontractors will conduct a minimum of 9,000 evidence-based nutrition education and physical activity promotion classes for SNAP-Ed eligible children and adults where they live, learn, work, play, pray, and shop to improve dietary quality and levels of physical activity as well as garner support for PSE interventions.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Identify 200-300 qualifying settings with an identified need for improving access to fresh fruits and vegetables to deliver SNAP-Ed using the following approaches, as identified in the USDA SNAP-Ed Plan Guidance: • Approach 1: Individual or group based direct and indirect education and health promotion	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: X; UCCE: ; CCC: X	CWD: LHD: TBD AAA: Consulting Nutritional Services (CNS) Yr 1, 2, 3 UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	List of approved sites qualified by SNAP-Ed approved methodology

1.2	Develop 3-5 nutrition education and physical activity plans which include, but not limited to: • Service delivery model • SNAP-Ed approved curricula • Necessary printed materials, resources, and equipment • Description of how nutrition education are integrated into improved fruit and vegetable access PSE projects (see Objective 2)	CED: ; CEI: ; MPR: ; C&C: ; TTA: X	CWD: ; LHD: X ; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X; Q2; Q3; Q4 Year 2: Q1 X; Q2; Q3; Q4 Year 3: Q1 X; Q2; Q3; Q4	Nutrition and physical activity plans to be kept on file
1.3	Develop 8-10 nutrition education and physical activity plans which include, but not limited to: • Service delivery model • SNAP-Ed approved curricula • Necessary printed materials, resources, and equipment • Description of how nutrition education are integrated into behavioral economics PSE projects (See Objective 3)	CED: ; CEI: ; MPR: ; C&C: ; TTA: X	CWD: ; LHD: X ; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X; Q2; Q3; Q4 Year 2: Q1 X; Q2; Q3; Q4 Year 3: Q1 X; Q2; Q3; Q4	Nutrition and physical activity plans to be kept on file
1.4	Develop 8-10 nutrition education and physical activity plans which include, but not limited to: • Service delivery model • SNAP-Ed approved curricula • Necessary printed materials, resources, and equipment • Description of how nutrition education are integrated into urban agriculture PSE projects (See Objective 4)	CED: ; CEI: ; MPR: ; C&C: ; TTA: X	CWD: ; LHD: X ; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X; Q2; Q3; Q4 Year 2: Q1 X; Q2; Q3; Q4 Year 3: Q1 X; Q2; Q3; Q4	Nutrition and physical activity plans to be kept on file

1.5	Develop 10-13 nutrition education and physical activity plans which include, but not limited to: • Service delivery model • SNAP-Ed approved curricula • Necessary printed materials, resources, and equipment • Description of how nutrition education are integrated into organizational policy PSE projects (See Objective 5)	CED: ; CEI: ; MPR: ; C&C: ; TTA: X	CWD: ; LHD: X ; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X; Q2; Q3; Q4 Year 2: Q1 X; Q2; Q3; Q4 Year 3: Q1 X; Q2; Q3; Q4	Nutrition and physical activity plans to be kept on file
1.6	Conduct a 500-750 nutrition education and physical activity classes annually at qualifying SNAP-Ed sites that support improving or strengthening access to fruits and vegetables (Activity supports Objective 2)	CED: X ; CEI: X ; MPR: ; C&C: ; TTA:	CWD: ; LHD: X ; AAA: ; UCCE: ; CCC: X	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X; Q2 X; Q3 X; Q4 X Year 2: Q1 X; Q2 X; Q3 X; Q4 X Year 3: Q1 X; Q2 X; Q3 X; Q4 X	ATF, Participant data cards, sign in sheets, Lesson Plans, Photographs
1.7	Conduct a 500-750 nutrition education and physical activity classes annually at qualifying SNAP-Ed sites that support improving the appeal for healthy eating and/or physical activity. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):** SEM Layer: Institutional; Environmental By September 2019, improve or strengthen access to fresh fruits and vegetables for the SNAP-Ed eligible community by increasing the amount of affordable fresh produce sold/distributed at 25-35 qualifying sites (i.e.,schools, corner stores).

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:** Farm to Fork; Farm to School; Healthy Retail; Food Hubs; Healthy Purchasing Plans; Produce Distribution Plans

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 2017, LIAs and/or subcontractors will identify 20-30 qualifying institutional sites with an identified need for improving or strengthening access to fresh fruits and vegetables.
    b. By September 2017, LIAs and/or subcontractors will identify 3-5 qualifying community/jurisdictional sites with an identified need for improving or strengthening access to fresh fruits and vegetables.
    c. By September 2017, LIAs and/or subcontractors will identify 3-5 local champions as leads to improve or strengthen access to fresh fruits and vegetables in SNAP-Ed sites where nutrition education is being provided.
    d. By September 2017, LIAs and/or subcontractors will document readiness for changes in policy, systems, and environment for 20-35 qualifying institutional and community/jurisdictional sites as evidenced by documented site leads and action plans.
    e. By September 2017, partnerships and collaboratives will be established for each site/each network of sites and for each fresh produce distribution plan effort.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 2018, 20-30 school and retail sites will formally adopt at least one change in writing or in practice to improve or strengthen access to fresh fruits and vegetables.
    b. By September 2018, LIAs and/or subcontractors will publicize 30-50 favorable mentions of efforts on projects to improve or strength access to fresh fruits and vegetables in local news, on-line/social media, newsletters, or bulletin boards.
    c. By September 2018, 20-35 PSE projects will be in an active implementation or maintenance phase as evidenced by PSE status report in RE-AIM monthly tracking documentation.
    d. By September 2018, 3-5 fresh produce distribution planning collaboratives will have engaged decision makers through education and information sharing.

3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 2019, 3-5 task forces serving SNAP-Ed settings will report a multi-component initiative with one or more changes at the institution/organizational level and at least one of the following: 1) evidence-based nutrition education, 2) marketing, 3) parent/community involvement, 4) staff training on continuous program improvement.
    b. By September 2019, LIAs and/or subcontractors will publicize 30-50 favorable mentions of efforts on projects to improve or strengthen access to fresh fruits and vegetables in local news, on-line/social media, newsletters, or bulletin boards
    c. By September 2019, 1-3 SNAP-Ed settings will achieve program recognition on their efforts to improve or strengthen access to fresh fruits and vegetables.
    d. By September 2019, 3-5 task forces serving SNAP-Ed settings will develop a plan for sustaining, evaluating, and improving PSE changes.
    e. By September 2019, 5 communities will establish plans (ie: food hub, purchasing plan, supply chain distribution change) reducing barriers to selling and distributing affordable fresh produce in qualifying jurisdictions.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Los Angeles County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019): SEM Layer: Institutional; Environmental By September 2019, improve or strengthen access to fresh fruits and vegetables for the SNAP-Ed eligible community by increasing the amount of affordable fresh produce sold/distributed at 25-35 qualifying sites (i.e., schools, corner stores).

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Identify 20-30 qualifying school and retail settings and 3-5 qualifying community or jurisdictional settings with an identified need for improving access to fresh fruits and vegetables to deliver SNAP-Ed using the following approaches, as identified in the USDA SNAP-Ed Plan Guidance: • Institutional Layer: Comprehensive, multi-level interventions at complementary organizational and institutional levels Environmental Layer: Community and public health approaches to improve nutrition	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC: X	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	List of approved sites qualified by SNAP-Ed approved methodology
2.2	Conduct formative research in 20-35 sites (e.g. focus groups, surveys, etc.) to determine needs and interest in topics related to healthy eating and physical activity, and determine linguistic and culturally specific needs and compile results into 3-5 summary reports to inform program delivery. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):** SEM Layer: Institutional; Environmental By September 2019, improve the appeal for healthy eating and/or physical activity for SNAP-Ed eligible community by employing behavioral economics methods at 60-80 qualifying sites (ie: schools, parks, worksites, grocery stores, corner stores).

SNAP-Ed State Goals :

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:** Smarter Lunchrooms; Market Makeovers; Healthy Vending; Active Transportation**;** Worksite

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 2017, LIAs and/or subcontractors will identify 50-75 qualifying settings with an identified need for improving the appeal for healthy eating and/or physical activity.
    b. By September 2017, LIAs and/or subcontractors will document readiness for changes in policy, systems, and environment for 50-75 qualifying sites as evidenced by documented site leads and action plans.
    c. By September 2017, LIAs and/or subcontractors will identify 5-10 qualifying community/jurisdictional settings with an identified need for improving the appeal for healthy eating and/or physical activity.
    d. By September 2017, LIAs and/or subcontractors will document readiness for changes in policy, systems, and environment for 5-10 qualifying community/jurisdictional settings with an identified need for improving the appeal for healthy eating and/or physical activity as evidenced by documented project leads and action plans.
    e. By September 2017, LIAs and/or subcontractors will identify 6-10 local champions as leads to improve or strengthen access to healthy foods and beverages and decrease access to unhealthy foods and beverages in SNAP-Ed sites where nutrition education is being provided.

f. By September 2017, LIAs and/or subcontractors will convene 6-10 organizational task forces to develop plans for improving or strengthening access to physical activity and healthy foods and beverages and decreasing access to unhealthy foods and beverages in qualifying sites.
g. By September 2017, partnerships and collaboratives will be established for each site/each network of sites.
h. By September 2017, LIAs and/or subcontractors will publicize 90-110 favorable mentions of the initiation of and efforts to support projects to improve or strengthen access to opportunities for physical activity and healthy foods and beverages and decreasing access to unhealthy foods and beverages vegetables in local news, on-line/social media, newsletters, or bulletin boards.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 2018, 50-75 sites will adopt at least one change in practice to improve the appeal for healthy eating.
   b. By September 2018, LIAs and/or subcontractors will publicize 90-110 favorable mentions of efforts on projects to improve the appeal for healthy eating and/or physical activity in local news, one-line/social media, newsletters, or bulletin boards.
   c. By September 2018, 50-85 projects will be in an active implementation or maintenance phase as evidenced by PSE status report in RE-AIM monthly tracking documentation.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 2019, 8-10 task forces serving SNAP-Ed settings will report a multi-component initiative with one or more changes at the institution/organizational level and at least one of the following: 1) evidence-based nutrition education, 2) marketing, 3) parent/community involvement, 4) staff training on continuous program improvement.
   b. By September 2019, LIAs and/or subcontractors will publicize 90-110 favorable mentions of efforts on projects to improve the appeal for healthy eating and/or physical activity in local news, one-line/social media, newsletters, or bulletin boards
   c. By September 2019, 1-3 SNAP-Ed settings will achieve program recognition on their efforts to improve the appeal for healthy eating and/or physical activity.
   d. By September 2019, 8-10 task forces serving SNAP-Ed settings will develop a plan for sustaining, evaluating, and improving the nutrition standards and/or environmental changes.
   e. By September 2019, 50-85 projects will have maintenance and sustainability plans.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Los Angeles County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019): SEM Layer: Institutional; Environmental By September 2019, improve the appeal for healthy eating and/or physical activity for SNAP-Ed eligible communities by employing behavioral economics methods at 50-75 qualifying sites (ie: schools, parks, worksites, grocery stores, corner stores).

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Identify 50-85 qualifying schools, retail, parks, worksite, or other community sites with an identified need for improving appeal for healthy eating and/or physical activity to deliver SNAP-Ed using the following approaches: • Institutional Layer: Comprehensive, multi-level interventions at complementary organizational and institutional levels Environmental Layer: Community and public health approaches to improve nutrition	( ) CED ( ) CEI ( ) MPR (X) C&C ( ) TTA	( ) CWD (X) LHD ( ) AAA ( ) UCCE ( ) CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	List of approved sites qualified by SNAP-Ed approved methodology
3.2	Conduct formative research for 50-85 sites (e.g. focus groups, surveys, etc.) to determine needs and interest in topics related to healthy eating and physical activity, and determine linguistic and culturally specific needs and compile results into 8-10 summary reports to inform program delivery.	( ) CED ( ) CEI ( ) MPR (X) C&C ( ) TTA	( ) CWD (X) LHD ( ) AAA ( ) UCCE ( ) CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3, Q4 Year 2: Q1, Q2, Q3, Q4 Year 3: Q1, Q2, Q3, Q4	Assessment tools to be kept on file Summary reports to be kept on file

3.3	<u>Institutional Layer</u> Develop 50-75 plans for improving nutrition standards in the qualified settings. This includes, but not limited to: • Proposed PSE projects • Selection of approved baseline assessments needed, and how they will be conducted • Selection of approved program activities that garner support and inform community about PSE changes <u>Environmental Layer</u> Develop 5-10 plans for improving nutrition standards in the qualified community/jurisdictional settings. Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):** SEM Layer: Institutional; Environmental By September 2019, improve or strengthen access to fresh fruits and vegetables for the SNAP-Ed eligible community by building, expanding and/or maintaining 80-100 edible gardens in qualifying locations.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:** Edible Gardens; Local Urban Agriculture

III. Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 2017, LIAs and/or subcontractors will identify 80-100 qualifying institutional sites with an identified need for improving or strengthening access to fresh fruits and vegetables by building, expanding, and/or maintaining edible gardens.
    b. By September 2017, LIAs and/or subcontractors will document readiness for changes in policy, systems, and environment for 80-100 sites as evidenced by documented site leads and action plans.
    c. By September 2017, LIAs and/or subcontractors will identify 10-20 community/jurisdictional sites with an identified need for improving or strengthening access to fresh fruits and vegetables by establishing urban agriculture policies or plans.
    d. By September 2017, LIAs and/or subcontractors will document readiness for changes in policy, systems, and environment for 10-20 community/jurisdictional sites as evidenced by documented project leads and action plans.
    e. By September 2017, LIAs and/or subcontractors will identify 8-10 local champions as leads to improve or strengthen access to fresh fruits and vegetables by building, expanding, and/or maintaining edible gardens in SNAP-Ed sites where nutrition education is being provided.
    f. By September 2017, LIAs and/or subcontractors will convene 8-10 organizational task forces to develop plans for improving or strengthening access to fresh fruits and vegetables by building, expanding, and/or maintaining edible gardens in qualifying sites.

g. By September 2017, urban agriculture partnerships and collaboratives will be established for each site/network of garden sites and urban agriculture policy/plan efforts.
h. By September 2017, LIAs and/or subcontractors will publicize 110-130 favorable mentions of the initiation of and efforts to support projects to improve or strengthen access to fresh fruits and vegetables by building and/or maintaining edible gardens in local news, on-line/social media, newsletters, or bulletin boards.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 2018, 80-100 pre-school, school, faith sites will make changes to the food environment by establishing edible gardens.
   b. By September 2018, LIAs and/or subcontractors will publicize 110-130 favorable mentions of efforts on projects to improve or strengthen fruit and vegetable access by building, expanding, and/or maintaining edible gardens in local news, one-line/social media, newsletters, or bulletin boards.
   c. By September 2018, 80-100 edible garden projects will be in an active implementation and/or maintenance phase as evidenced by PSE status report in RE-AIM monthly tracking documentation.
   d. By September 2018, 10-20 urban agriculture policy or plan projects will be in an active implementation and/or maintenance phase as evidenced by PSE status report in RE-AIM monthly tracking documentation.
   e. By September 2018, 2-5 urban agriculture collaboratives will have engaged decision makers by educating and informing.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 2019, 8-10 task forces serving SNAP-Ed settings will report a multi-component initiative with one or more changes at the institution/organizational level and at least one of the following: 1) evidence-based nutrition education, 2) marketing, 3) parent/community involvement, 4) staff training on continuous program improvement.
   b. By September 2019, LIAs and/or subcontractors will publicize 110-130 favorable mentions of efforts on projects to improve or strengthen fresh fruit and vegetable access by building, expanding, and/or maintaining edible gardens and/or urban agriculture policy/plan efforts in local news, on-line/social media, newsletters, or bulletin boards
   c. By September 2019, 1-3 SNAP-Ed settings will achieve program recognition on their efforts to improve or strengthen fruit and vegetable access by building, expanding, and/or maintaining edible gardens.
   d. By September 2019, 8-10 task force serving SNAP-Ed settings will develop a plan for sustaining, evaluating, and improving the environmental changes.
   e. By September 2019, 80-100 edible garden projects will have maintenance and sustainability plans.
   f. By September 2019, 10-20 urban agriculture policy/plan projects will have a maintenance/enforcement and sustainability plans.

g. By September 2019, 1-5 communities will establish plans (zoning ordinance or other land-use policy) encouraging and facilitating urban agriculture in qualifying jurisdictions.

Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019): SEM Layer: Institutional; Environmental By September 2019, improve or strengthen access to fresh fruits and vegetables for the SNAP-Ed eligible community by building, expanding and/or maintaining 80-100 edible gardens in qualifying locations.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
4.1	Identify 80-100 qualifying pre-school, school, or faith settings with an identified need for improving access to fresh fruits and vegetables by building, expanding, and/or maintaining edible gardens to deliver SNAP-Ed using the following approaches: • Institutional Layer: Comprehensive, multi-level interventions at complementary organizational and institutional levels Identify 10-20 qualifying community settings or jurisdictions with an identified need for improving access to fresh fruits and vegetables by building, expanding, and/or maintaining edible gardens to deliver SNAP-Ed using the following approaches: • Environmental Layer: Community and public health approaches to improve nutrition	( ) CED ( ) CEI ( ) MPR (X) C&C ( ) TTA	( ) CWD (X) LHD ( ) AAA ( ) UCCE (X) CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	List of approved sites qualified by SNAP-Ed approved methodology

4.2	Conduct formative research for 80-110 (e.g. focus groups, surveys, etc.) among target population to determine needs and interest in topics related to healthy eating and physical activity, and determine linguistic and culturally specific needs and compile results into 7-10 summary reports to inform program delivery.	☐ CED ☐ CEI ☐ MPR ☒ C&C ☐ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1 Q1: X, Q2: X, Q3: , Q4: Year 2 Q1: , Q2: , Q3: , Q4: Year 3 Q1: , Q2: , Q3: , Q4:	Assessment tools to be kept on file Summary reports to be kept on file
4.3	<u>Institutional Layer</u> Develop 80-100 plans for improving access to fresh fruits and vegetables through establishing, expanding, or maintaining edible gardens. This includes, but not limited to: • Proposed PSE projects • Selection of approved baseline assessments needed, and how they will be conducted • Selection of approved program activities that garner support and inform community about PSE changes <u>Environmental Layer</u> Develop 10-20 plans for improving access to fresh fruits and vegetables through establishing, urban agriculture policies or plans. This includes, but not limited to: • Proposed PSE projects • Selection of approved baseline assessments needed, and how they will be conducted Selection of approved program activities that garner support and inform community about PSE changes	☐ CED ☐ CEI ☐ MPR ☒ C&C ☐ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☒ CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1 Q1: X, Q2: X, Q3: X, Q4: X Year 2 Q1: , Q2: , Q3: , Q4: Year 3 Q1: , Q2: , Q3: , Q4:	PSE Action Plans to be kept on file

4.4	Establish 8-10 organizational task forces comprised of key stakeholders (e.g. school administration, food service directors/staff, local farmers, faith leaders, health liaisons, parents, relevant LHD representatives, etc.		CED CEI MPR C&C TTA		CWD LHD AAA UCCE CCC	CWD: LHD: TBD AAA: UCCE: CCC: :	Year 1 Q1 Q2 Q3 Q4 X X X X Year 2 Q1 Q2 Q3 Q4 Year 3 Q1 Q2 Q3 Q4 	List of organizational task force members to be kept on file
4.5	Facilitate 45-55 organizational task force meetings to support the implementation of selected PSE strategies, including • Review baseline report • Review best practices for improving urban agriculture in SNAP-Ed qualifying settings • Coordination of staff training to support implementation of PSE project		CED CEI MPR C&C TTA	X	CWD LHD AAA UCCE CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 X Year 2 Q1 Q2 Q3 Q4 X X X X Year 3 Q1 Q2 Q3 Q4 X X X X	Meeting agendas to be kept on file
4.6	Promote PSE project activities and achievements to stakeholders and target audience 110-130 times using communication channels such as newsletters, e-mail blasts, and bulletin boards		CED CEI MPR C&C TTA	X	CWD LHD AAA UCCE CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 X X Year 2 Q1 Q2 Q3 Q4 X X X X Year 3 Q1 Q2 Q3 Q4 X X X X	Copies of communication to be kept on file

4.7	Create and submit a minimum of 18-22 press releases and media advisories to highlight PSE project activities and/or achievements	CED: ; CEI: ; MPR: X; C&C: ; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 [ ] [ ] [ ] [ ] Year 2: Q1 Q2 Q3 Q4 [X] [X] [X] [X] Year 3: Q1 Q2 Q3 Q4 [X] [X] [X] [X]	Press releases and/or media advisories to be kept on file
4.8	Provide technical assistance and support to 1-3 SNAP-Ed qualifying settings to achieve program recognition, if appropriate/available. Examples include, but are not limited to: • *Let's Move* Child Care Recognition • *Let's Move* Cities Recognition • Healthier US Schools Challenge • Alliance for a Healthier Generation • Retail Recognition Program • Healthy Business Recognition Program • Other state or locally-defined standards for recognition program	CED: ; CEI: ; MPR: ; C&C: ; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC: :	Year 1: Q1 Q2 Q3 Q4 [ ] [ ] [ ] [ ] Year 2: Q1 Q2 Q3 Q4 [ ] [ ] [ ] [ ] Year 3: Q1 Q2 Q3 Q4 [X] [X] [X] [X]	Certificates, pictures, recognition

4.9	Institutional Layer Develop 80-100 sustainability plans to ensure viability of PSE project in the institutional/organizational level beyond the grant period, which includes, but not limited to: • Expansion of current relationships and partnerships • Identification of funding for continued implementation of PSE strategies Environmental Layer Develop 10-20 sustainability plans to ensure viability and enfocement of PSE project in community/jurisdictional level beyond the grant period, which includes, but not limited to: • Expansion of current relationships and partnerships • Identification of funding for continued implementation of PSE strategies			CWD: LHD: TBD AAA: UCCE: CCC: :		Sustainability plans to be kept on file

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):** SEM Layer: Institutional By September 2019, improve or strengthen access for physical activity and/or healthy foods and beverages by adopting, maintaining and/or expanding organizational policies at a minimum of 90-120 qualifying sites (i.e. pre-schools, schools, faith, community center, congregate meal sites, worksite).

SNAP-Ed State Goals :

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:** School Wellness Policy, Healthy Food & Beverage Standards; Healthy Vending; Safe Routes to School; Structured Physical Activity; Worksite

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 2017, LIAs and/or subcontractors will identify 90-120 sites with an identified need for improving or strengthening access for physical activity and/or healthy foods and beverages by adopting, maintaining and/or expanding organizational and/or menu policies.
    b. By September 2017, LIAs and/or subcontractors will document readiness for changes in policy, systems, and environment for 90-120 qualifying sites as evidenced by documented site leads and action plans.
    c. By September 2017, LIAs and/or subcontractors will identify 10-13 local champions as leads to improve or strengthen access to physical activity and/or healthy foods and beverages by adopting, maintaining and or expanding organizational policies in SNAP-Ed sites where nutrition education is being provided.
    d. By September 2017, LIAs and/or subcontractors will convene 10-13 organizational task forces to develop plans for improving or strengthening access to physical activity and/or healthy foods and beverages by adopting, maintaining and or expanding organizational policies in qualifying sites.
    e. By September 2017, partnerships and collaboratives will be established for each site/each network of sites.

f. By September 2017, LIAs and/or subcontractors will publicize 144-168 favorable mentions of the initiation of and efforts to support projects to improve or strengthen access to physical activity and/or healthy foods and beverages by adopting, maintaining and or expanding organizational policies in local news, on-line/social media, newsletters, or bulletin boards.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 2018, 90-120 sites will formally adopt at least one change in writing or in practice to improve or strengthen access to healthy foods, beverages, and/or to physical activity.
   b. By September 2018, LIAs and/or subcontractors will publicize 144-168 favorable mentions of efforts on projects to improve or strengthen access to physical activity and healthy foods and beverages and decrease access to unhealthy foods in local news, on-line/social media, newsletters, or bulletin boards.
   c. By September 2018, healthy organizational policies projects at 90-120 sites will be in an active implementation or maintenance phase as evidenced by PSE status report in RE-AIM monthly tracking documentation.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 2019, 10-13 task forces serving SNAP-Ed settings will report a multi-component initiative with one or more changes at the institution/organizational level and at least one of the following: 1) evidence-based nutrition education, 2) marketing, 3) parent/community involvement, 4) staff training on continuous program improvement.
   b. By September 2019, LIAs and/or subcontractors will publicize 144-168 favorable mentions of efforts on projects to improve or strengthen access to fresh fruits and vegetables in local news, one-line/social media, newsletters, or bulletin boards
   c. By September 2019, 1-3 SNAP-Ed settings will achieve program recognition on their efforts to improve or strengthen access for physical activity and/or healthy foods and beverages by adopting, maintaining and/or expanding organizational policies
   d. By September 2019, 10-13 task forces serving SNAP-Ed settings will develop a plan for sustaining, evaluating, and improving the nutrition standards and/or environmental changes.
   e. By September 2019, healthy organizational policies will be adopted at 45-60 sites and will have maintenance and sustainability plans.
   f. By September 2019, 10% of SNAP-Ed Title IIIC Congregate Nutrition Sites in LAC will implement new meal preparation standards.

Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019): SEM Layer: Institutional By September 2019, improve or strengthen access for physical activity and/or healthy foods and beverages by adopting, maintaining and/or expanding organizational policies at a minimum of 90-120 qualifying sites.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
5.1	Identify 90-120 qualifying sites with an identified need for improving access to physical activity and healthy food and beverages to deliver SNAP-Ed using the following approaches: • Institutional Layer: Comprehensive, multi-level interventions at complementary organizational and institutional levels	CED: ; CEI: ; MPR: ; C&C: X ; TTA:	CWD: ; LHD: X ; AAA: X ; UCCE: ; CCC: X	CWD: LHD: TBD AAA: CNS Yr 1, Yr 2/3: TBD UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1, Q2, Q3, Q4 Year 3: Q1, Q2, Q3, Q4	List of approved sites qualified by SNAP-Ed approved methodology
5.2	Conduct formative research for 90-120 sites to determine needs and interest in topics related to healthy eating and physical activity, and determine linguistic and culturally specific needs and compile results into 10-13 summary reports to inform program delivery.	CED: ; CEI: ; MPR: ; C&C: X ; TTA:	CWD: ; LHD: X ; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3, Q4 Year 2: Q1, Q2, Q3, Q4 Year 3: Q1, Q2, Q3, Q4	Assessment tools to be kept on file Summary reports to be kept on file

5.3	Develop 90-100 plans for improving nutrition standards in the qualified settings where nutrition education is provided. This includes, but not limited to: • Proposed PSE projects • Selection of approved baseline assessments needed, and how they will be conducted • Selection of approved program activities that garner support and inform community about PSE changes	☐ CED ☐ CEI ☐ MPR ☒ C&C ☐ TTA	☐ CWD ☒ LHD ☒ AAA ☐ UCCE ☒ CCC	CWD: LHD: TBD AAA: CNS Yr 1, Yr 2/3: TBD UCCE: CCC:	Year 1: Q1 ☐ Q2 ☐ Q3 ☒ Q4 ☒ Year 2: Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒ Year 3: Q1 ☐ Q2 ☐ Q3 ☐ Q4 ☐	PSE Action Plans to be kept on file
5.4	Conduct in-service training to RDs and Title IIIC SNAP-Ed qualified contractors' staff and volunteers to implement sodium policy change. This will include, but is not limited to: a. Develop training curriculum b. Provide technical assistance such as recommending increasing key nutrients in menu planning.	☐ CED ☐ CEI ☐ MPR ☒ C&C ☐ TTA	☐ CWD ☐ LHD ☒ AAA ☐ UCCE ☐ CCC	CWD: LHD: AAA: CNS Yr 1, Yr 2/3: TBD UCCE: CCC:	Year 1: Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒ Year 2: Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒ Year 3: Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒	Training curriculum and sign-in sheets to be kept on file
5.5	Establish 10-13 organizational task forces comprised of key stakeholders (e.g. school administration, food service directors/staff, local farmers, faith leaders, health liaisons, parents, relevant LHD representatives, etc.	☐ CED ☐ CEI ☐ MPR ☒ C&C ☒ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: TBD AAA: UCCE: CCC: :	Year 1: Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒ Year 2: Q1 ☐ Q2 ☐ Q3 ☐ Q4 ☐ Year 3: Q1 ☐ Q2 ☐ Q3 ☐ Q4 ☐	List of organizational task force members to be kept on file

5.6	Facilitate 60-70 organizational task force meetings to support the implementation of selected PSE strategies, including • Review baseline report • Review best practices for selected PSEs in SNAP-Ed qualifying settings • Coordination of staff training to support implementation of PSE project	☐ CED ☐ CEI ☐ MPR ☒ C&C ☐ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1 Q1 ☐ Q2 ☐ Q3 ☐ Q4 ☒ Year 2 Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒ Year 3 Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒	Meeting agendas to be kept on file
5.7	Promote PSE project activities and achievements to stakeholders and target audience 144-168 times using communication channels such as newsletters, e-mail blasts, and bulletin boards	☐ CED ☐ CEI ☒ MPR ☐ C&C ☐ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1 Q1 ☐ Q2 ☐ Q3 ☒ Q4 ☒ Year 2 Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒ Year 3 Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒	Copies of communication to be kept on file
5.8	Create and submit a minimum of 24-28 press releases and media advisories to highlight PSE project activities and/or achievements	☐ CED ☐ CEI ☒ MPR ☐ C&C ☐ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1 Q1 ☐ Q2 ☐ Q3 ☐ Q4 ☐ Year 2 Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒ Year 3 Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒	Press releases and/or media advisories to be kept on file

5.9	Provide technical assistance and support to 1-3 SNAP-Ed qualifying settings to achieve program recognition, if appropriate/available. Examples include, but are not limited to: • *Let's Move* Child Care Recognition • *Let's Move* Cities Recognition • Healthier US Schools Challenge • Alliance for a Healthier Generation • Retail Recognition Program • Healthy Business Recognition Program • Other state or locally-defined standards for recognition program		CED CEI MPR C&C X TTA		CWD X LHD AAA UCCE CCC	CWD: LHD: TBD AAA: UCCE: CCC: :	Year 1 Q1 Q2 Q3 Q4 Year 2 Q1 Q2 Q3 Q4 Year 3 Q1 Q2 Q3 Q4 X X X X	Certificates, pictures, recognition
5.10	Develop 90-120 sustainability plans to ensure viability of PSE project in both the institutional/organizational level and the community level beyond the grant period, which includes, but not limited to: • Expansion of current relationships and partnerships • Identification of funding for continued implementation of PSE strategies		CED CEI MPR X C&C X TTA		CWD X LHD AAA UCCE CCC	CWD: LHD: TBD AAA: UCCE: CCC: :	Year 1 Q1 Q2 Q3 Q4 Year 2 Q1 Q2 Q3 Q4 Year 3 Q1 Q2 Q3 Q4 X X X X	Sustainability plans to be kept on file

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #6 (FFY 2017–FFY 2019):** SEM Layer: Environmental By September 2019, jurisdictional policy and/or plans will be established in 5-10 qualifying community sites or jurisdictions, reducing access to unhealthy food and beverages and increase access to healthy food and beverages and/or physical activity for SNAP-Ed eligible community members.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:** Healthy Vending; Safe Routes to School; Active Transportation; Healthy Parks

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 2017, LIAs and/or subcontractors will identify 5-10 qualifying settings with an identified need for improving or strengthening access to healthy food and beverages through community or jurisdictional policies or plans.
    b. By September 2017, LIAs and/or subcontractors will document the public health problem to inform changes in policy, systems, and environment in 5-10 predominantly low-income cities, parks, and/or communities.
    c. By September 2017, LIAs and/or subcontractors will recruit community members to build a local coalition including diverse partners across sectors to mobilize support for policy, systems, and environmental changes in 5-10 predominantly low-income cities, parks, and/or communities.
    d. By September 2017, partnerships and collaboratives will be established for each PSE project plan.
    e. By September 2017, 5-10 qualifying communities or jurisdictions will demonstrate readiness to agree to and implement healthy policies and/or plans as evidenced by documented project leads and action plans.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 2018, LIAs and/or subcontractors build community capacity and develop community-wide plans that engage multiple strategies and sectors to design and implement selected policy, systems, and environmental changes in 5-10 predominantly low-income cities, parks, and/or communities.
    b. By September 2018, LIAs and/or subcontractors will engage communities to educate decision makers regarding changes in policy, systems, and environment in 5-10 predominantly low-income cities, parks, and/or communities.
    c. By September 2018, 5-10 collaboratives will have engaged decision makers through education and information sharing.
    d. By September 2018, 5-10 healthy plans or policy PSE projects will be in an active implementation or maintenance phase as evidenced by PSE status report in RE-AIM monthly tracking documentation.

3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 2019, 1-5 communities/jurisdictions will formally adopt at least one change in plans and/or policies to improve or strengthen opportunities for SNAP-Ed eligible community members to engage in healthy eating and physical activity in qualifying jurisdictions.
    b. By September 2019, 10-20 LIAs and/or subcontractors will develop a plan for sustaining, enforcing, evaluating, and improving PSE changes.

Three-Year SNAP-Ed Local Objective #6 (FFY 2017–FFY 2019): SEM Layer: Environmental By September 2019, jurisdictional policy or plans will be established in a minimum of 20 qualifying communities, reducing access to unhealthy food and beverages and increase access to healthy food and beverages and/or physical activity for SNAP-Ed eligible community members.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
6.1	Identify 5-10 qualifying jurisdictions with an identified need for improving access to physical activity and/or healthy food and beverages to deliver SNAP-Ed using the following approaches: • Environmental Layer: Community and public health approaches to improve nutrition	( ) CED ( ) CEI ( ) MPR (X) C&C ( ) TTA	( ) CWD (X) LHD ( ) AAA ( ) UCCE ( ) CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1, Q2, Q3, Q4 Year 3: Q1, Q2, Q3, Q4	List of approved sites qualified by SNAP-Ed approved methodology

6.2	Conduct formative research in 5-10 jurisdictions (e.g. focus groups, surveys, etc) among target population to determine needs and interest in topics related to healthy eating and physical activity, and determine linguistic and culturally specific needs and compile results into 5-10 summary reports to inform program delivery.	☐ CED ☐ CEI ☐ MPR ☒ C&C ☐ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3, Q4 Year 2: Q1, Q2, Q3, Q4 Year 3: Q1, Q2, Q3, Q4	Assessment tools to be kept on file Summary reports to be kept on file
6.3	Develop 5-10 plans for improving nutrition and/or physical activity policies and/or plans within the community. This includes, but is not limited to: • Proposed PSE projects • Selection of issue(s) to research/assess and how it will be conducted (e.g. surveys, photovoice, interviews, etc.) • Selection of program activities that support and inform community about PSE changes • Selection of community engagement models to be utilized for PSE project	☐ CED ☐ CEI ☐ MPR ☒ C&C ☒ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1, Q2, Q3, Q4 Year 2: Q1, Q2, Q3, Q4 Year 3: Q1 X, Q2 X, Q3, Q4	PSE Action Plans kept on file
6.4	Maintain 5-10 community engagement coalitions consisting of a minimum of 10 community members to support coalition to drive community level and public health approaches (e.g. youth, civically engaged residents, local health advocates, relevant community partners, local health department staff, and content experts)	☐ CED ☐ CEI ☐ MPR ☒ C&C ☐ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1, Q2, Q3, Q4 Year 2: Q1, Q2, Q3, Q4 Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Outreach log to be kept on file

6.5	Facilitate 228-252 coalition meetings to support PSE implementation. Guide coalition members to: • Conduct approved baseline assessments • Gather, analyze data; compile findings • Complete coalition PSE strategy plan, including timelines, responsible individuals • Coordinate relevant training regarding PSE implementation, and programmatic activities to support PSE • Participate in presentations and meetings key stakeholders/decision makers • Identify 1 Champion from the community coalition for media training • Administer post-assessment utilizing approved data collection tool	☐ CED ☐ CEI ☐ MPR ☒ C&C ☒ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 ☐ ☐ ☐ ☐ Year 2 Q1 Q2 Q3 Q4 ☐ ☐ ☐ ☐ Year 3 Q1 Q2 Q3 Q4 ☐ ☐ ☒ ☒	Handouts and materials presented to be kept on file Partner contact log to be kept on file Meeting agendas to be kept on file CDPH approved tool to be kept on file Summary reports to be kept on file

****Time Frame: Year & Quarter:**

Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)

Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #7 (FFY 2017–FFY 2019):** SEM Layer: Sectors of Influence By September 2019, LHD will employ collective impact principles to spearhead and/or participate in collaborative efforts (CNAP, LIA and/or subcontractor-convened coalitions and taskforces, and other existing and potential multi-sector partnerships) to address obesity prevention, food security, or other community change goals as evidenced by successful implementation of a minimum of one system-level PSE change.

SNAP-Ed State Goals :

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:** TBD; project specifics to be decided by collaborative partners through a visioning, goal setting, and strategy selection process**.**

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

a. By September 2017, LHD will organize a minimum of five partners from multiple sectors with the intention to collaborate with a common agenda, mission, and a plan to share information, measurement tools, and to take collective action to address obesity and/or food insecurity in LAC.
b. By September 2017, the CNAP membership will identify and agree upon a focus area and vision.
c. By September 2017, the CNAP group will develop and document a governance structure (membership agreements, steering committee, coordinator and chair positions, etc.).
d. By September 2017, LHD will engage in a minimum of four collaboratives that relate directly to obesity prevention, food security, and/or other local community change goals.
e. By September 2017, LHD will convene subcontractors and their coalitions a minimum of 1 time in order to increase communication, identify a common agenda across SNAP-Ed subcontractors and their collaborative partners, share and promote measurement tools and methodology, and highlight opportunities to decrease duplication of effort and increase mutually reinforcing activities through PSE action plans.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 2018, CNAP will demonstrate partnership maturation and elevation on the ladder of collaboration.
    b. By September 2018, CNAP will develop and document a plan (goals, strategies, tactics, and evaluation plan) for how the collaborative will address food insecurity/food access as evidenced by a decrease in the amount of SNAP-Ed eligible households that run out of food before month's end.
    c. By September 18, LHD will convene subcontractors and their coalitions a minimum of 2 times in order to increase communication, ensure pursuit of a common agenda, share data and evaluation results, and ensure range of activities are mutually reinforcing.

3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 2019, CNAP will demonstrate partnership maturation and elevation on the ladder of collaboration.
    b. By September 2019, CNAP will implement a minimum of one community-driven policy, systems, and/or environment resulting from multi-sector partnerships and partially attributable to backbone support of SNAP-Ed backbone support.
    c. By September 2019, improve a minimum of one community linkage to identify and address obesity prevention, food insecurity, and/or other community change goals (examples include, but are not limited to: food security screening and referrals in healthcare settings, food security resource referrals and support in schools or other community settings, healthy retail recognition and licensing program, city or county-wide food gleaning plan, etc.).

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Los Angeles County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #7 (FFY 2017–FFY 2019): SEM Layer: Sectors of Influence By September 2019, LHD will employ collective impact principles to spearhead and/or participate in collaborative efforts (CNAP, subcontractor-convened coalitions and taskforces, and other existing and potential multi-sector partnerships) to address obesity prevention, food security, or other community change goals as evidenced by successful implementation of a minimum of one system-level PSE change.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
Collective Impact Principle: Backbone Agency						
7.1	Recruit and engage partners representing a minimum of five sectors to participate in CNAP	CED; CEI; MPR; X C&C; TTA	CWD; X LHD; AAA; UCCE; CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3, Q4 Year 2: Q1, Q2, Q3, Q4 Year 3: Q1, Q2, Q3, Q4	Partner recruitment emails and partner roster to be kept on file
7.2	Convene CNAP and other collaborative meetings a minimum of four times per year	CED; CEI; MPR; X C&C; TTA	CWD; X LHD; AAA; UCCE; CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	CNAP meeting agendas to be kept on file

7.3	LHD will convene and/or participate in a minimum of 4 collaborative meetings to advance PSE work and increase communication. Collaboratives may be structured around the following: faith sector stakeholders, youth and youth-oriented agencies, school stakeholders, retail stakeholders	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Collaborative meeting agendas to be kept on file
7.4	LHD will convene subcontractors and their coalitions a minimum of 2 times annually to increase communication, ensure a common agenda is being pursued across SNAP-Ed subcontractors and their collaborative partners, share and promote measurement tools and methodology, and highlight opportunities to decrease duplication of effort and increase mutually reinforcing activities.	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 , Q2 , Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Meeting agendas to be kept on file
7.5	Deliver a minimum of one SIA-approved capacity building activity per year for CNAP membership (collaboration trainings, PSE-related trainings, etc.)	CED: ; CEI: ; MPR: ; C&C: ; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 , Q2 , Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Training agendas to be kept on file

7.6	CNAP coordinator(s) to attend a minimum of one CDPH-approved capacity building opportunity per year (CDPH CNAP trainings, facilitator trainings, etc.)	CED CEI MPR C&C X TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Training agendas to be kept on file
7.7	Attend a minimum of four meetings for existing task forces and collaboratives related to SNAP-Ed community change goals and/or CNAP's goals and strategies annually to contribute SNAP-Ed perspective and build partnerships with key stakeholders.	CED CEI MPR X C&C TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Meeting agendas to be kept on file
7.8	Deliver a minimum of five presentations to community stakeholders regarding food insecurity in SNAP-Ed eligible communities in LAC to increase awareness of the problem and build support for PSE change.	CED CEI MPR C&C X TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Presentation materials to be kept on file (agendas, slides, attendance sheets)

7.9	LHD will research and pursue pilot projects to impact sector-wide change producing 1-3 reports annually discussing project feasibility, impact on SNAP-Ed eligible population, and action plans, as appropriate.	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Pilot project reports to be kept on file
Collective Impact Principle: Common Agenda						
7.10	Develop a CNAP vision statement that all partners agree upon	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1, Q2, Q3, Q4 Year 3: Q1, Q2, Q3, Q4	CNAP vision statement to be kept on file
7.11	Develop membership agreements and have all members sign annually	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1, Q2, Q3 X, Q4 Year 2: Q1, Q2, Q3 X, Q4 Year 3: Q1, Q2, Q3 X, Q4	Membership agreements to be kept on file

7.12	LHD will communicate local goals for SNAP-Ed efforts at all partner meetings with LIAs and/or subcontractors and their coalitions to ensure all stakeholders understand their role in achieving collective short, medium, and long term outcomes.	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Meeting agendas to be kept on file Meeting minutes to be kept on file
Collective Impact Principle: Continuous Communication						
7.13	Develop, document, and regularly review and assess progress toward completion of CNAP action plan (goal, strategies, tactics, timelines, member roles, etc.)	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1, Q2, Q3, Q4 Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	CNAP Action Plan to be kept on file Meeting minutes to be kept on file
7.14	LHD to facilitate CNAP and other collaborative meetings, share meeting notes and action items, and communicate news and updates with all relative partners on an ongoing basis.	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Collaborative communication samples to be kept on file Collaborative agendas to be kept on file Collaborative meeting minutes to be kept on file

Collective Impact Principle: Mutually Reinforcing Activities						
7.15	Conduct SWOT analysis with collaborative members to help initiate action planning process.	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 = ; ; ; Year 2: Q1 Q2 Q3 Q4 = X X X X Year 3: Q1 Q2 Q3 Q4 = ; ; ;	SWOT analysis notes to be kept on file
7.16	CNAP will identify, track, and promote existing policies within LAC that increase access to healthy food and beverages and promote food security.	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 = X X X X Year 2: Q1 Q2 Q3 Q4 = X X X X Year 3: Q1 Q2 Q3 Q4 = X X X X	Policy tracking notes to be kept on file
7.17	CNAP will coordinate events, marketing efforts, and direct education delivery to minimize duplication of effort and maximize coverage, reach, and impact of all collaborative members.	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: X; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 = X X X X Year 2: Q1 Q2 Q3 Q4 = X X X X Year 3: Q1 Q2 Q3 Q4 = X X X X	Meeting minutes, flyers, and event and marketing materials to be kept on file

7.18	Develop CNAP sustainability plan to ensure continuation of collaborative efforts and PSE changes beyond 2017-2019 SNAP-Ed grant cycle.	CED: ; CEI: ; MPR: ; C&C: X ; TTA:	CWD: ; LHD: X ; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 [ ] [ ] [ ] [ ] Year 2: Q1 Q2 Q3 Q4 [ ] [ ] [ ] [ ] Year 3: Q1 Q2 Q3 Q4 X X X X	CNAP sustainability plan to be kept on file
7.19	LIAs and subcontractors will coordinate events, marketing efforts, direct education delivery, and PSE efforts to minimize duplication of effort and maximize coverage, reach, and impact of SNAP-Ed investments in LAC.	CED: ; CEI: ; MPR: ; C&C: X ; TTA:	CWD: ; LHD: X ; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 X X X X Year 2: Q1 Q2 Q3 Q4 X X X X Year 3: Q1 Q2 Q3 Q4 X X X X	Meeting minutes, flyers, and event and marketing materials to be kept on file

7.20	In partnership with LHD's Tobacco Control and Prevention Program and Substance Abuse Prevention Program, develop Healthy Retail Recognition Program. Activities include, but are not limited to: • Conduct formative evaluation with store owners to refine criteria • Compile data from formative evaluation; summarize results of key informant interviews (summary report with key findings and recommendations to improve the criteria) • Develop and distribute Healthy Retail toolkit for store owners which will include definitions and guidance to support implementation of established criteria related to increasing and improving access to healthier foods and beverages for the SNAP-Ed audience. • Pilot test Healthy Retail Recognition Program with 5-10 store owners • Provide store owners with criteria, technical assistance (e.g. provide trainings on Fruit and Vegetable Marketing Guide • Provide 5-10 store owners with signage, including posters, clings, wobblers, shopping cart signs, etc. • Conduct 5-10 promotional events to highlight PSE changes for SNAP-Ed eligible audience • Establish partnership with 1-3 city and/or cities; present criteria, discuss incentives for store owners; discuss adoption of program as a voluntary program/policy			CWD: LHD: AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 X X X X Year 2 Q1 Q2 Q3 Q4 X X X X Year 3 Q1 Q2 Q3 Q4 X X X X	Summary of technical assistance provided to be kept on file

Collective Impact Principle: Shared Measurement						
7.21	LHD will leverage evaluation resources and expertise to select 1-3 aligned measurement tools (only CDPH-approved tools will be selected) for formative, process, and outcome evaluation across each PSE and direct education delivery plan and will facilitate the utilization of these tools by subcontractors and their coalitions to ensure shared measurement across SNAP-Ed activities in LAC. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #9 (FFY 2017–FFY 2019):** By September 2019, increase capacity of LIAs, subcontractors, and unfunded partners to deliver SNAP-Ed programs and services by offering and/or facilitating 10-25 trainings annually and providing technical assistance on an ongoing and as needed basis.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:** N/A; trainings will help support PSE efforts.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   d. By September 2017, LHD will identify needs and develop capacity building plan for 3-year objectives 1-5.
   e. By September 2017, LHD will deliver 10-25 trainings to a minimum of 25 subcontractors and unfunded partners to enhance SNAP-Ed delivery, including nutrition education, physical activity promotion, and PSE planning and implementation.

2. **FFY 2018 (Year 2) Objective(s):**

   a. By September 2018, incorporate training evaluations to update and improve capacity building plans for 3-year objectives 1-5.

   b. By September 2018, LHD will deliver 10-25 trainings to a minimum of 25 subcontractors and unfunded partners to enhance SNAP-Ed delivery, including nutrition education, physical activity promotion, and PSE planning and implementation.

3. **FFY 2019 (Year 3) Objective(s):**

   f. By September 2019, delver 10-25 trainings to subcontracted partners to enhance PSE implementation and maintenance.
   g. By September 2019, develop 5-10 implementation toolkits to support PSE sustainability and advance future PSE work.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Los Angeles County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #9 (FFY 2017–FFY 2019): By September 2019, increase capacity of LIA staff and subcontracted agencies to deliver SNAP-Ed programs and services by offering and/or facilitating 10-25 trainings annually and providing technical assistance on an ongoing and as needed basis.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
9.1	Conduct needs assessment to identify topic areas for training and technical assistance offerings by seeking feedback from subcontractors and other stakeholders annually; explore feasibility of hosting training opportunities and/or providing other types of technical assistance as needed.	CED CEI MPR C&C X TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X; Q2; Q3; Q4 Year 2: Q1 X; Q2; Q3; Q4 Year 3: Q1 X; Q2; Q3; Q4	Needs assessment findings to be kept on file
9.2	Develop plans (1 per year) for delivering training and technical assistance across each PSE strategy including, but not limited to: training topic, training objectives, preferred vendor and/or staff facilitator, target audience, and cost to LIA/subcontractor.	CED CEI MPR C&C X TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X; Q2; Q3; Q4 Year 2: Q1 X; Q2; Q3; Q4 Year 3: Q1 X; Q2; Q3; Q4	Training plans to be kept on file

9.3	Conduct 10-25 trainings and/or technical assistance sessions on nutrition education, food security, PSE implementation and other SNAP-Ed-related topics to SNAP-Ed funded and unfunded entities working with SNAP-Ed eligible populations. All training plans to be vetted and approved by CDPH. Training topics may include, but not limited to: • Community Asset Mapping • Nutrition 101 • Peer to Peer Education • Gardening 101 • Advancing PSE change through Gardens • Active Transportation and Land Use • School Wellness Policy Implementation • Designing and Managing Multi-Stakeholder Collaborations • Youth Engagement/YPAR Adult Ally Training • Community Based Participatory Research • Engaging Faith Partners • 4 P's of Healthy Marketing • Healthy Business • Building Healthier Communities	☐ CED ☐ CEI ☐ MPR ☐ C&C ☒ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Training agendas and other materials to be kept on file. Attendance sheets to be kept on file.

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	Office Supplies based on prorated County (including Student Professional Workers) for 12 months to adequately fund Project expenses to meet SOW. This amount will cover general office supplies assigned to this project to complete fiscal and programmatic requirements. Office supplies include copy paper, binders, name badge kits, small office essentials (i.e. staplers, file stands, pens, markers, highlighters, sticky notes, scissors, file folders, hanging folders, envelopes, labels, etc.)	37.1	$40.431	12	$18,000	
2			Mail	Mail services for submission of programmatic and fiscal reports. Cost calculated at 37.1 FTE x $5.615 (estimated cost of mail/postage per FTE) x 12 months	37.1	$5.615	12	$2,500	
3			CCLHDN Membership Fees	LHD annual membership for California Conference of Local Health Department Nutritionist (CCLHDN).	1	$150.00	1	$150	
				Theft-sensitive equipment/supplies that are less than $5,000 (Computers, printers, projectors, etc.)					
							Total Non-Capital Equipment/Supplies:	**$20,650**	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Printing	Printing and Duplicating for NEOP-LA program Including but not limited to the printing of published articles/journal supplement, posters, banners, booklets, business cards, participant paperwork and correspondence, NEOP-LA Program Stationary, etc.	$10.00	500	$5,000	
2			Educational Materials	The amount of $2,000 is budgeted to Educational Materials to deliver SNAP-Ed in 30-40 qualifying worksites and retail locations throughout LA County. Materials will be assembled into 4 "kits," to be utilized for the provision of nutrition education and physical activity promotion classes at qualifying sites; items included in the kits will not be used as giveaways to SNAP-Ed participants. Each kit will be comprised of food models, fat models, sugar test tubes, MyPlate visual displays, teaching tools, and posters. Revised calculation: Cost per item (each kit)= $500/kit, # of items= 4, Total= $2,000, We have not budgeted for NERI	$500.00	4	$2,000	
3			Healthy Cooking Demonstration	$2,500 - Cost of conducting 1,000 food demos at qualifying worksites, retail, and in other qualifying locations to promote healthy eating. Unit cost of $2.50 includes but is not limited to ingredients, paper napkins, paper plates, and utensils.	$2.50	1000	$2,500	
4			Physical Activity Materials	The amount of $7,500 is budgeted for Physical Activity Materials to deliver SNAP-Ed in 30-40 qualifying worksites and community locations. Items will be assembled into "kits," to be utilized for the provision of nutrition education and physical activity promotion classes in qualifying sites; items included in the kits will not be used as giveaways to SNAP-Ed participants. Kits will be comprised of low-cost physical activity supplies such as jump ropes, yoga mats, flying disks, resistance bands, sports balls, cones, bean bags, free weights, hula hoops, and equipment bags. Revised calculation: Cost per item (each kit)= $250/kit # of items= 4 Total= $1,000	$250.00	4	$1,000	
5			Costs associated with other activities	Reimbursement for personal costs such as child care, meals, lodging, and transportation for recipients of SNAP-Ed to actively participate in focus groups, needs assessments, and advisory groups to inform and improve SNAP-Ed effectiveness.	$10.00	100	$1,000	
6			Translation Services	Cost of providing interpretation and/or translation services to support the delivery of SNAP-Ed.	$100.00	10	$1,000	
7			Youth Engagement Team T-shirts and PEER to PEER Education T-shirts	T-shirts will be purchased for youth engagement teams and peer to peer educators. The purpose of the t-shirts will be to increase program visibility and promoting PSE strategies in school and community settings. Please note that these shirts will not be used as "give away" items or incentives, but rather, to build a strong presence of SNAP-Ed work in local communities. 100 @$20/t-shirt total of $2,000 Estimated Shipping $30	$20.30	100	$2,030	
						Total Materials:	**$14,530**

Services include, but are not limited to, providing support for nutrition education curriculum integration, attending school wellness committee meetings, convening stakeholders, coordinating and/or facilitating trainings, and/or providing one-on-one, tailored technical assistance LAUSD teachers and district leadership.	$84,283	

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: County of Los Angeles, Department of Public Health

AD			Subcontractor AD: TBD	Subcontractor will develop evaluation plan using qualitative and quantitative methods to measure programmatic impact and effectiveness in the areas of schools, faith, retail, worksite, and jurisdiction-level programmatic interventions. The evaluation group will help produce case studies to document PSE efforts, outcomes, and impact in more detail and in selected settings (e.g. schools, faith, retail, healthcare with food insecurity screening). Please note that LAC DPH intends to reduce this amount to $250K and redirect $100K to support a Research Analyst that can assist with coordination of these activities and of activities anticipated as a result of iterative data feedback to the SNAP-Ed funded agencies providing nutrition education and working on PSEs. One of the key function (deliverable) for this staffing will be to develop and coordinate a data feedback process to provide subcontractors with real time data that can be used for program improvement	$350,000	
AE			Subcontractor AE: TBD	These funds will be used to develop questions in the LA County Health Survey specifically for SNAP eligible residents in Los Angeles County. The Los Angeles County Health Survey is a population based telephone survey that provides information concerning the health of Los Angeles County residents. The data are used for assessing health-related needs of the population, for program planning and policy development, and for program evaluation. The relatively large sample size allows users to obtain health indicator data for large demographic subgroups and across geographic regions of the County, including Service Planning Areas and Health Districts.	$100,000	
				Contracts/Sub-Grants/Agreements that are less than $25,000		
1			Training #1 TBD	Health Educator Academy: Peer educators of subcontracted agencies will receive a series of 6 in-person trainings on facilitating direct nutrition education, including group facilitation techniques, cultural competency, adult learning theory, and community engagement. To accommodate the needs of the peer educators and their respective target audiences, trainings will be offered in both English and Spanish (12 total full-day trainings).	$15,000	
2			Training #2 TBD	Community Based Participatory Research: LHD staff and Project Coordinators of subcontracted agencies will receive an in-depth, in-person training on Community Based Participatory Research, including principles, how to utilize CBPR as a strategy for PSE changes, and promising practices. (2 full-day trainings)	$9,500	
3			Training #3 TBD	Youth Engagement/YPAR Adult Ally Training: Adult Ally's of subcontracted agencies will receive in-depth, in-person trainings on topics including recruiting and engaging youth, implementing the YPAR framework, preparing youth for presentations to decision makers, using social media to advance PSE changes, and networking with youth in Los Angeles County on similar projects. (4 half-day trainings) Youth Workshop: Adult Ally's and youth will convene for an opportunity for youth across Los Angeles County and Southern California to network with one another, engage in relationship-building activities, and highlight and showcase their work. (4 full-day workshops)	$9,500	
4			Training #4 TBD	Designing and Managing Multi-stakeholder Collaborations: LHD staff and Project Coordinators of subcontracted agencies will receive a series of 3 in person trainings on topics such as facilitator fundamentals, dynamics of group decision-making, facilitating sustainable agreements and reaching closure. Participants will be able to practice tangible skills that will enhance their PSE changes. (3 full-day trainings)	$8,000	
5			Training #5 TBD	Healthy Worksites: LHD Staff will receive in depth training on topics including how to approaching worksites with a business mind frame, how to speak the language to engage businesses in health and PSE efforts, and specific tools to help business partners sustain changes.	$1,000	
6			Training #6 TBD	Healthy Parks, Healthy Retail, and Active Transportation PSE training Program Planning in the Retail Setting: Subcontracted agencies will receive in-person training on Collecting Sales Data for Statistical and Evaluation Purposes, Planning, Promoting, and Hosting Successful Marketing Events in the Retail Space. (3 half-day trainings). Building Healthier Communities: LHD Staff and Project Coordinators of subcontracted agencies will receive in-depth, in-person trainings on helping communities become healthier places. Topics will include improving healthy food access; healthy parks; healthy and sustainable neighborhood design. (2 full-day trainings) Healthy Parks, Healthy Retail, and Active Transportation PSE training Active Transportation and Land Use Implementation Tools and Training: LHD staff and subcontracted agencies will receive a local, tailored training designed to meet the needs of subcontractors working with low-income cities on supporting implementation of Complete Streets and Healthy Parks policies. (1 full-day training) Behavioral Economics: LHD staff and project coordinators of subcontracted agencies will receive in-depth, in-person trainings on theory, principles, application, and evaluation. Training will also include concepts associated with generating buy-in from schools, corner store owners, and participating worksite locations. (3 half-day trainings)	$18,000	
7			Training #7 TBD	Engaging Faith Partners: LHD staff and subcontracted agencies will receive a training that includes topics on implementing SNAP-Ed curriculum within faith settings, effectively engagement pastors and church leaders, evidence-based PSE strategies in the church setting. (1 full-day training)	$8,600	
8			Training #8 TBD	Applying Collective Impact Framework to SNAP-Ed: LHD staff and subcontracted agencies will receive tailored training and technical assistance on the key concepts of collective impact, explore tools and resources that will increase collaborative effectiveness to improve SNAP-Ed PSE efforts.	$5,000	
9			Training #9 TBD	Engaging Parents as Agents of Change in Schools: Subcontracted agencies will receive a two day training on topics including, an overview of school wellness policies, roles parents can play in supporting healthier school environments, and how to maintain parent involvement. (2 full-day trainings)	$15,000	
10			Training #10 TBD	Tailored Professional Leadership Development: LHD staff and Project Coordinators of subcontracted agencies will receive an in-person leadership training on creating a vision and mission, SMART goal setting, and conducting program planning in order to ensure successful implementation of SNAP-Ed efforts in low-income communities. (3 half-day trainings)	$5,000	
11			Training #11 TBD	Collaborative Development Training: LHD staff and Project Coordinators of subcontracted agencies will receive tailored training and technical assistance on partnerships, collaborating for change, and facilitation to increase the impact of local collaboratives.	$20,000	
12			Preventive Medicine	Journal publications: fees for six articles, to be published in Preventive Medicine. Fees include open online access for six peer-reviewed journal articles describing SNAP-Ed work in Los Angeles County.	$22,000

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Nutrition Education Materials	Budget to cover the cost of nutrition education materials. 1 kit per service set will be assembled, examples of SNAP-Ed materials that will be included are food models, fat models, sugar tests tubes, MyPlate visual displays, teaching tools, and posters. Current estimate: $500/kit x 10 sites = $5,000	$500.00	10	$5,000	
2			Healthy Cooking Demonstrations	Budget to purchase ingredients to prepare recipes for food tasting demonstrations at service sites and community outreach events. Current estimate: 137 classes x 30 participants = 4,110 participants $2.50 x 4,110 participants = $10,275	$2.50	4110	$10,275	
3			Cooking Demonstration Supplies	Budget to cover the cost of cooking supplies. Cooking supplies include: low-cost blenders, cutting boards, frying pans, pots, plastic storage bags and containers, ice packs, cookers, for safely transporting food, and small kitchen wares such as mixing bowls, mixing spoons, serving utensils, and knives. Current estimate: Average cost per item = $20.00 $20.00 (average cost per item) x 125 of items = $2,500	$20.00	125	$2,500	
4			Event Fees	The event fees line item will be utilized to participate in outreach events and space necessary to engage participants in nutrition education activities. These activities will help to raise awareness of the Champions for Change program. Current estimate: $500/per event x 9 events = $4,500	$500.00	9	$4,500	
5			Garden Materials	Budget to build and maintain thirteen community gardens. Budget will cover expenses of soil, compost, garden hoses, storage containers, seeds, seedlings, gloves, and small gardening tools such as rakes, shovels, etc. for each garden. Current estimate: $1,000 per garden x 10 of sites = $10,000	$1,000.00	10	$10,000	
6			Physical Activity Materials	Budget to prepare 1 kit for each service site. The kit will include physical activity materials such as jump ropes, yoga maps, sports balls, stretch bands, medicine balls, cones, bean bags, free weights, flying disks, and hula hoops. Current estimate: $1,813 (per kit) x 10 sites = $18,130	$1,813.00	10	$18,130

County/Jurisdiction: County of Los Angeles, Department of Public Health
Contract/Sub-Grant/Agreement: Youth Policy Institute

7			Printing and Duplication	The budgeted amount will cover the cost of surveys, flyers, meeting announcements, newsletters, outreach materials, meeting handouts, training handouts, reports, and educational materials. Current estimate: Black and white copies: $0.06 per copy x 8,300 copies = $498 Color copies: $0.10 per copy x 4,970 copies = $497 Total: $498 + 497 = $995 Average cost per copy: $995 ÷ 13,270 copies = $0.074981	$0.075	13270	$995	
8			Translations	Budget for translation services from English to languages appropriate for the target audience. These services will be utilized for community workshops, healthy cooking demonstrations, and coalition meetings. Current estimate: $50 x 56 hours =$2,800	$50.00	56	$2,800	
9			Focus Groups and Needs Assessment Costs	Budget to cover costs such as child care, meals and transportation for SNAP-ED recipients to actively participate in focus groups, needs assessments, and advisory groups to inform and improve SNAP-ED effectiveness. Current estimate: $10/healthy meal x 10 participants = $100 $15/hour for licensed child care provider for x 2 hours = $30 $10 transportation voucher x 10 participants = $100 Average cost per focus group = $230 $230 x 4 focus groups = $920	$230.00	4	$920	
						Total Materials:		**$55,120**

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	The actual average cost of office supplies for YWCA-GLA staff is $126.69 per month per FTE employee. Based on this average cost per FTE, $5,169 is budgeted for the purchase of Office Supplies for 3.4 FTE to support the project. The budgeted amount will cover general office supplies that will be used by the 3.4 FTE's assigned to this project. General office supplies include items such as pens, papers, folders, staples, paper clips, tape, envelopes, etc. needed for agency to meet SOW.	3.4	$126.69	12	$5,169	
2			Postage	Based on historical expenditures, $500 is budgeted for postage for mailings sent to support this program.	3.4	$12.26	12	$500	
							Total Non-Capital Equipment/Supplies:	**$5,669**	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Nutrition Education Materials	The amount of $3,000 is budgeted for the acquisition of Educational Materials to use in workshops. One (1) nutrition education kit will be provided ($250/kit) for each site for a total of 12. Materials will include: display materials, nutritional handouts, flip charts and food models, fat models and sugar test tubes. Specific materials to be added to the kits include: My Plate Eat Well fact sheets, Champions for Change cookbooks and recipe cards to use and distribute at community events for an estimated over 2,200 participants throughout the year. The team will take full advantage of the free materials available from the USDA, including the approved nutritional education curriculum.	$250.00	12	$3,000	
2			Healthy Cooking Demonstrations	The amount of $5,340 is budgeted for healthy cooking food demonstrations. An average cost of $2.50 per participant is planned to purchase ingredients for approved recipes for food tasting demonstrations at twelve sites.	$2.50	2136	$5,340	
3			Cooking Demonstration Supplies	The amount of $4,520 is budgeted for the purchase of additional Cooking Demonstration Supplies. The majority of these demonstrations will be conducted without the use of an oven or stove and supplies will be shared amongst sites. This will result in a minimal purchase of stove top pots, pans and baking dishes. The majority of these funds will go toward the purchase of a few low cost blenders, beverage dispensers, measuring cups, cutting boards, sets of mixing bowls in varying sizes, mixing spoons, serving utensils, colanders, graters, plates and utensils.	$20.00	226	$4,520	
4			Event Fees	The amount of $3,000 is budgeted for booth fees for workshops. An amount of $250.00 is budgeted to support 12 workshops to support nutrition education by teaching an estimated 25 participants per event to grow their own fruits and vegetables. Workshops will also support the PSE goals of the project at each program site.	$250.00	12	$3,000	
5			Garden Materials	The amount of $6,000 is budgeted for Garden Supplies. The cost to maintain 12 gardens created in Year 2 is an average of $500 per garden. The $6,000 will cover the expense of purchasing soil, hoses, storage containers, seeds, seedlings, gloves, gardening tools and signage for each garden. Signage is important as these gardens will be tied to nutrition education and will serve as learning spaces for children and parents alike.	$500.00	12	$6,000	

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: County of Los Angeles, Department of Public Health
Contract/Sub-Grant/Agreement: YWCA of Greater Los Angeles

6			Physical Activity Materials	The amount of $4,860 is budgeted for the purchase of Physical Activity Materials. The budget is based on a cost of $2.50 per participant. The total number of participants is projected at 15. Twelve workshops will be held at the 12 sites throughout the year. The physical activity materials will be divided so that each target community has a set of materials that are easily accessible. These materials will be used to integrate physical activity instruction and hands on engagement into nutrition education/physical activity workshops. The materials consist of jump ropes, yoga mats, pedometers, an agility ladder, light weights and medicine balls.	$405.00	12	$4,860	
7			Printing and Duplication	The amount of $5,514 is budgeted for Printing & Duplication. Included in this estimate is the cost of printing of banners at community garden sites announcing nutrition/physical activity workshops, producing flyers for promoting workshop and events, copies of workshop materials for classes, and printing and duplication of annual reports. It is important to note that all materials will be printed in both English and Spanish. The calculation of the estimated cost follows. Black white copies: $0.06 per copy x 66,666 copies = $4,000 (rounded) Color copies: $.25 x 6,056 copies = $1,514 Total: $4,000 + $1,514 = $5,514 Average cost per copy: $5,514/ 72,722 copies = $.07 per copy (rounded)	$0.07582	72722	$5,514	
8			Certifications	The amount of $60 is budgeted for a certification fee for two project staff persons to receive training and certification to become ServeSafe Certified.	$15.00	4	$60	
9			Translation Services	The amount of $8,200 will be budgeted for translation services for an estimated 20 focus groups, coalition and task force meetings at a rate of $410 per meeting. This includes a fee for the interpreter and equipment rental for an estimated 20 participants. This will provide an opportunity for all community members to be able to benefit from participating without being hindered by language barriers.	$410.00	20	$8,200	
10			Focus Groups and Needs Assessment Costs	The amount of $4,500 is budgeted for childcare and healthy meals for recipients of SNAP-Ed to actively participate in focus groups, needs assessments and advisory groups to inform and improve SNAP-Ed effectiveness. These costs will not be used as incentives and will be limited to fulfill scope of work requirements for the above mentioned activities. A total of 25 meetings (focus groups, coalition and task force) will be conducted in Year 2 to determine needs and interests in topics related to healthy eating and physical activity and determine linguistic and culturally specific needs. A breakdown of costs associated with each meeting is as follows; $10 Healthy meals x 15 participants = $150 $15 hr for licensed childcare provider x 2 hrs. = $30 Average cost per focus group, coalition or task force meeting = $180	$180.00	25	$4,500	
						Total Materials:		**$44,994**

Definition and basis for calculations of benefit rate(s):
Describe what is covered in the benefit rate for your agency.

