Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**

By September 30, 2019, a minimum of 15 Early Childhood Education (ECE) centers will have received direct education, indirect education, and wellness policy support that shall lead to new or modified practices that engages children and parents in nutrition education and physical activity, leading to increased nutritional knowledge, behavioral changes and environmental supports to affirm these practices.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Reduced Screen Time
- Support for implementing Wellness Policies
- Increase opportunities for Active Play
- Increase consumption of Local Produce

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017, provide direct and indirect education to 115 students and 68 adults, and offer nutritional, physical activity and wellness trainings and assistance to at least 30 childcare providers.

2. **FFY 2018 (Year 2) Objective(s):**

   a. By September 30, 2018, provide direct and indirect education to 227 students and 68 adults, and offer nutritional, physical activity and wellness trainings and assistance to at least 20 childcare providers.

3. **FFY 2019 (Year 3) Objective(s):**

   a. By September 30, 2019, provide direct and indirect education to 227 students and 68 adults, and offer nutritional, physical activity and wellness trainings and assistance to at least 20 childcare provider.

   b.

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):
By September 30, 2019, a minimum of 15 Early Childhood Education (ECE) centers will have received direct education, indirect education, and wellness policy support that shall lead to new or modified practices that engages children and parents in nutrition education and physical activity, leading to increased nutritional knowledge, behavioral changes and environmental supports to affirm these practices.

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**

By September 30, 2019, at least 27,900 local families, seniors, and individual adults will have increased access to fresh fruit and vegetables through community gardens, increased EBT usage at farmers markets, and policy and/or environmental interventions at SNAP-Ed qualifying community sites; efforts supported with direct and/or indirect education.

SNAP-Ed State Goals):

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Residential Community Gardens
- Evaluate viability of establishing a food pantry satellite food distribution site
- Development and adoption of healthy food and beverage policies in various settings
- Increase food security and access to local produce

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

    a. By September 30, 2017, increase food security for at least 13,200 CalFresh children, adults, and seniors eligible clients through an EBT Farmers Market Match program, working with one food pantry to expand their nutritional policy, and supporting a local community garden with technical assistance and direct education.

b. By September 30, 2017, work on multi-level interventions, including direct and indirect education at qualifying sites, including but not limited to public housing sites, health clinics, and residential treatment centers to reach at least 300 CalFresh eligible clients.

c. By September 30, 2017, reassess CX3 community neighborhoods.

2. **FFY 2018 (Year 2) Objective(s):**

a. By September 30, 2018, support EBT farmer's market programs with direct education classes to reach 80 to 100 clients.

b. By September 30, 2018, expand efforts to increase food security for seniors living at three qualifying housing sites by investigating various food security program options, including the exploration to establish a satellite food distribution site.

c. Provide technical support and direct/indirect education at two local food pantries to reach at least 13,000 children, adults and seniors.

d. By September 30, 2018, implement multi-level interventions including direct, indirect, and staff trainings at transitional housing where people in recovery are living, public housing, health clinics and other organizational sites to reach 300 SNAP-Ed clients; support the development and/or implementation of policy and/or environmental supports at a minimum of two qualifying sites.

3. **FFY 2019 (Year 3) Objective(s):**

a. By September 30, 2019, support EBT farmer's market programs with direct education classes to reach 80 to 100 clients.

b. By September 30, 2019, implement one food security measure targeting at least 100 seniors based upon what is determined by the process of working with the seniors and the local food pantr(ies).

c. By September 30, 2019, implement multi-level interventions including direct, indirect, and staff trainings at transitional and public housing sites, health clinics and other organizational sites to reach a minimum of 300 CalFresh clients; support the development and/or implementation of site wellness policies at a minimum of two sites to reach at least 14,750 clients.

d. Provide technical support to expand nutrition policy at one food pantry to reach 13,000 children, adults and seniors, and support policy with direct/indirect education. Support second local pantry through food tastings to reach 300 clients.

****Time Frame: Year & Quarter:**

Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)

Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):**

By September 30, 2019, Nevada County SNAP-Ed Funded partners will collaborate and coordinate with a minimum of four non SNAP-Ed partners to leverage resources and support for PSE activities outlined throughout this work plan.

SNAP-Ed State Goals:

	Goal 1: Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Promote access and appeal of physical activity
- Improve Food Resource Management Behaviors
- Reduced Screen Time

Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. **FFY 2017 (Year 1) Objective(s):**

    a. By September 30, 2017, the LHD shall convene at least 4 County Nutrition Action Plan (CNAP) Committee meetings, with the expectation that at least four partners will collaborate to promote physical activity and work together on policy, system and environmental change projects.

    b. By September 30, 2017, the LHD and UC CalFresh shall participate in at least four local food policy council meetings per year.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, the LHD shall convene at least 4 County Nutrition Action Plan (CNAP) Committee meetings, with the expectation that at least five partners will collaborate to promote screen free week and work together on policy, system and environmental change projects.

b. By September 30, 2018, the LHD and UC CalFresh shall participate in at least four local food policy council meetings per year.

3. **FFY 2019 (Year 3) Objective(s):**

a. By September 30, 2019, the LHD shall convene at least 4 County Nutrition Action Plan (CNAP) Committee meetings, with the expectation that at least six partners will collaborate to promote summer meals program and work together on policy, system and environmental change projects.

b. By September 30, 2019, the LHD and UC CalFresh shall participate in at least four local food policy council meetings per year.

Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):

By September 30, 2019, Nevada County SNAP-Ed Funded partners will collaborate and coordinate with a minimum of four non SNAP-Ed partners to leverage resources and support for PSE activities outlined throughout this work plan.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
4.1	The LHD shall convene CNAP committee meetings at least two times each year. SNAP-Ed funded and non-funded SNAP-Ed partners shall coordinate on messaging, and collaborate on various PSE's that are listed throughout this work plan. Organization Name: California Department of Public Health
County/Jurisdiction: Nevada County Public Health

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	Includes items included by not limited to pens, flip charts markers, toner cartridges, calendars, legal pads, etc. This amount covers .35 FTE for the Program Manager, .25 FTE for a nutritionist, .20 for Secretary/Admin Assistant (total of .80 FTE). The cost per month is $46 for the .8 FTE allocated to this project.	0.8	$46.00	15	$552	
2			Postage	Includes mailings to local partners, etc	1	$0.49	102	$50	
3			Telecommunication charges	iPad charges for Program Manager. The monthly charges are $39.02/mo, prorated here to match the FTE for the Program Manager in NEOP. The Program Manager does not have a work cell phone, this is her only telecommunication cost associated with NEOP.	0.35	$39.02	12	$164	
4			Copying	Internally and externally produced copies. Includes, for example, surveys, fliers, signs, recipes, etc.	1	$0.25	11020	$2,755	
							Total Non-Capital Equipment/Supplies:	$3,521	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Non-Food Supplies	Items to prepare and/or serve food, including but not limited to plates, utensils, cups, napkins, etc	$2.00	369	$738	
2			Food Supplies	Food for numerous nutritious classes, tastings, and events (not to exceed $2.50 per participant)	$2.50	1065	$2,663	
3			Rethink Your Drink	Includes water flavorings, cups, dipsensers, etc., for various events (not to exceed $0.60 per participant)	$0.60	732	$439	
4			Catering/Temp Food	Two permits that are required by Nevada County Environmental Health to prepare and provide food. These permits are required by our EH dept for NEOP to prepare and provide tastings. Permit 1696, Caterer, $249.06; and 1609, Temporary Food Facility Vendor, $166.06. Also includes two ServSafe trainings at $15 each.	$445.10	1	$445	
5			Translation	Translation of materials in support of community events, such as event flyers, by a certified translator	$150.00	2	$300	
6			Signs and Posters	Creation and printing of materials to support PSE and SOW activities, including graphic design	$80.00	5	$400	
						Total Materials:	$4,985

County Name: **Orange County**

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency (counterpart local agency) Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
X	California Department of Public Health: CDPH: Orange County Health Care Agency)
	California Department of Aging: CDA: (Area Agency on Aging: AAA)
X	Catholic Charities of California: CCC: Catholic Charities of Orange County

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.

- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Audience: Orange County (OC) is an urban/suburban jurisdiction located south of Los Angeles with 34 incorporated cities and over 3 million residents. It is the third most populous county in the state and the sixth most populous in the nation (Census 2010). According to the 2015 SNAP-Ed County Profiles, 27.1% of the population is SNAP-Ed eligible (~816,000, <185%FPL). Of those potentially eligible, ~31% (254,662) participated in SNAP, corresponding to 7.3% of the county's total population. SNAP-Ed eligible participants are ~ 56% Hispanic, 24% White, 17% Asian (primarily Vietnamese) and 3% other race/ethnicities. Adults comprise the largest percentage of SNAP-Ed eligible participants at ~59%, followed by school age children (21%), older adults (10%) and preschool children (10%). In terms of the total population, SNAP-Ed eligible adults comprise 25% of all adults in the county, with similar percentages for older adults, while SNAP-Ed eligible preschool and school age children comprise over 34% of the total youth in the county. Over 30% of OC residents are foreign born, 46% speak a language other than English in the home and of those who rent, 58% spend 30% or more of their income on rent.

Sites: Of the 583 census tracts in OC, 63 (~11%) qualify for SNAP-Ed services, based on "All Races" ACS data for 2010-2014. OC has 28 school districts with 605 public schools, of which 305 (~50%) are eligible for SNAP-Ed services. In 2014-15, 49% of all youth (~243,432) participated in the Free/Reduced Price Meal (FRPM) Program. A significant number of means-tested sites are eligible for SNAP-Ed services including over 250 emergency food outlets, 200 large public housing units, 30 WIC clinics, 50 Head Start sites, 15 large family service centers and 10 CalFresh-SSA offices. Older adults are primarily reached through two contractors providing congregate and home-delivered meals at sites throughout the county. The city of Santa Ana has the largest number of SNAP-Ed eligible residents and all 56,815 students in the Santa Ana Unified School District are now considered adjunctively eligible for the FRPM Program. Two neighborhoods in this city have been part of CX^3 efforts since 2008 and another area in central Santa Ana is the focus of a 10-year California Endowment project, currently in its 7th year. The city of Anaheim has the second largest number of SNAP-Ed eligible residents and is served by seven school districts. One area in this city was the focus of a multi-year Kaiser "HEAL Zone" initiative implemented by the YMCA of Anaheim from 2012 to 2016 and efforts continue. In addition, targeted areas of Anaheim, Garden Grove and Orange are being reached with health-related activities through a 3-year "Partnership in Community Health" grant awarded by the CDC.

Health: OC's health indicators are comparable to or better than the State averages, but not at the desired levels. According to the 2015 SNAP-Ed County Profiles, 58% of OC's SNAP-Ed adults are overweight &/or obese, with 17% obese, compared to state rates of 67% and 32% respectively. Surprisingly, OC's SNAP-Ed adults have slightly lower overweight/obesity rates than OC adults of all incomes (60% and 18%). For youth 2-11 years of age, OC's overweight percentage is slightly lower than the state average (11.3% vs. 11.8%). For youth 12-17 years of age, OC has a lower rate of overweight compared to the state (11.8 vs. 17.2%) but a higher rate of obesity (16.2 vs. 15.5%). When examining chronic disease health indicators for OC residents by income level, diabetes rates are only slightly higher for low-income individuals (8% vs. 7%), as is the rate for hypertension (23% vs. 22%). SNAP-Ed Profile data related to physical activity

behaviors show OC is comparable to most state figures. In terms of nutrition behaviors, OC youth and teens are consuming fewer servings of fruit compared to the state average. OC continues to have higher numbers of adults and children reporting fast food consumption (for SNAP-Ed adults: 75% vs. 68%) but lower numbers reporting consumption of sugar-sweetened beverages (37% vs. 39%). Additional data show that 46.3% of low-income Latino men in OC report consuming fast food 4 or more times a week and 58% report consuming soda 2-3 times a week (2014 CHIS). Supplementary data based on gender, age, race and ethnicity are available and help to further identify priority needs and disparities.

Environment: OC is fortunate to have a relatively better food and physical activity environment compared to others in the state. A large number of chain and independent food markets contribute to the SNAP-Ed Profile data that show only 1% of the low income population has limited access to healthy food, compared to the state average at 3%, and USDA 2010 data that show only 1% of low-income OC residents are more than one mile away from a store, compared to the state average of 6%. OC has a higher density of fast food restaurants than the state (0.89 vs. 0.58 per 1,000 residents, USDA 2012) and is the corporate home of several major chains. In terms of physical activity, the County Health Rankings compiled by the Robert Wood Johnson Foundation indicate that 98.3% of OC residents live relatively close to a park or recreational facility. The areas with limited access to parks/open space and safe walking to schools are often located near large public housing and apartment complexes.

SNAP-Ed Funding: In FFY16, OC is projected to receive over $4M in SNAP-Ed funding. In FFY17, the SNAP-Ed funding allocated to OC will decrease to ~$3.7M. CCC intends to award Catholic Charities of OC (CCOC) ~$90K and CDPH intends to award the LHD, Health Care Agency (HCA), ~$3.58M. HCA plans to subcontract ~50% of the funding to six local agencies. Funding will decrease another ~4% in FFY18 and FFY19 to ~$3.6M. The term "OC-LIAs" will be used in this Integrated Work Plan (IWP) to refer to CCOC and HCA, the local implementing agencies (LIAs).

4. **Community Assessment**

In general, OC's health status compares favorably to other counties. According to the 2015 county health rankings, compiled by the Robert Wood Johnson Foundation (RWJF) and the University of Wisconsin Population Health Institutes, OC ranks 5th best in health outcomes when compared to California's 57 other counties. Rankings for neighboring counties include: San Diego–19th, Riverside–24th, Los Angeles–26th and San Bernardino–37th. This success is due to the cumulative efforts of many partners working on health and obesity issues but further improvements are desired. The challenge for OC-LIAs will be to complement and not duplicate partner activities and this IWP will help clarify the role for SNAP-Ed services.

OC did not do as well in some of the RWJF health ranking components that fall beyond the purview of SNAP-Ed and need to be addressed by partners. In particular, limited housing, access to medical care and transportation issues are areas needing improvement. OC-LIAs will support the housing efforts by continuing to provide SNAP-Ed services to families in public housing complexes and nutrition displays in the OC Housing Authority office. OC-LIAs will link with the local efforts to improve access to medical care and patients' food security. Two physicians have been identified by OC-LIAs as Champion Medical Providers. These Champions, as well as health department staff, will help ensure the integration of SNAP-Ed services and materials. OC-LIAs can also support partners focusing on transportation issues such as long commutes, public transit and safety concerns. The OC-LIAs' IWPs in FFY14-16 included Safe Routes to School (SRTS) and other PSE efforts aimed at improving safety and opportunities for physical activity. In the past, Champion Moms have provided input to city officials regarding street safety issues. While some counties pursue food/beverage standards and policies, OC does not have a County hospital or a significant number of government sites providing food thus work in this area is not a priority. Additionally, HCA administrators attend a variety of meetings and can help identify other ways SNAP-Ed activities can support partners.

OC-LIAs will be able to have a significant impact on the nutrition and physical activity efforts being conducted in the county. OC's FFY17-19 IWP was developed using information listed in the jurisdiction section, CX^3 results, various reports, input from community partners and experience gained from implementing SNAP-Ed activities for over 15 years. General and specific factors were considered when assessing the needed role for and potential improvement of SNAP-Ed services.

General: SNAP-Ed activities have been implemented in OC for many years by various partners and known to the community as "5 a Day", "Harvest of the Month", "Network for a Healthy California", "NEOP", and "Champions for Change". To avoid confusion, OC-LIAs will continue with efforts to ensure consistent branding of SNAP-Ed services. This long history with SNAP-Ed helps OC maintain momentum but also makes changes more difficult. In terms of media, OC is part of the larger LA TV and radio market and local coverage is limited to the OC Register newspaper, smaller print outlets and targeted billboards and signage. OC-LIAs will utilize the State-level campaigns to assist with social marketing on a local level. The USDA highlighted the need to reach Native American and Pacific Islanders. Some past activities have targeted these groups in OC and more efforts may be needed in the future. In accordance with the USDA Guidance, the majority of efforts will continue to target women and children but local statistics indicate low-income Latino men have significantly higher rates of fast food and soda consumption. Additional efforts are needed to target this group, which will help improve overall obesity rates and support healthy family behaviors. Correspondingly, OC has a high density of fast food restaurants and more education and PSE activities may be needed in this area. With regards to nutrition education, OC-LIAs will need to ensure the new 2015 Dietary Guidelines are incorporated and continue to offer services in English, Spanish and Vietnamese. Farsi is not yet a threshold language but a few potential resources have been identified. Education also needs to continue to focus on helping SNAP-Ed individuals access online resources, an effort started in FFY13. Local evaluations indicate there is a technological divide with some individuals proficient in Internet use, especially on smart phones, while others have limited or no access and experience. OC-LIAs will continue to promote the "Eat Better – Use the

Web" activities and also provide printed materials to reinforce key messages. Additional efforts are needed to help ensure the websites visited by low-income individuals are clear and easy to use, especially the food assistance sites. Progress may be difficult, as WIC's efforts to promote online education have resulted in a <2% participation rate. Lastly, HCA has noticed a recent increase in the number of community partners requesting formal signed agreements, proof of insurance and additional liability insurance before SNAP-Ed services can be provided on site. While HCA is able to fulfill the requests, it requires additional time and effort.

Specific: Assessment information was also gathered for each of the six settings outlined in the USDA-WRO Evaluation Framework to help define the role for partners and the role for OC-LIAs at places where people *eat, live, learn, work, play and shop.*

1) Eat or obtain food at no cost: A variety of agencies implement all the major USDA food programs in OC plus there are a large number of community food programs supported by food banks, private donors and churches. The OC-LIAs have strong relationships with the USDA-FNS funded and other food security partners in the county and have convened a County Nutrition Action Plan (CNAP) workgroup or precursor workgroup for over 10 years. CalFresh-SSA and the four CalFresh outreach contractors operate at multiple sites and have been successful in increasing enrollment. OC has two large food banks that operate various programs and reach over 250 food pantries. CNAP's efforts to support Summer Meals (SM) resulted in an increase in the number of sites (2007=55 vs. 2015=162) and more promotional activities. The CNAP's "How to Get Food Help in OC" materials have been effective in helping train staff and inform the community about available food resources. Efforts are now underway to support programs targeting older adults and WIC. The OC Food Access Coalition takes the lead in hunger advocacy and legislative issues. Partner activities primarily focus on their program mandates, quantity of food and improved participation rates. SNAP-Ed funds are needed to maintain the CNAP and coordinating efforts, provide complementary nutrition education at the food pantries and assist with PSE efforts that will increase the number of healthy options and improve the use of items available at these food assistance sites.

2) Live and Pray: A variety of independent partners are working to address health needs in the county, including CBOs, coalitions, cities and non-profit hospitals. Many groups focus on specific geographic areas and/or target audiences. For example, partners actively working on obesity issues include Kaiser/YMCA in Anaheim, Cal Endowment/Building Healthy Communities in Santa Ana and St. Jude Medical Center/collaboratives in various north OC cities. Their activities have included a variety of nutrition, physical activity and PSE projects. Obesity efforts in south OC have decreased substantially as the local hospital previously leading many projects elected to transfer their energies into mental health issues. To help coordinate efforts, garner community support and mentor SNAP-Ed eligible individuals, the LHD has convened the "Parents for Healthy Neighborhoods" workgroup for almost 10 years and has formally recognized over 80 Champion Moms for their achievements. Partners will continue to focus on their targeted areas and will participate in the "Parents" workgroup as they are able. SNAP-Ed funds are needed to maintain the "Parent" workgroup and provide nutrition education throughout the county, especially the areas not reached by partners.

Adults are a difficult audience to reach, as many of them have limited time for classes/activities and are busy working and taking care of families. OC-LIAs are needed to bring nutrition education and physical activity (PA) promotion to shelters, public housing complexes and other neighborhood sites to help address time and transportation barriers. The Champion Moms and trained peer educators help the OC-LIAs sustain SNAP-Ed and PSE efforts in the community. In addition, few partners are targeting faith-based sites. OC-LIAs started expanding services to these sites in FFY14. These initial efforts have been successful and have provided valuable experience and evaluation results that will be used as the foundation for future education and PSE activities.

3) Learn: OC has a great many partners serving low-income families with very young children, ages 0-4 years, and school-age youth, ages 5-17 years. The youth are reached through early childhood (EC) and school/after school (S/AS) sites. Approximately half of the SNAP-Ed funds awarded to OC are allocated to services reaching youth and most activities are conducted by subgrantees.

Early childhood (EC)**:** The USDA, as well as other federal, state and local programs target families with children 0-4 years of age. OC has four agencies implementing the Supplemental Nutrition Program for Women, Infants and Children (WIC) that reach over 95,000 participants. WIC participation has declined by nearly 25,000 individuals since 2011 due to many factors including a decrease in birth rates. Head Start participation has remained relatively steady at around ~4,500 participants. State preschools, affiliated with schools and CBOs, reach a large number of youth. These programs have strong administrative, nutrition and food components. The Children and Families Commission is OC's local agency that administers State Prop. 10 funding and it supports projects that reach young children of all incomes. A consultant funded through the Commission has been an excellent physical activity supporter and recently assisted the LHD with a playground stencil training. The Children's Home Society (CHS) is OC's primary service and referral agency for childcare and has various trainings and materials in multiple languages, including Vietnamese. The Child & Adult Care Food Program (CACFP) in OC reaches both school-based and home-based (HB) daycare providers. Many of the HB providers are administered through the Chicano Federation (CF) of San Diego. CF and CHS offer some support and trainings to these HB providers but additional efforts are needed. Others reaching this age group include UC Cooperative Extension, medical providers, Help Me Grow, the OC Breastfeeding Coalition and more.

SNAP-Ed funds are needed to fill gaps in this web of services. The LHD has convened an EC workgroup for over three years, which has resulted in improved communication and training opportunities. The LHD has and should continue to support the HB providers, especially those who primarily speak Spanish and serve low-income working families. These providers need on-site technical assistance with nutrition education and meal planning. The working parents may have less time to access health-related resources and the children need school-readiness skills. The LHD has linked extensively with school-based EC sites to bring nutrition curricula to the teachers and enhance the nutrition components of efforts being funded and conducted by the Commission, schools, non-profit hospitals and others. A few EC partners are formally implementing PSE changes but most are open to the concept. The LHD has been using the CHOICE

assessment tool and has made some progress. The HB's PSE efforts are highly site specific and sustainable. Many school-based efforts are targeting non-food rewards/healthy celebrations. Policies in this area have been created but additional efforts are needed to reach site staff and SNAP-Ed families.

School/After School (S/AS): As with EC, a significant number of partners are working with school-age youth. Many programs elect to target S/AS sites since youth are in their formative years but also because they are easy to reach in large numbers, on a consistent basis, and at multiple locations. In addition to core education, S/AS sites are asked to address and integrate into their services a variety of topics including nutrition, physical activity, prevention of alcohol, drug and tobacco use, teen pregnancy, gang violence, mental health, etc. S/AS sites each have different priorities, interests and abilities that need to be respected by OC-LIAs.

Partners include 28 school districts, each offering education, meal programs, extracurricular activities, parent groups and facilities/space. After school care may be provided by the district or by outside agencies, such as the Boys and Girls Clubs, YMCA and THINK Together. Another CBO, KidHealthy, is funded by private partners and schools and reaches youth in various ways. Their *Padres en Acción* program uses parent volunteers to enhance playground activities and their *Cooking Up Change* high school program helps teens improve school meals and has produced national award-winning teams. Some after school sites are affiliated with the School Meals program, others connect with CACFP and the Second Harvest Food Bank's Kids Café program while others could benefit from services. OC is fortunate to have a growing number of school pantry, Summer Meals and other programs addressing food security at S/AS sites. The OC Food Access Coalition (OCFAC) is coordinating a Farm to School workgroup and will be releasing a toolkit in the near future. School gardens were the focus of past California Department of Education efforts and while few were sustainable, there is some renewed local interest.

SNAP-Ed funding is needed to ensure nutrition education and PA promotion is coordinated and more fully integrated into S/AS classrooms, cafeterias, playgrounds, etc., especially at sites not reached by other partners. SNAP-Ed has supported a variety of S/AS efforts in OC for over 15 years. A substantial number of activities have centered on Harvest of the Month (HOTM) resources. Efforts have included teacher trainings, integration of HOTM into the classroom, taste tests, parent newsletters and more. In FFY16, almost 45,000 HOTM workbooks were shared with youth K-6th grade. While Power Play!, Serving Up MyPlate and other curricula are offered, HOTM efforts remain strong despite limited evaluation results. The LHD should continue to provide nutrition education, training and technical assistance to enhance classroom learning but refine current activities. In FFY16, the requirement to provide the curricula as intended resulted in a decrease in the number of direct education contacts, as many teachers were unable to devote limited classroom time to 5-36 lessons. In the future, the LHD will reach fewer youth but each student will receive more in-depth education. PSE efforts are being conducted by the LHD and partners. The LHD should continue to connect with OCFAC on Farm to School and Smarter Lunchroom efforts and support but not lead School Wellness Policy groups and school food service efforts promoting the new meal guidelines. The LHD is currently focusing on various PSE efforts including non-food rewards/healthy celebrations, joint use and structured physical activity. Additional coordination plus youth/parent input would be beneficial.

4) Work: Few partners are addressing worksite wellness and the LHD is the only known partner specifically addressing the needs of low-wage earners. Some programs and materials are available from local chapters of the American Heart Association and American Cancer Society, through private consultants/businesses and at large companies. SNAP-Ed funds are needed to reach low-income working adults. Since FFY08, the LHD has linked with over 50 worksites and in FFY15, successfully targeted 22 sites. Northgate Markets have been key partners and the LHD has supported their *Viva la Salud* efforts. OC is a tourist destination and several hotels have partnered with the LHD to bring wellness activities to the housekeeping and other staff. Nutrition, physical activity and food security messages are less familiar to businesses and have been greatly appreciated by managers and employees. Services in Spanish and materials in Vietnamese have been particularly well received. Due to time constraints, it is difficult to provide direct education at these sites. Promoting the program and qualifying sites can be a challenge. The new increase in the minimum wage may adversely affect the number of eligible sites. Due to changes in LHD staffing, FFY16 efforts will be adjusted. SNAP-Ed funds are needed to continue nutrition education and PSE efforts at worksites but activities may need to decrease in FFY17-19.

5) Play: OC is fortunate to have a variety of parks, recreational facilities, beaches and physical activity (PA) programs. Relatively good weather also makes it easier to enjoy outdoor activities. Partners include State, County and city parks and recreation departments, private fitness and PA instructional businesses, and a significant number of community organizations. These services reach individuals of all ages. Pedestrian/bike injuries and drowning/immersion incidents are of concern to all OC cities. Many partners including schools, CBOs such as YMCAs, and private groups, operate youth PA programs. There are club/traveling teams in various sports and widespread recreational teams, especially in soccer with OC having ~30 American Youth Soccer Organization (AYSO) regions, each with teams for various age levels. Some CBOs specifically target low-income youth, such as The Wooden Floor, reaching youth with dance in Santa Ana, or the GOALS program, reaching youth with hockey and expansive sports facilities in Anaheim. Local professional and other sports teams support various community efforts. SNAP-Ed eligible families can take advantage of some of these PA resources but barriers may include cost, transportation and limited time. Few County park facilities are located in SNAP-Ed qualifying areas. Despite strong efforts by many cities, it may be may be more difficult to access parks, fields, courts, pools & other facilities in some neighborhoods. The City of San Clemente's "Fun on the Run" van brings PA equipment and staff to such neighborhoods and is a model for others. The City of Santa Ana and others support Safe Routes to School (SRTS) and similar programs. In FFY15, over 10 parks served as Summer Meals program sites but mobile vendors that offer a preponderance of less healthy food choices also frequent many parks and pools. Additionally, there are relatively few youth and teen centers so shopping malls are a place where both youth and families spend free time.

SNAP-Ed funds are needed to more fully integrate nutrition education and PSE efforts into places where low-income people play. In the past, only limited efforts were dedicated to these sites. The LHD should continue to work with partners to compile information on PA opportunities that can be shared in classes, at booths, etc. and also promote the "MyHealthOC" online PA resource site. The LHD needs to expand its efforts with cities and CBOs to improve indirect & direct

education, food security and PSE activities. Current PSE efforts related to SRTS also need to be expanded to help encourage walking in more neighborhoods. Other PSE efforts are needed to address various barriers and improve the use of recreational resources.

6) Shop: Data show the vast majority of low-income families in OC have good access to food stores but high obesity rates indicate families should be encouraged to choose healthier options more often. The stores range from small independent markets to large warehouse chains. Another source of food identified through CX^3 assessments are neighborhood grocery trucks that allow families to purchase food close to home and sometimes on credit. OC has over 750 stores that accept CalFresh, ~335 stores that accept WIC, a net decrease due to new WIC guidelines, and there are 35 certified Farmers' Markets (FM). Ten FMs accept CalFresh but only five are in qualifying census tracts or block groups. A match program was initiated at a Santa Ana FM in FFY15 and an Anaheim FM plans to start a match program in the summer of 2016. Based on the limited information available, CalFresh EBT use at FMs is relatively low. Nine FMs accept WIC but redemption rate is ~40%. The Seniors FM Nutrition Program in OC receives 1,750 packets, a very low number given the eligible population. The redemption rate is good but the overall impact is marginal. Based on local input, the cost and quality of food at the FMs is not significantly different from that found in nearby stores. WIC and the OC Food Access Coalition will continue to lead the efforts related to FMs and LHD will play a supporting role. Over the years, the LHD has worked with over 80 grocery stores, including all the local Northgate Markets, and is currently targeting over 60 stores. SNAP-Ed funds are needed to bring nutrition education, healthy food merchandising, technical assistance and PSE efforts to store managers, especially those at small, independent markets. Shoppers have been very receptive to nutrition education. Local evaluation results indicate improvements are needed in merchandising efforts and the availability of healthier options in smaller stores.

5. Community Change Goals

Three collaborative efforts led by HCA-Public Health Services (PHS) assessed the overall health needs in Orange County. Each of the three efforts concluded that obesity, nutrition and physical activity were priority areas. The resultant reports and resources from these projects provide the basis for OC-LIA's overarching community change goals. OC-LIA efforts will be integrated into these larger community goals and aligned with the USDA SNAP-Ed Guidance USDA-WRO Evaluation Framework.

1) Orange County Health Improvement Plan (HIP) – 2014-2016: "*Orange County's Healthier Together*" is a community-wide initiative that connects public and private resources within the public health system to improve health for all residents in Orange County. The initiative began in late 2012 when HCA-PHS formed an advisory group comprised of 21 partner organizations, including health care providers, academic institutions, collaboratives, community-based organizations and governmental agencies. Upper-level management from HCA and CCOC participated in the process. Various methods were used to gather input that was

then used to create the HIP. Four priority areas were identified: 1) Infant & Child Health, 2) Older Adult Health, 3) Obesity & Diabetes and 4) Behavioral Health. OC-LIAs will contribute to all the areas and provide significant support for obesity-related efforts. The obesity goal has one objective in the plan: *1.1 - By 2020, increase the proportion of children and adolescents who are in a healthy weight category and reduce disparities in subgroups with lower rates of healthy weight.* The strategies listed primarily focus on school-based activities but also include environmental and community efforts. The LHD will assist with school wellness plans, Safe Routes to Schools (SRTS), nutrition education, physical activity promotion, youth engagement projects and links to community partners, such as Champion Moms. (http://ochealthinfo.com/about/admin/pubs/ochealthimprovementplan)

2) Public Health Services Strategic Plan 2014-2016: This plan incorporates components from the HIP, HCA Business Plan and PHS Quality Improvement Plan. Reference documents included the "Let's Get Healthy California" and the CDC's Winnable Battles reports. Five focus areas were identified: 1) Optimal Birth Outcomes, 2) Chronic Disease Prevention, 3) Chronic Disease Management, 4) Reproductive & Sexual Health and 5) Food Safety. OC-LIAs will offer services that contribute to all the areas and significant support for chronic disease prevention efforts. Objectives directly linked to OC-LIAs include 2.2: *By 2017, increase the proportion of children, adolescents and adults eating the recommended amount of fruits and vegetables* and 2.3: *By 2017, increase the proportion of residents engaging in physical activity by 3%*. OC-LIAs will have many direct education, indirect education and PSE efforts addressing these objectives. http://www.cdph.ca.gov/data/informatics/Documents/PHS%20Strategic%20Plan%20FINAL%202014-05-22.pdf

3) MyHealthOC.org – "*Eat. Play. Breathe.*": The "*Orange County's Healthier Together"* initiative in coordination with HCA launched a website in 2014. The goal of the site is to "*help residents in Orange County make three small changes in their daily lives that can have a significant impact on overall health and quality of life – eat fresh, play some way, and breathe smoke-free, every day.*" OC-LIAs can support the "eat" and "play" components, with special emphasis on serving the needs of the low-income community. The website and resources can be shared during classes, at events and as part of PSE efforts. (http://myhealthoc.org/)

HCA-PHS will be monitoring progress towards meeting these goals and updating the reports. It will take multiple approaches and funding streams to achieve progress and OC-LIAs will be one of the many groups working to implement complementary activities to support these goals. The OC-LIAs will advance the OC as well as the USDA and State SNAP-Ed priorities by 1) focusing on low-income individuals, especially women and children, 2) providing multi-level education accompanied by environmental supports and 3) using strategies proven to be effective in making change. Evaluation results obtained through EARS, RE-AIM and other reports will be shared with HCA-PHS to help track progress and revise local plans.

As in FFY16, OC-LIAs have again defined local objectives using the USDA Western Region's SNAP-Ed Evaluation Framework (April 2014) – places where people **eat**, **live**, **learn**, **work**, **play** and **shop**. Organizing the IWP around these six identified categories helps ensure OC-LIAs are reaching SNAP-Ed individuals at all levels and aligning with evaluation and other reporting requirements. From the Framework's list of 51 Outcome Indicators, OC-LIAs will focus on 13 indicators, 8 of the 14 priority indicators identified in FFY15, (designated with an asterisk), plus 5 additional indicators:

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Orange County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Individual Level: MT1 - MyPlate Behaviors*, MT2 - Shopping Behaviors*, MT3 - Physical Activity Behaviors*, LT2 - Fruit & Vegetables*, LT3 - Whole Grain and LT6 - Food Security*.

Environmental Level: ST4 - Opportunity Identification*, ST5 - Local Champions, MT4 - Nutrition Supports adopted*, MT5 - Physical Activity Supports adopted*, MT6 - Marketing/Messaging, LT9: Nutrition Supports implementation and LT10 Physical Activity Program implementation.

Sector Level: MT8: Local Government*

The environmental level changes need to be primarily determined by the sites and SNAP-Ed audience, and not OC-LIAs and administrative partners, to help ensure meaningful, sustainable improvements. Each PSE targeted site is starting at a different place in the process and has unique interests and individuals willing to make and sustain positive changes.

Eat: Local Objective #1 – *By September 30, 2019, SNAP-Ed activities at sites where people **eat or obtain food at no cost** will reach 3,980 SNAP-Ed eligible individuals with direct education, 66,000 individuals with indirect education plus 2.106M with media/messaging and 9 sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating/physical activity reaching over 900 individuals.* The USDA's "eat" definition was expanded to include not only places where people eat, e.g. restaurants, congregate meal sites, but also places where people obtain food at no cost, e.g. food assistance programs. This broader definition allows OC-LIAs to more clearly address efforts with USDA-FNS partners and food security issues. Food pantries, CalFresh offices, WIC clinics, CSFP sites and many other USDA-FNS and emergency food sites are included in this objective. LHD & CCOC will conduct activities and the County Nutrition Action Plan workgroup will lead coordinating efforts for objective #1.

Live: Local Objective #2 – *By September 30, 2019, SNAP-Ed activities at sites where people **live and pray** will reach 7,500 SNAP-Ed eligible individuals with direct education, 10,725 individuals with indirect education plus 600 with media/messaging and 16 sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating/physical activity reaching over 1,600 individuals.* Target sites will include public housing, shelters, places of worship, community organizations, transitional living facilities, apartment complexes, senior centers, resource centers & related sites. LHD & CCOC will conduct activities in this objective & primarily target adults (18-59 years) and older adults (60 years and over). Champion Mom & peer education efforts will be integrated into this section. The *Parents for Healthy Neighborhoods* workgroup will help with coordination efforts.

Learn: Local Objective #3 – *By September 30, 2019, SNAP-Ed activities at sites where people **learn** will reach 36,129 SNAP-Ed eligible preschoolers and school-age youth with direct education, 64,980 individuals with indirect education plus 3,000 with media/messaging and 100 sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating/physical activity reaching over 13,200 individuals.* Target sites will include home-based and center-based child care facilities, preschools, schools and after school programs. LHD activities in this objective will target young children (birth

to 4 years) and school age youth (5-17 years). The Early Childhood workgroup will help with coordination efforts. LHD will participate in district, school and site meetings, such as Wellness Councils, to assist with efforts.

Work: Local Objective #4 – *By September 30, 2019, SNAP-Ed activities at sites where people **work** will reach 90 SNAP-Ed eligible individuals with direct education, 2,250 individuals with indirect education plus 2,250 with media/messaging and 10 sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating/physical activity reaching over 1,000 individuals.* Target sites will include worksites with low-wage workers, job training programs and TANF worksites. All sites will be qualified using the NEOPB Worksite Qualification Form or other approved methods. LHD staff will conduct the activities and participate in the worksites' Wellness Team and/or safety meetings to help coordinate efforts.

Play: Local Objective #5 – *By September 30, 2019, SNAP-Ed activities at sites where people **play** will reach 450 SNAP-Ed eligible individuals with direct education, 3,300 individuals with indirect education plus 1,500 with media/messaging and 10 sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating/physical activity reaching over 1,000 individuals.* Target sites will include parks, recreation departments, YMCAs, youth programs and sites participating in Safe Routes to School projects. LHD will conduct the activities and link with new partners to help coordinate the efforts.

Shop: Local Objective #6 – *By September 30, 2019, SNAP-Ed activities at sites where people **shop** will reach 90 SNAP-Ed eligible individuals with direct education, 22,500 individuals with indirect education plus 2.2 million with media/messaging and 10 sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating/physical activity reaching over 1,000 individuals.* Target sites will include small, medium & large grocery stores, corner markets & convenience food stores. LHD will conduct the activities and meet with various partners influencing the retail environment to help coordinate efforts.