Employee Benefits Full-Time: $52,502
Personnel benefits are based on actual experience of staff in place, and include for full time employees: PPO and HMO health coverage (10.20%), PPO and HMO dental coverage (.37%), vision coverage (.50%), life and disability insurance (1.50%), state unemployment (1.94%), FICA (7.65%), workers compensation (2.87%), and a 401k retirement plan (3.00%). The total benefits rate is calculated at 30.00% for full time employees. (10.20+.37+.50+1.50+1.94+7.65+2.87+3.00= 28.03 ?

• Program Director: Benefits total
$28,842 * 30% = $8,653

• Initiative Coordinator: Benefits total
$57,301 * 30% = $17,190

• Health Educators: Benefits total
$38,268 * 30% = $11,480 – Giovanna Lipow
$33,708 * 30% = $10,112 – Monica Valencia

• Administrative Assistant: Benefits total
$16,888 * 30% = $5,067 – TBD

Total Benefits – Full-Time: $8,653 + 17,190 + 11,480 + 10,112 + 5,067 = $52,502

Including serving cups, plates, and plastic utensils. Current estimate: 325 classes x 10 participants = 3,250 participants $1.24 x 3,250 participants = $4,030	$1.24	3250	$4,030	
3			Healthy Cooking Demonstration Supplies	Budget to cover the cost of cooking supplies. Cooking supplies include: low cost blenders, cutting boards, plastic storage bags and containers, ice packs, coolers for safely transporting food and small kitchen wares such as mixing bowls, mixing spoons, serving utensils, and knives. Current estimate: Average cost per item = $20.00 $20.00 (average cost per item) x 62 of items = $1,240	$20.00	62	$1,240	
4			Event Fees	Budget for event fees to participate in community outreach events (school fairs, health events, etc.) for registration or tabling fee. Current estimate: $100/per event x 10 events = $1,000	$100.00	10	$1,000	
5			Physical Activity Materials	Budget to prepare 1 kit for each service site. The kit will include low cost physical activity materials such as: jump ropes, yoga mats, sport balls, stretch bands, medicine balls, cones bean bags, free weights, flying disks and hula hoops Current estimate: $200 (per kit) x 10 sites = $2,000	$200.00	10	$2,000	
6			Certifications	Budget to cover ServSafe certification costs for 3 FTE (Project Coordinator, 1.0 FTE, Health Educator, 1.0 FTE, Community Liaison, 1.0 FTE)	$15.00	3	$45

Definition and basis for calculations of benefit rate(s):
Describe what is covered in the benefit rate for your agency.

Full-Time Employee Benefits:
Project coordinator and health educator will receive full-time employee benefits at a rate of 24.046% (13.888% - PERS, 6.20% - OASDI, 0.05% - State Unemployment Insurance, 2.458% - Workers Compensation, 1.45% - Medicare) runded to 24.05% and approximately $12,491.04 each for Medical/Dental/Vision.
Fringe Benefits: $127,500 ($67,500 + $60,000) x 24.05% = $30,663.75
Health Benefits: $12,991.04 x 2 employees = $25,982.08.
Total Full Time Employee Benefits: $30,663.75 + $25,982.08 = $56,645.83 (rounded to $56,646).

Part-Time Employee Benefits:
Account clerk will receive of part-time employee benefits at a rate of 24.05% for fringe benefits (13.888% - PERS, 6.20% - OASDI, 0.05% - State Unemployment Insurance, 2.458% - Workers Compensation, 1.45% - Medicare).
Fringe Benefits: $27,281 x 24.05% = $6,561.08 (rounded to $6,561).

Peer educators will receive statutory fringe benefits at 7.708 (rounded to 7.71%) (0.05% - State Unemployment Insurance, 2.458% - Workers Compensation, 3.75% - Alterative Retirement Plan, 1.45% - Medicare).
Fringe Benefits: $54,000 x 7.71% = $4,163.40 (rounded to $4,163).

Total Employee Benefits: $56,646 + $6,561 + $4,163 = $67,370

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	The amount of $1,500 is budgeted for the cost of office supplies. The budgeted amount will cover general office supplies for all employees assigned to this project. General office supplies will be used by staff members to carry out daily activities of the program and complete required deliverables. Supplies include, but are not limited to: pens, pencils, paper, folders, scissors, tape, staples, labels, calculators, markers, easels, office furniture, etc. The budgeted amount is calculated as follows: 4.75FTE x $26.32 x 12 months = $1,500	4.75	$26.32	12	$1,500	
2			Postage	It is anticipated that postage costs will be $170. The budgeted amount will be used for correspondence with community stakeholders and LAC-DPH. 4.75FTE x $2.98/month x 12 months = $170	4.75	$2.98	12	$170	
							Total Non-Capital Equipment/Supplies:	$1,670	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Nutrition Educational Materials	The amount of $200 is budgeted to replenish education supplies purchased with year one funds. Purchased materials will be used in nutrition education and physical activity workshops, events, and PSE projects that are required for the delivery of critical SNAP-Ed program services in 25 locations. Cost for educational materials include: California Department of Public Health-approved nutrition education materials, food models, posters, display and handouts. An estimated cost of $8 per location has been allocated to replenish supplies. Cost will vary by site.	$8.00	25	$200	
2			Healthy Cooking Demonstrations	An amount of $0.75 is budgeted per participant to purchase food for taste-test demonstrations. This amount also includes taste-test supplies, such as paper plates, cups, plastic utensils, napkins, etc. An estimated 20 participants will be engaged per workshop. 250 classes x 20 participants = 5,000 total participants $0.75/participants x 5,000 participants = $3,750	$0.75	5000	$3,750	
3			Cooking Demonstration Supplies	An amount of $100 is budgeted to replenish missing or damaged cooking demonstration supplies. Average cost per item = $10 $10 (average cost per item) x 10 items = $100	$10.00	10	$100	
4			Garden Material	The amount of $2,000 is budgeted for garden supplies to support PSE efforts. An average of $200 per garden is budgeted to maintain, replenish and further expand 10 school gardens. Supplies will be used at nine LESD school gardens, as well as approved additional locations. Please note that one of our school sites has two gardens on campus. The $200 will cover the purchase of soil, hoses, storage containers, seeds, seedlings, gloves, plywood, nails, and other gardening tools. $200(per garden) x 10 gardens = $2000	$200.00	10	$2,000	
5			Printing and Duplication	The amount of $1,500 is budgeted for printing and duplication. The budgeted amount will cover printing of approved curriculum, handouts, letters, flyers, posters, banners, and signs. $125/month x 12 months = $1,500	$125.00	12	$1,500	
6			Focus Groups and Needs Assessment Costs	The amount of $1,500 is budgeted for costs necessary to complete focus groups, needs assessments, and advisory group meetings to inform and improve SNAP-Ed effectiveness. Such costs will include: childcare, healthy meals, and transportation for participants. These costs will not be used as incentives for SNAP-Ed recipients to attend nutrition and physical activity workshops. Approximately 10 focus groups, reaching 10 SNAP-Ed recipients will be conducted during year 2. A breakdown of costs associated with each focus group is as follows: $6/healthy meal x 10 participants = $60 $15/hr for licensed childcare provider x 2 hours = $30	$150.00	10	$1,500	
						Total Materials:	$9,050

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	The budgeted amount will cover general office supplies for the four FTEs (Project Coordinator-TBD, Deborah Ebrahemi, Scott Kelly, Andy Kreiss) assigned to this project. General office supplies needed for agency to meet SOW include, but are not limited to: paper, envelopes, folders, toner, pens, pencils, highlighters, notebooks, binders, file folders, staplers, staples, scissors, flip charts, colored paper, tape and other convening materials. Office Supplies Cost per FTE $66.66 X 12 months X 2.75 FTE = Cost of Supplies $2200	2.75	$66.66	12	$2,200	
2			Postage	Postage is requested at a total amount of $550.00 to cover the annual mailing costs associated with the SOW for four FTEs (Project Coordinator-TBD, Deborah Ebrahemi, Scott Kelly, Andy Kreiss). Cost of FTE $16.66 X 12 months X 2.75 FTE = Cost of Postage $550	2.75	$16.66	12	$550	
							Total Non-Capital Equipment/Supplies:	**$2,750**	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Nutrition Educational Materials	The amount of $15,000.00 is budgeted to Educational Materials. Cost of nutrition education materials will include USDA-approved nutrition education curriculum, MyPlate posters and display materials, recipe cards and cookbooks, flip charts, food models, fat and sugar models. These materials will be used at designated site events for an estimated 1,040 participants throughout the year. The estimated cost per participant is $4.17 x 60 participants per event (60 events) , however this cost does not include the additional materials that we will have available at each site to share with Wellness Center patients who, based on their health indicators, will be given materials to take home with them. Average Cost per Unit $ 250 X 60 itmes = $15000	$250.00	60	$15,000	
2			Healthy Cooking Demonstration	The amount of $6,000.00 is budgeted for Food Demonstrations. An amount of $2.50 is budgeted per participant to purchase ingredients for approved recipes for food tasting demonstrations at 10 sites. Additional items include supply costs (e.g. paper napkins, utensils, sample cups, paper goods). $2.5 per participant cost X 2400 of participants = $ 6000	$2.50	2400	$6,000	
3			Cooking Demonstration Supplies	The amount of $2,000.00 is budgeted annually for Cooking Demo Supplies. An average unit cost of $20.00 per participant is budgeted to purchase supplies including: cutting boards, coolers, ice packs, blenders, utensils, etc. to support nutrition education activities. The budgeted amount is calculated as follows: 100 of supplies X $20 Average unit cost = $2000	$20.00	100	$2,000	
4			Garden Materials	The amount of $5,000.00 is budgeted to Garden Materials. A one-time total of $500 per garden is budgeted to replenish and maintain 10 gardens annually. The $500 will also cover the expenses of soil, hoses, storage containers, seeds, seedlings, gloves, and gardening tools for each garden.	$500.00	10	$5,000	
5			Printing and Duplication	The amount of $5,000.00 is budgeted to Printing and Duplication. An average annual amount of $500.00 per designated site is budgeted to cover costs associated with printing of handouts, flyers, etc. that will be distributed to 10,613 students across all ten designated sites. The estimated cost per participant is $0.94. Black white copies: $0.06 per copy x 5,000 copies= $300 Color copies: $0.10 per copy x 2,125 copies = $212.50 Total: $300 + $212.50 = $512.50 Average cost per copy: $512.50÷ 7,125 copies = $.07017 per copy (rounded) $.07017 per copy x 7,125 copies = $499.96 -$ 500 (rounded) A total of $500 per site is requested for 10 sites, totaling $5,000. 7,125 copies x 10 sites= 71,250	$0.07017	71250	$5,000

Contract/Sub-Grant/Agreement: The Los Angeles Trust for Children's Health

6			Focus Group and Needs Assessment Costs	The amount of $7,650.00 is budgeted to focus Group and Needs Assessment costs. This total will offset the costs for transportation, meals and gift cards for focus group participants. A total of 5 focus groups with approximately 50 total participants will be held in the year to follow up on intervention and education classes and amend as recommended. Funds are broken down as follows: $10/transportation voucher x 50 participants/site = $500; $20/healthy meal x 50 participants/site= $1000; $30 site for childcare, miscellaneous meeting supplies and/or stipends for student leaders. This information will drive program assessment and improvement and insure community buy in both classes and program strategy. A breakdown of costs associated with each focus groups is as follows: $10/transportation voucher x 50 participants = $500 $20/healthy meal x 50 participants= $1,000 $15/hour for licensed child care provider x 2 hours = $30 Average cost per Focus Group = $1,530 $1,530 x 5 Focus Groups = $7,650	$1,530.00	5	$7,650	
							Total Materials:		**$40,650**

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	Budget for general office supplies needed to meet the requirements of the scope of work. Supplies include pens, papers, folders, staples, paper clips, tape, envelopes, etc. for the 3.85 FTE (Assistant Director, 0.15 FTE, Project Coordinator, 1.0 FTE, Health Educator 1, 1.0 FTE, Health Educator 2, 1.0 FTE, Health Educator 3, 0.70 FTE) assigned to the project. Current estimate: 3.85 FTE x $59.26/month x 12 months = $2,737.81, Rounded to $2,738	3.85	$59.26	12	$2,738	
2			Postage	Budget will cover the cost of mailing out brochures, program reports, invoices, and other programmatic correspondence to clients, community members and collaborating agencies for 3.85 FTE (Assistant Director, 0.15 FTE, Project Coordinator, 1.0 FTE, Health Educator 1, 1.0 FTE, Health Educator 2, 1.0 FTE, Health Educator 3, 0.70 FTE). Current estimate: 3.85 FTE x $1.29/month x 12 months = $59.59, Rounded to $60	3.85	$1.29	12	$60	
			Theft-sensitive equipment/supplies that are less than $5,000 (Computers, printers, projectors, etc.)						
							Total Non-Capital Equipment/Supplies:	**$2,798**	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Nutrition Education Materials	Budget to purchase SNAP-Ed approved curriculum CATCH Early Childhood "It's Fun To Be Healthy" Manual & Activity Box. 1 kit per school site will be purchased. Kit includes; 9 nutrition-based and 10 gardening-based classroom lessons to encourage healthy eating behaviors, 400 activity cards with music, parent tip sheets, extension activities, curriculum connectors, an adaptive learning component, and a list of Spanish translations of "key words" from lesson plan. Current estimate: $349.07/kit x 13 sites = $4,538	$349.07	13	$4,538	
2			Healthy Cooking Demonstrations	Budget to purchase ingredients to prepare SNAP-Ed approved recipes. Items include: water to refill water dispersers, fresh fruit beverages, cups, serving utensils, paper plates, serving boats, utensils, napkins, Ziploc bags, aluminum foil paper, plastic globes, hair nets, sample cups, disinfecting wipes, plastic wrap, and spices. Current estimate: 200 classes x 9 participants = 1,800 participants $2.50 x 1,800 participants = $4,500	$2.50	1800	$4,500	
3			Healthy Cooking Demonstration Supplies	Budget to cover the cost for beverage dispensers, low-cost blenders, cutting boards, plastic storage bags and containers, ice packs, trash bags, kitchen towels, strainer, pots/pans, measuring cups, coolers to safely transport food, and small kitchen wares such as mixing bowls, mixing spoons, serving utensils, and knifes used for cooking demonstrations. Current estimate: Average cost per item = $20.00 $20.00 (average cost per item) x 147 of items = $2,940	$20.00	147	$2,940	
4			Event Fees	Budget to cover the cost of Event Fees to hold Task Force Committee Meetings, Program Events, Outreach Events, and Presentations. Current estimate: $100/per event x 40 events = $4,000	$100.00	40	$4,000	

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: County of Los Angeles, Department of Public Health
Contract/Sub-Grant/Agreement: Human Services Association

5			Physical Activity Materials	Budget to prepare 1 kit for each service site. The kit will include; elastic bands, jump ropes, yoga mats, Frisbee, exercise balls, exercise dice, physical activity posters, activity cones, activity parachutes, hula hoops, and bean bags.Current estimate: $209.61 (per kit) x 13 sites = $2,724.93, Rounded to $2,725.	$209.61	13	$2,725	
6			Certifications	Budget to cover cost for Zumba recertification certification for 2 FTE (Health Educator 1, 1.0 FTE, Health Educator 2, 1.0 FTE). Zumba recertification is requested to ensure safe delivery of physical activity demonstrations. Certifications valid for a 12-month period. Current estimate: Zumba recertification: $295 x 2 FTE (Health Educator 1, 1.0 FTE, Health Educator 2, 1.0 FTE) = $590 Average cost per staff = $590 ÷ 2 FTE = $295	$295.00	2	$590	
7			Printing and Duplication	The budgeted amount will cover the cost of printing outreach materials, flyers, business cards, SNAP-Ed approved curricula printouts, poster boards, nutrition education printouts, surveys, meeting materials, photovoice pictures, and meeting notices. Current estimate: Black and white copies: $0.06 per copy x 12,200 of copies = $732 Color copies: $0.10 per copy x 7,320 copies = $732 Total: $732 + 732 = $1,464	$0.075	19520	$1,464	
8			Translations	Budget to cover costs of translating flyers, invitations, and brochures for outreach activities. The translation will be aligned with the target population/service area. Current estimate: $50 x 8 hours =$400	$50.00	8	$400	
						Total Materials:	**$21,157**

Definition and basis for calculations of benefit rate(s): *Describe what is covered in the benefit rate for your agency.*	For full and part-time employees, FICA is calculated at 7.65%, SUI at 8.9% of salaries (max of $7000 per employee per calendar year) and Workers' Compensation at 2.3% and for 5.15% health benefits (Medical/Dental/Vision) for a total up to 24% (7.65% + 8.9% + 2.3% +5.15% = 24.00%). Only 5 FTE employees (TBD, N. Steele, TBD, D. Steele, D. Scorza) are opted in for employer provided health benefits. For part time employees, working less than 20 hours per week, no Health Benefits are provided making the employee benefits 18.85% - rounded up to 19%.

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	The amount of $1,500 is budgeted to office supplies cost. Office supplies includes but are not limited to: paper, toner, pens, pencils, staplers, staples, desks, telephones, tables, chairs, binders, etc. for the 7.80 FTE's (D. Scorza, N. Steele, D. Steele, TBD, TBD, R. Moreland, V. Bragg, T. Bonilla, M. Ali, A. Loville) that will also be able to use the office materials. All staff members will carry out the objective outlined in the scope of work.	7.8	$16.03	12	$1,500	
							Total Non-Capital Equipment/Supplies:	**$1,500**	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Nutrition Education Materials	The amount of $500 is budgeted to Nutrition Educational Materials to deliver SNAP- Ed to students and parents by our 5 peer educators. One kits will be provided ($100/kit) to each peer educator. Kits will include but not be limited to food models, fat models, sugar test tubes, MyPlate visual displays, teaching tools, and Rethink Your Drink, MyPlate, Champions for Change cookbooks and recipe cards to use and distribute at community events. Additionally, Champions for Change cookbooks and recipe cards will be distributed in classes and community outreach events for an estimated 1,500-2,500 participants throughout the year.	$100.00	5	$500	
2			Healthy Cooking Demonstration	The amount of $3,750.00 is budgeted for Food demonstrations and supplies. An amount of $2.50 is budgeted per participant to purchase ingredients for approved recipes for food tasting demonstrations at all approved sites, events and classes. Food demonstration supplies include the cost of food for recipe and test tasting as well as supply costs (napkins, utensils, sample cups and paper goods). A conservative estimate of 1,500 participants in food demonstrations will be seen throughout the year. 250 classes x 6 participants = 1,500 participants $2.50 x 1,500 participants = $3,750	$2.50	1500	$3,750	
3			Garden Materials	The amount of $5,000 is budgeted to Garden Supplies. An amount of $1,000 per garden is budgeted to build, replenish and maintain each of the 2nd set of 5 of the 15 PSE gardens. The gardens built during year two will be at the schools in Inglewood Unified and Lennox School Districts. The funds will cover the expenses of soil, hoses, storage, seeds, seedlings, gloves, garden tools and building materials (wood for raised beds and outdoor classroom for example) for each garden. $1,000 (per garden) x 5 gardens = $5,000	$1,000.00	5	$5,000	
4			Printing and Duplication	The amount of $500 was budgeted to printing and duplication cost. This will cover the cost of printing/duplicating surveys, flyers, meeting announcements, newsletters, outreach materials, meeting handouts, training handouts, reports, banners, and other files necessary to meet the goals of the project. Estimates: Black and white copies: $0.06 per copy x 3,000 copies = $180 Color copies: $0.10 per copy x 3,200 copies = $320 Total: $180 + $320 = $500 Average cost per copy: $500 / 6,200 copies = $0.0806 per copy (rounded)	$0.0806	6200	$500	

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: County of Los Angeles, Department of Public Health
Contract/Sub-Grant/Agreement: Social Justice Learning Institute

5			Certifications	The amount of $235 is budgeted for food and physical activity certifications to ensure safe delivery of SNAP-Ed. Two (2) manager level FTE (D. Scorza, new hire Project manager) and 1 peer educators (T. Bonilla) who will be conducting food demonstration and handling food from the gardens or for the SJLI CSA will be ServSafe certified to ensure safe food handling to our target audience. The other team members are already certified and will be re-certified in subsequent years of the Champions for Change program. ServeSafe Manager Certification = $110 x 2 (Health Equity Manager level employees) = $220 ServeSafe Food Handlers certification = $15 x 1 (peer health educators) = $15	$78.33	3	$235	
6			Focus Group and Needs Assessment Costs	The amount of $800 is budgeted for costs such as childcare, meals and transportation for recipients of SNAP-Ed to actively participate in focus groups, needs assessment, and advisory groups to inform and improve SNAP-Ed effectiveness. These costs will not be used as incentives for SNAP-Ed recipients to attend nutrition education and physical activity classes, and will be limited to fulfill scope of work requirements for the above mentioned activities. A total of 8 focus groups/focus group sessions with approximately 10 SNAP-Ed recipients per group/session will be conducted in Year 2 to determine needs and interest in topics related to healthy eating and physical activity, and determine linguistic and culturally specific needs. A breakdown of costs associated with each focus groups is as follows: $7 healthy meal x 10 participants = $70 $15/ hour for licensed child care provider x 2 hours = $30 Average cost per focus group = $100 $100 x 8 focus groups = $800	$100.00	8	$800	
						Total Materials:		**$10,785**

Definition and basis for calculations of benefit rate(s):
Describe what is covered in the benefit rate for your agency.

The employee benefits rate for full-time salaries is calculated at 20%. It is calculated at the following rate: FICA 6%, SUI 3%, Workers Comp 2%, Medical/Dental 7%, and Retirement 2% for a total Employee Benefits rate of 20%. (6% + 3% + 2% + 7% +2% = 20%)

Total Employee Benefits: $39,315

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	Office Supplies: The amount of $2,664 is budgeted for Office Supplies. The budgeted amount will cover general office supplies for the 3.65 FTE's (M. Arias, J. Pena, C. Monk, G. Cotangco, R. Diaz, and J. Rivera) assigned to this project. General office supplies include, but are not limited to, pens, paper, binders, folders, paper clips, staples, etc. needed for the agency to meet SOW. (3.65 FTE x $60.82 cost per item x 12 months = $2, 663.916), rounded to $2,664.	3.65	$60.82	12	$2,664	
							Total Non-Capital Equipment/Supplies:		$2,664	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Nutrition Educational Materials	The amount of $480 is budgeted for Nutrition Educational Materials to deliver SNAP-Ed to educate the Health Academy students and the local community on proper nutrition and support in using the MyPlate standards. Three kits will be provided ($80/kit) for each of the two school sites. Kits will include MyPlate visual displays, teaching tools & posters. These kits will be used during food demonstrations and at community events. The budgeted amount is estimated as follows: ($80 cost per unit x 6 items = $480).	$80.00	6	$480	
2			Food Demonstrations Materials	The amount of $2,500 is budgeted for healthy food demonstrations. An amount of $1.00 is budgeted per participant to purchase ingredients for approved recipes for food tasting demonstrations at 12 sites and community outreach events. Therefore, the total cost for food demos is $2,500. (250 classes x 10 participants= 2,500* participants; ($1.00 cost per participant x 2,500 participants = $2,500). In-kind donations will support any costs necessary for healthy food demonstrations to additional participants. Also, no cost for Safe food handler (e.g ServSafe) certifications is projected as all FTE's are certified for the next five years.	$1.00	2500	$2,500	
3			Event Fees	The amount of $1200 for event fees will include the cost to rent van service (includes driver) for transporting youth to and from the 2018 Youth Summit. ($40 per participant x 30 participants =$1200).	$40.00	30	$1,200	
4			Physical Activity Materials	The amount of $126 is budgeted for Physical Activity materials. These low-cost materials include yoga mats, resistance bands, bean bags, cones, and other exercise materials will be assembled into "kits" for 12 sites, with an average cost of $10.50 to reach 25-30 participants per site. This cost includes replenishing supply of materials due to normal wear and tear. ($10.50 (per kit)* x 12 sites = $126).	$10.50	12	$126	
						Total Materials:	$4,306

Definition and basis for calculations of benefit rate(s):
Describe what is covered in the benefit rate for your agency.

EMPLOYEE BENEFITS – FULL-TIME (* Rounded for Budget Purposes)
The fringe benefit rate may change in fiscal year 2016 based on institution negotiation rate. The fringe benefit rate is 33.5% for faculty and 24.3% for staff. This covers health insurance, taxes, unemployment insurance, life insurance, retirement plans, and tuition reimbursement. The fringe benefits are directly proportional to that portion of personnel costs allocated for the project. Savings in budgeted fringe, due to staff type changes and changes in personnel.

1			Healthy Cooking Demonstrations	A total of $3,937 is budgeted for healthy cooking demonstrations. An amount of $1.50 is budgeted per participant to purchase ingredients for recipes for food tasting demonstrations with approximately 26 participants per event, resulting in an average unit cost per event of $39.367.	$39.37	100	$3,937	
2			Cooking Demonstration Supplies	A total of $263 is requested for kitchen supplies for cooking demonstrations such as plastic spoons, forks, small plates, paper cups, paper towels, bottles of water, small bowls, etc. The amount of $100 is requested to cover shipping and price variance.	$32.87	8	$263	
3			Event Costs	A total of $900 will be requested to purchase refreshments, and decorations, and food for 20 community events.	$45.00	20	$900	
4			Printing and Duplication	In Year 2, a total of $1,202 is requested to cover expenses for copying and printing. We will cover any additional printing expenses needed in-house to meet the scope of work. Estimates: Black and white copies: $0.059658 per copy x 8,750 = $522 (rounded) Color copies: $0.10 per copy x 6,800 = $680 Total: $522 + $680 = $1,202	$0.0773	15550	$1,202	
5			Translation Services	Funds of $554 requested to translate material for SOW related to reach our target audience with Global Language solutions. ($100 per translated page for event flyers and handouts X 5.54 pages =$554 of the community resource guide in Spanish and other languages. We have developed a Children's Hospital Los Angeles Internal Translation Protocol. The phases are as follows: 1. Editing: The Champions for Change Translator (one of the bilingual program coordinators) will review the translation for accuracy. For instance: format, style, grammar, and punctuation errors. • Cultural appropriateness: The Translator will also review the translation for cultural appropriateness. • Quality Improvement: A quality improvement tool will be used to check that translated terms, particularly any technical terms have the appropriate. • Proofing: The Translator will review and finalize any changes due to editing, cultural appropriateness and quality improvement. 2. Back Translation: The translated text will be translated back into the original language by Translator. This will ensure that there were no changes made to the message of the text. 3. Final Proofreading: A proofreader (the other program staff or the Initiative Coordinator) will review the back translated file against the original file. The translator and team will ensure that the formatting and any images are culturally appropriate, and will select the font, size, and final formatting.	$100.00	5.54	$554

Definition and basis for calculations of benefit rate(s):
Describe what is covered in the benefit rate for your agency.

IPS benefits remain the same as Year 1: Payroll Taxes, Health Insurance, Life Insurance, Vacation/Release Time, Retirement (403b) and Other Benefits. The Release time percentage changes per employee based upon their employment anniversary date. Health Insurance costs are expected to inflate at approximately 7% resulting in a higher projected costs for each employee. Life Insurance and Other Benefits costs rise with salary increases and are reflected as additional projected costs. Full Time Employees $114,695 X 37.11% = $42,563
Part Time Employees: $26,593 X37.32% = $9,924

1			Nutrition Education Materials	$500: include the costs to purchase the CATCH Middle School Coordination Kit and CATCH Health curriculum. The CATCH Middle School Coordination Kit is needed to coordinate the program through the schools served. The CATCH 6th Grade Go For Health Series – Life in the Balance Curriculum book and the CATCH 7th Grade Go For Health Series – Life in Balance Curriculum Book provided specific curriculum education for 6th and 7th graders. With a 10% discount, the CATCH Coordination Kit is $365/kit; the CATCH curriculum is $135. One (1) replacement set of each of the coordination kits and the curriculum will be purchased in Year 2.	$500.00	1	$500	
2			Healthy Cooking Demonstrations	$4,500: Food items will cost $2.50 for each participant of which IPS anticipates 1,880 participants to meet the goals and objectives of the program. Compose of the following items: Food for recipe/taste testing, including supply costs (paper napkins, utensils, sample cups, paper goods) in Year 1.	$2.50	1800	$4,500	
3			Cooking Demonstrations Supplies	$2,500: Include the cost of food items supplies. Supplies will include beverage dispensers, low-cost blenders, cutting boards, plastic storage bags and containers, ice packs, coolers for safely transporting food, and small kitchen wares such as mixing bowls, mixing spoons, serving utensils, and knives	$20.00	125	$2,500	
4			Event Fees	$360: Direct costs for Event expenses are identified and charged directly fees for community meetings and events. Event expenses are projected to be $30 per month for 12 months = $360 annually. Community meetings and events will also support the PSE goals of the project.	$30.00	12	$360	
5			Garden Materials	$3,000: IPS anticipates providing three (3) replacement garden materials in Year 2 with a cost of $1,000 per garden. This amount will include items such as small garden tools kits (i.e. digging shovels, garden stakes, watering cans, gloves plywood, hammers, nails), soil, garden hoses, storage containers, seeds and gloves.	$1,000.00	3	$3,000	
6			Physical Activity Materials	$6,467: include the CATCH starter equipment set, equipment needed for physical education portion of the 6th and 7th graders curriculum. The starter set includes 24 scarves, 32 CATCH beanbags, 32 CATCH pinnies (a pull over mesh jersey used to distinguish teams competing in a sport), 20 CATCH playground balls, 16 CATCH cones, 32 CATCH disks, 12 CATCH footballs and 3 mesh carry bags. The entire CATCH equipment package, with a 10% discount, costs $2,155.50/package. IPS anticipates purchasing 3 replacement sets of CATCH equipment.	$2,155.50	3	$6,467

Contract/Sub-Grant/Agreement: INSTITUTE FOR PUBLIC STRATEGIES

7			Printing and Duplications	$3,686: Items for printing and duplication include training materials, agendas and handouts for meetings and other printing in support of the project Statement of Work. Flyers are planned for parents as invitations to the coalition meetings, community events, community participation in community gardens, etc. IPS intends to provide some recipes to distribute to parents and to be handed out to parents, teachers, students and community members. The cost for Duplication and Printing of these materials and other copying is included at $ .09/sheet. IPS anticipates needing 8,500 copies for the second 12 months of the project. Other Printing and Duplication expenses include posters (250 posters @ $1.50 each) and brochures (1,697 @ $1.50 each). Printing and Duplication: Copies $765 (8,500x $0.09=$765) + Posters $ 375 (250 x $1.50= $ 375) + Brochures $ 2546 (1,697 x $1.50 = $ 2,546) = $3,686	$0.4336	8500	$3,686	
8			Certifications	: Include the cost of food items, supplies and the food handler certifications for four (2) staff (Project Coordinator & Health Educator). Food Handler certifications will cost $30 for each staff receiving certification.	$30.00	2	$60	
						Total Materials:	**$21,073**

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	The amount of $2,488 is budgeted to Office Supplies. The budgeted amount will cover general office supplies for the 5.025 FTEs assigned to this project: Program Director, Project Coordinator, Health Educator, Program Assistant, Executive Director, and 2.1 FTE Peer to Peer Educators. Note that the budgeted cost for Office Supplies does not exceed $60 per FTE per month. General office supplies to include but not limited to: copier paper, pens, pencils, ink toner, notebooks, binders, staplers, tape, and other consumable supplies necessary for the agency to meet the scope of work.	5.025	$41.26	12	$2,488	
2			Postage	The budgeted amount of $358 will cover the cost of mailing to participants, key stakeholders and community members to provide information/updates about the program. Shared agency postage costs are allocated by FTE for the 5.025 FTEs assigned to this project: Program Director, Project Coordinator, Health Educator, Program Assistant, Executive Director, and 2.1 FTE Peer to Peer Educators.	5.025	$5.94	12	$358	
							Total Non-Capital Equipment/Supplies:	**$2,846**	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Healthy Cooking Demonstrations	The amount of $4,620 is budgeted for Healthy Cooking Demonstrations. An amount of $1.65 is budgeted per participant to purchase ingredients for approved recipes for food tasting demonstrations at two farmers' markets, ten school locations, and three corner stores. 200 classes x 14 participants = 2,800 participants $1.65 x 2,800 participants = $4,620	$1.65	2800	$4,620	
2			Cooking Demonstration Supplies	The amount of $525 is budgeted for beverage dispensers, low-cost blenders, cutting boards, plastic storage bags and containers, ice packs, coolers for safely transporting food, and small kitchen wares such as mixing bowls, mixing spoon SEE-LA has an inventory of cooking equipment due to previous NEOP funding and is requesting for replacement of old items as well as one-time use items such as serving ware and utensils. Average cost per item = $15 $15 (average cost per item) x 35 items = $525	$15.00	35	$525	
3			Certifications	The amount of $150 is budgeted for food certifications and nutrition education coursework to ensure safe and effective delivery of SNAP-Ed. This amount accounts for training potential staff turnover of 3 Employees. These three individuals, all of whom will be conducting food demonstrations, will be ServSafe certified to ensure safe food handling to our target audience. In addition, the same three new hires will complete pre-approved nutrition education coursework to improve content and delivery of services to SNAP-Ed participants. ServSafe = $15 x 3 (New Employees) = $45 Nutrition education coursework = $35 x 3 (New Employees) = $105 Total: $45 + $105 = $150 Average cost per employees = $150 / 3 = $50	$50.00	3	$150	
4			Printing and Duplication	The amount of $1,392 is budgeted for Printing and Duplication cost. The budgeted amount will cover items such as color flyers, meeting announcements and outreach materials that will be used to advertise to the community to implement the goals and objectives of the program and meet the scope of work. Estimates: Black and white copies: $0.06 per copy x 12,500 = $750 Color copies: $0.10 per copy x 6,420 = $642 Total: $750 + $642 = $1,392	$0.07357	18920	$1,392

1			Office Supplies	Budget for general office supplies needed to meet the requirements of the scope of work. Supplies include pens, papers, folders, staples, paper clips, tape, envelopes, etc. for the 3.80 FTE (Executive Director, 0.60 FTE, Project Coordinator, 1.0 FTE, Health Educator, 1.0 FTE, Program Assistant, 0.50 FTE, Accounting Assistant, 0.20 FTE, I.T. and Communications Coordinator, 0.50 FTE) assigned to the project. Current estimate: 3.8 FTE x $1.67/month x 12 months = $76.15, Rounded to $76	3.8	$1.67	12	$76	
2			Postage	Budget to cover the cost of postage for direct mail communication between EDLA and project participants. As the majority of such communication will be included with other general communication, such as newsletters, the cost is calculated as the project share of diocesan postage. The project share of 3.80 FTE (Executive Director, 0.60 FTE, Project Coordinator, 1.0 FTE, Health Educator, 1.0 FTE, Program Assistant, 0.50 FTE, Accounting Assistant, 0.20 FTE, I.T. and Communications Coordinator, 0.50 FTE) are costs necessary to meet the requirements of the scope of work. Current estimate: 3.80 FTE x $2.19/month x 12 months = $99.86, Rounded to $100	3.8	$2.19	12	$100	
							Total Non-Capital Equipment/Supplies:	**$176**	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Nutrition Education Materials	Budget to cover the cost of nutrition education materials. 1 kit per service site will be assembled, examples of SNAP-Ed materials that will be included are cookbooks, recipe cards, posters, visual displays, and other teaching tools to facilitate lessons on Rethink Your Drink, MyPlate, and other Champion for Change themes. Current estimate: $15/kit x 10 sites = $150	$15.00	10	$150	
2			Healthy Cooking Demonstrations	Budget to purchase grant allowed food products (i.e. fresh fruits, vegetables, canned food items, lean protein, low-fat dairy, dry beans and grains) for healthy cooking demonstrations and recipe tastings/sampling. Current estimate: 300 classes x 10 participants = 3,000 participants. $1.25 x 3,000 participants = $3,750	$1.25	3000	$3,750	
3			Cooking Demonstration Supplies	Budget to cover the cost of cooking supplies. Cooking supplies include: beverage dispensers, low-cost blenders, cutting boards, plastic storage bags and containers, ice packs, coolers for safely transporting food, and small kitchen wares such as mixing bowls, mixing spoons, serving utensils, knives, etc. Current estimate: Average cost per item = $20.00 $20.00 (average cost per item) x 25 of items = $500	$20.00	25	$500	
4			Event Fees	Budget to participate at events for outreach. Each event will support the PSE goals of the project. Current estimate: $50/per event x 2 events = $100	$50.00	2	$100	
5			Garden Materials	Budget to cover garden materials to maintain and replenish 1 garden at each of the participating sites. Garden materials include; soil, seeds, seedlings, and small garden tools. Current estimate: $800 per garden x 10 of sites = $8,000	$800.00	10	$8,000	

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: County of Los Angeles, Department of Public Health
Contract/Sub-Grant/Agreement: Episcopal Diocese of Los Angeles

6			Printing and Duplication	The budgeted amount will cover the cost of printing flyers, handouts, posters, signs, etc., as well as USDA approved curricula and resources. As the majority of such printing will be bundled with other diocesan projects, the cost is calculated as the project share of diocesan printing. The project share is for 3.80 FTE (Executive Director, 0.60 FTE, Project Coordinator, 1.0 FTE, Health Educator, 1.0 FTE, Program Assistant, 0.50 FTE, Accounting Assistant, 0.20 FTE, I.T. and Communications Coordinator, 0.50 FTE) and these costs are necessary to meet the requirements of the scope of work.	$0.0751	6,670	$501	
7			Soil Testing	Budget for Seeds of Hope program to do the soil testing. Soil samples from 10-15 gardens will be sent to local labs to test for lead, arsenic, and other toxic metals. Soil testing is recommended by Environmental Health for anyone who grows edible plants in Los Angeles County. Each soil test is approximately $100. $100 x 15 = $1,500	$100.00	15	$1,500	
8			Fruit Trees	Budget to purchase Fruit trees to plant in gardens in qualifying setting as part of program: "Seeds of Hope." Tree types will be selected based on the ability and frequency to bear a high volume of fruit, to be able to live in a small patch of soil, afford that solar light may be blocked by buildings, and have roots that do not cause damage. The best way to achieve long-term sustainability of the benefits from a SNAP-ed program is to literally change the landscape. The best way to do this is to plant fruit trees. Vegetable gardens are a wonderful thing, but they take a lot of volunteer labor, which comes and goes in cycles of passion and commitment. Trees become a permanent part of the landscape and will produce food for decades whether they are tended or not. A typical orange tree will produce approximately 200 pieces of fruit per year and can do so for up to 100 years or more. They require little skill, labor, or water to maintain. And, they serve as a permanent, beautiful, and fragrant reminder to visitors of the importance of proper nutrition in ways that no other environment change can achieve Each fruit tree is approximately $50. 10 trees x $50 = $500	$50.00	10	$500	
							Total Materials:	**$15,001**

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	The budgeted amount will cover general office supplies for the 3 FTEs (Project Coordinator, 1 FTE, Health Educator, 1 FTE, Administrative Support, 0.25 FTE, NPA Coordinator, 0.25 FTE, Policy Coordinator, 0.25 FTE, Research Evaluator, 0.25 FTE) assigned to this project. General office supplies to include; printer ink cartridge, pens, papers, folders, staples, paper clips, tape, envelopes, etc. needed for agency to meet SOW. Current estimate: 3 FTE x $60/month x 12 months = $2,160	3	$60.00	12	$2,160	
2			Postage	Budget to cover postage costs for the 3 FTEs (Project Coordinator, 1 FTE, Health Educator, 1 FTE, Administrative Support, 0.25 FTE, NPA Coordinator, 0.25 FTE, Policy Coordinator, 0.25 FTE, Research Evaluator, 0.25 FTE) assigned to the project. The budgeted amount will cover any postage used for the implementation of deliverables outlined by this project. Postage costs to include: mailed newsletters and outreach, submission of forms, self-addressed return envelopes, mailed consent forms and surveys, etc. needed for agency to meet SOW. Current estimate: 3 FTE x $27.77/month x 12 months = $999.72, Rounded to $1,000	3	$27.77	12	$1,000	
							Total Non-Capital Equipment/Supplies:	$3,160	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Nutrition Education Materials	Budget to deliver SNAP- Ed approved nutrition education materials to students and parents in participating sites. Each of the participating site will be provided with a kit. Each kit will include sugar and sodium test tubes, new MyPlate visual displays, teaching tools, posters, cookbooks, and recipe cards. Current estimate: $424.23/kit x 13 sites = $5,515	$424.23	13	$5,515	
2			Healthy Cooking Demonstrations	Budget to purchase ingredients for SNAP-Ed approved recipes for food tasting demonstrations at participating sites and community outreach events. Current estimate: 204 classes x 20 participants = 4,080 participants $2.50 x 4,080 participants = $10,200	$2.50	4080	$10,200	
3			Cooking Demonstration Supplies	Budget for beverage dispensers, low-cost blenders, cutting boards, plastic storage bags and containers, ice packs, coolers for safely transporting food, and small kitchen wares such as mixing bowls, mixing spoons, serving utensils, and knives. Current estimate: Average cost per item = $20.00 $20.00 (average cost per item) x 202 of items = $4,040	$20.00	202	$4,040	
4			Event Fees	The event fees line item will be utilized to participate in outreach events to raise awareness of the Champions for Change program, promote the community gardens, as well as recruit SNAP-Ed eligible participants for local community coalitions. Current estimate: $100/per event x 50 events = $5,000	$100.00	50	$5,000	

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: County of Los Angeles, Department of Public Health
Contract/Sub-Grant/Agreement: California State University, Northridge - Marilyn Magaram Center

5			Garden Materials	Budget to replenish and maintain community gardens. Budget will cover expenses for soil, compost, garden hoses, storage containers, seeds, seedlings, gloves, and small gardening tools such as rakes, shovels, etc. for each garden. Current estimate: $1,000 per garden x 13 of sites = $13,000	$1,000.00	13	$13,000	
6			Printing and Duplication	Budget to cover the cost of printing/duplication of surveys, flyers, meeting announcements, newsletters, outreach materials, meeting handouts, training handouts, reports, and other files necessary to meet the goals of the project. Current estimate: Black and white copies: $0.06 per copy x 25,100 copies = $1,506 Color copies: $0.10 per copy x 15,100 copies = $1,510 Total: $1,506 + $1,510 = $3,016	$0.07502	40200	$3,016	
7			Certifications	Budget to cover ServSafe certifications that may necessary due to staffing changes for 3 FTEs (Project Coordinator, 1 FTE; Health Educator, 1 FTE; Administrative Support, 0.25 FTE; NPA Coordinator, 0.25 FTE; Policy Coordinator, 0.25 FTE; Research Evaluator, 0.25 FTE), and 25 Student Interns. Current estimate: ServSafe: $20 x 28 (3 Project FTEs, 25 Student Interns) = $560 Average cost per staff = $560 ÷ 28 = $20	$20.00	28	$560	
8			Focus Groups and Needs Assessment Costs	Budget to cover such as childcare, meals and transportation for recipients of SNAP-Ed to actively participate in focus groups, needs assessment, and advisory groups to inform and improve SNAP-Ed effectiveness. Focus groups will be conducted to determine needs and interest in topics related to healthy eating and physical activity, and determine linguistic and culturally specific needs. Current estimate: $10/healthy meal x 12 participants = $120 $30/hour for licensed child care provider for x 2 hours = $60 $10 transportation voucher x 12 participants = $120	$300.00	8	$2,400	
						Total Materials:		**$43,731**

1			Objective 1	Develop questions in the LA County Health Survey specifically for SNAP eligible residents in Los Angeles County. The Los Angeles County Health Survey is a population based telephone survey that provides information concerning the health of Los Angeles County residents. The data are used for assessing health-related needs of the population, for program planning and policy development, and for program evaluation. The relatively large sample size allows users to obtain health indicator data for large demographic subgroups and across geographic regions of the County, including Service Planning Areas and Health Districts.	$100,000.00	1	$100,000

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.

- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Since its establishment in 1893, Madera County has been committed to the care and wellbeing of its residents. The mission statement of Madera County is "to serve the public interest in a fiscally responsible manner by providing efficient, cost effective customer service, promoting public health and safety while creating new possibilities with partnerships through a diversified economy". The vision statement of Madera County reflects Madera County's "dedication to the pursuit of excellence, with integrity, and is committed to the highest quality of life for all". The mission of its Department of Public Health is "Madera County Public Health Department protects and promotes the health of our community by preventing disease and promoting health equity." Madera County is a small county located in the heart of the Central Valley Region of California. In 2014, the United States Census Bureau estimated that the population size for Madera County was 154,548. Madera County has an extensive geographical area of 2,153 square miles. There are 21 cities and towns that compose the County of Madera. Madera has a prominent Latino community. Persons of Hispanic or Latin decent make up 55.2% of the population in comparison to 38.2% for the State of California (Bureau, 2014). The racial and ethnic makeup of Madera is 55.2% Latino/Hispanic, 37% White, 4.1% African American, 4.6% American Indian/Alaska Native, and 2.5% Asian/Pacific Islander. According to the U.S. Census Bureau (2014), 43.2% of Madera residents speak a language other than English at home. This is especially important because the County is home to one of the largest indigenous immigrant communities in California which often speaks languages other than Spanish (Ancestral Indigenous languages) and is monolingual. Many Hispanic families in Madera County are migrant workers who move seasonally.

According to the 2015 County Profiles provided by the California Department of Public Health/NEOP office, the number of SNAP-Ed eligible people living in Madera County in 2015 was approximately 68,263. The SNAP-Ed eligible population (income ≤185% FPL) for Madera County was 45.7%. Similarly, the same county profile described the Race/Ethnicity of the SNAP-Ed eligible population as follows; 70.9% of the eligible population was identified as Hispanic, 21.8% was White (non-Hispanic), 2.7% was African American (non-Hispanic), 1.8% was Asian (non-Hispanic), 1.1% was American Indian/Alaska Native, 1.6% was Multiracial, and 0.1% was unknown. During the Federal Fiscal Year (October-September) 2013-14, the Madera County Department of Social Services disbursed nearly $50.3 million in CalFresh benefits to the residents of Madera County. Currently, 28,654 Madera county residents receive SNAP benefits (over 18% of the population). Nationally, 47.6 million people receive Food Stamps (over 15% of the United States population). The 2010-2014 median household was estimated at $45,490 for Madera County compared to the $61,489 statewide.

According to the SNAP-Ed 2015 County Profiles, the food insecurity rate in Madera County is 13.8% overall, and 28.3% for children. In Madera County, 10 of 23 (39.1%) census tracts are SNAP-Ed eligible (≥50% incomes ≤185% FPL) based on all races data for 2007-2011. Of the 76 schools in Madera County, 54 (71.1%) are SNAP-Ed eligible (≥50% FRPM Enrollment, 2012). The adult overweight/obesity prevalence in Madera County is 73.1% overall and 70.1% among SNAP-Ed eligible adults. The 2015 County Profiles indicated unstable data for the percentage of children who consumed 5 or more fruits and vegetables; nonetheless the data profiles show that 68.1% of the adults are able to find fruits and vegetables around their neighborhood. The following list indicates the census tracts areas where the LHD and the UCCE currently have and will continue to serve in the future: 06039000502, 06039000503, 0603900506, 0603900507, 06039000508, 06039000602, 06039000700, and 06039000900.

A 2014 report from the U.S. Census Bureau indicated that 14.8% of the U.S. population lived below the poverty level. In comparison, 16.4% of California's population lived below the poverty level. The same report indicated a higher percentage (22.3%) of Madera County residents lived below the poverty line in comparison to the state and national statistics. According to the 2013 CA Governor's Office of Planning and Research, a "disadvantaged community" is defined as a community with an annual median household income (MHI) that is less than 80% of the statewide average median household income. In 2014, the national MHI average was $53,482, the statewide average in California was $61,489, and the countywide average for Madera County was $45,490. The U.S. Census Bureau agency makes reference to "community disadvantage" using several measures as a guide to summarize the general socio-economic conditions of a community. Each year, the Census Bureau releases two reports that illustrate who are the poor in the country. Federal and state governments use these reports and estimates to allocate funds to local communities. Communities like Madera County consistently meet the criteria for being a "disadvantaged community" due to long periods of high unemployment and a significant percentage of its citizen living in poverty. Populations with low socio-economic status and low numbers of its citizens achieving educational attainment can experience an ongoing cycle of low socio-economic insecurity. Low socio-economic status leads to poor health which in turn perpetuates gaps and inequalities among its population.

4. **Community Assessment**

The information used to plan future SNAP-Ed interventions and strategies includes data, statistics, and information on community health status, demographics, and an overview of Madera County environmental settings. The 2017-2019 Madera County's Integrated Work Plan was developed taking into consideration the needs and health priorities of the SNAP-Ed eligible community, as well as highlighting data findings from various statewide, regional and local community assessments. The jurisdiction description information related to Madera County originated from the SNAP-Ed County Profiles prepared by CDPH. Other information includes county-level data from a variety of sources such as: American Communities Survey (ACS) five-year estimates, Department of Social Services Cal Fresh Annual Trends data, California Health Interview Survey, Feeding American's Map the Food Gap, Food Insecurity in Madera County, and the 2013 Community Health Needs Assessment (Fresno, Kings, Madera and Tulare Counties) from the Hospital Council of Northern and Central California.

According to SNAP-Ed County Profiles 2014, 32.2% of children and 18.2% of the overall population in Madera experience food insecurity. The same report shows 26,692 or 17.5% of Madera residents are CalFresh participants. According to the 2013 Madera County Community Health Profile, the leading causes of death in Madera County in 2009-2011 were cancer (all cancers) at 30% and heart disease at 21% (2013). Diabetes accounted for 2% of all deaths (2013). The selection of the communities where the LHD and the UCCE will be providing services was determined through the findings of the FFY 2012-2013 Communities of Excellence in Nutrition, Physical Activity, and Obesity Prevention (CX3) assessment. Of the CX3 neighborhoods surveyed in Madera County, (Millview Neighborhood, Madera High Neighborhood, and Country Club Neighborhood) it was found that these communities had some of the lowest scores as reported by the CX3 School Neighborhood Scoring system. Some of the findings from this assessment included: 1) Madera County has a low number of recreational facilitates (n = 5) per 100,000 residents; 2) The percentage of children and teens (ages 1-17 years) who have a park or open space within walking distance is almost the same as the state rate, 80.8% and 84.7% respectively. A 2013 report from the California Department of Education illustrated that 75.4% of students enrolled in Madera

Unified Elementary Schools qualified for free or reduced lunch meals. Madera County Office of Education reported that 77.3% of the kids enrolled in their School Districts are Hispanic/Latino and 16.6% White. Furthermore, 41% of the children in school were English Learners in 2012. Given this data, Madera County would potentially benefit from nutrition education paired with physical activity related interventions. During 2017, the Madera County SNAP-Ed program will re-assess the community using the CX3 program to gather new information and make our county a healthier place to live.

The Healthy Stores for a Healthy Community campaign (HSHC) is a statewide collaboration between tobacco use, nutrition and alcohol prevention partners. The goal of this campaign is to improve the health of Californians through changes in community stores and to educate people how in-store product marketing influences consumption of unhealthy products. In 2013, the Madera County Tobacco Control Program's HSHC survey found the following information; 75.2% of surveyed stores had unhealthy exterior advertising and only 6.4% had healthy exterior advertising. The HSHC data showed that 70.6% of the surveyed stores sold sugary drinks at the check-out counter and 67.2% of those stores are within 1000 feet of schools (this is concurrent with CX3 findings). Lastly, HSHC data showed that only 38.5% of stores sold any fruits or vegetables, 32.1% of the stores accepting Cal Fresh had a good selection of good quality fresh fruits and vegetables and only 26.2% of total stores had good quality fruits and vegetables. During 2016, the Madera County Tobacco Control Program will re-assess the community. The Madera County SNAP-Ed program will support, shared gathered information, and collaborate with the Madera County Tobacco Control Program to make Madera County a healthier community.

Moreover, other considerations were taken from the assessment conducted by the 2013 Community Health Needs Assessment (Fresno, Kings, Madera and Tulare Counties) from the Hospital Council of Northern and Central California. This assessment found that 45.96% of the Madera County population lives in poverty and is considered a highly vulnerable population. The percentage of children in Madera County living in poverty accounts for 29.00% of the entire county population; not to mention a stagnant 14.10% rate of unemployment as well. In the summary of County Health Rankings, Madera County ranked 33 of 56 in the Mortality Ranking data platform, ranked 56 of 56 in the Morbidity Ranking data platform, and ranked 47 of 56 in the Health Factors Ranking data platform. In the Overall Health Outcomes Ranking, Madera County ranked 45 of 56. Other information found in this report indicates that there are only 10 Fitness Facilities in Madera County, and only 26.61% of the population lives within 1/2 a mile of a park.

The assessment was also able to gather statistics on obesity. It was found that in 2010, the total population 18 and older who was overweight/obese was 29.90%. During 2009, it was also found that only 50.90% of children in Madera County were consuming adequate amounts of fruits and vegetables. When the assessment summarized their data addressing Access to Health Care, it was found that 30.00% of Madera County's population was receiving services through the Medi-Cal program (California's Medicaid.) The report also indicated that 20.61% of the Madera County population was considered uninsured. Similarly, the report captured that 46.10% of the Madera County residents did not have any form of dental insurance. Another important indicator for Madera County health status was a "self-reporting" question on overall health to adults 18 and older. The question asked "Would you say your health in general is excellent, very good, good, fair or poor?". The percentage of respondents who self-reported poor general health was 31.30%. In the assessment rankings for health indicators, the following indicators were used to measure the levels of Impact, Severity, Resources, and Outcomes. The four indicators were directly linked to the health needs

of the community. The number 1 ranking indicator for Impact was Access to Health Care. The number 1 ranking for Severity was Overweight/Obesity. The number 1 ranking for Resources was Overweight/Obesity. The number 1 ranking for Health Outcomes was Overweight/Obesity.

According to the CDC (2012), in the United States 1 in every 3 adults is considered to be obese and almost 1 in every 5 youth, between the age of 6 and 19, is considered to be obese as well. Obesity is a chronic disease epidemic and a major health concern for Madera County. In 2010, the Lucile Packard Foundation for Children's Health estimated that at least 44.1% of the student population in Madera County age 5-18 was considered overweight/obese, compared to the state average of 38%. The 2012 County Health Ranking California Data projected that in 2014 in Madera County 34% of adults were overweight or obese, 62% of teens were overweight or obese, and 18% of children were overweight or obese. According to a 2014 mortality report from the CDC, 7 out of 10 deaths among Americans each year are attributed to a type of chronic disease. Heart disease, cancer and stroke account for more than 50% of all deaths each year. In the year 2010 Madera County had the highest heart disease prevalence in California. In the same year, the California Department of Public Health reported that of Madera County residents who had been diagnosed with heart disease, only 59.2% were taking medication to control the disease.

Chronic diseases such as cancer, cardiovascular disease, high blood pressure, cholesterol, and diabetes can be linked to low socioeconomic status. The 2012 County Health Ranking California Data for Madera County provides information on the distribution of the residents of Madera County based on different socio-economic factors. According to the California Communities Environmental Health Screening Tool, Version 1.1 (2013), Madera County is among the top 10% of most disadvantaged communities in the State of California. This environmental health screening tool captures information that contributes to a better understanding of the relationship between race/ethnicity and the pollution burdens facing communities in California. It also states that multiple pollution burdens such as poor air quality, pesticide use, and high volumes of traffic cause adverse health issues, including respiratory irritation and lung disease.

Children and adults in Madera County are also affected by poor air quality. The physical environment in which people live influences their health, development, and safety. The California Communities Environmental Health Screening tool Version 1.1, stated that schools located on or near busy roads are more likely to be in poor neighborhoods than those further away. In essence, being poor means being deprived economically, politically, and socially. Poverty is multidimensional; the poor suffer from illnesses, disabilities, illiteracy from the lack of access to basic education and limited mobility. Often, disadvantaged communities are also deprived of adequate nutrition and hence subsist on poor quality food that can result in a higher risk for disease, being overweight and obesity. Despite the distress of poverty, the poor often work the longest hours, in the most dismal circumstances. This often forces the poor to live in unsafe areas prone to higher pollution burdens. Madera County is considered a disadvantaged community due to its high numbers of unemployed and level of poverty.

One of the objectives of Healthy People 2020 is for citizens to have access to comprehensive health care. Quality health care services are important for the achievement of health equity and for increasing the quality of life for everyone. Access to health services means timely use of health services to achieve the best health outcomes. Access to health care impacts a person's overall physical, social, and mental health status; increases the prevention of disease and disability, and timely detection and treatment of health conditions. It improves a person's quality of life; offers opportunities to decrease mortality, and increased life

expectancy. To understand the impact of having limited access to health care in Madera County, you need to understand the relationship between access to health care and poverty. A 2012 report containing data from the National Health Interview Survey 2009–2010. Data from this survey found that unemployed adults had poorer mental and physical health than employed adults; were less likely to receive needed medical care due to cost than the employed in each insurance category; and were less likely to receive needed prescriptions due to cost than the employed in all insurance categories.

Health behavior is an action taken by a person to maintain, attain, or regain good health and to prevent illness. Health behavior can be reflective of a person's health beliefs. Some common health behaviors are exercising regularly and eating a balanced diet. According to the CDC, there are four health risk behaviors responsible for many illnesses and deaths related to chronic diseases: lack of physical activity, poor nutrition, tobacco use, and excessive alcohol consumption. Health outcomes are changes implemented in the health status of an individual, group or population through a planned intervention or series of interventions. Health outcomes seek to understand the end results of a particular health care practice and intervention. Identified health outcomes impacts a person's ability to function; particularly for individuals with chronic conditions. Part of these health outcomes include looking at quality of life as well as morbidity and mortality rates.

Many of the indicators for management of various illnesses and chronic diseases are influenced by the environments that people live in. Risk factors such as access to healthy foods, air quality, and recreational facilities are elements that can be changed in efforts to develop a healthier lifestyle. The Madera County Public Health Department is devoted to making policy, system and environmental changes in our community. We have created and implemented programs, and continuously worked to promote polices that successfully ameliorate the various causes of chronic diseases as a direct result of poverty. Our LHD continuously works to enrich the lives of families affected by health inequities and disparities. Our responses are built upon a sophisticated and clear understanding of the needs of our county. For this reason, it is imperative to continue with the work that our department provides to the Madera County population. For adults, the lack of income and material goods is the determining factor for poverty. For children, however, the lack of opportunity to learn can result in economic and social deprivation. While it is not clear how lower educational attainment can decrease a person’s health status, studies show that economic hardship, stress, and fewer occupational opportunities can occur. In conclusion, the abundance of information and the implementation of evidence based programs readily available is our most essential tool to create change, attain health equity, and access high quality health care. Educated individuals make better choices. Education is power and can form the basis of knowledge that can be used to direct various financial resources to projects with the most impact on improving low income communities. The promotion of health and the practice of healthy behaviors is the key to empowering Madera residents to live a better life.

In 2015, as the LHD and UCCE CalFresh began coordinating their efforts to serve Madera County locations. In an effort to eliminate duplication of services, the LHD and UCCE CalFresh agreed on the division of populations that each of the partners would focus their resources on. In 2016, the UCCE and LHD held meetings to strategize and develop an agreement to avoid duplication of efforts and extension of services throughout Madera County. Using the Madera Unified School District, school communities map, it was determined that the LHD was serving 4 school communities, which offered UCCE the opportunity to extend the LIA partnership’s reach by serving additional school communities. The LHD and UCCE came to an agreement for FFY17-FFY19 on the communities

they would provide resources to with activities that support consumption and access to healthy foods, increased participation in physical activity, and promotion of healthy beverage consumption on a broader scale to help ensure the SNAP-Ed eligible population is reached in all parts of Madera County. The LIA partnership will continue to meet and communicate regularly to ensure services are delivered in Madera County.

This same data also acknowledged the need to develop community events such as live cooking demos, outreach to community based organizations, and interactive booths at health fairs and other events. These community events provide an opportunity for SNAP-Ed funded staff to connect to the target audience and provide information that could influence positive outcomes. The data found in the county profiles also contributed in the identification and development of traditional and non-traditional collaborations to implement strategies and interventions.

5. **Community Change Goals**

Based on the information previously described above, and in the current SNAP-Ed program activities; Madera County determined the community change goals in relationship to the SNAP-Ed work plan. The mission of the NEOPB is to reduce the number of individuals who are overweight or obese in California's SNAP-Ed eligible residents through education and strategies that support healthy behaviors at multiple levels of influence. To support the state efforts, Madera County will align its efforts with the state level goals and the objectives. The goals included: 1) to increase the consumption of healthy foods and beverages and decrease consumption of unhealthy foods and beverages; 2) increased physical activity; 3) improve food resource management; 4) increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop; and 5) increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations. Madera County will align its objectives and activities with the identified state-level goals by focusing on the following:

1) Increase the consumption of healthy foods and beverages and decrease consumption of unhealthy foods and beverages

- Support the implementation of school wellness strategies
- Support adult champions and Community Health Workers/Promotoras
- Offer nutrition education interventions at senior centers, churches, food banks, retail stores, CBOs and DSS sites
- Offer nutrition education to school parents.
- Participate at community events
- Provide educational interventions to the adult population
- Offer nutrition education interventions to MUSD Schools, Youth Centers and Head Start Centers
- Display HOTM bulletin boards and/or poster boards at school cafeterias, retail stores, and food banks
- Coordinate the celebration of the Fruit and Veggie Fest
- Support Healthy Aisles strategies

- Support Smarter Lunchrooms Movement Initiatives and provide training and technical assistance to food service and school staff to make improvements in the school dining experience
- Support Collaboration and technical assistance
- Strive for developing efforts that are sustainable
- Support more school gardens
- Conduct Rethink Your Drink Education
- Increase access to free potable water in schools

2) Increased physical activity

- Support the implementation of school wellness strategies
- Support adult champions and Community Health Workers/Promotoras
- Offer physical activity education interventions at MUSD schools, Youth Centers and Head Start Center
- Offer physical activity direct education interventions to school parents
- Offer physical education interventions at senior centers, churches, food banks, retail stores, and DSS sites
- Participate at community events
- Provide educational interventions to the adult population
- Display physical activity bulletin boards and/or poster boards at school cafeterias
- Provide poster boards at retail stores, and food banks
- Participate in taskforces and coalitions
- Participate in Walk to School events
- Support collaboration and technical assistance
- Strive for developing efforts that are sustainable
- Provide training and technical assistance to MUSD school staff to make improvements in the school exercise experience

3) Improve food resource management

- Support the implementation of school wellness strategies
- Support adult champions and Community Health Workers/Promotoras
- Offer nutrition education interventions at senior centers, churches, food banks, retail stores, and DSS sites
- Participate at community events

- Provide educational interventions to the adult population
- Coordinate the celebration of the Fruit and Veggie Fest
- Support Healthy Aisles strategies
- Participate in taskforces and coalitions
- Support Smarter Lunchrooms Initiatives
- Support efforts to implement school and community gardens
- Strive for developing efforts that are sustainable

4) Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop

- Support the implementation of school wellness strategies
- Support adult champions and Community Health Workers/Promotoras
- Offer nutrition education and physical activity interventions at senior centers, churches, food banks, retail stores, CBOs and DSS sites
- Offer nutrition education and physical activity to school parents.
- Participate at community events
- Provide educational interventions to the adult population
- Offer nutrition education and physical activity interventions to MUSD Schools, Youth Centers and Head Start Centers
- Display HOTM bulletin boards and/or poster boards at school cafeterias, retail stores, and food banks
- Coordinate the celebration of the Fruit and Veggie Fest
- Support Healthy Aisles strategies
- Support Smarter Lunchrooms Initiatives
- Support collaboration and technical assistance
- Strive for the developing efforts that are sustainable
- Provide training and technical assistance to food service and school staff to make improvements in the school dining experience
- Support more school gardens
- Conduct Rethink Your Drink Education
- Increase access to free potable water in schools

5) Increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations

- Support the implementation of school wellness strategies
- Support adult champions and Community Health Workers/Promotoras
- Offer physical activity interventions at senior centers, churches, food banks, retail stores, CBOs and DSS sites
- Offer physical activity to school parents.
- Participate at community events
- Provide educational interventions to the adult population
- Offer physical activity interventions to MUSD Schools, Youth Centers and Head Start Centers
- Display physical activity bulletin boards and/or poster boards at school cafeterias, retail stores, and food banks
- Coordinate the celebration of the Fruit and Veggie Fest and include physical activity educational intervention
- Support collaboration and technical assistance with MUSD Athletics Department
- Support sustainability of physical activities at multiple settings

1a) Actively participate in the implementation of school wellness strategies and environmental change within schools

- Supporting the implementation of school wellness strategies
- Supporting school parents
- Participation at school events
- Educational interventions and training to MUSD staff
- Participation in School Wellness groups, taskforces and coalitions
- Smarter Lunchrooms Initiatives
- Participation in Walk to School events
- Collaboration and technical assistance
- Sustainability
- Provide training and technical assistance to food service and school staff to make improvements in the school dining experience
- Farm-to-School opportunities
- Increase access to healthy foods at schools
- Increase access to free potable water throughout the day

The LIA partners recognize that many of these goals will be part of a multi-year strategy. In order to achieve these efforts, it is necessary to secure the cooperation and collaboration of traditional and non-traditional partners. This plan includes the partnership and collaboration between the LHD and the University of California Cooperative Extension (UCCE) with the intention to create a greater impact in the community, resulting in healthier environments. It is the commitment of the Madera County LHD and the UCCE to contribute in the creation of future community goals. The LHD and the UCCE has set **four** SMART local objectives for FFY 2017-2019 and have identified the following policy, systems, and environmental changes (PSE) in the following areas:

Local Objective 1: By September 30, 2019, the LIA Partnership will assist at least 8 elementary schools in the implementation of the Madera Unified School District's (MUSD) School Wellness Plan, and change the school environment to support healthy living and promote physical activity; through direct education and various PSE strategies. PSE Strategies that support the three-year SNAP-Ed Local Objective: School Wellness, Farm to School, Joint Use Agreements, School and Community Gardens, Smarter Lunchrooms, Safe Routes to School, and other environmental changes that support Physical Activity.