The OC-LIA site list was revised significantly but remains extensive, with over 1,500 identified sites that align with the local objectives. The list has been compiled and refined for over 15 years. It is beneficial to start FFY17 with this broad site list to accommodate current and future activities, guide subgrantees in targeting sites and avoid delays associated with adding new sites. Additional efforts will be made from FFY17 to 19 to remove sites not interested in receiving SNAP-Ed services.

6. **Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]**

Orange County has a significant number of collaboratives, coalitions, task forces and other groups addressing nutrition-related issues. The LIAs will promote SNAP-Ed services and activities by connecting with other agencies, such as the County Welfare Department (Orange County Social Services Agency). The LHD will convene three workgroups (CNAP, Parents and EC), assist with one collaborative group (NuPAC) and both LHD and CCOC will attend other meetings to enhance coordination. The activities pursued through these partnerships will support the community change goals and the FFY17-19 Work Plan.

CNAP: The CNAP workgroup has been meeting quarterly for over seven years and is on its fourth 2-year action plan. The group primarily consists of the USDA-Food and Nutrition Services (FNS) funded partners and select non-funded nutrition partners. FNS partners include CalFresh, CalFresh Outreach (four agencies), SNAP-Ed (two agencies plus subgrantees), WIC (four agencies), Head Start and the two major food banks serving the area that operate CSFP, T/EFAP, Summer Meals and other food assistance programs. Non-funded partners include the OC Food Access Coalition, 2-1-1 OC, Children's Home Society and UC Cooperative Extension. The action plan is organized around three primary goals: 1) Increase participation in all FNS programs, 2) Ensure coordination of nutrition education efforts and 3) Share the CNAP plan with others. The activities to achieve these goals change to match emerging needs. CNAP meetings have been well attended and the feedback has been very positive. The group jointly created the "How to Get Food Help in Orange County" presentation and handout, which continues to help CNAP partners train staff, promote available food programs and track participation rates. The current areas identified as needing extra assistance include WIC and older adults. In the past, CNAP members focused on Summer Meals and were able to greatly improve the number of sites, promotional efforts and complementary nutrition education. Members also report on their nutrition education efforts and materials to ensure coordinated core messaging and efficient use of available resources. The plan is shared with local and statewide partners; efforts are underway to post the plan online. The LHD will continue to convene CNAP meetings quarterly to exchange information, track progress and improve local coordination. CCOC will continue to attend meetings. CNAP efforts will help inform activities in the "Eat" section of the IWP.

Parents for Healthy Neighborhoods (Parents): The Parents workgroup has met for over ten years. Members include the LHD and subgrantees, Community Action Partnership of OC, Kid Healthy/Padres en Acción, Head Start, American Heart Association and the Dairy Council of California. The group helps identify, recognize, train and mentor Champion Moms and parent leaders. In November 2015, the group held a recognition event and workshop attended by 70 parent leaders, including over 25 Champion Moms, and multiple community partners. The LHD will continue to convene workgroup meetings at least four times a year. The Parents workgroup will help inform activities in the "Live" section of the IWP and enhance the other IWP objectives.

Early Childhood (EC): The EC workgroup has met routinely for over three years. Members include the LHD and subgrantees, UC Cooperative Extension, Children & Families Commission, WIC, Head Start and the Children's Home Society. The group shares resources and coordinates training opportunities. The most recent meeting highlighted updates in CACFP and ways to use the LHD's playground stencil. The LHD will continue convene EC group meetings at least two times a year. EC group efforts will help inform activities in the "Learn" section of the IWP.

Nutrition and Physical Activity Collaborative (NuPAC): A countywide collaborative addressing obesity issues has been in existence for over 15 years. In 2005, with the assistance of SNAP-Ed Regional Network (RN) funding, the group was reorganized into NuPAC. RN helped strengthen and maintain the group. With the end of RN funds in 2013, coordinating efforts were transferred to HCA-Nutrition Services. Over 200 individuals are on the listserv and 30-60 people routinely attend membership meetings. Quarterly meetings will continue and OC-LIAs will assist in the planning of two meetings and attend all. NuPAC will help OC-LIAs share information on SNAP-Ed activities and connect with non-SNAP-Ed partners able to assist with PSE efforts.

Partner efforts: OC has an extensive number of community partners working on health-related topics that could potentially link to nutrition and physical activity efforts. OC-LIAs may attend a variety of partner meetings to ensure good coordination. Partner groups include the OC Breastfeeding Coalition, OC Food Access Coalition, Smarter Lunchroom & Farm to School Task Forces, the local chapter of the American Academy of Pediatrics' food security committee and the Health Improvement Plan or PH Strategic Planning workgroups.

7. **Key Messages**

X	Food Safety	X	Physical Activity	X	Fiber-Rich Foods
X	Whole Grains	X	My Plate-Healthy Eating Plan	X	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
X	Fruits & Vegetables	X	Limit Added Sugars or Caloric Sweeteners	X	Other *(specify):* Label Reading
X	Fats and Oils	X	Food Shopping/ Preparation	X	Other *(specify)*: Online resources
X	Lean Meat & Beans				
X	Sodium & Potassium				
X	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All the materials, resources and curricula used will be from the: 1) USDA SNAP-Ed Connection website, which includes the recently updated SNAP-Ed Intervention Toolkit, 2) FFY17-19 USDA-approved California SNAP-Ed Integrated Curricula List, compiled by State Implementing Agencies, or 3) CDPH Nutrition Education Obesity Prevention Branch (NEOPB) Approved Resource List. OC-LIAs need to be able to offer a variety of educational services that meet the needs of a diverse low-income community and varying skill levels, from preschoolers to older adults.

OC-LIAs reviewed the approved materials and selected options that have been effective in the past and best meet the needs of the target audiences, while considering the time constraints of the sites and preferences of the subgrantees and partners. Materials are needed in the three threshold languages for OC: English, Spanish and Vietnamese. Farsi materials may be needed in the future. Based on past experience, adults are most receptive to a series of 1-5 lessons and youth/teachers to a series of 1-8 lessons. For direct education targeting adults and older adults, CCOC will primarily use Dairy Council and USDA materials. The LHD will use the Nutrition 5-class series curriculum that is built around USDA materials, as it is familiar to staff and has produced excellent outcome

evaluation results in the past. Direct education targeting youth will use curricula specific to the different age groups and build on past lessons. To help ensure consistency when presenting indirect education at classes and events, the LHD uses outlines that highlight key messages, specifically linked the USDA 10 tip sheets. Efforts to promote the use of online resources will primarily be supported by materials on the ChooseMyPlate, Champions for Change and EatFresh websites. Handouts, recipes, SuperTracker, videos on YouTube and other links will be utilized. Food demonstrations and taste tests will be integrated into lessons when possible.

While OC-LIAs will make every effort to provide the curricula as intended, experience gained in FFY16 highlights the need to add MyPlate information, updated messages and evaluation components to some of the curricula. For example, some Dairy Council, the Color Me Healthy and the Farm to PreK curricula provide valuable information but do not clearly link the food groups to MyPlate. Two of the LHD subgrantees have strongly expressed their preference to continue using Harvest of the Month (HOTM) materials. Past evaluations related to HOTM have shown marginal outcomes but the new curriculum is not yet available and may produce better results. The curricula currently approved for use with high school students has not been well received in FFY16. Single-session brief lessons are needed to meet time limitations at several sites, including CalFresh offices, worksites and some schools. NEOPB's soon to be released "Healthy Eating and Active Living" Community Toolkit may help meet this need.

Additional materials not on the approved list but highly useful will be submitted to the State for consideration and possible approval. For example, OC-LIAs would like to use the "How to Get Food Help in OC" materials, developed by the OC CNAP workgroup, to address food security. OC-LIAs will work with the State to refine the list of educational items used as new materials and curricula become available over the course of the 3-year IWP.

9. **Intervention and Evaluation Plan Narrative Summary**

Overview: OC has two implementing agencies: Catholic Charities of Orange County (CCOC) and the LHD - Health Care Agency (HCA). In FFY17, CCOC has a budget of ~$90K and funding will decline at ~9% per year with allocation decisions for CCOC made on an annual basis. HCA 's FFY17 budget is ~$3.58M, a decrease of over $400K from FFY16. Funding levels are projected to further decrease in FFY18 &19. In FFY17, HCA will be assisted by 6 subgrantees receiving 1-year extensions to their initial 2014-2016 contracts. In FFY18 &19, approximately half of the LHD funds will continue to be awarded to subgrantees selected through a new competitive bid process.

Services in the 3-year IWP are based on best estimates and may need to be revised as more information becomes available. OC's activities and budget allocations will approximate the balanced approach referenced in the USDA FFY16 SNAP-Ed Guidance with 40-50% direct education, 30-40% indirect education and PSE efforts and 20% evaluation and administration. The OC division will follow a 40% - 40% - 20% split to allow for more emphasis on PSE efforts. The total numbers reached will exceed the minimum USDA guideline of $100/SNAP-Ed eligible participant. Based on rounded projected funding levels, the table below summarizes the goals for the activities/budget allocations and the target numbers to reach for OC LIAs.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Orange County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

	FFY17	FFY18 & 19
Estimated funding	$3.7M	$3.6M
Activity/Budget Allocations		
Direct Ed funding (40%)	$1.48M	$1.44M
Indirect Ed & PSE funding (40%)	$1.48M	$1.44M
Evaluation & Admin funding (20%)	$740K	$720K
Minimum target numbers to reach		
Minimum # of individuals ($100/ind)	37,000	36,000
# reached with Direct Ed (40%)	14,800	14,400
# reached with Indirect Ed & PSE (60%)	22,200	21,600
# reached with Eval & Admin (0%)	0	0

The direct education numbers reflect unduplicated individuals and align well with the OC-LIAs' projections. The indirect education and PSE numbers are duplicated individuals and reflect the number of messages, materials and PSE changes reaching the SNAP-Ed eligible audience. OC-LIAs expect to greatly exceed the minimum indirect ed/PSE numbers as the IWP includes displays, booths, events, grocery store merchandising, various PSEs and much more. To obtain a more accurate representation of the indirect efforts, the media/messaging numbers are listed separately in each objective. CCOC will focus on adults and older adults and expand their evaluation efforts. The LHD will reach individuals of all ages and coordinate evaluation and administrative activities. Almost half the efforts will target youth and be conducted by LHD subgrantees.

Work Plan format: As in FFY16, the OC IWP objectives reflect the 6 categories outlined in the USDA WRO's SNAP-Ed Evaluation Framework: places where people **eat, live, learn, work, play** & **shop**. The activities within each objective follow the same general sequence. Each objective begins with a coordinating group or multi-partner meeting to help ensure the OC-LIAs are connecting with others working in the designated areas. Sites targeted for SNAP-Ed services will be assessed then offered trainings and technical assistance. Depending on the site's needs and interests, OC-LIAs will first offer indirect education and messaging followed by direct education and then PSE activities, for those willing to make a larger commitment. The topics listed for PSE strategies are based on the FFY15 RE-AIM Report options. The USDA outcome indicators specific to the objective will be noted in the narrative. Formal and informal evaluation will be conducted to promote continuous quality improvement. This multi-sector, multi-level approach helps ensure OC-LIA efforts are reaching a large percentage of the SNAP-Ed eligible population.

Outcomes: The 13 priority USDA Outcome Indicators identified in section 5 "Community Change Goals", as well as the five State level behavioral outcomes will guide the OC-LIA activities. Past efforts have focused heavily on fruit and vegetable consumption and this priority will continue. Future efforts will also focus on

increasing whole grains and physical activity, decreasing sugar and sodium consumption and improving food security. In addition, OC-LIAs will build on past efforts to increase the use of online resources, which is now more achievable due to the increased availability of smart phones.

Progression: Services will evolve from FFY17 to 19 in a variety of ways. The decline in total funding necessitates a reduction in some activities. To help minimize the impact, the OC-LIAs will employ several strategies that include the following: 1) *Reduced costs:* Efforts will be made to promote more online resources to help decrease printing and storage costs. Lending programs will be expanded to help preserve limited resources, increase their use and minimize new purchases, e.g. expanding school and community library lending programs will allow for the sharing of nutrition education teaching tools, such as food models, and PA promotional items, such as pedometers. OC-LIAs will continue to take advantage of trained teachers, peer educators, Champion Moms and other partners to maintain or expand services. 2) *Improved targeting of services:* Allocation of services will be based on need, potential impact of SNAP-Ed activities and numbers reached. Services at shelters, food assistance programs and home-based daycares will be maintained in order to reach families with the greatest need for food and nutrition education. Preference may be given to smaller events that allow for more concentrated education. Trained teachers providing curricula as intended will be given preference over others providing indirect education. PSE efforts that directly reach the SNAP-Ed audience and are sustainable will be pursued before broader, less defined efforts. 3) *Improved quality of services:* A variety of evaluation results have been and will continue to be used to identify activities to discontinue, revise, maintain or expand.

Focus: The OC-LIAs will focus on "teachable moments" when SNAP-Ed eligible individuals are more open to nutrition education, such as when applying for CalFresh, obtaining food from a pantry or shopping for meals. Core nutrition topics include: MyPlate, meal planning, homemade meals and snacks, fruits/vegetables, label reading, portion sizes, science-based online resources and food security. Additional efforts are needed to strengthen physical activity promotion. The targeted sites and SNAP-Ed audience, and not the OC-LIAs, will identify the PSE topics to ensure the changes are appropriate and sustainable. The PSE sites targeted in FFY16 are still in the process of implementing changes. Tentatively, PSE sites will increase in the Eat, Live, Play and Shop areas and be maintained or gradually increase in the Learn and Work areas, to allow for more focused activities. Champion Moms, Champion Medical Providers, parent leaders, youth engagement teens and community partners will assist with the PSE efforts.

Budget: The narrative indicates the approximate percent of the budget allocated per objective and is only included for general planning purposes and subject to change. The OC-LIAs will depend on the SIAs for cookbooks, NERI and other materials and will coordinate with partners to obtain in-kind items and services when possible.

1) Eat – SNAP-Ed services conducted at sites where people eat or obtain food at no cost; *PSE:* *All + Healthy Food & Beverage Standards;* *Outcomes:* *All + emphasis on LT6-Food Security, MT8-Local Government,* *Approximate % of budget*: ~11%

The USDA Framework mentions restaurants, mobile vending and congregate meal sites as places where people go to "eat". OC-LIAs will expand the "Eat" section of the IWP to include sites where people go to eat or obtain food at no cost, to clearly target individuals in need of food. Activities associated with food

assistance programs will be addressed in this section; sites where people go to purchase foods will be addressed in the "Shop" section. This definition allows OC-LIAs to highlight their work with USDA-FNS partners, CalFresh offices & the County Nutrition Action Plan members. Targeted sites will include CalFresh offices and outreach locations and over 250 pantries distributing foods from programs such as CACFP, Kids Café, T/EFAP, CSFP as well as grocery rescue programs. In FFY16, 17 school pantry sites were established and services will continue at these priority locations. The CNAP workgroup will function as the coordinating group for the "Eat" section. The CNAP members developed "How to Get Food Help in OC" materials that have been shared widely and found to be highly effective in helping both staff and families understand the various food assistance programs available. In addition, updating the "Food Help" materials annually enables CNAP members to stay abreast of partner activities and track progress and participation rates. Based on local evaluation, broad indirect education efforts have been well received and effective in reaching the target audience. Activities to continue include displays at CalFresh offices, nutrition booths at pantry sites and distribution of materials to complement foods provided through governmental and non-profit programs. Materials used will include the USDA 10 tip sheets and recipes from approved sources, with progressively more use of online resources. OC-LIAs also have been successful in providing classes in waiting rooms at CalFresh offices, CalFresh outreach workshops and other food assistance sites. These SNAP-Ed eligible individuals will be provided with direct ed, as much as possible, through small group classes, each 15-30 minutes using single session lessons from the Dairy Council, the Nutrition 5-Class series or approved alternatives. The numbers reached at CalFresh sites may decline as more people apply for services online and not on site. Education at congregate meal sites for older adults will continue and public health nurses in APHNS/SHOPP will lead the efforts. The full series of nutrition classes will be given when possible.

Past PSE efforts aimed at fast food restaurants, catering trucks, push carts and vending machines did not yield significant results. New PSE efforts targeting two food pantries were initiated in FFY16 and preliminary feedback is extremely positive. The CX^3 food pantry tool and a locally developed survey have helped identify client needs and preferences. The results will be shared with pantry donors to help increase the availability and use of healthier food options. The number of food pantry sites targeted for PSE changes will increase from FFY17 to 19. PSE efforts to expand the use of nutrition websites, especially through smart phones and at CalFresh office resource rooms, have been more challenging than anticipated but will continue.

2) Live – SNAP-Ed services conducted at sites where people live and pray; ***PSE:*** *All + Healthy Food & Beverage Standards;* ***Outcomes:*** *All + emphasis on ST5 – Champions,* ***Approximate % of budget****: ~18%*

OC-LIAs will target a variety of sites within the low-income community including shelters, public housing complexes, family resource centers, libraries and faith-based sites. The majority of activities will reach adults and older adults. Parents reached at early childhood centers and schools will also be included in the "Live" objective. In the FFY16 IWP, activities targeting the community and faith-based sites were separated. In the FFY17-19 IWP, the activities will be combined. The coordinating group for the "Live" section will be the "Parents for Healthy Neighborhoods" (Parents) workgroup, which has been active for over 10 years. This group has been effective in bringing partners together plus identifying and mentoring Champion Moms and parent leaders. OC-LIAs will also support the Nutrition and Physical Activity Collaborative (NuPAC) by attending the quarterly meetings and planning two meetings. NuPAC members may be able to assist with various PSE and Champion Mom efforts. OC-LIAs will assess the sites' needs and offer trainings/technical assistance. A formal peer educator

training program has been very successful and will continue. There are over 20 peer educators that have been trained and certified as able to give three nutrition lessons. The LHD usually observes, mentors and provides taste tests at the peer-led classes. In FFY17, CCOC will join the LHD in training peer educators. Additional trainings will be provided to the sites as needed.

A variety of indirect education activities will continue to be conducted including displays, booths, newsletters and classes, both brief and extended, as it has been difficult to obtain data cards and teach all lessons as intended per the curricula. To help ensure consistent messaging, the LHD will continue to use internal outlines, primarily based on the USDA 10 tip sheets. Additional efforts will be made to enhance the use of online resources. Single-session direct education lessons will be provided by both CCOC and the LHD and the series of lessons will only be provided by the LHD. Classes at women's and family shelters have been highly successful. Many adults, primarily mothers, have also been reached at apartment complexes, community centers, schools and churches. OC-LIAs will work to maintain or increase educational services to this high need, priority audience. The LHD will use the Nutrition 5-Class series to meet the Impact/Outcome Evaluation (IOE) requirements. Past IOE results have been very positive with 83-96% of the behavioral indicators analyzed showing statistically significant improvements. The LHD will try to maintain this high standard despite declining funds and new target audiences. In 4/2015, drug felons became eligible for CalFresh and the LHD expanded services to a large men's shelter. Both site staff and clients have been very receptive to the classes but it is unclear whether the men rotating through the shelter will be able to make behavioral changes. The FFY16 IOE results will help guide efforts in FFY17 and beyond. Some progress has been made with PSE efforts at faith-based sites but efforts at public housing, shelters, etc. have been more challenging. The number of sites targeted for PSE changes in FFY17 will decrease from the FFY16 levels to more practical levels and then gradually increase in FFY18 &19.

3) Learn – SNAP-Ed services conducted at sites where people learn; ***PSE:*** *All + Early Childhood, Healthy Schools, Local School Wellness Policies, Smarter Lunchrooms & Structured PA;* ***Outcomes****: All + emphasis on MT1-MyPlate, MT3-PA, LT2-Fruit/Vegetables, MT4 & 5, LT9 & 10 – Nutrition & PA supports adopted and implemented,* ***Approximate % of budget****: ~49%*

Activities in the "Learn" objective will be conducted by the LHD and focus on youth reached at early childhood care & education sites, schools and after school sites. Grouping the preschool and school-age efforts into one objective results in an extensive list of activities but helps improve coordination. In FFY17, almost half the budget will be dedicated to the "Learn" objective. The percentage may decrease slightly in FFY18 & 19 as more trained teachers and systems are established to help sustain efforts. Indirect education will target both the youth and their families. Direct education will target preschoolers and school-age youth while direct education to their parents and caregivers will be included in the "Live" objective. The majority of LHD direct education contacts will continue to be obtained from activities conducted by PreK & school staff trained by the LHD subgrantees – a train-the-trainer model. Additional efforts are needed to assist these teachers in providing the curricula as intended. In FFY16, a significant number of teachers were unable to give the full series of lessons, resulting in lower direct and higher indirect numbers. Harvest of the Month (HOTM) materials continue to be the preferred resource for the largest school-based subgrantees. HOTM materials will continue to be used for indirect education and staff will be transitioning to the new HOTM and other allowable curricula in FFY17 and beyond. The IWP will continue to distinguish between classes taught by SNAP-Ed staff vs. trained site staff, for assessment and evaluation purposes.

Early childhood care and education (EC): The LHD will continue to convene EC Workgroup meetings to ensure coordination with local non-SNAP-Ed partners, such as WIC, Head Start, UCCE, CHS and the Children and Families Commission. Services and PSE efforts will be provided at school, center and home-based child care/ed sites. Training and technical assistance will be expanded to better support site staff. Indirect education may include displays, tastes tests and select lessons from approved curricula. Direct education will be taught by LHD and/or site staff. Curricula have been identified but changes may be needed in the future as LHD and trained site staff learn more about providing the curricula as intended. The LHD's efforts to bring services to home-based (HB) daycare providers have been highly successful. These providers receive minimal outside support related to nutrition, and almost no resources in Spanish. They appreciate the trainings and technical assistance and many are eager and able to make PSE changes at their sites. The number of youth reached at these sites is relatively small but the impact is great. Many school-based EC efforts have been in place for over 10 years and will reach large numbers of youth. The CHOICE assessment has been useful in gathering information and guiding efforts at home-based sites but there have been some issues at school-based sites. Many initial assessments were done at the school district level, resulting in responses reflecting administrative views. More thorough assessments that include input from the SNAP-Ed audience would be helpful. All new sites should do the CHOICE assessment; continuing sites should repeat the assessment or use another tool specific to the site's PSE change. Earlier PSE efforts have focused on non-food rewards, menu changes and playground improvements. The number of sites targeted for PSE changes will gradually increase from FFY17 to 19. Sites will be followed for several years to ensure the PSE efforts are meaningful & sustained.

School/After School (S/AS): The LHD will provide educational services targeting school-age youth at over 100 S/AS sites throughout the county. The S/AS efforts vary greatly thus there will not be one formal coordinating group but SNAP-Ed staff will attend school and district level meetings. As with EC, training and technical assistance efforts will be enhanced to promote indirect education activities and help ensure teachers are better able to provide or support the entire direct education curricula. In FFY17, a new HOTM curriculum is planned to be released and teachers will need training on implementation. The *Serving Up MyPlate-Yummy* and other curricula will also be supported. In FFY16, a few *Yummy* kits were assembled and placed in school libraries for use by multiple teachers. Evaluation results will help track use of the materials and determine future needs. The nutrition workshop model, in which SNAP-Ed staff conducts lessons in a multi-purpose room and classrooms rotate through in an efficient manner, was not expanded in FFY16 as intended due to changes in staffing and other reasons. Additional attempts to model lessons for teachers may be tried again in FFY17. In FFY18 & 19, efforts will be made to enhance the direct education targeting 4th – 9th grade youth, to align with the mandated Physical Fitness Tests conducted in 5th, 7th and 9th grade and the required 9th grade health class. The provision of HOTM and other taste tests may need to be adjusted to help reduce costs. All subgrantees providing direct education will continue to conduct basic evaluation. Subgrantees receiving over $350K will again conduct IOE activities. The LHD will work to evaluate direct education efforts targeting both teens and youth using the NEOPB validated survey tools. In FFY16, initial teen efforts using the Drexel lessons were not well received and provisional approval was obtained to use a series of eight lessons developed over the years by Huntington Beach Union High School District (HBUHSD). Depending on FFY16 results, the LHD may submit the teen curricula for formal approval. The teen IOE results showed notable improvements from FFY14 to 15. The results from the youth IOE efforts were poor in FFY14 and 15. In FFY16, two IOE projects are evaluating the HOTM workbooks, a resource not allowable in FFY17. The LHD will make significant efforts to improve the youth direct education and corresponding IOE results.

Youth Engagement (YE) activities will need to be refocused in FFY17. Current efforts conducted at non-traditional school sites have met with limited success. Preliminary efforts at a community center have been more effective in engaging youth and there are other high school and youth programs better positioned to implement youth engagement projects, such as KidWorks and select high schools, especially those participating in the "Cooking Up Change" project. The LHD will gradually modify YE efforts from FFY17 to 19.

PSE efforts are progressing slowly. The two-page OC School/After School assessment tool has been useful in identifying initial target areas. This tool has been completed not only by school administrators but also by Spanish-speaking parents, youth and Food Service staff at select sites, which yielded valuable insight. As with the EC efforts, the assessments are most meaningful when completed by a variety of stakeholders and not solely by school or site administrators. Current PSE changes include establishing a non-food reward policy, healthy celebrations, structured PA and Smarter Lunchroom activities. Additional efforts will be made in FFY17 to improve the PSE progress. The number of sites targeted for PSE changes will gradually increase from FFY17 to 19. Sites will be followed for several years to ensure the PSE efforts are meaningful and sustained. For example, progress has been made in creating and distributing non-food reward policies but additional information is needed to determine if these efforts have made subsequent changes in teacher, classroom and parent behaviors.

4) Work – SNAP-Ed services conducted at sites where people work; *PSE:* *All + Worksite;* ***Outcomes:*** *All + MT2-Shopping behaviors, MT4, MT5, LT9, LT10-Nutrition & PA Supports adopted/implemented,* ***Approximate % of budget****: ~7%*

The LHD has targeted worksites for over 8 years and will continue to build on past efforts. Worksites have been a proven way to reach working families and men. Efforts will be made to maintain support for the current retail grocery stores, hotels and independent manufacturing sites. Attempts will be made to recruit new sites but the increase in minimum wage may make qualifying businesses more difficult. The "Work" objective will not have a formal coordinating group but the LHD will obtain community input through meetings with partners including the local Chambers of Commerce, especially in the cities of Anaheim and Santa Ana, and local chapters of the heart, diabetes and cancer associations. Unlike many other sites, worksites have a recurring audience and the LHD is able to build relationships and tailor services for each site. Employee surveys conducted in FFY14 and 15 provided valuable information and helped guide local activities. When asked what has been most helpful and their primary source for information on healthy eating, employees cited the LHD staff most often. A significant amount of indirect education has been offered at the sites. It has been well received and will continue. All sites have customized display boards with education materials and have received 1-4 classes annually. One display features photos of workers from the site demonstrating stretches. Educational topics need to be varied to keep interest high. Worksites also offer the LHD the opportunity to reach low-income men and address some of the gender-specific concerns raised in the "Jurisdiction" section. Topics should continue to include packing healthy lunches and healthy beverages. There is less interest in physical activity as most of the employees targeted have physically demanding jobs, such as housekeeping staff, or jobs that require standing for extended periods. Direct education will be offered when possible but it is difficult to obtain data cards due to time constraints.

PSE efforts have been implemented since FFY14 and good progress has been made. Each worksite has been encouraged to select PSE topics specific to their site's needs with access to water and healthy lunchrooms/meetings/vending options selected most often. The sites did not select "breastfeeding" as a priority and most reported they already support this healthy choice. The LHD has offered simple policy samples that can be added to existing wellness and safety manuals. Various systems and environmental changes have been made, especially related to water access. Additional work is needed to evaluate, then adjust, maintain or enhance these efforts but changes in LHD staffing may impact local activities, as fewer hours will be dedicated to this objective. From FFY17 to 19, efforts will be made to maintain a high level of service and good employee/satisfaction survey results plus increase the number of PSE changes at new and existing sites.

5) Play – SNAP-Ed services conducted at sites where people play; ***PSE:*** *All + Safe Routes to School (SRTS), Joint Use, Water Access,* ***Outcomes:*** *All + emphasis on MT3-Physical Activity, MT5 & LT10 -Physical activity supports adopted and implemented,* ***Approximate % of budget****: ~7%*

Activities in the "Play" objective will be conducted by the LHD and primarily focus on parks, recreational facilities and youth physical activity (PA) programs. The percentage of the budget dedicated to the "Play" objective will increase slightly from FFY17 to FFY18 & 19, to allow for more services at these sites. The LHD will not convene a formal coordinating group but will meet with city Parks and Rec staff, with special focus on Santa Ana and Anaheim, as well as with other community-based organizations providing youth sports and recreational services. Training and technical assistance will be provided to staff at various sites including city facilities, YMCAs and community-based organizations. The LHD will continue to promote a list of facilities & PA opportunities initially developed through the Regional Network grant and currently posted on the County's "MyHealthOC" website. A variety of indirect education activities will be conducted and may include materials distribution, displays and booths. In addition, the LHD will try to co-host events with cities to provide nutrition education and increase park use. General SNAP-Ed messages may be shared on partner websites and through signage, such as banners, bus shelter ads. Direct education will be offered at recreation sites and at parks participating in the Summer Meals program. To date, PSE efforts have primarily been pursued through Safe Routes to Schools (SRTS) activities. The LHD has been effective in involving the youth and schools in walkability assessments and in presenting the results to key stakeholders, including school officials, parents, city planners and police officers. SRTS efforts will continue in FFY17-19 and additional PSE changes may be pursued at other "play" sites depending on interests and needs; topics may include joint use, community gardens, access to water and park/playground improvements. Sites pursuing PSE changes will be provided with support over several years to ensure the changes are meaningful and sustained.

6) Shop – SNAP-Ed services conducted at sites where people purchase food; ***PSE:*** *All + Healthy Retail;* ***Outcomes****: All + MT2-Shopping Behaviors, LT3-Whole Grains, MT6-Marketing/Messaging & LT6-Food Security,* ***Approximate % of budget****: ~8%*

As indicated earlier, OC's low-income population has good access to food, as there are a significant number of grocery retailers ranging from corner markets to large chain stores. Other food sources include grocery trucks, produce stands and Farmers' Markets. The majority of activities will target small independent stores and medium chain markets, especially those reaching low income families and Latino shoppers. The "Shop" objective will not have a formal coordinating

group but the LHD will garner community input by meeting with various partners including: 1) market corporate staff, 2) WIC Local Vendor Liaisons, 3) Public Health Tobacco Use Prevention staff working in food stores, 4) County Environmental Health staff inspecting stores and 5) OC Food Access Coalition members working with Farmers Markets. Four local evaluation projects conducted in FFY15 are helping guide activities. A shopping behavior survey of 164 customers indicated most shop close to home, shop more than once a week, go to two or more stores and overwhelmingly buy fresh produce (80-90%) and seldom buy frozen (6-8%) or canned (1-2%). Past educational efforts have centered on produce but future activities will be expanded to include other topics. Shoppers may benefit from learning about meal planning, label reading and lower cost food options.

Indirect education is primarily achieved through merchandising materials and food demonstrations. Most stores have been very cooperative and quarterly LHD visits have been sufficient to ensure the NEOPB materials remain in place. A merchandising survey of 166 shoppers from 17 stores produced somewhat disappointing results. 55% of shoppers had not seen the NEOPB items and only 5% recalled the Champions for Change logo. Of the 45% that saw NEOPB items, magnetic tags and posters ranked highest. In FFY16, new locally edited materials are being pilot-tested, including erasable price tags and cross-promotional cards, such as cards with veggies in sandwich bags posted in the food storage aisle. Efforts to improve recognition of NEOPB materials will continue from FFY17 to 19. A food demo survey of 258 shoppers indicated the demos are a highly effective way to promote the purchase of healthier food items. Stores currently receive at least two demos or in-store activities a year; additional demos, booths and store tours will be offered as staffing permits. Some direct education will be conducted when data cards can be obtained. A survey of 22 store managers showed almost all were highly satisfied with the LHD services and their comments provided insight into future activities, such as improved use of store circulars. To help improve food security, stores were provided with information on food assistance programs in the fall of 2015 and a follow-up survey will be conducted in the spring of 2016. Additional food security efforts will be pursued from FFY17 to 19. Some PSE efforts were conducted in the past in coordination with CX^3 but new FFY16 efforts have been more promising. From FFY17 to 19, the LHD will gradually increase the number of sites targeted with PSE changes to help improve the number of healthy options and product placement. Strong efforts will be made to sustain or expand services in the “Shop” objective despite a declining budget.

Evaluation: Evaluation processes will be used to improve services for all local objectives. CCOC will conduct process evaluation and evaluation of PSE efforts using RE-AIM and may move forward to conduct outcome evaluation of direct education sessions using the Intent to Change tool. HCA will implement formative, process and outcome evaluation activities using State and locally developed surveys. Past evaluation efforts have been exceedingly helpful and strong efforts will continue. The local Activity Report Form (ARF) will continue to be used to collect needed supporting documentation & verify ATF entries. EARS reports will be generated from the online ATF to track progress. The IWP will continue to allow for separate tracking of direct ed taught by SNAP-Ed staff vs. trained site staff, such as teachers, to better monitor efforts. The locally developed PSE tracking forms have made it substantially easier to monitor PSE site efforts and complete the RE-AIM Access database. The PSE assessment forms have been useful but additional efforts are needed to determine if the PSE changes have had the desired impact on the SNAP-Ed audience.

SECTION B: Target Audience Description

1. Gender	%		2. Age	#
Male	35		0 to 4 years old (Preschool):	8,964
Female	65		5 to 17 years old (School Age):	113,740
			18 to 59 years old (Adult):	97,340
			60 years old and over (Senior):	16,000
Total:	100			236,044*

*Total excludes recurring PSE audience and additional Media/Messaging = ~4.35 million

3. Ethnicity/Race

Ethnicity

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

By September 30, 2019, SNAP-Ed activities at sites where people **eat or obtain food at no cost** will reach **3,980** SNAP-Ed eligible individuals with direct education, **66,000** individuals with indirect education plus **2.016M** with media/messaging and at least **9** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **900** individuals. ***CCOC & LHD***

SNAP-Ed State Goals :

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Healthy Food and Beverage Standards plus others as determined by sites.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

By September 30, 2017, SNAP-Ed activities at sites where people **eat or obtain food at no cost** will reach **1,410** SNAP-Ed eligible individuals with direct education, **22,000** individuals with indirect education plus **702,000** with media/messaging and at least **5** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **500** individuals.

2. **FFY 2018 (Year 2) Objective(s):**

By September 30, 2018, SNAP-Ed activities at sites where people **eat or obtain food at no cost** will reach **1,360** SNAP-Ed eligible individuals with direct education, **22,000** individuals with indirect education plus **702,000** with media/messaging and at least a total of **7** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **700** individuals.

3. **FFY 2019 (Year 3) Objective(s):**

By September 30, 2019, SNAP-Ed activities at sites where people **eat or obtain food at no cost** will reach **1,210** SNAP-Ed eligible individuals with direct education, **22,000** individuals with indirect education plus **702,000** with media/messaging and at least a total of **9** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **900** individuals.

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):
By September 30, 2019, SNAP-Ed activities at sites where people **eat or obtain food at no cost** will reach **3,930** SNAP-Ed eligible individuals with direct education, **66,000** individuals with indirect education plus **2.106M** with media/messaging and at least **9** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **900** individuals. ***CCOC & LHD***

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Convene/attend County Nutrition Action Plan (CNAP) workgroup meetings at least **4 times a year** to coordinate USDA-FNS programs and hunger advocate activities related to food security and nutrition. ***(Total = 12 meetings)*** • **FFY17**: Develop the fifth 2-year plan • **FFY18**: Summarize and evaluate progress made in completing the plan • **FFY19**: Develop the sixth 2-year plan	CED: ; CEI: ; MPR: ; C&C: X ; TTA:	CWD: ; LHD: X ; AAA: ; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, agendas, meeting minutes, CNAP plans, narrative summary of efforts **Submit**: ATF

1.2	Attend a minimum of **2 meetings per year** to share information and coordinate with local community-based food security partners. Examples of meetings/partners include: Orange County Food Access Coalition, Farm to School Task Force, County Health Improvement Plan workgroups, Waste Not OC Coalition, food bank meetings and emergency food provider meetings. ***(Total = 6 meetings)***	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, agendas, meeting minutes or notes from meeting **Submit**: ATF
1.3	Provide training and technical assistance (T/TA) that reaches a minimum of **35 staff per year** at food assistance sites, such as CalFresh staff, food pantry volunteers, food donors, etc. CCOC = 5, HCA = 30 per year ***(Total = 105 staff).*** Provide T/TA as requested with priority given to: • **FFY17**: CBOs distributing food obtained from food programs, food banks and donors • **FFY18**: CalFresh office and outreach staff; previous trainings held in FFY15/16 • **FFY19**: CBOs distributing food obtained from food programs, food banks and donors	CED: ; CEI: ; MPR: ; C&C: ; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, agendas **Submit**: ATF
1.4	Distribute at least **one** nutrition education handout to participants at targeted food assistance sites a minimum of **4 times a year,** to help maximize the use of the foods provided. Materials may include brochures, recipes specific to the foods offered and USDA 10 tip sheets. Efforts will reach a minimum of: a) **40** youth sites serving **2,500** individuals (e.g. CACFP, Kids Café, Summer Meals), b) **40** pantry sites	CED: ; CEI: X; MPR: ; C&C: ; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, sample materials **Submit:** ATF

	serving **9,500** families (e.g. T/EFAP, School Pantry), and c) **25** senior sites serving **5,000** older adults (e.g. CSFP, Brown Bag/Grocery Rescue). E.1.4	Conduct Impact-Outcome Evaluation (IOE) as appropriate by obtaining matched pre/post NEOP-allowable, validated survey tools from adults completing a series of classes at food assistance and other qualifying sites. Support main IOE activities in E.2.4. *(LHD only)*			X	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	**Year 1**: Q1 X, Q2 X, Q3 X, Q4 X **Year 2**: Q1 X, Q2 X, Q3 X, Q4 X **Year 3**: Q1 X, Q2 X, Q3 X, Q4 X	☐ EARS/ATF ☐ PSE RE-AIM Report ☐ UC CalFresh Workbook ☒ Food Behavior Checklist ☐ UC Intent to Change List other: **On file:** Survey forms **Submit:** FFY17-19 Evaluation reports, FFY18-20 IOE plans
E.1.5	Assess the effectiveness and impact of PSE changes on site staff and food assistance participants' behaviors. May include assessments, key informant interviews, focus groups, etc. related to improved donations or procurement, policy implementation, change in equipment, etc. • **FFY17**: Conduct surveys at a minimum of **2** sites reaching at least 20 individuals per site • **FFY18**: Conduct surveys at a minimum of **4** sites reaching at least 20 individuals per site • **FFY19**: Conduct surveys at a minimum of	X	X		☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☒ CCC	**Year 1**: Q1 X, Q2 X, Q3 X, Q4 X **Year 2**: Q1 X, Q2 X, Q3 X, Q4 X **Year 3**: Q1 X, Q2 X, Q3 X, Q4 X	☐ EARS/ATF ☒ PSE RE-AIM Report ☐ UC CalFresh Workbook ☐ Food Behavior Checklist ☐ UC Intent to Change List other: **Tool:** Internal tool specific to the PSE change identified for each site

	5 sites reaching at least 20 individuals per site						**On file:** Internal PSE tracking form

****Time Frame: Year & Quarter:**
Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)
Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**

By September 30, 2019, SNAP-Ed activities at sites where people **live and pray** will reach **7,500** SNAP-Ed eligible individuals with direct education, **10,725** individuals with indirect education plus **600** with media/messaging and **16** community sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,600** individuals. *Primarily Adults (18-59 yrs.) & Older Adults (60 yrs. +)* ***CCOC & LHD***

SNAP-Ed State Goals :

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Healthy Food and Beverage Standards, Water Stations, Joint Use, Structured Physical Activity plus others as determined by sites.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

By September 30, 2017, SNAP-Ed activities at sites where people **live and pray** will reach **2,400** SNAP-Ed eligible individuals with direct education, **3,575** individuals with indirect education plus **200** with media/messaging and **12** community sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,200** individuals.