Local Objective 2: By September 30, 2019, the LIA partnership will provide support and outreach opportunities to at least 4500 Madera County SNAP-Ed eligible residents to help increase the consumption of water and/or low/fat/nonfat milk, healthy food preferences, nutrition knowledge and self-efficacy skills by providing direct and indirect nutrition education interventions. PSE Strategies that support the three-year SNAP-Ed Local Objective: School Wellness, Farm to School, Farmers' Markets, Healthy Corner Stores, Healthy Food and Beverage Standards.

Local Objective 3: By September 30, 2019, the LHD will provide support to local retail stores, Super Markets, farmers markets, and/or convenience stores to promote healthy retail and increase access to locally grown fresh produce and healthy items at, at least 4 retail sites within Madera County. PSE Strategies that support the three-year SNAP-Ed Local Objective: Healthy Retail, Healthy Corner Stores, Restaurants and Neighborhood Vendors, Farmers' Markets, Healthy Food and Beverage Standards.

Local Objective 4: By September 30, 2019, collaborate with at least 10 partner agencies in the community who align with the same strategies to create healthier environments to provide availability of food programs and/or information to the SNAP-Ed eligible population. PSE Strategies that support the three-year SNAP-Ed Local Objective: Early Care & Education (ECE), School Wellness, Farm to School, Healthy Food and Beverage Standards.

SNAP-Ed funding will support the local objectives that impact the Madera County SNAP-Ed eligible population. The LIA partnership in Madera County will unify their efforts in each of the four objectives listed above. Each LIA will work independently within their population reach and area of expertise. The LIA partnership in Madera County will have special focus on nutrition education, physical activity, healthy retail, school wellness, safe routes to schools, parent advocacy, coalition building, and training and technical assistance. The use of direct education in Madera County is the basis of the SNAP-Ed program. The LIA partnership will incorporate the use of PSE efforts in all of its local objectives. Providing support to advance the work in PSE will help achieve healthier communities.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Madera County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

The LIA partnership in Madera County will accomplish **Local Objective 1**, which focuses on supporting the implementation of the Madera Unified School District's (MUSD) School Wellness Plan, and changing the school environment to support healthy living and promote physical activity; through direct education and various PSE strategies. Assisting in the implementation of these policies will address healthier school environments, through the promotion of healthy foods and physical activity. This objective supports State Goal 1: to increase the consumption of healthy foods and beverages and decrease consumption of unhealthy foods and beverages; and State Goal 2: to increase physical activity; and State Goal 3: improve food resource management; and State Goal 4: Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop; as well as State Goal 5: Increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations. To support this local objective, multiple direct education interventions will be available at MUSD schools, Head Start centers, Health Centers, and many other community based organizations. The interventions will be mainly targeting elementary school age children, parents, school staff, and the community at large. The LIA partnership will be utilizing evidence-based curricula (USDA and UCCE approved curricula) to educate the community.

Local Objective 2, which focuses on providing support and outreach opportunities to Madera County SNAP-Ed eligible residents to help increase the consumption of water and/or low/fat/nonfat milk, healthy food preferences, nutrition knowledge and self-efficacy skills by providing direct and indirect nutrition education interventions. To support this local objective, the LIA partnership will coordinate and participate in several outreach opportunities, promoting the consumption of healthy foods and the consumption of water. This objective supports State Goal 1: to increase the consumption of healthy foods and beverages and decrease consumption of unhealthy foods and beverages; and State Goal 3: improve food resource management; and State Goal 4: Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop. To support this local objective, multiple interventions of indirect education will be available to the entire Madera County community at large. The LIA partnership will be utilizing evidence-based curricula (USDA and UCCE approved curricula) to educate the community.

Local Objective 3, which focuses in providing support to local retail stores, Super Markets, farmers markets and/or convenience stores to promote healthy retail and increase access to locally grown fresh produce and healthy foods within Madera County. To support this objective the LIA partnership will engage in the promotion of healthy retail to help the second layer of the socio-ecological model (environmental settings) to support healthy eating; through direct and/or indirect education and various PSE strategies. This objective supports State Goal 1: to increase the consumption of healthy foods and beverages and decrease consumption of unhealthy foods and beverages; and State Goal 3: improve food resource management; and State Goal 4: Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop. To support this local objective, multiple interventions of direct and indirect education will be available at retail facilities nearby MUSD schools and other settings where Madera County residents shop. The interventions will mainly target school age children, parents, school staff, businesses, and the community at large. The LIA partnership will be utilizing evidence-based curricula (USDA and UCCE approve curricula) to educate the community.

Local Objective 4, which focuses on collaborating with various agencies and CBOs in the community who align in the same strategies to create healthier environments to provide availability of food programs and/or information to the SNAP-Ed eligible population. The LIA partnership will support this objective by fostering local partnerships to support the promotion of healthy foods and physical activity. This objective supports State Goal 1: to increase the consumption of healthy foods and beverages and decrease consumption of unhealthy foods and beverages; and State Goal 2: to increase physical activity; and State Goal 3: improve food resource management; and State Goal 4: Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop; as well as State Goal 5: Increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations. To support this local objective, multiple interventions of direct and indirect education will be available to community based organizations and the community at large. The LIA partnership will be utilizing evidence-based curricula (USDA and UCCE approve curricula) to educate the community.

6. **Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]**

The Madera County CNAP group includes Food and Nutrition Service (FNS) funded and unfunded partners serving the SNAP-Ed population in the areas of food programs, nutrition education, and the promotion of physical activity. The group's goal is to coordinate United States Department of Agriculture (USDA) food program interventions and efforts to increase consumption of fruits and vegetables, decrease food insecurity and increase physical activity in the target population. Madera County has two CNAP groups. The first CNAP group is the MUSD School Wellness Committee (SWC). This committee meet every other month and is integrated by supervisors and line staff of FNS funded and unfunded partners such as the MUSD Food Service Director, the Madera County Associate Superintendent of Schools, Chief Academic Officer (CAO), local farmers, principals, teachers, registered nurses (RN), medical doctors (MD), Director of MUSD Health Services, Community Health Workers/Promotoras, (FQHC) Camarena Health Centers, and Madera Community Hospital (MCH) nurses. The goal of the SWC is to improve the health and wellness of students in Madera Unified Schools. Thus far, the primary objectives currently in progress are the implementation of Smarter Lunchrooms Movement and the implementation of the MUSD School Wellness Policy. LIAs will promote SNAP-Ed services and activities by connecting with other agencies, such as County Welfare Departments, etc.

The second CNAP group focuses on the sustainability of the partnership between the LHD and the University of California, Cooperative Extension (UCCE) which was established during the FFY 2015-2016. This CNAP group was designed to work more closely among the LIAs with a focus on supporting the local objectives of the 2017-2019 Integrated Work Plan. The LHD and the UCCE will collaborate in designing and promoting the CNAP and will schedule and attend quarterly CNAP meetings. The CNAP group will be comprised of at least 5 community agencies. The CNAP group will discuss the direction and shared goals and objectives of the participating community agencies in an effort to coordinate the development of healthy communities, implementation of the MUSD School Wellness Policies and educational interventions that address the needs, the health and the wellness of the eligible SNAP-Ed population in Madera County. The LHD director is a continuous attendee at the Madera County Interagency meetings. She will provide information on Madera County's SNAP-Ed activities and will report to the LHD on the activities of the other agencies (some of these activities might be in alignment with the LIA and SIA goals).

7. **Key Messages**

x	Food Safety	x	Physical Activity	x	Fiber-Rich Foods
x	Whole Grains	x	My Plate-Healthy Eating Plan	x	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
x	Fruits & Vegetables	x	Limit Added Sugars or Caloric Sweeteners		Other *(specify):*
x	Fats and Oils	x	Food Shopping/ Preparation		
x	Lean Meat & Beans				
x	Sodium & Potassium				
x	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

The goal of the SNAP-Ed Program is to improve the likelihood that low-income individuals, including those eligible for SNAP, will make healthy food choices within a limited budget and choose physically active lifestyles. Madera County will only utilize approved curricula from the CDPH list of approved materials that may be used to enhance lessons or used with indirect education. These curricula are based on the current Dietary Guidelines for Americans. All curricula and materials utilized in Madera County during SNAP-Ed activities will be from the approved list found in the USDA SNAP-Ed Connection website, and/or the **FFY 2016** USDA approved UC CalFresh, the California Department of Aging, the California Department of Social Services, the Catholic Charities of California and/or from the CDPH Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list. A list of defined curricula will be available in each section under **Educational Materials, Resources, and Curriculum.**

Other Resources

The LHD might use educational materials from additional resources found at the following web addresses:

9. **Intervention and Evaluation Plan Narrative Summary**

In Madera County, the Public Health Department (LHD) and the UCCE will collaborate and coordinate the SNAP-Ed program activities to provide direct and indirect nutrition and physical activity education to support the Madera County SNAP-Ed eligible residents who fall in the 185% Federal Poverty Level (FPL) to help increase the consumption of healthy foods and beverages at K-12 schools and retail stores, to help reduce the consumption of unhealthy foods and beverages at K-12 schools and retail environments, and to help increase physical activity at K-12 schools. The LIA Partnership will conduct activities at all levels of the Social Ecological Model, including: individual, interpersonal, organizational, and community levels. To accomplish the goals and objectives of the 2017-2019 IWP, the LIA partnership will conduct the following activities: 1) provide community/nutrition education in the form of direct and indirect nutrition education to the SNAP-Ed eligible population with focus on MUSD K-12 schools and retail stores, 2) providing training and technical assistance to MUSD Athletics Department Staff, other participating Community Based Organizations, and Community Health Workers/Promotoras, 3) providing outreach and promotion of Healthy Living and Active Living, 4) coordination and collaboration with various traditional media outlets, public relations and social media messaging.

To measure community impact in the target communities, the LIA partnership will be utilizing coordinated strategic efforts by all implementing partners to provide integrated, layered, and community-driven interventions that aim to increase nutrition and physical activity knowledge and self-efficacy, but also environmental opportunities required for behavior change in environments where Madera County residents eat, live, learn, work, play, and shop. Through consistent messaging, the community at large will receive health promotion messages using the current Dietary Guidelines for Americans and SNAP-Ed intervention strategies that have been proven to support behavioral outcomes and physical and social environment outcomes.

As the description contained in the Community Change Goals section explained, all proposed interventions will support the following State's Goals and Objectives and NEOPB PSEs: **Behavioral Outcomes** -Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages. Objective 1a: Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current Dietary Guidelines for Americans. Objective 1b: Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.

Objective 1c: Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population. Goal 2: Increase Physical Activity Objective 2: Annually increase physical activity among the SNAP-Ed eligible population consistent with the current Physical Activity Guidelines for Americans. Goal 3: Improve Food Resource Management. Objective 3a: Annually improve resource management behaviors among the SNAP-Ed eligible population. Objective 3b: Annually increase food security among the SNAP-Ed eligible population. **Physical & Social Environment Outcomes** -Goal 4: Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop. Objective 4a: Annually improve food environments at SNAP-Ed eligible sites. Objective 4b: Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities. Goal 5: Increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations. Objective 5a: Annually improve environments and opportunities for physical activity at SNAP- Ed eligible sites. Objective 5b: Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

School Wellness (State Level Goals 1, 2, 4, and 5 Objectives 1a, 1b, 1c, 2, 4a, 4b, 5a, and 5b)

The LIA Partnership will provide ongoing support for nutrition and physical education as well as training and technical assistance to qualifying MUSD K-12 schools through the provision of direct and indirect nutrition and physical activity education and environmental supports through the monitoring of the implementation of the MUSD School Wellness Policy and its updates, will introduce and support the development of Smarter Lunchrooms Strategies within MUSD, and will create an intersection between school gardens and classroom nutrition education curriculum. Strategies will include providing continuing education and training for PE teachers and other MUSD staff, nutrition education and cooking classes at the schools Youth Centers located near designated school sites, and healthy messaging in schools through displays/posters boards. Some of the activities include: 1) participation of K-12 MUSD schools to receive direct and indirect nutrition education and physical activity education in the form of USDA approved curricula; 2) identify, recruit and engage adults/parents at K-12 MUSD participating schools in receiving direct and indirect nutrition education and physical activity education in the form of USDA approved curricula; 3) the LIA partnership will provide trainings and technical assistance to K-12 MUSD participating PE Teachers and other MUSD Staff to expand the provision of nutrition and physical activity education from USDA approved curricula; 4) K-12 MUSD schools will participate in the implementation of the Smarter Lunchrooms Strategies; 5) K-12 MUSD participating schools will participate in Safe Routes to School programs to enhance walkable and bikable communities.

Adult Nutrition Education & Physical Activity (State Level Goals 1, 2, 3, 4, and 5 State Level Objectives 1a, 1b, 1c, 2, 3a, 3b, 4a, 4b, 5a and 5b)

The LIA Partnership will provide health promotion and outreach education in nutrition and physical education, to qualifying MUSD K-12 schools (including after school programs) through the provision of direct and indirect nutrition and physical activity education and environmental supports for nutrition and physical activity. Some of the strategies will include continuing support at school events and a large number of Community Based Organizations (CBOs). Activities will include: 1) the promotion of Nutrition Education, Physical Activity and the Rethink Your Drink Campaigns through outreach education to help reduce the consumption of sugary drinks and help increase water consumption; 2) the promotion of Nutrition Education and Physical Activity utilizing SNAP-Ed approved

curriculum through outreach education at MUSD schools; 3) through outreach education promoting nutrition education and physical activity at CBOs utilizing SNAP-Ed approved curricula; 4) through outreach education promoting nutrition education, physical activity, and the Rethink Your Drink Campaign utilizing SNAP-Ed approved curriculum at retail stores and/or super markets; 5) through outreach education to promote nutrition education, physical activity, and the Rethink Your Drink Campaign utilizing SNAP-Ed approved curriculum at Youth Centers and After School Programs.

Healthy Retail (State Level Goals 1, 3, and 4 State Level Objectives 1a, 1b, 1c, 3a, 3b, 4a and 4b)

The LIA Partnership will provide ongoing support for nutrition and physical education as well as training and technical assistance to qualifying retail store staff near MUSD K-12 Schools through the provision of indirect nutrition education and environmental supports for nutrition through food demonstrations, healthy displays and converting spaces into healthy aisles. Some of the activities include: 1) providing support and engagement to Retail Stores and/or Super Markets and/or Convenience Stores surrounding MUHD Elementary Schools to promote healthy retail and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles; 2) providing support and engagement to food vendors surrounding MUHD Elementary Schools to promote healthy retail, convenient, affordable and healthy snacks, drinks and fresh food options to enhance healthy lifestyles, health awareness and access to improved environments; 3) coordinate and provide support to retail stores and/or Super Markets and/or Convenience Stores within the geographically found SNAP-Ed population to uphold the annual Fruit and Veggie Fest Celebration to promote healthy retail, decrease food insecurity, and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles; 4) provide support to the Madera County Food Bank and engage in educational interventions to promote healthy retail, decrease food insecurity, and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles; 5) recruit, train, and educate on Healthy Retail to Community Health Workers/Promotoras to promote healthy retail, decrease food insecurity, and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles to build relationships and engagement at Retail Stores and/or Super Markets and/or Convenience Stores surrounding MUHD Elementary Schools. CX3 evaluations may be done in 2017 to monitor change and provide information to the community.

Healthy Food and Beverage Standards (State Level Goals 1, 2, 3, 4, and 5 State Level Objectives 1a, 1b, 1c, 2, 3a, 3b, 4a, 4b, 5a and 5b)

The LIA Partnership will provide ongoing support for nutrition and physical education as well as training and technical assistance to qualifying CBOs through the provision of direct and indirect nutrition and physical activity education and environmental supports for nutrition and physical activity. Some of the activities include: 1) providing direct nutrition education and physical activity at a participating local adult employment training and technical assistance programs to adult SNAP-Ed eligible participants; 2) providing direct nutrition education and physical activity to participating local senior centers; 3) providing direct nutrition education and physical activity at various community based organizations; 4) providing direct nutrition education and physical activity to K-12 MUSD Elementary School Parent Clubs during their regular meetings.

CX3 (State Level Goals 1, 2, 3, 4, and 5 State Level Objectives 1a, 1b, 1c, 2, 3a, 3b, 4a, 4b, 5a and 5b)

During 2017, the LHD will enter phase 2 of the CX3 study. The LHD will be reassessing the required CX3 neighborhoods with support from LHD staff as well as youth/adult champions. The CX3 tool is an opportunity to bring in youth, adults, and corner store owners to assess their retail and neighborhood environments in three communities (Country Club Neighborhood, Madera High School Neighborhood, and Millview Neighborhood). This encourages integration in the decision making, participation in health activities, create greater awareness of their community, and leadership. Some areas to engage the public include: healthy retail environments, recreational facilities, fast food restaurants, and physical environments for walkability, and other of food outlets. According to SNAP-Ed County Profiles in 2014, 32.2% of children and 18.2% of the overall population in Madera experience food insecurity. The same report showed 26,692 or 17.5% of Madera residents are CalFresh participants. From the initial assessment of the Madera County CX3 neighborhoods, it was found that all those communities had some of the lowest scores as reported by the CX3 School Neighborhood Scoring system. Some of the findings from this assessment included: 1) Madera County has a low number of recreational facilitates (n = 5) per 100,000 residents; 2) The percentage of children and teens (ages 1-17 years) who have a park or open space within walking distance is almost the same as the state rate, 80.8% and 84.7% respectively. During 2017, the Madera County SNAP-Ed program will re-assess the community to gather new information for future interventions.

Required Evaluation Narrative Summary:

LHD

The implementing agencies (LHD and UCCE) in Madera County will collaborate and foster commitment to a joint structure to share the responsibility in accomplishing the SNAP-Ed IWP FFY 2017-2019 plan. Together, they will collaborate to provide comprehensive multi-level behavior-focused strategies and interventions that include nutrition education and physical activity promotion, participation in community events, provision of training and technical assistance, utilization of media and public relations, and lastly, coordination and collaboration with traditional and non-traditional partners throughout Madera County. The main focus of the LIA partnership is to promote USDA Dietary Guidelines for Americans utilizing SNAP-Ed program interventions and PSE strategies that have been proven to support behavior change. The LIA partnership will accomplish these activities at the individual and interpersonal level utilizing the Social Ecological Model (SEM). The LHD and UCCE will also incorporate strategies that create changes in the environment that impact interpersonal, organizational and community based organizations. The main focus of the LIA partnership will be to provide direct and indirect community nutrition and physical education. The LHD and UCCE will provide trainings and technical assistance. Incorporating and sharing training opportunities across agencies will also be part of the integrate work plan. Additionally, the LIA partnership will only employ evidence-based, practice-based, and emerging interventions (curricula). The local objectives and activities for this plan were created using information and data from the referenced community assessments and the CX3 assessment. It is the commitment of the LIA Partnership to collaborate in the creation and/or the execution of the FFY 2017-2019 Integrated Work Plan to successfully complete the Work Plan Goals

and Objectives. On an on-going basis the LHD will document SNAP-Ed activities, sites, participants reached and other required elements through process evaluation. The reporting system will document the range of SNAP-Ed services provided in the local jurisdiction, the locations and specific SNAP-Ed eligible audiences reached as well as other required EARS elements. The actual number of SNAP-Ed eligible individuals reached through direct education (unduplicated), indirect education (duplicated), and PSE change activities will be compared to the original reach targets. The Impact Outcome Evaluation of the youth nutrition education series as measured by the NEOP-approved HOTM survey will document change in individual level behaviors and dietary practices highlighted in the USDA's Western Regional Offices SNAP-Ed Evaluation Framework. For PSE strategies, the RE-AIM indicators will be evaluated to provide at a minimum the core indicators for that strategy and WRO SNAP-Ed Evaluation Framework Indicators. The Healthy Retail strategy evaluation will consist of using CX3 tools and nutritional analysis software to collect pre and post data about participating food retailers and intercept surveys and store manager surveys to collect core indicator data. The School Wellness strategy will be measured by tracking and reporting on progress made on the MUSD wellness plan.

UCCE

The University of California Cooperative Extension, Division of Agriculture and Natural Resources (ANR) is a statewide network of campus based Agricultural Experiment Station researchers and Cooperative Extension specialists located on the Berkeley, Davis and Riverside campuses working collaboratively with county-based Cooperative Extension advisors located in 50 county offices throughout the state. ANR members are dedicated to creating, developing and delivering knowledge and practical information in agricultural, natural and human resources to improve the quality of life of Californians. Cooperative Extension brings science-based, unbiased research to help solve local needs. In Madera County, the UC CalFresh Youth Nutrition Education Program will provide no-cost curriculum, support and resources to Preschool through high school teachers in low-income Madera County Schools to deliver nutrition and physical activity education in the classrooms. The CalFresh Adult Nutrition Education Program provides evidence-based nutrition education to SNAP-Ed eligible and other low-income individuals and families in collaboration with local partners. UC Cal Fresh acts as a bridge between the learning and knowledge of the UC system and the community, tailoring the latest science, curriculum and information to the needs, culture and language of low-income communities. UC CalFresh's goal is to help families, youth, adults and seniors make better nutrition decisions, maximize limited food budgets and plug-in to their county's unique opportunities.

The University of California Cooperative Extension (UCCE), Madera County, UC CalFresh Nutrition Education Program serves as a bridge between the University of California and the community of Madera. UC CalFresh utilizes research-based, age specific curricula in the classroom with youth participants. Several of the curricula have specific pre and post tests administered at the beginning and end of the year to assess knowledge gain and behavior change in students. Additionally, teachers are surveyed using the Teacher Observation Tool (TOT) to assess their perception of student's baseline exposure to various interventions as well as the teachers' perceived behavior change of the students concerning the foods tasted. In the implementation of the Smarter Lunchroom's Movement (SLM) in selected schools sites, UC CalFresh uses the SLM Scorecard, before and after photos as well as the SLM Action Plan forms to assess the progress of each lunchroom.

UC CalFresh's adult evaluation's include pre and posts tests specific to adult and senior research-based curricula in series-based lessons. Series-based adult lessons use *Eat Smart, Be Active, Eat Healthy, Be Active* and *Plan, Shop, Save and Cook*. Senior series-based lessons use the *Eat Smart, Live Strong* curriculum. These assessments measure knowledge gain and behavior change. For single session workshops, UC CalFresh utilizes Intent to Change (ITC) surveys to measure the participant's' readiness to change a behavior. Single session workshops also collect qualitative success stories. For process evaluation, UC CalFresh submits quarterly reporting tools using youth and adult workbooks with the number of participants and site details. UCCE will be working with UC CalFresh State Office to align, as appropriate, evaluation tools and results to the Western Region's SNAP-Ed evaluation framework.

SECTION B: Target Audience Description

1. Gender	%		2. Age	#
Male	48.2%		0 to 4 years old (Preschool):	4500

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

By September 30, 2019, LIA Partnership will assist at least 7 elementary schools in the implementation of the Madera Unified School District's (MUSD) School Wellness Plan, and change the school environment to support healthy living and promote physical activity; through direct education and various PSE strategies.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

School Wellness, Farm to School, School and Community Gardens, Smarter Lunchrooms, Safe Routes to School, and other Environmental Changes that support Physical Activity

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017, at least 3 (2=LHD and 1=UCCE) MUSD participating schools will receive direct nutrition education and physical activity education in the form of USDA approved curricula.

   b. By September 30, 2017, the LIA partnership will identify, recruit and engage adults/parents at, at least 3 (2=LHD and 1=UCCE) MUSD participating schools to receive direct nutrition education and physical activity education in the form of USDA approved curricula.

   c. By September 30, 2017, the LIA partnership will provide at least 4 trainings to support MUSD participating Physical Education Teachers and other MUSD Staff to expand nutrition and physical activity education from USDA approved curricula.

   d. By September 30, 2017, at least 2 LHD MUSD participating schools will report successful implementation and 1 UCCE MUSD participating school will be identified and recruited for implementation of the Smarter Lunchrooms Movement.

e. By September 30, 2017, at least 2 LHD MUSD participating schools will participate and 1 UCCE MUSD participating school will be identified and recruited in the Safe Routes to School programs to enhance walkable and bikable communities.

2. **FFY 2018 (Year 2) Objective(s):**

   a. By September 30, 2018, at least 5 (3=LHD and 2=UCCE) MUSD participating schools will receive direct nutrition education and physical activity education in the form of USDA approved curricula.

   b. By September 30, 2018, the LIA partnership will identify, recruit and engage adults/parents at, at least 5 (3=LHD and 2=UCCE) MUSD participating schools to receive direct nutrition education and physical activity education in the form of USDA approved curricula.

   c. By September 30, 2018, the LIA partnership will provide at least 4 additional trainings to support MUSD participating Physical Education Teachers and other MUSD Staff in extending nutrition and physical activity education from USDA approved curricula.

   d. By September 30, 2018, at least 2 additional (1=LHD and 1=UCCE) MUSD participating schools will report successful implementation of the Smarter Lunchrooms Movement.

   e. By September 30, 2018, at least 2 additional (1=LHD and 1=UCCE) MUSD participating schools will participate in Safe Routes to School programs to enhance walkable and bikable communities.

3. **FFY 2019 (Year 3) Objective(s):**

   a. By September 30, 2019, at least 7 (4=LHD and 3=UCCE) MUSD participating schools will receive direct nutrition education and physical activity education in the form of USDA approved curricula.

   b. By September 30, 2019, the LIA partnership will identify, recruit and engage adults/parents at, at least 7 (4=LHD and 3=UCCE) MUSD participating schools to receive direct nutrition education and physical activity education in the form of USDA approved curricula.

   c. By September 30, 2019, the LIA partnership will provide at least 4 additional trainings to support MUSD participating Physical Education Teachers and other MUSD Staff in extending nutrition and physical activity education from USDA approved curricula.

   d. By September 30, 2019, at least 2 additional (1=LHD and 1=UCCE) MUSD participating schools will report successful implementation of the Smarter Lunchrooms Movement.

e. By September 30, 2019, at least 2 additional (1=LHD and 1=UCCE) MUSD participating schools will participate in Safe Routes to School programs to enhance walkable and bikable communities.

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019, LIA Partnership will assist at least 7 elementary schools in the implementation of the Madera Unified School District's (MUSD) School Wellness Plan, and changing the school environment to support healthy living and promote physical activity; through direct education and various PSE strategies.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	The LHD will conduct a series of 7 interventions of nutrition/physical activity education classes. Each educational intervention will be 50 minutes, once a month, to 4th, 5th, and 6th grade students at MUSD elementary schools utilizing SNAP-Ed approved curricula. At least 250 students at each site will receive the classes. Educational interventions to 4th grade students will use a combination of the Harvest of the Month (HOTM), My Plate, and Power Play! curricula. The 5th grade students will use the Nutrition to Grow On curriculum. The 6th grade students will use the Eat Fit curriculum. At least 30 minutes of each presentation will focus on nutrition and food tasting and the remaining minutes will focus on physical activity.	x CED CEI MPR C&C TTA	CWD x LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF Biannual Reports School Rosters IOE Reports

1.2	The UCCE will provide once a month nutrition and physical activity education, at least 30 minutes each, in the form of interactive USDA SNAP-Ed approved lessons, in qualifying preschools, elementary schools, middle schools and high schools to 600 youth annually. Bi-monthly taste-testing will be provided. Educational Materials, Resources, and Curriculum

Activity Number	Curriculum, Toolkit, Resource Name	SNAP-Ed Agency(ies)	Level of Evidence Base
1.1 1.2	**Harvest of the Month (HOTM) - (4th Grade)** The Harvest of the Month features ready-to-go tools and resources that can be used in diverse applications to support healthy eating and daily physical activity. All Harvest of the Month resources are based on the United States Department of Agriculture (USDA) and Department of Health and Human Services (DHHS) 2010 Dietary Guidelines for Americans. The guidelines are supported by extensive research that shows eating a colorful variety of fruits and vegetables and getting at least 60 minutes of physical activity every day can help children maintain a healthy weight and lower their risk for serious health problems. Studies also show that eating nutrient-rich foods like fruits and vegetables can help students do better in school through improved learning, behavior, and attendance. Harvest of the Month provides materials for students, families, and the community to engage in hands-on opportunities to explore, tastes, and learn about the importance of eating fruits and vegetables and being active every day. Resources provide the opportunity for collaboration among many partners and stakeholders, including educators, school nutrition staff, school administrators, students, parents, farmers, retail outlets, worksites, SNAP offices, after-school programs, and more—all of whom are striving toward the goal of increasing consumption of fruits and vegetables and increasing physical activity among low-income Californians. 1.1 1.2	**Nutrition to Grow On (4th- 6th Grades)** The Nutrition to Grow On is an innovative curriculum for grades four through six that offers teachers a direct link between the garden and nutrition education. This curriculum offers lessons which are designed to teach children and their families about nutrition by relating each lesson to a garden activity. The curriculum uses the garden to integrate disciplines, including science, mathematics, language arts, history, environmental studies, nutrition, and health, while reinforcing some of the California academic content standards. School gardens are wonderful sources of food and beauty and outlets for physical activity; they can also help students discover fresh food and learn to make healthier food choices. Nutrition to Grow On taps into these instructional gardens to cultivate the students' talents and skills while enriching their capacities for observation and thinking. 1.1 1.2	**Eat Fit (6th Grade)** Eat Fit teaches students to set goals to establish the personal health habits appropriate to the changing needs of adolescence. With Eat Fit, students explore and practice the skills necessary for a physically active lifestyle and healthy food choices.		CWD X LHD AAA X UCCE CCC	X	Research Tested Practice Tested Emerging N/A - Please describe below:
1.1 1.2	**Power Play! (4th, 5th, and 6th Grades)** "Power Play!" encourages students to eat fruits and vegetables every day and gives creative ways for the students to successfully do so. Children at this age are assuming more responsibility for their own health and well-being. Power Play is designed for maximum learning using integrative and fun activities and taste-testing to hold the interest of this age group.		CWD X LHD AAA X UCCE CCC	X	Research Tested Practice Tested Emerging N/A - Please describe below:
1.2	**Happy Healthy Me (Pre-K, Kinder, and 1st Grades)** "Happy Healthy Me... Moving, Munching, and Reading Around MyPlate" is a nutrition and literacy curriculum that helps children become aware of food and nutrition by reading storybooks with food-related themes and then participating in hands-on nutrition education and physical activities.		CWD LHD AAA X UCCE CCC	X	Research Tested Practice Tested Emerging N/A - Please describe below:

1.2	**Go Glow Grow (Pre-K)** The "Go Glow Grow" curriculum is designed to meet the specific needs and abilities of preschoolers. It provides opportunities for younger children to actively learn about healthy eating and exercise. Research tells us that the early years are especially important for establishing habits that will last a lifetime. Encouraging healthy eating and ample physical activity during the preschool years will have long-term benefits. Through this curriculum preschoolers will make the connection between eating healthy foods and being able to Go, Glow and Grow.		CWD LHD AAA X UCCE CCC	Research Tested Practice Tested X Emerging N/A - Please describe below:
1.2	**Eating Healthy From Farm to Fork (K, 1st, and 2nd Grades)** "Eating Healthy from Farm to Fork ... Promoting School Wellness" is a nutrition education curriculum that makes the connection between local food systems, garden-based learning, school food service and the establishment of healthy habits. The lessons actively engage the children in learning about healthy choices for food and fitness.		CWD LHD AAA X UCCE CCC	Research Tested X Practice Tested Emerging N/A - Please describe below:
1.2	**My Amazing Body (1st Grade)** "My Amazing Body" is a nutrition curriculum for students to learn about the amazing things their body can do and explore how they can keep their amazing bodies healthy through eating nutrient-rich foods, getting plenty of exercise and sleep, and practicing good hygiene.		CWD LHD AAA X UCCE CCC	Research Tested X Practice Tested Emerging N/A - Please describe below:

1.2	**Good for Me and You (2nd Grade)** "Good For Me and You" is a nutrition curriculum that allows students to explore what is good for a healthy body and lifestyle, study My Plate, and are introduces to the concept of nutrients and what they do for their bodies. They learn that eating breakfast every day, drinking healthy beverages, exercising and keeping food safe to eat all are good to their body. 1.2	**Dairy Council (K-5th Grades)** Since 1919, Dairy Council of California has been an innovator in nutrition education and the dairy industry's contribution to community health. We produce balanced nutrition education programs and resources, which are free in California, for schools, health professionals' offices and workplace wellness programs.	☐ CWD ☐ LHD ☐ AAA ☒ UCCE ☐ CCC	☐ Research Tested ☒ Practice Tested ☐ Emerging ☐ N/A - Please describe below:
1.2	**Hunger Attacks/Money Talks (9th-12th Grades)** "Hunger Attacks/Money Talks" is a curriculum designed to teach teens that the food they buy not only affects the amount of money they spend, but can also affect their health.	☐ CWD ☐ LHD ☐ AAA ☒ UCCE ☐ CCC	☐ Research Tested ☒ Practice Tested ☐ Emerging ☐ N/A - Please describe below:
1.4	**Eat Healthy, Being Active!** The Eat Healthy, Be Active Community Workshops series is based on the *Dietary Guidelines for Americans, 2010* and *2008 Physical Activity Guidelines for Americans*. The series builds on concepts by providing detailed tips for how to put recommended behaviors into practice. The workshops are designed to move participants from the "thinking" phase to taking desired health actions.	☐ CWD ☐ LHD ☐ AAA ☒ UCCE ☐ CCC	☒ Research Tested ☐ Practice Tested ☐ Emerging ☐ N/A - Please describe below:

1.2	**Shaping Healthy Choices Program(SHCP)** The Shaping Healthy Choices Program is a multi-component, school- based intervention framework that was developed to improve children's health. This program integrates activities within four components, all working together to sustain positive health outcomes: 1. Nutrition education and promotion 2. Family and community partnerships 3. Foods available on the school campus with an emphasis on regional agriculture 4. School wellness policies This program incorporates the following elements: • Nutrition education, featuring a standards-based nutrition curriculum that utilizes inquiry-based and experiential learning approaches • Instructional gardens to enhance nutrition education • Cooking demonstrations that engage youth in exploring new foods using their five senses • Family newsletters to promote parenting practices that have been shown to be effective • Salad bars in the school lunchroom that feature regional produce • School-based wellness committees to support and sustain the program • School-wide health fairs comprising nutrition related educational booths and games, and the support and participation of community partners		
1.6 1.7	**Smarter Lunchrooms Movement (SLM)** A smarter lunchroom is one that nudges kids towards nutritious foods. Over 30 million children are fed by the National School Lunch Program (NSLP). The SLM is a program that provides an opportunity for kids to select and consume a balance diet. The SLM applies research-based principles that lead children to make healthy choices when provided with the full spectrum of choice. In an effort to reach out and provide resources to schools across the nation, the SLM Movement has assembled a set of Best Practices which are effective at creating an environment that nudges kids toward healthful choices. These Best Practices are solution based principles which focus on specific aspects of the school meal. All of the Best Practices and lunchroom solutions that the SLM Movement endorses have been studied and proven effective in a wide variety of schools across the nation. The Cornell Center for Behavioral Economics in Child Nutrition Programs (B.E.N. Center) applies experimental research from the Cornell Food & Brand Lab to school lunchrooms.

	Here are some quick take-aways from the B.E.N. Center research: • Moving and highlighting fruit increased sales of fruit by up to 102% • Naming vegetables and displaying the new names with the foods increased selection of vegetables from between 40% - 70% • Placing white milk first in the lunchroom coolers has resulted in an increase of up to 46% in white milk sales • The first of highlighted entrée on the lunch line has an 11% advantage over the second option • The number of students consuming "healthy items" increased by 35% after the introduction of a "healthy choices only" convenience line.		

1.8 1.9	**Safe Routes to School Toolkit** Starting a Safe Routes to School (SRTS) program is an opportunity to make walking and bicycling to school safer and more accessible for children, including those with disabilities, and to increase the number of children who choose to walk and bicycle. On a broader level, SRTS programs can enhance children's health and well-being, ease traffic congestion near the school and improve air quality and improve community members' overall quality of life. A SRTS program has the potential to improve walking and bicycling conditions near a school and spread interest into other parts of the community. ****Time Frame: Year & Quarter:**

Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)

Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**

Local Objective 2: By September 30, 2019, the LIA partnership will build upon the PSE and direct education initiatives described in Local Objectives #1 and #3 by providing indirect education and outreach to at least 4500 SNAP-Ed eligible residents to increase the consumption of water and/or low/fat/nonfat milk, healthy food preferences, nutrition knowledge and self-efficacy.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

School Wellness, Farm to School, Farmers' Markets, Healthy Corner Stores, Healthy Food and Beverage Standards

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, the LHD will be promoting Nutrition Education, Physical Activity and the Rethink Your Drink Campaign through outreach activities to help reduce the consumption of sugary drinks and help increase water consumption to at least 2 MUSD schools.
    b. By September 30, 2017, the UCCE will be promoting Nutrition Education and Physical Activity utilizing SNAP-Ed approved curriculum through indirect outreach activities to at least 2 MUSD schools.
    c. By September 30, 2017, the UCCE through outreach activities will be promoting nutrition education and physical activity at least 7 community based organizations utilizing SNAP-Ed approved curricula.
    d. By September 30, 2017, the LHD through outreach activities will be promoting nutrition education, physical activity, and the Rethink Your Drink Campaign utilizing SNAP-Ed approved curriculum to at least 2 retail stores and/or super markets.
    e. By September 30, 2017, the LHD through outreach activities will be promoting nutrition education, physical activity, and the Rethink Your Drink Campaign utilizing SNAP-Ed approved curriculum to at least 1 Youth Center and 2 After School Programs.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, the LHD will be promoting the Rethink Your Drink Campaign through outreach activities to help reduce the consumption of sugary drinks and help increase water consumption to 1 additional MUSD school.
    b. By September 30, 2018, the UCCE will be promoting Nutrition Education and Physical Activity utilizing SNAP-Ed approved curriculum through indirect outreach activities to at least 3 MUSD schools.
    c. By September 30, 2018, the UCCE through outreach activities will be promoting nutrition education and physical activity at least 10 community based organizations utilizing SNAP-Ed approved curricula.
    d. By September 30, 2018, the LHD through outreach activities will be promoting nutrition education, physical activity, and the Rethink Your Drink Campaign utilizing SNAP-Ed approved curriculum to at least 3 retail stores and/or super markets.
    e. By September 30, 2018, the LHD through outreach activities will be promoting nutrition education, physical activity, and the Rethink Your Drink Campaign utilizing SNAP-Ed approved curriculum to at least 2 Youth Centers and 3 After School Programs.
3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, the LHD will be promoting the Rethink Your Drink Campaign through outreach activities to help reduce the consumption of sugary drinks and help increase water consumption to 1 additional MUSD school.
    b. By September 30, 2019, the UCCE will be promoting Nutrition Education and Physical Activity utilizing SNAP-Ed approved curriculum through indirect outreach activities to at least 4 MUSD schools.
    c. By September 30, 2019, the UCCE through outreach activities will be promoting nutrition education and physical activity at least 12 community based organizations utilizing SNAP-Ed approved curricula.
    d. By September 30, 2019, the LHD through outreach activities will be promoting nutrition education, physical activity, and the Rethink Your Drink Campaign utilizing SNAP-Ed approved curriculum to at least 4 retail stores and/or super markets.
    e. By September 30, 2019, the LHD through outreach activities will be promoting nutrition education, physical activity, and the Rethink Your Drink Campaign utilizing SNAP-Ed approved curriculum to at least 2 Youth Centers and 4 After School Programs.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Madera County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

Local Objective 2: By September 30, 2019, the LIA partnership will build upon the PSE and direct education initiatives described in Local Objectives #1 and #3 by providing indirect education and outreach to at least 4500 SNAP-Ed eligible residents to increase the consumption of water and/or low/fat/nonfat milk, healthy food preferences, nutrition knowledge and self-efficacy.

2.1 2.2 2.3 2.4 2.5	**Rethink Your Drink** *The Rethink Your Drink Campaign* is a public health initiative led by the California Department of Public Health and administered by the Local Health Departments. The *Rethink Your Drink Campaign's* primary goals are to: 1) educate low-income Californians about healthy drink options, 2) help identify drinks with added sugar, 3) make the link between consumption of sugar-sweetened drinks and health risks. The campaign hopes to shift consumption toward healthier, more affordable beverages, like water. At the same time, the Rethink Your Drink Campaign hopes to stimulate community-level partnerships and invite local environmental changes that will improve access, affordability and desirability of healthy beverages. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**

By September 30, 2019, the LHD will provide support to local Retail Stores, Super Markets, and/or Convenience Stores to promote healthy retail and increase access to locally grown fresh produce and increase consumption of healthy food and beverages, at least 4 retail sites within Madera County.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Healthy Retail, Healthy Corner Stores, Restaurants and Neighborhood Vendors, Farmers' Markets, Healthy Food and Beverage Standards

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 2017, the LHD will provide support and engage at least 2 Retail Stores and/or Super Markets and/or Convenience Stores surrounding 2 MUHD Elementary Schools to promote healthy retail and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles.

   b. By September 2017, the LHD will provide support and engage at least 1 food vendors surrounding 1 MUHD Elementary Schools to promote healthy retail, convenient, affordable and healthy snacks, drinks and fresh food options to enhance healthy lifestyles, health awareness and access to improved environments.

   c. By September 2017, the LHD will coordinate and provide support to at least 1 Retail Store and/or Super Market and/or Convenience Store within the geographically found SNAP-Ed population to uphold the annual Fruit and Veggie Fest Celebration reaching at least 200 participants to promote healthy retail, decrease food insecurity, and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles.

d. By September 2017, the LHD will provide support to the Madera County Food Bank and engage in at least 6 educational interventions to promote healthy retail, decrease food insecurity, and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles.

e. By September 2017, the LHD will recruit, train, and educate on Healthy Retail to at least 15 Community Health Workers/Promotoras to promote healthy retail, decrease food insecurity, and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles to build relationships and engagement at Retail Stores and/or Super Markets and/or Convenience Stores surrounding 2 MUHD Elementary Schools.

f. By September 2017, the LHD will provide support in identifying and applying for funding and support for farmer's market activities within the County of Madera.

2. **FFY 2018 (Year 2) Objective(s):**

a. By September 2018, the LHD will provide support and engage at least 3 Retail Stores and/or Super Markets and/or Convenience Stores surrounding 2 MUHD Elementary Schools to promote healthy retail and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles.

b. By September 2018, the LHD will provide support and engage at least 2 food vendors surrounding 2 MUHD Elementary Schools to promote healthy retail, convenient, affordable and healthy snacks, drinks and fresh food options to enhance healthy lifestyles, health awareness and access to improved environments.

c. By September 2018, the LHD will coordinate and provide support to at least 1 Retail Store and/or Super Market and/or Convenience Store within the geographically found SNAP-Ed population to uphold the annual Fruit and Veggie Fest Celebration reaching at least 300 participants to promote healthy retail, decrease food insecurity, and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles.

d. By September 2018, the LHD will provide support to the Madera County Food Bank and engage in at least 9 educational interventions to promote healthy retail, decrease food insecurity, and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles.

e. September 2018, the LHD will recruit, train, and educate on Healthy Retail to at least 15 Community Health Workers/Promotoras to promote healthy retail, decrease food insecurity, and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles to build relationships and engagement at Retail Stores and/or Super Markets and/or Convenience Stores surrounding 3 MUHD Elementary Schools.

f. By September 2018, the LHD will provide support in identifying and applying for funding and support for farmer's market activities within the County of Madera.

3. **FFY 2019 (Year 3) Objective(s):**

a. By September 2019, the LHD will provide support and engage at least 4 Retail Stores and/or Super Markets and/or Convenience Stores surrounding 2 MUHD Elementary Schools to promote healthy retail and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles.

b. By September 2019, the LHD will provide support and engage at least 3 food vendors surrounding 3 MUHD Elementary Schools to promote healthy retail, convenient, affordable and healthy snacks, drinks and fresh food options to enhance healthy lifestyles, health awareness and access to improved environments.

c. By September 2019, the LHD will coordinate and provide support to at least 1 Retail Store and/or Super Market and/or Convenience Store within the geographically found SNAP-Ed population to uphold the annual Fruit and Veggie Fest Celebration reaching at least 400 participants to promote healthy retail, decrease food insecurity, and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles.

d. By September 2019, the LHD will provide support to the Madera County Food Bank and engage in at least 12 educational interventions to promote healthy retail, decrease food insecurity, and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles.

e. September 2019, the LHD will recruit, train, and educate on Healthy Retail to at least 15 Community Health Workers/Promotoras to promote healthy retail, decrease food insecurity, and increase knowledge, awareness, and access to locally grown fresh produce and healthy items that lead to healthier lifestyles to build relationships and engagement at Retail Stores and/or Super Markets and/or Convenience Stores surrounding 4 MUHD Elementary Schools.

f. By September 2019, the LHD will provide support in identifying and applying for funding and support for farmer's market activities within the County of Madera.

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):

By September 30, 2019, the LHD will provide support to local Retail Stores, Super Markets, and/or Convenience Stores to promote healthy retail and increase access to locally grown fresh produce and healthy items at, at least 4 retail sites within Madera County.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	The LHD will provide support, conduct outreach, and engage 2 Retail Stores and/or Super Markets and/or Convenience Stores surrounding MUHD Elementary Schools during 2017. One additional location will be selected in 2018 and one in 2019. The LHD will provide nutrition/physical activity/food demonstrations/presentations utilizing SNAP-Ed approved curricula reaching a minimum of 100 community residents in 2017, 150 community residents in 2018, and 200 community residents in 2019. Each presentation will include a food tasting demonstration. Presenters will use My Plate and the Community Toolbox as tools to educate the participants. 3.1 3.2 3.5 3.7 3.8 3.9	**The Community Tool Box** The Community Toolbox was created so that community educators can easily teach low-income adults about eating the recommended amount of fruits and vegetables and enjoying physical activity every day. Each item in the *Toolbox* was tested with the target community to make sure it is culturally appropriate. The *Toolbox* Web site contains lessons with supporting handouts, resources, and evaluation tools while the *Toolbox* Kit provides all information available from the Web site as well as two educational videos, five decks of fruit, vegetable, and physical activity playing cards, a music CD, poster, and produce guide.	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	☒ Research Tested ☒ Practice Tested ☐ Emerging ☐ N/A - Please describe below:
3.3 3.5 3.7 3.8 3.9	**The Rethink Your Drink Campaign** *The Rethink Your Drink Campaign* is a public health initiative led by the California Department of Public Health and administered by the Local Health Departments. The *Rethink Your Drink Campaign's* primary goals are to: 1) educate low-income Californians about healthy drink options, 2) help identify drinks with added sugar, 3) make the link between consumption of sugar-sweetened drinks and health risks. The campaign hopes to shift consumption toward healthier, more affordable beverages, like water. At the same time, the Rethink Your Drink Campaign hopes to stimulate community-level partnerships and invite local environmental changes that will improve access, affordability and desirability of healthy beverages.	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	☐ Research Tested ☐ Practice Tested ☒ Emerging ☐ N/A - Please describe below:
3.1 3.2 3.3 3.5 3.7 3.8 3.9	**My Plate** MyPlate is a reminder to find your healthy eating style and build it throughout your lifetime. Everything you eat and drink matters. The right mix can help you be healthier now and in the future. This means: Focus on variety, amount, and nutrition. Choose foods and beverages with less saturated fat, sodium, and added sugars. Start with small changes to build healthier eating styles. Support healthy eating for everyone. Eating healthy is a journey shaped by many factors, including our stage of life, situations, preferences, access to food, culture, traditions, and the personal decisions we make over time. All your food and beverage choices count. MyPlate offers ideas and tips to help you create a healthier eating style that meets your individual needs and improves your health.	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	☐ Research Tested ☐ Practice Tested ☐ Emerging ☒ N/A - Please describe below: Resource

3.3	**Harvest of the Month** The Harvest of the Month features ready-to-go tools and resources that can be used in diverse applications to support healthy eating and daily physical activity. All Harvest of the Month resources are based on the United States Department of Agriculture (USDA) and Department of Health and Human Services (DHHS) 2010 Dietary Guidelines for Americans. The guidelines are supported by extensive research that shows eating a colorful variety of fruits and vegetables and getting at least 60 minutes of physical activity every day can help children maintain a healthy weight and lower their risk for serious health problems. Studies also show that eating nutrient-rich foods like fruits and vegetables can help students do better in school through improved learning, behavior, and attendance. Harvest of the Month provides materials for students, families, and the community to engage in hands-on opportunities to explore, tastes, and learn about the importance of eating fruits and vegetables and being active every day. Resources provide the opportunity for collaboration among many partners and stakeholders, including educators, school nutrition staff, school administrators, students, parents, farmers, retail outlets, worksites, SNAP offices, after-school programs, and more—all of whom are striving toward the goal of increasing consumption of fruits and vegetables and increasing physical activity among low-income Californians.

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):**
By September 30, 2019, in an effort to support the LHD's retail interventions listed in Local Objective #3, the UCCE will collaborate with at least 10 partner agencies in the community to provide direct education to SNAP-Ed eligible adults and seniors to increase appeal and demand for healthy foods and beverages.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**
Early Care & Education (ECE), Healthy Retail, Healthy Corner Stores, Restaurants and Neighborhood Vendors, Farmer's Markets, Healthy Food and Beverage Standards

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017, the UCCE will provide direct nutrition education and physical activity at participating local adult employment training and technical assistance programs, reaching at least 15 adult SNAP-Ed eligible participants.

   b. By September 30, 2017, the UCCE will provide direct nutrition education and physical activity at 2 participating local senior centers, reaching at least 20 senior SNAP-Ed eligible participants.

   c. By September 30, 2017, the UCCE will provide direct nutrition education and physical activity at various community based organizations, reaching at least 50 SNAP-Ed eligible participants and families.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30, 2018, the UCCE will provide direct nutrition education and physical activity at a participating local training and technical assistance programs, reaching at least 20 adult SNAP-Ed eligible participants.

    b. By September 30, 2018, the UCCE will provide direct nutrition education and physical activity at 2 participating local senior centers, reaching at least 35 senior SNAP-Ed eligible participants.

    c. By September 30, 2018, the UCCE will provide direct nutrition education and physical activity at various community based organizations, reaching at least 100 SNAP-Ed eligible participants and families.

3. **FFY 2019 (Year 3) Objective(s):**

    a. By September 30, 2019, the UCCE will provide direct nutrition education and physical activity at a participating local training and technical assistance programs, reaching at least 30 adult SNAP-Ed eligible participants.

    b. By September 30, 2019, the UCCE will provide direct nutrition education and physical activity at 2 participating local senior centers, reaching at least 50 senior SNAP-Ed eligible participants.

    c. By September 30, 2019, the UCCE will provide direct nutrition education and physical activity at various community based organizations, reaching at least 150 SNAP-Ed eligible participants and families.

Marin County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

County Name: Marin

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency (counterpart local agency) Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
X	California Department of Public Health: CDPH: Marin County Health Department
	California Department of Aging: CDA: (Area Agency on Aging: AAA)
X	Catholic Charities of California: CCC: Catholic Charities of San Francisco, Marin and San Mateo

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.

- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Marin County was recently named the healthiest County in California for the seventh consecutive year. The ranking looked at key indicators of community wellness, ranging from individual health outcomes, such as life expectancy, to factors affecting health such as the physical environment. While exciting news, these health benefits do not extend to all Marin residents. Disparities continue to persist in key areas such as life expectancy, overweight/obesity and physical activity rates, education and income inequality between our SNAP-Ed eligible communities and the rest of the County.

In Marin, approximately 1 in 5 (17.7%) or 43,545 residents live below 185% Federal Poverty Level. Among these SNAP-Ed eligible residents, 53.9% are white, 32.8% are Hispanic American, 5.9% are Asian American, and 4.9% are African American. Children below 17 years of age make up the bulk of the SNAP-Ed eligible community at 41.8% followed by adults 18-64 at 17.4% and seniors 65 and over at 15.1% (SNAP-Ed County Profiles, NEOPB). English, Spanish and Vietnamese are the main languages spoken within Marin's SNAP-Ed eligible communities.

We continue to focus most of our work in three census tracts with a concentration of low income residents: Marin City, a predominantly African American community, and the Canal neighborhood of San Rafael, a Hispanic American community (Marin has 55 census tracts). To ensure we reach SNAP-Ed eligible residents beyond our approved census tract criteria, we use means testing and Free and Reduced Price Meal (FRPM) school data to work with early childhood care centers, schools, emergency food centers, Federally Qualified Health Centers, parks, senior centers and other venues.

As previously mentioned, disparities in key areas continue to persist for both SNAP-Ed eligible youth and adults, mainly in the African American and Hispanic communities in Marin. While the overall adult overweight and obesity rates are decreasing in Marin from 44.9% in 2013 to 38.5% in 2014, (CHIS 2010-2014), within the SNAP-Ed eligible adult community 50.5% or 1 in 2 adults are overweight and obese (SNAP-Ed County Profiles, NEOPB). When comparing sub-county level data for adults in Marin, the SNAP-Ed qualifying census tracts have some of the highest overweight/obesity rates in the County, accounting for 75.1% overweight/obesity rate in Marin City and 14.7% and 17.5% obesity rates in the 2 qualifying census tracts in the Canal. In comparison, their neighbors a few miles away in San Anselmo have overweight rates at 26.3% and obesity rates at 12.9% (Marin County, Health Impact Partners -HMP, 2013).

In addition, recent study findings on pre-Diabetes rates conducted by the UCLA Center for Health Policy Research (UCLA CHPR) found that in Marin, 50% of adults 18 years or older are pre-Diabetic (Health Policy Brief, UCLA CHPR). The study highlighted that 1 in 3 young adults of color are disproportionately affected. The Community Health Information Survey (CHIS) indicates that in Marin, 96.7% of African Americans are overweight or obese and that 44% of African Americans and 60% of Hispanics eat less than 5 servings of fruits and vegetables. This is of particular concern because of the added burden it places on our focus communities.

Low income children in Marin also suffer disproportionate overweight and obesity rates. In Marin, low income youth have overweight/obesity rates of 43.8% as compared to the overall County rate of 19.3% (SNAP-Ed County Profiles, 2014, 2015 NEOPB). When we look at sub-County level data for SNAP-Ed eligible

children in 5th grade, the rate of overweight or at risk of being overweight is 38.9% in Marin City, 46.9%, in the Canal as compared to 31% overall for Marin County. In contrast, the rate for their counterparts in Larkspur is 8%. For 7th graders, the rates are 50% in Marin City and 44.9% in the Canal as compared to 31.7% for Marin County as a whole. In Larkspur, the rate for 7th graders is at 4% (HMP, 2013).

Physical activity rates for both adults and children are also significantly lower in our SNAP-Ed qualifying communities when compared to their neighbors a few miles away. The reported rates of moderate exercise during the past week for adults residing in Marin City and the Canal were 62.5% and 49.7% respectively as compared to 90% in San Anselmo (Marin County 70% HMP, 2013). For youth, according to Fitnessgram data, only 5.6% of Marin City and 27.1% of Canal 5th graders scored in the Healthy Fitness Zone compared to 56.8% in Ross (Marin County 42%). For 7th graders the rates were <1% in Marin City and 42.6% in the Canal as compared to 72.1% in Ross (Marin County, 44.9%, HMP 2013)

In Marin, 30,220 or close to 1 in 8 residents (11.9%) live in food insecure homes where they struggle to get enough to eat. Of these, about 1 in 5 are children (17.6%) (SNAP-Ed County Profiles, NEOPB). The high cost of living in Marin coupled with limited accessibility to adequate food sources in some low income communities makes it difficult for families to make ends meet. According to the Healthy Marin Partnership's Community Health Needs Assessment, food in Marin costs 48% more than the nation's average cost for a family of four (Marin County, $213.07, National average $144.40). In addition to the high cost of food, SNAP-Ed eligible communities also have the highest percentage of missing Thrifty Food Plan food items (TFP) as well as Fruits and Vegetables compared to their neighbors. For example, in spite of paying a higher price in Marin City, 38% of TFP and 66% of fruits and vegetables were missing as compared to Larkspur where 9% of TFP, and only 3% of fruits and vegetables were missing.

Food assistance programs, such as CalFresh, designed to alleviate food insecurity in eligible households are grossly underutilized in Marin. With only 4.3% or 10,845 residents among its eligible population participating in the program, Marin ranks near the bottom at 54th out of the 58 Counties in California for CalFresh enrollment. Among school aged children, close to 1 in 4 or 26.2% are eligible for Free and Reduced Price School Meals (FRPM).

While we are excited to receive the distinction of being the healthiest County for seven consecutive years, we continue to be aware of the disparities that exist in our SNAP-Ed eligible communities beyond overweight/obesity rates, and access to healthy food, and physical exercise spaces. Disparities exist in critical areas of health factors and health outcomes that determine overall health and well-being. Some of these include gaps in life expectancy, income inequality, and educational attainment. For example, life expectancy is 78.6 years in Marin City and 83.4 years in the Canal in contrast to 94.4 years in Ross, a difference of 16 years compared to Marin City and over a decade compared to the Canal (Marin County average is 83.3, HMP 2013). Severe income inequality exists between SNAP-Ed eligible communities and their wealthier counterparts in Marin. The median household income in Marin City and the Canal is $41,384 and $46,289 respectively. In Ross, the median income is $136,833 (American Community Survey 2006-2010). Further, when we look at educational attainment at the level of a Bachelor's degree, it is 15% in the Canal, 38% in Marin City and 80.2% in Ross (Marin County average is 53.9, HMP 2013).

With public health data increasingly indicating the importance of widening the lens on what affects the health of a community, we have intentionally focused on forming partnerships and focusing our work on changes in the built environment. We are coupling this approach with direct and indirect nutrition education and messaging to support the individual and community behavior changes to make the healthy choice the easy choice for our SNAP-Ed eligible communities.

4. **Community Assessment**

The Marin County Healthy Eating Active Living plan, created in the spring of 2012, continues to guide our countywide strategy of eliminating disparities in overweight/obesity rates and access to healthy, affordable, accessible foods and safe and accessible spaces for physical activity (http://www.marinheal.org/).

We use a variety of data and information sources to guide our interventions and partnerships. These mainly include:

- Local CX3 assessment and community priority results through NEOPB grant
- Healthy Community Healthy Stores assessment data
- Healthy Parks Healthy People research
- County Health Rankings and Roadmaps
- Healthy Marin Partnership's Community Health Needs Assessment (HMP 2013), which collapses data from California Health Information Survey (CHIS), CA Fitnessgram, and other sources over a number of years for sub-County level data.
- Marin Food Policy Council (CNAP) findings
- Sausalito Marin City School District Impact Outcome Evaluation results

Our review of the data indicates that SNAP-Ed eligible communities suffer disparities in most areas that impact their overall health beyond overweight/obesity rates and healthy eating and active living opportunities. These include personal health behaviors such as diet and exercise, social and economic factors such as education and employment, physical environment such as housing, and health outcomes such as life expectancy and quality of life.

The data has also informed our choice of interventions and our focus on employing a variety of strategies that support healthier behavior choices and changes in the built environment that address some of the disparities that exist for our SNAP-Ed eligible communities focusing on healthy eating and active living opportunities.

Overweight and obesity

As previously mentioned, data from Healthy Marin Partnership indicates, significant health disparities in overweight and obesity rates exist between SNAP-Ed eligible communities and their neighbors living a few miles away. These disparities exist for both youth and adults. As a result, we continue to concentrate our efforts of direct and indirect education and social marketing at early childhood, school, afterschool, school, community youth gardens such as

the Marin City CX3 youth learning garden, and summer youth programs. In addition, we are aligning our County HEAL initiatives with our NEOPB work to leverage resources and support our work. Through HEAL funding, we will expand our work in schools and focus on individual school and district level policy changes on healthy vending, local food production and healthy food preparation at schools. To reach our adult SNAP-Ed population, we will employ direct and indirect nutrition education classes at worksites, rec. centers, senior centers, WIC offices, parks, food pantries, Federally Qualified Health Centers (FQHC) Health Hubs, churches and signature community events throughout the year such as our annual Fruit and Veggie Fest and MLK Jr. Celebration events. Through our faith-based Body and Soul program, we plan to work with Pastors to lead healthy eating and active living messaging and changes in food offerings at church events.

Food Security

Healthy Marin Partnership's (HMP 2013) assessment highlights the struggle SNAP-Ed eligible households face to ensure their families have enough food to eat. This guides our intentional partnerships with the San Francisco/Marin Food Bank, FQHCs, Marin County Parks, and our County HEAL and NEOPB programs, to address food insecurity through the Health Hub model at approved SNAP-Ed eligible sites. Through this collaboration, service providers come together to provide healthy food (Food Bank distribution center), nutrition education/rethink your drink classes and demos (NEOPB program), recruitment to park events (Parks), health screenings (Clinic) and other services at approved SNAP-Ed eligible FQHCs. This model serves to boost food security by providing SNAP-Ed eligible residents with a community location where they can access healthy food, especially towards the end of the month when research indicates they are most food insecure.

We are also working with schools and school districts to improve food security for youth and children in a couple of ways. We will be working with the San Rafael School District to encourage local food production (farming and children's community gardens), whereby the District will begin producing food locally and become certified to use the food in their school cafeterias in a farm to school model. Additionally, Catholic Charities works in collaboration with the Summer Meal program to provide youth with healthy meals during summer months when they do not otherwise receive Free and Reduced Priced meals at school.

Furthermore, to boost access to healthy food for youth, we are partnering with area schools, the Safe Routes to School (SRTS) program and County Probations office, to increase participation of youth in the school breakfast program and learn about healthy and easy breakfast and snack options. In this model, SRTS and County Probations enroll schools to participate in their Walking School Bus programs. We participate and share rethink your drink demos and distribute recipe books and cards on healthy snack ideas and the importance of breakfast, and school volunteers (mostly parents) encourage students to eat breakfast in the cafeteria.

As we have discussed previously, our County's CalFresh participation is one of the lowest in the California. Therefore, we are collaborating closely with our County CalFresh office and the San Francisco/Marin Food Bank to work together and coordinate school and community events to increase enrollment.

Access to Healthy Food

Our CX3 assessment highlighted how our SNAP-Ed eligible communities experience challenges in access to healthy food in different ways. Marin City is a food desert and residents do not have access to affordable, healthy food offerings. Their only option is CVS (the Dollar store which we previously reported as another source of food has since closed). On the other hand, the Canal is a food swamp, with many small corner stores and convenience stores offering a wide range of unhealthy options. Therefore, we are focusing our attention on strategies to establish a grocery store in Marin City, while working with corner stores in the Canal to make in-store changes in product placement to increase the appeal of healthier options and offering store tours and taste tests to residents. These findings also help guide our curriculum selections from the Community Toolbox, which often focus on healthy eating on a budget.

As described above, we will work closely with community partners to coordinate community events within our SNAP-Ed eligible communities to increase availability and accessibility of healthy foods for our SNAP-Ed eligible communities through the Health Hub model, community and youth gardens and other collaborations to improve CalFresh enrollment.

Further, Catholic Charities finds that the majority of the adolescents attending the summer program in the Canal either live in a home run by a single parent, or where both parents work all day. The Catholic Charities (CC) summer program gives these participants a safe place where they can be tutored, participate in physical activity, and learn basics about healthy eating. According to CCC surveys, many of the kids in the program do not have access to fresh fruits and vegetables and participation in the program will increase their consumption of healthy foods and physical activity. Catholic Charities summer sites throughout the area work in collaboration with the Summer Meals Program, providing healthy foods to youth during the summer months, to increase access to healthy foods and in support of the county goal to address food insecurity.

Consumption of Sugary Beverages

Our IOE school intervention results for the past 2 years have stalled on showing any significant changes in consumption of healthier drinks (Significant changes in healthier consumption of fruits and vegetables have been recorded). Further school data indicates that 1 in 4 students or 25% consume one or more sugar-sweetened beverages (Kidsdata.org). Therefore, we are increasing our rethink your drink interventions in a couple of ways. One strategy is increasing direct and indirect education opportunities for our SNAP-Ed clients at school, early childhood, afterschool, rec center, park, Church and community events. Another strategy is leveraging our County HEAL program to equitable access to water at FRPM qualifying schools to boost water consumption.

In Marin, close to 1 in 5 adults are reported to consume one or more sugar sweetened beverages per week (SNAP-Ed County Profiles). With data indicating that 50% of adults in Marin are pre-Diabetic, and the link between healthy eating/drinking, obesity and diabetes, we are also increasing our direct and indirect rethink your drink education opportunities for our SNAP-Ed clients in the community. Through our FQHC Health Hub and Parks Rx model, we are working with clinic staff to provide classes and education resources to SNAP-Ed clients on the importance of healthy eating/healthy beverage consumption and engaging in

regular physical activity. Our Body and Soul program will have a special focus on policy and/or practice changes to limit or eliminate unhealthy beverages at church events.

In addition, Healthy Stores for a Healthy Community survey indicates that three out of four stores in Marin sell sugar-sweetened beverages by the checkout counter, which is more than the state average. Therefore, we will continue to work with corner stores in the Canal neighborhood to enhance product placement of healthier beverages in their stores and implement healthy checkout lanes.