2. **FFY 2018 (Year 2) Objective(s):**

By September 30, 2018, SNAP-Ed activities at sites where people **live and pray** will reach **2,900** SNAP-Ed eligible individuals with direct education, **3,575** individuals with indirect education plus **200** with media/messaging and **14** community sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,400** individuals.

3. **FFY 2019 (Year 3) Objective(s):**

By September 30, 2019, SNAP-Ed activities at sites where people **live and pray** will reach **2,200** SNAP-Ed eligible individuals with direct education, **3,575** individuals with indirect education plus **200** with media/messaging and **16** community sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,600** individuals

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):
By September 30, 2019, SNAP-Ed activities at sites where people **live and pray** will reach **6,900** SNAP-Ed eligible individuals with direct education, **10,725** individuals with indirect education plus **1,800** with media/messaging and **16** community sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,600** individuals. *Primarily Adults (18-59 yrs.) & Older Adults (60 yrs. +)* ***CCOC & LHD***

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Convene Parents for Healthy Neighborhoods (Parents) workgroup meetings at least **4** times **per year** to coordinate SNAP-Ed and community efforts, with emphasis on educating and mentoring Champion Moms and parent leaders on nutrition and physical activity issues. Obtain nominations and recognize new Champion Moms by 9/30 of each FFY. **(Total = 12 meetings)**	[ ] CED [ ] CEI [ ] MPR [X] C&C [ ] TTA	[ ] CWD [X] LHD [ ] AAA [ ] UCCE [X] CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1 Q1 X, Q2 X, Q3 X, Q4 X Year 2 Q1 X, Q2 X, Q3 X, Q4 X Year 3 Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, agendas, meeting minutes, list of Champion Moms **Submit:** ATF

2.2	Provide support for all and lead **2** of the **quarterly** Nutrition and Physical Activity Collaborative (NuPAC) meetings **per year** to help coordinate SNAP-Ed and community efforts related to countywide issues. Assist with the roster and ListServ emails that provide members with information on nutrition, physical activity and food security resources plus funding opportunities. Estimated non-target reach: 40 per meeting and 250 per ListServ email. **(Total = Attend 12 meetings, Plan 6 meetings, plus 12 ListServ updates)**	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC: X	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, agendas, meeting minutes **Submit:** ATF
2.3	Attend a minimum of **3** meetings **per year** to share information and recruit sites from local community partners. Examples of meetings/partners include: Homeless Provider Forum, Collaborative to Assist Motel Families, FaCT meetings, Office on Aging – Health & Wellness Committee, faith councils, United Way Health Coalition, OC Library meetings, etc. **(Total = 9 meetings;** CCOC = 3, LHD = 6**)**	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC: X	CWD: LHD: AOT, CAPOC, TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, agendas, meeting minutes or notes from meeting **Submit:** ATF
2.4	Provide at least **1** training workshop and recognition event reaching a minimum of **30** identified Champion Moms and parent leaders **per year**. **(Total = 3 events, 90 direct)** LHD only	CED: ; CEI: ; MPR: ; C&C: ; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: CAPOC, TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, sign-in sheets, agenda, photos **Submit:** ATF

					Year 3 Q1 Q2 Q3 Q4 X X X X	
2.5	Provide direct education, training and technical assistance that reaches a minimum of **10** new SNAP-Ed individuals **per year** and/or maintain a pool of at least **30 new or existing peer educators** able to conduct nutrition classes, assist with event activities, such as store tours and display booths, and advocate for obesity prevention efforts within the SNAP-Ed population. CCOC = 5, LHD = 5 per year. (**Total = Train 30 potential peer educators and maintain a pool of 30 trained peer educators)**	X CED CEI MPR C&C X TTA	CWD X LHD AAA UCCE X CCC	CWD: LHD: CAPOC, TBD AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 X X X X Year 2 Q1 Q2 Q3 Q4 X X X X Year 3 Q1 Q2 Q3 Q4 X X X X	**On File:** Internal ARF, sign-in sheets, data cards, names of peer educators, posttests documenting proficiency **Submit:** ATF
2.6	Provide training and technical assistance that reaches a minimum of **12** staff serving the community **per year**, such as staff at family resource centers, public housing complexes, faith-based sites, libraries, etc. As appropriate, assess the site needs using surveys, which may include CX[3] tools, the Faith Community Health Assessment Survey, the RE-AIM topic list and other tools. As needed, obtain signed partnership agreements. **(Total = 36 trained staff;** CCOC = 3, LHD = 33)	CED CEI MPR C&C X TTA	CWD X LHD AAA UCCE X CCC	CWD: LHD: CAPOC, TBD AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 X X X X Year 2 Q1 Q2 Q3 Q4 X X X X Year 3 Q1 Q2 Q3 Q4 X X X X	**On File:** Internal ARF, sign-in sheets, assessment information **Submit:** ATF

2.7	Provide interactive booths and/or other indirect education activities, such as displays, brief classes or taste tests, at a minimum of **50** community sites to reach at least **3,500** individuals **per year.** Activities may be conducted at health fairs, community festivals, celebrations, faith-based sites and other events. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**

By September 30, 2019, SNAP-Ed activities at sites where people **learn** will reach **4,464** PreK and **31,665** school-age SNAP-Ed eligible individuals with direct education, **4,980** PreK and **60,000** school-age individuals with indirect education plus **3,000** with media/messaging and **40 Early Childhood** and **60 School/After School** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,200** PreK and **12,000** school-age youth. *Primarily Children (birth to 4 yrs.) and School-age Youth (5-17 yrs.)* ***LHD only***

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Orange County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

SNAP-Ed State Goals :

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Early Care and Education, Farm to School, Healthy Food and Beverage Standards, Healthy Schools, School Wellness, Smarter Lunchroom Movement, Structured Physical Activity, Water Stations plus others as determined by sites

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

By September 30, 2017, SNAP-Ed activities at sites where people **learn** will reach **1,214** PreK and **10,323** school-age SNAP-Ed eligible individuals with direct education, **1,660** PreK and **20,000** school-age individuals with indirect education plus **1,000** with media/messaging and **30 Early Childhood** and **50 School/After School** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **900** PreK and **10,000** school-age youth.

2. **FFY 2018 (Year 2) Objective(s):**

By September 30, 2018, SNAP-Ed activities at sites where people **learn** will reach **1,488** PreK and **10,542** school-age SNAP-Ed eligible individuals with direct education, **1,660** PreK and **20,000** school-age individuals with indirect education plus **1,000** with media/messaging and **35 Early Childhood** and **55 School/After School** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,050** PreK and **11,000** school-age youth.

3. **FFY 2019 (Year 3) Objective(s):**

By September 30, 2019, SNAP-Ed activities at sites where people **learn** will reach **1,762** PreK and **10,800** school-age SNAP-Ed eligible individuals with direct education, **1,660** PreK and **20,000** school-age individuals with indirect education plus **1,000** with media/messaging and **40 Early Childhood** and **60 School/After**

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Orange County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

School sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,200** PreK and **12,000** school-age youth.

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):
By September 30, 2019, SNAP-Ed activities at sites where people **learn** will reach **4,464** PreK and **31,665** school-age SNAP-Ed eligible individuals with direct education, **4,980** PreK and **60,000** school-age individuals with indirect education plus **3,000** with media/messaging and **40 Early Childhood** and **60 School/After School** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,200** PreK and **12,000** school-age youth. *Primarily Children (birth to 4 yrs.) and School-age Youth (5-17 yrs.)* ***LHD only***

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Convene **Early Childhood** (EC) workgroup meetings at least **2** times a year to coordinate SNAP-Ed and community efforts related to educating and mentoring daycare and preschool providers/families on nutrition and physical activity issues. Members may include WIC, Head Start, CHS, Chicano Federation, UCCE and more. Activities will include networking and coordination of educational resources and training opportunities. **(Total = 6 meetings)**	CED CEI MPR X C&C TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, agendas, meeting minutes **Submit:** ATF

3.2	Distribute at least one handout to a minimum of **50** SNAP-Ed eligible home-based (HB) daycare sites at least **4 times per year**. Materials may include basic nutrition and physical activity information, food assistance programs lists and a recruitment flyer, to help determine the sites' interest in SNAP-Ed services, and accordingly help refine the site list. **(Total = 150 staff)**	☐ CED ☐ CEI ☐ MPR ☒ C&C ☒ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF **Submit:** ATF
3.3	Provide training and technical assistance that reaches a minimum of **20** English and Spanish-speaking home-based daycare providers **per year**. ****Time Frame: Year & Quarter:**
Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)
Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):**

By September 30, 2019, SNAP-Ed activities at a minimum of **15** sites where people **work** will reach **90** SNAP-Ed eligible individuals with direct education, **2,250** individuals with indirect education plus **2,250** with media/messaging and at least **10** sites will implement at least one change, estimated total of 14 changes, made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,000** individuals. ***LHD only***

SNAP-Ed State Goals :

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Worksites, plus others as determined by sites.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

By September 30, 2017, SNAP-Ed activities at a minimum of **15** sites where people **work** will reach **30** SNAP-Ed eligible individuals with direct education, **750** individuals with indirect education plus **750** with media/messaging and at least **10** sites will implement at least one change, estimated total of **10 changes**, made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,000** individuals.

2. **FFY 2018 (Year 2) Objective(s):**

By September 30, 2018, SNAP-Ed activities at a minimum of **15** sites where people **work** will reach **30** SNAP-Ed eligible individuals with direct education, **750** individuals with indirect education plus **750** with media/messaging and at least **10** sites will implement at least one change, estimated total of **12 changes**, made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,000** individuals.

3. **FFY 2019 (Year 3) Objective(s):**

By September 30, 2019, SNAP-Ed activities at a minimum of **15** sites where people **work** will reach **30** SNAP-Ed eligible individuals with direct education, **750** individuals with indirect education plus **750** with media/messaging and at least **10** sites will implement at least one change, estimated total of **14 changes**, made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,000** individuals.

Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):

By September 30, 2019, SNAP-Ed activities at a minimum of **15** sites where people **work** will reach **90** SNAP-Ed eligible individuals with direct education, **2,250** individuals with indirect education plus **2,250** with media/messaging and at least **10** sites will implement at least one change, estimated total of 14 changes, made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,000** individuals. ***LHD only***

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
4.1	Attend a minimum of **2** meetings **per year** to share information and recruit sites from the local business community. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):**

By September 30, 2019, SNAP-Ed activities at a minimum of **10** sites where people **play** will reach **450** SNAP-Ed eligible individuals with direct education, **3,300** individuals with indirect education plus **1,500** with media/messaging and **10** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,000** individuals. ***LHD only***

SNAP-Ed State Goals :

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Healthy Food and Beverage Standards, Safe Routes to School, Joint Use, Structured Physical Activity plus others as determined by sites.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

By September 30, 2017, SNAP-Ed activities at a minimum of **10** sites where people **play** will reach **150** SNAP-Ed eligible individuals with direct education, **1,100** individuals with indirect education plus **500** with media/messaging and **6** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **600** individuals.

2. **FFY 2018 (Year 2) Objective(s):**

By September 30, 2018, SNAP-Ed activities at a minimum of **10** sites where people **play** will reach **150** SNAP-Ed eligible individuals with direct education, **1,100** individuals with indirect education plus **500** with media/messaging and **8** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **800** individuals.

3. **FFY 2019 (Year 3) Objective(s):**

By September 30, 2019, SNAP-Ed activities at a minimum of **10** sites where people **play** will reach **150** SNAP-Ed eligible individuals with direct education, **1,100** individuals with indirect education plus **500** with media/messaging and **10** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,000** individuals.

Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):
By September 30, 2019, SNAP-Ed activities at a minimum of **10** sites where people **play** will reach **450** SNAP-Ed eligible individuals with direct education, **3,300** individuals with indirect education plus **1,500** with media/messaging and **10** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,000** individuals. ***LHD only***

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
5.1	Attend a minimum of **2** meetings per year to share information and coordinate with County and city parks/recreation departments, sports programs and local activity/fitness organizations and safety groups. Examples of meetings/partners include: OC Parks, recreation departments from target cities, including Anaheim & Santa Ana, YMCA, police departments, transportation departments, etc. **(Total = 6 meetings)**	CED: ; CEI: ; MPR: ; C&C: X ; TTA:	CWD: ; LHD: X ; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, agendas, meeting minutes or notes from meeting **Submit:** ATF

5.2	Compile information and resource materials related to physical activity opportunities and share it with SNAP-Ed staff and at least **10** partners a minimum of **1 time per year**, for inclusion in nutrition classes and activities. May include promotion of NEOPB materials, city Parks/Rec catalogs and the MyHealthOC "play" website that identifies parks, facilities, youth and adult classes, etc. **(Total = 30 non-target)**	CED: ; CEI: ; MPR: ; C&C: X; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF & list of PA resources **Submit:** ATF
5.3	Support nutrition and physical activity (PA) efforts by expanding the current LHD lending library and establishing at least one new library at a community site. Items may include materials purchased by SNAP-Ed and those received through donations, such as curricula, food models, playground stencils, gardening materials, cones, jump ropes, poly-spots, pedometers, etc., as well as other educational resources. Loan items to OC-LIA staff and community partners a minimum of **6** times a **year**. **(Total = 18 non-target)**	CED: ; CEI: ; MPR: ; C&C: X; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal log of items loaned.
5.4	Provide training and technical assistance on nutrition and physical activity that reaches a minimum of **10** community-based partners **per year**. Discuss ways to enhance nutrition messaging, PA promotion and obesity prevention. Review potential site changes such as playground improvements, access to water and availability of healthy food options and/or food assistance programs, etc. **(Total = 30 non-target)**	CED: ; CEI: ; MPR: ; C&C: ; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, agendas or notes from meeting **Submit:** ATF

5.5	Conduct at least **6** indirect nutrition education activities at a minimum of **5** parks or recreational sites that reach a minimum of **600** individuals **per year**. Activities may include booths and classes that support organized events, such as 5K Fun Runs, health fairs, youth sports and field days. As able, co-host events with cities to promote nutrition education and park use. **(Total = 1,800 indirect)**	CED X CEI MPR C&C TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: CAPOC, TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF **Submit:** ATF
5.6	Provide training and technical assistance on walkable communities including Safe Routes to School **(SRTS)** and Safe Routes to Parks **(SRTP)** that reaches a minimum of **5** partners **per year**. Identify at least 2 key staff at each site to assist with efforts. Assess the site needs and for each site collect surveys that may include Walkability/Bikability audits and surveys, Walk to School surveys, CX^3 survey questions related to the food environment along the routes and the RE-AIM topic list. Offer sites a copy of the SRTS Kit or SRTP Guide. **(Total = 15 non-target)**	CED CEI MPR C&C X TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF & PSE Tracking Form, copies of surveys **Submit:** ATF
5.7	Assist SNAP-Ed individuals in presenting the Walkability, SRTS or SRTP findings to key stakeholders; support a minimum of 80% of the sites completing all the surveys. Stakeholders may include school officials, parents, police officers, city planners, elected officials, etc. (**Total = ~12 presentations to non-target**; estimated 4 per year)	CED CEI MPR X C&C X TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, presentations **Submit:** ATF

5.8	Provide at least **1** indirect nutrition education activity at all targeted Walkability-SRTS/SRTP sites **per year**. Activities may include events, displays, brief classes, booths, Walk to School Day activities and presentations. Topics may include MyPlate, Rethink Your Drink, breakfast and food assistance programs, such as School Breakfast and Summer Meals. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #6 (FFY 2017–FFY 2019):**

By September 30, 2019, SNAP-Ed activities at a minimum of **50** sites where people **shop** will reach **90** SNAP-Ed eligible individuals with direct education, **22,500** individuals with indirect education plus **2.2M** with media/messaging and **10** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,000** individuals. ***LHD only***

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Orange County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

SNAP-Ed State Goals :

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

Healthy Retail, plus others as determined by sites.

1. **FFY 2017 (Year 1) Objective(s):**

By September 30, 2017, SNAP-Ed activities at a minimum of **50** sites where people **shop** will reach **30** SNAP-Ed eligible individuals with direct education, **7,500** individuals with indirect education plus **745,000** with media/messaging and **6** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **600** individuals.

2. **FFY 2018 (Year 2) Objective(s):**

By September 30, 2018, SNAP-Ed activities at a minimum of **50** sites where people **shop** will reach **30** SNAP-Ed eligible individuals with direct education, **7,500** individuals with indirect education plus **745,000** with media/messaging and **8** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **800** individuals.