Access to Physical Activity

Access to safe physical activity in Marin varies by community. Our CX3 findings and community conversations in the Canal indicate serious concern about walkability and safety in the community. In 2015, LHD staff formed a number of new partnerships with Safe Routes to Schools and various parks providers, to boost physical activity and increase critical mass of community coming together to take their streets back by walking together to school. In collaboration with Safe Routes to Schools and qualified schools, we are support neighborhood "walk/roll to school" days using Safe Routes to School's signature "Walking School Bus" program. Our collaboration with Marin County Parks and Recreation program supports focused park programs, such as "Zumba in the Park" to increase participation of Canal neighborhood residents in local parks. We will continue to expand our reach by enrolling more schools to participate in Walking School Bus days and connect more residents to parks programs. Catholic Charities will also implement and partner to implement Physical Activity programs using the CATCH curriculum to youth during the summer. These partnerships will increase physical activity opportunities for our SNAP-Ed clients.

Previously in Marin City there were no public parks, but this past July, the Rocky Graham Park, a public park was built. We have formed partnerships with the Marin City FQHC, local and regional parks and the Marin City Community Services District (CSD) to collaborate on increasing physical activity opportunities for our SNAP-Ed clients. We will be providing nutrition education/rethink your drink classes during weekly park activities provided by the CSD, Marin County Parks and the Golden Gate National Recreation Area. In addition, through our partnership with the Marin City FQHC, they will be recruiting clients with chronic diseases such as obesity, diabetes and hypertension to join weekly park programs and participate in NEOPB nutrition education/rethink your drink and physical exercise classes.

IOE data from the Sausalito Marin School District (SMCSD) has also indicated no changes in physical activity of students surveyed. Therefore, we will be partnering with SMCSD and County Probations office on their Public Housing "Walking School Bus" program to encourage physical activity and healthy eating/rethink your drink messages.

The Marin County Office of Education is also working with our County HEAL program to enroll schools in the "School in Motion" program, where the entire school participates in daily physical exercise activities during the school day. We will continue to partner with schools that enroll in the program to provide nutrition education/rethink your drink classes and physical activity materials.

Population Specific Needs

To address the current health disparities evident in overweight/obesity rates, and access to healthy food and safe physical activity spaces, LHD staff continue to form partnerships and align NEOPB program work with a variety of County HEAL initiatives, including the Marin County HHS HEAL initiative, the Marin Community Foundation's HEAL funding initiative (MCF) and the Marin HEAL Funders Group. Further, we are connecting with our CalFresh and WIC Departments, local and regional Parks organizations and other community partners to enhance healthy eating and active living benefits for our SNAP-Ed clients. We are also working closely with the Marin Food Policy Council which serves as our CNAP to employ strategies ranging from establishing community and school gardens to establishing healthy food outlets in food deserts and increasing CalFresh participation.

As we reported last year, MCF has narrowed its focus to consider an early childhood wellness initiative. A recent Countywide assessment of HEAL activities indicated a wide range of HEAL activities are taking place, but that there is a need for a more coordinated approach. We want to create a more aligned, collective approach to achieve our goals. Therefore, we are working with MCF to convene a Countywide HEAL meeting in summer 2016 to bring together both the original stakeholders that helped create the HEAL framework, and new stakeholders that want to join the initiative. The goal of the meeting is to provide an update of accomplishments and challenges as well as to discuss the road ahead. We will work with our Epidemiology department to compile current data on proven and promising strategies on healthy eating, active living and changes in the built environment to guide our discussion.

5. **Community Change Goals**

As we shared, we have been ranked the healthiest County in the state for the 7th consecutive year. Still, disparities among our SNAP-Ed eligible residents and their more affluent neighbors in areas ranging from obesity to income inequality to education levels persist and are recurring concerns of both residents and service providers. Our community wide assessments also indicate overweight/obesity, healthy food access and increasing physical activity opportunities are priorities in Marin County.

We are aware that there is a need for a comprehensive approach that integrates health, housing, employment and education sectors to tackle the root causes of these inequities and institute lasting community changes. Therefore, while focusing our NEOPB strategies on addressing the gaps in nutrition, obesity and physical activity programs for our SNAP-Ed eligible communities, we will leverage partnerships and programs through our County HEAL and CNAP for a collective impact approach to address some of the other areas where inequities exist for our SNAP-Ed eligible residents.

Together with our NEOPB priorities, our Marin County HEAL framework created in 2012 serves as a foundation for our SNAP-Ed interventions and guidance. As described below, the guiding principles, the strategic directions and the implementation teams are aligned with our NEOPB plan and interventions for FFY17-19. The Marin County HEAL guiding principles and strategic directions are as follows:

- Reduce disparities and promote opportunities for all residents
- Focus on changing community conditions
- Bring together partners from various sectors
- Build on community assets

Stakeholders also developed the following strategic directions or community change goals during this planning process:

I. Inspiring communities to engage in active living

- Promote and expand opportunities for free or affordable recreation
- Create safer conditions that promote active living in all communities
- Engage the community in implementation and improvement of healthy community planning / zoning policies.

II. Catalyzing the community to build healthy food systems

- Revitalize the Marin County Food Policy Council to promote healthy food systems and implement HEAL strategies in Marin County
- Decrease marketing of unhealthy foods
- Increase CalFresh participation rate
- Increase access to healthy foods for all residents through the development and promotion of healthy retail establishments, farmers markets and farm stands, CSAs, and community and school gardens

III. Enhancing early childhood, school and afterschool environments to promote healthy eating and active living.

- Develop workplace, healthcare, and child care policies and practices that promote breastfeeding.
- Assess early childhood, school, and afterschool environments to create new or implement existing policies to promote HEAL
- Support school gardens and farm to school programs that teach children about where food comes from
- Utilize early childhood, school, and afterschool environments to develop social support systems to promote HEAL throughout the family lifespan

The Marin County HEAL implementation teams are:

- Active Living Team
- Food Systems: Marin Food Policy Council (CNAP)
- Children and Youth Wellness Collaborative

- The main focus areas for our SNAP-Ed allowable interventions for FFY17-19 are listed below and align with the County HEAL Implementation teams as we continue to form partnerships and leverage partner resources to support our goals. The interventions we selected to focus on in our integrated work plan result from our community wide assessments and the needs identified through this process such as concerns of overweight/obesity rates for both youth and adults, healthy food access and increasing physical activity opportunities. We are combining both direct and indirect nutrition and physical activity education with policy, systems and environmental changes to achieve our goals. Our integrated work plan for FFY17-FFY19 will focus on the following strategies: School wellness: By September 30, 2019, 10 qualifying school and/or early childhood sites will make changes to school policies, physical environment, and institutional capacity to support improved nutrition and physical activity behaviors among 2,000 students, parents, and teachers.
- Healthy Retail: By September 30th, 2019, increase promotion of healthy foods and decrease unhealthy food and beverages in the Canal and Marin City by coordinating environmental changes at 5 retail sites, and providing related nutrition education reaching 150 residents with direct education and over 3,000 with indirect education.
- Structured Physical Activity: By September 30, 2019, 9 community based sites will implement structured physical activity programs and 4 youth sites will make changes to school policies, physical environment, and institutional capacity to support improved physical activity behaviors among 200 students and parents directly through education and 1,500 students/parents indirectly through promotional and PSE activities.
- Nutrition Education: By September 30, 2019, 2,500 residents (students, adults seniors, etc.) will receive direct nutrition education at qualifying sites using pre-approved NEOP curricula and 8,000 residents will receive indirect nutrition education through events, media outreach, and educational materials annually.

6. **Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]**

Our CNAP is comprised through our Countywide Healthy Eating Active Living (HEAL) Initiative. As we have shared previously, our HEAL Initiative was created in 2012 through the participation of a wide range of residents and service providers. The initiative includes three primary implementation teams: the Marin Food Policy Council/Food Systems, the HEAL Active Living Team and the Child and Youth Wellness Collaborative. Of these, the Marin Food Policy Council (MFPC) and the Active Living Team have developed a membership of cross-sector groups, collectively working to reduce health disparities and promote opportunity for healthy eating and active living for all Marin residents. These teams include SNAP-Ed funded (Marin County HHS and Catholic Charities of San Francisco, Marin and San Mateo) and unfunded partners, and form the foundation for planning and coordination for the SNAP-Ed Integrated Work Plan for Marin.

The Marin Food Policy Council is coordinated by a leadership team comprised of the Marin County Nutrition Wellness Program, the University of CA Cooperative Extension, Marin, the San Francisco/Marin Food Bank and the Agricultural Institute of Marin. While the UC Cooperative Extension program in Marin is not SNAP-Ed funded, we partner with them closely on food systems coordination issues. In addition, the Marin Food Policy Council is also comprised of organizations

including, Novato Unified School District Food and Nutrition Services, WIC, CalFresh / Public Assistance Program, the Interfaith Sustainable Food Collaborative, Northbay Conservation Corps, Marin Organic, West Marin Teen Collaborative, Youth Leadership Institute, Zero Waste Marin, and the Marin City Community Services District.

The Marin Food Policy Council meets monthly and serves as an organizing unit to learn about the food environment, innovative programs and collaborations to improve healthy food access and explore policy affecting equitable food access in Marin. This past fall, on Food Day, October 24th 2015, the Marin County Board of Supervisors passed a "Food Day" resolution created by the Marin Food Policy Council. The resolution highlights the importance of equitable, accessible and healthy food for all residents of Marin, strategies to decrease food waste, local and small scale farming and gardening, and utilization of programs such as CalFresh to alleviate healthy food access shortages. Further, it charges MFPC and its partners to reach out to County and other service providers to work together to address some of the gaps in equitable food access and promote best practices. The Council will be reporting on their progress to the Board of Supervisors annually.

The HEAL Active Living Team (ALT) is comprised of local and regional parks participating in the Healthy Parks, Healthy People initiative in Marin, the Marin County Nutrition Wellness Program, Federally Qualified Health Centers, and other organizations serving low-income residents in Marin. Previously, the Active Living Team met monthly with a local community based organization, Lift/Levantate and the Marin City Community Services District, serving in convening roles in the Canal neighborhood and Marin City respectively.

In the Canal, the ALT brought together regional and local parks representatives, the Marin Community Clinics (FQHCs in Canal and Novato) and the San Francisco/Marin Food Bank and created the Health Hub model where SNAP-Ed eligible residents attend a weekly event at FQHCs and have an accessible community resource to receive healthy food (SF/Marin Food Bank), get health screenings (FQHC), get taste tests and rethink your drink demos (SNAP-Ed/NEOPB program) and participate in exercise classes such as Zumba and/or sign up for transportation and weekly events at local Marin Parks (Healthy Parks Healthy People program).

In Marin City, the ALT formed around the newly built public park, Rocky Graham Park. Local and regional parks, the Marin City Health and Wellness Center, the Marin City Community Services District and the Marin County Nutrition Wellness program (NWP) meet monthly and have created weekly park programs. These include weekly hikes and park activities led by the Golden Gate National Recreation Area (GGNRA), weekly Kokoro classes at the park, focused on developing strength and flexibility and Soul Chi (Tai-Chi) a low impact workout for elders and others.

Further, through a collaboration with the Marin City Health and Wellness Clinic, a Park Prescription program (Park Rx) has been developed. This program connects clinic patients with chronic diseases such as overweight/obesity, hypertension, and diabetes with Rocky Graham Park programs and monitors their participation and changes in their chronic conditions. Additionally, nutrition education/rethink your drink classes are provided during park programs through SNAP-Ed funding (NEOPB).

As we reported previously, our Marin HEAL Children and Youth Wellness implementation group encountered challenges with creating a cohesive partnership base to come together and work collectively on mutually agreed upon goals. With Marin Community Foundation's current focus on an early childhood wellness initiative, we will work closely with them to bring together a cross sector of service providers and community organizations serving children and youth to chart out a structure and align goals to support youth and child wellness.

The Marin County Nutrition Wellness Team continues its collaboration with the Healthy Marin Partnership and the HEAL Funders Group, two entities that work alongside LHD staff to realize a healthy and equitable Marin for all. The Healthy Marin Partnership is charged with creating Marin's Community Health Needs Assessment, which provides critical data and serves as a program planning tool for our SNAP-Ed funded program and for other County and service providers. The Healthy Eating Active Living Funders group, convened by Marin Community Foundation, includes the Marin County Department of Health and Human Services, Marin Community Foundation, Kaiser Permanente, First 5 Marin, and the Haas Foundation. This group supports a variety of HEAL initiatives throughout Marin.

Since last year, LHD staff have met with the Marin Community Foundation (MCF) and completed a Countywide assessment to better understand the myriad of HEAL programs currently in place. In summer 2016, we plan to bring stakeholders together to share our findings, assess our progress since the creation of the Marin County HEAL framework and chart out a roadmap for next steps. The goal is to build on our successes so far, address our challenges, create a collective impact approach to leverage resources and avoid duplication and, develop a system for tracking and reporting progress. LIAs will promote SNAP-Ed services and activities by connecting with other agencies, such as County Welfare Departments.

7. **Key Messages.**

X	Food Safety	X	Physical Activity		Fiber-Rich Foods
X	Whole Grains		My Plate-Healthy Eating Plan		Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
X	Fruits & Vegetables	X	Limit Added Sugars or Caloric Sweeteners		Other *(specify):*
	Fats and Oils	X	Food Shopping/ Preparation		Other *(specify)*:
	Lean Meat & Beans				
	Sodium & Potassium				
X	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All curriculum and materials used will be from the approved USDA SNAP-Ed Connection website, and/or **FFY 2016** USDA approved, UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the CDPH Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list. We will pair all of our nutrition education and physical activity interventions with age and content appropriate USDA-approved publications. For example, we will use Children's Power Play SIRK curriculum and supporting publications such as the Kids Get Cooking recipe books in our school based Impact Outcome Evaluation and nutrition education classes of 3-5th grade students.

9. **Intervention and Evaluation Plan Narrative Summary** [Not to exceed 8 pages]

Marin County, both through its natural and material resources, is a place where healthy eating and active living opportunities are easily accessible for most of its residents. As evidenced by its recent ranking as the healthiest County in California for the 7th consecutive year in a row, Marin continues to support the health and wellness of many of its residents. While we are proud of our achievements, our goal is to create a Marin that provides opportunities of healthy eating and active living for ALL its residents, particularly its most vulnerable SNAP-Ed eligible residents who do not enjoy the same chance for a healthy lifestyle or health outcomes. As such, our 2012 Marin HEAL strategic process and the roadmap that resulted guide our interventions and partnerships to address the disparities that exist between SNAP-Ed eligible communities and their neighbors.

For FFY17-19, our objectives will focus on School Wellness, Structured Physical Activity, Healthy Retail and Nutrition Education. This direction has been informed by our progress, current data and the partnerships we have formed. For the past three years, we have been employing a variety of strategies to make the healthy choice the easy choice for our SNAP-Ed eligible community. Combining various elements of the social ecological model (SEM), our programs and partnerships were developed to support behavior changes through direct and indirect education, and community and environmental changes through interventions at retail, community, and school sites.

Our evaluation combines several methods. It includes: documenting reach through the ATF; assessing healthy retail interventions and physical activity programs through process evaluation, NEOPB approved survey tools and CX3 assessments; evaluating School Wellness interventions through the RE-AIM School Wellness Policies tool; and evaluating our overall progress through CX3 Assessments.

We are strengthening our partnerships with the Marin County Office of Education, Marin County School Districts and the Marin Community Foundation for increased programs and interventions at early childhood sites, schools and afterschool programs (See Local Objective 1 below). These interventions combine policy, systems and environmental changes with direct/indirect nutrition education programs. We will be working collaboratively with our partners and leveraging Marin County HEAL resources to support programs ranging from establishing school gardens to implementing school wellness policies and creating

farm to school opportunities for healthier school cafeterias. We will document our reach through the ATF. PSE changes will be documented through RE-AIM: School Wellness Policy reports.

To increase physical activity opportunities for our focus community, we will partner closely with local and regional parks and community partners such as Safe Routes to School, our County Probation office, FQHCs, the Marin County Office of Education and other County School Districts and local YMCAs (See Local Objective 2 below). Through these partnerships, we will expand physical activity opportunities for our SNAP-Ed eligible communities by creating accessible, safe and culturally appropriate programs. We will document reach through the ATF and evaluate the programs by documenting increase in park utilization, increase in number of sites where programs are offered for SNAP-Ed eligible communities, changes in participation and outcome measures for Park Rx participants and through RE-AIM: School Wellness Policy reports to document school policy changes that support physical activity.

Our Healthy Retail intervention is focused in the Canal and Marin City and builds on our progress so far (See Local Objective 3). In the Canal which is a food swamp, our intervention is mainly working with 5 corner and grocery stores that failed to achieve a passing score on our CX3 assessments. Our interventions focus on in store product placement changes and nutrition education opportunities. In addition, we encourage PSE changes such as qualifying for EBT and WIC retailer licenses to support choice, affordability and accessibility for our SNAP-Ed clients.

In Marin City, a food desert, our intervention centers on establishing a healthy and affordable retail outlet. As such, we have been building the business case, creating targeted partnerships with funding agencies and nurturing widespread community appeal and support to accomplish this goal. We will document our progress through CX3 assessments, process evaluation, NEOPB approved community surveys and the ATF.

We continue to grow our partnerships to increase our nutrition education presence in SNAP-Ed eligible communities and create a constant messaging mechanism where healthy eating and active living opportunities are as widespread as possible. Nutrition education is provided at schools, afterschool and early childhood sites, parks, FQHCs, Churches, community and school gardens, senior and rec centers, and retail spaces. As a central component of the SEM model, this direct/indirect nutrition education approach of individual and interpersonal behavior change will be a main component of our objectives for FFY17-19 (See Objective 4 below). We will document our reach through the Activity Tracking Form (ATF).

Finally, to sustain and build on our efforts so far, we have been aligning our work through our CNAP, and other HEAL funding groups in Marin. This effort seeks to create a collective approach to avoid duplication and allow mutually beneficial partnerships to develop. Through our CNAP, cross-sector partnerships between SNAP-Ed funded and unfunded partners have flourished. Our partners include the Marin County Nutrition Wellness Program, UC Cooperative Extension, Catholic Charities of San Francisco, Marin and San Mateo, WIC, CalFresh, Marin County Board of Supervisor representatives, local farmers, the San Francisco/Marin Food Bank, Agricultural Institute of Marin, Youth Leadership Institute, Zero Waste Marin, Marin Breastfeeding Coalition, the Interfaith Sustainable Collaborative and other community groups. This past October 24th on Food Day, the Marin County Board of Supervisors (BOS) passed a Food Day resolution created by our CNAP. The resolution asserts the BOS' support for equitable, affordable and accessible healthy foods for ALL Marin residents. It also creates a mechanism for partnering

with County Departments to achieve these goals with an annual tracking and reporting process. Therefore, through our CNAP we have begun connecting with our County CalFresh Department to jointly schedule outreach events to increase CalFresh enrollment and nutrition education classes. We are meeting with our County Community Development Agency (CDA) to better understand funding streams and support for Healthy Retail establishments. We are connecting with the County Transportation Agency to find out how we can collaborate with them and our community partner Safe Routes to School to create safe and walkable neighborhoods. Our CNAP will support each of our objectives in FFY17-19 through its partnerships and this process. We will document progress through CNAPs annual reports to the BOS.

Local Objective 1 - School Wellness; In FFY 17-19, our interventions in early childhood, school, afterschool and other sites mainly serving school aged youth will be multi-faceted, and aimed at incorporating various aspects of the social ecological model. To leverage resources and implement HEAL programs, we have been intentional in cultivating relationships with key partners. Some of these include the Marin Community Foundation (MCF), Safe Routes to School, Marin County Probation office, the San Francisco/Marin Food Bank, the Marin County Office of Education, (MCOE) and school districts in San Rafael, Marin City and Novato where most of our Free and Reduced Price Meal (FRPM) qualified schools are located. Our programs will combine direct and indirect education with Policy, Systems and Environmental changes.

Through our relationship with MCOE and County HEAL, we will complete an assessment of 10 low resource schools to find out their readiness to implement HEAL programs and policies in FFY17-19. To ensure adoption and sustainability, we will work closely with schools to select from a variety of HEAL interventions to be implemented at each school. These will include nutrition education, school garden creation or revitalization, physical activity programs such as My School in Motion and Walking School Bus. PSE interventions will include supporting or creating healthy school cafeteria meals, farm to school programs, installing water stations, and healthy food and beverage policy trainings.

We will be working in schools and ECE sites to provide direct nutrition education classes in classrooms, through school gardens, in collaboration with PE coaches, at afterschool and rec. centers serving school aged children. We will provide train the trainer classes for teachers, and connect with parents through parent groups such as Charla Cafes to provide nutrition education. In addition, we will provide indirect nutrition education through distribution of NEOPB approved print material and posters, and special school events such as Back to School Day to reach families. We will document our reach through ATF.

In Marin, the Novato and Sausalito Marin City School Districts (SMCSD) have been leaders in providing students healthy meals at school. In both these school districts, locally prepared, healthy meals, with fresh fruit and vegetables as integral components of each meal, are provided. In the case of SMCSD, the food is also organic and locally sourced. Since a majority of our FRPM eligible schools are in the San Rafael School District (SRSD), we are currently working with SRSD to adopt a Farm to School model and locally produce food to be prepared and served in their schools and serve as a resource to other school districts. We met with the San Rafael School District to put in place the farm to school model. They will be providing land adjacent to one of their middle schools, Hamilton School, to establish a farm that will be certified to provide food for the cafeteria. We will be leveraging County HEAL and MCOE funds to hire local farmers and a

Master Gardener to develop the farm and have it certified for use in schools. We will increase our nutrition education classes to support healthy eating choices for youth attending the SRSD. We will use process evaluation to report on our progress.

Through our current partnership with Bahia Vista Elementary, we found out that they lacked adequate water stations for their students and that they were interested in providing this healthy option for their students. Therefore, we have been in contact with the SRSD to coordinate the installation of water stations at the school leveraging MCOE and County HEAL funds. We will document our progress using process evaluation and the NEOPB approved Assessment of Nutrition and Physical Activity Supports tool.

We will work with schools and ECE sites to boost physical activity opportunities in a variety of ways. In the San Rafael and Novato School Districts, we are closely working with Safe Routes to School to grow the number of low resource schools that participate in the Walking School Bus program. We partner with them and encourage parents to walk with their kids and neighbors, increasing physical activity opportunities and community safety. We use this opportunity to provide NEOPB approved information on healthy breakfast and snack options and the importance of drinking water. In the Sausalito Marin City School District, we met with the Principal of MLK Jr. Academy and we will be working with their Walking School Bus program funded through Marin County Probations Office. We will provide NEOPB approved materials, encourage participation in the school breakfast program and provide rethink your drink demos. Additionally, we will be offering stencil kits to schools to increase physical activity and help recruit more low income resource schools to sign up for the “My School in Motion” program. Both these interventions are designed to increase physical activity opportunities for the entire school. We will document our reach numbers and the increase of schools participating in the programs through the ATF.

Local Objective 2 - Healthy Retail; Our healthy retail interventions resulted from our CX3 assessment findings and community priorities. As such, they were created to fit the local needs of each community. In the Canal, while there are several corner and grocery stores available, only 20% of the stores passed the CX3 neighborhood quality scorecard for markets. Therefore, we have been working with five retail stores, at different intensity levels, ranging from store tours and cooking demos to changes in product placement and healthy checkout lanes. One of our focus stores, Mi Rancho signed on to our Healthy Retail program and worked with us to make major changes in the store, placing healthier items such as fruits, vegetables, and dairy products to the front of the store and placing less healthy items such as breads and pastries to the rear of their shop. A year later, these healthy changes remain. Prior to implementing these interventions we surveyed customers using the Healthy Bodegas survey and we will be conducting a post survey in summer 2016. We conducted store tours and cooking demos at the store, distributed NEOPB approved cookbooks, recipe ideas, and CalFresh enrollment information. In addition, we encouraged Mi Rancho to apply to become a SNAP-Ed/EBT retailer which they did this past summer. We are excited that this past October they became qualified as a SNAP-Ed/EBT retailer, increasing accessibility and choice to our SNAP-Ed community. Currently, they are working to become a WIC eligible store. We also worked with 4 other stores, providing them NEOPB approved materials to distribute to their clients, conducting store tours with store managers and encouraging them to sign on to the Healthy Retail program. In FFY17-19, we will continue to work with the 5 retail sites in the Canal to maintain current changes that support healthy behavior and increase our intervention by supporting healthy checkout lanes, product placement changes, store tours and cooking demos. In addition, our signature event,

the Annual Canal Fruit and Veggie Fest, is a popular community event that brings together over 500 community members and service providers, where healthy eating and active living opportunities are highlighted. All 5 of the markets we work with participate in this yearly community "picnic," where they have the opportunity to connect with their clients as a community asset. We will evaluate our progress through CX3 assessments, the Healthy Bodegas Survey, and our reach and new partnerships through the ATF.

In Marin City which is a food desert, our efforts have focused on establishing a grocery store. Through our efforts, a Marin City CX3 Healthy Food Coalition was formed to serve as a community engagement tool and to share progress and challenges with the community. In addition, with the support of County HEAL funds, a market feasibility study was completed that demonstrated the profitability of establishing a grocery store. We have also received a good faith letter from the owners of the Shopping Center where we plan for the grocery store to be established. We have been intentional about forming partnerships with organizations that can advance our goal. Partnerships with entities such as the San Francisco Federal Reserve Bank (SFFRB) and the California Endowment have been established. In April, 2016, the SFFRB will be convening a Funder's meeting on our behalf to highlight our efforts in support of establishing a healthy food retail outlet.

In conjunction to this effort, we will work to increase healthy food options through the development of a children's garden and farm stands at Faith-based institutions. We developed a summer container garden program last year to augment the nutrition education opportunities for Marin City youth attending the summer rec. program and our Marin City CX3 nutrition education classes. The program was a great success with over 150 youth attending the gardening program and many more wanting to join. The Marin City Community Services District (CSD) has received partial funding from the Marin County Community Development Agency (and is currently seeking more funds) to build a greenhouse and expand the garden instruction year-round.

Finally, through a partnership with our Body and Soul Program, the Marin City Community Services District, the Interfaith Sustainable Food Collaborative (ISFC) and local farmers, we are exploring establishing a Farm Stand program at local Marin City Churches. We will be evaluating our progress through CX3 assessments, process evaluation and the ATF.

Local Objective 3 - Structured Physical Activity; We are employing several methods to increase safe and accessible physical activity spaces for our SNAP-Ed eligible communities in FFY17-19. We will work closely with local and regional parks through their Healthy Parks Healthy People programs and through locally developed programs created to fit the needs of each community. Catholic Charities will work with a local community center based in the Canal neighborhood to provide elementary aged youth physical activity programs during the summer months. Our partners include FQHCs, schools, local and regional parks, Marin County Office of Education, faith based institutions and other community based organizations such as the YMCA.

To reach our SNAP-Ed eligible community in the Canal and Novato, we have formed partnerships with local and regional parks, Marin County Clinics (FQHCs), the San Francisco/Marin Food Bank and other local service providers and implement a weekly Health Hub event at the FQHCs in the Canal and Novato. Through this model, the FQHCs host a weekly event in the parking lot of the clinic where service providers connect with their focus SNAP-Ed community and provide them

healthy eating and active living opportunities. The San Francisco/Marin Food Bank is present to provide healthy food, local and regional parks representatives recruit clients to attend future park events, and the Marin County Nutrition Wellness Program (NEOPB) provides food and rethink your drink demos with physical activity classes and distributes NEOPB approved materials. Through this coordinated weekly event, parks representatives recruit participants to attend Healthy Parks Healthy People events at parks located throughout the County. The Parks Department provides transportation during the day of event, recruits a community advocate that can deliver a physical activity program in a culturally relevant manner (for e.g. ability to deliver class in Spanish), and we partner with them to provide rethink your drink/cooking demos to highlight the importance of healthy eating and physical activity. We will document our reach and partnerships through ATF.

In Marin City, the recently built Rocky Graham Park has allowed the creation of a variety of physical activity programs and partnerships. Our partners include the Marin City Community Services District (CSD), local and regional parks, MLK Jr. Academy and the Marin City Health and Wellness Clinic (FQHC). As a result of these partnerships, weekly and monthly park events are being offered at Rocky Graham Park and Golden Gate National Recreation Area (GGNRA) in Marin City. These include weekly Kokoro Healing and Empowerment exercises and a variety of physical activity opportunities offered through the CSD and GGNRA respectively; Healthy Parks Healthy People first Saturday hikes led by the Golden Gate National Parks Conservancy (GGNPC); weekly Marin City Explorers program for 6-8th MLK Jr. Academy students led by GGNPC where students explore the outdoors both in Marin City and at parks countywide; and Marin County Nutrition Wellness Program's nutrition education/rethink your drink demos and NEOPB approved material distribution. In addition, the CSD is planning to add a weekly Soul Chi (Tai Chi) program led by a local community elder to provide local seniors a safe and accessible physical activity program.

In conjunction with these programs, we are working with the local FQHC and have developed a Parks Prescription (Park RX) program. The program selects clinic clients with chronic conditions, such as overweight/obese, diabetes and hypertension and signs them up to attend some of the physical activity programs offered through Rocky Graham Park. A health educator monitors their participation and the impact of the programs on their overall health and will share findings with partners. As we have reported previously, we convene partner meetings in Marin City to monitor program progress, address challenges and continue growing and expanding the programs to better serve our SNAP-Ed clients. We will continue to convene these meetings.

Further, the CSD's senior center has formed a partnership with the Marin County YMCA and is currently recruiting elders for a weekly water aerobics program. This will include nutrition education/rethink your drink classes through our NEOPB program. We will document our reach and development of new programs and partnerships through ATF, process evaluation and through Park Rx findings of the clinic.

Local Objective 4 - Nutrition Education; Nutrition education is an integral component of all our interventions. We utilize both direct and indirect nutrition education tools to make the healthy choice the easy choice for our SNAP-Ed eligible community. Further, we have been forming partnerships to improve food security and accessibility to healthy foods to our SNAP-Ed clients. To grow our reach and provide both direct and indirect nutrition education within our focus community, we will work closely with the Marin Food Policy Council (CNAP), the WIC and CalFresh Departments, schools, early childhood centers and after-

school programs, grocery and corner stores, community and faith based organizations, parks and any other areas where our SNAP-Ed eligible community plays, works and lives. Signature annual events such as our Canal neighborhood Fruit and Veggie Fest and the Marin City MLK Jr. Celebration day will highlight our HEAL initiatives.

To increase food security and accessibility, we have been working closely with the Marin Food Policy Council (CNAP). The Council was able to pass a Food Day resolution which created a coordinated approach to connect us with a variety of County Departments and work together to address healthy food access and equity throughout Marin. Through this partnership, we have met with our CalFresh Department and the San Francisco/Marin Food Bank to coordinate our outreach and increase CalFresh enrollment rates and nutrition education opportunities. We will be coordinating our outreach so that we can create a “one stop shop” opportunity where SNAP-Ed clients can participate in nutrition education classes as well as enroll in CalFresh.

Our Health Hub model is another partnership aimed at supporting food security and access to healthy foods. This is a partnership with Marin Community Clinics in the Canal and Novato neighborhoods, the San Francisco/Marin Food Bank, local and regional Parks and the Marin County Nutrition Wellness Program (NEOPB). This model allows us to provide our SNAP-Ed clients coordinated healthy food access, nutrition education and physical activity opportunities in a venue accessible to them. We will continue to participate in these weekly events to provide nutrition education and physical activity classes. To increase access to healthy foods to our Marin City Community, we will be exploring expansion of the Health Hub model at the Marin City Health and Wellness Clinic and other venues.

In Marin City, our Body and Soul program will be working with 4 churches to implement nutrition education classes and support the adoption of healthier food options during church events. We will be working with church representatives to train them on our NEOPB approved curricula in a “Train the Trainer” model where they will be conducting nutrition education classes within their congregations. We will work with them to begin adding healthy options at church events and to eventually replace their food offerings with healthy foods and beverages. Another collaboration is with the Interfaith Sustainable Food Collaborative and the Marin City Community Services District to implement a Farm Stand at each church.

We are strengthening our partnership with the WIC department providing weekly nutrition education classes for SNAP-Ed clients. We include store tours and focused nutrition education lessons on eating healthy on a budget and quick and easy healthy recipes. To reach a larger audience, we have formed partnerships with local radio programs such as Cuerpo Corazon in the Canal and national media outlets such as Univision, where we appear quarterly to share information about our SNAP-Ed program. We will evaluate our progress through ATF reporting and process evaluation.

In addition, Catholic Charities will continue to conduct nutrition education and obesity prevention services at SNAP-Ed eligible sites in the Canal neighborhood. The intervention plan includes activities that provide comprehensive education on proper nutrition and physical activity. Approaches, which when used in combination provide high strength intervention strategies, with implementation of nutrition education and physical activity (PA) focused direct delivery, staff training and coordinated implementation strategies for direct care and education providers.

Marin County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Building upon relationships with community centers already existing within the county, Catholic Charities will continue to provide direct nutrition and physical activity education. Focus will be placed on selecting healthy foods and beverages; increasing knowledge of MyPlate recommendations and exposure to, and acceptance of, new healthy foods. Cooking Matters will be used in planning cooking classes. Catholic Charities is planning to support a community garden and is reviewing the *Learn, Grow, Eat, and Go* curriculum to guide the planning and nutrition education component. They will continue to administer surveys twice during the summer to track both the nutritional and PA knowledge and habits of the students who participate

SECTION B: Target Audience Description

1. Gender	%		2. Age	#
Male	40		0 to 4 years old (Preschool):	500

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**
a) By September 30, 2019, 10 qualifying school and/or early childhood sites will make changes to school policies, physical environment, and institutional capacity to support improved nutrition and physical activity behaviors among 2,000 students, parents, and teachers.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

School Environment Changes:

- **Physical Activity**
  - **Structure Physical Activity**
  - **Murals/Stencils**
  - **Safe Routes to School**
- **Healthy Eating**
  - **Edible Gardens**
  - **Harvest of the Month**
- **Local procurement/Farm to School Wellness Policies**

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a) By September 30, 2017, 10 low-resource elementary school/ECE sites, and 16 trained partners will reach 2,000 elementary/PreK students with direct education, 50 parents with direct education, and 2,000 parents with indirect education.
   b) By September 30, 2017, 2 of the 10 low-resource elementary schools/ECE sites will improve environments by establishing or reinvigorating school gardens.
   c) By September 30, 2017, 2 of the 10 low-resource elementary schools/ECE sites will implement a new structured PA program such as CATCH/My School In Motion/PreSchool Stencil Kit
   d) By September 30, 2017, 2 out of 10 low-resource elementary schools/ECE sites will make nutrition and physical activity related policy, systems, and environmental changes.
   e) By September 30, 2017, 1 out of 10 low-resource elementary schools/ECE sites will have “train the trainer” nutrition and beverage education programs in place with students trained as peer educators

2. **FFY 2018 (Year 2) Objective(s):**
   a) By September 30, 2018, 10 low-resource elementary school/ECE sites, and 16 trained partners will reach 2,000 elementary/PreK students with direct education, 50 parents with direct education, and 2,000 parents with indirect education.
   b) By September 30, 2018, 4 of the 10 low-resource elementary schools/ECE sites will improve environments by establishing or reinvigorating school gardens.
   c) By September 30, 2018, 4 of the 10 low-resource elementary schools/ECE sites will implement a new structured PA program such as CATCH/My School In Motion/PreSchool Stencil Kit
   d) By September 30, 2017, 4 out of 10 low-resource elementary schools/ECE sites will make nutrition and physical activity related policy systems and environmental changes.
   e) By September 30, 2017, 4 out of 10 low-resource elementary schools/ECE sites will have “train the trainer” nutrition and beverage education programs in place with students trained as peer educators

3. **FFY 2019 (Year 3) Objective(s):**
   a) By September 30, 2019, 10 low-resource elementary school/ECE sites, and 20 trained partners will reach 2,000 elementary/PreK students with direct education, 50 parents with direct education, and 2,000 parents with indirect education.
   b) By September 30, 2019, 6 of the 10 low-resource elementary schools/ECE sites will improve environments by establishing or reinvigorating school gardens.

c) By September 30, 2019, 6 of the 10 low-resource elementary schools/ECE sites will implement a new structured PA program such as CATCH/My School In Motion/PreSchool Stencil Kit
d) By September 30, 2017, 6 out of 10 low-resource elementary schools/ECE sites will make nutrition and physical activity related policy systems and environmental changes.
e) By September 30, 2017, 6 out of 10 low-resource elementary schools/ECE sites will have "train the trainer" nutrition and beverage education programs in place with students trained as peer educators

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019): By September 30, 2019, 10 qualifying school and/or early childhood sites will make changes to school policies, physical environment, and institutional capacity to support improved nutrition and physical activity behaviors among students, parents, and teacher reaching over 2,000 students and families.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Establish partnerships with San Rafael, Novato and Sausalito /Marin City Unified School Districts, Marin County Office of Education (MCOE), Marin Child Care Council (MC3), Head Start, WIC, First 5, and other afterschool/community partners serving PreK elementary school-aged children and their families. Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**
By September 30th, 2019, increase promotion of healthy foods and decrease unhealthy food and beverages in the Canal and Marin City by coordinating environmental changes at 5 retail sites, and providing related nutrition education reaching 150 residents with direct education and over 3,000 with indirect education.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Healthy Retail

- healthy food and beverage policies/ stocking standards
- purchased/donated food policies
- healthy in-store marketing and promotions
- store exterior improvements

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017 conduct post CX3 assessment of the retail environment in 2 (Canal and Marin City) SNAP-Ed qualifying neighborhoods.
    b. By September 30, 2017, provide healthy food and beverage merchandising materials, bi-annual taste testing of healthy food/beverage recipes, and provide 2 owner/retail staff education opportunities to at least 2 retail stores and provide support for one Fruit and Veggie Fest marketing event in at least one qualifying retail location to reach 1,000 residents.

a. By Sept 30, 2017, an additional 2 stores will increase access and/or promotion of healthy foods and beverages and reduce the access and/or promotion of unhealthy foods and beverages.
c. By September 30, 2017, provide food resource management education and support to address equitable access to food in Marin City and Canal at a minimum of 2 community sites at (FQHC's, Senior Centers, Parks/Rec, faith-based, WIC, etc.) and promote access to healthy fruits, vegetables and beverages through healthy retail, emergency food, the Marin County Resource Guide, community gardening, farmers markets, and mobile vending/farm stand opportunities.
d. By September 30, 2017, establish relationships with 1 food distribution partners in hopes of securing new food distribution sites for older adults and families at a community based site (i.e. elementary schools/ECE site, community clinics, senior centers or public housing facilities) and/or food recovery systems established.
e. By September 30, 2017, 50 adults will receive a series of 3 SNAP-Ed nutrition education classes at a minimum of 2 community based sites (i.e senior centers, public housing facilities, community clinics, and/faith-based) where residents that lack equitable access to healthy foods.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, provide healthy food and beverage merchandising materials; bi-annual taste testing of healthy food/beverage recipes, and provide 4 owner/retail staff education opportunities to an additional 2 stores for a total 4 retail stores; and provide support for one Fruit and Veggie Fest marketing event in at least one qualifying retail location to reach 1,000 residents.
   b. By Sept 30, 2018, an additional 2 stores for a total of 4 retail stores will increase access and/or promotion of healthy foods and beverages and reduce the access and/or promotion of unhealthy foods and beverages.
   c. By September 30, 2018, provide food resource management education and support to address equitable access to food in Marin City and Canal at a minimum of 2 community sites at (FQHC's, Senior Centers, Parks/Rec, faith-based, WIC, etc.) and promote access to healthy fruits, vegetables and beverages through healthy retail, emergency food, the Marin County Resource Guide, community gardening, farmers markets, and mobile vending/farm stand opportunities.
   d. By September 30, 2018, establish relationships with 1 food distribution partners in hopes of securing new food distribution sites for older adults and families at a community based site (i.e. elementary schools/ECE site, community clinics, senior centers or public housing facilities) and/or 1 food recovery systems established.
   e. By September 30, 2018, 50 adults will receive a series of 3 SNAP-Ed nutrition education classes at a minimum of 2 community based sites (i.e senior centers, public housing facilities, community clinics, and/faith-based) where residents that lack equitable access to healthy foods.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, provide healthy food and beverage merchandising materials, bi-annual taste testing of healthy food/beverage recipes, and provide 2 owner/retail staff education opportunities to at least 2 retail stores and provide support for one Fruit and Veggie Fest marketing event in at least one qualifying retail location to reach 1,000 residents.
   b. By Sept 30, 2019, an additional 1 store for a total of 5 retail stores will increase access and/or promotion of healthy foods and beverages and reduce the access and/or promotion of unhealthy foods and beverages.
   c. By September 30, 2019, provide food resource management education to address equitable access to food in Marin City and Canal at a minimum of 2 community sites at (FQHC's, Senior Centers, Parks/Rec, faith-based, etc.) and promote access to healthy fruits, vegetables and beverages through healthy retail, emergency food, the Marin County Resource Guide, community gardening, farmers markets, and mobile vending/farm stand opportunities.
   d. By September 30, 2019, establish relationships with 1 food distribution partners in hopes of securing new food distribution sites for older adults and families at a community based site (i.e. elementary schools/ECE site, community clinics, senior centers or public housing facilities) and/or 1 food recovery systems established.
   e. By September 30, 2019, 50 adults will receive a series of 3 SNAP-Ed nutrition education classes at a minimum of 2 community based sites (i.e senior centers, public housing facilities, community clinics, and/faith-based) where residents that lack equitable access to healthy foods.

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Establish and maintain contacts with community partners, food bank/pantries and food recovery services, neighborhood coalitions, residents and retail representatives from up to 2 select SNAP-Ed qualifying neighborhoods (Marin City and Canal).	CED CEI MPR X C&C TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 X X X X Year 2 Q1 Q2 Q3 Q4	On File: Copy of meeting agendas and minutes Submit: list of contacts

					Year 3 Q1 Q2 Q3 Q4 |				
2.2	Provide education and technical assistance sessions to 2 community partners and residents to teach skills needed to conduct retail assessments, with a "train the train" model, that engages and trains youth and community members as peer educators to lead assessments	X CED CEI MPR X C&C X TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 X X Year 2 Q1 Q2 Q3 Q4 X X Year 3 Q1 Q2 Q3 Q4 X X	On File: Sign-In sheets, Training documents
2.3	Conduct post CX3 retail assessments at grocery stores, independent/corner stores, and food banks/pantries in the select SNAP-Ed qualifying areas (up to 2) that cater to eligible families. Assessments will be led by trained youth and community peer educators	CED CEI MPR X C&C TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC: :	Year 1 Q1 Q2 Q3 Q4 X X X Year 2 Q1 Q2 Q3 Q4 X X Year 3 Q1 Q2 Q3 Q4	On File: Retail Assessments Submit: Neighborhood boundaries surveyed

2.4	Provide technical assistance to youth leaders and community partners to review assessments and summarize findings. As relevant, incorporate findings from Healthy Stores Healthy Communities survey data. Continue to work with the identified retail partners within the qualifying neighborhoods to approach then develop, and implement Healthy Retail changes. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**
By September 30, 2019, 9 community based sites will implement structured physical activity programs and 4 youth sites will make changes to school policies, physical environment, and institutional capacity to support improved physical activity behaviors among 200 students and parents directly through education and 1,500 students/parents indirectly through promotional and PSE activities annually FFY2017-2019.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
	Goal 4: Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Physical Activity/ Structured PA

- Structure Physical Activity
- Murals/Stencils
- Safe Routes to School
- Parks Prescription

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, 3 community champions will be trained to coordinate structured physical activity at schools, clinics, faith-based and community organizations to reach 200 students and 100 adults.
    b. By September 30, 2017, 3 low-resource elementary schools/ECE sites or community-based organization will adopt a policy, system, and environment changes for physical activity integration. Sites may include federally qualified health centers, school, early childhood education sites, faith-based organizations, reaching at least 1500 residents.
    c. By September 30, 2017 500 residents will be engaged in Healthy Parks Healthy People and/or parks prescription program events.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, 6 community champions will be trained to coordinate structured physical activity integration at schools, clinics, faith-based and community organizations to reach 200 students and 100 adults.
   b. By September 30, 2018, 6 low-resource elementary schools/ECE sites or community-based organization will adopt a policy, system, and environment changes for physical activity integration. Sites may include federally qualified health centers, school, early childhood education sites, faith-based organizations, reaching at least 3000 residents.
   c. By September 30, 2018, 1000 residents will be engaged in Healthy Parks Healthy People and/or parks prescription program events.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2018, 9 community champions will be trained to coordinate structured physical activity at schools, clinics, faith-based and community organizations to reach 200 students and 100 adults.
   b. By September 30, 2019, 9 low-resource elementary schools/ECE sites or community-based organization will adopt a policy, system, and environment changes for physical activity integration. Sites may include federally qualified health centers, school, early childhood education sites, faith-based organizations, reaching at least 4500 residents.
   c. By September 30, 2019, 1500 residents will be engaged in Healthy Parks Healthy People and/or parks prescription program events.
   d. By September 30, 2019, 1,000 residents will be reached indirectly with healthy beverage education in conjunction with structured PA.

Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)

Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):**
By September 30, 2019, 2,500 residents (students, adults seniors, etc.) will receive direct nutrition education at qualifying sites using pre-approved NEOP curricula and 8,000residents will receive indirect nutrition education through events, media outreach, and educational materials annually.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
	Goal 4: Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Structure Physical Activity
  - CATCH
  - Shape of Yoga
- Healthy Eating Healthy Eating
  - Harvest of the Month
  - Community Toolbox
  - Body & Soul

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 30, 2017 1,500 residents will be engaged in indirect education through physical activity events through Healthy Parks Healthy People and/or parks prescription program events and 450 students will be engaged in direct education at schools and ECE sites.
   b. By September 30, 2017 2,000 children and parents will be engaged in direct education through schools/ECE sites.
   c. By September 30, 2017 50 residents will be engaged in direct education through healthy retail activities and 1,000 will be engaged in indirect education through healthy retail promotions.

d. By September 30, 2017, reach 5,000 residents through media and community events such as Fruit and Veggie Fest & Bi-National Health Month

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, 3,000 residents will be engaged in indirect education through physical activity events through Healthy Parks Healthy People, parks prescription program and/or school/community events and 450 students will be engaged in direct education at schools and ECE sites.
   b. By September 30, 2018, 2,000 children and parents will be engaged in direct education through schools/ECE sites
   c. By September 30, 2018, 50 residents will be engaged in direct education through retail activities and 1,000 indirect education activities.
   d. By September 30, 2018, reach 5,000 residents through media and community events such as Fruit and Veggie Fest & Bi-National Health Month
3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, 4,500 residents will be engaged in indirect education through physical activity events through Healthy Parks parks prescription program, and/or school/community events and 450 students will be engaged in direct education at schools and ECE sites.
   b. By September 30, 2019, 2,000 children and parents will be engaged in direct education through school/ECE sites.
   c. By September 30, 2019, 50 residents will receive direct education on healthy retail including taste tests and food demonstrations and 1,000 will be engaged in indirect education through healthy retail promotions.
   d. By September 30, 2018, reach 5,000 residents through media and community events such as Fruit and Veggie Fest & Bi-National Health Month

Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
4.1	Provide culturally appropriate single session direct education at 5 retail partners and/or 3 food distribution sites (i.e senior centers, public housing, community clinics) reaching a total of 150 residents. 50 in Year 1, 50 in Year 2 and 50 in Year 3 (Same as	X CED CEI MPR C&C TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X	Sign in sheets; flyers/promotional materials used

	Activity 2.6).				Year 3 Q1 X, Q2 X, Q3 X, Q4 X	
4.2	Provide indirect education on healthy beverage consumption in conjunction with structured PA opportunities to 1000 SNAP-Ed eligible residents. To include participation in monthly Healthy People Healthy Parks/park prescription physical activity events.	X CEI X C&C	X LHD	CWD: LHD: AAA: UCCE: CCC:	Year 1 Q1 X, Q2 X, Q3 X, Q4 X Year 2 Q1 X, Q2 X, Q3 X, Q4 X Year 3 Q1 X, Q2 X, Q3 X, Q4 X	Materials distributed-ATF
4.3	Provide indirect education through healthy marketing materials, which may include NEOPB Retail, Rethink Your Drink, and Harvest of the Month signage, posters, newsletters, and NEOPB recipe cards to community partners. Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Mariposa County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

***County Name:* Mariposa**

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency (counterpart local agency) Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
x	California Department of Public Health: CDPH: (Local Health Department: LHD)
	California Department of Aging: CDA: (Area Agency on Aging: AAA)
	Catholic Charities of California: CCC: (Catholic Charities of California: CCC)

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Mariposa County is located on the western slope of the Sierra Nevada Mountains of California, approximately 37 miles northeast of the city of Merced. As of 2010 the population of the county was 18,250, with no incorporated cities and the distinction of having no permanent stoplights. While geographically large at approximately 1, 463 square miles, this is a rural and sparsely populated county. Nearly half the area of Mariposa County is publicly owned and occupied by Yosemite National Park, the Bureau of Land Management and the Sierra and Stanislaus National Forest. The County is governed by a five-member Board of Supervisors elected by district on a non-partisan basis. The county seat and population center is the town of Mariposa. A number of other communities exist in the unincorporated areas including Coulterville, Greeley Hill, Lake Don Pedro, El Portal, Midpines, Cathey's Valley and Ponderosa Basin. The communities are widely spread apart and travel for daily living items generally involves significant travel. A regional public transportation system, which operates 7 days a week, originates in Merced and terminates in Yosemite National Park. The county operated public transportation operates in limited areas Monday through Fridays.

According to census data from 2010, the race/ethnicity make up of Mariposa County is primarily white at 83.2%. The Hispanic population is 9.2%, American/Native American is 2.9%, Asian is 1.1%, and Black is 0.80%. The primary language spoken is English. The county population is gradually aging; in 2010, the percentage of persons age 65 years and was 20.9%; the 2014 estimate is 24.7%. In 2010, persons under 18 years and under was 17.8%, while the 2014 estimate is 16.7%.

The 2105 SNAP-Ed county profile indicates that 5,692 individuals are eligible for SNAP-Ed (31.2% of the total population. The SNAP-Ed eligible participants are 78.3% White, 14.2% Hispanic, and 7.4% other race/ethnicities. The largest group is comprise of pre-school children <6 years old at 51.1% children, followed school age children 6-17 years old (34.6%), adults 18-64 years old (31.3%) and seniors (27.7%). Interestingly only 2,127 of the eligible individuals in the county choose to participate in the CalFresh program.

According to Mariposa County's 2105 SNAP-Ed profile, the population federal poverty level is 16.1%. There are 6 census tracts in Mariposa County with low income areas found throughout, yet none of the 6 tracts are identified SNAP-Ed eligible locations. The overall food insecurity rate is 16.6%, and 27.9% for children. There is one school district with 15 schools, 7 of the schools (46.7%) are SNAP-Ed eligible and 972 students are eligible for Free/Reduced Price Meals (FRPM). There are a limited number of means-tested sites eligible for SNAP-Ed services, including 5 emergency feeding sites, 1 food pantry, 2 soup kitchens, 1 WIC office site, 1 Head Start site, and 1 low-income family resource center. Three of Mariposa County Unified School district's K-8 elementary schools have the largest number of SNAP-Ed eligible residents. The total enrollment at these schools is 977, and eligibility for FRPM meals ranges from 52.3% to 67.5% percent of students according to the 2014-15 CDE FRPM data.

While Mariposa County specific statistics are not available, the SNAP-Ed Profile shows that combined data for Mono, Alpine, Amador, Calaveras, Inyo, Mariposa, and Tuolumne Counties indicates 61.3% of SNAP-Ed eligible adults are overweight or obese, and 36.5% are obese. This can be compared to statewide rates of 67.3% and 31.5% respectively. The prevalence of overweight/obese children ages 2-11 is 14.6% according to the profile. Data for Mariposa County youth from the Lucille Packard Foundation at kidsdata.org shows 29.1% of students in grades 5, 7, and 9 are overweight or obese. Additional the Mariposa Unified School District school report card indicates on average, only 15% of the 5th grade students met 4 of the 6 standards for fitness.

The food environment in the county is fair. Due to the sparse population and rural nature of the county, there are few franchised operations. For example, only two fast food chain outlets exist and the two grocery stores serving residents are independent local-owned businesses. Both grocery stores do accept CalFresh EBT cards. Many residents travel long distances to purchase food items at large supermarkets in neighboring counties in attempts to stretch their food dollars. Residents experience limited access to quality fresh, affordable fruits and vegetables.

4. **Community Assessment**

The annual county health rankings published by the Robert Wood Johnson Foundation ranks Mariposa County 31st of the state's 57 counties. Data indicates improvements are needed in several areas, including adult obesity rates and physical activity levels. While the county offers numerous opportunities for outdoor recreation, because of the rural nature only 55% have access to exercise opportunities. Economic factors affecting residents is a high level of unemployment at 9.2% and this trend is expected to continue. Limited employment opportunities are available, and those that do exist are often at or near minimum wage. Children are most at risk as illustrated by the 26% of children living in poverty, compared to 24% statewide and the food insecurity rates of 27.9% as mentioned above.

Neither a community wide health assessment report nor a CX3 assessment have been conducted in Mariposa County. The Healthy Stores for a Healthy Community Survey of 2013 provides limited information on the retail environment. Residents of the county are for the most part widely dispersed and travel long distances to purchase food, either at the two independent stores or to retailers outside the county. Convenience stores at the few gas stations scattered throughout the more remote areas of the county offer little in the way of fresh foods and those available are often high in price.

This FFY 2017-19 Integrated Work Plan has been developed using information in the jurisdiction section, available data sources and input from both county government and community organization partners. Currently there are no Local Implementing Agencies providing SNAP-Ed interventions in the county. Conversations have taken place with potential site partners in an attempt to assess need and determine sites that will allow us to reach the same SNAP-Ed

eligible families in multiple settings. The Local Health Department will need to work on building relationships with these community partners such as the CalFresh office, emergency food distribution sites, food pantries, and the public school district.

5. **Community Change Goals**

Nutrition and obesity issues are the priority areas of the Mariposa County SNAP-Ed program. As such, the promotion of healthy eating choices and increased awareness of physical activity opportunities are the overall goals for community change. An additional long-term goal is to reduce the proportion of residents who experience food insecurity, increase knowledge of food resource management, and increase a healthy weight among residents of all ages.

Due to the lack of specific data on healthy food choices, weight, healthy food choices and physical activity behaviors in Mariposa County residents, and without the opportunity or resources to conduct a community wide health assessment, we have focused on available data to support strategies to address the needs of the community in school based settings, and with community organization that support emergency food distribution.

As there are no other LIAs to support the SNAP-Ed program efforts, the Mariposa County Health Department (LHD) will work with several partners to support the community change goals. The LHD will support the local school district, Mariposa County Office of Education, to develop strategies to improve nutrition and physical activity programs and strengthen school wellness policies through nutrition education; assist SNAP-Ed eligible school sites in improvements to the school environments and practices that support nutrition; strengthen physical activity standards for both school and after-school programs; and support opportunities to enhance the physical and built environment around the school sites (e.g. Safe Routes to Schools promotion and events).

The newly formed Mariposa County Health and Wellness Coalition is a group of community partners with a goal of improving overall health and wellness of all residents of Mariposa County, with three priority action areas: active living, healthy eating and prevention. The LHD will partner with the coalition and identify strategic partners from multiple sectors to improve nutrition and physical activity, improve the availability and accessibility of healthy foods and beverages, and ensure opportunities for physical activity.

The LHD will work with community partners to provide evidence based education with a focus on behavior change goals for healthy food choices and food resource management; assist with the development of policies that promote offering of healthy food and physical site changes the emergency food supply environment (e.g. emergency food distribution sites, food pantry, soup kitchens); and work with partners to create potential opportunities to attract new partnerships between local farmers, school food services and food pantries to offer healthier food options. We realize these goals are multi-year strategies

that will require the support of multiple partners and possibly additional funding streams. We hope to achieve these goals through continued development of partnerships within the existing coalition and potential partners in multiple sectors such as the Merced County Food Bank, Area 12 Agency on Aging, Dairy Council, Mariposa Farmers Market, faith-based organizations and the UCCE Mariposa Master Gardeners.

Mariposa County SNAP-Ed LIA will achieve the following three-year objectives:

1. By September 30, 2019, at least two (2) SNAP-Ed eligible schools sites will implement, or make changes to, school wellness policies and the physical environment to support improved nutrition and physical activity behaviors for students, parents and faculty.

2. By September 30, 2019, at least 1 food pantry and 2 emergency food distribution sites will increase access to and promotion of healthy foods and beverages choices for SNAP-Ed eligible individuals through the establishment of adopted and implemented policies and/or physical site changes.

3. By September 30, 2019, participate quarterly in a multi-sector coalition (CNAP or similar) aimed at increasing consumption of healthy foods and beverages and access to low/no-cost physical activity opportunities for SNAP-Ed eligible individuals; and reach at least 400 SNAP-Ed eligible individuals with direct education and 2,500 individuals with indirect education nutrition to increase consumption of healthy foods and beverages and physical activity behaviors.

These objectives allow us to focus on initiation of community change goals, within the parameters of the SNAP-Ed funds available. We will focus on general PSE strategies in the school settings and community, in order to make the best use of the limited funds available.

6. **Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]**

Mariposa County does not have an existing CNAP workgroup, and UCCE CalFresh does not operate programs in the county. Partnership efforts will begin by attending quarterly meetings of the Mariposa County Health and Wellness Coalition (MCHWC), which is currently facilitated by the LHD's Tobacco Education Program. The coalition recently transitioned from a focus on tobacco prevention to a new goal of improving and building opportunities for all Mariposa County residents to have experience overall health and wellness. This is a multi-sector group of public, private, and non-profit organizations which has defined three priorities for their collaborative work: 1) prevention (substance abuse/tobacco/ violence), 2) active living, and 3) healthy eating. In Mariposa County, there are a limited number of organizations serving the needs of a sparse and widely dispersed population. The coalition's broad focus was determined to be the most effective method to strengthen partnerships and leverage resources in efforts to achieve common community change goals to improve overall health and wellness.

Current public programs represented under the MCHWC include WIC, Mariposa Unified School District (nurse), Mariposa County Human Services programs, Tobacco Prevention, UCCE 4-H Advisor, Mariposa County Parks and Recreation, and the County Library. Non-profit and private programs include Mountain Crisis Center, Mariposa Safe Families, Ethos Youth, KRYZ local public radio and one independent business owner. The LHD SNAP-Ed program will work to develop a nutrition subcommittee within the MCHWC to ensure coordination and establish nutrition education partnerships to identify gaps and establish goals that will serve the SNAP-Ed eligible population. This will be achieved through small group activities, meetings, via email/phone and questionnaires. Once goals are established, objectives and activities as they relate to nutrition, access to healthy foods and beverages and physical activity will be developed. The LHD will promote SNAP-Ed services and activities by connecting with other agencies such as the County Welfare, Jobs Training, and Community Services programs. Additionally, the Mariposa County Public Works department is in the process of implementing two Safe Routes to Schools grants and is willing to partner on promotion of the program. We will also seek the support of the elected officials, the county planning department and transportation commission as partners on our environmental change efforts.

7. **Key Messages**

	Food Safety	x	Physical Activity	x	Fiber-Rich Foods
x	Whole Grains	x	My Plate-Healthy Eating Plan	x	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
x	Fruits & Vegetables	x	Limit Added Sugars or Caloric Sweeteners		Other *(specify):*
x	Fats and Oils	x	Food Shopping/ Preparation		Other *(specify)*:
x	Lean Meat & Beans				
x	Sodium & Potassium				
x	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All educational materials, resources, and curriculum will be approved through the USDA SNAP-Ed Connection website (https://snaped.fns.usda.gov/), and/or FFY 2017-2019 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the California Department of Public Health - Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list.

Mariposa County reviewed the approved integrated curriculum list provided by the state agencies to determine the best option for our target population. Curriculum, materials and resources were chosen to best reflect the needs of the population, and the chosen SNAP-Ed three-year and annual objectives. The chosen curriculum is geared towards the school setting and low-resource adult population describe in the intervention plan summary and below in target audience description.

9. **Intervention and Evaluation Plan Narrative Summary**

The Local Health Department (LHD) will provide comprehensive strategies and interventions which include nutrition education and physical activity promotion; training and technical assistance; nutrition and physical activity messaging via social media; and working with local emergency food distribution sites to increase environmental supports that encourage purchase and consumption of healthy foods and beverages. Partnerships and collaborations will need to be developed through ongoing meetings with community partners to help achieve our community change goals for the SNAP-Ed eligible population.

The LHD will implement direct nutrition education and physical activity (PA) focused approaches, staff training for education providers, food service providers and other staff that interface with children in SNAP-Ed eligible school sites in the Mariposa County Unified School District. The LHD will train and support teachers and after school staff as extenders to provide direct education programs. Strategies will promote the current Dietary Guidelines and SNAP-Ed intervention strategies that have been proven to support behavior change. Adults at SNAP-Ed eligible school sites will be reached through parent education that connects MyPlate concepts of shopping behaviors for healthy choices, healthy options for food, meal planning, food budgeting and increased knowledge of MyPlate recommendations for healthy foods.

The plan enhances interventions at the environmental level of the Social Ecological Model (SEM) through the inclusion of policy, systems and environmental (PSE) change efforts that include adoption of school wellness policies that promote access to healthy foods, beverages and physical activity. In SNAP-Ed eligible K-8 school sites, healthy nutrition and physical activity policies and procedures will be implemented which will include (but are not limited to) standards for all foods and beverage offered on site, opportunities for structured daily physical activity, and the provision of evidence-based nutrition education, garden-based and physical activity education and marketing guidelines for materials posted and shared on site. PSE efforts will also be focused on improving the school lunchroom using the Smarter Lunchrooms Movement (SLM) principle, for example healthy grab and go products and promotion of choosing healthy items in prominent school lunchroom locations. Integration of the school site and community physical activity will be implemented through Safe Routes to Schools (SRTS) programs, as current county plans for SRTS infrastructure improvements will allow everyone – including children, older adults,

and individuals with disabilities – opportunities to walk and bicycle more safely. Additionally, healthy food and beverage standards for purchased and donated foods that enter emergency food distribution sites, to include food pantries and soup kitchens, will be implemented to support education efforts to improve nutrition and food resource management.

At the sector level of the SEM, the LHD will participate in a multi-sector coalition and identify and convene strategic community nutrition partners and stakeholders to improve the nutrition and physical activity environment. Concepts from the community organization change model will prioritize strategies unique to the personal, social and environmental dynamics that influence the needs of rural Mariposa County. Community partners will be educated about policy changes to improve the availability and provision of healthy food choices, developing or updating nutrition standards for food service operations in schools, emergency food distribution sites and other community settings. The Merced County Food Bank (MCFB) operates USDA commodities emergency food distribution sites in Mariposa County, with distribution sites monitored by a MCFB coordinator and local community volunteers. The LHD will approach the MCFB to garner support of establishment of policies that encourage purchases and donation of healthy foods and beverages and promotion of healthy food and beverage choices by SNAP-Ed eligible populations at local distribution sites. Integrating SCT, the LHD will work with partners to support efforts of a community wide campaign to support behavior change that encourages options for healthy eating and active living. Collaborative efforts will be encouraged to optimize interaction between food programs, nutrition interventions, emergency food services and local retail food suppliers and farmer's market vendors. Opportunities to promote free/low-cost outdoor community physical activities through partnerships will be explored with County Parks and Recreation, Sierra Foothill Conservancy and public health staff at Yosemite National Park.

To evaluate and improve the SNAP-Ed services for all local objectives, the LHD will use formative, process, and/or curriculum-specific evaluations to determine effectiveness. The SNAP-Ed Activity Tracking Form (ATF) will be used to collect needed supporting documentation entries. Education and Administration Reporting System (EARS) and Semi Annual Activity Report results will be generated from the online ATF. Separate tracking of direct education taught by LHD staff and site staff trained by the LHD, such as teachers/extenders, will take place in an effort to better monitor effectiveness. The LHD will utilize the RE-AIM evaluation framework to report on reach, effectiveness, adoption, implementation, and maintenance of PSE change efforts.

Social and environmental change related to school wellness policy, school gardens, changes in the emergency food distribution, food pantry and soup kitchen nutrition policies and promotion of healthy foods will provide evidence of the environmental level indicators included in the SNAP-Ed evaluation framework. When necessary, PSE strategies will be adjusted to address challenges and make potential improvements for greater impact.

The chosen intervention strategies will allow us to focus on initiation of community change goals, within the parameters of the SNAP-Ed funds available. We will focus on general PSE strategies in the school settings, emergency food service sites, and the community, in order to make the best use of the limited funds available.

SECTION B: Target Audience Description

1. Gender	%		2. Age	#
Male	49%		0 to 4 years old (Preschool):	422

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

By September 30, 2019, at least two (2) SNAP-Ed eligible school sites will implement, or make changes to, school wellness policies and the physical environment to support improved nutrition and physical activity behaviors for students, parents and faculty.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Develop and/or Implement School Wellness Policies (Portfolio 2B school - core setting)

- Physical Activity
  - Structured Physical Activity
  - Safe Routes to School

- Healthy Eating
  - Smarter Lunchrooms Movement
  - Edible School Garden
  - Evidence-based education on healthy food choices

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 30, 2017, the LHD educators will work with at least 2 SNAP-Ed eligible school sites to assess and plan for adoption or improvements to existing school wellness policies to support improvements to physical activity and nutrition behaviors, and will provide training and technical assistance on the implementation of school wellness policies for at least 1 of the school sites.
   b. By September 30, 2017, at 1 of the 3 SNAP-Ed eligible school sites LHD educators will reach 200 elementary students and 150 parents with indirect education on healthy foods and physical activity (example: Harvest of the Month).

2. **FFY 2018 (Year 2) Objective(s):**
   a) By September 30, 2018, at 1 additional SNAP-Ed eligible school sites, LHD educators will provide training and technical assistance on the adoption and implementation of school wellness policies.
   b) By September 30, 2018, at 1 of the 3 SNAP-Ed eligible school sites LHD educators will train at least 4 extenders (classroom teachers and afterschool staff) and will reach 120 elementary students and 10 parents with direct education; and reach 300 students and 300 parents with indirect education on proper nutrition and physical activity.
   c) By September 30, 2018, at 1 of the 3 SNAP-Ed eligible school sites the LHD will work with school site staff, including school wellness committees, to improve the school environment by supporting the development and ongoing use of SLM strategies.
   d) By September 30, 2018, at 1 SNAP-Ed eligible school site, LHD educators will work with partners, including school wellness committees, and 2 trained extenders (classroom teachers and afterschool staff) to improve the school environment by establishing or improving an existing school garden.