3. **FFY 2019 (Year 3) Objective(s):**

By September 30, 2019, SNAP-Ed activities at a minimum of **50** sites where people **shop** will reach **30** SNAP-Ed eligible individuals with direct education, **7,500** individuals with indirect education plus **745,000** with media/messaging and **10** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,000** individuals.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Orange County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Three-Year SNAP-Ed Local Objective #6 (FFY 2017–FFY 2019):

By September 30, 2019, SNAP-Ed activities at a minimum of **50** sites where people **shop** will reach **90** SNAP-Ed eligible individuals with direct education, **22,500** individuals with indirect education plus **2.2M** with media/messaging and **10** sites will implement at least one change made in writing or practice to improve or strengthen access or appeal for healthy eating and/physical activity, reaching over **1,000** individuals. ***LHD only***

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
6.1	Attend a minimum of **2** meetings **per year** to share information and coordinate with others working in the retail grocer community. Examples of meetings/partners include: WIC Local Vendor Liaisons, corporate grocer offices, produce and food industry partners, County Environmental Health and Tobacco Prevention staff working with grocers, the OC Food Access Coalition and Farmers' Market managers. **(Total = 6 meetings)**	CED: ; CEI: ; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	**On File:** Internal ARF, agendas, meeting minutes or notes from meeting **Submit:** ATF
6.2	Identify at least 2 key staff at a minimum of **50 sites** to assist with efforts. Obtain signed Partnership Agreements when possible. Assess the site needs using the internal retail surveys, CX^3 surveys and/or the RE-AIM topic list at least once **every two years**. **(Total = 75 staff;** Estimated 25 sites with 2 visits each, 25 sites with 1 visit) • **FFY17**: Assess at least 50% of the sites (~25) using an approved survey & RE-AIM topic list. • **FFY18**: Assess the sites (~25) not assessed in FFY17. • **FFY19**: Reassess the sites initially assessed in FFY17 and not assessed in FFY18. 3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Nutrition Education Materials	Nutrition education materials for staff and trained teachers to use for education at qualifying sites such as schools/afterschool, early childhood centers, community centers, senior centers, worksites, food distribution sites and Health Centers. Curricula materials, books, display materials, posters, teaching tools, food models, stickers, booklets and other items used for multiple classes. Examples include MyPlate, Label Reading and Portion Control kits, Rethink Your Drink kits, Meal Planning and Shopping on A Budget. Approximately $100 per site	$100.00	60	$6,000	
2			Nutrition ed food demos	Taste tests and supplies for adults and children during direct and indirect education in classroom settings, stores, community centers, Rethink Your Drink activities at health fairs. Not to exceed $0.50/taste test reaching 10,000 individuals	$0.50	10000	$5,000	
3			Printing Costs- direct and indirect nutrition ed and PSE related activities	Printing of materials for direct and indirect nutrition education, curricula, lessons, student workbooks, handouts, newsletters, posters, PSE related materials, surveys, and assessments for students, staff, parents and adults at approximately $200.00 per site/quarter ($4.00 per print set x 50 individuals) x 60 sites	$200.00	60	$12,000	
4			Nutrition Event Materials	Display materials, teaching tools, used by multiple staff. IMaterials may include items for (1) 15 permanent displays at qualifying sites , racks for handouts, display boards/racks/containers @ $125 per display ($1875) and 2) portable displays for use at events, fairs, meetings – 8 sets of display boards with carrying cases, carts, display racks/containers, health and food models for display@ $250 each ($2000) – Total not to exceed $4000.	$4,000.00	1	$4,000	
5			Community meetings and forums, local trainings and workshops	NuPAC, EC, CNAP, (Champion Mom workshops, Daycare provider trainings) (Rental Space and materials for 4 city based collaborative meetings (~$80/each), 2 community forums (~$150/each), 10 workgroup meetings (i.e. Peer, Retail, Worksite, Early childhood, etc., ~$40/each) and 12 nutrition education workshops/trainings (~$40/each). Not to exceed $1496.00)	$1,494.00	1	$1,494	
6			PSE Support materials	Supplies and materials to implement PSE related activities at qualifying sites such as schools/afterschool, early childhood centers, community centers, senior centers, worksites, food distribution sites and Health Centers. These include printing of assessment forms, prompts/posters/handouts, gardening supplies and materials to use with CDPH playground stencils. IWP identified 6 settings for intervention (Eat, Live and Pray, Learn, Work, Shop and Play). Each setting will have 1 – 2 PSE targeted activities each budgeted at $425/activity. 6 settings * 2 PSE activities each ($425/activity = $250 prompts/posters/handouts, $175 gardening and/or stencil playground materials) ~ $5000	$5,000.00	1	$5,000	
7			ServSafe	Obtain safe food handling certification for staff conducting food demonstrations. Estimated at $20/basic class x 7 FTE + $120/managers class x 1 FTE	$260.00	1	$260	
8			PSE Support for Champions for Change	Stipends to cover mileage and parking costs, meals/food for events, trainings, workshops, for their attendance or participation in that support IWP. $25/Champion x 80 activities/year = $2000	$2,000.00	1	$2,000	
							Total Materials:	**$35,754**

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Nutrition Education Materials	Nutrition education materials for staff and trained teachers to use for education at qualifying sites such as schools/afterschool, early childhood centers, community centers, senior centers, worksites, food distribution sites and Health Centers. Curricula materials, books, display materials, posters, teaching tools, food models, stickers, booklets and other items used for multiple classes. Examples include MyPlate, Label Reading and Portion Control kits, Rethink Your Drink kits, Meal Planning and Shopping on A Budget. Approximately $60 per site	$60.00	40	$2,400	
2			Nutrition ed food demos	Taste tests and supplies for adults and children during direct and indirect education in classroom settings, stores, community centers, Rethink Your Drink activities at health fairs. Not to exceed $0.50/taste test reaching 8000 individuals	$0.50	8000	$4,000	
3			Printing Costs- direct and indirect nutrition ed and PSE related activities	Printing of materials for direct and indirect nutrition education, curricula, lessons, student workbooks, handouts, newsletters, posters, PSE related materials, surveys, and assessments for students, staff, parents and adults at approximately $150.00 per site/quarter ($3.75 per print set x 40 individuals) x 40 sites	$150.00	40	$6,000	
4			Nutrition Event Materials	Display materials, teaching tools, used by multiple staff. IMaterials may include items for (1) 10 permanent displays at qualifying sites , racks for handouts, display boards/racks/containers @ $125 per display ($1250) and 2) portable displays for use at events, fairs, meetings – 3 sets of display boards with carrying cases, carts, display racks/containers, health and food models for display@ $250 each ($750) – Total not to exceed $2000.	$2,000.00	1	$2,000	
5			Community meetings and forums, local trainings and workshops	NuPAC, EC, CNAP, (Champion Mom workshops, Daycare provider trainings) (Rental Space and materials for 4 city based collaborative meetings (~$75/each), 2 community forums (~$100/each), 8 workgroup meetings (i.e. Peer, Retail, Worksite, Early childhood, etc., ~$40/each) and 10 nutrition education workshops/trainings (~$40/each). Not to exceed $1250.00)	$1,250.00	1	$1,250	
6			PSE Support materials	Supplies and materials to implement PSE related activities at qualifying sites such as schools/afterschool, early childhood centers, community centers, senior centers, worksites, food distribution sites and Health Centers. These include printing of assessment forms, prompts/posters/handouts, gardening supplies and materials to use with CDPH playground stencils.	$1,512.00	1	$1,512	
7			ServSafe	Obtain safe food handling certification for staff conducting food demonstrations. Estimated at $20/basic class x5 FTE + $120/managers class x 1 FTE	$220.00	1	$220	
8			PSE Support for Champions for Change	Stipends to cover mileage and parking costs, meals/food for events, trainings, workshops, for their attendance or participation in that support IWP. $25/Champion x 80 activities/year = $2000	$2,000.00	1	$2,000	
							Total Materials:	**$19,382**

City of Pasadena Public Health Department | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 6/14/2017**

County Name: City of Pasadena Public Health Department

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
X	**California Department of Public Health: CDPH: Pasadena, City of, Public Health Department (LHD)**
	California Department of Aging: CDA: (Area Agency on Aging: AAA)
	Catholic Charities of California: CCC: (Catholic Charities of California: CCC)

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.

[2] Defined as not running out of food at the end of the month.

[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.

[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

The City of Pasadena is located 10 miles northeast of downtown Los Angeles. The city is surrounded by the San Gabriel Mountains and seven cities--La Canada Flintridge, South Pasadena, Arcadia, Sierra Madre, San Marino, Glendale, Los Angeles and unincorporated Altadena. The city is home to about 139,065 residents, according to the 2010-2014 American Community Survey (ACS). Pasadena is an ethnically diverse community where 38.8% of the population is white, 33.7% are Latino, 14.3% are Asian, 10.7% are African-American, and 0.6% are American Indian and Alaska Native. The median age is 36.9 years old and median household income is $70,845. In the city of Pasadena, 54.6% of the population speaks only English, while 45.4% speak a language other than English. Twenty eight percent (28%) of the population speaks Spanish, the highest language spoken besides English.

While Pasadena is home to many prominent institutions, entertainment venues and generations of families with wealth dating back to the real estate boom of the 1880s, it is also home to many families living below the Federal Poverty Level in the northwest part of Pasadena, or commonly referred to Northwest Pasadena. In Pasadena, 15% of residents live below the Federal Poverty Level (FPL) whereas in Northwest Pasadena (zip code 91103), it is 23.5%. According to the 2010 Census, there are a total of 46,123 SNAP-Ed eligible residents in our target jurisdiction of Northwest Pasadena, which is over 33% of the entire Pasadena population. Of those residents, 58.9% or 27,170 are Latinos. There are also broad geographic earning disparities within Pasadena. In Northwest Pasadena, the median income is $51,545 compared to the city of Pasadena with a median income of $70,845 (2010 Census). According to the 2010-2014 ACS, 5.3% of Pasadena residents are enrolled in CalFresh compared to 11.8% of residents in Northwest Pasadena. The Northwest Pasadena SNAP-Ed eligible areas are geographically located above the 210 freeway, east to North Lake Avenue, below Montana Street, and west to Lincoln Avenue.

The Pasadena Public Health Department (PPHD) has been committed to helping protect, maintain and improve the health of the Pasadena community. The City of Pasadena is one of only three cities in the state of California that has its own independent local health jurisdiction. As such, PPHD has the ability to tailor its programs and services to meet the needs of the Pasadena residents. PPHD is located in the heart of Northwest Pasadena, which makes the programs and services more readily available to the population with the highest needs. The only other nutrition-related programs in the city are the long-standing WIC program and the soon to sunset Choose Health LA Kids program. Both of these programs focus on the 0-5 age group, with NEOP being the only program servicing low-income residents of all ages.

According to the 2011 LA County (LAC) Health Survey, 28.7% of adults in Pasadena were overweight and 26.7% were obese. The percentage of overweight and obese adults is an indicator of the overall health and lifestyle of a community. Being overweight or obese affects quality of life and increases an individual's risk for developing many chronic diseases. Obesity and food insecurity are also two sides of the same coin, and as low-income individuals face higher food insecurity they also likely to be obese. Among households with incomes less than 300% FPL, there was a significantly higher

prevalence of obesity among adults living in households with very low food security (35.4%) compared to those living in food secure households (25%). In the LAC Health Survey, Pasadena's very low food security rate was higher than LA County at 14% compared to 12.8%, respectively. High rates of food insecurity and obesity in our city are difficult issues for our SNAP-Ed eligible population in Pasadena.

In the same 2011 LA County Health Survey, family with young children and older adult data is startling for Pasadena. Compared to LA County, Pasadena has a higher percentage of people 65 years of age and older living below poverty level, 17.4% compared to LA County's 13.4%. Northwest Pasadena is also home to more single-parent households (45.1%) than LA County (26.1%). Families in Northwest Pasadena, especially those with young children, face many challenges that concern healthy food and nutrition plus their physical environment. There are more children living below poverty level in Northwest Pasadena (23.5%) than in Pasadena (15%) and more children ages 2-4 are overweight in Pasadena (17.2%) compared to California (16.1%) and the nation (16.3%). Lack of access and availability to fresh fruits and vegetables also impact consumption of healthy foods, possibly resulting in Pasadena's low teen fruit and vegetable consumption (15.6%) compared to LA County's (22.1%).

The Pasadena Unified School District (PUSD) serves over 18,000 pre-K to 12th grade students in an area that includes the communities of Altadena, Pasadena, Sierra Madre, and unincorporated parts of Los Angeles County, California. Sixty-six percent (66%) of PUSD students are eligible for the Free or Reduced Meal Program (FRMP). The California Department of Education 2014-2015 data indicates that 40% of 5th graders, 39.7% of 7th graders, and 36.5% of 9th graders are overweight or obese. Specifically, the BMI scores were highest for Latinos and African Americans in all three grade levels. Pasadena children ages 5-19 years old, had higher rates of overweight at 16.5%, compared to the California and National rate of 16.1% and 16.3%. Young children do not fare better. According to the Pediatric Nutrition Surveillance 2010 Report, Pasadena children ages 2-4 years old were 17.2% overweight and 12.5% were obese, with the former being higher for 2-4 year olds compared with 5-19 year olds. Being overweight during the early years increases the risk of being obese later in life.

The Pasadena Green Space, Recreation and Parks Master Plan (GSRP) has identified a green space gap (over ½ mile radius from a park) in Northwest Pasadena. The City of Pasadena has 23 parks with only five of them located in Northwest Pasadena. According to WalkScore, Northwest Pasadena's walkability score is 53 out of 100 compared to downtown Pasadena's walkability score of 87. With only 15% of children meeting the recommended amount of physical activity (2011 LA County Health Survey), opportunities and access to physical activity is important. Over sixty three percent of adults in Pasadena do not meet the recommended guidelines for physical activity (both aerobic and strengthening). This is slightly better than LA County where 65.5% do not meet the recommendations and 34.5% do. Walkable spaces are associated with improved physical activity levels, which consequently may help lower body mass index (BMI). As a result, the City has identified Northwest Pasadena as a priority area for more green space development.

Neighborhoods with a scarcity of markets and an abundance of fast food or convenience stores limit the quality and access to healthy food options, creates food deserts, and contributes to higher rates of obesity. In Pasadena's 2012 Quality of Life Index, Northwest Pasadena was listed a food desert with a high density of fast food and convenience stores, but not enough supermarkets. There are approximately 55 grocery stores/markets and only 17 in Northwest Pasadena. Only twenty markets and grocery stores in Pasadena are WIC-approved vendor sites. There are a total of 10 food pantries with four located in Northwest Pasadena. In Northwest Pasadena, this disparity results in health inequities for residents. Neighborhoods with better access to markets and limited access to convenience stores result in healthier diets and lower levels of obesity. Multiple neighborhood mapping assessments performed through PPHD's Quality of Life Survey and Communities of Excellence in Nutrition, Physical Activity, and Obesity Prevention (CX^3) surveys revealed an abundance of fast food chains and scarcity of fresh food outlets in Northwest Pasadena. CX^3 survey results highlight the need to assist neighborhood markets in Northwest Pasadena through "corner store conversions" to increase access to fresh fruits and vegetables among SNAP-Ed eligible customers.

4. **Community Assessment**

This FFY 17-19 Integrated Work Plan was developed using information listed in the jurisdiction section, various state and county data reports, local neighborhood assessment tools, input from community partners and experience gained as a Local Implementing Agency (LIA) providing SNAP-Ed nutrition interventions for over 15 years.

The information in the jurisdiction description derives from a variety of state and county data sources, including the American Community Survey (ACS), Census Data, California Health Interview Survey (CHIS), CDC Pediatric Nutrition Surveillance Report, California Department of Education Physical Fitness Report, LA County Department of Public Health's Key Indicators of Health Report and the LA County Health Survey. Local City of Pasadena data sources include the Pasadena Public Health Department's 2012 Quality of Life Survey, Community Health Improvement Plan, Planning Department's Green Space, Parks and Recreation Master Plan and the Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX^3)2013 survey. The data revealed significant health and income disparities within Pasadena with populations most at risk concentrated in the Northwest region. African Americans and Latinos at all ages are significantly more at risk for negative health outcomes than other ethnicities. Overall, Northwest Pasadena residents suffer disproportionately from food insecurity, lack of health insurance, lower levels of education, higher rates of chronic diseases such as obesity and diabetes, and are more likely to engage in unhealthy behaviors such as drug and alcohol abuse, smoking, fast food and sugar sweetened beverage consumption, and sedentary lifestyles.

Multiple neighborhood mapping assessments performed through the Quality of Life Survey, Green Space Master Plan and CX^3 surveys revealed an abundance of fast food chains and processed food, and scarcity of fresh food outlets and green space in Northwest Pasadena. Low CX^3 scores in the

three surveyed SNAP-Ed eligible neighborhoods indicate a need for better access to affordable and high-quality fruits and vegetables. Small neighborhood markets, which are abundant in Northwest Pasadena, offer significantly more unhealthy than healthy food and beverage choices, and these unhealthy products are displayed prominently. The interior and exterior facades of all of the neighborhood markets were in much disrepair and were not inviting. The CX^3 survey results highlight the need to assist these neighborhood markets through "corner store conversions" to increase the access and promotion of healthy food to SNAP-Ed eligible residents.

In the Pasadena Quality of Life Index 2012 Report and Community Health Improvement Plan, the Pasadena Public Health Department identified food insecurity, access to healthy food, consumption of healthy food, and physical activity opportunities as major issues within our city. Priority areas developed by Pasadena's City Nutrition Action Plan (CNAP) partners in 2015 echoed these city wide concerns. The data collected and analyzed identified the need to develop interventions that target and reach SNAP-Ed populations where people live, play, shop and work. Community centers, Community-Based Organizations (CBOs) and small retail stores in Northwest Pasadena were identified as venues that would allow PPHD to address the identified needs and reach a large number of SNAP-Ed eligible residents. The three community centers in Northwest Pasadena alone service over 200,000 duplicated residents each year.

There are three SNAP-Ed eligible community centers in Northwest Pasadena offering a variety of programs to thousands of PUSD children, youth, adults and seniors year-round. PPHD NEOP has established relationships over the years with key partners located at these community centers, including Human Services and Recreation Department, Women, Infant, and Children (WIC), Head Start/Options, community gardens, PUSD's Summer Meals program, and other community based organizations. As a result, PPHD NEOP has selected these eligible sites to maximize reach and to ensure all of the IWP multi-level objectives occur within the same SNAP-Ed population. This approach may help result in high reach and high impact interventions.

5. **Community Change Goals**

Long-term community change goals include improving birth and infant/child health outcomes, increasing the number of residents who are in a healthy weight category and meet the recommended levels of physical activity, improving the quality of life for older adults, increasing food security, and improving mental and emotional well-being throughout the lifespan, decreasing the number of residents with obesity, diabetes, high blood pressure, high cholesterol and who smoke. Nutrition, physical activity, and food security issues have been specifically determined to be priority areas of focus in the City of Pasadena as discussed in the Community Assessment section and as identified in the Community Health Improvement Plan (CHIP) in 2013. Long-term obesity-related and disease prevention goals are focused on creating community environments that support healthy eating and active living, including:

- Increasing access to fresh and healthy foods in neighborhoods with food deserts
- Removing barriers to active lifestyles
- Encouraging healthier lifestyle changes at the individual level

These goals align with the community assessment by highlighting efforts in obesity-related and disease prevention. PPHD NEOP will focus our efforts on the SNAP-Ed eligible portion of the city's population and on SNAP-Ed allowable interventions and activities which align with the United States Department of Agriculture (USDA)-Western Regional Office (WRO) Evaluation Framework.

While the PPHD NEOP accessed multiple data sources in the process of assessing community needs, the focus on nutrition, physical activity and food security issues is supported by the data, the Community Health Improvement Plan (CHIP), City Nutrition Action Plan efforts and community input, as well as it is guided and supported by our funder's allowable interventions and activities. The two portfolios which best supported our findings are the *SHOP* portfolio and the *LIVE* portfolio. SHOP includes healthy retail efforts and LIVE includes improving environments where people live or live nearby, including community centers and CBOs. These strategies highlight efforts addressing unmet needs that this IWP intends to address.

PPHD NEOP will increase engagement with local public institutions, businesses, and community-based organizations, including CNAP partners, to improve access to and demand for healthy food and beverage options. PPHD NEOP will focus on education interventions that promote the current Dietary Guidelines and SNAP-Ed intervention strategies that have been proven to support behavior change in increased consumption of fruits, vegetables, and water and decreased consumption of sugary beverages. Policy, Systems, and Environmental Change interventions, including healthy retail, healthy vending and procurement and edible gardens, will be implemented in SNAP-Ed eligible neighborhoods to improve nutrition and physical activity throughout the life cycle.