3. **FFY 2019 (Year 3) Objective(s):**
   a) By September 30, 2019, a structured PA program (e.g. CATCH or SPARK) LHD educators and 3 trained extenders (afterschool staff and/or classroom teachers) at 1 of the 3 of the SNAP-Ed eligible elementary schools and will educators will with work with partners including the school wellness committee at the school to make physical activity related environmental changes.
   b) By September 30, 2019, at 1 SNAP-Ed established school site and at 1 additional SNAP-Ed eligible school sites, LHD educators will train at least 8 extenders (total classroom teachers and afterschool staff) and will reach a total of 240 elementary students and 20 parents with direct education; and reach 400 students and 600 parents with indirect education on proper nutrition and physical activity at each site.
   c) By September 30, 2019, at 1 additional school site, work with staff, including school wellness committees, to improve the school environment by supporting the development and on-going use of SLM strategies.
   d) By September 30, 2019, at 1 SNAP-Ed eligible school site, LHD educators provide technical assistance to partners, including school wellness committees, and 2 trained extenders (classroom teachers and afterschool staff) to sustain continued use of an existing school garden.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Mariposa County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Conduct an assessment of the district level School Wellness Policy (SWP) and committee status. • Provide technical assistance as requested. Identify opportunities to adopt and implement a district wide SWP and/or strengthen existing SWP language • Assist sites to conduct environment and policy assessments to identify areas for improvement. • Provide technical assistance as requested to school wellness committees and staff. Ensure opportunities for physical activity for school-age youth and enhance the physical and built environment around the targeted school sites.	CED: ; CEI: ; MPR: ; C&C: x; TTA: x	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 ; Q2 x; Q3 x; Q4 x Year 2: Q1 x; Q2 x; Q3 x; Q4 x Year 3: Q1 x; Q2 x; Q3 x; Q4 x	Attendance records; agendas. PSE Annual reporting; Reporting Tools Workbook
1.2	Work with groups at 1 school site in Year 1; and 1 additional school site in Year 2 to create awareness of the district SWP and to fully implement the SWP at their school. • Assist sites to conduct environmental and policy assessments that will help to identify areas for improvement. Provide technical assistance as requested. Identify opportunities for strengthening SWP language by incorporating SLM as appropriate.	CED: ; CEI: ; MPR: ; C&C: x; TTA: x	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 ; Q2 ; Q3 x; Q4 x Year 2: Q1 x; Q2 x; Q3 x; Q4 x Year 3: Q1 x; Q2 x; Q3 x; Q4 x	PSE Annual reporting; assessment documents; informational materials

1.3	In Year 1 work with 1 site and Year 2 work with 2 sites on Smarter Lunchroom Movement (SLM) adoption: • Identify sites' interest and capacity to implement SLM • Provide SLM training to food service directors and staff and conduct scorecard assessments. • Establish connections between the lunchrooms and classroom nutrition education. Provide ongoing technical assistance as requested around adoption of SLM strategies; demonstrate positive outcomes through improved SML scores.	( ) CED ( ) CEI ( ) MPR (x) C&C (x) TTA	( ) CWD (x) LHD ( ) AAA ( ) UCCE ( ) CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 — x x Year 2: Q1 Q2 Q3 Q4 — x x x x Year 3: Q1 Q2 Q3 Q4 — x x x x	SLM scorecard assessment; Training agenda and sign-in sheets; Photos; PSE Annual reporting;
1.4	Provide ongoing evidence-based nutrition/physical activity education, training and technical assistance by conducting trainings to extenders (teachers and afterschool staff) In Year 2, train 4 extenders at 1 site; In Year 3, train a total of 8 extenders at 2 sites.	( ) CED ( ) CEI ( ) MPR (x) C&C (x) TTA	( ) CWD (x) LHD ( ) AAA ( ) UCCE ( ) CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 — x x Year 2: Q1 Q2 Q3 Q4 — x x x x Year 3: Q1 Q2 Q3 Q4 — x x x x	Training attendance sheet Agenda Materials list

1.5	Provide indirect and direct education on healthy food and beverage choices using approved curricula, either through direct delivery or SNAP-Ed qualified extenders: • Year 1, at 1 site, provide indirect nutrition education materials (via newsletters, family nights, display boards) to reach 150 parents; Year 2 reach 300 parents at 1 site; Year 3 reach 600 parents at 2 sites. • Provide direct education Year 2 to reach 10 parents at 1 site; Year 2 to reach 20 parents at 2 sites. • Year 1 - Provide indirect nutrition education to reach 200 students at 1 site (display boards, newsletters); in Year 2 & 3 reach 400 students at 2 sites. Provide direct education through integration of nutrition and physical activity information into lesson plans: Year 2 reach 120 students at 1 site; in Year 3 reach 240 students at 2 sites.	☐ CED ☐ CEI ☐ MPR ☒ C&C ☒ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 ☐ Q2 ☐ Q3 ☒ Q4 ☒ Year 2: Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒ Year 3: Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒	Training attendance sheet Agenda Materials list
1.6	Work with school and/or district level wellness committee to develop action plan for physical activity (PA) best practices to be incorporated in SWP language related to PA interventions or environments. In Years 2 & 3 at 1 school site: • Provide support and technical assistance when implementing new structured PA program to extenders. Provide training to 3 extenders (teachers/afterschool programs) in a new structured PA program.	☐ CED ☐ CEI ☐ MPR ☒ C&C ☒ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 ☐ Q2 ☐ Q3 ☒ Q4 ☒ Year 2: Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒ Year 3: Q1 ☒ Q2 ☒ Q3 ☒ Q4 ☒	PA assessment; Meeting agendas; meeting minutes; action plans developed.

1.7	At a minimum of 1 school site, coordinate Walk to School events to promote physical activity. • Collaborate with community partners (e.g. county transportation & planning departments; school district) to discuss promising options and activities that support Safe Routes to School (SRTS). • Enhance traffic safety in areas where school-aged youth are physically active. • Year 2 & 3 - Promote SRTS in schools and the community and integrate physical activity and nutrition messaging during at least 1 Walk to School event annually. Year 2 & 3 - Provide technical assistance to the school sites/district in the strategies and considerations when implementing a Walk to School event. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**

By September 30, 2019, at least 1 food pantry and 2 emergency food distribution sites will increase access to and promotion of healthy foods and beverages choices for SNAP-Ed eligible individuals through the establishment of adopted and implemented policies and/or physical site changes.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- **Healthy Food and Beverage policy / stocking standards to improve food security**

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017, conduct an assessment of the emergency food distribution environment.
   b. By September 30, 2017, establish relationships with 1 food pantry, and 2 emergency food distribution sites and/or 1 soup kitchen to support development and implementation of policies to define healthy food and beverage choices for donations and/or purchases, and physical site changes to encourage healthy food and beverage choices.
   c. By September 30, 2017, provide SNAP-Ed nutrition education materials with a focus on food resource management and healthy food and beverage choices to at least 1 emergency food distribution site, food pantry and/or soup kitchen sites.
   d. By September 30, 2017, collaborate with local food security organizations to determine the need for additional emergency food distribution site services.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30, 2018, continue to assess the emergency food distribution system in coordination with food security organizations.
    b. By September 30, 2018, the LHD will provide technical assistance and coordinate with one (1) emergency food distribution site, food pantry and/or soup kitchen on the implementation of a policy to define healthy food and beverage choices for donations and/or purchases, and physical site changes to encourage healthy food and beverage choices.
    c. By September 30, 2018, provide SNAP-Ed nutrition education and materials with a focus on food resource management to at least 2 emergency food distribution sites, food pantry and/or soup kitchens.
    d. By September 30, 2018, work with partners in the emergency food distribution system to develop additional emergency food distribution sites for SNAP-Ed eligible individuals in remote, outlying areas.

3. **FFY 2019 (Year 3) Objective(s):**

    a. By September 30, 2019, continue to assess the emergency food distribution system and environment; in coordination with food security and nutrition partner organizations.
    b. By September 30, 2019, the LHD will provide technical assistance and coordinate with one (1) additional emergency food distribution site, food pantry and/or soup kitchen on the implementation of a policy to define healthy food choices for donations and/or purchases and physical site changes to encourage healthy food and beverage choices.
    c. By September 30, 2019, provide nutrition education and materials with a focus on food resource management to at least 4 emergency food distribution sites, pantries and/or soup kitchens.
    d. By September 30, 2019, establish at least one (1) new additional emergency food distribution site to serve SNAP-Ed eligible individuals in remote, outlying areas.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Mariposa County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Conduct on-going assessment of the emergency food distribution environment (distribution sites, food pantry and soup kitchens). • Determine the number of emergency food sites, and document existence of any policies or procedures regarding nutritious food donations and purchases. • Identify at least 3 sites to approach about adoption of policies to define healthy donated foods/beverages and physical site changes to promote healthy food choices. Attend a minimum of 2 community meetings per year in collaboration with local community-based food security and/or nutrition partners.	CED: ; CEI: ; MPR: ; C&C: x; TTA: x	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	Emergency food distribution site assessment; list of sites; site contact lists; meeting agendas and minutes.
22	Conduct a baseline assessment of the food environment at 2 SNAP-Ed qualified emergency food distribution, food pantry or soup kitchen sites. Review assessments and summarize findings. Identify best practices for implementation of formal and informal nutrition policies.	CED: ; CEI: ; MPR: ; C&C: x; TTA: x	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 , Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 , Q2 , Q3 , Q4	Food environment / Site assessments

2.3	Work with identified food pantry, emergency food distribution or soup kitchen sites in the adoption of a nutrition policy to define healthy food/beverage procurement, acquisition, distribution and promote consumption of healthy foods.	CED: ; CEI: ; MPR: ; C&C: x; TTA: x	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 — x x Year 2: Q1 Q2 Q3 Q4 — x x x x Year 3: Q1 Q2 Q3 Q4 — x x x x	On file: List of sites contacted; meeting minutes, if any; materials and model policies/plans developed.
2.4	Provide up to two workshops to emergency food distribution, food pantry and/or soup kitchen partner agency staff to increase capacity to promote customer choices for healthy eating and beverages in Year 2 and 3 (1 per year)	CED: ; CEI: x; MPR: ; C&C: ; TTA: x	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 — Year 2: Q1 Q2 Q3 Q4 — x x x x Year 3: Q1 Q2 Q3 Q4 — x x x x	Sign in sheets; materials distributed; presentations materials is used
2.5	Provide indirect education by providing NEOPB approved healthy eating and beverage choice materials to at least 2 SNAP-Ed qualifying emergency food distribution, food pantries, and/or soup kitchens.	CED: ; CEI: x; MPR: ; C&C: ; TTA:	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 — x x Year 2: Q1 Q2 Q3 Q4 — x x x x Year 3: Q1 Q2 Q3 Q4 — x x x x	Materials distributed

2.6	Develop partnerships with local emergency food distribution services to identify and establish new food distribution sites in remote, outlying areas of Mariposa County. • Year 1 - determine gaps in services in remote areas (e.g. Ponderosa Basin, Lake Don Pedro). • Year 2 determine organizational support and capacity for additional food distribution sites. Year 3 –establish at least 2 additional food distribution sites to serve SNAP-Ed population in low service areas. ****Time Frame: Year & Quarter:**

Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)

Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**

By September 30, 2019, participate quarterly in a multi-sector coalition (CNAP or similar) aimed at increasing consumption of healthy foods and access to low/no-cost physical activity opportunities for SNAP-Ed eligible individuals; and reach at least 400 SNAP-Ed eligible individuals with direct education and 2,500 individuals with indirect education nutrition to increase consumption of healthy foods and beverages and physical activity behaviors.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Mobilize community partnerships and participate in a multi-sector coalition to improve nutrition and physical activity
- Promote access to affordable healthy foods and physical activity
- Promote local procurement of fresh fruits and vegetables

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 30, 2017, attend a minimum of 4 quarterly coalition meetings (e.g. Mariposa County Health & Wellness Coalition 'MCHWC") to establish multi-sector partnerships for collaborative support of improvements to access to healthy foods and beverage consumption and low/no-cost physical activity among SNAP-Ed eligible individuals.
   b. By September 30, 2017, collaborate with at least 2 coalition and/or other community nutrition partners to determine gaps in services and leverage resources aimed at increasing food resource management, consumption of healthy foods and beverages and low/no-cost physical activity opportunities for SNAP-Ed eligible individuals.

c. By September 30, 2017, LHD nutrition educators will reach at least 250 SNAP-Ed eligible individuals through direct and indirect nutrition education designed to improve food resource management knowledge and skills, increase consumption of healthy foods and beverages, and increase participation in low/no-cost physical activity.

2. **FFY 2018 (Year 2) Objective(s):**

a. By September 30, 2018, attend a minimum of 4 quarterly coalition meetings (e.g. MCHWC) to facilitate multi-sector partner support for improving access to healthy foods and beverage consumption and low/no-cost physical activity among SNAP-Ed eligible individuals.
b. By September 30, 2018, conduct a minimum of 2 strategic planning sessions with at least 2 coalition and/or other community nutrition partners to identify and implement coordinated strategies aimed at increased food resource management, consumption of healthy foods and beverages and opportunities for low/no-cost physical activity for SNAP-Ed individuals.
c. By September 30, 2018, the LHD will reach at least 500 SNAP-Ed eligible individuals through direct and indirect nutrition education designed to improve food resource management knowledge and skills, increase consumption of healthy foods and beverages, and increase participation in low/no-cost physical activity.
d. By September 30, 2018 the LHD will use approved media and public relation techniques to promote the consumption of healthy foods and beverages and access to low/no-cost physical activity to 1,200 SNAP-Ed individuals.

3. **FFY 2019 (Year 3) Objective(s):**

a. By September 30, 2019, attend a minimum of 4 quarterly coalition meetings (e.g. MCHWC) to engage multi-sector partners in planning of strategies to increase healthy foods and beverage consumption and physical activity among SNAP-Ed eligible individuals.
b. By September 30, 2019, continue to review strategic plans with at least 3 coalition and/or other community nutrition partners on the implementation of coordination of strategies aimed at increased food resource management, consumption of healthy foods and beverages and opportunities for low/no-cost physical activity for SNAP-Ed individuals.
c. By September 30, 2019, the LHD will reach at least 750 SNAP-Ed eligible individuals through direct and indirect nutrition education designed to improve food resource management knowledge and skills, increase consumption of healthy foods and beverages, and increase participation in low/no-cost physical activity.
d. By September 30, 2019, the LHD will use approved social media and public relation techniques to promote the consumption of healthy foods and access to low/no-cost physical activity to 2,000 individuals in the SNAP-Ed population.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Mariposa County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):

By September 30, 2019, participate quarterly in a multi-sector coalition (CNAP or similar) aimed at increasing consumption of healthy foods and access to low/no-cost physical activity opportunities for SNAP-Ed eligible individuals; and reach at least 400 SNAP-Ed eligible individuals with direct education and 2,500 individuals with indirect education nutrition to increase consumption of healthy foods and beverages and physical activity behaviors.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Identify strategic partners and attend and/or facilitate a community-wide multi-sector coalition, such as MCHWC at least 4 times a year to coordinate efforts to increase healthy foods choices and access to physical activity among the SNAP-Ed eligible population.	CED: ; CEI: ; MPR: ; C&C: x ; TTA:	CWD: ; LHD: x ; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 ; Q2 ; Q3 x ; Q4 x Year 2: Q1 x ; Q2 x ; Q3 x ; Q4 x Year 3: Q1 x ; Q2 x ; Q3 x ; Q4 x	On file: Meeting agenda; minutes
3.2	Work with at least 2 coalition/community partner agencies to identify gaps in services, select at least 2 priority areas for improvement, and determine goals to increase existing healthy eating and physical activity opportunities through implementation of organizational and/or community PSE changes. • Work with partners to maximize coordination of existing food programs, nutrition interventions and physical activity opportunities. • Develop health promoting guidelines for events, workshops, meetings. • Participate in County Planning meetings targeting enhancements to infrastructure that support PA.	CED: ; CEI: ; MPR: ; C&C: x ; TTA: x	CWD: ; LHD: x ; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 ; Q2 ; Q3 x ; Q4 x Year 2: Q1 x ; Q2 x ; Q3 x ; Q4 x Year 3: Q1 x ; Q2 x ; Q3 x ; Q4 x	On file: meeting agendas and minutes; examples of materials developed.

3.3	Conduct direct nutrition education lessons and/or activities at a minimum of 3 SNAP-Ed eligible sites, such as food pantries, emergency food distribution sites, soup kitchens or the CalFresh office. • Reach at least 50 adults in Year 1; reach at least 100 adults in Year 2; and reach at least 250 in Year 3. Nutrition education can include Rethink Your Drink (RYD), Healthy Living Made Easier, Eatfresh.org Mini-Course, and other NEOPB approved materials.	x CED CEI MPR C&C TTA	CWD x LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 — Year 2: Q1 Q2 Q3 Q4 — x x x x Year 3: Q1 Q2 Q3 Q4 — x x x x	Sign in sheets, materials distributed; presentations if used.
3.4	Reach at least 200 adults in Year 1; 500 adults in Year 2; and 750 adults in Year 3 through indirect education at targeted sites such as WIC, CalFresh Offices, food pantries, emergency food distribution sites and soup kitchens. • Nutrition education materials to include RYD, Harvest of the Month, MyPlate and other NEOPB approved materials. Mendocino County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

County Name: Mendocino County

SECTION A: OVERVIEW

1. SNAP-Ed Implementing Agency Names

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
X	**California Department of Public Health: CDPH: Mendocino Health and Human Services Agency- Local Health Department (LHD)**
	California Department of Aging: CDA: (Area Agency on Aging: AAA)
	Catholic Charities of California: CCC: (Catholic Charities of California: CCC)

2. State Level Goals and Objectives

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. Jurisdiction Description

Located on California's northern coast, Mendocino County (population just under 90,000) has a predominantly White/Non-Hispanic population with large communities of American Indians and Latinos. Of the total population, approximately 34,513 (40%) are SNAP-Ed eligible (income ≤ 185% FPL), with that number identifying themselves as White/Non-Hispanic (62.1%), Hispanic/Latino (24.1%), American Indian (6.3%), Black or African American (1.0%), Native Hawaiian/Other pacific Islander (.3%) and multiracial/unknown (3.1%/.9%), and Asian (2.2%). *Information from census data, *cenus.gov*.

Mendocino County's rural communities are scattered over 3,500 square miles of mostly mountainous terrain. Of Mendocino County adults, 58.7% are overweight or obese, as are 39.3% of 12 to 17 year olds. Mendocino County is a poor rural county, with an overall poverty level of 22%. Of low income households in the county 41.1% of those are food-insecure. Mendocino County has a CalFresh caseload representing approximately 12,912 people. Of low income households, below 185% of FPL, 27.5% of children are food insecure. 73.1% of students in the County are eligible for free or reduced price meals.

Almost one in five adults have no physical activity over a month's time, only 35.3% engage in regular walking. Two of five children are active at least an hour each day.

Fast food consumption is common, as 52.8% of adults and 55.0% of children and teens consume fast food at least once a week. Finally, 36.8% of children and teens consume at least one sugary drink each day, on average.

As stated above, Mendocino County census data show significant Latino and Native American populations. Both Latinos and American Indians are at higher risk for obesity-related chronic conditions. Approximately 18.3% of Latino residents have been diagnosed with diabetes, more than twice the rate in the non-Latino white population. Among patients served by Indian Health Centers, the rate is even higher (just under one third) with a primary diagnosis of diabetes.

Census data show the county's median household income in 2014 was $43,469, only 71% of the state median of $61,094. The county's four incorporated cities (Ukiah, Fort Bragg, Point Arena, and Willits) have median household incomes ranging from half to two-thirds of the statewide median. Research provides ample support for the relationship between poverty and obesity, and poverty is especially high in the American Indian and Latino communities. People with low incomes also suffer disproportionately high rates of chronic diseases.

Mendocino County has a high rate of food insecurity, with 41.1% of families living below 185% of the federal poverty level unable to afford enough food. The County Health and Human Services Agency (HHSA) conducted an analysis of the retail food environment that found an average of two fast food restaurants and convenience stores for every one produce vendor (ranges from 2:1 in Fort Bragg to more than 5:1 in Willits). There is a statistically significant correlation between the percentage of Latino residents and the number of fast food/convenience stores and a correlation between the poverty and the ratio of fast food/convenience stores to healthy food outlets. Not surprisingly, this situation can result in unhealthy diets.

Because of Mendocino County's sprawling rural configuration and a history of car-oriented planning, 72% of commuters drive alone to work. According to California Health Interview Survey data, only 22.4 % of youth walked or road a bike to school. The county scores a dismal 8 out of 100 points for walkability on www.walkscore.com.

4. Community Assessment

The information in the jurisdiction description comes in part from the SNAP-Ed County Profiles 2015 prepared by CDPH which includes county-level data from a variety of sources such as American Communities Survey (ACS) five-year estimates, Department of Social Services CalFresh Annual Trends data, the California Health Interview Survey, Feeding American's Map the Food Gap, and Food insecurity in Your County.

The existing data sets used in Federal Fiscal Year (FFY) 2015 to complete that work plan which has been carried over into the FFY 2017-19 Work Plan, allows Mendocino County Nutrition Education Obesity Prevention (NEOP) providers to focus services on those most in need who can most benefit from nutrition education and environmental supports. The local health department has chosen to focus on children as priority populations, as 1) they are still learning their physical activity and eating behaviors and may be more amenable to behavior change; 2) they are a captive audience in a known location, which allows sufficient dosage of nutrition education to have an effect; and 3) children are the future and we are equipping them with the skills and knowledge to shape their communities in healthy ways long after this program has ended.

Finally, two community organizations guide selection of some of the physical activity and nutrition promotion strategies contained in this document: The County Nutrition Action Plan (CNAP) continues to develop strategies with community input through the quarterly meetings; and the Food Policy Council has developed a Food Action Plan through extensive community input, that calls for improving the health of people with low incomes, increasing food security, and increasing economic vitality by linking local food providers with local purchasers.

In cooperation with community partners, the county has just completed a jurisdiction wide Community Health Needs Assessment (CHNA) and is currently analyzing the results to develop a Community Health Strategic Plan. The results from the CHNA will guide the Community Health Improvement Plan and the county's Community Health Strategic Plan, which will serve as the objectives for future improvement of community health. This process should be completed in fall of 2016.

5. Community Change Goals

The overarching goal of Mendocino County Health and Human Services Agency is for Healthy People in Healthy Communities. Based on community assessment the following long-term Community Change Goals to reduce obesity in Mendocino County have been adopted by the partnership: (Of Mendocino County adults, 58.7% are overweight or obese, as are 39.3% of 12-17 year olds:

a. Increasing consumption of and access to healthy foods and beverages and decreasing consumption of unhealthy foods and beverages. (22% of low income people are food-insecure. Mendocino County has a CalFresh caseload of approximately 12,912 people. 73.1% of students in the County are eligible for free or reduced price meals.)
   - Nutrition Education
   - Increased WIC & CalFresh participation
   - Farmers' Market Promotion and Match
   - Healthy weight management
   - More fruits & vegetables in Food Banks
   - Harvest of the Month in Schools
   - Increasing physical activity opportunities in schools and community settings

b. Increasing physical activity opportunities in schools and community settings. (Almost 30% of adults engage in regular walking, but almost one in five has no physical activity over a month's time. Two of five children are active at least an hour each day.)
   - Safe Routes to Schools Activities
   - Structured Physical Activity opportunities
   - Technical support and training to staff of agencies serving low-income populations on how to start walking groups.

c. Increase number of environmental supports for increased consumption and access to healthy foods and to physical activity.
   - Active Transportation and Safe Routes to Schools
   - Healthy Stores, Healthy Communities Initiative
   - School Wellness Policy work

d. Reduce health inequities among most at risk populations by increasing participation in SNAP-Ed activities by Hispanic, Native American and senior populations. [Both Latinos and American Indians are at higher risk for obesity-related chronic conditions. Approximately 18.3% of Latino residents have been diagnosed with diabetes, more than twice the rate in the non-Latino white population. Among patients served by Indian Health Centers, the rate is even higher (just under one third) with a primary diagnosis of diabetes.]
   - Serve populations that are at risk in culturally appropriate ways in targeted communities
   - In conjunction with our work, support policies that address health inequities in at risk populations

Many of these community change goals are multi-year strategies that require the support of partners and additional funding sources. Of these strategies, the Mendocino County SNAP-Ed LIA partnership has committed to contributing to parts of these larger community goals based on agency expertise and SNAP-Ed allowability.

The Mendocino County SNAP-Ed LIA partnership has determined based on the larger community change goals, to set the 3 SMART local objectives for FFY17-19 around the following areas:

1. By September 30, 2019, LIA and partners will make healthy site changes to improve the food environment for students at two cafeteria sites and two garden sites in the community of Willits, and provide nutrition education to students and parents to increase awareness and knowledge of fresh produce in at least six community sites using SNAP-Ed approved curriculum, Harvest of the Month taste tests, school/community gardens for teaching nutrition education and produce production, and "meet the farmer" field trips.

2. By September 30, 2019, LIA and Partners will provide direct nutrition education to adults in at least three community sites in the community of Fort Bragg, and promote access to and increase fresh fruit and vegetable consumption by providing environmental support to healthy choices through retail taste test demonstrations at two sites, through promotion of the Farmer's Market EBT Match Program at the Fort Bragg Farmer's Market, and by developing healthy snack and beverage policies in 2 community settings.

3. By September 30, 2019, LIA and partners will increase physical activity opportunities to students in at least three school settings in the communities of Laytonville and Round Valley during/afterschool and promote walking and biking to school, and to adults in the City of Fort Bragg by establishing and promoting walking groups as options for transportation and increased physical activity to address healthy weight management.

SNAP-Ed funding will work to support local SNAP-Ed eligible neighborhoods, with Mendocino County's LHD working on all of the above objectives. Mendocino County's LHD is the only LIA in the county and is uniquely positioned to support these larger community change goals with work in nutrition education, media and public relations, coalition building and training support and technical assistance. Work on the larger community goals will require additional partners and funding to support some of the capital improvements needed for policy, system and environmental changes.

Local Objective #1 will be implemented by the LHD and will provide nutrition education to increase awareness and knowledge of fresh produce to at least 5,620 unduplicated students using SNAP-Ed approved Curriculum and Harvest of the Month materials, school/community gardens for teaching nutrition education and produce production, "meet the farmer" field trips, and promotion of Farmer's Markets. These activities support State Level Objective 1 & 2 Consumption and Access to Healthy Foods and Consumption and Access to Healthy Beverages and Reduce Consumption of Unhealthy Beverages, State Objective 3: Physical Activity, State Level Objective 4: Environmental Supports as well as State Level Objective 5: Food Resource Management/Food Security.

Local Objective #2. The focus of this objective will be to provide nutrition education in the community of Fort Bragg, and support that with taste test demonstrations in retail and Farmer's Market settings. This supports State Level Objective 1 & 2 Consumption and Access to Healthy Foods and Consumption and Access to Healthy Beverages and Reduce Consumption of Unhealthy Beverages and State Level Objective 4: Environmental Supports, as well as State Level Objective 5: Food Resource Management/Food Security.

Local Objective #3 will be implemented by the LHD and will focus on increasing physical activity opportunities and walking and bicycling options as modes of transportation through funded partners. This Local Objective 3 supports State Level Objectives 3-4 Physical Activity and Sedentary Behavior and Environmental Supports for Nutrition and/or Physical Activity. Unfunded partners will work on alternative funding for complimentary pedestrian and bicycling infrastructure projects, safe route to schools policy work and enhancing structured physical activities in community and school settings.

Increasing awareness and knowledge of healthy foods is key to increasing consumption, with Objectives 1 and 2 focusing on that through education, Harvest of the Month and retail taste test demonstrations. Environmental supports, such as community/school garden work, promotion of the Farmer's Market are ways to increase the success of these interventions and build on work completed in FFY 16 to increase awareness of the Farmer's Market Match programs and promoting WIC farmer's market voucher redemption.

Another partner, the Food Policy Council, will continue to work to increase fresh and healthy food access by advocating with local government agencies to increase the number of polices which support farmers, community gardens, and regional food system infrastructures as well as promoting/supporting food banks, Food Stamp Match programs, EBT promotion and zoning laws.

Mendocino Council of Governments (MCOG), an unfunded partner, will play a major role in the promotion of walking and biking for transportation and exercise by conducting, in concert with the LHD, a county-wide Safe Routes to Schools program. In addition MCOG, as the local transportation agency, will be developing funding sources for improving infrastructure that will support increased walking and bicycling in various communities.

All three objectives will be supported by the Youth Training event which will train youth from around the county on nutrition, physical activity and public speaking techniques. The “Small Steps” campaign will provide a webpage on healthymendocino.com (http://www.healthymendocino.org/) listing all the nutrition and physical activity resources in the county. Service providers and CalFresh-eligible participants will be able to access information such as local healthy cooking classes, using EBT at the Farmer’s Market, community garden resources, food preservation classes, walking group activities, and chronic disease

self-management courses through healthymendocino.com and through social media activities. SNAP-Ed approved branding and logos will be used on the "Small Steps" profile webpage, with the promotion of messaging that is consistent with the Champions for Change approved messaging and branding.

6. Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]

The Public Health Branches of the Mendocino County Health and Human Services Agency collaborate with the Area Agency on Aging, the County Schools, CDPH Nutrition Education and Obesity Prevention Branch (NEOPB)-funded and other unfunded partners (including Social Services, CalFresh program, FIRST 5, the Child and Adult Care Food Program, Community Action, WIC, food banks, tribal food programs, food service directors and others) to implement the County Nutrition Action Plan (CNAP) group which meets up to four times per year. Public Health Branch facilitates and host the meetings as well as assuring that objectives are completed.

In addition, collaboration occurs with the **Mendocino County Food Policy Council,** a coalition of farmers, farm to school partners, CDSS, community members, farmer's market managers, teachers, and more to increase access to and consumption of healthy foods and beverages. Mendocino County SNAP-Ed services and activities are also promoted through connections with other agencies, such as the County Welfare Department, etc.

7. Key Messages.

x	Food Safety	x	Physical Activity	x	Fiber-Rich Foods
x	Whole Grains	x	My Plate-Healthy Eating Plan	X	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
x	Fruits & Vegetables	x	Limit Added Sugars or Caloric Sweeteners		Other *(specify):*
x	Fats and Oils	x	Food Shopping/ Preparation		Other *(specify)*:
x	Lean Meat & Beans				
x	Sodium & Potassium				
x	Promote Healthy Weight				

8. Educational Materials, Resources and Curriculum

All curriculum and materials used will be from the approved USDA SNAP-Ed Connection website, and/or **FFY 2017-19** USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the CDPH Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list. All curricula and materials will be defined and appropriate for the target audience identified in Section B: Target Audience Description of this document. All materials, resources, and curriculum have also been identified for each objective proposed in this integrated work plan under Section C.

9. Intervention and Evaluation Plan Narrative Summary

As the only SNAP-Ed implementing agency in Mendocino County, the LHD will provide progressive multi-level behavior-focused strategies and intervention to work towards achieving policy, systems and environmental (PSE) change efforts, which include nutrition education and physical activity promotion, community events, training and technical assistance, collaboration and coordination with partners as well as utilizing media and public relations throughout the county. The agency will promote the current Dietary Guidelines and SNAP-Ed intervention strategies that have been proven to support behavior change. With focus on the following:

School Setting – Nutrition Strategies**:**

- Harvest of the Month; SNAP-Ed approved nutrition lesson and taste test to introduce and familiarize youth with fresh produce.
- Nutrition education incorporated into youth trainings and work conducted by the youth in the school settings.
- Support for school gardens being used in nutrition education.

School Setting – Physical Activity Strategies:

- Support student participation in walking and bicycling to school as a way to encourage creative ways to add physical activity into everyday life.
- Support opportunities for physical activity after school.

Community Setting – Nutrition Strategies:

- Promote access to healthy food retail, farmers' markets, corner/country stores, and grocery stores. (Encourage consumption of healthy foods through taste test demonstrations of healthy recipes that contain fruits and/or vegetables.)
- Encourage drinking water access.
- Provide education and collaborate with key community outlets and stakeholders.
- Provide Nutrition Education to promote healthy weight management.

Community Setting – Physical Activity Strategies:

- Build capacity to implement active living policy at the community level and by community organizations (through training youth as nutrition and physical activity advocates).
- Engage local businesses, government, civic organizations, community groups, and citizen in active living.
- Use environmental support interventions in community settings.

Helping Families – Nutrition Strategies:

- Conduct nutrition education during and after school with Harvest of the Month taste testing.
- Support family-friendly cooking demonstrations and taste tests throughout the community.
- Encourage use of farmers' market with SNAP and WIC access at key community outlets

- Conduct healthy weight management groups and individual support at Family Resource Centers.
- Develop and disseminate family-friendly educational materials that encourage family meals and kids' cooking.
- Enhance access to places for physical activity combined with informational outreach activities

Social Marketing/Media Nutrition Strategies

- Use "Small Steps" page on the Healthy Mendocino website to promote healthy choices with information on nutrition classes, emergency food assistance programs, healthy recipes, physical activity opportunities, tips for shopping on a budget, and community events that promote health.

State Level Objective 1 will be addressed in Local Objectives 1. Local Objective 1 focuses on access to healthy foods at the Farmer's Markets, community gardens, and promotion of FNS and emergency food outlets through our CNAP coalition.

State Level Objective 2 will be addressed in Local Objectives 1 and 2. Local objective 1 and 2 will focus on nutrition education including increased water consumption and decreased consumption of sugar sweetened beverages.

State Level Objective 3 will be addressed in Local Objective 3. Local Objective 3 focuses on increasing physical activity in settings that serve low-income populations, and promoting walking and biking.

State Level Objective 4 will be addressed in Local Objectives 1, 2 and 3. Local Objective 1 focuses on supports that encourage fresh produce consumption and promote EBT use at Farmer's Markets, healthy options taste test demonstrations in retail, and access to fruits and vegetables through community gardens and food pantries. Local Objective 2 focuses on nutrition education in community and organizational settings that serve low-income populations. Local Objective 3 focuses on increasing physical activity in settings that serve low-income populations, and promoting walking and biking.

State Level Objective 5 will be addressed in Local Objectives 1 and 2. Local Objective 1 focuses on increasing awareness and knowledge of fresh produce to increase consumption while promoting usage of EBT/WIC at Farmer's Markets, access to food through community gardens and other food resources. Local Objective 2 focuses on education, meal planning strategies and shopping on a budget.

The LHD will participate in the CNAP collaborative comprised of SNAP-Ed funded and non-funded partners. Partners will continue to support the State Implementing Agencies behavioral change goals and messages.

The Evaluation processes will be used to improve services for all local objectives. The LHD will use Process (RE-AIM) or curriculum based evaluations to determine effectiveness. For Example: PSE (RE-AIM) for community/school garden work and effectiveness of Local Objective 2 (LT), Pre- and Post-tests given to participants in nutrition education classes in Local Objectives 1 and 2(ST). PSE (RE-AIM) for effectiveness of Farmer's Market EBT redemption, using comparative data from sales before and after intervention activities in Local Objectives 1 and 2 (ST).

SECTION B: Target Audience Description

1. Gender

Gender	%

SECTION C: INTERVENTION PLAN

I. Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019, LIA and partners will make healthy site changes to improve the food environment for students at two cafeteria sites and two garden sites in the community of Willits, and provide nutrition education to students and parents to increase awareness and knowledge of fresh produce in at least six community sites using SNAP-Ed approved curriculum, Harvest of the Month taste tests, school/community gardens for teaching nutrition education and produce production, and "meet the farmer" field trips.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:

- **Community and School Gardens**
- **Farmer's Market**

III. Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. FFY 2017 (Year 1) Objective(s):

a. By September 30, 2017, LIA will provide Harvest of the Month taste tests and SNAP-Ed approved nutrition lessons to 3,100 students, as well as provide afterschool SNAP-Ed approved nutrition lessons to at least 60 individual students, as a way to ~~and~~ increase their awareness, knowledge, and consumption of fresh produce.

b. By September 30, 2017, LIA will establish relationships with school staff at one site relating to unused school gardens and revitalizing their use in nutrition lessons and student use.

c. By September 30, 2017, LIA will establish relationships with the school food service staff at eligible school sites to reinforce healthy cafeteria environmental changes.

2. FFY 2018 (Year 2) Objective(s):

a. By September 30, 2018, LIA will provide Harvest of the Month taste tests and SNAP-Ed approved nutrition lessons to 3,400 students as well as provide afterschool SNAP-Ed approved nutrition lessons to at least 80 individual students to increase their awareness, knowledge, and consumption of fresh produce.

b. By September 30, 2018, LIA will work with school and community partners to revitalize garden at **one site** to use during and after school in nutrition education and to supply fresh produce to school cafeteria, promoting the use of school and community gardens for fresh produce consumption, and provide SNAP-Ed approved nutrition lessons to at least **20** students in the school garden after school.

c. By September 30, 2018, LIA will work with school food service staff to create healthy cafeteria environmental changes at one site.

3. FFY 2019 (Year 3) Objective(s):

a. By September 30, 2019, LIA will provide Harvest of the Month taste tests and SNAP-Ed approved nutrition lessons at three sites, as well as provide afterschool SNAP-Ed approved nutrition lessons to at least 100 individual students, to increase their awareness, knowledge, and consumption of fresh produce.

b. By September 30, 2018, LIA will work with school and partners on sustainability plan to continue use of gardens at **one site** during and after school to use in nutrition education and to supply fresh produce to school cafeteria, promoting the use of school and community gardens for fresh produce consumption, and provide SNAP-Ed approved nutrition lessons to at least **40** students in the school garden after school.

c. By September 30, 2019, LIA will work with school food service staff to create healthy cafeteria environmental changes at 2 sites.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Mendocino County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019, LIA and partners will make healthy site changes to improve the food environment for students at two cafeteria sites and two garden sites in the community of Willits, and provide nutrition education to students and parents to increase awareness and knowledge of fresh produce in at least six community sites using SNAP-Ed approved curriculum, Harvest of the Month taste tests, school/community gardens for teaching nutrition education and produce production, and "meet the farmer" field trips.

SECTION C: INTERVENTION PLAN

I. Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019): By September 30, 2019, LIA and Partners will provide direct nutrition education to adults in at least three community sites in the community of Fort Bragg and promote access to and increase fresh fruit and vegetable consumption by providing environmental support to healthy choices through retail taste test demonstrations at two sites, through promotion of the Farmer's Market EBT Match Program at the Fort Bragg Farmer's Market, and developing healthy snack and beverage policies in 2 community settings.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:

- Healthy Retail
- Farmer's Market
- Healthy Snack & Beverage Policy

III. Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. FFY 2017 (Year 1) Objective(s):

a. By September 30, 2017, LIA and partners will provide direct nutrition education to at least 24 unduplicated adults in at least one community site annually in the community of Fort Bragg promoting healthy weight management.

b. By September 30, 2017, LIA and partners will reach at least 300 adults with nutrition outreach in at least one retail setting and Farmer's Market settings to promote increase in fresh produce consumption and EBT Market Match.

c. By September 30, 2017, LIA will establish and develop relationships with at least two faith based organizations and begin discussions on the importance and need for healthy beverage and snack environmental changes in faith based organizations.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, LIA and partners will provide direct nutrition education to at least 32 unduplicated adults in at least 2 community sites annually in the community of Fort Bragg promoting healthy weight management.

    b. By September 30, 2018, LIA and partners will reach at least 350 adults with nutrition outreach in at least two retail settings and Farmer's Market settings to promote increase in fresh produce consumption and EBT Market Match.

    c. By September 30, 2018, LIA will provide nutrition education to at least two faith based organizations and provide training and technical assistance to support the development and/or implementation of healthy beverage and snack site wellness policies and procedures to create healthy changes within their organization.

2. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, LIA and partners will provide direct nutrition education to at least 40 unduplicated adults in at least two community sites annually in the community of Fort Bragg promoting healthy weight management.

    b. By September 30, 2019, LIA and partners will reach at least 350 adults with nutrition outreach in at least two retail settings and Farmer's Market settings to promote increase in fresh produce consumption and EBT Market Match.

    c. By September 30, 2019, LIA will work on adoption of healthy beverage and snack site wellness policies and procedures in at least two faith based organizations to create healthy changes within their organization.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Mendocino County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

By September 30, 2019, LIA and Partners will provide direct nutrition education to adults in at least three community sites in the community of Fort Bragg and promote access to and increase fresh fruit and vegetable consumption by providing environmental support to healthy choices through retail taste test demonstrations at two sites, through promotion of the Farmer's Market EBT Match Program at the Fort Bragg Farmer's Market, and by developing healthy snack and beverage policies in 2 community settings.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Using SNAP-Ed approved curriculum/lessons, conduct a series of eight nutrition education classes focused on activities that promote healthy weight management at community sites in Fort Bragg. Topics including Fruit and Vegetable consumption, Fiber, Fats and oils, Lean Protein, etc. [At one community site in Year 1 and two community sites in Years 2 and 3 annually]	x CED CEI MPR C&C TTA	CWD x LHD AAA UCCE CCC	CWD: LHD: >Safe Passage AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF Data Cards Sign in handouts recipes
2.2	Using SNAP-Ed approved lessons, in at least one community site annually, conduct four one-time nutrition lessons in Year 2 and six one-time nutrition lessons in Year 3, focusing on shopping on a budget and fruit and vegetable consumption, including promotion of Farmer's Market EBT Match Program.	x CED CEI MPR C&C TTA	CWD x LHD AAA UCCE CCC	CWD: LHD: >Safe Passage AAA: UCCE: CCC:	Year 1: Q1, Q2, Q3, Q4 Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 x, Q3 x, Q4 x	ATF Data Cards Sign in handouts recipes

2.3	At two sites in Year 1 and 2 annually, and three sites in Year 3, provide taste test demonstrations at eligible retail stores and Farmer's Markets, using approved recipes that highlight fresh produce and providing nutrition education, meal planning strategies and shopping on a budget information.	☐ CED x CEI ☐ MPR ☐ C&C ☐ TTA	☐ CWD x LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: >Safe Passage AAA: UCCE: CCC: :	Year 1 Q1 Q2 Q3 Q4 X X X X Year 2 Q1 Q2 Q3 Q4 X X X X Year 3 Q1 Q2 Q3 Q4 X X x x	ATF Indirect Activity Form Recipe Handouts
2.4	Once each year, lead/coordinate a one-time community event to train youth from around the county on nutrition, physical activity and public speaking techniques as related to this objective and PSE strategy. SECTION C: INTERVENTION PLAN

I. Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):

By September 30, 2019, LIA and partners will increase physical activity opportunities to students in at least three school settings in the communities of Laytonville and Round Valley during/afterschool and promote walking and biking to school, and to adults in the City of Fort Bragg by establishing and promoting walking groups as options for transportation and increased physical activity to address healthy weight management.

SNAP-Ed State Goals:

	Goal 1: Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
	Goal 4: Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:

- Structured Physical Activity

III. Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, LIA and partners will provide/promote structured physical activity opportunities at least eight times during the year to reach at least 75 students at school or afterschool in the communities of Laytonville and Round Valley/Covelo, including promotion of walking and biking as options for transportation.
2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, LIA and partners will provide/promote structured physical activity opportunities at least twelve times during the year to reach at least 100 students at school or afterschool in the communities of Laytonville and Round Valley/Covelo, including promotion of walking and biking as options for transportation.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2018, LIA and partners will provide/promote structured physical activity opportunities at least fifteen times during the year to reach at least 125 students at school or afterschool in the communities of Laytonville and Round Valley/Covelo, including promotion of walking and biking as options for transportation.

   b. By September 30, 2019, LIA and partners will provide physical activity opportunities to reach at least 15 adults in the community of Fort Bragg through the introduction and promotion of walking groups as options for transportation and increased physical activity to address healthy weight management.

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):

By September 30, 2019, LIA and partners will increase physical activity opportunities to students in at least three school settings in the communities of Laytonville and Round Valley during/afterschool and promote walking and biking to school, and to adults in the City of Fort Bragg by establishing and promoting walking groups as options for transportation and increased physical activity to address healthy weight management.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Provide/promote structured physical activity education opportunities during school in communities of Laytonville and Round Valley, with promotion of walking and biking to school as options for transportation to school to low-income children, adults and families at qualifying sites. (This activity will occur at sites in conjunction with nutrition education and Harvest of the Month activity noted under Activity 1.1 and 1.2)	x CED CEI MPR C&C TTA	CWD x LHD AAA UCCE CCC	CWD: LHD: Laytonville Health Start Round Valley Indian Health Center AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF Sign in

3.2	Provide structured physical activity education opportunities afterschool in communities of Laytonville and Round Valley. Activities may include walking, biking, hiking, gardening, sporting games, etc. in low income areas. (Some of these activities may be partnered with nutrition education activities noted under Activity 1.1 and 1.2.) 5	Building/Space	$0		$0	$0	
6	Maintenance			$0	$0	
7	Equipment and Other Capital Expenditures			$0	$0	
8	Contracts/Sub-Grants/ Agreements**	$0	$74,725	$59,051	$59,051	-20.98%
	Total Direct Costs:	**$26,120**	**$274,609**	**$208,871**	**$234,991**	-14.43%
9	Indirect Costs*** Indirect Cost Rate=25 %	$9,880	$45,391	$31,129	$41,009	-9.65%
	Total Federal Funds	**$36,000**	**$320,000**	**$240,000**	**$276,000**	-13.75%

	Budget Categories	Justification For Greater Than 5% Difference From FFY 2017 Budget
1	Salaries/Benefits	Reduction in funding this FFY led to decreased FTE.
2	Non-Capital Equipment/Supplies	Last year's amount was not enough to cover expenses in that category.
3	Materials	Last year we didn't spend all the funds in this category.
4	Travel	Reduction in funding this FFY so there are not as many trips planned out of county.
5	Building/Space	
6	Maintenance	
7	Equipment and Other Capital Expenditures	
8	Contracts/Sub-Grants/ Agreements**	Reduction in Funding this FFY decreases amount we can subcontract into the community.
9	Indirect Costs	Reduction in this FFY in Salaries/Benefits also reduces the Indirect cost.

*Provide narrative describing all expenses.

**Retain copies on site.

***Provide assurances that the indirect cost rate is an approved rate (Financial and Cost Policy Supplement).

****Please note that funds cannot be carried over into the next Federal Fiscal Year if the funds are in the last year of their 2-year period of performance.

County Name: Merced County

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency (counterpart local agency) Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
x	University of California: UC CalFresh UCCE: (UC Cooperative Extension, Merced County: UCCE)
x	California Department of Public Health: CDPH: (Merced County Department of Public Health: LHD)
x	California Department of Aging: CDA: (Merced County Area Agency on Aging: AAA)
	Catholic Charities of California: CCC: (Catholic Charities of California: CCC)

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.

- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Merced is one of the poorest counties in California. It is ranked fifth from the bottom in California for socioeconomic status, with high unemployment, low household income, high poverty rates, and low college-level education attainment.[1] The county covers 1,984 square miles, extending approximately 70 miles from east to west and 35 miles from north to south. Most of the county is farm land, with a year-round growing season. Six cities are incorporated, and there are 18 unincorporated communities.[2] Highway 99 travels through the middle of the county, and east-west highways take travelers to the coast or the mountains, Yosemite National Park in particular.

SNAP-Ed Eligibility

In 2010, households with children received more than four-fifths (81.6 percent) of total CalFresh benefits.[4] Almost half of the county, 48.9% is SNAP-eligible, for a total of 123,240 residents. Accordingly, 26 of 49, or 53%, of all census tracts qualify. Over 90% of the schools, 97 of 104, qualify based upon National School Lunch Program Free and Reduced Meal Participation Rates. CalFresh is used by 78.1% of Merced county residents who qualify at 125% of the federal poverty level.[3] One quarter of residents live below the federal poverty level, but more than one in three children live in poverty. Merced currently ranks 55th in the state for children living in poverty.[5]

Demographics

There are 266,353 residents in Merced County.[6] Merced County is predominantly Hispanic, who make up 57.5% of residents, compared to 38.6% statewide. Over half of the children (54%) live with at least one parent who was born in another country, often Mexico, South East Asia, or India.[7] The major languages spoken include English, Spanish, Hmong, Portuguese, and some Punjabi, Hindi, Laotian, Thai, Mien, as well as occasional Oaxacan.[8] The Hmong are an important ethnic group in Merced. As of 2010, there were 4,741 people of Hmong descent living in Merced City, making up 6% of the population. Today, there is a vibrant community of Hmong farmers who sell produce at farm stands on their property, and Asian grocery stores. Merced is made up of a young, diverse immigrant population. There are over a dozen migrant Head Start programs serving the children of today's farm laborers. This has a direct impact on food habits, eating patterns and health beliefs. Because the population is young, there is an opportunity to introduce healthy habits for life.

Median family income is low: $39,922 for families with children under 18, which is only 62% of the state-wide median income of $64,828.[9] Atwater, Delhi, Dos Palos, South Dos Palos, El Nido, Gustine, Le Grand, Los Banos, Planada, Merced, Stevenson, and Winton all contain at least one census tract which is SNAP-eligible. Southwest Merced has at least one census tract where at least half of the residents' income is less than 125% of the federal poverty level.[10]

Food Assistance Programs

CalFresh

Most (78%) of those who are income eligible at the 125% Federal Poverty Level use CalFresh. Merced is ranked 10th in the state in the Program Access Index.[11]

WIC

Two out of three babies born in Merced County receive WIC benefits.[12]

School Meals

Almost 80% of children are eligible for free/reduced school meals, versus 57% state wide. Half of children who receive school lunches also receive school breakfasts. Only 18% of school lunch participants are also served 'summer meals'.[13] There is an opportunity to feed more low income children with school breakfasts and summer meals. Merced City School District and Livingston School District both currently offer Universal School Breakfast.

A need was identified in the summer meals program, where only 18% of those who receive school meals are served summer meals. There is an opportunity to feed more low income children with summer meals. The UCCE works with Food Service Directors and summer meal feeding sites to incorporate nutrition education activities; however due to the classroom nature they are looking at utilizing the Coordinated Approach to Child Health (CATCH) Trainings to increase physical activity at these sites.

Child Care

Although there are 6,778 licensed child care slots, only 46%, or 3,122, participate in the Child and Adult Care Food Program (CACFP). [14]

Food Bank and Pantries

Last year the Merced County Food Bank served 80 non-profit agencies, and distributed 3.08 million pounds of food. This nonprofit agency coordinates the USDA commodities distribution of 1.1 million pounds of food at 24 sites and a Senior Brown Bag program at 17 sites for seniors and adults receiving SSI.[15]

UC Merced

University of California, Merced started their own food pantry for students in 2013; the majority of their students are from low income families. Four out of five 2012 UC Merced full-time undergraduates were awarded income-based grants or scholarships. When asked how frequently students have "skipped meals to save money," only one fifth answered 'never', (8%-very often, 12%-often, 12%-somewhat often, 24%-occasionally, 22%-rarely, 21%-never).[16]

Seniors

In 2010 there were 34,242 residents aged 60 years or older. Seniors ranked nutrition services as their number two need, second only to health services, in a recent survey. The Area Agency on Aging has identified these as priority populations to serve:

1. Low-income minority seniors
2. Non-English-speaking or limited-English-speaking seniors
3. Isolated seniors living in rural areas
4. Seniors involved with long-term care

The nutrition risk percentages for our Title IIIC participants are as follows:

Low Risk 24.3%

Moderate Risk 29.1%

High Risk 46.6%

The Area Agency on Aging serves a hot lunch at seven congregate meals sites, and delivers a five pack of frozen meals each week for home delivered meals clients.

Overweight and Obesity

Merced County has the distinction of having the second highest rate of adult obesity, 31%, in the state.[17] These figures are corroborated by Mercy Hospital's 2013 data showing 75% of adults have an unhealthy weight, with 32% of adults as obese. Obesity was more prevalent among women (37%), adults between the ages of 40 and 64 (41%), and the poor (38%). County residents who were overweight or obese were more likely to have high blood pressure, depression, arthritis, activity limitations, and diabetes. Half of the obese adults had received advice about weight from a health care professional. Four in ten are trying to lose weight.[18]

Many children are also overweight, with 41.5%-45.5% of school children in grades 5, 7, and 9 who are overweight or obese.[19] The countywide Fitnessgram data also shows more students who are 'Economically Disadvantaged' in the High Risk category (35.2%) compared to those students who are 'NOT Economically Disadvantaged' (31.5%).[20]

These figures are confirmed by other sources. Child Health Disability Prevention Program (CHDP) exams showed a similar rate for overweight and obese children, 40.2%, in 2009, the last date this data was available.[21] Based on the heights and weights reported by surveyed parents, 46.9% of Mercy Hospital & Medical Center Service Area children age 5 to 17 were overweight or obese.[22]

Breastfeeding

In California, 93.5% of women try breastfeeding to some degree in the hospital. However, exclusive in-hospital breastfeeding rates are only 67% statewide. In Merced there is a disparity in exclusive breastfeeding rates among Hispanic mothers: only 62% breastfeed exclusively. Hispanic mothers account for nearly two thirds of all births. Merced's exclusive breastfeeding rate is in the bottom fourth of all counties in California.[23] Children who are breastfed for six months are less likely to become obese.[24] The 3 year PICH grant from the CDC is addressing breastfeeding. They are working on two initiatives: work with both of the local hospitals to move towards becoming Baby Friendly, and creating systems for referral to breastfeeding care for postpartum mothers.

Bus Advertisements

Merced County operates a county-wide bus system. However, no ads are currently permitted on the buses, and bus ads have traditionally been used to reach the low income population. Bus ads are not available as a method of indirect education in Merced County.

Environment

Merced County Department of Public Health's 2012 CX3 survey of 6 communities found areas with limited access to healthy food and physical activity.[25] Three communities had very limited parks and playgrounds: zero in downtown Livingston, one for Winton's 10,613 residents, and one for Dos Palos' 6,041 residents. Only one neighborhood had a supermarket with public transportation, and there were only four farmer's markets/flea markets located in Merced, Le Grand, Los Banos, and Atwater. Most people do not live within a half mile of a supermarket or large grocery store. However, there are multiple fast food outlets in five of the six areas. There are also many schools and convenience stores, which may provide places for effective interventions.

The Healthy Stores Healthy Community survey led by the tobacco program found that, in the Central Valley, only a third of stores which accept CalFresh also sell a good selection of quality fresh fruits and vegetables. Over half of the stores sell sugary drinks at checkout and are near schools. The majority have unhealthy exterior advertising.[26]

One school in South Merced (Farmdale Elementary), and one in Winton (Winfield Elementary), have shared use practices; grant funding provides 3 evening physical activity classes for parents a week. Very few school grounds are accessible for community use. They are secured with locked fences and gates due to concerns of vandalism.

There are 18 unincorporated communities, most surrounded by farmland. Because of this, infrastructure such as parks, bike lanes, sidewalks, and safe crossing zones, are very limited.

Poor air quality limits residents' ability to be active outdoors. Merced County has significantly high daily fine particulate matter violations (12.3). Physical education teachers must teach indoors frequently due to poor air quality.[27]

Access to Healthy Food

Food insecurity rates are high. About one in six people in the county experience food insecurity. More than a third of the county's children are food insecure.[28]

Food Deserts

There are ten food deserts, with four concentrated in South Merced. Others are in Atwater, Livingston, Merced, Planada, and Dos Palos/South Dos Palos. A total of 56,432 residents live in a food desert, which is more than one in every five residents.[29]

Merced's food environment index is 6.3 out of 10, well below the state average of 7.5. This figure reflects the combination of limited access to healthy foods and food insecurity.[30] Four out of ten Los Banos residents could not find fruit and vegetables of good quality within walking distance of where they live.[31] Although in the Central Valley, home to food production, 0ne in five residents have limited access to food due to poverty, living in a rural area, and a lack of full service grocery stores.

The county had 129 fast food restaurants in 2012; the number has increased over 7% since 2007. There are no zoning restrictions limiting their presence near schools.[32]

Certified Farmer's markets are in Merced, Le Grand, Gustine and Los Banos. However, only the Merced Certified Farmer's Market accepts EBT/CalFresh. A flea market sells produce in Atwater, Merced and Los Banos and it also accepts EBT.[33] There are many farm stands on small family farms in the spring, summer, and fall. They accept cash only. The MCDPH is currently offering these small farmers technical assistance on EBT/CalFresh acceptance. CNAP is gathering information from the community and farmers on the possibility of starting a new Farmer's Market in Livingston.

Access to Physical Activity

More than half (68%) of residents have accesses to exercise opportunities (live reasonably close to a location for physical activity such as a park or recreational facility).[34] Lack of activities was the fourth most common concern in the Los Banos hospital community needs assessment. Residents noted a need for: activities for children, adult activities, bowling alley, senior activities, miniature golf, things for teens to do, places for children to play, and more leisure

activities.[35] The 18 unincorporated communities rarely have funding for sidewalks, bike lanes, safe cross-walks, or walking paths, much less recreational facilities. For example, swim lessons and open swims for the public are only offered by Atwater and Merced cities, during the summer.

4. **Community Assessment**

Demographics

Community assessment data includes multiple health and community assessments (see references), including the Merced County Department of Public Health's (MCDPH) the latest CX3 data comes from the CX3 survey conducted in 2012. The population in Merced is young, and families are large. Residents include many immigrants from Mexico and South East Asia. The integrated work plan will focus on parents, families, and seniors. Local Implementing Agencies (LIAs) will reach children at early childhood education sites and schools, and adults through parent education at schools, the local welfare department, low income housing, and seniors at congregate meal sites. Education and interventions in multiple languages are needed, particularly Spanish and Hmong.

Health Parameters

Rates of obesity and overweight are high for both adults and children, and are some of the worst rates in the state. Diabetes rates in Merced, 11.3%, are similar to the state average of 11.7%. However, rates of pre-Diabetes are 12.3%, more than twice the national prevalence of 5.1%. It is vital to educate parents as well as children, and to address the environment people live in.

Geography & Food Deserts

Merced County is a large county composed primarily of farmland and agriculture jobs. Many residents have limited access to healthy retail; one in five lives in a food desert. For some, this is because they live out in the country. For others, such as those in South Merced, this is due to the lack of grocery stores. This plan will address the need for healthy retail by building on the strengths in the county. The LHD will provide education and technical assistance to farmers to offer CalFresh acceptance at existing farm stands/farmers markets/flea markets. The MCDPH will also continue to promote healthy retail with 1-3 small corner stores, and coordinate healthy retail efforts with Lifetime of Wellness' retail program.

Several surveys, including CX3, found limited opportunities for physical activity. This plan includes serving on school wellness committees, other community councils and groups, to encourage opportunities for physical activity and healthy eating. Due to the number of school districts in Merced County the LHD and UCCE have divided up which districts each agency serves. This is based off of established partnerships and are in relationship to the locations of community programming. The Partnerships in Community Health (PICH) grant, housed at the LHD, is addressing shared use with 3 school districts to increase opportunities for physical activity. The LHD and UCCE will coordinate activities with PICH by serving on their leadership team. For example, in 2013 SNAP-Ed agencies assisted PICH and MCDPH with a community walkability assessment in Winton and Livingston. In addition, this year Merced County will receive active transportation funding. As the County improves transportation infrastructure in Winton, MCDPH will provide community education on active transportation, and SNAP-Ed LHD and UCCE agencies will partner with them.

Food Insecurity and Poverty

Poverty rates are high, especially for children. Although usage rates of CalFresh are good, the emergency food system is also well used. Merced County Food Bank serves over 126 food pantries. Making sure that recipients know how to prepare the foods they are receiving is important. Nutrition education/food demonstrations at emergency food sites, especially the USDA food distributions, are a component of this plan to be provided by the LHD. Community and school gardens are a PSE intervention which will help address food insecurity. This will be addressed by the LHD for community and school gardens, and UCCE will focus on school gardens. Both agencies are part of the CNAP Community Garden Workgroup for sharing information and resources. The UCCE is also working to bring the Master Gardeners into this project as it expands. The LHD will continue to work with the City of Merced and other municipalities to update zoning, allowing community gardens.

5. **Community Change Goals**

The IWP plan addresses three objectives: Providing education to adults along with environmental/policy/systems supports at agencies which serve adults; Providing education to children along with environmental/policy/systems supports at agencies which serve children; and providing technical assistance on healthy food access, including healthy retail, Harvest of the Month, CalFresh acceptance, and zoning, to support policy/systems/environmental strategies.

The CNAP Collaborative identified increasing access to healthy food and water as its original goal. Other areas of need identified by the CNAP include local food promotion and access, nutrition education, gleaning, community gardens, drinking water, increasing summer meals, and collaboration between agencies including marketing of our services. In 2014 CNAP chose one project to focus its efforts; which was establishing a new farmer's market. This will be the primary focus for 2017. The CNAP Collaborative partners are currently exploring the feasibility of a market in Livingston. This past year the CNAP has established three workgroups: Community Gardens, Healthy Retail, and Nutrition Education. The three LIAs are meeting regularly to coordinate efforts, and to provide SNAP-Ed services to reach some of the CNAP collaborative's long term identified goals.

This IWP addresses increased access to healthy foods, especially fruits and vegetables, in food deserts. A Healthy South Merced group was able to create special city zoning in the city plan, over 3 years ago, to attract a full service grocery store, but no stores have located in South Merced yet. The Produce on the Go truck is no longer in existence and therefore unable to serve food deserts. This plan focuses on greater acceptance of EBT/CalFresh, at existing farmers' markets/farm stands/flea markets/community support agriculture venues.

This plan is prioritizing its work in the areas of the county that are food deserts and/or very low income (below the 125% FPL). This includes areas in Atwater, Dos Palos/South Dos Palos, Los Banos, Planada, South Merced, Livingston, and Winton. Together, the three LIAs are targeting preschools, schools, after school programs, foster youth, parents at schools, the school environment; adult education at community sites, community and school gardens, emergency food sites, low income housing, local welfare department; healthy retail; education at senior congregate meal sites, and supporting healthier standards and policies at

community agencies. The LHD will continue to address zoning for community gardens and community food producers. The LHD and UCCE are working to support other LHD programs efforts in promoting joint use agreements, drinking water sources in schools and afterschool programs and healthy retail partnerships.

The community of Dos Palos is one that the LHD and UCCE will begin conversations with the community in year one. It is a community that has lots of needs and has had several community assessments. The LHD will work with partners to host a community forum where the community can receive the information that has been gathered and they can determine what their priority areas are. This community is a food desert and has had un-drinkable water from their city sources. So while a focus of nutrition, physical activity and gardening are of importance, the LIAs are concerned that the community is not at a point to explore those behaviors. Working with outside SNAP funded partners, such as United Way, Cultiva La Salud and other MCDPH programs for a community change/movement will allow these residents the improvements and voice that they need.

Work will also begin with the K-8 classrooms at 3 elementary schools, one preschool, Dos Palos adult school sites and one high School and to introduce nutrition education and physical activity components. School site assessments will be done to determine what other environmental supports may be able included at the two elementary schools and one middle school in Dos Palos.

There are several other concurrent projects in Merced County. This work plan has taken into account their sites and activities, and avoided duplication of efforts. We will continue to partner with Partnerships in Community Health (PICH). PICH addresses policies for water at after school programs in schools; Asset mapping of healthy food resources; Tobacco free environments (multiple unit housing and college campuses); Development of referral system to healthy lifestyle intervention such as Chronic Disease Self-Management Program classes; and community plans supporting recreation, active transportation and healthy food retail. MCDPH is currently working with a local hospital to achieve steps to becoming Baby Friendly, increase postpartum care networks, and thereby increase exclusive breastfeeding rates. Lifetime of Wellness has a healthy retail, worksite wellness, and sodium reduction component. MCDPH is piloting a referral system with a clinic using electronic health records.

The Building Healthy Communities (BHC) project has several large community and youth engagement projects SouthWest Merced, Beechwood/Franklin and the Planada/Le Grand area. Southwest Merced Project includes several of the sites that LIA's target for the identified priorities. The LHD addresses Merced Adult School, Merced Regional Occupational Program (ROP), Weaver School District (Farmdale, Pioneer and Weaver Middle Schools). UCCE targets the Merced City School District K-8 Schools at three middle schools (Tenaya, Hoover, Rivera Middle), eight of the elementary schools and Yosemite High School. The BHC project and partners have been involved heavily as community partners on the Merced Health and Wellness Committee (HAWC) and Weaver School Policy Committee, supporting changes for increased nutrition education integration, physical activity and joint use agreements.

In 2017 the HAWC committee will be presenting school wellness policy revisions to the Merced City School board for adoption. These included revisions came from key school stakeholders such as the Food Service Director, the Physical Education Teachers, parents, risk management and the school health team of

nurses, psychologists and community agencies. The work of the HAWC partners has assisted in driving the development of a comprehensive nutrition education program that is alignment with Merced City School Districts STEAM programming (Science, Technology, Engineering, Art and Mathematics). This is allowing the UCCE to have further integration into the classrooms with research based curriculum, outdoors with garden enhanced nutrition education curriculum, physical activity curriculum integration with Coordinated Approach to Child Health (CATCH), use of Smarter Lunchroom Strategies in the cafeteria, environmental changes such as holding recess before lunch, creating playground stencils in preschools and having permanent locations for parent classes to be conducted on site as part of the joint use agreements within the district. Within the next three years this comprehensive plan will have UCCE curriculum in the pacing calendar and it will be required for teachers to utilize the materials (some as options and some as district requirements). This framework has been building with the partnerships over the course of several years and has the support of the assistant superintendent who has been a key player in the collaboration for revisions to the local wellness policy.

Additional several BHC partners hold parent meetings to assist parents in taking action for Local Control Funding and parent participation on these policy committees. This involvement and relationship will continue with BHC's Beechwood/Franklin project and as UCCE moves back into the Winton School Districts three elementary schools and one middle school; continues work in the two located elementary schools (Franklin and Stephanie elementary Schools). BHC also has focus in Planada/Le Grand where the LHD supports Planada School District and Le Grand High School while UCCE provides assistance to Le Grand Elementary School. This Merced community partnership is built with strongly involved agencies and actively involved residents.

The Merced Organizing Project meets regularly with residents in South Merced. The Healthy South Merced group is facilitated by Golden Valley Health Center, in South Merced. Lifeline is beginning a community engagement project in South Merced, as well as continuing their work in Merced and Winton, and the LHD partners with them to offer education and community garden support. The CA4Health grant, and now the PICH grant, will focus on Safe Routes to Schools projects in several communities. In the past SNAP-Ed agencies have collaborated with these projects, and participated in community meetings/neighborhood assessments in Livingston and Winton, helmet fittings for school children in Winton, and walk/bike to school day at Farmdale Elementary School in South Merced. The LIA's anticipate that this involvement will continue as it relates to our goals and objectives and continues to build strong community collaboration.

6. **Partnerships and Collaborative Efforts**

LIAs will promote SNAP-Ed services and activities by connecting with other agencies, such as County Welfare Departments, etc. This is primarily accomplished through the CNAP Collaborative and its working groups.

Merced County's CNAP Collaborative has representatives from many sectors: School Food Services, UC Merced, Early Childhood Education, Health Care, Environmental Health, Human Services Agency, Community nonprofit agencies, Department of Public Health and both USDA(WIC) and SNAP-Ed funded

programs, (including UCCE Merced, Area Agency on Aging, and subcontractors) The CNAP meets at least quarterly. During 2016 two workgroups began, Community Gardens, and Healthy Retail. CNAP's mission is to:

- Advocate for policies that support food security
- Foster community partnerships for local food
- Assure safe food and water
- Cultivate a healthy food culture
- Bridge food resource gaps in order to grow healthy children and economically secure families.

The Merced County CNAP Collaborative narrowed its many interests to one goal in 2014: increase access to healthy food and water. Access to local produce, gleaning, and community gardens are the top three areas of interest the group identified. The group identified one specific project to meet this goal: establishing a new farmer's market

In addition, CNAP identified a need for marketing and information sharing as a goal. The HealthyMerced Facebook page was launched in April 2015. Merced has a need for speakers for television and radio stations to reach the Hmong and Spanish speaking residents; CNAP members are being recruited to be media contacts. The CNAP group is also developing an internal systematic method of collecting and sharing information on what each agency provides regarding nutrition education and physical activity promotion.

Participating SNAP-Ed funded agencies are: Merced County Area Agency on Aging; University of California, Cooperative Extension; and Merced County Department of Public Health.

The following agencies are active participants in CNAP:

- California Health Collaborative
- Central California Alliance for Health provides Medi-Cal managed care in Merced County.
- Central California Regional Obesity Prevention Program has been active in joint use, and facilitated joint use agreements at several schools.
- Environmental Health keeps the group apprised of food safety laws, including the new Community Food Producer law.
- First 5 serves 0-5 year olds and child care providers and preschools.
- Golden Valley Health Center is a federally qualified health center, and also provides healthcare for the undocumented population.
- Merced County Office of Education Head Start has 17 school sites across the county.

- Merced Unified High School District, Food Service.
- UC Merced's Public Health department is actively researching the food environment and health communication.
- WIC, serving almost 17,000 clients every month.
- Lifeline CDC is a nonprofit agency providing asset based community development services in Winton, Merced, and South Merced.
- Merced County Breastfeeding Coalition promotes breastfeeding and baby friendly hospitals.
- Partnership in Community Health (PICH), a CDC grant funded project at MCDPH for Merced County
- Lifetime of Wellness grant at MCDPH, healthy retail, sodium reduction efforts
- Merced Local Food Project, increasing access to food with community gardens
- Merced County Human Services Agency provides assistance in CalWORKs, CalFresh & Medi-Cal.
- Merced County Food Bank

The SNAP-Ed funded agencies, UCCE, AAA, and MCDPH, have also been meeting at least bi-monthly to coordinate site activities, consistent messages, continuity of the Harvest of the Month program and plan coordinating community or site activities.

7. **Key Messages**

x	Food Safety	x	Physical Activity	x	Fiber-Rich Foods
x	Whole Grains	x	My Plate-Healthy Eating Plan		Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
x	Fruits & Vegetables	x	Limit Added Sugars or Caloric Sweeteners		Other *(specify):*
	Fats and Oils	x	Food Shopping/ Preparation		Other *(specify)*:
	Lean Meat & Beans				
x	Sodium & Potassium				
x	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**
   All curriculum and materials used will be from the approved USDA SNAP-Ed Connection website, and/or the California SNAP-Ed Integrated Curriculum List. All curricula and materials will be defined and appropriate for the target audience identified in Section B: Target Audience Description of this document.

9. **Intervention and Evaluation Plan Narrative Summary**

The vision of the Integrated Work Plan is for Merced's SNAP-Ed funded agencies to promote access to healthy eating and physical activity in order to fight obesity and chronic disease. Our mission is to cultivate healthy communities in Merced County by educating, encouraging, and collaborating with families and community partners to improve their environment for long-term health.

Merced County has multiple cities, census tracts and neighborhoods which qualify for SNAP-Ed services. The LIAs will prioritize interventions in areas with very low income levels and/or the presence of a food desert. The long term goal is to provide multiple layers of different interventions within each targeted priority community. For example, SNAP-Ed agencies provide these layers of interventions in South Merced: Harvest of the Month and integrated nutrition education in the classroom; garden enhanced nutrition education/School gardens; participation/assistance on School Wellness Committees; Teacher Trainings; nutrition education series or workshops for parents at Head Start, preschool or elementary level; school gardens at preschool thru 8th grade sites; Healthy Beverage policy at Head Start; nutrition education or physical activity promotion at after school programs; City of Merced recreation classes on 'Cooking Matters'; Healthy Beverage policy at Boys and Girls Club; classes for adults at low income apartments and Human Services Agency; IOE classes for adults at Adult School; community engagement at a local nonprofit; education for Seniors at Senior Meals program; education at USDA food distribution sites; Healthy Retail at several stores in the area; outreach booth at County Fair; NEOP billboards on 'Be Better; or other campaigns; work with City of Merced to create first zoning ordinances for community gardens and community food producers. Partnership in Community Health (PICH) partners worked with the ASSETs program to develop a healthy beverage policy at all after school programs in Merced County as well as finalize the joint use agreement at Tenaya Middle School. The SNAP-Ed funded agencies all assisted with nutrition education to support the healthy beverage policy. More information is described in detail below.

PSE Efforts:

(LHD) Community Gardens

(LHD) Addressing County and city zoning for community gardens and community food producers

(LHD) Healthy retail support/information for grocery stores, farm stands, farmer's market, flea markets, and Community supported agriculture

(LHD) School Wellness Committees at Weaver School District; Los Banos School District; Atwater Elementary School District; Dos Palos School District.

(LHD) Work with Merced County Food Bank to develop systems to offer more produce.

(UCCE) Nutrition Education training, including Garden Enhanced Nutrition Education training, for teachers (Preschool -8th Grade) at Merced City School District (MCSD) and Livingston Union School District (LUSD) Ballico-Cressey School District (BCSD) and Winton Elementary School District (WESD)

(UCCE) School Wellness Policy Committees with MCSD and LUSD. In FFY 17 MCSD will be piloting several potential environmental supports for future policy changes including recess before lunch. UCCE participation in School Wellness Policy committees in Ballico-Cressey and Winton Elementary School District will occur in FFY 18.

(UCCE) FFY 17 increased focus in the areas of Smarter Lunchrooms and School site assessments for increase school garden and playground stencil locations. Potential increase for physical activity and indirect education.

(AAA) Container and home gardening at senior meal sites

Direct Education Efforts:

(LHD) Youth at these sites: Merced City Recreation, Weaver Elementary School District, Golden Valley High School, Lifeline's McNamara, Meadows and Winton community centers

(LHD) Adults at these sites: Public housing and low income apartments, Job Club at Human Services Agency, Lifeline's Winton and Merced community centers, parents through Redirect program at Family Resource Council, Adult Schools, parent meetings at schools.

(UCCE) Eight of the MCSD Elementary Schools (Franklin, Stephanie, Fremont, Gracey, Muir, Wright, Stowell, Sheehy) and two of the MCSD Middle Schools (Hoover, Tenaya) fall in this South Merced area. This includes preschools and special education classrooms as well as afterschool programming that will have trained teachers and staff providing integrated nutrition education and Garden Enhanced Nutrition Education. The Food Service director is also looking at the Smarter Lunchroom strategies.

(UCCE) will also be providing Direct Nutrition and Garden Enhanced Nutrition Education in Livingston Union School Districts 4 primary schools (Selman Herndon, Yamato Colony, Campus Park and Livingston Middle School). These sites include preschool, special education and parent nutrition education series as well as afterschool programming projects. These programs will also be provided at BUSD and WESD schools.

(UCCE) Will conduct multiple nutrition education class series to parents at the both the Merced and Livingston school site locations, as well as Yosemite Adult School and Stephen Leonard Park.

(UCCE) will be training the Head Start Family Service Providers to conduct Parent Nutrition Education using the Happy Healthy Families Curriculum as well as www.eatfresh.org lessons and application.

(AAA) Will provide nutrition and physical activity education classes at all 7 Senior Congregate Meal Sites throughout Merced County.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Merced County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Nonfunded partners:

(PICH) Water at after school programs in schools; Asset mapping of healthy food resources; tobacco free housing; Chronic Disease Self-Management Program classes; Joint Use Agreements at schools.

(CCROPP) Free Zumba classes, 3 nights a week, at Farmdale Elementary, funded by a local hospital grant

(AAA) Area Agency on Aging will provide additional education to the seniors through their falls prevention program.

(Lifetime of Wellness) offers pre Diabetes Prevention Program, Healthy Retail in Livingston, Sodium Reduction Program, Worksite Wellness, and develop and/or implement transportation and community plans that promote walking.

(UCCE) 4H and Master Gardener programs will be contacted to explore opportunities for collaboration

The table below shows the high priority areas the LIAs will focus on serving. Within each area a variety of interventions are planned. The LIAs provide traditional nutrition education at multiple sites in each area, as well as indirect education at health fairs and community events. The LIAs jointly maintain a social media page on Facebook. The LHD will expand its adult education at the LWD and adult schools, and continue to reach parents through school parent meetings and low income housing. The LHD reaches junior high and high school aged youth at high schools, Boys and Girls Club, and Merced City Recreation. AAA provides nutrition and physical activity classes at each congregate meals site. UCCE provides nutrition education for youth and parents at schools, and adults at the Central Valley Opportunity Center and Family Resource Center.

Area	Agency	Direct Education (Current)	Direct Education (Planned)	Policy/System/Environment, Intervention
Atwater				
	AAA	Senior Meals-Nutrition/Physical Activity Education for Seniors		Container & Home Gardening
	UCCE		MCOE-Head Start Students and parents; Nutrition Education and Garden enhanced nutrition education (youth & adult); use of eatfresh.org	Preschool stencils

County Wide Efforts				
	LHD	USDA Food Distribution Sites		Merced County Food Bank-system for improving quality of foods, offering healthy retail at food pantries. Merced County Planning Dept-zoning for community gardens, community food producers Healthy Retail Head Start-17 school gardens funded in past, REAIM to monitor

Several PSE strategies and interventions are planned in each area. The following is an overview of PSE efforts.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Merced County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Environment

- There are 27 gardens at schools, community sites, senior centers, and every Head Start that received SNAP-Ed financial support in 2014 and 2015. LHD and UCCE will continue to monitor the gardens and connect sites with resources in the community, such as the Master Gardeners, or UCCE's Garden Enhanced Nutrition Education. LHD will monitor with REAIM tool.
- LHD will work with MCDPH to support shared use agreements at community and school sites.
- LHD is currently working CNAP and the City of Livingston to offer a Farmer's Market, and will continue to support this effort.
- During 2016 LHD subcontractors are offering information on healthy retail to grocery stores and small corner stores in 6 CX3 neighborhoods, and SE Asian stores, and farm stands. During FFY17-19 the LHD will continue to work on healthy retail, focusing on 1+ retail stores in each CX3 neighborhood.
- LHD is working with Merced County Food Bank to evaluate the quality of food donations, and to discuss methods to improve the quality of donations and offer healthy retail at distribution sites.
- UCCE will expand the Smarter Lunchroom Movement in both Merced City School District and Livingston School District.
- UCCE will assess school locations with preschool/Head start and special education to determine school stencils project as an environmental support for nutrition and physical activity education
- UCCE is collaborating with Dairy Council of CA and MCSD to begin piloting recess before lunch as part of the wellness committees' recommendations for future policy changes.

Policy

- LHD and UCCE partners continue to collaborate with the PICH grant to offer Rethink Your Drink education in the after school programs. PICH enacted a drinking water policy with the ASSETS (after school program) in 39 schools. There are additional school districts and after school programs which we plan to work with in this plan.
- LHD serves on Weaver School District Wellness Committee, Los Banos School District Wellness Committee, and has offered to serve on Wellness Committees at Atwater Elementary School District and Merced Union High School Districts, as they update their plans over the next three years.
- UCCE serves on Merced City School District Wellness Committee and the Livingston Unified School District Wellness Committee and will begin working with Le Grand School District, Ballico-Cressey and Winton School District for assessment in FY 2018.
- LHD will continue to offer technical assistance such as model policies and language for the City of Merced Planning department, Merced County and City of Livingston, on zoning for community gardens and community food producers.

Systems

- LHD will provide technical assistance and education to the Parent Leader Training Institute at Merced County Office of Education, where parents are trained in community engagement, and implement projects. LHD will present the most current CX3 data, and offer technical assistance to adults working on community engagement projects on nutrition or physical activity.
- LHD is collaborating with another MCDPH grant to pilot a referral system to SNAP-Ed nutrition classes from a community clinic. If this is successful, the LHD will expand this system to other clinics.
- LHD is partnering with Merced County Food Bank to assess the needs of its food pantries, and the nutritional quality of its food. MCFB will use this information to develop and implement new systems to offer healthier foods, especially fruits and vegetables.
- UCCE will provide teacher/extender training, using a train the trainer model, so that classroom teachers can deliver nutrition education. This year they will focus on Merced City School District, Livingston Unified School District and Le Grand Elementary School. These include preschool-8th grade classrooms. Assessments will begin in Ballico-Cressey and Winton Schools as well.
- UCCE will also be working with MCOE Head Start to train Family Support Service Providers to be extenders for nutrition education using Happy Healthy Families curriculum in FY 2017 and looking to expand that to additional series in FY 2018.
- UCCE will continue to provide support for their Smarter Lunchroom efforts at Merced City School District and Livingston School District. Expansion will begin in Le Grand and Winton School District.

Delivery methods and audiences include:

Adults: The Impact Outcome Evaluation (IOE) classes will be offered to adults at Adult School, the LWD/Human Services agency, and low income housing sites.

Adults will be reached with series-based classes & one-time classes in various qualifying sites, including parent education in the school environment. We will prioritize school sites where the children are receiving nutrition education. Education for families and parents will occur in the communities of greatest need, as described earlier, and at sites including Human Services Agency (LWD), preschools, schools, USDA food distribution sites, Job Club, Adult School, and public housing.

UCCE will provide nutrition education series based classes to parents of students at several school locations, primarily in Livingston School District and Merced City School District. They also provide classes at Central Valley Opportunity Sites in Winton and work to establish parent connections for nutrition education series at the Winton and Ballico/Cressey schools.

UCCE will begin efforts to utilize our partners at www.eatfresh.org and their online nutrition education lessons as extended efforts for knowledge and behavior changes in our communities. This pilot may turn out to be a great way to increase parent education for those parents that have difficulty getting to classes.

UCCE will be training the Family Service Providers that work in the Merced County Head Start programs to be extenders of Happy Healthy Family Curriculum. This supports many of the family goals that providers are encouraging throughout the many school site and home visits made during the school year.

Youth and Children:

The primary direct education of children in schools and preschools will be conducted by UCCE due to their expertise and ongoing relationships within Merced County Office of Education (MCOE) Special Education Program, Head Start, Livingston Union School District (LUSD) and Merced City School District (MUSD). These will be the primary target locations for UCCE Merced. UCCE will integrate nutrition education into the classrooms by providing train the teacher/trainer for classroom lessons using evidence based curriculum. Their focus will target Preschool thru 8th grade teachers and students in the classroom, afterschool programming through the partnership with MCOE ASSETS, school classroom, Garden Enhanced nutrition education, and physical activity integration using Coordinated Approach to Child Health (CATCH). To further create a comprehensive environment, UCCE sits on the MCSD Health and Wellness Committee (HAWC) and the Livingston School District Wellness committee where work will continue to broaden the Smarter Lunchroom Movement in partnership with the Dairy Council of California.

The MCPHD will offer nutrition education classes at high schools, middle schools, at after school programs, and at community agencies such as Recreation Departments and Boys and Girls Club.

Seniors: AAA will provide 10 direct education classes at each of the SNAP-Ed eligible Congregate Meal Sites. Each session will be focused on promoting increased fruit and vegetable consumption and physical activity. We will work with the senior advisory group and senior volunteer group to raise awareness and educate on the benefits that our SNAP-ED program provides. AAA will participate in community health fairs focused on seniors to increase knowledge and awareness on the benefits of a healthier lifestyle.

Media The LIAs use social media, radio, and news articles in local newspapers. The LIAs meet to coordinate USDA and NEOP approved messaging, such as Harvest of the Month, to promote healthy eating and physical activity. LIAs participate at community health fairs and events. We will request assistance from CNAP partners to provide radio and/or television media coverage in Hmong and Spanish.

Provide Training and education to community Stakeholders, such as retail, schools, advisory teams, volunteer programs, faith-based agencies, child care providers, and recreation programs, regarding increased fruit and vegetable consumption, increased physical activity, and/or reduction in consumption of unhealthy beverages. The LHD will partner with PICH to provide technical assistance on other possible policy/systems/environmental changes.

Policy Systems and Environment efforts include assisting the Merced County Food Bank to create systems to improve the quality of their food, improving the retail environment, supporting Farm to Fork efforts, improving the school environment for Smarter Lunchrooms and garden capabilities, improve current zoning around community gardens and community food producers, partner with PICH Leadership Team, provide technical assistance and education for farm stands and farmers markets to accept EBT, and monitoring community and school gardens.

Coordination The CNAP meets at least quarterly. We are in the process of creating an online system to share program information on what each of the partners are doing, resources used, targeted audiences and participation at events and meetings. CNAP now has two work groups: Healthy Retail and Community Gardens. The LIAs meet monthly or bi-monthly to discuss and coordinate current activities. Members of LIAs also serve on several community coalitions.

Evaluation

Evaluation of the Direct Education classes includes these tools:

- LHD- Impact Outcome Evaluation pre and post tests for 100 matched pairs of participants attending a series of 5 classes; ATF data forms for all adults at classes.
- UCCE-intent to change surveys; Pre-post curriculum surveys, food behavior checklists and retrospective surveys. As well as participant success stories regarding their behavior or knowledge are used with adults. Youth Evaluation often includes a Teacher Observation Tool and/or a Taste Testing Tool for in classroom nutrition education.

Healthy Retail Evaluation

- The LHD will assess CX3 neighborhoods in 2016 and then again in 2020.
- The REAIM tool is being used to document changes at participating retail sites.
- The Merced County Food Bank (MCFB) and LHD are partnering to evaluate the quality of foods at the food bank on a regular basis. The MCFB would like to improve the quality of food, and has requested this information to document progression towards their goal.
- An informal survey of 200+ SNAP-eligible residents shows that 20% shop at food pantries regularly; LHD is working with MCFB to provide healthy retail at distribution sites. The REAIM tool will be used to evaluate this.
- UCCE conducts the Smarter Lunchroom Movement of California Score Cards for evaluation of school cafeterias with food service directors.

The REAIM tools will be used to evaluate PSE efforts such as farmers markets/farm stands, school and community gardens, and school wellness. Community and school gardens which were started and/or supported with SNAP in 2014 and 2015 will be monitored by REAIM.

AAA:

For AAA we complete a Rapid Assessment of Physical Activity (RAPA) at the start of class series and at the end of the series. We are focused on assessing the level of physical activity of each senior. We illustrate how a small change will benefit their mobility activity. At the end of the series we review and compare the pre & post RAPA to identify areas of improvement. However, we also focus on areas that we need to promote that we need focus more and at the same time areas that need improvement.

Outside of the series, we provide single classes related to different topics. We emphasize the importance of eating and living healthy by making good food choices. We perform taste testing demonstrations based on the topic being trained, seniors experiment with different food texture combinations and flavors. A pre and post food and vegetable checklist is obtained to evaluate their progress in fruit and vegetable intake.

Our targeted population has a challenge since most of the seniors are set to their ways of cooking and lack of exercise. We have found that incorporating a topic that they like has been very helpful in gaining their trust and respect in order for them to be actively be engaged in the services we have to offer.

SECTION B: Target Audience Description

1. Gender	%		2. Age	#
Male	50		0 to 4 years old (Preschool): *0-5	16,127
Female	50		5 to 17 years old (School Age): *6-17	32,144
			18 to 59 years old (Adult): 18-64*	65,955
			60 years old and over (Senior): *65 years+	9,025
Total:	100			123,240

3. Ethnicity/Race

Ethnicity

Total Percentage Hispanic/Latino	Total Percentage Not Hispanic/Latino	Total Percentage Ethnicity
64.5%	35.5%	100%

RACE	**Hispanic/Latino**	**Not Hispanic/Latino**
Black or African American	0%	3.5%

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**
By 9/30/19, LIAs will provide direct education to 3,000 adults annually, and provide technical assistance or other activities that support policy/systems/environmental strategies, to at least 6 agencies which may include the Human Services Agency, City of Merced, Adult School, or others, on Nutrition Education Obesity Prevention topics, which may include but is not limited to, increasing food security, physical activity, fruit and vegetable consumption, and/or decreasing unhealthy beverage consumption, among SNAP-eligible adults.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Support community gardens with technical assistance.
- Healthy food standards at community agencies such as healthy meeting policies for parent meetings at schools
- Zoning and planning ordinances which support health, such as community gardens and community food producers
- Shared use/joint use agreements
- Healthy Retail at grocery stores, food pantries

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

By 9/30/17, LIAs will provide direct education to 3,000 adults and provide technical assistance or other activities that support policy/systems/environmental strategies, to at least 2 agencies, on Nutrition Education Obesity Prevention topics which may include but is not limited to, increasing food security, physical activity, fruit and vegetable consumption, and/or decreasing unhealthy beverage consumption, among SNAP-eligible adults.

2. **FFY 2018 (Year 2) Objective(s):**

By 9/30/18, LIAs will provide direct education to 3,000 adults and provide technical assistance or other activities that support policy/systems/environmental strategies, to at least 4 agencies, on Nutrition Education Obesity Prevention topics which may include but is not limited to, increasing food security, physical activity, fruit and vegetable consumption, and/or decreasing unhealthy beverage consumption, among SNAP-eligible adults.

3. **FFY 2019 (Year 3) Objective(s):**

By 9/30/19, LIAs will provide direct education to 3,000 adults and provide technical assistance or other activities that support policy/systems/environmental strategies, to at least 6 agencies, on Nutrition Education Obesity Prevention topics, which may include but is not limited to, increasing food security, physical activity, fruit and vegetable consumption, and/or decreasing unhealthy beverage consumption, among SNAP-eligible adults

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):
By 9/30/19, LIAs will provide direct education to 3,000 adults annually, and provide technical assistance or other activities that support policy/systems/environmental strategies, to at least 6 agencies, on Nutrition Education Obesity Prevention topics, which may include but is not limited to, increasing food security, physical activity, fruit and vegetable consumption, and/or decreasing unhealthy beverage consumption, among SNAP-eligible adults.

****Time Frame: Year & Quarter:**

Y1/Year 1 (FFY 2017); Y2/Year 2 (FFY 2018); Y3/Year 3 (FFY 2019)

Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

By 9/30/19, LIAs will provide direct nutrition and physical activity education to 6,000 children annually, and provide technical assistance to 6 agencies (such as the various school districts, Lifeline CDC) or schools on Nutrition Education Obesity Prevention topics, which may include but is not limited to, increasing physical activity and fruit and vegetable consumption, and decreasing unhealthy beverage consumption, among children in grades preschool thru -12th grade.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

I. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Smarter Lunchroom Movement policies
- Playground stencils for physical activity
- School Wellness policies
- Farm to School/Community policies
- School gardens
- Agency wellness policies
- Assessing water access and school water standards
- After School Wellness policies
- Shared Use/Joint use Agreements

II. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

By 9/30/17, LIAs will provide direct nutrition and physical activity education to 6,000 children annually, and provide technical assistance to 2 agencies or schools on Nutrition Education Obesity Prevention topics, which may include but is not limited to, increasing physical activity and fruit and vegetable consumption, and decreasing unhealthy beverage consumption, among children in grades preschool thru -12th grade.

2. **FFY 2018 (Year 2) Objective(s):**

By 9/30/18, LIAs will provide direct nutrition and physical activity education to 6,000 children annually, and provide technical assistance to 4 agencies or schools on Nutrition Education Obesity Prevention topics, which may include but is not limited to, increasing physical activity and fruit and vegetable consumption, and decreasing unhealthy beverage consumption, among children in grades preschool thru -12th grade

3. **FFY 2019 (Year 3) Objective(s):**

By 9/30/19, LIAs will provide direct nutrition and physical activity education to 6,000 children annually, and provide technical assistance to 6 agencies or schools on Nutrition Education Obesity Prevention topics, which may include but is not limited to, increasing physical activity and fruit and vegetable consumption, and decreasing unhealthy beverage consumption, among children in grades preschool thru -12th grade

Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)

Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):** By 9/30/19, LIAs will provide technical assistance on healthy food and/or physical activity access, which may include Safe Routes to Schools, Harvest of the Month promotion, healthy retail, healthy food standards, CalFresh acceptance, and/or zoning, to three local agencies (such as the Merced Co. food bank, school districts or the city of Merced) and at least three retail venues to increase access to healthy foods and beverages, and physical activity .

SNAP-Ed State Goals:

	Goal 1: Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Healthy food standards for Food Bank/Food Pantries
- Increased number of Farmer's Markets or flea markets or farm stands which accept EBT/CalFresh.
- Healthy retail with grocery stores including coordinated Harvest of the Month promotion.
- Zoning that allows sales of produce from homes and community gardens; community garden zoning.
- Safe Routes to Schools

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):** By 9/30/17, LIAs will provide technical assistance on healthy food access and/or physical activity access, which may include Harvest of the Month promotion, healthy retail, healthy food standards, CalFresh acceptance, and/or zoning, to one local agency and one retail venue to increase access to healthy foods and beverages.
2. **FFY 2018 (Year 2) Objective(s):** By 9/30/18, LIAs will provide technical assistance on healthy food access and/or physical activity access, which may include Harvest of the Month promotion, healthy retail, healthy food standards, CalFresh acceptance, and/or zoning, to two local agencies and two retail venues to increase access to healthy foods and beverages.

3. **FFY 2019 (Year 3) Objective(s):** By 9/30/19, LIAs will provide technical assistance on healthy food access and/or physical activity access, which may include Harvest of the Month promotion, healthy retail, healthy food standards, CalFresh acceptance, and/or zoning, to three local agencies and three retail venues to increase access to healthy foods and beverages.

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019): By 9/30/19, LIAs will provide technical assistance on healthy food and/or physical activity access, which may include Harvest of the Month promotion, healthy retail, healthy food standards, CalFresh acceptance, and/or zoning, to three local agencies and three retail venues to increase access to healthy foods and beverages.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Visit retail stores quarterly to offer healthy retail materials and support for healthy retail; provide healthy retail intervention for at least 2 stores in Y1, 2 stores in Y2, 2 stores in Y3. A total of six stores. FFY 2018 SNAP-Ed Budget

Organization Name:	California Department of Aging
County/Jurisdiction:	Merced County - PSA 31
FFY 2018 Total Budget:	**$24,024.00**
Budget Adjustment Request #:	

	Expenses*	FFY 2017 Carry-In Budget****	FFY 2017 Budget	FFY 2018 Budget	% Difference
1	Salaries/Benefits		$16,347	$17,124	4.75%
2	Non-Capital Equipment/Supplies		$300	$274	-8.67%
3	Materials		$2,150	$3,594	67.16%
4	Travel		$328	$463	41.16%
5	Building/Space		$0	$0	
6	Maintenance		$0	$0	
7	Equipment and Other Capital Expenditures		$0	$0	
8	Contracts/Sub-Grants/ Agreements**		$0	$0	
	Total Direct Costs:	**$0**	**$19,125**	**$21,455**	12.18%
9	Indirect Costs*** Indirect Cost Rate=15 %		$2,452	$2,569	4.77%
	Total Federal Funds	**$0**	**$21,577**	**$24,024**	11.34%

	Budget Categories	Justification For Greater Than 5% Difference From FFY 2017 Budget
1	Salaries/Benefits	
2	Non-Capital Equipment/Supplies	Due to needing additional funds for materials to implement the Walk with Ease componet of this year's budget, it was necessary to reduce this line and move the funds to the "Materials" line.
3	Materials	This FFY Merced County AAA will be focusing on providing not only more but a larger variety of PA to our older residents. These activities include the evidence based program, Walk With Ease which requires additional materials. The educational component of the program will not only educate our attendees on nutrition but also on proper storage of food items.
4	Travel	This line was increased due to the fact that the Staff Services Analyst is on the SNAP-Ed Statewide Regional Support Promising Practice Exchanges Committee which will require attendance at LIA Forum
5	Building/Space	
6	Maintenance	
7	Equipment and Other Capital Expenditures	
8	Contracts/Sub-Grants/ Agreements**	
9	Indirect Costs	

*Provide narrative describing all expenses.

**Retain copies on site.

***Provide assurances that the indirect cost rate is an approved rate (Financial and Cost Policy Supplement).

****Please note that funds cannot be carried over into the next Federal Fiscal Year if the funds are in the last year of their 2-year period of performance.

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Modoc County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Modoc County is located in the northeast corner of California. Modoc County is bordered on the north by the state of Oregon, on the east by the state of Nevada, on the south by Lassen and Shasta Counties, and on the west by Siskiyou County. According to the 2010 census, Modoc County has a population of 9,686. The National Center for Frontier Communities has designated Modoc County as a Frontier Area due to its remote location, geographic isolation, sparse population, limited services, and extreme travel distance between communities. The county seat of Modoc County is the city of Alturas, which is also the county's only incorporated city. There are 13 unincorporated towns throughout the county.

According to the SNAP-Ed County Profiles, 3743 individuals (41.1% of the population) in Modoc County are SNAP-Ed eligible based on income (≤ 185% FPL). Preschool age children comprise the largest percentage of SNAP-Ed eligible participants at 69.3%, followed by school age children (43.7%), adults (41.4%), and seniors (29.6%). Of this target audience, 75.1% identify as Caucasian, 19.7% as Hispanic, and 5.2% as unknown. English is the primary language spoken by the majority of individuals, with Spanish being the next most prominent language spoken.

Only 27% of the SNAP-Ed eligible population participates in CalFresh, leaving more than 2,700 eligible individuals underserved in Modoc County.

Of the four census tracts in Modoc County, 1 (25%) is SNAP-Ed eligible (≥ 50% incomes ≤ 185% FPL) based on American Community Survey "all races" data from 2008-2012 and 2009-2013 Census Tracts. Modoc County has two school districts with 13 schools. Of the 13 schools, 11 (84.7%) are SNAP-Ed eligible (≥ 50% FRPM enrollment, 2014). Overall, 65% of Modoc County students are SNAP-Ed eligible (932 individuals).

SNAP-Ed eligible adults in Modoc County who are overweight or obese represent 37.1%* of the population compared to state rates of 67.3%. The rate of overweight children ages 2-11 years is 50%*. The rate of overweight/obese children ages 12-17 years is unobtainable due to unreliable estimates for Modoc County.

The overall rate of food insecurity in Modoc County is 18.7%, and 30.8% of children experience food insecurity. The percent of low income population that had limited access to healthy food is 15%. The percent of zip codes that have grocery stores, produce stands, or farmers' markets are 29%. The percent of restaurants that offer fast food is 35.3%.

The number of recreational facilities per 100,000 residents in Modoc County is 0.0. 21% of adults aged 20 and over reported no leisure-time physical activity compared to the state rate of 17%. 44.3% of adults and 36.1% of SNAP-Ed eligible adults consumed fast food 1 or more times in the past week vs. 62.7% and 67.5% (state rates), and 51.9% of children and teens ages 2-17 consumed fast food 1 or more times in the past week vs. 72.4% (state rate).* County and state rates of adults who have consumed sugar-sweetened beverages 1 or more times per week are about the same: 38.4% and 38.6%, respectively.*

*This information comes from combined county data for Del Norte, Lassen, Modoc, Plumas, Sierra, Siskiyou, and Trinity, and may not represent actual numbers for Modoc County.

4. **Community Assessment**

Information about Modoc County comes in part from the SNAP-Ed County Profiles prepared by the CDPH, and includes county-level data from several sources such as American Communities Survey (ACS) five-year estimates, the Department of Social Services, CalFresh Annual Trends data, the California Health Interview Survey, and Feeding America's Map the Food Gap: Food Insecurity in Your County. Additional data sources include: US Census 2010 data, California Employment Development Department data, Healthy Stores for a Healthy Community County Profile, County Health Rankings & Roadmaps, and California Healthy Kids Survey.

According to recent annual county health rankings, compiled by the Robert Wood Johnson Foundation, Modoc County ranks 53rd among California's 57 ranked counties. Data indicates that children and youth in Modoc County are from families that are less than 185% of the federal poverty level in percentages higher than the California state averages. Data also indicates that health disparities exist between the low income population and the population at large. It is this population which is targeted to encourage healthy lifestyle choices in a group that will benefit from ongoing PSE change. A significant number of interventions are planned in schools and preschools that are SNAP-Ed eligible based on FRPM or CACFP status.

PSE change has also been designed to target the retail environment that serves SNAP-Ed eligible populations, and to encourage the availability and consumption of healthier foods and beverages. This will be based in part on the work of Communities of Excellence in Nutrition, Physical Activity, and Obesity Prevention (CX3) conducted in Modoc County. Improving access to healthy food options for the SNAP-Ed eligible populations in the retail environment is the current long-term goal of PSE work, and will continue to be shaped by the ongoing CX3 process.

Adult education strategies have been incorporated into SNAP-Ed activities based on economic and employment figures available for Modoc County. The SNAP-Ed eligible adult population for Modoc County is higher than the California state average. This population is targeted through education about smart shopping choices and healthy options available to maintain healthy families, which will result in long-term health benefits.

The Work Plan was developed taking into consideration the PSA 2 Area Plan 2012-2016. According to the California Department of Aging, 20% of the 60+ year old population in Modoc County is living in poverty (≤ 125% FPL). It is recognized that residents of low income communities have less access to healthy foods and an abundance of unhealthy foods compared to their higher income counterparts. In addition, 13% of residents age 60 and over in Modoc and an additional 6 surrounding counties, are only sometimes able to find fruits and vegetables in their neighborhood (CHIS, 2014). Furthermore, in that same county region, 36.6% of seniors reported themselves as not able to afford enough food.

The aging of the population is particularly noticeable in PSA 2, where the senior population is already a significant element of the overall population and is continuing to grow. It is projected that the retiring "Baby Boomers" will choose to retire within the PSA 2 AAA area at twice the percentage anticipated for California as a whole. In 2013, PSA 2 found that more than 27% of seniors surveyed had issues around acquiring at least 2 meals per day as reported in the PSA 2 Area Plan. Furthermore, 45% of the seniors surveyed in Modoc County are at nutrition risk.

5. **Community Change Goals**

The long-term community change goals for Modoc County are:

1) To increase the number of residents who have access to healthy foods, and

2) To increase the number of individuals who incorporate physical activity into their daily lives.

Our current efforts to increase the number of individuals who have access to healthy foods include providing Harvest of the Month presentations to preschool, elementary, and after-school programs at approved sites throughout Modoc County; providing education to the public about Rethink Your Drink at outreach events such as the Health Fair, the County Fair, the Children's Fair, as well as during several collaborative meetings; posting Harvest of the Month flyers and recipes at two of the local markets; and utilizing displays at Social Services and the hospital to post NEOPB approved materials. Additionally, other non-SNAP-Ed funded programs provide education and support directly to families through home visiting and childbirth classes about the consumption of healthy foods, beverages, and food management skills. One of our primary PSE activities to increase the number of residents who have access to healthy foods has been working with two school districts in Modoc County to establish school gardens. Both districts will be ready to plant seeds as soon as the weather allows. We have been working with the districts to assist them in the development of an infrastructure conducive to the sustainability of the gardens in future years. We are pleased to report that one of the school districts is providing locally grown produce to students through the school lunch program. Another important PSE has been to collaborate with the managers of the only certified Farmers' Market in Modoc County to coordinate outreach efforts to educate SNAP-Ed eligible

residents about the health benefits of eating more fresh fruits and vegetables, as well as increasing their access to fresh produce through the use of EBT. Public Health staff will provide Harvest of the Month and Rethink Your Drink materials throughout the Farmers' Market season.

With regard to our goal of increasing the number of individuals incorporating physical activity into their daily lives, our current efforts have been geared toward children through presentations at preschools, elementary schools, and after-school programs at approved sites. We hold a Walk-to-School Day, and a bike rodeo to encourage physical activity as well as bike safety. We also utilize The Shape of Yoga in the classroom as well as arrange family activities such as disc golf. Public Health staff also participates in an Outdoor Expo to promote increased physical activity to all residents of Modoc County.

The LIA will support long term community change goals in the county by working with community partners to identify strategic partners and convene community-wide, multi-sector coalitions to improve nutrition and physical activity; create an environment that makes healthy food and beverage options the routine, easy choice; improve availability, accessibility and demand for healthy foods and beverages; ensure opportunities for physical activity and enhance the physical and built environment around the targeted institutions where the SNAP-Ed population can be found; and provide evidence-based education with a focus on behavior change goals; build capacity and engagement at school sites for comprehensive nutrition and physical programs that help to achieve and further strengthen school wellness policies through nutrition education, and increased access to physical activity as well as improvements to the school environments and practices.

Specifically, Modoc County SNAP-Ed LIAs will achieve the following three-year objectives:

1. By September 30, 2019, the LIA will promote the consumption of healthy foods and beverages and increased physical activity by providing direct and indirect education designed to increase knowledge and provide tools for success in achieving and maintaining a healthy lifestyle to 300 SNAP-Ed eligible individuals, and by supporting the development and/or implementation of school site wellness policies and procedures, including making healthy site changes to improve nutrition and enhance the physical environment, in 9 preschool and elementary school sites and 2 congregate senior nutrition sites in Modoc County;
2. By September 30, 2019, increase access to and demand for healthy fruits, vegetables, and beverages at 3 SNAP-Ed qualifying neighborhood retail stores, 1 food pantries/food banks, 3 senior centers/public housing facilities, and 1 farmers' market through adopted and implemented policy and/or physical site changes;
3. By September 30, 2019, facilitate the incorporation of produce from the school garden in at least one of the school districts in Modoc County into its snack and/or lunch program.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Modoc County **Three-Year** **Rev. 5/23/2017**

Integrated Work Plan

FFY 2017–2019

To accomplish our larger community change goals within the parameters of the SNAP-Ed funds, we will focus on the following PSE strategies in the following settings:

- School Wellness
- Community and School Edible Garden
- Increase Access to Physical Activity
- Healthy Retail
- Farm to School
- Farm to Fork
- Early Childhood Education settings
- School settings
- Healthy Retail Environment
- Senior Congregate Meal Site

6. **Partnerships and Collaborative Efforts**

For FFY 2017-2019, the LIAs will promote SNAP-Ed services and activities by connecting with other agencies, such as county welfare departments, etc. The goals of the LIAs are to promote a full spectrum of health and wellness activities for residents of Modoc County through partnering with the community in comprehensive, strength-based, culturally appropriate prevention programs, and to identify and coordinate existing community prevention programs, determine current prevention needs and develop program solutions, implement prevention programs, and develop processes and procedures for ongoing assessment and evaluation of community prevention programs. The LIA will address the goals to coordinate United States Department of Agriculture (USDA) food program interventions and efforts to increase food security in the target population. A strategic plan will be developed with target objectives to provide access to healthy foods, beverages, and/or physical activity.

7. **Key Messages**

X	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All educational materials, resources, and curriculum will be approved through the USDA SNAP-Ed Connection website (https://snaped.fns.usda.gov/), and/or FFY 2017-2019 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the California Department of Public Health - Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list.

Modoc County reviewed the approved integrated curriculum list provided by the state agencies to determine the best options for our target population. Curriculum, materials and resources were chosen to best reflect the needs of the population, as well as our chosen SNAP-Ed three-year and annual objectives. Most of our chosen curriculum is geared towards ECE or school-based settings, as this reflects the detail provided throughout our narratives summaries and below in target audience description.

9. **Intervention and Evaluation Plan Narrative Summary**

The implementing agencies, Modoc County Public Health and The Center for Healthy Communities, will provide evidence-based nutrition education and physical activity promotion activities to the SNAP-Ed eligible population of Modoc County at SNAP-Ed approved sites. Interventions and strategies will be based on the USDA guidance provided in the May 2014 "SNAP-Ed Strategies and Interventions: An Obesity Prevention Toolkit for States" document. All evidence-based intervention strategies will promote current USDA Dietary Guidelines. We will utilize the RE-AIM framework to evaluate the effectiveness of interventions. Delivery methods include:

- Children of Preschool Age and their Parents: Provide direct and indirect parent education through the Head Start, Early Head Start and preschool settings; encourage child care center and student participation in federal food and nutrition assistance (CACFP, WIC, and SNAP); provide evidence-based, early intervention nutrition education to low-income families.
- Youth: Develop, implement, and evaluate school gardens, and promote intersections between garden and classroom curriculum; improve student access to nutrition and classroom curriculum to improve student understanding of nutrition information; support school health councils and collaborate on school wellness plans.
- Adults: Conduct trainings on healthy choices, how to shop for healthy foods on a budget, and the importance of activity promotion and decreased screen time. Focus will be placed on increasing skills in label-reading, menu planning, and food budgeting, and increasing knowledge of MyPlate recommendations and exposure to and acceptance of new healthy foods.
- Community: Provide information on the results of CX3 to the City Council and the Board of Supervisors.

- Technical Assistance: Provide technical assistance and trainings for healthcare providers to further leverage SNAP-Ed intervention strategies.

The Center for Healthy Communities ("CHC," AAA PSA2-LIA) aims to educate low-income seniors and congregate meal site staff and volunteers on ways to improve their health and well-being. CHC will utilize the following approved interventions:

- Provide congregate meal site staff and volunteers with ongoing training and technical assistance regarding nutrition, physical activity, gardening, food safety, and/or food resource management as they relate to the SNAP-Ed senior population.
- Provide direct education via single session classes at one of the approved congregate sites. Single session education will focus on Rethink Your Drink, MyPlate messaging, and food safety (process evaluation; no impact/outcomes).
- Provide indirect education via displays, posters, and flyers.
- Provide environmental supports for increased consumption of healthy foods and beverages, food safety and increased physical activity among seniors at congregate meal sites.
- Assist congregate meal site staff to identify desired policy and/or environmental changes (i.e., increase of fresh fruits and vegetables on menus by 25%, increase physical activity opportunities at congregate sites by 25%, decrease the sodium content in meals served by 10%, etc.).
- Coordinate with local SNAP-Ed LIAs to create a comprehensive county work plan.

The Center for Healthy Communities ("CHC," AAA PSA2-LIA) The effectiveness of training on nutrition and physical activity will be measured by post-only surveys. Ongoing results from this evaluation will inform subsequent nutrition trainings and technical assistance activities. The evaluation results will be used to revise and improve future trainings and identify possible direct education topics and environmental change efforts.

Evaluation of PSE efforts will focus on changes at the senior congregate meal sites where nutrition education is provided. The environmental changes resulting from the development/adoption of a healthy food and beverage policy will be measured using RE-AIM, as indicated in the Western Regional SNAP-Ed Evaluation Framework: Nutrition, Physical Activity, and Obesity Prevention Outcome.

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

By September 30, 2019, the LIA will promote the consumption of healthy foods and beverages and increased physical activity by providing direct and indirect education designed to increase knowledge and provide tools for success in achieving and maintaining a healthy lifestyle to 300 SNAP-Ed eligible individuals, and by supporting the development and/or implementation of school site wellness policies and procedures, including making healthy site changes to improve nutrition and enhance the physical environment, in 9 preschool and elementary school sites and 2 congregate senior nutrition sites in Modoc County.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

School Wellness

- Create supportive nutrition environments in schools

  * Support the development and/or implementation of written school site wellness policies and procedures to improve the nutrition and physical activity environment and to reduce screen time.

Community and School Edible Garden

- Increase knowledge of and access to healthy foods, beverages and opportunities for active play.

  * Edible Gardens

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Modoc County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Increase access to physical activity

- Implement changes in the preschool and elementary school environment that support and promote physical activity.

    * Murals and Stencils

    * Support Safe Routes to School

Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. **FFY 2017 (Year 1) Objective(s):**

    a. By September 30, 2017, SNAP-Ed funded activities will reach 200 parents of preschool-age and school-age children with direct education and 250 preschool-age and school-age children and their parents with indirect education using approved curriculum.

    b. By September 30, 2017, support the development and/or implementation of written school site wellness policies and procedures in 2 preschool and elementary school sites to improve the nutrition and physical activity environment, and to reduce screen time.

    c. By September 30, 2017, make at least one new healthy site change at 1 site to improve the nutrition, physical activity, and/or screen time environment for participating children.

    d. By September 30, 2017, promote the consumption of healthy beverages to at least 1,000 SNAP-Ed eligible individuals in Modoc County using approved media and public relation campaigns.

    e. By September 30, 2017, CHC activities will reach a minimum of 30 seniors by providing direct education, indirect education, training and technical assistance to staff and volunteers and assisting in healthier site changes at a minimum of one congregate meal site.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30, 2018, SNAP-Ed funded activities will reach 225 parents of preschool-age children and school-age children with direct education; and 275 preschool-age children and school-age children and their parents with indirect education using approved curriculum.

    b. By September 30, 2018, 2 additional school sites will develop and/or implement site wellness policies and procedures to improve the nutrition and physical activity environment and to reduce screen time.

c. By September 30, 2018, make at least one new healthy site change at 2 additional sites to improve the nutrition, physical activity, and/or screen time environment for participating children (at FFY 2017 and 2018 sites).

d. By September 30, 2018, promote the consumption of healthy beverages to at least 1,250 SNAP-Ed eligible individuals in Modoc County using approved media and public relation campaigns.

e. By September 30, 2018, CHC activities will reach a minimum of 30 seniors by providing direct education, indirect education, training and technical assistance to staff and volunteers and assisting in healthier site changes at a minimum of two congregate meal sites.

3. **FFY 2019 (Year 3) Objective(s):**

a. By September 30, 2019, SNAP-Ed funded activities will reach 250 parents of preschool-age children and school-age children with direct education; and 300 preschool-age children and school-age children and their parents with indirect education using approved curriculum.

b. By September 30, 2019, 2 additional school sites will develop and/or implement written school site wellness policies and procedures to improve the nutrition and physical activity environment and to reduce screen time.

c. By September 30, 2019, make at least one new healthy site change at 2 additional sites to improve the nutrition, physical activity, and/or screen time environment for participating children (at FFY 2017, 2018, and 2019 sites).

d. By September 30, 2019, promote the consumption of healthy beverages to at least 1,500 SNAP-Ed eligible individuals in Modoc County using approved media and public relation campaigns.

e. By September 30, 2019, CHC activities will reach a minimum of 40 seniors by providing direct education, indirect education, training and technical assistance to staff and volunteers and assisting in healthier site changes at a minimum of two congregate meal site.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Modoc County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019, the LIA will promote the consumption of healthy foods and beverages and increased physical activity by providing direct and indirect education designed to increase knowledge and provide tools for success in achieving and maintaining a healthy lifestyle to 300 SNAP-Ed eligible individuals, and by supporting the development and/or implementation of school site wellness policies and procedures, including making healthy site changes to improve nutrition and enhance the physical environment, in 9 preschool and elementary school sites and 2 congregate senior nutrition sites in Modoc County.

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**

By September 30, 2019, increase access to and demand for healthy fruits, vegetables, and beverages at 3 SNAP-Ed qualifying neighborhood retail stores, 1 food pantries/food banks, 3 senior centers/public housing facilities, 1 farmers' market, and 1 community garden through adopted and implemented policy and/or physical site changes to improve food options.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- **Healthy Retail**

  *Communities of Excellence in Nutrition, Physical Activity, and Obesity Prevention (CX3)

  *Farmers' Market

  *Healthy Food and Beverage Policies/Stocking Standards

  *Local Procurement

  *Healthy In-store Marketing and Promotions

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 30, 2017, conduct an assessment of the retail environment in up to 1 selected SNAP-Ed qualifying neighborhoods.
   b. By September 30, 2017, provide healthy food/beverage recipes, and provide yearly owner/retail staff education opportunities to at least 1 retail store and conduct indirect education at an EBT-linked farmers' market at one site in a qualifying census tract.
   c. By September 30, 2017, 1 retail store in a SNAP-Ed qualifying areas will increase access and/or promotion of healthy foods and beverages.
   d. By September 30, 2017, provide food resource management education to adults at 1 community site and promote the retail, emergency food and farmers' market opportunities to access healthy fruits, vegetables and beverages to SNAP-Ed eligible individuals.
   e. By September 30, 2017, implement approved SNAP-Ed nutrition education materials resources, and/or curriculum in at least 1 senior center or public housing facility.

2. **FFY 2018 (Year 2) Objective(s):**

   a. By September 30, 2018, provide healthy food and beverage merchandising materials, conduct quarterly taste testing of healthy food/beverage recipes, and provide yearly owner/retail staff education opportunities to at least 1 additional retail store and conduct indirect education at an EBT-linked farmers' market at one site in a qualifying census tract.

   b. By September 30, 2018, 1 additional retail store in a SNAP-Ed qualifying area and one food bank will increase access and/or promotion of healthy foods and beverages.

   c. By September 30, 2018, provide food resource management education to adults at 1 additional community site and continue to promote the retail, emergency food and farmers' market opportunities to access healthy fruits, vegetables and beverages to SNAP-Ed eligible individuals.

   d. By September 30, 2018, implement approved SNAP-Ed nutrition education materials resources, and/or curriculum in at least 1 additional senior center or public housing facility.

3. **FFY 2019 (Year 3) Objective(s):**

   a. By September 30, 2019, provide healthy food and beverage merchandising materials, conduct quarterly taste testing of healthy food/beverage recipes, and provide yearly owner/retail staff education opportunities to at least 1 additional retail store and conduct indirect education at an EBT-linked farmers' market at one site in a qualifying census tract.

   b. By September 30, 2019, 1 additional retail store in a SNAP-Ed qualifying area will increase access and/or promotion of healthy foods and beverages.

   c. By September 30, 2019, provide food resource management education to adults at 1 additional community site and continue to promote the retail, emergency food and farmers' market opportunities to access healthy fruits, vegetables and beverages to SNAP-Ed eligible individuals.

   d. By September 30, 2019, implement approved SNAP-Ed nutrition education materials resources, and/or curriculum in at least 1 additional senior center or public housing facility.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Modoc County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

By September 30, 2019, increase access to and demand for healthy fruits, vegetables, and beverages at 3 SNAP-Ed qualifying neighborhood retail stores, 1 food pantries/food banks, 3 senior centers/public housing facilities, and 1 farmers' market through adopted and implemented policy and physical site changes to improve food options.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Conduct a baseline retail assessment at 3 SNAP-Ed qualifying neighborhood retail stores, 1 food pantries/food banks, 3 senior centers/public housing facilities, and 1 farmers' market that cater to SNAP-Ed eligible families.	CED CEI MPR C&C X TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	**Year 1** Q1: X, Q2: X, Q3: , Q4: **Year 2** Q1: X, Q2: , Q3: , Q4: **Year 3** Q1: X, Q2: , Q3: , Q4:	On file: Retail assessments Submit: Neighborhood boundaries surveyed
2.2	Create and disseminate information packets and/or information displays to educate food retailers on how healthy food options can benefit local businesses and customers. We will utilize the CDPH Network for a Healthy California - Retail Program: Retail Fruit and Vegetable Marketing Guide: Produce Quick Tips and Handling Guide, in-store marketing materials. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**

By September 30, 2019, facilitate the incorporation of produce from the school garden in at least one of the school districts in Modoc County into its snack and/or lunch program.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- **Edible School Garden**

  *Develop, implement, and evaluate school gardens.

- **Farm to School and Farm to Fork**

  *Encourage integration of garden food into school lunch and snacks.

  *Promote intersections between garden and classroom curricula, and garden and the cafeteria.

  *Improve student, parent, and teacher access to nutrition information through menu labeling and classroom curriculum to improve understanding of nutrition information.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, identify interest in the establishment of additional school gardens.
    b. By September 30, 2017, work with school staff to establish a plan for building, maintaining, and promoting the school garden.
    c. By September 30, 2017, assist in the creation and development and sustained operation of school gardens at qualified schools along with implementing garden-based nutrition curricula.
    d. By September 30, 2017, promote intersections between garden and classroom curricula, and garden and the cafeteria.
2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, assist in the creation and development and sustained operation of school gardens at qualified schools along with implementing garden-based nutrition curricula.
    b. By September 30, 2018, promote intersections between garden and classroom curricula, and garden and the cafeteria.
3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, promote intersections between garden and classroom curricula, and garden and the cafeteria.
    b. By September 30, 2019, work with school staff to develop a school garden manual, best practices, and sustainability plan.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Mono County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

County Name: Mono

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency (counterpart local agency) Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
X	California Department of Public Health: CDPH: (Local Health Department: LHD) Community Service Solutions
	California Department of Aging: CDA: (Area Agency on Aging: AAA)
	Catholic Charities of California: CCC: (Catholic Charities of California: CCC)

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.

- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Mono County is a rural, frontier county located on the eastern side of the Sierra Nevada Mountain Range. The county spans over 3,000 square miles of high desert, mountainous terrain. Mono County ranks as the fifth smallest county in California based upon population, with approximately 14,081 residents, averaging a sparse 4.6 persons per square mile. Approximately 29.4% of the population is SNAP-Ed eligible (income ≤185% FPL), or an estimated 4,146 SNAP-Ed eligible residents. Approximately 8.5% of the population is below the federal poverty level, or an estimated 1,197 residents. Of the SNAP-Ed eligible residents, 51.8% identify as White (non-Hispanic); 41.5% identify as Hispanic; and 6.6% have an unknown racial/ethnic background. The primary languages spoken are English and Spanish. Mono County currently has an estimated 852 CalFresh participants, representing 6.1% of the county's total population.

Mono County has no SNAP-Ed eligible locations based on census tracts; SNAP-Ed eligible sites are determined by means-tested programs and alternative methodology. Eight of the sixteen schools in Mono County are SNAP-Ed eligible schools in FFY2017, based on the percentages of free and reduced price lunch participation (≥50% FRPM Enrollment). Approximately 1,178 students, or 55.9% of the total student population, receive a free or reduced price lunch.

In 2015, Mono County ranked 15th in the State for overall health outcomes and 18th in the State for overall health factors. Approximately 22% of adults in Mono County are obese. Combined data for Mono, Alpine, Amador, Calaveras, Inyo, Mariposa, and Tuolumne Counties suggests that 61.3% of low income adults are considered overweight or obese, and 36.5% of low income adults are considered obese. There is no data available regarding the overweight/obesity rate for children in this cluster of counties.

Combined county data for Mono, Alpine, Amador, Calaveras, Inyo, Mariposa, and Tuolumne Counties shows that 78.9% of children ages 2 years to 11 years consume two or more servings of fruits per day; among children and teens ages 2 years to 17 years, 72.6% consume two or more servings of fruit each day. Approximately 57.1% of children in those counties reported having consumed fast food one or more times in the week prior to the survey; less than half (43.4%) of SNAP-Ed eligible adults had consumed fast food within the previous week. Among all adults in the cluster of counties, 24.2% reported consuming one or more sugar sweetened beverage per week.

Mono County has just one large population center, the ski-resort town of Mammoth Lakes. Just over half (8,003) of the county's residents live in Mammoth Lakes; the remainder of the county's residents live in very small towns separated by many miles. The county has a relatively low number of retail outlets for purchasing fruits and vegetables. There is one large grocery store chain in Mammoth Lakes (Vons); the other retail outlets in the county that sell produce are mom and pop general stores. Combined data from the previously mentioned counties indicates that 65% of SNAP-Ed eligible adults report being able to find fruits and vegetables in their neighborhoods. However, due to the frontier nature of Mono County and a high-altitude environment not conducive to agriculture, a variety of fresh produce is often expensive and difficult to obtain. In 2015, 8.2% of low Income Mono County residents had limited access to healthy foods. Mono County has an overall food insecurity rate of 13.6%, with 21.2% of children experiencing food insecurity.

Among adults age 20 and older in Mono County, 13% reported no leisure-time physical activity. Among all residents of Mono County, 89% have access to physical activity opportunities. Combined data for the previously mentioned counties indicates that 83.3% of children and teens visited a park, playground, or open space in the month prior to the survey.

4. **Community Assessment**

In order to identify the needs of the SNAP-Ed community in Mono County, data was partly derived from the 2015 SNAP-Ed Mono County profile developed by CDPH. This includes data from a variety of sources, including the American Communities Survey (ACS) five-year estimates, the California Interview Health Survey, the Robert Wood Johnson Foundation, the Lucille Packard Foundation, the Pediatric Nutrition Surveillance System, the California Department of Education, the California Department of Social Services, the California Department of Finance, and Feeding America. The most recent Census data was used where available. Data was also derived from the 2015 County Health Rankings & Roadmaps.

The Mono County SNAP-Ed Project Director also took into consideration the most recent Mono County Health Survey (May 2014) which was conducted by the Mono County Health Department as part of the Five Year Maternal, Child, & Adolescent Health (MCAH) Program community needs assessment. 78% of survey respondents indicated that overweight and obesity rates are of concern in Mono County. The survey results indicate a desire among the community to have greater access to affordable healthy foods; greater access to affordable recreational facilities and opportunities; increased nutrition education for students, parents, and other residents; increased physical activity education and opportunities for students; and an increase in community events that encourage healthy lifestyle choices.

The assessment data indicates that nutrition education and physical activity interventions should target both low-income adults and low-income children in Mono County. The assessment data supports a combination of nutrition education and physical activity interventions in qualifying schools and qualifying community sites; as well as effective policy, systems, and environmental change that will support healthier food and beverage environments. There are several mitigating factors in Mono County that the Project Director also took into account when designing this work plan, based on the unique needs of Mono County and its SNAP-Ed eligible population. The Project Director, while implementing SNAP-Ed in Mono County over the last 2 ½ years, has discovered that the most effective way to reach SNAP-Ed eligible adults in the community is in conjunction with other programs, in particular at emergency food distribution sites, which bring large numbers of SNAP-Ed eligible residents together. A presence by the Project Director at emergency food distributions sites has now become expected, as expressed by SNAP-Ed eligible residents. Other programs, including CalFresh, WIC, Tribal TANF, and IHSS, usually operate on an appointment-only basis, which has resulted in interventions targeted to as few as three SNAP-Ed eligible residents in the past; while valuable, it is not an effective use of time or funding. Using all of the data and considering the unique needs of Mono County, the Project Director identified a need to regularly promote nutrition education, physical activity, food resource management, and the availability of food programs at Mono County's emergency food distribution sites, with the Mono County CalFresh, WIC, Tribal TANF, and IHSS Programs as secondary sites for indirect education and referrals from County staff for direct education.

The Project Director also reviewed the alternative targeting methodologies to identify viable options for Mono County and has identified several small country stores that would serve as appropriate complementary settings for SNAP-Ed eligible adults in the communities of Walker, Bridgeport, and Lee Vining. These small country stores are the only stores in the community from which residents, including SNAP-Ed eligible residents, can purchase grocery items, including fresh produce. The Project Director verified that each country store accepts EBT. The Project Director will meet with the proprietors of these locations to discuss and assist in targeting the SNAP-Ed eligible audience through indirect education, social marketing, and environmental changes, to include healthy advertising, product placement strategies, and increasing the availability of healthy foods.

In order to reach low-income children and their parents in Mono County, nutrition education and physical activity interventions were selected for students attending eight qualifying schools, with emphasis on promoting MyPlate messaging and healthy beverage consumption via Rethink Your Drink. There is no known regular nutrition education curriculum at the schools; the lessons taught by the Project Director will help address this unmet need. The assessment data also supports policy, systems, and environmental change at qualifying schools by improving food and beverage environments, as well as physical activity opportunities and environments, in these locations.

The assessment data also suggests the importance of community and school events in reaching SNAP-Ed eligible members of Mono County. These events include back to school nights and open houses at schools, annual Kindergarten Roundups, and annual Health Fairs. These events provide a great opportunity for nutrition education messaging, physical activity promotion, and dissemination of the availability of food programs to larger numbers of SNAP-Ed eligible residents in the county.

5. **Community Change Goals**

Long-term community change goals in Mono County, specifically pertaining to nutrition and obesity, include reducing overall rates of overweight and obesity among children and adults; increasing the availability and affordability of healthy foods; increasing physical activity opportunities and environments; and implementing strong school wellness policies county-wide. Our long-term community change goals directly align with our community assessment, which indicates a need to reduce rates of overweight and obesity through a combination of nutrition education and physical activity interventions for children and adults; efforts to improve the availability, affordability, and appeal of healthy foods; and a need to strengthen school wellness policies, as well as their implementation, throughout the county to create a healthier food environment for our children.

Community Service Solutions will focus its efforts on the SNAP-Ed eligible population of Mono County, working within the framework and guidelines of USDA SNAP-Ed to address each of the long-term change goals as allowable, through comprehensive activities in our three-year Integrated Work Plan. Other agencies and organizations will help to address unmet needs for all residents of Mono County. This includes, but is not limited to, efforts by the Town of Mammoth Lakes to design and build Community Multi-Use Facilities; Mono County Public Works Department improving county recreational facilities and access to trailheads; and

extensive work by the Toiyabe Indian Health Project, through REACH and PICH grants, to install and support school and community gardens in Mono County and build a bike/walking path in the town of Bridgeport.

Taking into consideration the community needs assessment and long-term community change goals, Community Service Solutions will specifically achieve the following three-year objectives in Mono County:

1. By September 30, 2019, eight qualifying schools will improve the food, beverage, and physical activity environment by implementing and maintaining school wellness policies and making healthy site changes.
2. By September 30, 2019, increase access to and appeal of healthy foods and beverages at six emergency food distribution sites, three CalFresh offices, six WIC sites, four Tribal TANF sites, one IHSS site, and four corner/country stores by implementing healthy food and beverage standards and making healthy site changes.

Our long-term community change goals will be supported by policy, systems, and environmental changes in the following settings:

- Schools (LEARN): strengthen and implement school wellness policies that create a supportive nutrition and physical activity environment; implement Smarter Lunchrooms Movement principles.
- Community (LIVE/SHOP): promote and improve access to and availability of healthy foods and beverages; encourage healthy food and beverage standards and policies; mobilize community partnerships to support healthy eating and active living; and encourage participation in federal food and nutrition assistance programs.

6. **Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]**

Community Service Solutions will promote SNAP-Ed services and activities by connecting with other agencies, such as County Welfare Departments, etc. The Mono County Nutrition and Physical Activity Taskforce (NPAT), created in 2009, serves as the CNAP group and is hosted by Mono County Public Health. The goal of the CNAP specifically pertaining to SNAP-Ed is to increase collaboration and communication among stakeholder groups within Mono County for the purpose of increasing food security and extending the reach of nutrition education and physical activity interventions among the SNAP-Ed eligible population. Current and previous organizations, businesses, and agencies represented in the CNAP group include Mono County Behavioral Health, Mono County Department of Social Services, Mono County Health Department, Mono County Public Works, Mono County Office of Education, IMACA, First 5 Mono County, Mammoth Unified School District, Mammoth Lakes Fire Department, Town of Mammoth Lakes Recreation Department and Commission, Mammoth Hospital and Clinics, Eastern Sierra Food Network, Toiyabe Indian Health Project, Mammoth Mountain Ski Area, Advocates of the Latino Community, Snowcreek Athletic Club, and The Body Shop Gym. The CNAP group meets approximately six times per year.

8. **Educational Materials, Resources and Curriculum**

All educational materials, resources, and curriculum will be approved through the USDA SNAP-Ed Connection website (https://snaped.fns.usda.gov/), and/or FFY 2017-2019 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the California Department of Public Health - Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list.

The Project Director reviewed the approved integrated curriculum provided by the state agencies and considered each approved resource/curriculum to determine the best options for Mono County. Curriculum and resources were specifically chosen that will best serve the needs of Mono County's SNAP-Ed eligible population, both adults and children, and will align with our three-year and annual SNAP-Ed objectives. All materials will be available in both English and Spanish. The assistance of a translator will be utilized as necessary in-kind.

9. **Intervention and Evaluation Plan Narrative Summary**

Community Service Solutions continues to be the sole SNAP-Ed implementing agency in Mono County. We developed two three-year local objectives, based on the needs of Mono County, which address both adults and children in our SNAP-Ed eligible population in places where they learn, live, and shop. Our first three-year local objective is to have eight qualifying schools improve the food, beverage, and physical activity environment, to be accomplished by strengthening existing school wellness policies, monitoring the implementation of those policies, and making healthy site changes. This local objective will support all five State-level goals throughout the three-year period. The Project Director will use a mix of intervention strategies over the three years, to include direct education

to students in a classroom setting that will focus on nutrition and physical activity; distribution of school newsletters and other materials to students and their parents, focusing on healthy foods and beverages, physical activity, and food resource management; hosting interactive booths at school events, such as back to school nights, open houses, and kindergarten roundups, with a focus on healthy foods and beverages and availability of food programs; implementation of the Playground Stencil Kit at schools; evaluation of school wellness policies and assistance with strengthening both nutrition and physical activity standards within the policies; monitoring the implementation of school wellness policies through regular discussions with administrators, teachers, staff, and parents; making healthy site changes by offering training and technical assistance with the implementation of Smarter Lunchrooms Movement principles and practices; and making healthy site changes by offering training and technical assistance with implementation of the CATCH program. The activities will progress each year from FFY2017 through FFY2019 by an increase in the number of schools we will be working with to implement healthy site changes. The number of students reached through direct and indirect education is expected to remain the same each year, as funding will remain the same. The overall goal of Three-Year Local Objective #1 is to reduce rates of overweight and obesity among SNAP-Ed eligible children in Mono County, as well as their parents, by creating a healthier culture where nutritious meals and snacks are the norm, as well as routine physical activity; fruit and vegetable intake is increased; added sugars in the diet are decreased; and low-income families have increased their food resource management skills in such a way that they not only have enough food to eat every month, but they are able to create healthy, nutritious meals on a budget.