Pasadena will achieve the following three-year objectives that contribute to community change goals and are informed by needs:

1. By September 30, 2019, PPHD NEOP staff will increase access to and demand for fruits, vegetables and healthy beverages at five SNAP-Ed qualifying neighborhood small food stores through on-going education, technical assistance on physical site changes and fruit and vegetable promotion.

2. By September 30, 2019, PPHD NEOP funded staff and community partners will promote and implement healthier institutional and individual practices at 6-8 eligible community centers and/or community based organizations (CBOs) to support improved nutrition and physical activity behaviors through education, partner engagement and NEOP media campaign to reach over 40,000 SNAP-Ed eligible residents.

The policy, systems, and environmental (PSE) change strategies that will be implemented include efforts around 1. Healthy Vending and Procurement Policy, 2. Healthy Retail, and 3. Edible Gardens.

6. **Partnerships and Collaborative Efforts**

Under the direction of the California Department of Public Health Nutrition Education Obesity Prevention Branch (NEOPB), the City of Pasadena developed a City Nutrition Action Plan (CNAP) collaborative with the mission of coordinating and leveraging nutrition messages, nutrition education, and services among USDA-funded, unfunded partners and other agencies with similar objectives that serve low-income populations in Pasadena. The goal is to maximize resources for low-income residents served by USDA programs. The goal is also for LIAs, like PPHD, to promote SNAP-Ed services and activities by connecting with other agencies, such as County Welfare Departments, etc.

CNAP objectives include the following:

1. Cross educate and promote SNAP-Ed programs to incorporate consistent messaging
2. Collaborate to increase participation in SNAP-Ed programs
3. Measure impact through evaluation
4. Improve access to SNAP-Ed programs for eligible populations
5. Identify existing community assets and resources
6. Coordinate community outreach/media efforts

The Pasadena CNAP group meets 4-6 times per year and consists of agencies that promote and implement food assistance programs, nutrition education, policy, systems and environmental change strategies and community-wide wellness goals. The mission of the group mirrors that of PPHD in that we are dedicated to the physical, social and mental well-being of all who live, work, learn and play in Pasadena. The CNAP community based partners include: Pasadena Community Gardens, Muir Ranch (three acre school farm), Day One (youth engagement), Collaborate Pasadena (city and school district collaborative), Head Start/Options, and PUSD Food Services & Health Services departments. City partners include: WIC, Choose Health LA

Kids, Human Services and Recreation, Maternal, Child, and Adolescent Health (MCAH), Black Infant Health (BIH), Tobacco Control, Drug and Alcohol Prevention, Economic Development, District 1 Councilmember, and Northwest Commission.

This partnership has evolved into four cohesive and action-oriented working groups to accomplish goals around prioritized strategies, many of them complementing the Community Health Improvement Plan (CHIP) priorities developed in 2013. The four working groups are: Food Security & School Meals, Edible Gardens, Community Engagement and Healthy Retail. Each working group has a strategic plan with target objectives to provide and increase access to healthy foods, beverages and opportunities for physical activity. Individual working groups meet outside of the larger CNAP group. Since its inception, CNAP partners have committed resources to the projects in the working groups. To date:

- **Healthy Retail-** Successfully completed two healthy corner store conversions with one in progress. Partner organizations are actively involved in early planning stages of the current corner store conversion at Chan's Market, including PUSD parent engagement and community surveying efforts.
- **Edible Gardens**- Hosted joint community events and garden tours at La Pintoresca Park for Food Day, Muir Ranch, Villa Verde Rooftop Garden and Harambee Community Garden. Community events included nutrition education, taste testing and gardening. The group is currently working on city-wide zoning policies around community gardens.
- **Community Engagement**- Partners are preparing to launch a NEOP media campaign to encourage, support and promote consistent messaging around nutrition and physical activity.
- **Food Security & School Meals**- Working group partners increased participation in PUSD Summer Meals program by 26% in the summer of 2015 through cross promotion and media/marketing efforts. PUSD secured funding for the Market Match program at the Villa Parke Farmers' Market, a SNAP-Ed eligible site.

In addition to our local partner's collaborative, we also participate in the Los Angeles County CNAP group. The group meets quarterly and consists of several agencies in LA County including FNS funded and unfunded partners.

7. **Key Messages**

X	Food Safety	X	Physical Activity	X	Fiber-Rich Foods

X	Sodium & Potassium				
X	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All educational materials, resources, and curriculum are approved through the USDA SNAP-Ed Connection website (https://snaped.fns.usda.gov/), and/or FFY 2017-2019 USDA approved California Department of Public Health- Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list.

PPHD NEOP reviewed the approved lists of integrated curriculum, materials, and resources and selected interventions that best reflect the needs of our target population and align with our SNAP-Ed three-year and annual objectives. A majority of the curricula is focused on general adult and family-centered education at eligible community centers and retail sites serving the SNAP-Ed population described in the target audience description below.

Curriculum and materials utilized in the development of this IWP were designed to be used in the garden, retail and community settings. The SNAP-ED Strategies and Interventions Toolkit was utilized to identify evidence-based obesity prevention programs and PSE strategies and interventions to include in SNAP-Ed plans. Specifically, we utilized the SNAP-Ed resource summary chart and the strategies and interventions by settings to make sure we were selecting resources appropriate for the setting we were going to be working in, retail and community, as well as appropriate for the audience and target population in these settings.

9. **Intervention and Evaluation Plan Narrative Summary**

Intervention Narrative Summary

PPHD NEOP will conduct comprehensive intervention strategies which target nutrition and physical activity behaviors and practices at key community SNAP-Ed eligible sites, reaching a large portion of the SNAP-Ed eligible population in Pasadena. All interventions and strategies included in this three-year IWP were selected from the approved SNAP-Ed Toolkit and California SNAP-Ed Integrated Curricula List. The state goals were an important component in determining our interventions as interventions needed to both support state goals and address the needs identified in the needs assessment. Our task was to ensure this information guided the direction and development of our 3-year objectives.

All intervention strategies determined and developed in the preparation of this IWP meet the evidence-based standards for research-tested, practice-tested, or emerging programs as defined in the SNAP-Ed Strategies Interventions: An Obesity Prevention Toolkit for States. We made an effort to include comprehensive, multi-level interventions at multiple complementary levels of the Social Ecological Model (SEM). PPHD understands the importance of utilizing a mix of intervention strategies to achieve PSE-related changes in Pasadena

In developing the IWP 3-year objectives, PPHD focused on showing progression from year one, to year two, through year three. Additionally, the objectives selected are based on city needs as identified in the community assessment portion of this IWP. The assessment data highlighted the need to increase access to healthy food, increase food security, increase education about healthy food choices and improve the nutrition and physical environments and marketing messages for low-income residents in the Northwest portion of the City of Pasadena. The 3-year objectives are based on these needs and also reflect relevant PSE strategies in the venues and settings where the target population lives, lives nearby and shops. The selected 3-year objectives address the following state level goals:

- Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages
- Goal 3: Improve Food Resource Management
- Goal 4: Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop

The intervention strategies selected include strategies in each of the SEM levels, including individual, environmental, and sectors of influence levels. In developing the 3-year objectives and considering the need for comprehensive interventions, we ensured we had interventions in each of the five intervention categories, as well made sure these interventions were provided in settings at each SEM level:

Intervention Category	Sample Activities	Setting	SEM level
CED = Community/Nutrition and Physical Activity Education Direct	Nutrition education classes	Garden Retail stores Community center	Individual
CEI = Community/Nutrition and Physical Activity Indirect	Community events	Garden Retail stores Community center	Individual, Environmental
MPR = Media, Social Media, Public Relations and Messaging	Consistent messaging media campaign	Garden Retail stores Community center	Sectors of Influence
C&C = Coordination and Collaboration	CNAP Coalition Meetings Working group partner meetings	Community centers	Sectors of Influence, Environmental
TTA = Training and Technical Assistance	CNAP partner, community center staff and CBO staff training Retail store owner training and TA	Garden Retail stores Community center	Environmental

The individual level intervention plan will be implemented by PPHD NEOP staff and trained extenders that interface and impact SNAP-Ed eligible population in the multiple settings. Activities include evidence-based education on proper nutrition and physical activity (direct and indirect) and train-the-trainer opportunities. PPHD NEOP will train and support CNAP partners, City staff and Champions for Change community members to assist in providing direct education in the community classrooms or at community events. Specific nutrition education will be provided to the SNAP-Ed population that aligns with recommendations from Choose MyPlate and Dietary Guidelines for Americans on topics such as selecting healthier foods and beverages, learning how to read nutrition labels, planning menus, budgeting food costs, healthy cooking, and gardening.

The intervention plan progresses to interventions at the environmental level of the Social Ecological Model (SEM) via the inclusion of policy, systems, and environmental (PSE) change efforts that include healthy vending and procurement policies that promote access to healthy foods and beverages in city property and when city funds are used. Institutional practices in community centers and CBOs that promote and support healthy foods and physical activity will be implemented and strengthen. These practices include: standards for all foods and beverages purchased, donated, offered and sold on site, provision of quality nutrition education, garden-based education and marketing guidelines for materials posted and shared on site. PSE efforts will

also be focused on improving the food environment in the retail stores with product placement strategies, healthy check-out lanes, smart snacking stations, smart beverage stations, shelf talkers, healthy items in prominent store locations and limiting or eliminating advertising for less healthy foods and beverages, especially at the children's eye level.

Progressing to the sector level of the SEM, we will identify strategic partners and community-wide, multi-sector coalitions to be convened to improve the nutrition and physical activity environment, conduct a community center and retail assessment, prioritize approaches and communicate our efforts to the community at large. Community engagement is a critical component of these efforts as the community voice is necessary to ensure our efforts are relevant and important to the community. Community members will be invited to participate at various levels of our coalition work and assessment work. This increased community engagement will increase the community's opportunity for not only input and feedback, but enhance their positive behavior change opportunities through the various health promoting activities we will be discussing, such as healthy shopping, growing food and gardening, and advocating for healthy changes in their communities. Community partners, CBOs and Champion residents will be educated about policy changes, healthier procurement practices and promotion of consistent healthy messaging.

CX3 assessments and informal assessments of the current food environment in key SNAP-Ed eligible neighborhoods revealed a need for improvement the nutrition and physical environment where SNAP-Ed eligible residents live and shop. Community centers and CBOs service thousands of low-income residents each year, with community centers in Northwest Pasadena servicing over 200,000 duplicated residents. As a result of these assessments and in addition to individual level interventions, PPHD NEOP will implement environmental and sector level interventions to improve the institutional practices and retail environment to support our policy, systems, and environmental (PSE) strategies, including the following PSEs:

1. **Healthy Vending and Procurement Policy**
2. **Healthy Retail**
3. **Edible Gardens**

All of these PSE strategies will be supported by the CNAP working groups, Champions for Change community members, and City staff through various interventions at multiple settings reaching the same SNAP-Ed eligible population.

Evaluation Plan Narrative Summary

The PPHD evaluation plan includes formative and process evaluation activities using State and locally developed surveys and tools. The Western Region's SNAP-Ed Evaluation Framework's (Framework) outcome indicators were utilized to ensure changes resulting from the comprehensive and multi-level approaches included in this IWP were documented. The Framework was used as a mechanism to identify, track, or report SNAP-Ed activities and to identify indicators of success. PPHD placed special focus to the priority indicators identified for FFY15 as indicators that would still be relevant for FFY17-19. These priority indicators measure the changes we want to evaluate, including changes in individual behaviors, food environment, and policies and systems changes that make the healthy choice the easy choice.

The evaluation activities PPHD will focus on for the three years include ATF and EARS data, PSE RE-AIM reports, CX3 assessments, participant and customer surveys, and stakeholder interviews. The purpose of the information gathered will be to inform and improve SNAP-Ed activities and services. The evaluation activities will also align with the Framework as a way to ensure outcome indicators identify what changes can be measured.

In order to successfully evaluate multiple approaches in the Framework, there are indicators of change that already align with the four levels in the SEM. Efforts that combine education to boost individual knowledge and skills with healthy food and activity environments reinforce healthy choices. The specific evaluation questions of the Framework (in the table below) at each level of the SEM will identify the change that we can measure.

Western Regions' SNAP-Ed Evaluation Overview

	Individual Level	Environmental	Sectors of Influence
Scope of Intervention:	Individual, family, or group-based nutrition education, physical activity promotion, and intervention strategies	Organizational changes, policies, rules, marketing, and access to make healthy choices easier	Community and public health approaches
Overarching Evaluation Question:	To what extent does SNAP-Ed programming improve participants' diet, physical activity, and health?	To what extent does SNAP-Ed programming facilitate access and create appeal for improved dietary and physical activity choices in the settings where nutrition education is provided?	To what extent is the SNAP-Ed grant program integrated into comprehensive strategies that collectively impact lifelong healthy eating and active living in low-income communities?

At the individual level, participants will complete evaluation surveys that address, but are not limited to, the following indicators from the Western Region SNAP-Ed Evaluation Framework: Nutrition, Physical Activity, and Obesity Prevention Outcomes: MyPlate Behaviors (MT1), Shopping Behaviors (MT2), Physical Activity Behaviors (MT3). At the environmental level, the SNAP-Ed Evaluation Framework priority indicators are: Opportunity Identification (ST4), Partnerships (ST6), Nutrition Supports Adopted (MT4), Physical Activity Supports Adopted (MT5) and Marketing/Messaging (MT6). All of these outcome indicators have been identified as priority or preferred indicators for FFY15 and we hope may still be considered as such for FY17-19.

All PSE projects will be reported using the RE-AIM evaluation framework to assess Reach, Effectiveness, Adoption, Implementation, and Maintenance (RE-AIM). The locally developed PSE tracking forms have made it consistently easier to monitor PSE site efforts and complete the RE-AIM Access database. Reports generated from the database will be used to track, inform and improve continued PSE program efforts.

Formative Evaluation

PPHD NEOP will conduct formative evaluation using assessments from the three SNAP-Ed eligible neighborhoods in FFY13-14 using Communities of Excellence in Nutrition, Physical Activity, and Obesity Prevention (CX³) surveys. The data results have guided Healthy Retail Program efforts to identify small stores with the greatest need and select strategies to improve CX³ scores. Before store conversions, community surveys and key informant interviews will be conducted at selected stores and neighboring areas to assess store owners and customer needs and preferences.

Process Evaluation

PPHD NEOP's process evaluation will be achieved and documented through the use of the CDPH's online Activity Tracking Form for the Federal SNAP Education and Administrative Reporting System (EARS). Project progress and deliverables will be ascertained from reports and utilized to identify challenges and successes for continual improvement of NEOP programming. Specific examples include customer surveys, store owner reports, and PPHD staff observations and reports; as well as pre and post surveys at direct education nutrition class in the garden, retail setting, community centers and CBO settings. These pre- and post-surveys will measure changes in food behaviors, nutrition knowledge, gardening skills, and more depending on the setting the nutrition education was provided and how they answer the specific evaluation questions of the Framework for that SEM level.

Additionally, after store conversions have been made at selected stores, PPHD NEOP will re-evaluate using the CX³ survey tool to measure improvement. PPHD NEOP is scheduled to reassess all three SNAP-Ed neighborhoods in FFY17.

Policy, Systems, and Environmental Change strategies implemented by PPHD NEOP will be monitored using the RE-AIM framework. All LHD PSE projects will be reported using the RE-AIM evaluation framework to assess Reach, Effectiveness, Adoption, Implementation, and Maintenance (RE-AIM). Data collected will be used for continual program improvement during implementation and maintenance phases and to identify future PSE interventions.

SECTION B: Target Audience Description

1. Gender	%		2. Age	#
Male	47%		0 to 4 years old (Preschool):	1,500
Female	53%		5 to 17 years old (School Age):	5,000
			18 to 59 years old (Adult):	27,000
			60 years old and over (Senior):	6,500

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

By September 30, 2019, PPHD NEOP staff will increase access to and demand for fruits, vegetables and healthy beverages at five SNAP-Ed qualifying neighborhood small food stores through on-going education, technical assistance on physical site changes and fruit and vegetable promotion.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Increasing availability and quality of produce
- Improving storage and handling of produce
- CX³ score improvements
- Healthy in-store marketing and promotions
- Store interior improvements
- Healthy retail recognition program

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 30, 2017, PPHD NEOP staff will meet at least four times with the CNAP Healthy Retail Working Group that includes at least six community and retail partners that serve SNAP-Ed eligible populations to assist with the implementation of the Healthy Retail Program with community engagement and the conversion process.
   b. By September 30, 2017, PPHD NEOP staff will conduct 1-2 assessments of the retail environment including CX³ surveys and 50-100 community surveys in three selected SNAP-Ed qualifying neighborhoods.

c. By September 30, 2017, PPHD NEOP staff will implement Healthy Retail Program activities and strategies with 1-2 new Healthy Retail partner store owners/managers that include: providing healthy marketing materials, resources and trainings; teaching nutrition education sessions; and hosting a community event to at least one qualifying small food retail location. On-going support will be provided to two participating Healthy Retail partner store owners/managers from FFY13-FFY16.
d. By September 30, 2017 PPHD NEOP staff will assist at least one Healthy Retail store in the SNAP-Ed qualifying neighborhoods to increase access and/or promotion of healthy foods and beverages through implementation of a complete Healthy Store conversion.

2. FFY 2018 (Year 2) Objective(s):

a. By September 30, 2018, PPHD NEOP staff will meet at least four times with the CNAP Healthy Retail Working Group that includes at least eight community and retail partners that serve SNAP-Ed eligible populations to assist with the implementation of the Healthy Retail Program with community engagement, conversion process and develop an implementation plan for a healthy retail recognition program.
b. By September 30, 2018, PPHD NEOP staff will conduct post CX³ assessments in at least one store that previously participated in the Healthy Retail Program.
c. By September 30, 2018, PPHD NEOP staff will implement the Healthy Retail Program activities and strategies with 1-2 store owners/managers that include: providing healthy marketing materials, resources and trainings; teaching nutrition education sessions; and hosting a community event to at least one qualifying small food retail location. On-going support and additional resources will be provided to 2-3 participating Healthy Retail partners from FFY13-FFY16.
d. By September 30, 2018 PPHD NEOP staff will assist at least one additional Healthy Retail store in the SNAP-Ed qualifying neighborhoods to increase access and/or promotion of healthy foods and beverages through implementation of a complete Healthy Store conversion, totaling five Healthy Retail stores.