The second three-year local objective is to increase access to and appeal of healthy foods and beverages at six emergency food distribution sites, three CalFresh offices, six WIC locations, four Tribal TANF sites (cultural material is not available currently), one IHSS site, and four country stores, to be accomplished by implementing healthy food and beverage standards and making healthy site changes. This local objective also supports all five State-level SNAP-Ed goals throughout the three-year period. The policy, systems, and environmental strategies supporting this three-year objective include promoting access to and availability of healthy foods and beverages, encouraging healthy food and beverage standards and policies, mobilizing community partnerships to support healthy eating and active living, and encouraging participation in federal food and nutrition assistance programs. The comprehensive intervention strategy will include direct education to emergency food distribution participants, focusing on healthy foods and beverages, physical activity, and food resource management skills; indirect education at all Mono County CalFresh offices, WIC locations, Tribal TANF sites, and IHSS site by creating informational displays with posters, brochures, and recipe cards, as well as direct distribution of SNAP-Ed materials to participants by these partner agencies; and direct education to referrals from our partner agencies. The intervention strategy also includes hosting an annual Community Health Fair to reach the SNAP-Ed eligible population with healthy food and beverage messaging, as well as the opportunity to have direct access to food and nutrition assistance programs in Mono County; meeting with proprietors of local country stores to encourage and help implement healthy site changes to include healthy advertising, product placement strategies highlighting healthy foods and beverages, and increasing the variety and availability of healthy foods, especially fresh produce; and encouraging partner agencies to adopt healthy food and beverage standards and/or policies, such as creating healthy vending at their sites and implementing healthy food and beverage standards during community classes and events. The intervention strategies will progress each year from FFY2017 through FFY2019, by an increase in the number of country stores adopting healthy site changes each year. The overall number of SNAP-Ed eligible residents reached through direct and indirect

education is expected to remain the same each year, as funding will remain the same. The overall goal of Three-Year Local Objective #2 includes, yet builds on the overall goal of Three-Year Local Objective #1, by increasing the appeal and availability of healthy foods and beverages to the SNAP-Ed eligible population, making healthy living an easier and routine choice long-term.

Community Service Solutions will continue to collaborate with its CNAP group and other partner agencies throughout the three-year period to achieve our Three-Year Local Objectives. We will work together to continue identifying and addressing unmet needs in Mono County, as allowable by SNAP-Ed, in our efforts at achieving our community change goals.

SECTION B: Target Audience Description

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**
By September 30, 2019, eight qualifying schools will improve the food, beverage, and physical activity environment by implementing and maintaining school wellness policies and making healthy site changes.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**
- strengthen and monitor implementation of school wellness policies that support nutrition and physical activity environment

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 30, 2017, Community Service Solutions will reach approximately 300 students with direct education and 1,100 students and their parents through indirect education; and will support the implementation and maintenance of school wellness policies and the Smarter Lunchrooms Movement in four schools.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, Community Service Solutions will reach approximately 300 students with direct education and 1,100 students and their parents through indirect education; will support the implementation and maintenance of school wellness policies and the Smarter Lunchrooms Movement in two additional schools (six total); and will support the implementation of the CATCH program in two qualifying schools in one school district.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, Community Service Solutions will reach approximately 300 students with direct education and 1,100 students and their parents through indirect education; and will support the implementation and maintenance of school wellness policies and the Smarter Lunchrooms Movement in two additional schools (eight total); and will support the implementation of the CATCH program in four qualifying schools in one additional school district (two districts total).

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):
By September 30, 2019, eight qualifying schools will improve the food, beverage, and physical activity environment by implementing and maintaining school wellness policies and making healthy site changes.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Provide 30-60 minute nutrition education, healthy beverage, and physical activity lessons in classrooms in eight eligible schools, reaching at least 300 students in FFY 2017-19. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**
By September 30, 2019, increase access to and appeal of healthy foods and beverages at six emergency food distribution sites, three CalFresh offices, six WIC sites, four Tribal TANF sites, one IHSS site, and four corner/country stores by implementing healthy food and beverage standards and making healthy site changes.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**
- promote and improve access to and availability of healthy foods and beverages
- encourage healthy food and beverage standards and policies
- mobilize community partnerships to support healthy eating and active living
- encourage participation in federal food and nutrition assistance programs

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, Community Service Solutions will reach up to 200 community members with direct education in SNAP-Ed eligible venues and up to 400 community members with indirect education in SNAP-Ed eligible venues; and will assist two qualifying country stores in making healthy site changes.
2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, Community Service Solutions will reach up to 200 community members with direct education in SNAP-Ed eligible venues and up to 400 community members with indirect education in SNAP-Ed eligible venues; and will assist one additional qualifying country store in making healthy site changes (three total).

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, Community Service Solutions will reach up to 200 community members with direct education in SNAP-Ed eligible venues and up to 400 community members with indirect education in SNAP-Ed eligible venues; and will assist one additional qualifying country store in making healthy site changes (four total).

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019): By September 30, 2019, increase access to and appeal of healthy foods and beverages at six emergency food distribution sites, three CalFresh offices, six WIC sites, four Tribal TANF sites, one IHSS site, and four corner/country stores by implementing healthy food and beverage standards and making healthy site changes.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Conduct at least ten 15-60 minute nutrition education, physical activity, and food resource management classes at emergency food distribution sites in FFY 2017 reaching up to 200 community members, including seniors, each year in FFY 2017-19. Taste-testing will be included using NEOPB-approved recipes. Dissemination of information about available food programs included. Provide direct education classes to referrals from WIC, CalFresh, TANF, and IHSS. Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Monterey County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 1/20/2017**

County Name: Monterey

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency (counterpart local agency) Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
X	California Department of Public Health: CDPH: Monterey County Health Department
X	California Department of Aging: CDA: Alliance on Aging
X	Catholic Charities of California: CCC: Catholic Charities Diocese of Monterey

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.

- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Monterey County is situated on the central coast of California. It is approximately 30 miles wide and 100 miles long, encompassing 3,324 square miles, or 2,127,360 acres. Santa Cruz County borders the County to the north; San Benito, Fresno and King Counties to the east; San Luis Obispo County to the south and the Pacific Ocean to the west. The geography of the county includes a bountiful river valley, rolling hills, beaches and a rugged southern coastline. The county has 368,000 acres of national wilderness and forest areas and a national marine sanctuary. The county has 12 incorporated cities located within its 3,324 square miles. The rest of the unincorporated County includes communities that range from a small cluster of homes to small towns. The total population is estimated at 431,344 per the 2014 US Census Bureau.

The largest race/ethnic group in the county is Hispanic (increasing from 47% in 2000 to 57% in 2012), followed by White non-Hispanic (decreasing from 40% in 2000 to 32% in 2012). The population of Asian/Pacific Islander, Black, Native American/Alaskan, and multi-ethnic groups fluctuated by a few percentage points over the last 12 years. Spanish is the language most commonly spoken at home (47%), followed by English (46%). Asian or Pacific Islander languages account for about 4% and the remaining 3% are other languages. The Hispanic population is the largest SNAP Ed eligible group eligible to receive CalFresh benefits at over 77%.

Over 38 percent of Monterey County residents (153,926) live at or below 185% of the Federal Poverty level. One quarter of the Hispanic/Latino population lived under the federal poverty level in 2012, indicating a disparity when compared to 8% of the White, non-Hispanic population. There are about 76,819 CalFresh eligible individuals in Monterey County. According to California Department of Social Services Data Systems, as of September 2015, about 50,600 or 66% were participating in CalFresh, leaving 26,218 eligibles not participating. The SNAP-Ed County Profile 2015 for Monterey County shows over 12% of the general population is food insecure and over 25% of children are food insecure.

There are 94 census tracts in Monterey County, 21 qualify for SNAP-Ed services based on the most recent all races American Community Survey (ACS 2010-14) data. The county has 24 school districts, 15 which are eligible for SNAP-Ed services. The LHD will continue to partner with 6 of the 15 eligible school districts and provide nutrition, healthy beverage and physical activity education and/or training. There are a number of means tested sites eligible for SNAP-Ed services including food banks/pantries, WIC clinics, family resource centers, public housing units, senior centers, Head Start sites and several others.

The SNAP-Ed County Profile 2015 for Monterey County shows, 76% of adults are overweight and 33% of children/teens (ages 2-17) are overweight. It also shows 73% of children and teens consumed fast food one or more times in the past week. Data shows that only 32% of children (ages 2-17) are physically active at least one hour every day and 53% consumed two or more servings of fruits daily. Given this data, the children benefit from nutrition education paired with healthy beverage and physical activity related interventions.

4. **Community Assessment**

According to the recently released 2015 Annual County Health rankings, compiled by the Robert Wood Johnson Foundation and the University of Wisconsin Public Health Institute, Monterey County ranked 23rd among California's 57 counties. Data also continues to show health disparities exist between the low income population and the population at large and improvements are needed in several areas, including obesity rates. This FFY 17-19 Integrated Work Plan was developed using information listed in the jurisdiction section, CX3 community assessment results, Monterey County's Community Health Assessment 2013, Hunger in Monterey County 2016, SNAP-Ed County Profile 2015, other reports, input from community partners, LIAs and experience gained providing SNAP-Ed nutrition interventions for over 18 years in the county.

Using the data sources, our CX3 survey results, Healthy Stores for a Healthy Community survey 2013 and partnering with local agencies, the program was able to pinpoint areas or neighborhoods with a high CalFresh eligible population. Our CX3 results showed us that our retail environment is lacking in promoting healthy options. Most SNAP-Ed residents have the greatest access to small corner stores which are less likely to have a healthy food environment. Using this data, the program developed objectives to provide access to healthy produce and beverage education and promotion, offer food demos and retail merchandising in the corner stores and encourage promotion of healthier options in retail stores and partner agencies, such as healthy checkout lanes. The work plan will also focus on partnering with retail stores on PSE change efforts by providing technical assistance and support in corner market conversions, healthy food and beverage policies, healthy in store marketing, promotions and exterior improvements. LHD and CCC staff will conduct direct and indirect education at retail sites to encourage increased access to fruits and vegetables. LHD also plans on collaborating with County Tobacco Program for their next Healthy Stores, Healthy Communities Campaign.

With over 40% percent of children overweight and/or obese in the Monterey County, the program is partnering with school districts and afterschool/summer programs that show a high percentage of students receiving FRPM. Partnering with food service directors and other local programs promoting nutrition education, the program will offer Harvest of the Month (HOTM), healthy beverage and physical activity education at least six times during the school year to the schools/students participating in the program. The program will also offer Harvest of the Month or other approved nutrition education curriculum in schools or afterschool programs through partnerships with Community Alliance with Family Farmers (CAFF), MEarth, Kids Eat Right and Community Partnerships for Youth (CPY) programs. LHD staff will also be focusing efforts on summer meals. With current data showing that only 13% of children are utilizing the summer meals program, the new CNAP action plan has focused efforts on increasing and promoting summer meals.

Partners working together in the Farm to School committee completed a needs assessment survey of school districts food programs. The survey results indicated there was a need to improve school environments and strengthen wellness policies to better support the goals of the direct education and policy or environmental change. Over the last year, the LHD team has worked to partner with school districts to assess the school wellness policy and improve the school environments. The LHD staff will continue to work with food service directors and staff to incorporate activities in the cafeteria utilizing MyPlate, Smarter

Lunchrooms Movement (SLM) or HOTM materials and resources. It is anticipated that at least four qualifying school districts will be receptive to updating their wellness policies. LHD staff will also continue to partner with other agencies to continue to provide support, training and technical assistance to schools showing the need for a salad bar. The LHD staff will work with non-SNAP-Ed funded partner agencies to fund salad bars. LHD staff will maintain a presence in the local *More Produce in Schools* movement, working with local growers/shippers to provide greens free of charge to the salad bars. This frees up funds for the school district to use to purchase other seasonal and local fresh fruits and vegetables that they may otherwise not have been able to purchase. University of California Santa Cruz (UCSC) and CAFF (Community Alliance for Family Farmers) are currently conducting a needs assessment survey with six of the school districts in Monterey County to identify baseline data on local procurement of produce. Our Farm to School committee will continue to partner with food service directors to incorporate local produce into menus and increase percentage of local procurement.

In May 2012, the Nutrition and Fitness Collaborative (NFCCC) conducted a survey in the target community related to sugar sweetened beverages. In March 2015, the NFCCC released the data and brief at a press release with Monterey, San Benito and Santa Cruz counties. The data showed high consumption of cola, energy drinks and coffee drinks in our target communities. Local Implementing Agency staff will continue to focus efforts and education on decreasing sugary sweetened beverages at parent workshops, trainings and community events. Media related intervention activities were developed and informed by data showing almost 53% of children and teens consume at least one or more sugar sweetened beverages per day.

The data from sources listed above also illustrated a need for messages that can reach a wide audience. Approved media messages such as billboard advertisements, radio commercials and remotes and TV spots will help ensure that nutrition education and healthy beverage education will reach the SNAP-Ed population at eligible sites. Media messages and activities that have been developed and approved by the CDPH State Media team will be utilized to support healthy beverage promotion on a broad scale. This would help ensure that the SNAP-Ed eligible population is reached in all parts of the county. The same data reinforced the need to be part of large community events, forums or health fairs such as Cyclovia, El Grito, Healthfest, Dia de la Familia, Dia del Nino, etc.

Physical activity was also assessed utilizing the SNAP-Ed Profile from 2015. It shows an increase of 3% from last year's data, with 32% of children ages 5-11 physically active at least one hour every day. Physical fitness has been linked to higher academic performance, better concentration and increased confidence and self-esteem. Students who are more physically active are less likely to suffer from stress, anxiety and depression. In addition, physical fitness helps to develop lifelong habits that can reduce the likelihood of chronic diseases such as diabetes, high blood pressure, heart disease, and some cancers. The work plan will incorporate physical activity education into healthy food and beverage education with students, adults and seniors in a variety of settings. Staff will work with schools, parents, and children to increase concepts and incorporate and strengthen the physical activity portion of the wellness policies. LHD staff will also continue to include physical activity messaging into the Impact Outcome Evaluation IOE with 4th grade students.

Working with partners over the past several years form the basis for continuing work with qualifying farmers markets. Utilizing data from market managers and Agricultural Land Based Association (ALBA), the LIA staff plan to continue to support farmer's markets by providing trainings on conducting successful food

demos or nutrition activities for market staff and promote nutrition education materials at farmer's markets accepting EBT and offering market match. Staff will also promote eligible markets at parent workshops, trainings, community meetings and on the county website and Facebook pages.

Additionally, past partnerships built over the last several years, in combination with our partners work at SNAP-Ed eligible sites helped ensure all of our SNAP-Ed objectives were occurring with the same populations. We did our best to select the sites where the same families would receive multiple interventions through direct/indirect education, media or PSE changes, based on the best data available to us at the time of our planning.

5. **Community Change Goals**

Based on results of community assessments, existing and new data was incorporated into our LIA assessment pool to help determine local need. We partnered with funded and unfunded community agencies to determine our community change goals (that relate to the SNAP-Ed work plan). Nutrition and obesity issues have been determined to be priority areas of focus. However, these are just a couple of the many concerns analyzed in community-wide assessments. Long term community change goals include improving health equities, improving access to affordable housing, improving graduation rates with students ready for college, increasing the number of residents in a healthy weight category, child readiness to enter kindergarten, increased breastfeeding rates, among many others. The LIAs will focus their efforts on the SNAP-Ed eligible portion of the county's population and on SNAP-Ed allowable interventions. They will include increasing consumption of and access to healthy foods, focusing on school based wellness strategies and increasing consumption of healthy foods and decreasing consumption of unhealthy beverages.

LIAs will support long term community change goals in the county by working with community partners to identify strategic partners and convene community-wide, multi-sector coalitions to improve nutrition and physical activity; create an environment that makes healthy food and beverage options the routine, easy choice; improve availability, accessibility and demand for healthy foods and beverages; promotion of farmer's markets with access to EBT, Senior and WIC farmer's market checks and market match; ensure opportunities for physical activity and enhance the physical and built environments around the targeted sites; develop and support a sustained, nutrition and physical activity social marketing campaign (community campaign to promote healthy eating and active living) and provide evidence based education with a focus on behavior change goals; build capacity and engagement at school sites for comprehensive nutrition and physical activity programs that help to strengthen school wellness policies; encourage local procurement of local produce and cafeteria activities that encourage healthier school environment changes; work with partners to attract and create an environment where healthy is the norm, healthy checkout lanes, healthier signage.

Specifically, Monterey County LIAs will achieve the following three year objectives:

1. By Sept. 30, 2019, engage a minimum of 18 qualifying schools and 6 preschool sites annually, provide them with nutrition and physical activity education, update and implement school wellness policies in four school districts and improve school environments to support enhanced nutrition and physical activity programs among students, parents and teachers.
2. By September 30, 2019, increase access to healthy fruits, vegetables and beverages at 8 SNAP-Ed qualifying neighborhood retail stores, 10 summer lunch sites, 4 farmer's markets and 4 senior centers/public housing facilities through adopted and implemented policy changes and direct/indirect nutrition education.
3. By September 30, 2019, promote the consumption of healthy food by providing nutrition education and physical activity promotion designed to increase knowledge, self-efficacy skills and healthy food preferences to directly reach at least 4000 SNAP-Ed eligible adults and seniors.
4. By September 30, 2019, collaborate with at least 30 partner agencies in the community to provide trainings, technical assistance and access and availability of healthy food programs information to increase food security in the SNAP-Ed eligible population.

SNAP-Ed funding will work to support local SNAP-Ed eligible neighborhoods. The LIAs will work together on the objectives, working within their population reach and area of expertise. The LIA partnership is positioned to support the community change goals with work in direct nutrition education, media and public relations, coalition building, training support and technical assistance. Much of the larger community goals work will require additional funding to support improvements and policy advocacy; However, SNAP-Ed contribution will remain exclusive to our target populations and allowable activities. All LIAs will provide direct nutrition and physical activity education as well as support PSE changes.

The objectives, listed above, will allow us to focus on our larger community change goals within the parameters of the SNAP-Ed funds. We will focus on the following PSE strategies:

- School Wellness
- Farmer's Markets
- Access to Healthy foods and beverages
- Healthy Retail
- Community Gardens

The PSE strategies are detailed within each three-year objective and speak to the connection to our community change goals. All objectives support and provide education and technical assistance for improved nutrition.

6. **Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]**

Monterey County's CNAP workgroup has been meeting quarterly for three years to share best practices, track progress to the action plan and improve local coordination of SNAP-Ed efforts in the county. The group consists primarily of the USDA- Food and Nutrition Services (FNS) funded partners and select non-funded nutrition partners. The CNAP has four current objectives; 1) Encourage coordinated outreach among partner agencies to increase participation in all FNS programs, 2) Promote coordinated outreach efforts for nutrition education, physical activity and food security, 3) Launch collaboration between local farmers and schools to procure fresh produce for school meals and 4) Build partnerships between agencies to increase fruit and vegetable consumption. Nutrition education efforts, materials and resources are shared to ensure coordinated core messaging. With 25% of the children food insecure in our county and 87% of children receiving school meals not receiving or taking part in summer meals, the CNAP group has made this a priority over the next couple years in hopes to increase participation in summer meals. Within the CNAP, LIAs will continue to promote SNAP-Ed services and activities by connecting with other agencies, such as County Health and Human Services Department, Behavioral Health Department, etc.

The LHD has also decided since the ending of the Regional Network and Training Resource Center to continue our Nutrition and Fitness Collaborative of the Central Coast (NFCCC). This collaborative has been meeting quarterly for over twelve years: providing trainings, sharing resources, networking, funding opportunities and working on initiatives that will help the residents in the community. Both the NFCCC and the CNAP recognize the value of the SNAP-Ed funding within the county. The collaborative works hard to include all SNAP-Ed funded partners as well as unfunded partners with like-minded missions to ensure goals are met. By including non-traditional partners (such as city planners, business developers, public officials, etc.), the collaborative can be flexible in its approach to the health needs of the community as well as bring diversified funding to the table. The NFCCC sets the agenda for the priority health work in the county. Partners meet to share assessment data, develop nutrition initiatives, provide trainings and share resources. The LIAs together with the CNAP are working to ensure that the activities are aligned with the collaborative and that gaps in services are being addressed. Together, the groups will achieve greater health outcomes for the county.

7. **Key Messages**

X	Food Safety	X	Physical Activity	X	Fiber-Rich Foods
X	Whole Grains	X	My Plate-Healthy Eating Plan	X	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
X	Fruits & Vegetables	X	Limit Added Sugars or Caloric Sweeteners	X	Other *(specify):* Importance of Breakfast
x	Fats and Oils	X	Food Shopping/ Preparation	X	Other *(specify)*: Healthy Snacks
X	Lean Meat & Beans				
X	Sodium & Potassium				
X	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All educational materials, resources and curriculum will be approved through the USDA SNAP-Ed Connection website and or FFY 2017-19 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the California Department of Public Health-Nutrition Education and Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials List.

Monterey County LIA's reviewed the approved lists and determined the most appropriate for the target population. Curriculum, materials and resources were chosen to best reflect the needs of the population as well as reflect our three year objectives.

9. **Intervention and Evaluation Plan Narrative Summary**

The implementing agencies in Monterey County- LHD, AAA and CCC will conduct nutrition education and obesity prevention services at targeted locations, reaching a large portion of the SNAP-Ed eligible population. They will be assisted by subcontractors and partners who will support these efforts. The intervention plan includes activities that provide comprehensive education on proper nutrition and physical activity; approaches, which when used in combination provide high strength intervention strategies with implementation of nutrition education and physical activity focused direct delivery, staff training and coordinated strategies for education providers, food service providers, afterschool providers and other staff that interface with and impact children in multiple settings. Building upon relationships with elementary schools and preschools already existing with the county, LIAs will continue to provide direct nutrition and physical activity education. We are currently in over 5 preschool sites/centers and have been working with the new food service director on supporting nutrition in the

Head Start classrooms. We provide a variety of resources, materials, trainings and parent presentations to preschool and Head Start parents throughout the county. LIAs will also train and support teachers and afterschool providers to provide direct education in the classroom and in afterschool programs. Additionally, nutrition education will be provided to the adult and senior SNAP-Ed population that connects shopping behaviors and choices to better health outcomes as per the MyPlate and Dietary Guidelines. Focus will be placed on selecting healthy food and beverages; increasing the skill for label reading, menu planning and food budgeting with hopes to increase knowledge of MyPlate recommendations and exposure to and acceptance of new healthy foods.

The implementing agencies will include interventions at the environmental level of the Social Ecological Model (SEM) with the inclusion of policy, systems and environmental (PSE) change efforts. The LHD will be implementing school wellness policies that promote access to healthy foods, beverages and physical activity. The school wellness policies will focus on strengthening the standards for all foods and beverages offered on site, opportunities for daily physical activity, develop guidelines for healthy classroom parties, shared ideas for healthy fundraisers, enhanced nutrition education in the classroom and marketing guidelines for materials posted and shared on school sites. Efforts will be focused on improving the school lunchroom, using the cafeteria as a learning environment, incorporating HOTM and possibly Smarter Lunchrooms Movement (SLM) strategies. PSE efforts will also focus on retail store environments with product placement strategies, healthy check-out lanes, healthy advertising and limited unhealthy foods and beverages at the child's level. Catholic Charities (CC) will be identifying and assisting in the development of a community garden. Additionally, CC will also be implementing healthy food and beverage standards in parishes or community centers.

Progressing to the sector level of the SEM, LIAs will identify strategic partners and continue to be part of community-wide, multi-sector coalitions such as the NFCCC and the Health in All Policies (HiAP) workgroup, that convene to improve community nutrition and physical activity, conduct community health needs assessments and prioritize, select and adapt approaches unique to the needs of our county. The LHD will continue to strengthen partnership with Salinas City Public Works to incorporate local neighborhood (CX3) data into the urban green plan and the City of Salinas vibrancy plan. These plans are in progress with partners, plan to evaluate using the PEARS reporting form, presenting best practices at meetings and sharing CX3 with organizations. The urban green and City of Salinas vibrancy plan will also be evaluated using the SNAP-Ed Priority Outcome Indicators for both the Environmental and Sectors of Influence settings; i.e. ST7: Organizational Partnerships, ST8: Multi-Sector Partnerships and Planning, etc. Community partners will be educated about policy/legislative changes, updated on school wellness policies, healthy retail environment strategies, qualifying farmer's markets efforts and several other priorities and best practices. Continuing work with local foundations, the LHD will provide support and technical assistance for foundations to include nutrition and health language into grant guidelines.

SNAP-Ed funding will work to support local SNAP-Ed eligible neighborhoods. The LIAs will work together on the objectives, working within their population reach and area of expertise. The LIA partnership is positioned to support the community change goals with work in direct nutrition education, media and public relations, coalition building, training support and technical assistance. Much of the larger community goals work will require additional funding to support improvements and policy advocacy; however SNAP-Ed contribution will remain exclusive to our target populations and allowable activities. All LIAs will provide direct nutrition and physical activity education as well as support PSE changes.

The LIAs will work together to provide direct nutrition education to students and adults in their area of expertise. LHD and CCC will provide direct nutrition education to adults in target areas. LHD, CC and AAA will work together to improve EBT access and usage at Farmer's Markets and bring SNAP-Ed eligible residents to local qualifying farmer's markets. This supports all state level goals and objectives; consumption and access to healthy foods and beverages, increase physical activity, improve food resource management, and increase access to physical activity opportunities. Community partners will support this effort through funding outreach materials and market match programs. The LIAs will also support indirect education at qualifying community events and farmer's markets utilizing allowable materials and resources.

LHD staff will utilize evidence and practice based, research and emerging interventions. The objectives and activities in the work plan were derived from results obtained from the SNAP-Ed County Profiles 2015, Rethinking Sugary Drinks on the Central Coast, CX3 data, Monterey County's Community Health Assessment 2013. The LHD also included other approved resources, i.e., SNAP-Ed Toolkit, Portfolios, Physical Activity Resource Guide, etc. for planned interventions.

Evaluation processes will be used to improve services for all local objectives and intervention strategies. All agencies evaluation plan includes formative, process or outcome evaluation activities using State and locally developed surveys. Past evaluation efforts have been helpful in informing the program and these strong efforts will continue. LIAs will continue to collect and report activities in the Activity Tracking Form (ATF). Education and Reporting Administrative System (EARS) and Semi Annual Activity Report results will be generated from the online ATF. The LHD will complete the RE-AIM reporting for PSEs and the Youth Survey for IOE. With data from the Youth IOE, LHD staff will make changes to lessons provided to the classes. The LHD will continue to utilize data from the CX3 to implement strategies in the neighborhoods and work with partner and city programs. CC will complete an Adult Survey IOE.

The AAA is a direct provider of services to older adults and also sub-contracts out services to other agencies that specialize in services for seniors. As a result, there is a network of services and organizations that outreach to target populations 60 and over, in order to connect isolated individuals to all services that may benefit them. SNAP-Ed activities and the prescribed curriculums have attracted not only new senior participants, but also new community partners. The key messages have encouraged and strengthened policies, revitalized systems of service delivery, and created positive environmental changes. It is our intention to continue to strengthen and share services for seniors and build the redemption of the farmer's market senior vouchers accepted at farmer's markets. Participants will be requested to complete evaluation surveys that address, but are not limited to, the following indicators from the Western Region SNAP-Ed Evaluation Framework: Nutrition, Physical Activity and Obesity Prevention Outcomes: MyPlate Behaviors (MT1), Shopping Behaviors (MT2), Physical Activity Behaviors (MT3), Fruits & Vegetables (LT2), Whole Grains (LT3), Dairy (LT4), Non-Dairy (LT5), Physical Activity Recommended levels (LT7) and Entertainment Screen time (LT8). At the environmental level, LIAs will also report as Opportunities (ST4), Partnerships (ST6), Nutrition Supports adopted (MT4), Marketing/Messaging (MT6), Nutrition Supports Implementation (LT9) and Media Coverage (LT12). Last, at the sector level, LIAs will report on Community Partnerships (ST8), Agriculture (MT9), Community Design and Safety (MT11), Agricultural Sales (LT15), Healthy Advertising (LT19) in hopes to move communities to incorporate nutrition and health into policies and the general plan. An IOE Plan and Report will be submitted annually by LHDs and other LIAs will also collect, report and use evaluation data as well. All LHD PSE projects will be reported using the RE-AIM evaluation framework. CC may also utilize the RE-AIM reporting

tools, as appropriate. Reports generated from the RE-AIM, ATF and IOE will be used to track, inform and improve continued program efforts in Monterey County.

SECTION B: Target Audience Description

1. Gender	%		2. Age	#
Male	51		0 to 4 years old (Preschool):	2,000
Female	49		5 to 17 years old (School Age):	20,000
			18 to 59 years old (Adult):	45,000
			60 years old and over (Senior):	3,000

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**
By September 30, 2019, engage a minimum of 18 qualifying schools and 6 preschool sites annually, provide them with nutrition and physical activity education, update and implement school wellness policies in four school districts and improve school environments to support enhanced nutrition and physical activity programs among students, parents and teachers.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- School Wellness Policies
- Farm to School- Local procurement of produce
- Physical Activity
- Healthy Food and Beverage Standards

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, provide nutrition, healthy beverage and physical activity education to 18 qualifying schools to reach 10,000 elementary students with direct education and 15,000 parents through indirect education.
    b. By September 30, 2017, engage 3-5 qualifying afterschool/summer programs to provide nutrition, healthy beverage and physical activity opportunities to increase access and consumption of healthy food and beverages to reach at least 150 students.
    c. By September 30, 2017, LHD will assist up to four qualifying school districts (and their schools) in updating their school wellness policies and cultivating school environment changes that support healthy eating and promote physical activity.
    d. By September 30, 2017, NEOP activities will directly reach 400 preschool age children with direct nutrition education to encourage consumption of healthy foods and beverages.
2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, provide nutrition, healthy beverage and physical activity education to 18 qualifying schools to reach an additional 10,000 elementary students with direct education and an additional 15,000 parents through indirect education.
    b. By September 30, 2018, engage an additional 3-5 qualifying afterschool/summer programs to provide nutrition, healthy beverage and physical activity opportunities to increase access and consumption of healthy food and beverages to reach at least 150 students.
    c. By September 30, 2018, LHD staff will work with partners including school wellness committees to implement School Wellness Policies and make nutrition and/or physical activity related environmental or policy changes at 5 of the 18 sites.
    d. By September 30, 2018, NEOP activities will directly reach an additional 400 preschool age children and 250 parents indirectly to encourage consumption of healthy foods and beverages.
3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, provide nutrition, healthy beverage and physical activity education to 18 qualifying schools to reach an additional 10,000 elementary students with direct education and an additional 15,000 parents through indirect education.
    b. By September 30, 2019, engage an additional 3-5 qualifying afterschool/summer programs to provide nutrition, healthy beverage and physical activity opportunities to increase access and consumption of healthy food and beverages to reach at least 150 students.
    c. By September 30, 2019, LHD staff will work with partners including school wellness committees to implement School Wellness Policies and make nutrition and/or physical activity related environmental or policy changes at 10 of the 18 sites.
    d. By September 30, 2019, NEOP activities will directly reach an additional 400 preschool age children and an additional 250 parents indirectly to encourage consumption of healthy foods and beverages.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Monterey County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 1/20/2017**

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019, engage a minimum of 18 qualifying schools and 6 preschool sites annually, provide them with nutrition and physical activity education, update and implement school wellness policies in four school districts and improve school environments to support enhanced nutrition and physical activity programs among students, parents and teachers.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation

****Time Frame: Year & Quarter:**

Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)

Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**
By September 30, 2019, promote the consumption of healthy food by providing nutrition education and physical activity promotion designed to increase knowledge, self-efficacy skills and healthy food preferences to directly reach at least 4000 eligible adults and seniors.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Healthy Food and Beverage Standards

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, provide food resource management education to reach 1400 SNAP-Ed eligible adults and seniors at community sites.
    b. By September 30, 2017, establish relationships with two community sites and/or public housing units to improve the nutrition, beverage and physical activity environment through change in policies, guidelines and/or access.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, provide food resource management education to reach an additional 1400 SNAP-Ed eligible adults and seniors at community sites.
    b. By September 30, 2018, support development in two community sites and/or public housing units to improve the nutrition, beverage and physical activity environment through change in policies, guidelines and/or access.

2. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, provide food resource management education to reach an additional 1200 SNAP-Ed eligible adults and seniors at community sites.
   b. By September 30, 2019, support adoption of policies in the two community sites and/or public housing units in hopes to improve the nutrition, beverage and physical activity environment through change in policies, guidelines and/or access.

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):
By September 30, 2019, promote the consumption of healthy food by providing nutrition education and physical activity promotion designed to increase knowledge, self-efficacy skills and healthy food preferences to directly reach at least 4000 eligible adults and seniors.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Conduct 22-25 single nutrition education/physical activity promotion sessions to reach unduplicated adults in low income housing units, school parent groups or community organizations.	X CED CEI MPR C&C TTA	CWD X LHD AAA UCCE X CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 X X X X Year 2 Q1 Q2 Q3 Q4 X X X X Year 3 Q1 Q2 Q3 Q4 X X X X	ATF

2.2	Deliver a series of 4-5 one hour nutrition and physical activity workshops, utilizing evidence based curricula. This intervention will directly reach 500 unduplicated adults or seniors in low income housing units, church parishes, school parent groups, senior housing or senior meal sites.	X CED CEI MPR C&C TTA	CWD X LHD X AAA UCCE X CCC	CWD: LHD: AAA: Veronica Carrillo, NOVA UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF
2.3	Promote a parent walking group at one qualifying site annually. Walking groups will receive nutrition education that will include, but is not limited to, portion control, smart shopping, healthy recipe alternatives, etc. Staff will provide technical assistance to ensure sustainability.	X CED CEI MPR C&C X TTA	CWD X LHD AAA UCCE X CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF
2.4	Conduct Zumba demonstrations, at one hour each, and distribute evidence based nutrition education and physical activity handouts to parents and youth directly impacting a minimum of 300 adults or youth. This intervention will take place at schools, afterschool programs, low income housing units or parishes.	X CED CEI MPR C&C TTA	CWD LHD AAA UCCE X CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF

2.5	Host interactive booth, display or exhibit at 6-8 qualifying community events or health fairs to promote healthy foods, beverages and physical activity to reach at least 5,000 unduplicated SNAP-Ed eligible individuals.	CED: ; CEI: X; MPR: ; C&C: ; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF
2.6	Promote EBT usage at farmer's markets and provide nutrition and healthy beverage education at food pantry/distribution sites to reach at least 1000 SNAP-Ed eligible adults or seniors. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**
By September 30, 2019, increase access to healthy fruits, vegetables and beverages at 8 SNAP-Ed qualifying neighborhood retail stores, 10 summer lunch sites, 4 farmer's markets, one community garden and 4 senior centers/public housing facilities through adopted and implemented policy changes and direct/indirect nutrition education.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Farmer's Markets
- Healthy Retail
- Healthy Food and Beverage Standards
- Community Gardens

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, conduct an assessment of the retail environment in up to 4 selected SNAP-Ed qualifying neighborhoods.
    b. By September 30, 2017, provide healthy food and beverage merchandising materials, conduct taste testings of healthy foods and beverage recipes and provide twice yearly owner/retail staff education or technical assistance opportunities to at least 8 retail stores.
    c. By September 30, 2017, increase farmer's market participation via promotion of EBT and market match program for SNAP-Ed eligible residents by 10% in four farmer's markets.
    d. By September 30, 2017, increase summer lunch participation rates by working with partner organizations to provide technical assistance, nutrition education, resources and support by 10% in 4 sites.

e. By September 30, 2017, identify at least five parishes, community centers or public housing facilities that would benefit from standards to provide healthier foods to community members.
f. By September 30, 2017, identify at least three community sites that are able and willing to develop a garden.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, provide healthy food and beverage merchandising materials, conduct taste testings of healthy foods and beverage recipes and provide twice yearly owner/retail staff education or technical assistance opportunities to at least 6 additional retail stores.
   b. By September 30, 2018, increase farmer's market participation via promotion of EBT and market match program for SNAP-Ed eligible residents by 20% in four farmer's markets.
   c. By September 30, 2018, increase summer lunch participation rates by working with partner organizations to provide technical assistance, nutrition education, resources and support by 10% in 4 additional sites.
   d. By September 30, 2018, draft healthy food and beverage policies/guidelines in four parishes, community centers and/or public housing facilities.
   e. By September 30, 2018, partner and assist in the development of a community garden in at least one community site.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, maintain relationships with the 14 retail stores by providing healthy food and beverage merchandising materials, conducting taste testings of healthy foods and beverage recipes and providing twice yearly owner/retail staff education or technical assistance opportunities.
   b. By September 30, 2019, increase farmer's market participation via promotion of EBT and market match program for SNAP-Ed eligible residents by 25% in four farmer's markets.
   c. By September 30, 2019, increase summer lunch participation rates by working with partner organizations to provide technical assistance, nutrition education, resources and support by 10% in 2 additional sites.
   d. By September 30, 2019, implement healthy food and beverage policies in four parishes, community centers and/or public housing facilities.
   e. By September 30, 2019, establish at least one edible community garden and promote its maintenance and use for produce distribution and nutrition education throughout the community.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Monterey County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 1/20/2017**

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):

By September 30, 2019, increase access to healthy fruits, vegetables and beverages at 8 SNAP-Ed qualifying neighborhood retail stores, 10 summer lunch sites, 4 farmer's markets and 4 senior centers/public housing facilities through adopted and implemented policy changes and direct/indirect nutrition education.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Conduct baseline retail assessments in select SNAP-Ed qualifying neighborhoods (up to 4) that cater to eligible families using CX3 tools.	CED: ; CEI: ; MPR: ; C&C: ; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3, Q4 Year 2: Q1, Q2, Q3, Q4 Year 3: Q1, Q2, Q3, Q4	On File: CX3 Retail assessments and data
3.2	Partner with 6-8 retail stores in CX3 neighborhoods to assist in creating a healthy checkout lane, better promotion of fruits and vegetables, healthy signage or other allowable activities.	CED: ; CEI: X; MPR: X; C&C: X; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1, Q2, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF On File: Copy of materials, photos, flyers

3.3	Distribute healthy marketing materials, which may include NEOPB Retail and HOTM signage, posters, newsletters and recipe cards to 8 retail stores	CED: ; CEI: X; MPR: X; C&C: X; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 — ; ; X; X Year 2: Q1 Q2 Q3 Q4 — X; X; X; X Year 3: Q1 Q2 Q3 Q4 — X; X; X; X	ATF
3.4	Coordinate and conduct 6-8 promotional events (tastings) at participating retailers highlighting the seasonal, local produce.	CED: ; CEI: X; MPR: X; C&C: X; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 — ; ; X; X Year 2: Q1 Q2 Q3 Q4 — X; X; X; X Year 3: Q1 Q2 Q3 Q4 — X; X; X; X	ATF
3.5	In collaboration with partner organizations and community partners, provide technical assistance to 4-6 food retailers on improving marketing practices, including price, promotions, placement and product. Capacity building and training for food retail owners, managers and staff will be provided to create a healthier store environment and may include topics such as produce procurement/ storage strategies, store layout, etc.	CED: ; CEI: ; MPR: X; C&C: X; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 Q2 Q3 Q4 — ; ; X; X Year 2: Q1 Q2 Q3 Q4 — X; X; X; X Year 3: Q1 Q2 Q3 Q4 — X; X; X; X	RE-AIM reporting On File: Training materials

3.6	Collaborate with local health department tobacco control programs to identify qualifying retail sites: part of the statewide healthy retail campaign (Tobacco, Alcohol and Nutrition) to increase healthy food options for SNAP-Ed eligibles.	CED: ; CEI: X; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF On File: Contact list
3.7	Conduct store tours at one hour each to reach 50 SNAP-Ed eligible residents. Store tours will include nutrition education, healthy family meals, etc.	CED: X; CEI: ; MPR: ; C&C: ; TTA:	CWD: ; LHD: ; AAA: ; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF
3.8	Coordinate with CDSS to utilize existing “We Accept EBT” signs and post signage that promotes new EBT services to at least three farmer’s markets.	CED: ; CEI: ; MPR: X; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	On file: Sample materials

3.9	Host 10-12 interactive nutrition education booths and taste testings featuring seasonal produce at qualifying farmer's markets.	CED: ; CEI: X; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF, On File: Materials, photos, recipes
3.10	AAA will coordinate Senior Farmers' market program distribution at qualifying markets and will promote increased fruit and vegetable consumption, farm to fork and physical activity.	CED: ; CEI: X; MPR: ; C&C: ; TTA:	CWD: ; LHD: ; AAA: X; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):**
By September 30, 2019, collaborate with at least 30 partner agencies in the community to provide trainings, technical assistance and promote access to and availability of healthy food programs information to increase food security in the SNAP-Ed population.

SNAP-Ed State Goals:

	Goal 1: Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**
- Access to Healthy Food
- Healthy Food and Beverage Standards

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**
1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 30, 2017, collaborate with 15 partner agencies in the community to provide access and availability of healthy food programs information to increase food security in the SNAP-Ed eligible population.
   b. By September 30, 2017, provide 4-6 skill based trainings to LIAs and partners to promote the delivery of the SNAP-Ed nutrition education and physical activity programs.
   c. By September 30, 2017, the Nutrition and Fitness Collaborative of the Central Coast (NFCCC) and the County Nutrition Action Plan (CNAP) will recruit, and form working relationships with other governmental and non-governmental entities to exchange information, share best practices and explore mutual interventions to provide nutrition education and obesity prevention services as indicated by SNAP-Ed.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, collaborate with 15 additional partner agencies in the community to provide access and availability of healthy food programs information to increase food security in the SNAP-Ed eligible population.
    b. By September 30, 2018, provide an additional 4-6 skill based trainings to LIAs and partners to promote the delivery of the SNAP-Ed nutrition education and physical activity programs.
    c. By September 30, 2018, the Nutrition and Fitness Collaborative of the Central Coast (NFCCC) and the County Nutrition Action Plan (CNAP) will recruit, sustain and maintain working relationships with other governmental and non-governmental entities to exchange information, share best practices and explore mutual interventions to provide nutrition education and obesity prevention services as indicated by SNAP-Ed.

3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, maintain partnerships with community organizations through collaboration and trainings to provide healthy food programs information to increase food security.
    b. By September 30, 2019, the Nutrition and Fitness Collaborative of the Central Coast (NFCCC) and the County Nutrition Action Plan (CNAP) will sustain and maintain working relationships with partner entities to exchange information, share best practices and explore mutual interventions to provide nutrition education and obesity prevention services as indicated by SNAP-Ed.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Monterey County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 1/20/2017**

Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):

By September 30, 2019, collaborate with at least 30 partner agencies in the community to provide trainings, technical assistance and access and availability of healthy food programs information to increase food security in the SNAP-Ed population.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
4.1	Convene the tri-county Nutrition and Fitness Collaborative of the Central Coast (NFCCC) quarterly. Provide resources, materials, trainings and opportunities to promote nutrition and physical activity education. Coordinate USDA food program interventions and efforts to increase food security in the SNAP-Ed population.	CED: ; CEI: ; MPR: ; C&C: X; TTA: X	CWD: ; LHD: X; AAA: X; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF On file: Meeting agendas, resources & materials NFCCC plan
4.2	Convene the County Nutrition Action Plan (CNAP) group at least three times per year to coordinate USDA food program intervention and efforts to increase food security in the SNAP-Ed population.	CED: ; CEI: ; MPR: ; C&C: X; TTA: X	CWD: ; LHD: X; AAA: X; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF Meeting agendas CNAP Plan

4.3	Apply multi-level approaches, including direct education to policy implementation, to advance and market a minimum of one nutrition and obesity prevention intervention that relates to the collaborative and CNAP. Work with CNAP and NFCCC partners to identify support, funding or resources for action plan items developed.	CED: ; CEI: ; MPR: ; C&C: X; TTA: X	CWD: ; LHD: X; AAA: X; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Annual report On file: Meeting agendas
4.4	Utilize media, social media, Champion provider and agency websites to cross promote SNAP-Ed activities, success stories, events and PSE strategies.	CED: ; CEI: X; MPR: X; C&C: X; TTA:	CWD: ; LHD: X; AAA: X; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF On file: Success Stories
4.5	Attend 2-4 nutrition education obesity prevention promotional events and coordinate local media and public relations efforts to highlight signature promotions, which may include: Latino Health Awareness Month, National Nutrition Month, Food Day, Binational Health Week, etc., reaching 500 individuals.	CED: ; CEI: X; MPR: X; C&C: ; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	ATF On file: Flyers, materials

4.6	Coordinate 3-5 local media efforts that support nutrition and healthy beverage education promotion. Purchase buys (billboards, TV, radio commercials or other approved methods) to reach SNAP-Ed eligible. FFY 2018 SNAP-Ed Budget

Organization Name:	California Department of Aging
County/Jurisdiction:	Monterey County
FFY 2018 Total Budget:	**$26,138.00**
Budget Adjustment Request #:	

	Expenses*	FFY 2017 Carry-In Budget****	FFY 2017 Budget	FFY 2018 Budget	% Difference
1	Salaries/Benefits		$2,360	$5,228	121.53%
2	Non-Capital Equipment/Supplies		$506	$220	-56.52%
3	Materials		$607	$1,070	76.28%
4	Travel		$335	$335	
5	Building/Space		$0	$0	
6	Maintenance		$0	$0	
7	Equipment and Other Capital Expenditures		$0	$0	
8	Contracts/Sub-Grants/ Agreements**		$19,344	$18,344	-5.17%
	Total Direct Costs:	**$0**	**$23,152**	**$25,197**	8.83%
9	Indirect Costs*** Indirect Cost Rate= 18%		$448	$941	110.04%
	Total Federal Funds	**$0**	**$23,600**	**$26,138**	10.75%

	Budget Categories	Justification For Greater Than 5% Difference From FFY 2017 Budget
1	Salaries/Benefits	Increased project coordinator salary, benefits and FTE for FFY 18.
2	Non-Capital Equipment/Supplies	Decrease based on program needs. For FFY 17, we replaced items that were old and needed repalcement and purchased new items needed for the program, therefore it decreased this year as it was not needed.
3	Materials	Increased based on planning estimates.
4	Travel	
5	Building/Space	
6	Maintenance	
7	Equipment and Other Capital Expenditures	
8	Contracts/Sub-Grants/ Agreements**	R.D. requested a decrease in services.
9	Indirect Costs	Increase in project coordinator salaries and benefits.

*Provide narrative describing all expenses.

**Retain copies on site.

***Provide assurances that the indirect cost rate is an approved rate (Financial and Cost Policy Supplement).

****Please note that funds cannot be carried over into the next Federal Fiscal Year if the funds are in the last year of their 2-year period of performance.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Napa County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

County Name: Napa

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency (counterpart local agency) Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
X	California Department of Public Health: CDPH: (Healthy Cooking with Kids, Inc.: LHD)
X	California Department of Aging: AAA: (Area Agency on Aging - Napa and Solano PSA 28: AAA)
X	Catholic Charities of California: CCC: (Catholic Charities of the Diocese of Santa Rosa: CCSR)

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.

- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Poverty levels-

Napa County is a small, rural county in the Bay Area Region of Northern California. The Napa County economy is reliant on agriculture and tourism. The population of the county is 136,644 residents. Ten percent of county residents fall below the Federal Poverty Level (FPL) and 26.4% were living below 200% FPL. According to the 2016 CDA Intrastate Funding Formula, 10.6% of older adults were living below the FPL, this is a 2.1% increase since 2012. The following groups of people, which are not mutually exclusive, exhibited higher than average rates of poverty: females, people under 18 years old, Hispanics/Latinos, female householders with no husband present, people in other living arrangements (e.g., single or non-family households), people with a high school degree or less, and foreign born individuals. Income below 200% FPL comes closer to estimating the true extent of poverty in the County as it is double the poverty level ($10,400 for an individual) and comparable to the living wage or self-sufficiency standard for an individual resident of Napa County, which is estimated to be $23,400 annually. Approximately 34% of Napa County families with children under 18 were living below 200% FPL between 2006 and 2010. A family of four is below 200% FPL if their annual income is under $42,400. In contrast, the estimated annual living wage for a family with two adults and two children is $46,675 in Napa County; this estimate assumes that one adult in the household provides childcare and therefore the cost of childcare is not included in the estimate. However, there is a large gap between living wage and 200% FPL for single parent households primarily due to the costs of childcare. The living wage for a household with one adult and two children is $55,400, but a family of three is considered to be below 200% FPL only if they make less than $38,180 per year. This suggests that using a threshold of 200% FPL, twice the federal poverty level, still substantially underestimates the financial burdens of single parent households in Napa County.

Factors affecting poverty-

Having a job that pays well makes it easier for workers to maintain good health because they have the ability to live in healthier neighborhoods, access quality education for their children, secure child care services and buy healthy food. Job loss and unemployment are associated with a variety of negative health effects. Between 2006 and 2010, Napa County's unemployment rate averaged 7.4%. The unemployment rate in Napa County peaked in 2009 at 9.7% and decreased slightly to 9.5% in 2011. Unemployment was highest among Hispanic/Latino residents and those who identify with "two or more races," and lowest among non-Hispanic white and Asian residents.

People who receive quality education tend to have better jobs, higher income and live longer, healthier lives than those with less education. Educational attainment, or the highest level of school completed, is an important determinant of a person's overall health. Completion of formal education (e.g., high school) is a key pathway to employment and access to healthier and higher paying jobs that can provide food, housing, transportation, health insurance, and other basic necessities for a healthy life. In the 2010-2011 academic year, the Napa County High School dropout rate was 13.3%. Dropout rates were higher among

Hispanic/Latino, English Language Learners, special education and socio- economically disadvantaged students. In some census tracts within the city of Napa, only 50% to 70% of adults have completed a high school education.

Along with the rest of the United States, Napa County is facing unprecedented increases in the older adult population. Napa County has 34,743 residents 60 and older, or 25.4% of the total population. This is a 20% increase over 2012, according to the California Department of Aging statistics. As the percentage of older Americans rises, so does concern for their economic stability. Factors contributing to senior poverty include stagnant benefit levels, higher out-of-pocket medical costs, increased costs for groceries and utilities, and high housing expenses. Napa's housing in nearly double that of the median U.S. neighborhood. In Napa County, those 60 and over who are eligible for Medi-Cal nearly doubled from 2,480 in 2012 to 3,698 today. Many retirement accounts and investments fell during the recent recession, forcing more older adults to work for more years and to rely increasingly on their Social Security benefits. Declines in health and the death of a spouse, common among older adults, are factors that can affect financial standing and other aspects of socioeconomic status (SES). As a large proportion of the U.S. population approaches retirement, greater demand is placed on Social Security, and cuts in these benefits are anticipated. These circumstances place low-income older Americans at a serious disadvantage, as they are more likely to rely on Social Security as their main source of income. Older individuals of lower SES have increased mortality rates (Bassuk, Berkman, & Amick, 2002), higher stroke incidence (Avendano, et al., 2006), higher incidence of progressive chronic kidney disease (Merkin et al., 2007), lower health-related quality of life (Huguet, Kaplan, & Feeny, 2008), smaller social networks and lower quality of social relations. Although good social networks have been shown to buffer stress (Krause, 2001), older persons living in poor neighborhoods are more likely to have underdeveloped (Feldman & Steptoe, 2004) and poorly integrated social networks (Black & Rubinstein, 2000). Lower educational attainment is associated with poorer self-rated health status, higher infant mortality rates, lower cancer screening rates and many other health outcomes and health behaviors.

SNAP-Ed percentages-

In Napa County, there are 33,256 residents who qualify for SNAP-Ed benefits (have an income below 185% of the FPL), which is 25.0% of the total population. Of these individuals, 40.0% (3,817) are children less than 6 years old, 31.8% (6,774) are children 6-17 years old, 23.1% (18,963) are adults ages 18-64, and 18.4% (3,702) are seniors age 65 and older.

Ethnic breakdown-

The SNAP-Ed eligible population in Napa County is comprised of a diverse population. The ethnic breakdown of the SNAP-Ed eligible population is as follows: 40.2% White, 50.5% Hispanic, 2.8% African-American, 4.5% Asian, 1.4% Multiracial, and 0.6% unknown. Overall, between 2000 and 2010 Census, there was an increase among all racial and ethnic groups except among non-Hispanic white and American Indian/Alaska Native populations. In total numbers, the largest population increase in Napa County was among the Hispanic/Latino population, which increased from 29,416 people in 2000 to 44,010 people in 2010. However, the Asian population more than doubled and the African American/Black population increased over 50% during this time period. The non-Hispanic white

population decreased from 69.1% of the population in 2000 to 56.4% of the population in 2010. By 2030, the Hispanic/Latino population is projected to be 41.7% of the population (66,166) and the non-Hispanic white population is projected to be 44.9% (71,235). The primary languages spoken in are English (80%) and Spanish (20%).

Of the SNAP-Ed eligible population, 7,165 individuals are CalFresh Participants (5.2%). Almost half of the schools in Napa, 42% or 19 out of 45, are SNAP-Ed eligible schools. These schools are comprised of 9,397 students, of which at least 50% are eligible for Free/Reduced Price Meals (FRPM).

Obesity levels-

Napa County has an overall obesity rate of 28.9%, higher than the statewide average of 23.2%, and an overweight percentage of 31.9%, slightly lower than the state average of 34.6%. In addition, more than 40% of 5th, 7th and 9th graders are overweight or obese, a rate that increased 6% in a five year span. For adults, the obesity rate increased 3% from 2010 to 2014 according to the University of Wisconsin Population Health Institute. Higher obesity rates in the County were also seen among male students, African-American students and Hispanic/Latino students. The overweight/obese prevalence in the low-income children population is just as disconcerting and higher than the state average. The overweight/ obesity rate for children ages 5-19 is the highest rate comparatively for all low-income children, at a rate of 46.9% overweight/obese. The state average is 42.1%. Obesity is also a growing concern among low-income preschoolers (ages 2-4); the USDA reports that 18.3% of Napa County preschoolers are considered to be obese, which is twice as high as the Healthy People 2020 objective of 9.6%. Adults in Napa County have an obesity/ overweight rate of 61.1%, which is slightly higher than the state average of 59.8%. Of these obese/overweight adults in Napa, 57.7% are SNAP-Ed Eligible. Overall, 28.9% of the general adult population is obese. Data shows that obesity among Napa County residents 200% or more below the federal poverty level are twice as likely to be obese than individuals 400% or more above the federal poverty level.

Factors affecting obesity-

Factors that may affect the higher rate of obesity in Napa County include lack of access to healthy food, lack of spaces and opportunities for exercise, lower exclusive breastfeeding rates, and lack of knowledge on habits to maintain a healthy weight. Poor physical activity and nutrition habits contribute to the high rates of overweight/obesity throughout Napa County. Of the adults surveyed in the County, 15.5% reported not exercising in the past month, and 33.7% did not engage in regular walking in the past week. Female students, economically disadvantaged students, and students who identified as Latino or being from two or more racial groups were less likely to be scored as physically fit. Income level, for both adults and children in Napa County, also influences physical fitness. Almost 72% of students who are not economically disadvantaged scored as physically fit on the Physical Fitness Test compared to 59.6% of students who are economically disadvantaged.

According to the 2014 SNAP-Ed County profile for Napa, statistics show that 48.4% of children ages 2-11 consumed 5 or more servings of fruits and vegetables the day before, and 30.6% of adults consumed 3 or more servings the day before. There was no data on the consumption habits of fruits and vegetables of

SNAP-Ed children or teens ages 12-17. Additionally, more than half of the adults in Napa County (50.9%) consumed fast food at least one time in the past week (47.3% of these adults were SNAP-Ed eligible). Of the children/teens surveyed, 44.3% of children/teens ages 2-17 (of which 51.1% were SNAP-Ed children/teens) consumed fast food 1 or more times in the past week. Just over a fourth of all children and teens ages 2-17 (29%) reported consuming sugar-sweetened beverages at least once per day. These rates of poor nutrition and physical activity habits indicate that there is a need for nutrition education and physical activity promotion among the SNAP-Ed eligible population in Napa County.

An adequate, nutritious diet is a necessity at all stages of life – eating healthfully plays a significant role in preventing cardiovascular disease, some cancers, obesity, type II diabetes and anemia, and influences the course of recovery in those requiring medical treatment. Furthermore, an inadequate diet can impair intellectual performance and has been linked to more frequent school absences and poorer educational achievement for children. According to the 2009 California Health Interview Survey, 52.2% of households in Napa County with incomes below 200% of the federal poverty level reported being food insecure, indicating that normal eating patterns were disrupted because the household could not afford enough food or lacked access to other food resources. Overall Napa County's food affordability for a female-headed household with children is 0.2; this means, that a single mother with children under 18 has to spend 20% of the family's income just to meet minimal nutritional requirements. Compared to other counties in and near the Bay Area region, Napa County falls in the middle range with San Benito County having the least affordable food (.28) and Marin County having most affordable food (.13). Within Napa County, African American/Black (.31) and Latino (.25) households exceeded the county average indicating that food is less affordable for these populations since they are spending more of their total income toward food purchases.

The built environment may contribute to poor nutrition and physical activity habits in the county. There are 13.2 recreational facilities per 100,000 residents, which equates to over 7,575 residents per facility. It was reported that there is a food insecurity rate in Napa County of 12.5% overall, and 20.5% in children. Additionally, 2.6% of the population of the county had limited access to healthy food. 22% of the zip codes in Napa County do not have grocery stores, produce stands or farmers markets within their boundaries. Lastly, statistics show that 37.7% of restaurants in Napa County are fast food restaurants.

Current programs-

Napa County has a wide array of organizations working with the low income population on improving overall health. The WIC program promotes healthy eating, encourages and supports breastfeeding, and provides referrals to health and community resources. WIC Participants receive checks to purchase healthy foods, tips for healthy eating and active living, support and help with breastfeeding, and referrals to other community programs. The Children and Weight Coalition provides leadership for the community and serve as a resource for the development of interdisciplinary, evidence-based strategies to promote children's health through nutrition and physical activity. Programs for older adults include the Older Americans Act Title IIIC Nutrition Services Program, Senior Nutrition Farmers' Market, OAA Disease Prevention and Health Promotion (Title IIID), Meals-On-Wheels and the Elderly Nutrition Program. The LIAs currently collaborate with these organizations to spread the reach of the programs to all eligible children, families and seniors.

4. **Community Assessment**

The information presented in the jurisdiction section of this Work Plan was compiled from reviewing the CDPH 2014 County Profile for Napa County and the Napa County 2014 Comprehensive Community Health Assessment. The 2014 data is used due to the fact that the 2015 Napa County profile is missing key data points due to unstable estimates. The County Profile has information regarding healthy eating and active living habits, including obesity prevalence, ethnic and demographic information, and economic information of residents living in Napa County. This information was compiled by CDPH through various resources, such as the US Census Bureau, Feeding America, Map the Meal Gap, Food Insecurity in your County, CA Department of Social Services and CA Department of Finance, CA Department of Education, CA Health Interview Survey, the Pediatric Nutrition Surveillance System, The Robert Wood Johnson Foundation, the Lucille Packard Foundation, and the UCLA Center for Health Policy Research. The Community Health Assessment is the result of a collaborative effort by the partnership of organizations that make up the Live Healthy Napa County Core Support Team from Kaiser Foundation Hospital-Vallejo, Napa County Health & Human Services Agency, Napa Valley Coalition of Nonprofit Agencies, St. Helena Hospital and St. Joseph's Health- Queen of the Valley.

Napa County has approximately 3,702 older adults 65+ at nutrition risk (<185% Federal Poverty Level). However, the FPL was developed in the 1960s and does not reflect the great variation in local housing, transportation, utility and other costs. It also does not reflect other expenses, such as healthcare, that are experienced far more by older adults than younger people. To provide a realistic measure of the local living costs, healthcare expenses, and the incomes needed to meet those costs, the UCLA Center for Health Policy Research has developed an Elder Economic Security Standard Index (Elder Index) for every county in California. In October 2010, California passed legislation (AB 138) requiring agencies, including the Area Agencies on Aging to consider the Elder Index when developing plans and services. According to this measure, older adults need at least twice FPL to make ends meet in Napa County. This means that there are many more seniors in need than these numbers would indicate. Additionally, many of the approximately 9,400 residents between the ages of 55 and 60 will become eligible for SNAP-Ed-funded senior services within the FY 2012-FY 2016 Area Plan cycle.

Through assessing this information, it is apparent that there is a strong need in Napa County for promotion of healthier lifestyles, including increased access to and consumption of fresh fruits and vegetables, physical activity, and the decreased consumption of sugar sweetened beverages. Comparing county data to state data, it is seen that this need is especially prevalent among children.

Information was gathered regarding Napa County as a whole, rather than specific geographical areas. The Local Health Department plans to focus on obesity prevention on qualifying schools and school aged children throughout the county, not being tethered to specific geographical regions. The Area Agency on Aging will work at specific senior congregate meal sites throughout the County, while Catholic Charities of the Diocese of Santa Rosa will be working at community centers and churches that they have prior relationships with. Through an integrated effort, the LIAs in Napa County aim to target SNAP-Ed education at all ages of the population in Napa.

All three implementing agencies are members of various coalitions throughout Napa County. These coalitions are focused on improving the health and wellness of the residents of the county, including SNAP-Ed eligible residents. The LHD, AAA, and CCC are currently active members of the county's Healthy Bodies Coalition (CNAP) - a collaboration of key stakeholders in the county interested in increasing healthy eating active living lifestyles and environments which foster those lifestyles in the county. Through collaboration and work individually and within these coalitions, all three implementing agencies will work to combat the high obesity rates throughout Napa County.

5. **Community Change Goals**

The Napa County 2014 Community Health Assessment created the Napa County 2014 Community Health Improvement Plan (CHIP). The Napa County 5 year Community Obesity Prevention Plan is the first "component plan" to be developed following the completion of Live Healthy Napa County's (LHNC) CHIP. The LIAs were key contributors to the plan and the planning process.

Early in the planning process, community partners mutually agreed to the vision, "Our community embraces a culture of health where every person has access to and is aware of nutritious food, opportunities for exercise, and safe outdoor places that inspire people to be active and thrive." The plan is a roadmap for how to make that vision a reality. The Napa County Community Obesity Prevention Plan includes collaboratively developed goals, objectives, and strategies that will support the Napa County community in achieving the overarching goal of collectively maintaining a healthy weight. The goals for encouraging and supporting healthy weight in Napa County are:

1. Promote the availability and affordability of healthy food and beverages
2. Educate the community on how to make healthy choices for food and beverages
3. Encourage and support breastfeeding
4. Increase access to opportunities that encourage physical activity
5. Strengthen community partnerships to improve coordination of policy and organize for change
6. Increase and strengthen awareness and understanding of how protective and positive experience across the life course create health outcomes

SNAP-Ed Local Implementing Agencies in Napa County are working together with community partners to impact individual and community behavioral change and create environments which foster healthy eating and active living choices.

Based on assessment of the data presented above and information generated through collaborations with various stakeholders, the Local Implementing Agencies have the following primary community change goals for FFY2017-2019.

1. Increase the amount of fresh fruits and vegetables available to and consumed by SNAP-Ed eligible residents
    a. Provide direct education on increasing fruit and vegetable consumption to SNAP-Ed eligible populations

b. Increase the number of corner stores offering healthy checkout in Napa County

2. Increase the number of healthy environments supported by active policy reinforcing healthy choices related to nutrition and physical activity
    a. Assist in the adoption and implementation of updated wellness policies within schools and organizations in Napa County
    b. Assist in worksite wellness programs
    c. Assist in the creation of healthy beverage policies
    d. Increase the number of school/community gardens available to Napa County SNAP-Ed eligible residents
    e. Assist in increasing the farm to school movement in Napa County

The LIA's will collaborate with key stakeholders and partners in the community to make progress towards accomplishing these goals. While completion of these goals may take multiple years to accomplish, the LIA's are committed to moving these objectives forward as much as possible.

In attempts to move the community goals forward, the Napa County SNAP-Ed LIA partnership has set the following two SMART objectives for FFY2017-2019 around the two community change goals dictated above.

1. By September 30, 2019, increase the access to and consumption of fresh fruits and vegetables by assisting in the creation of 3 healthy corner stores in SNAP-Ed eligible populations in Napa County.
2. By September 30, 2019, LIA partnership will increase the number of healthy environments supported by active policy reinforcing healthy choices related to nutrition and physical activity in at least 3 organizations.

The three implementing agencies in Napa County will work collaboratively within their specific area of population reach and expertise to accomplish the two objectives detailed above. Through nutrition education classes, collaborations and partnerships, and training and technical assistance, the three implementing agencies will all play an integral role in executing the local objectives. All work conducted by the LIAs will be conducted at approved locations targeting SNAP-Ed eligible individuals.

Local Objective #1, to increase consumption of healthy foods and beverages and decreased consumption of unhealthy foods and beverages in Napa County will be supported collaboratively by the three implementing agencies. All agencies will provide direct and indirect nutrition education classes and/or displays using USDA approved material to SNAP-Ed eligible populations. Additionally, all three LIAs will work on policy, system, and environmental changes within their scope of work and target population. Local Objective 1 supports State Level Objective 1a: Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current Dietary Guidelines for Americans, Objective 1b: Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population, and Objective 1c: Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Local Objective #2, to increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play or shop and to improve food resource management for SNAP-Ed eligible residents in Napa County. This local objective will be spearheaded by the Local Health Department and supported by all implementing agencies. Through working concurrently with behavioral change programs (direct and indirect education) and working to create healthy environments, systems, and policies, the implementing agencies will work to create an atmosphere conducive to adopting and willing to adopt healthy wellness and beverage policies. Local Objective #2 supports State Level Objective 4a: Annually improve food environments at SNAP-Ed eligible sites, Objective 4b: Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities, Objective 3a: Annually improve resource management behaviors among the SNAP-Ed eligible population, Objective 3b: Annually increase food security among the SNAP-Ed eligible population, For accomplishing objective #2, the LHD will be working closely with non-funded partners to adopt and implement school and worksite wellness policies. More details on activities surrounding Local Objective #2 can be found in the activities section of the work plan below.

All three local implementing agencies will provide direct and indirect education, as well as technical assistance and training for improved nutrition and physical activity habits for organizations working with low-income residents and SNAP-Ed eligible residents in Napa County.

The Local Implementing Agencies will be working closely in collaboration with members of the Healthy Bodies Coalition, including St. Helena Community Outreach, Queen of the Valley, Napa Valley Unified School District, Napa Farm Bureau Harvest of the Month program, UCCE Master Gardeners, various local Family Resource Centers and Food Distribution Sites, as well as others.

6. **Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]**

The Napa County SNAP-Ed Implementing Agency Partnership includes Healthy Cooking with Kids, Inc. (a non-profit organization subcontracted to represent the LHD), Area Agency on Aging – Napa and Solano, and Catholic Charities of the Diocese of Santa Rosa. All three partners are funded through USDA SNAP-Ed funding, and work together to create the annual integrated work plan and complete the activities within the work plan. All LIAs collaborate in quarterly meetings to discuss coordination and the progression of the work plan.

The Implementing Agencies in Napa County are members of the Healthy Bodies Coalition, a coalition of active community members and agencies (both FNS funded and non-funded agencies) working to promote health and wellness throughout Napa County. The Healthy Bodies Coalition is the name for the Napa County Nutrition Action Plan where partners provide a variety of resources that focus on low-income populations in Napa County. Through participation in this coalition, the three implementing agencies will develop and maintain partnerships seeking to increase the impact of behavioral change programs and promote policy, systems, and environmental change projects throughout Napa County. The Healthy Bodies Coalition meets every other month. Examples of partners in the Healthy Bodies Coalition are WIC, Health and Human Services, Napa Valley Unified School District, St. Helena's Community Outreach, Queen of the Valley,

Community Resources for Children Napa, Napa Transportation and Planning Agency, Moving Forward Towards Independence, Napa Department of Public Health, and additional partners.

In addition to the Healthy Bodies Coalition, Napa County has various other coalitions and collaborative groups supporting healthy eating and active living. For example the Napa County Children and Weight Coalition is a group comprised of multiple agencies throughout the county working with or interested in nutrition education and physical activity promotion for children. The Local Health Department is a part of this collaborative. Furthermore, additional county wide collaborative groups addressing nutrition education and physical activity promotion in Napa County include the Napa Valley Breastfeeding Coalition, the Napa School Health Committee, and the Napa School Wellness Committee. These groups meet at least quarterly and are collaborations of agencies and organizations working to reduce the prevalence of overweight/obesity in residents throughout Napa County.

The collaborative groups in Napa County recognize the significance of SNAP-Ed funded and non-funded partners alike. These meetings are a venue for organizations to coordinate initiatives and progress the local community goals forward. The LIAs are an integral part of these collaborative groups, and strategize their local objectives to be in line with the community goals. LIAs will promote SNAP-Ed services and activities by connecting with other agencies, such as county welfare departments.

7. **Key Messages**

	Food Safety	X	Physical Activity		Fiber-Rich Foods
X	Whole Grains	X	My Plate-Healthy Eating Plan		Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
X	Fruits & Vegetables	X	Limit Added Sugars or Caloric Sweeteners		Other *(specify):*
	Fats and Oils		Food Shopping/ Preparation		Other *(specify)*:
	Lean Meat & Beans				
	Sodium & Potassium				
X	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All curriculum and materials used will be from the approved USDA SNAP-Ed Connection website, and/or FFY 2016 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the CDPH Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list. All curricula and materials will be defined and appropriate for the target audience identified in Section B: Target Audience Description of this document.

9. **Intervention and Evaluation Plan Narrative Summary**

The goal of the SNAP-Ed LIAs in Napa County is to increase the knowledge of, access to, and consumption of fresh fruits and vegetables; decrease the consumption of sugar-sweetened beverages; and increase the rate of physical activity. SNAP-Ed programming is delivered to the eligible population via three implementing agencies in Napa County. These agencies are Healthy Cooking with Kids, Inc., a non-profit subcontracted to represent the Local Health Department (LHD), the Area Agency on Aging – Napa and Solano (AAA), and Catholic Charities of the Diocese of Santa Rosa (CCC).

The LHD concentrates these efforts on children and their families through qualified schools, after school programs, and school gardens. The LHD will promote nutrition education and physical activity conducted in the form of direct education classes, indirect education activities and the creation and promotion of community and school gardens. In addition, through collaboration with various partners around the county, the LHD will provide support such as technical assistance and trainings for worksite and school wellness policies and healthy retail to reduce the overall overweight/obesity rate in Napa County. In the next three years, the LHD will increase the program's reach by adding an additional site for each FFY. These efforts are needs based rather than geographically based. The LHD has a goal of working with qualifying low-income children and their families, regardless of specific geographical region.

The efforts of the LHD in the past couple of years have created tremendous change in the county of Napa. Healthy Cooking with Kids, Inc. (HCK) have created and introduced gardens to communities spanning from Napa all the way up to Calistoga. Complementing the gardens with nutrition education and alignment with common core standards has given HCK a spot during the school day, educating both the teachers and the students. Through HCK's resilience and partnerships with various school district staff, HCK has created great momentum with parents, teachers, students and community members surrounding creating and updating the student wellness policy. As HCK expands each program through the next three years, through this effort, HCK hopes to create a community of wellness with the school acting as the beating heart of the surrounding community. In addition, HCK is working with various organizations on creating and implementing worksite wellness policies throughout Napa County.

The AAA – Napa and Solano is providing SNAP-Ed education to the older adult population of Napa County. Working through qualified senior congregate meal sites, the agency conducts direct education classes using the USDA approved curricula Eat Smart, Live Strong. There are three qualified senior congregate meal

sites which cross the span of the county, one located in the lower boundary of the county, one located towards the middle of the county, and one located in the upper region of the county.

Catholic Charities of the Diocese of Santa Rosa will provide SNAP-Ed direct and indirect education to church congregations, family resource centers, food distribution centers, and Catholic Charities of the Diocese of Santa Rosa run shelters and transitional housing in Napa. Churches and Resource Centers provide a valuable network of individuals pursuing personal guidance, development, and support and also are an opportunity to reach individuals and families at existing community events. Churches, family resource centers, food distribution centers, and shelters are located throughout the county and serve individuals and families who may be utilizing or may be eligible for SNAP.

To further contribute to enduring change throughout Napa County, in conjunction with direct and indirect education, Catholic Charities of the Diocese of Santa Rosa is identifying health and wellness policy improvements that need to be made that will affect Catholic Charities of the Diocese of Santa Rosa run shelters and transitional housing sites. These policy improvements will support clients in making healthier food, beverage, and activity choices by supporting staff in being good role models, making healthy options available when possible and making education and education materials available where possible.

The three SNAP-Ed implementing agencies for Napa County are dedicated to bringing awareness and education to the SNAP-Ed eligible population of the county. These agencies will collaborate to provide nutrition education in both indirect and direct education activities, policy, systems and environmental changes, and technical assistance and trainings to SNAP-Ed eligible residents and organizations catering to these residents. The underlying objectives of the three agencies are to promote the consumption of and access to fresh fruits and vegetables, increase the consumption of healthy beverages, decrease the consumption of unhealthy foods and beverages, and increase the rate of physical activity throughout Napa County by September 2019. Additionally, the three implementing agencies will coordinate and collaborate with each other and other community based entities throughout Napa County to further work towards the State SNAP-Ed objectives.

State Level Goal 1, centered on increasing consumption of healthy foods and beverages and decreasing consumption of unhealthy foods and beverages, will be addressed in Local Objective 1 and 2. Local Objective 1 is focused on increasing the access to and consumption of fresh fruits and vegetables. Local Objective 2 is focused on increasing the amount of healthy environments in which SNAP-Ed eligible residents in Napa County live, play, and work.

State Level Goal 2, centered on increasing physical activity, will be addressed in Local Objective 2. Local Objective 2 is focused on increasing the amount of healthy environments in which SNAP-Ed eligible residents in Napa County live, play, and work. This objective includes working with organizations to implement wellness policies, including those which promote physical activity.

State Level Goal 3, on improving food resource management, is addressed through Local Objective 2. Local Objective 2 works to increase the amount of healthy environments in which SNAP-Ed eligible residents in Napa County live, play, and work. As detailed in the activity section below, some examples of activities,

which will be conducted to increase the amount of healthy environments, include increasing the number of functioning school/ community gardens in the county.

State Level Goal 4, on increasing access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop, is addressed in both local objectives. Environmental Support and increasing access to and appeal of fresh fruits and vegetables and healthy beverages (Local Objective 1) work together in a bilateral relationship. Policy, systems and environmental changes are generated by shifting cultural norms through nutrition education and creating community gardens which in turn create more environmental supports for nutrition education. Additionally, Local Objective 2, focused on increasing access to healthy food and beverages in which SNAP-Ed eligible residents in Napa County live, play, and work directly correlates with State Level Goal 4.

State Level Goal 5, on increasing access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations, will be addressed in Local Objective 2. Local Objective 2 is focused on increasing the amount of healthy environments in which SNAP-Ed eligible residents in Napa County live, play, and work. This objective includes working with organizations to implement wellness policies, including those which promote physical activity.

Multiple delivery methods will be used by LIAs to reach the target population in Napa County. The focus of the LHD's efforts will not be on specific geographical areas, but rather on SNAP-Ed eligible children and their families. With over 46% of low income children overweight/ obese and 24.9% of low income children overweight in Napa County, the LHD has dedicated their efforts to primarily impact low income children and their families. In order to do this, the LHD will provide direct education and PSE technical assistance and support to Napa County schools with more than 50% of their student population receiving free and reduced priced meals. The LHD believes that, to create a lasting impact, change needs to occur across multiple levels. Based on this belief, the LHD aims to coordinate direct education with PSE work, and plans to conduct the majority of the direct education classes at locations where policy, systems, and environmental change work is also being conducted. The LHD will also conduct indirect activities such as interactive displays and taste testing, using Harvest of the Month, with students and their parents at qualifying schools. The LHD will target at least 2000 each year with a total of 6000 SNAP-Ed eligible participants through direct education through FFY2019. All direct education classes will provide information from USDA approved materials such as My Plate, Harvest of the Month, Dig In!, and Growing Healthy Habits, and Rethink Your Drink material (as applicable) to increase knowledge and consumption of fresh fruits and vegetables and decrease consumption of unhealthy foods and sugar sweetened beverages. These classes will also promote an increase in physical activity throughout the day.

Through local community partnerships, the LHD has identified a gap in nutrition education and physical activity services to the low-income developmentally disabled/ intellectually disabled population in Napa County. As such, the LHD proposes to provide technical assistance and support to PSE efforts related to worksite wellness with agencies employing developmentally disabled/ intellectually disabled individuals. By working with sites at multiple levels- i.e. policy,

system, and/or environmental change and direct and/or indirect education, the LHD will create environments which foster healthy behaviors while working individually to modify unhealthy behaviors and promote healthy behaviors.

After assessing the low-income senior population, the AAA is conducting direct nutrition education classes at 3 older adult congregate meal sites throughout Napa County. These classes are estimated to reach at least 50 SNAP-Ed eligible seniors using the USDA approved curricula "Eat Smart, Live Strong" to promote the consumption of at least 3.5 cups of fruit and vegetables per day, and the participation in at least 30 minutes of physical activity on most days. Additionally, AAA-Napa and Solano is offering Tai Chi: Moving for Better Balance and Stepping On to encourage and facilitate activity among older adults.

Catholic Charities of the Diocese of Santa Rosa will target families and be providing educational materials to churches and family resource centers throughout the county. Specifically CCC will provide monthly Harvest of the Month newsletters, recipe cards, Rethink your Drink information and will encourage and support churches and resource centers in changing or implementing wellness policies whenever possible.

Together the Local Implementing Agencies will serve SNAP-eligible populations throughout Napa County with the goal of reaching the same individuals and their families at multiple locations, in multiple different settings to further reinforce and solidify lessons learned regarding healthy food and beverage choices and behaviors. As outlined above residents of Napa will encounter supportive education, environmental changes in the form of posters and materials displayed and available, and increased availability of healthy food, beverage, and activity options. These individuals will encounter these supports where they work, live, eat, shop, and play.

The local implementing agencies will also participate in indirect education activities at least 5 events occurring at qualifying sites in the community, such as health fairs, farmers markets, flu clinics, etc. This indirect education will be in the form of interactive displays promoting USDA approved material (such as Harvest of the Month, Rethink Your Drink, My Plate, and Eat Smart, Live Strong) and will target at least 5000 SNAP-Ed eligible residents of all ages. The messages in these indirect education activities will align with the local and state objectives of increasing the consumption of fruits and vegetables, increasing the amount of physical activity performed, increasing the amount of healthy beverages and water consumed, and decreasing the consumption of unhealthy foods and beverages.

The SNAP-Ed implementing agencies will use USDA approved material and posters to promote the local objectives in various social media and community resource outlets. This includes displaying posters in at least 6 means tested organizations or qualifying areas serving SNAP-Ed eligible residents. Each agency will also display information on Facebook pages such as the Live Healthy Napa County's Facebook page, Catholic Charities of the Diocese of Santa Rosa Facebook Page, and the AAA – Napa and Solano's Facebook and webpage. The messages promoted through both of these avenues will include increasing the amount of fruits and vegetables in one's diet, decreasing the amount of sugar sweetened beverages, and increasing the amount of daily physical activity. These initiatives will reach a combined total of at least 5000 SNAP-Ed eligible residents each FY.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Napa County **Three-Year** **Rev. 5/23/2017**

Integrated Work Plan

FFY 2017–2019

The LHD will be conducting activities and trainings related to policy, systems, and environmental (PSE) changes. One PSE has a focus area of school wellness policies. The Local Health Department will work with at least 1 qualifying school to update the school wellness policy at that school. This school wellness policy will be at least as stringent as the California standards for school wellness policies as defined by California Department of Education. This PSE will also aid in educating students and teachers regarding the importance of making healthy choices related to food and beverage consumption. This PSE will reach at least 18,000 SNAP-Ed eligible residents. This was calculated by looking up the total number of enrolled students in the district since the LWP will affect all students in the district.

The LHD will also assist with the creation or enhancement of at least 3 schools/community gardens at a minimum of 3 qualifying sites in Napa County. The LHD will help assess a qualifying site in need and lend technical assistance and collaboration in creating or enhancing a garden at that site. The focus of this work with school and community gardens is to increase food access and assist in teaching SNAP-Ed eligible community members and children the importance of fresh fruits and vegetables. This PSE will target at least 3000 SNAP-Ed eligible residents.

The LHD will continue work to enhance environments creating increased access to fresh fruits and vegetables in additional ways. The LHD will work in conjunction with non-SNAP-Ed funded partners to promote the Healthy Stores for a Healthy Community Initiative, increasing the amount of fruits and vegetables sold at local corner stores. Since Napa County is a small county, there are not many corner stores to choose from. However, the LHD has partnered with the Alcohol and Drug Services, Friday Night Live and Tobacco Prevention and they have identified two corner stores that are owned by one individual.

The LHD will work with at least 3 qualifying organization to create a worksite wellness program. Currently, the LHD has adopted its own worksite wellness policy and has implemented it in all the meetings the LHD facilitates. The LHD will leverage the partnerships created in the Healthy Bodies Coalition to spread awareness about worksite wellness programs and to encourage partners to adopt their own worksite wellness policy.

Training and technical assistance will also be available to local organizations serving SNAP-Ed eligible residents. The LHD will facilitate trainings which educate at least 4 staff of a least 1 local organization on the promotion of the local objectives using USDA approved material (such as My Plate and Harvest of the Month resources), and the USDA dietary guidelines. The intention of this training is to educate group members in USDA approved information and material. This knowledge can then be spread by group members throughout low-income communities in Napa.

All three implementing agencies will participate in community collaborative groups which promote the local objectives of this work plan. These collaborations may include monthly or quarterly LHD/AAA/CCC meetings and/or Healthy Body Coalition meetings. All three Implementing Agencies will collaborate with outside organizations to identify the gap of services needed for the SNAP-Ed population, and will work to fill acknowledged gaps. The Area Agency on Aging is proposing to work with the SNAP-Ed eligible senior population, the Local Health Department is proposing to work primarily at SNAP-Ed eligible schools with children and families, and CCC is proposing to work with SNAP-Ed eligible adults and families. By integrating efforts, the three implementing agencies plan to

reach all ages of SNAP-Ed eligible residents in a multitude of venues so that messages will be reinforced as residents move between locations where they work, live, eat, shop, and play.

Community engagement and capacity building is integral in creating sustainable behavioral and environmental change. The local implementing agencies will work closely with approved locations targeting SNAP-Ed eligible individuals to engage organizations and individuals and create capacity to sustainably enhance behavioral change. The implementing agencies will also lead and develop Champions for Change to further create capacity within the county. The implementing agencies will lend technical assistance, facilitation of community meetings, and trainings in order to fully engage the community and build aptitude from within.

As Napa County is a small county with limited funds, the LIAs are not required to conduct a formal impact and outcome evaluation. In order to track progress and monitor the quality of the program, the LHD will conduct informal qualitative evaluations, tracking success stories at target sites. The LHD will also evaluate the effectiveness of the PSE work conducted through evaluations using the RE-AIM framework. We will survey teachers, administrators and students on the challenges and successes of the wellness policies and programs. Using the survey responses, we will update/change our approach to implementing the policies and programs. The focus groups will give us qualitative data on how the programs are being implemented and what we can do better or change in the future. Direct and indirect nutrition education lessons will be monitored using tracking spreadsheets and participant data cards. AAA- Napa and Solano will evaluate the Eat Smart, Live Strong program using the Fruit and Vegetable Consumption Checklist and the Rapid Assessment of Physical Activity. Outcome evaluation will be conducted as pre- and post-tests to evaluate improved fruit and vegetable consumption and physical activity as a result of the intervention. On an ongoing basis, record SNAP-Ed activities, sites, participants reached and other required elements of USDA's SNAP-Ed Education and Administration Reporting System (EARS). These evaluation tools are required by CDA with all direct education strategies.

Working concurrently to enhance environments and increase access to healthy foods while conducting direct and indirect nutrition education will create a comprehensive front to address the obesity epidemic in Napa County. Through collaboration with community partners, the LHD, AAA and CCC aim to create and support programs and initiatives targeting reducing the percentage of overweight and obese SNAP-Ed eligible residents in Napa County.

SECTION B: Target Audience Description

1. Gender	%		2. Age	#
Male	65		0 to 4 years old (Preschool):	300
Female	35		5 to 17 years old (School Age):	2000

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**
By September 30, 2019, increase the access and consumption of fresh fruits and vegetables by assisting in the creation of 3 healthy corner stores in SNAP-Ed eligible populations in Napa County.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategies that support the Three-Year SNAP-Ed Local Objective listed above:**

Corner store market conversions, local procurement, healthy in store marketing and promotions, store exterior improvements

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

    a. By September 30 2017, 1 retail store in SNAP-Ed qualifying areas will increase access and/ or promotion of healthy foods and beverages.

    b. By September 30 2017, provide healthy food and beverage merchandising materials, and conduct indirect education at 1 qualifying retail site.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30 2018, 2 retail stores in SNAP-Ed qualifying areas will increase access and/ or promotion of healthy foods and beverages.

    b. By September 30 2018, provide healthy food and beverage merchandising materials, and conduct indirect education at 2 qualifying retail sites.

3. **FFY 2019 (Year 3) Objective(s):**

   a. By September 30 2019, 3 retail stores in SNAP-Ed qualifying areas will increase access and/ or promotion of healthy foods and beverages.

   b. By September 30 2019, provide healthy food and beverage merchandising materials, and conduct indirect education at 3 qualifying retail sites.

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):
By September 30, 2019, increase the access and consumption of fresh fruits and vegetables by assisting in the creation of 3 healthy corner store in SNAP-Ed eligible populations in Napa County.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	By September 30, 2019, increase the access and consumption of fresh fruits and vegetables by assisting in the creation of 3 healthy corner stores in SNAP-Ed eligible populations in Napa County.	CED X CEI X MPR C&C TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: Healthy Cooking with Kids, Inc. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**
By September 30, 2019, LIA partnership will increase the number of healthy environments through the promotion of healthy food and physical activity supported by active reinforcing healthy choices in at least 3 SNAP-Ed qualified schools and SNAP-Ed qualified employers.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

School wellness policy, worksite wellness policy, community gardens

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

    a. By September 30, 2017, LIA staff will work with partners including school wellness committees to make physical activity related environmental or policy changes at 1 school site.

    b. By September 30, 2017, LHD will work with partners to create or enhance 1 community or school garden.

    c. By September 30, 2017, LIA staff will work with partners to make physical activity related environmental or policy changes at 1 organization.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30, 2018, LIA staff will work with partners including school wellness committees to make physical activity related environmental or policy changes at 2 school sites.

b. By September 30, 2018, LHD will work with partners to create or enhance 2 community or school gardens.

c. By September 30, 2018, LIA staff will work with partners to make physical activity related environmental or policy changes at 2 organizations.

2. **FFY 2019 (Year 3) Objective(s):**

a. By September 30, 2019, LIA staff will work with partners including school wellness committees to make physical activity related environmental or policy changes at 3 school sites.

b. By September 30, 2019, LHD will work with partners to create or enhance 3 community or school gardens.

c. By September 30, 2019, LIA staff will work with partners to make physical activity related environmental or policy changes at 3 organizations.

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):
By September 30, 2019, LIA partnership will increase the number of healthy environments supported by active policy reinforcing healthy choices related to nutrition and physical activity in at least 6 organizations.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	The LHD will conduct at least 30 one time nutrition education classes with SNAP-Ed eligible residents on site using Harvest of the Month handouts, Dig In!, Growing Healthy Habits, My Plate, or Cooking up Healthy Choices curriculum. SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
x	**University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)**
x	**California Department of Public Health: CDPH: (Local Health Department: LHD)**
x	**California Department of Aging: CDA: (Area Agency on Aging: Agency on Aging\Area 4)**
	Catholic Charities of California: CCC: (Catholic Charities of California: CCC)

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.

- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.

[2] Defined as not running out of food at the end of the month.

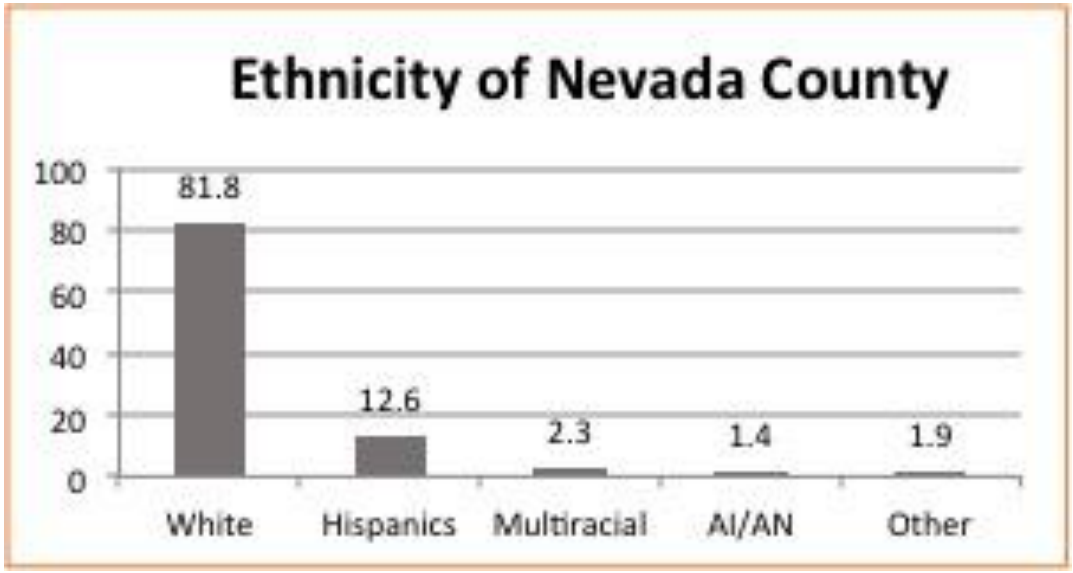
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.

[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Established at the height of the Gold Rush in 1851, Nevada County still sparkles. Its colorful past is reflected in the historic towns, rustic buildings and local characters. Since that time Nevada County has prospered from a mining community into a diverse and thriving environment to live, work and play. The County is comprised of three unique historic towns, Truckee, Grass Valley, and Nevada City. The towns are home to about 32% of the county's population with the remaining 68% of residents living in outlying regions. Nevada County is considered rural, spanning 957 square miles of the foothills and the Sierra Nevada mountains, the 36th most populated county and the 15th smallest county in California.

The county population is roughly 99,000 people (U.S Census Bureau, 2014). When we break down our population, we know that 24,884 or 25.5% of the population comprise the SNAP-Ed eligible demographics and 7,675 are receiving CalFresh benefits. Twelve percent of the population is living below the federal poverty level and the overall food insecurity rate is 14.8%, with 23.5% of this subset population being children and 4.42% seniors. Caucasians are the overwhelmingly predominant race in Nevada County, with 81.8% identified as White-non Hispanic, 12.6% Hispanics, 2.3% Multiracial, and 1.4% American Indian/Alaska Natives, and less than 1% Asians. The primary languages spoken in the community are English and Spanish.

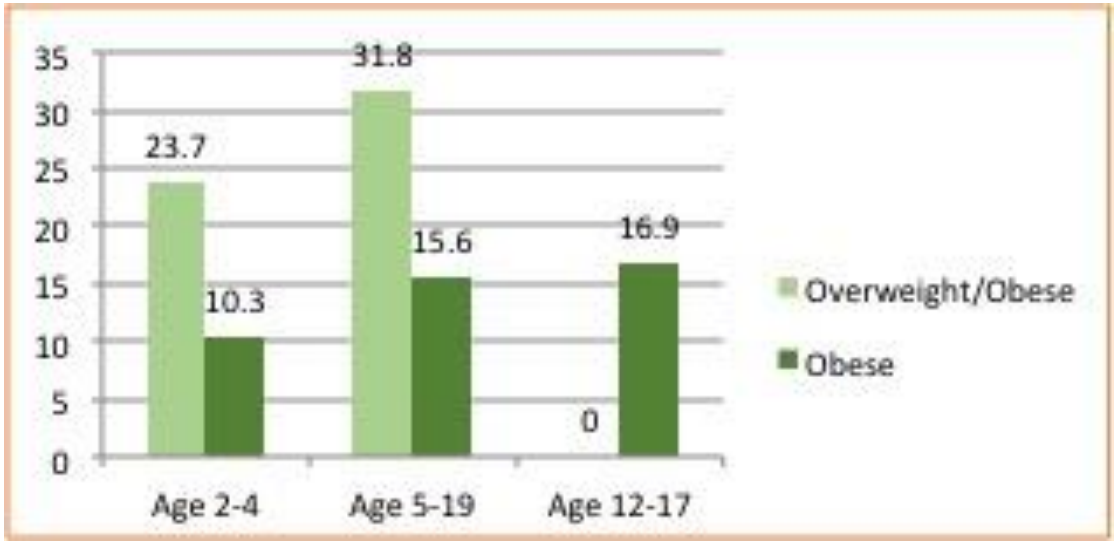


Fifteen out of 44 Western County schools meet the SNAP-Ed guidelines with at least 50% of students qualifying for a free or reduced-price meal (FRPM). We also have nine other qualifying school related sites - state preschools, Head Start & afterschool programs as well as one non-profit child care resource and

referral agency that serves early childhood professionals serving families in need of subsidized care. Schools in Eastern County are under the jurisdiction of the Placer County School District and thus outside our program purview.

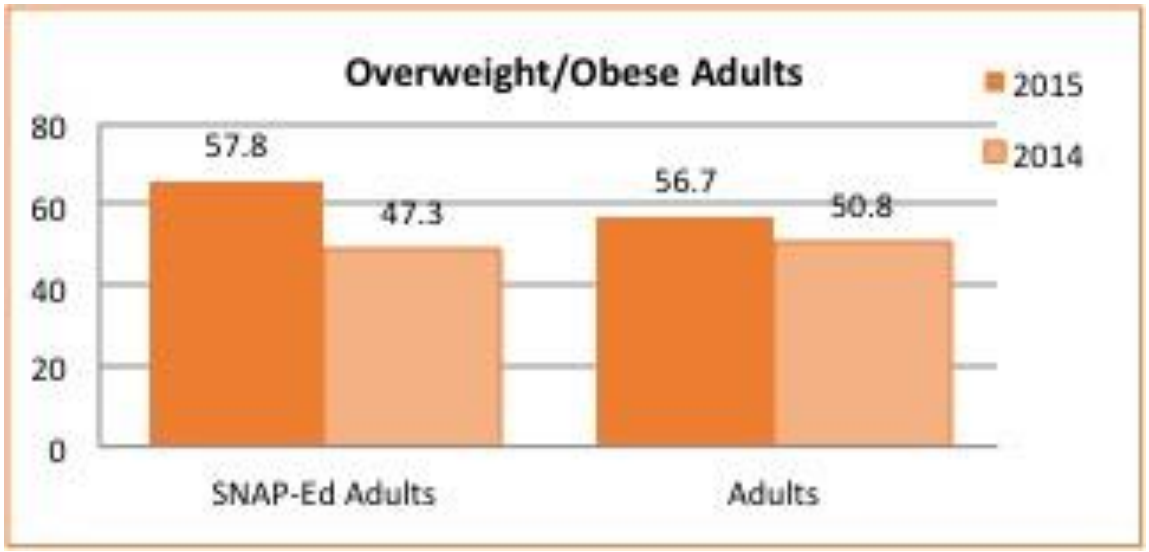
Twenty four percent of SNAP-Ed children between the ages of two and four years are not in a "healthy weight zone," and 31.8% of five to 19 year olds also fall into this category. Nevada County SNAP-Ed 2015 profile data show that only 26.9% of youth ages 2 – 17 are physically active for at least one hour per day; however, when we look at a subset of this population, 57% of children ages 2 – 11 are physically active for at least one hour per day. While this is an improvement, it still reflects that 43% of our youngest children are not active. Seventy-three percent of children and teens have a park or open space within walking distance and there are 21 recreational facilities per 100,000 residents. Forty-seven percent of children/teens are reported to consume fast food one or more times in a week, and 63% of children ages 2 – 17 consumed two or more servings of fruits and vegetables per day. According to SNAP-Ed Nevada County 2014 Profile data, 37% of children and teens consume one or more sugar-sweetened beverage per day.

Rate of Overweight/Obese Children in Nevada County

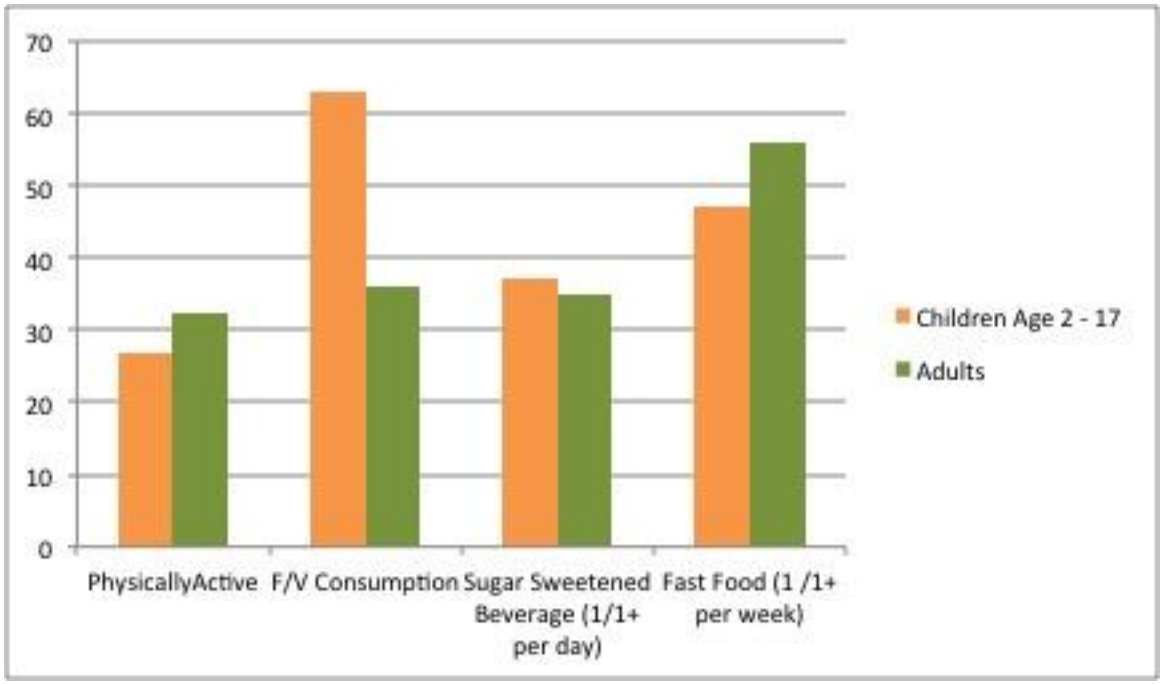


SNAP-Ed adults who are considered overweight/obese reached 57.8% in 2015 – a jump of 10.5 percentage points from 2014. It is difficult to determine why this steep increase occurred, and because this is a combined measurement, we are unclear as to whether there was a jump in adults who are overweight or adults who are obese. Thirty-two percent of adults engaged in walking in the past week, 36% of adults ate fruits and vegetables three or more times the previous day

(2014 SNAP-Ed Profile), 56.3% consumed fast food one or more times in the past week (2015 SNAP-Ed Profile) while 35% consumed one or more sugar-sweetened beverage per day.



Summary of Adult/Children's Physical Activity and Consumption Behaviors



Fifteen percent of all residents live in a “food desert,” being 10+ miles from a supermarket or other source of fresh food (USDA, 2010). Local residents and area experts also identify “that accessing healthy foods may be an issue due to affordability and difficulty of getting to and from markets” (Sierra Nevada Memorial Hospital Community Health Needs Assessment, 2013). Five percent of our low-income population has limited access to healthy foods, compared to three percent statewide (Robert Wood Johnson Foundation, County Health Rankings, 2013).

4. **Community Assessment**

To guide program planning we researched and analyzed data, studies, and field surveys. Our findings were layered that upon what we have already accomplished in the community and PSE strategies currently in progress.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Nevada County **Three-Year Integrated Work Plan FFY 2017–2019** **Rev. 5/23/2017**

The list of documents used to inform our objectives and activities include:

- 2009 & 2012 Agency on Aging\Area 4 (AAA4) Needs Assessment
- 2014 Jama Pediatrics, Protective Effects of Parental Monitoring of Children's Media Use
- 2014 SNAP-Ed County Profile
- 2015 SNAP-ED County Profile
- 2015 County Health Rankings
- 2015 Farmers Market Report on EBT / Market Match Program
- 2015/16 data from Local Food Pantries
- 2015 Nutrition & Physical Activity Class Surveys
- 2015 Teacher Observation Tool Results
- 2015 Youth Tasting Tool Results
- 2016 Research: Cigarette Smoking Among Socioeconomically Disadvantaged Young Adults in Association with Food Insecurity & Other Factors
- 2016 Survey of Food Pantry Clients in Nevada County
- 2016 Nevada County Community Health Assessment (CHA)

The Community Health Assessment (CHA) provides a broad perspective of the top health issues facing Nevada County. The CHA explores the physical health of our community as well as factors that contribute to our community's overall health and wellness. The issues identified through data, community and partner surveys, and community outreach sessions are: Chronic Disease, Mental Health, Substance Abuse and Gaps in the Safety Net. These challenges directly affect the SNAP-Ed population we serve and our multi-level intervention plan supports a healthier environment where nutrition overlaps with these issues.

- We are approaching gaps in the safety net with direct and indirect education as well as with environmental and policy supports.
    - The LHD is working on a residential community garden at a senior living housing development to increase food security. To further address food security, staff will be working with the local food pantries to investigate the feasibility of establishing a satellite food distribution site in a location where seniors are living.
    - Between 2014 and 2015, our SNAP-Ed Profile data on food insecurity for children went up almost three percent points. One effort CNAP partners will undertake is to promote the summer meal programs.
    - Continued collaboration between partners will occur to promote the farmers market voucher programs offered to CalFresh clients. One market reported a 50% increase in EBT usage, and during last market season it went up again by 18%.

- Food insecure households are at risk for poor health including higher incidents of being overweight/obese and chronic diseases such as diabetes and high blood pressure. SNAP-Ed funds will be used to reach people living in poverty through direct and indirect education, and environmental and policy supports. We will be targeting adults in a variety of settings including job training sites, health clinics, and indirectly through our nutrition food policy work at food pantries.

- LHD is planning to work more closely with the Behavioral Health (BH) Department to create healthier environments where their clients live, or frequent. Our focus on this audience has been minimal in the past and will become more of a focal point in the upcoming grant cycle. We know from experience and conversations that qualifying residential care facilities would greatly benefit from multi-level interventions.

In 2009 and 2012 AAA4 conducted needs assessments to determine what types of services were needed most by adults 60 years of age and older, and family caregivers in the seven county planning and services area (PSA). The most striking difference between the 2009 and 2012 Senior Needs assessments is the elevation of food as a major concern. In the prior study, "Having enough food to eat" ranked last (22nd overall); in a follow-up assessment in 2012, it ranked 6th. This was a topic of discussion in Town Hall meetings and in the Senior Information & Assistance Program data. There are several recession-related reasons for this trend, including shortages of surplus food for homeless seniors, shortages of food commodities for low-income seniors and increasing waiting lists for AAA-funded home-delivered meals. In addition to access to food, AAA4 and its partners are aware of the incidence of chronic disease and poor physical health of many older adults. Consequently, local intervention strategies will include curriculum focused on increasing access to and consumption of fruits and vegetables as well as encouragement of physical activity in the senior SNAP eligible community.

In our community we have a very strong nutrition education program built around the schools, with two LIA's and one non-profit organization committed to making sure children have a healthier start in life. When we analyzed our work in this sector, we found areas to improve upon to create an even more comprehensive approach to reaching students during the day, afterschool and at preschools. Field data gathered by UC CalFresh and the LHD shows that direct and indirect education are having a positive impact on student behavior. This fuels our drive to continue to offer direct and indirect education - we want to keep this trend going and nurture the student population as they move through the system. Expansion of the programs includes:

- Increasing our coordination of messaging and choosing community health improvement themes of bolster the frequency of exposure
- Emphasizing physical activity with classroom time devoted to this message of increased movement
- Offering Harvest of the Month (HOTM) tastings to children participating in Early Childhood Education programs
- Adding a limited screen time component
- Providing technical assistance to facilitate bringing more fresh local food to school lunches

Recently a local food pantry Nutrition Policy Committee (NPC) surveyed clients on their food use and preferences, of which was considered in the development of a nutrition policy. Annually the NPC will evaluate the policy and continue to work closely with other committees to direct long term planning to provide more healthful foods to clients. The LHD actively participates in the NPC and will actively support policy implementation by offering direct and indirect nutrition education at the pantry distribution site.

The LHD has identified ways it can collaborate with the Tobacco and Alcohol prevention programs. The impetus is from the State California Tobacco Control Program and State Alcohol Drug Program whom are encouraging local programs to reach out to NEOP to look for ways to collaborate. Findings from a recent study identified that low socioeconomic status is associated with high rates of cigarette smoking, and socioeconomic differences in cigarette smoking tend to emerge during young adulthood. Smoking prevalence was significantly higher among young adults who reported being food insecure (26.9%) than among those who reported being food secure (16.4%). One local food pantry has identified that of the 5,700 families they serve, 29% are children. Our partnership involves inviting Tobacco Prevention staff to host an education table at food pantry distribution sites when LHD hosts food/drink tastings.

The LHD Alcohol Prevention program is working with a variety of stakeholders to support Athlete Committed programs and student clubs at local high and middle schools. Athlete Committed is a comprehensive, evidence-based prevention and intervention health program for student athletes, parents, coaches, and school staff. The program offers insight, education and strategies around issues such as drug and alcohol abuse, hazing, obesity and sportsmanship. It also emphasizes the benefits of sleep and nutrition, and demonstrates the negative effects of drugs and alcohol on training and athletic performance. The LHD will work with the Athlete Committed clubs at qualifying schools to introduce and incorporate robust nutrition education classes into their program.

5. **Community Change Goals**

As referenced above, Nevada County's LHD recently completed a comprehensive Community Health Assessment (CHA), and the community assessment section of this work plan was updated using information from it. The CHA is both the activity and product of identifying and prioritizing the county's health needs. The work was accomplished through the collection and analysis of primary and secondary data, including input from over 500 community members and multiple representatives of the public health system. The resulting document identifies factors that affect the health of the population and resources within the community to adequately address these factors. The LHD is now engaged in a collaborative community health improvement planning process, with the CHA serving as the foundational document. We have a wide range of community partners representing various sectors participating in this effort, including schools, law enforcement, clinics, local hospitals, community based organizations, family resource centers, drug and alcohol programs, behavioral health, and social services. The resulting Community Health Improvement Plan (CHIP) will be instrumental in improving and promoting the health of its residents. Specifically, the CHIP planning efforts will result in prioritized community health issues, measurable objectives, identified improvement strategies, time-framed targets, and a long-term, systematic approach for collective action.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Nevada County **Three-Year** **Rev. 5/23/2017**

Integrated Work Plan

FFY 2017–2019

The CHIP steering committee has prioritized several health issues identified in the CHA, including chronic disease prevention, and they have also identified SNAP-Ed as a vital resource to address this priority. The goals that relate to this work plan that are essential to improving our community's health include decreasing the adult overweight/obese rates and increasing the adult physical activity rate.

Though both goals are specific to the adult population measurements, our efforts will focus on *all* residents, including our youngest ones, as well as different sectors including schools, community based organizations and farmers markets. We know that genuine community change is most effective when the entire community is engaged, and we also know that the earlier we can get our children to adopt healthy habits/lifestyles, the more profound and lasting the positive health implications can be over a lifetime. By working with today's children, we are also addressing tomorrow's adults, and over time, we hope to see our youth-focused efforts impact our adult obesity and physical activity rates. The LHD and its CHIP partners highly value this "upstream" approach to achieving optimal health for our community.

Specifically, Nevada County's community goals relevant to this plan are as follows:

- By 2020, decrease the adult overweight/obesity rates in Nevada County by 10%.
    - Improve Nevada County's food security rate
    - Increase the consumption of fruits and fruits and vegetables
    - Increase access to EBT services at Farmers Markets
    - Increase the distribution of nutritious foods at local food pantries
    - Increase access to community gardens
    - Improve school and other site wellness policies and implementation of policies
    - Decrease the consumption of sugary beverages and increase the consumption of water

- By 2020, decrease the adult physical inactivity level by 5%.
    - Increase and diversify physical activity options at schools and other community based service organizations
    - Increase capacity of service and care providers to provide physical activity education and interventions
    - Improve walkability in communities lacking sidewalks and crosswalks

These goals necessarily require a multi-year and multi-sectorial approach. In order to move the epidemiological needle on an issue as complex as obesity, we will have to coordinate and cooperate with many local public health system partners. The SNAP-Ed funded programs determined with that the following local objectives support both SNAP-Ed goals and the larger community's goals. Nevada County LIA's SMART local objectives for FFY 17-19 are:

Three-Year SNAP-Ed Local Objectives FFY 2017 - FFY 2019

Objective 1	By September 30, 2019, the Nevada County SNAP-Ed LIAs will reach at least 11,000 students, teachers, administrative staff and parents at a minimum of nine qualifying schools, including afterschool programs, through multi-level interventions that result in an increase in the following: consumption of healthy foods and beverages, physical activity, access to local produce, nutritional knowledge and healthy lunchroom measures.
Objective 2	By September 30, 2019, a minimum of 15 SNAP-Ed qualified Early Childhood Education (ECE) centers will have received direct education, indirect education, and wellness policy support that shall lead to new or modified practices that engages children and parents in nutrition education and physical activity, leading to increased nutritional knowledge, behavioral changes and environmental supports to affirm these practices.
Objective 3	By September 30, 2019, at least 27,900 local families, seniors, and individual adults will have increased access to fresh fruit and vegetables through community gardens, increased EBT usage at farmers markets, and policy and/or environmental interventions at SNAP-Ed qualifying community sites; efforts supported with direct and/or indirect education.
Objective 4	By September 30, 2019, Nevada County SNAP-Ed Funded partners will collaborate and coordinate with a minimum of four non SNAP-Ed partners to leverage resources and support for PSE activities outlined throughout this work plan.

In order to achieve success in all four objectives, the LIAs will work together and partner with numerous local organizations including community-based organizations, healthcare clinics, the Nevada County Superintendent of Schools' Wellness Committee, schools (pre-K through high school, afterschool), Nevada County Behavioral Health and Social Services Departments, WIC, farmers markets, and food panties. The LIAs will also partner to fully implement the following corresponding PSE strategies that are designed to support and bolster these objectives:

- Increase food security
- Reduced youth screen time
- Introduce and support healthy school lunchroom measures
- Support the creation of a School Wellness Center
- Support in developing and implementing Healthy Food/Beverage and Wellness Policies

- Increase opportunities for Active Play
- Increase access to and consumption of local produce
- Exploring the viability of establishing a food pantry satellite distribution site
- Support of a newly created residential community gardens in CX3 neighborhood
- Improve Food Resource Management Behaviors

The role of the LIAs and of each partner will be determined by their knowledge, relationships, resources and expertise, thereby allowing us to work collectively, efficiently and most effectively. Each LIA will work with SNAP-Ed eligible populations and SNAP-Ed eligible neighborhoods. Specific activities for each of the LIAs are listed later in this work plan.

6. Partnerships and Collaborative Efforts

UC CalFresh and the LHD shall continue to both work in Nevada County, and this year Agency on Aging\Area 4 (AAA4) has joined the partnership. In planning our three year work plan, we identified a number of ways to strengthen our collaborative efforts and design new programs that build upon the expertise of each LIA. LIAs will promote SNAP-Ed services and activities by connecting with other agencies, such as County Welfare Departments, etc.

In addition to the SNAP-Ed funded partners, twelve additional organizations are involved in the County Nutrition Action Plan (CNAP) Committee. With a shared goal to create a healthy community, various partnerships form depending on the intervention. Our primary premise is for CNAP stakeholders to join together to leverage resources, encourage physical activity, increase the consumption of nutritious foods, increase food security, coordinate messages, and work together to further policy, system and environmental (PSE) interventions. Each year themes are integrated into the CNAP plan to increase reach and exposure of healthy messaging.

During the CX3 process four years ago, the LHD identified one site that would greatly benefit from residential community garden programs. While the program has been slow to come to fruition, we continue to pave the way for success. Our goal is to have one shared garden established in 2016, and provide direct education classes and technical assistance in 2017. The LHD will work with its CNAP partner, Sierra Harvest, who will provide two years of gardening expertise by meeting with participants quarterly, providing tips, and offering free plant starts.

Both the LHD and UC CalFresh participate in a local Food Policy Council (FPC). The mission of the council is to bring together stakeholders concerned about food, food security, farming and nutrition to discuss how members of the council can collaborate to further shared goals. The FPC invites a very different group of stakeholders together than CNAP. The FPC is still in its infancy, and one of primary goals is to develop a clear, understandable, data-based picture of our food system. The study will be used as a vehicle for pulling the many food system-related organizations, institutions and individuals together around a common purpose such as enhancing food security, and boosting the production and consumption of local agricultural products.

There are two food pantries that serve the CalFresh population in Nevada County, both of which the LHD has been working closely with over the past four years. The program partnership targets multiple levels of the Social Ecological Model from direct education to policy adoption. A newer arena the LHD shall be exploring in collaboration with the AAA4 is to evaluate the viability of a satellite food distribution site to serve food insecure seniors.

UC CalFresh and the LHD both continue to strengthen their relationships with the schools and school districts, serving the school communities through different categories of activities, and for the most part different schools altogether. Each LIA will continue delivering direct and indirect education utilizing evidence-based materials, and will begin building more comprehensive programming within the schools in order to support the direct education occurring in the classrooms. As activities at the school build to create comprehensive efforts, such as expansion into the after school programs, physical activity and system supports, and healthy school lunchrooms, it is anticipated that youth will be more likely to grow knowledge and skill to support healthy choices in life.

The LHD partners with two local Family Resources Centers that use the Promotora model to reach the Latino population. As the Promotoras work closely with the Latino population they assist the LHD in promoting the classes, choosing the appropriate nutrition and physical activity lessons, and translate during classes.

Increasing CalFresh EBT card holder usage to purchase fresh fruits and vegetables has been a LHD focus for three years with successful results from a multi-organizational collaborative market match program in Western Nevada County. This program will now be brought to the eastern part of the county to a farmers market that resides in a CX3 neighborhood. The situation is more complex because the CX3 market is managed by an organization located in Placer County. To further complicate matters, a USDA grant secured by the Public Health Institute and the Sacramento Health Education Council will be used to bring the EBT system to this market. The LHD will work alongside these partners and with the Nevada County Department of Social Services to offer a market match program in Eastern County.

In Nevada County there are two community health centers, one that UC CalFresh will be serving, the other the LHD. Independently each LIA will initially bring direct education - nutrition and physical activity classes - to the centers, with a long term goal of supporting the sites to adopt environmental and/or policy interventions. As a way to bring the expertise of clinical diabetes staff out in the field, the LHD will invite them to host tables alongside us when we work with the food pantries. Studies show that food pantry clients are at a higher risk for pre/diabetes and this effort will tie the two programs together in a very different capacity.

7. **Key Messages**

x	Food Safety	x	Physical Activity	x	Fiber-Rich Foods
x	Whole Grains	x	My Plate-Healthy Eating Plan	x	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
x	Fruits & Vegetables	x	Limit Added Sugars or Caloric Sweeteners	x	Other *(specify):* Label reading
x	Fats and Oils	x	Food Shopping/ Preparation	x	Other *(specify)*: Limiting Screen Time
x	Lean Meat & Beans				
x	Sodium & Potassium				
x	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All educational materials, resources, and curriculum to be used in 2017-2019 are approved through the USDA SNAP-Ed Connection website (https://snaped.fns.usda.gov/), and/or FFY 2017- 2019 California SNAP-Ed Integrated Curricula List which highlights the approved materials for UC CalFresh, California Department of Aging, California Department of Public Health - Nutrition Education Obesity Prevention Branch (NEOPB).The Nevada County LIAs reviewed the allowable resources, recipes, curriculum and have chosen what best matches the settings, audiences, and activities planned over the next three years.

9. **Intervention and Evaluation Plan Narrative Summary**

As you review the IWP please take into consideration that LHD funding in the past was augmented with carry-over and Get Fresh funds. The LDH projects outlined in the work plan are based upon the 2018 funding level of $240,000. In light of financial changes, the IWP activities were carefully designed to maximize reach within schools and out in the community. There are slight decreases in the number of people reached through direct education in 2018-19,

minimal increases in indirect reach, and two of our PSE activities will be completed at the end of 2017. While our PSE numbers show a large increase in the SNAP-ED population reached in 2019, it is because the LHD and UC CalFresh are working at a few select sites that potentially can reap the greatest impact.

There are three SNAP-Ed Local Implementing Agencies (LIAs) implementing nutrition education and obesity prevention programs in Nevada County – the Local Health Department (LHD), UC CalFresh, and Agency on Agency\Area 4 (AAA4). We have worked collaboratively to create a comprehensive plan that includes four main objectives designed around two sectors – community and schools – and a range of activities that address all five state objectives. When the LIAs strategized to develop the three-year work plan, we took into consideration a number of questions:

- Where are there gaps in needs and services?
- How can we build upon the work we have done to complete as well as introduce new implement policy, system and environmental supports?
- What are the ways we can continue to leverage our established relationships?
- What types of programs would further unite the LIAs' efforts, deepen our reach and maximize healthy messaging within the SNAP-Ed population?
- How can we better serve the senior population?
- What new messages can we promote amongst the LIAs and CNAP partners to increase exposure of healthy messaging in the community?
- How can we collaborate with other prevention programs outside the purview of this grant to address the increasingly complex and interrelated public health concerns facing CalFresh clients?
- What are the best strategies to address food insecurity that would have long term positive impacts?

Schools

UC CalFresh and the LHD work in the schools - UC CalFresh teaches in the larger elementary and middle schools, and the LHD reaches at-risk youth who attend alternative schools. UC CalFresh has a presence in all the Head Starts except one, which the LHD picks up. Afterschool programs are split between both agencies.

UC CalFresh and the LHD have documented successes in positively changing behaviors among the student population. The teacher observation tool used by UC CalFresh in 2015 compared habits at the beginning to the end of the school year. Results showed that 70% of teachers reported more students now bring fruit as a snack, and 100% reported more students can now identify healthy food choices. LHD surveys confirm these findings that students reported eating more fruits and vegetables. With these successes both LIA's believe it is imperative to continue to teach students through direct nutrition education classes at preschools, afterschool, and during the school day. One local school will devote an entire day to all aspects of health, with an emphasis on nutrition and physical activity classes. Direct nutrition education classes include components on healthy food and beverage consumption and choices, which aligns with State Goal #1.

The LHD will continue its focus on physical activity classes while UC CalFresh is more fully integrating lessons into their classes throughout the next three years. Both LIA's will collaborate in 2017 to strategize how to promote Screen Free Week in 2018 and 2019. The program will roll out at preschools, elementary, middle and high schools. To increase access to physical activity UC CalFresh and the LHD will work with childcare providers to add "Painting Preschool Playgrounds for Movement" stencils designs on location. The activities planned are in step with State Goals #2 and #5.

Direct education is complimented with indirect nutrition messaging via a family fun fair, tastings and teacher newsletters. The newsletters UC CalFresh writes are geared towards teachers, and include activity ideas and tips to be passed along to parents. The messages will reinforce what children will be hearing during the school day, taste in lunch room, and the encouragement received on the playground – healthy eating and active play. Harvest of the Month (HOTM) tastings will be introduced by UC CalFresh at the preschools where they teach and a community based organization that works with local farmers will be able to supply produce. The HOTM tasting ties into a much larger HOTM program run by a local nonprofit. During the school year, the nonprofit provides HOTM tastings to 6,000 school children each month and the school district's central kitchen features HOTM produce on the school lunch menu on a monthly basis.

Adults of school-age and preschool-age children are targeted in our intervention plan. Adults will have an opportunity to learn tips and tricks to menu planning, shopping, and eating on a budget in classes. During Screen Free Week adults will have a pivotal role in helping the family unplug from digital entertainment and spend time playing, reading, creating, exploring, and connecting with family and friends. Targeting the adults supports State Goals #1, #2, # 3 & #5.

In addition to the Playground for Movement sustainable piece mentioned above, there are a number of train-the-trainer elements built into the program. UC CalFresh will recruit and train teens to deliver afterschool cooking and garden-based lessons paired with tastings at qualifying sites. Both the LHD and UC CalFresh plan to utilize the CATCH curriculum to offer training to providers in afterschool and child care settings, and the LHD will recruit and train educators at one high school for at-risk youth to deliver the SPARK curriculum. Child care providers will also be invited by the LHD to attend Wellness Policy and Nutrition Education workshops. FFY 2018 will include a training component on Limited Screen Time. These projects support State Goals #4 & #5.

In 2013, the LDH joined the Nevada County Superintendent of Schools Heath Advisory Committee (SHAC). This committee successfully worked on a school wellness policy that was adopted by the school board. A user-friendly guide to the wellness policy was also created and posted on their district website. With this major task accomplished, SHAC will embark on exploring the feasibility of creating a pilot School Wellness Center. The primary site being considered is at the alternative high school where the LHD is actively implementing other programs. Key stakeholders, including the LHD, will meet to develop a vision and framework for the Center with the overarching goal for the pilot School Wellness center to be operating on a small scale within the three year grant cycle. This project reinforces State Goals # 4 & #5.

What is for lunch will take on a new meaning with both UC CalFresh and the LHD working on healthy school lunchroom measures and supports school wellness policy directives adopted in 2014. The LHD will continue its work with the school district's central kitchen providing technical assistance on Nevada County's CA

Thursday lunch program and procuring locally grown produce. UC CalFresh will be working at three schools, one per year to introduce Smarter Lunchroom Movement measures. These efforts are projected to increase in the consumption of healthy foods and matches State Goals #1 & #4.

CNAP partners will cast a net wider in the community by reinforcing the following messaging students and adults hear about via the school system: physical activity (2017), Screen Free Week (2018-19) and summer meals (2019).

Community

The majority of the work conducted out in the community will be accomplished by the LHD reaching out to the SNAP-Ed adults through direct/indirect education, and PSE interventions. UC CalFresh and the LHD will be joining forces by working in health clinic settings, while LHD and AAA4 are targeting seniors in one very specific neighborhood to increase food security.

Four years ago the LHD surveyed a number of neighborhoods utilizing the Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX3) program planning framework to identify areas of improvement. One project stemming from the CX3 process was for the LHD to work with seniors to create a residential community garden in a senior housing complex that is jointly shared with seniors living in an adjacent complex. The garden will be completed in 2016, and in 2017 the LHD will offer cooking demonstrations to gardeners to give the seniors the necessary skills and interest in preparing meals from the produce they have grown on-site. Once the LHD has completed this project, the direct education portion of the program will be turned over to the AAA4 who will offer nutrition classes to the seniors at the above mentioned sites. There is a third complex in the neighborhood that doubles as a senior community center, and this is where AAA4 will start their direct education class series and boost messaging through indirect education. These projects contribute to meeting State Goals #1, #2, #3, & #4.

The most recent data available from 2010 states that 767 Nevada County seniors (4.42%) are living in poverty, but only a very small percentage are receiving SNAP-Ed benefits. This knowledge brings the LHD and AAA4 together to work on a second project that is to increase food security to the seniors living along a neighborhood corridor. In 2017, both LIAs will survey seniors in the respective sites where they are working to assess the level of food security issues facing this population.

In 2018 and 2019, the AAA4 and LHD will facilitate working groups to identify ways to increase food security, such as busing seniors to farmers markets, establishing a food distribution site, and/or cooperative purchasing. AAA4 and LHD will collaborate to determine overlap in needs and explore the best strategies to implementing PSE supports in the neighborhood. This project unites with State Goal #3.

A second project was identified during the CX3 neighborhood assessments. Since a local farmers market, located in the Eastern Nevada County and in a predominately Latino neighborhood, was not accepting EBT, the LHD decided to work with the market to accept EBT. This seemly straightforward endeavor has taken twists and turns at every juncture. However, it appears that this market will start accepting EBT as a pilot in the summer of 2016. The LHD will collaborate

with pilot farmer's market partners to systemize the program to continue after their USDA funding ends. A parallel project the LHD initiated was to leverage outside funds to start a market match program at the market in question so EBT clients would be able to increase their purchasing power. In 2017, the LHD will support the pilot EBT program by offering at least one shopping tour and cooking demonstration to CalFresh recipients and work with stakeholders to promote the market. In Western County, the LHD will host nutrition classes with an emphasis on shopping at the farmers market. In 2018, the LHD will continue to support the local market match programs through indirect outreach. This program aligns with State Goals #1, #3 & #4.

A portion of the low income population seeks medical services in one of the three local clinics. Chapa-De Indian Clinic has two locations – in Placer and Nevada counties. The mission of Chapa-De Indian Health is to advance the health and well-being of American Indians and low income individuals living in our communities. UC CalFresh teaches at the clinic in Placer and in 2017, will start to offer nutrition and physical activity classes at the Nevada County site. Recently one UC CalFresh educator was certified in Zumba instructions with the intention to build this physical activity class into the series. The LHD will conduct classes at the other large medical clinic, and initiate work at third clinic that is located in an underserved area of the county. Both LIAs lessons include eating on a budget, meal planning, and shopping tips. A primary goal in year one is to grow the partnerships and gather information about clinical practices that will set the stage for implementing policy and/or environmental supports by 2019. One specific engagement will be to invite the clinics to participate in promoting Screen Free Week Campaign in year three. These efforts support State Goals #1, #2, #3 & #4.

The Nevada County needs assessment concludes that behavioral health and substance abuse issues are a top concern for the community. Clients who are struggling with these issues are able to seek assistance in clinical settings, in/out treatment facilities and/or transitional home type settings. The majority of the clients needing help are low income, at-risk, and evidence show that they have higher levels of health disparities. Over the past four years the LHD has worked at a few sites where clients are seeking services, but there are many places that continue to be underserved. From LHD's experience and observation, the sites where services are rendered are in need of nutrition, physical activity and PSE interventions. LHD plans to provide nutrition and physical activity classes, train-the-trainer opportunities, and collaborate with the Behavioral Health Department and site management to initiate policy, system and/or environmental supports at a number of locations. The activities align with State Goals #1, #2, #3, #4.

The LHDs last major undertaking is to continue working with one local food pantry. In 2016, the LHD worked very closely with a food pantry to support the creation and adoption of a nutrition policy. The policy outlines that in the first year the policy will be reviewed every six months and then annually thereafter. The LHD has been invited to continue to serve on two committees that strategize on nutrition education programs to clients, volunteers and donors, and ways to increase the amount of healthy foods distributed to clients. Nutrition classes, cooking demonstrations, and food and drink tastings are scheduled over the three year grant cycle. Recognizing that hunger, health, access to healthy foods are increasingly complex and interrelated public health concerns, the LHD will work with the food pantry in 2018 and 2019 to facilitate other stakeholders such as Tobacco Prevention staff and Diabetes clinicians to join in educating clients on health risks. State Goals #1, #2, #3, & #4 are met through the work conducted at the food pantry.

Evaluation

Evaluation approaches will be utilized to develop effective strategies, to inform initial implementation approaches and decision, to inform on-going decision-making and corrections, to improve services and service provision, and to assess progress toward outcomes. The LHD will use a RE-AIM framework to document, assess and improve the approach, efficacy and implementation of our Local Objectives, as applicable for the REAIM PSE interventions. In addition, specific tools have been developed and will be used to assess progress of non-REAIM PSE interventions, as well as other activities. All listed activities are included in the evaluation plan. Typical evaluation tools include pre- and post-surveys, post-training evaluations, sign-in sheets, observations, instructor interviews and document review. Relevant indicators from the Western Region's SNAP-Ed Evaluation Framework are embedded in the evaluation plan. For instance, the pre- and post-surveys for nutrition education class series typically address MyPlate behaviors (MT1), Physical Activity Behaviors (MT3), and Long Term Nutrition Outcomes (LT2-5), but also include locally-developed questions to inform our specific partner needs and local implementation questions, and, as applicable, are developed with input from relevant subcontractors and/or partners.

UC CalFresh will utilize the UC CalFresh Workbook for process evaluation to track and assess activities conducted, number of individuals reached through various methods of delivery, and extenders trained to delivery approved curriculum. Youth formative and outcome evaluations include the Teacher Observation Tool to assess teachers' perceptions of youth behavior change, and the Teacher Tasting Tool to determine youth willingness to try new foods. Healthy school lunchroom activities will be evaluated using the Smarter Lunchrooms Movement Scorecard, which is conducted pre- and post-implementation to assess changes made in the lunchroom that influence youth behavior as well as appeal of healthy food choices from MyPlate. Formative and outcomes evaluations for adults include use of the Intent to Change assessment to determine an adult's readiness to implement a change based on the class attended, the Food Behavior Checklist to evaluate healthy behaviors and food security using a pre- and post-test, as well as the Plan, Shop, Save and Cook pre- and posttest to assess adult knowledge and behavior change surrounding food resource management. Through these formative and outcome evaluations, UC CalFresh will use the data collected to inform future classes as well as report on the impact of the program on qualifying youth, adults, families, and communities.

SECTION B: Target Audience Description

1. Gender	%
Male	40%
Female	60%
Total:	100%

2. Age	#
0 to 4 years old (Preschool):	569
5 to 17 years old (School Age):	23,292
18 to 59 years old (Adult):	41,650
60 years old and over (Senior):	9,837

3. Ethnicity/Race

Ethnicity

Total Percentage Hispanic/Latino	Total Percentage Not Hispanic/Latino	Total Percentage Ethnicity
12.6%	87.4%	100%

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

By September 30, 2019, the Nevada County SNAP-Ed funded partners will reach at least 11,000 students, teachers, administrative staff and parents at a minimum of nine qualifying schools, including afterschool programs, through multi-level interventions that result in an increase in the following: consumption of healthy foods and beverages, physical activity, access to local produce, nutritional knowledge and healthy lunchroom measures.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Reduced Screen Time
- Creation of a School Wellness Center
- Healthy School Lunchroom Measures including CA Thursday, Smarter Lunchrooms Movement, Procurement of Local Produce

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 30, 3017, Nevada County LIAs will reach a minimum of 1,915 students and 60 adults through multi-level interventions including direct and indirect education and shall offer extender training to at least six students and/or teachers.
   b. By September 30, 2017, provide resources and strategies to stakeholders implementing healthy school lunchroom measures at five qualifying schools to reach 1400 students.

c. By September 30, 2017, the LHD shall collaborate with at least two stakeholders to explore the development of a school wellness center at one qualifying high school.

2. **FFY 2018 (Year 2) Objective(s):**

a. By September 30, 2018, Nevada County LIAs partners will reach a minimum of 2,735 students and 60 adults through multi-level interventions including direct and indirect education and shall offer extender training to at least five students and/or teachers.
b. By September 30, 2018, provide technical assistance to stakeholders to improve healthy school lunchroom measures at five qualifying schools to reach 1400 students.
c. By September 30, 2018, the LHD shall continue to collaborate with at least two stakeholders to develop a pilot school wellness center at one qualifying high school.

3. **FFY 2019 (Year 3) Objective(s):**

a. By September 30, 2019, Nevada County LIAs partners will reach a minimum of 2,775 students and 60 adults through multi-level interventions including direct and indirect education and shall offer extender training to at least seven students and/or teachers.
b. By September 30, 2019, provide technical assistance to stakeholders to improve healthy school lunchroom measures at five qualifying schools to reach 1400 students.
c. By September 30, 2019, work with at least two stakeholders to officially launch a pilot School Wellness Center that offers nutrition and physical activity education classes to 20 students.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Nevada County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019, the Nevada County LIAs will reach at least 11,000 students, teachers, administrative staff and parents at a minimum of nine qualifying schools, including afterschool programs, through multi-level interventions that result in an increase in the following: consumption of healthy foods and beverages, physical activity, access to local produce, nutritional knowledge and healthy lunchroom measures.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Host single to eight series nutritional class lessons to students in elementary, middle, and afterschool programs. Tasting included with lessons whenever feasible. Year 1: Direct Reach: 640; Indirect Reach: 640. Year 2: Direct Reach: 640; Indirect Reach: 640. Year 3: Direct Reach: 640; Indirect Reach: 640.	x CED x CEI MPR C&C TTA	CWD LHD AAA x UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	On File: Class sign-in sheets Submit: UC CalFresh Workbook
1.2	Teach nutrition classes up to twice a year to students participating in the Athlete Committed Program a one at-risk qualifying school. Coordinate with LHD Alcohol Prevention staff. Year 1: Reach 10 to 20 students participating in the program. Year 2: Reach 10 to 20 students participating in the program. Year 3: Reach 10 to 20 students participating in the program.	x CED CEI MPR C&C TTA	CWD x LHD AAA UCCE CCC	CWD: LHD: In the Kitchen AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3, Q4 Year 2: Q1 x, Q2 x, Q3, Q4 Year 3: Q1 x, Q2 x, Q3, Q4	On File: Class sign-in sheets Submit: Record in ATF; quarterly reports

1.3	Teach single to five series nutritional and physical activity classes in at least six school settings ranging from elementary, middle, alternative high schools or afterschool programs. Tastings included whenever possible. Year 1: Reach 245 students. Year 2: Reach 245 students.