3. FFY 2019 (Year 3) Objective(s):

a. By September 30, 2019, PPHD NEOP staff and the CNAP Healthy Retail Working Group will develop a plan to implement a healthy retail recognition program in SNAP-Ed qualifying neighborhoods.
b. By September 30, 2019, PPHD NEOP staff will conduct post CX³ assessments to at least one store that participated in the Healthy Retail Program.
c. By September 30, 2019, PPHD NEOP staff will provide ongoing support, training, technical assistance, resources, and nutrition education to the five participating Healthy Retail partners from FFY13-FFY19.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

City of Pasadena Public Health Department | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 6/14/2017**

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019, PPHD NEOP staff will increase access to and demand for fruits, vegetables and healthy beverages at five SNAP-Ed qualifying neighborhood small food stores through on-going education and technical assistance on physical site changes and fruit and vegetable promotion.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Continue to meet with the Healthy Retail Working Group at least four times per fiscal year. Working Group will assist in the Healthy Retail Program and advocate for healthy store changes. Recruit at least 2-4 new key partners per year. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**

By September 30, 2019, PPHD NEOP funded staff and community partners will promote and implement healthier institutional and individual practices at 6-8 eligible community centers and/or community based organizations (CBO) to support improved nutrition and physical activity behaviors through education, partner engagement and a NEOP media campaign to reach over 40,000 SNAP-Ed eligible residents.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Support existing community and school gardens with resources, technical assistance, and peer education training on garden-enhanced nutrition education.
- Amend City zoning ordinance to support the establishment and maintenance of community gardens in all qualifying residential zoning districts.
- Amend and implement the City of Pasadena Healthy Snack and Beverage Vending and Procurement Policy (henceforth “Procurement Policy”) to improve the nutrition and physical activity environment at SNAP-Ed community centers.
- Support implementation of healthy vending machines that offer and promote affordable healthier options; provide education, marketing and promotional support to help drive patronage at qualifying sites.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 30, 2017, PPHD NEOP staff and 15 trained extenders (parks and recreation leaders, CBO staff, community Champions and CNAP partners) will reach 1,200 SNAP-Ed eligible residents with direct education and 15000 with indirect education at 6 SNAP-Ed eligible community centers and/or CBOs, and 3-4 community or school gardens.
   b. By September 30, 2017, PPHD NEOP staff will meet quarterly with the CNAP Edible Gardens Working Group, which includes 10 community and City partners, to review local policies and procedures pertaining to community gardens, identify barriers and propose amendments that support the preservation and development of community gardens.
   c. By September 30, 2017, PPHD NEOP staff will engage with and assess at least 6 SNAP-Ed eligible community centers and/or CBOs for healthier eating and physical activity standards and practices.
   d. By September 30, 2017, PPHD NEOP staff and community partners will launch a NEOP media campaign to promote consistent nutrition and physical activity messaging at 3 SNAP-Ed eligible neighborhoods and at 6 qualifying community centers and/or CBO's.
   e. By September 30, 2017, PPHD NEOP staff will assess and amend the City of Pasadena Healthy Snack and Beverage Vending and Procurement Policy to mirror 2015-2020 Dietary Guidelines for Americans and school nutrition standards.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, PPHD NEOP staff and 25 trained extenders (parks and recreation leaders, CBO staff, community Champions and CNAP partners) will reach an additional 700 SNAP-Ed eligible residents with direct education and 10,000 residents with indirect education at 3-4 SNAP-Ed eligible community centers and/or CBOs and 2-3 community or school gardens.
   b. By September 30, 2018, PPHD NEOP staff will meet quarterly with the CNAP Edible Gardens Working Group, which includes 12 community and City partners, to advocate for and amend local policies and procedures to better support the preservation and development of community gardens.
   c. By September 30, 2018, PPHD NEOP staff will provide training and technical assistance to staff at 3-4 assessed SNAP-Ed eligible community centers and/or CBOs to implement healthier eating and physical activity standards and practices.
   d. By September 30, 2018, PPHD NEOP staff and community partners will distribute and display NEOP media campaign materials to promote consistent nutrition and physical activity messaging at 3 SNAP-Ed eligible neighborhoods and at 3-4 community centers and/or CBO's.
   e. By September 30, 2018, PPHD NEOP staff will implement and promote amended City of Pasadena Healthy Snack and Beverage Vending and Procurement Policy at 3-4 SNAP-Ed eligible community centers and/or CBOs.

3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, PPHD NEOP staff and 25 trained extenders (parks and recreation leaders, CBO staff, Champions and CNAP partners) will reach an additional 700 SNAP-Ed eligible residents with direct education, and 10,000 residents with indirect education at 3-4 SNAP-Ed eligible community centers and/or CBOs and 2-3 community or school gardens.
    b. By September 30, 2019, PPHD NEOP staff will meet quarterly with the CNAP Edible Gardens Working Group, which includes 15 community and City partners, to implement and increase awareness of amended policies and procedures pertaining to community gardens.
    c. By September 30, 2019, PPHD NEOP staff will provide support, training and technical assistance to staff at 3-4 SNAP-Ed eligible community centers and/or CBOs to promote healthier eating and physical activity standards and practices.
    d. By September 30, 2019, PPHD NEOP staff and community partners will continue to distribute and display NEOP media campaign materials to promote consistent nutrition and physical activity messaging at 3 SNAP-Ed eligible neighborhoods and at 3-4 community centers and/or CBO's.
    e. By September 30, 2019, PPHD NEOP staff will implement and promote amended City of Pasadena Healthy Snack and Beverage Vending and Procurement Policy at 3-4 SNAP-Ed eligible community centers and/or CBOs.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

City of Pasadena Public Health Department | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 6/14/2017**

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

By September 30, 2019, PPHD NEOP funded staff and community partners will implement and promote healthier institutional and individual practices at 6-8 eligible community centers and/or community based organizations (CBO) to support improved nutrition and physical activity behaviors among 40,000 SNAP-Ed eligible residents.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Assess current City of Pasadena Healthy Snack and Beverage Vending and Procurement Policy (henceforth "Procurement Policy") for consistency with 2015-2020 Dietary Guidelines for Americans and school nutrition standards.	CED: ; CEI: ; MPR: ; C&C: X ; TTA:	CWD: ; LHD: X ; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC: :	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1, Q2, Q3, Q4 Year 3: Q1, Q2, Q3, Q4	• Current Procurement Policy
2.2	Amend City of Pasadena Healthy Snack and Beverage Vending and Procurement Policy (henceforth "Procurement Policy") to include stricter healthy food and beverage standards. County Name: Placer County

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency Names**

x	**California Department of Social Services: CDSS: (Placer County Department of Health and Human Services: CWD)**
x	**University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)**
x	**California Department of Public Health: CDPH: (Local Health Department: LHD)**
x	**California Department of Aging: CDA: (PSA 4-Area 4 Area Agency on Aging: AAA)**
	Catholic Charities of California: CCC: (Catholic Charities of California: CCC)

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.

- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Demographics and Geographic Description

Placer County is a geographically diverse county in Northern California with a population of 361,518. The county is separated into three geographic areas: (1) the Foothills – Roseville to Penryn; (2) the Gold Country - Newcastle to Dutch Flat; and (3) the High Sierras - Alta to Tahoe. Based on American Community Survey (ACS) data from 2010-2014, the percentage of SNAP-Ed eligible people (income ≤ 185% FPL) living in Placer County is 20.1% (70,733). The demographic breakdown of the SNAP-Ed eligible population by age is: 27.0% (6,820) children < 6 years old; 22.7% (13,456) children 6 to 17 years old; 18.8% (39,786) adults aged 18-64 years old; and 19.0% (10,671) seniors aged 65 years and older. The demographic breakdown of the SNAP-Ed eligible population by race/ethnicity is: 68.0% White; 21.9% Hispanic; 4.5% Asian; 2.3% Multi-Racial, 1.8% African-American; 0.8% American Indian/Alaska Native; 0.4% Unknown and 0.3% Another Race. While the age distribution of the SNAP-Ed eligible people is similar to the rest of the state, a much larger percentage of SNAP-Ed eligible people identify as White (68.0% for Placer compared to 25.0% statewide) and a smaller percentage identify as Hispanic (21.9% for Placer compared to 55.3% statewide) or African American (1.8% for Placer compared to 7.2% statewide). There is a slightly higher percentage of people who identify as American Indian/Alaska Native (0.8% for Placer compared to 0.5% statewide). The primary language spoken in Placer County is English, with 14.9% of the population speaking a language other than English within the home (14.9% in Placer compared to 43.7% statewide).

Underserved Populations

Overall, there is a limited number of SNAP-Ed eligible census tracts, block groups, and schools in Placer since the County has a lower percentage of SNAP-Ed eligible people compared to California as a whole (20.1% for Placer compared to 33.3% statewide). The SNAP-Ed eligible population is also dispersed throughout Placer County, rather than concentrated in quantifiable low-income neighborhoods. These mixed income neighborhoods present a challenge for site qualification and the delivery of services. Of the 85 census tracks in Placer County, three (3.5%) are SNAP-Ed eligible (≥ 50% incomes ≤ 185% FPL) based on American Community Survey (ACS) 2010-2014 all races data. Of the 213 block groups in Placer County, 13 (6.1%) are SNAP-Ed eligible. With regard to schools, 23 out of Placer County's 134 schools (17.2%) are SNAP-Ed eligible (> 50% Free Reduced Price Meal (FRPM) enrollment) according to 2014-15 California Longitudinal Pupil Achievement Data System (CALPADS) Fall 1 data. Additionally, 8 of the 23 schools (34.8%) represent a non-traditional school, i.e. continuation, charter, center for learning, etc.

In addition to the American Community Survey, Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX^3) data identified three key neighborhoods as communities that could benefit from system-wide improvements in order to become healthier places to live, work, and play. These CX^3 neighborhoods include pockets of Lincoln, Sheridan and Kings Beach. Respectively, these communities have 54%, 23%, and 62%, of their populations living in poverty.

According to the 2013 CX[3] results, only 58% of Placer zip codes have grocery stores, produce stands, or farmer's markets. Within the three CX[3] neighborhoods, two do not have large grocery stores located in their census block group. 0% (zero of nine) of stores surveyed in the three neighborhoods met the CX[3] standards for healthy, affordable foods; 0% (zero of 11) of fast food outlets surveyed in the neighborhoods met the CX[3] standards for healthy food options and limitation of unhealthy food marketing practices.

Obesity and Nutrition Behaviors

According to the 2014 Community Health Interview Survey (CHIS), 27.1% of Placer County adults are overweight and 28.9% are obese. The percentage of overweight adults significantly dropped from 40.2% in 2013 to 27.1% in 2014; however, the percentage of obese adults significantly increased from 18.1% in 2013 to 28.9% in 2014. Among Placer County adolescents, 12.9% are reported to be either overweight or obese. With regard to fruit and vegetable consumption, 2012 CHIS data indicated 38.5% of Placer County children (aged 2 to 11) consume less than 5 servings of fruits/vegetables per day and nearly a quarter (23.2%) reported consuming less than two fruit servings the previous day (the day before the survey was completed). Among Placer County adolescents and adults, only one-third (33.0%) of adolescents and almost half (48.8%) of adults reported consuming 5+ servings of fruits and vegetables per day. This CHIS data reflects the general Placer County population, and fruit and vegetable consumption rates have not been assessed for the specific SNAP-Ed eligible population. Thus, county-wide versus SNAP-Ed population comparisons cannot be completed for fruit and vegetable consumption.

Physical Activity Behaviors

The 2014 Community Health Interview Survey also assessed physical activity levels in Placer County. For children aged 5-11, only 27.8% reported being physically active on 7 days in the past week (defined as 1 hour of physical activity). This is below the statewide average of 32.8% reporting one hour of physical activity per day in the past week, and falls well below the USDA guidelines which recommend all children and adolescents aged 6-17 get 60 minutes or more of physical activity per day. Additionally, 0% of Placer County teens reported getting 1 hour of physical activity every day in a typical week, and just over half (54.3%) of teens reported being physically active on 4 or more days/week. This is a significant decrease from 2012 when 18.8% of Placer County teens reported daily physical activity for at least 1-hour per day. Similar to the youth population, only 31.6% of Placer County adults reported moderate physical activity for 30 minutes at least 5 days per week, and 20.9% reported vigorous activity at least 20 minutes/day on 3 days out of the week.

Food Insecurity

With regard to food insecurity, Placer County has an overall food insecurity rate of 12.5%, and 19.7% of Placer County children are reported to be living in food insecure households. In 2013, the Placer Community Foundation published a report estimating that one in eight individuals in its service area (Placer, El Dorado, and Nevada Counties) do not know where their next meal will come from and that 30,000 or one in three of these individuals are children. The primary cause of

hunger and food insecurity is reported to be cost and availability of food, and many Placer County residents reported an increased reliance on food banks as a primary source of groceries, rather than as a supplemental source of sustenance.

There are other providers in the counties assisting with food insecurity, and in FFY2013, the Placer Food Bank distributed nearly 6.1 million pounds of food to more than 60 agencies and fed over half a million people as a result. In addition to the Placer Food Bank, the CalFresh program assists qualified families and individuals obtain healthy food options. While use of the CalFresh program in Placer County has increased by approximately 200% since 2008, 58% of eligible families are still not participating in the program.

4. **Community Assessment**

According to the 2014 County Health Ranking and Roadmaps Report released by the Robert Wood Johnson Foundation, Placer County ranks as the 2nd healthiest county in California. Despite this high ranking, improvements in health behaviors and health-promoting environments are still needed. In order to identify areas of focus for this FFY17-19 Integrated Work Plan, the following sources were utilized: 2010-2014 American Community Survey (ACS), California Health Interview Survey (CHIS), The Robert Wood Johnson Community Health Rankings/Roadmaps – County Profiles, Placer County Food Systems - A Report to the Community, 2012 CX3 community assessment results, Placer County Maternal Child and Adolescent Health Community Health Status Report, as well as from input and experiences gained by local partners and the 3 other Local Implementing Agencies (LIAs). Additional information is detailed below:

Community Health Interview Survey results indicate an increased need to focus on physical activity behaviors. Over time, physical activity rates among all Placer County residents have decreased, while obesity rates have simultaneously increased. Placer County residents are not meeting the USDA recommended guidelines for physical activity, and making system-wide changes to encourage physical activity will be a greater focus in the upcoming SNAP-Ed activities.

Through discussion with the Placer County WIC program, an increased need for breastfeeding-supportive environments has been identified. WIC completed an assessment in 2014 of the local hospital and healthcare providers to identify whether they support breastfeeding efforts; however early childcare centers were not included in this assessment. Thus, an assessment of early childcare centers and their breastfeeding/lactation accommodations for parents will be conducted.

UCCE continues to identify a strong need to address the school environment with regard to both physical activity and healthy eating behaviors. The focus, however, will broaden outside of direct education, and expand to a more robust “whole-site” approach that will incorporate indirect education as well as PSE strategies which will help strengthen the overall school environments.

Area 4 Agency on Aging (A4AA) conducts its own needs assessments to determine what types of services are needed most by older adults, age 60+, as well as their care givers. Results from the assessments in 2009 and 2012 show a significant increase of “food being considered a major concern.” In the 2009 study, “Having enough food to eat” ranked last (22nd overall); in the abbreviated assessment in 2012, it rose to the 6th concern. There appears to be a variety of

recession-related reasons for this trend, including shortages of surplus food for homeless seniors, shortages of food commodities for low-income seniors, and increasing waiting lists for A4AA-funded home-delivered meals. In addition to access to food, A4AA is well aware of the incidence of chronic disease and poor physical health of many older adults. For this reason, local intervention strategies in FFY17-19 will include curricula focused on increasing access to and consumption of fruits and vegetables as well as encouragement of physical activity.

The Placer County Maternal Child and Adolescent Health program updated their Community Health Status Report in 2014 and noted relevant data regarding nutrition and physical activity. They report that 1.) 25% of residents aged 2-5 enrolled in the Child Health and Disability Prevention (CHDP) program are overweight, 2.) 25.8% of public school students in grades 5, 7, 9, and 11 are overweight or obese, and 3.) 12.8% of residents in grades 5, 7, 9, and 11 are overweight according to the Fitnessgram test. Additionally, the MCAH report found that 41.4% of females aged 15-44 are overweight or obese. This data supports the need to continue intervening and providing services throughout Placer County that support healthy eating and physical activity.

The LHD does not currently have a social media platform designated for the NEOP program and other SNAP-Ed activities. Social media platforms and the internet are one of the primary means of resource sharing today, and the current ability to utilize social media messages will be addressed in the FFY17-19 objectives. A designated website and social media platform for SNAP-Ed activities will allow for greater collaboration among partners and sharing of knowledge and resources for community members.

5. **Community Change Goals**

As mentioned previously, Placer County ranks as the 2nd healthiest county in California according to the Robert Wood Johnson Foundation County Health Rankings and Roadmaps Report. Despite this ranking, there is still room for improvement of individual health indicators, as well as within specific concentrations or clusters of the population. The Placer County LHD is currently working on a comprehensive Community Health Status Assessment (CHSA) which will help to identify these indicators and prioritize the county's health needs. A county-wide CHSA has not been completed for Placer County since 1999, and as a result, community assessments and data from other organizations throughout the county (as detailed in the Community Assessment section above) have been utilized in order to identify Placer County's areas of focus: 1.) healthy eating and physical activity behaviors and their relationship to the built environment, and 2.) building community capacity to support healthy eating and physical activity initiatives.

These two overarching areas of focus will be addressed by SNAP-Ed LIAs in the FFY17-19 work plan by accomplishing the following 3-year objectives:

1. By September 30, 2019, increase knowledge, access and appeal of healthy dietary choices and physical activity at 20 SNAP-Ed qualifying early child care centers, preschools, and schools.

2. By September 30, 2019, collaborate with 10 SNAP-Ed qualifying community-based sites, including but not limited to faith-based organizations, community gardens, produce stands, public housing, CalFresh offices, and farmers markets to increase knowledge, access, and appeal of healthy dietary choices and physical activity.
3. By September 30, 2019, LIAs will reach 1000 SNAP-Ed eligible community members by means of the CNAP partnership, 2 platforms of social media/internet (i.e. Facebook, Twitter, etc.), and community-based technical assistance trainings in order to build community capacity, share resources, and collaborate with partners to support SNAP-Ed activities.

Within each 3-year objective listed above, multiple 1-year objectives have also been identified and are described in this IWP.

LIAs will work together to support these 3-year and 1-year objectives through a variety of means, including but not limited to the following:

- building capacity and engagement at school sites by conducting comprehensive nutrition and physical activity programs,
- collaborating with schools and school districts to strengthen and/or develop school wellness initiatives supporting healthy eating and daily physical activity,
- ensuring the built environment surrounding SNAP-Ed eligible populations by providing ample healthy eating and physical activity opportunities,
- assessing lactation policies at childcare locations and to ensure they support recommended breastfeeding practices,
- convening a community-wide, multi-sector collaborative with local partners that focuses on improving nutrition and physical activity, and
- developing and sustaining a targeted social media campaign through a variety of platforms to educate the community and build a sustained level of capacity among local partners.

These activities described above allow SNAP-Ed funded LIAs to focus on our larger community change goals within the parameters of SNAP-Ed funds, and the following PSE strategies will be utilized throughout the FFY17-19 work plan:

- School wellness initiatives
- Access to healthy foods, beverages, and physical activity
- Access to breastfeeding friendly environments
- Built environment support of healthy eating and physical activity behaviors
- Knowledge and appeal of healthy foods/physical activity through social media and the internet
- Resource sharing to build community capacity and sustain long-term environmental changes

These PSE strategies will be implemented in the following settings, including but not limited, to:

- Early childhood education settings
- School settings
- Community organizations and other community-managed venues
- Social media platforms and the internet

Placer County's SNAP-Ed funded LIAs will focus their efforts on the SNAP-Ed eligible portion of the county's population and on SNAP-Ed allowable interventions and activities which align with the United States Department of Agriculture (USDA)-Western Regional Office (WRO) Evaluation Framework. Because Placer County's SNAP-Ed eligible population is so small, we envision our efforts within the SNAP-Ed eligible population will be acknowledged by other communities, and that non-SNAP-Ed eligible communities will follow our lead by implementing their own initiatives to build an environment which can better support healthy eating and physical activity.

6. **Partnerships and Collaborative Efforts**

The Placer CNAP Partnership is committed to improving the health outcomes of priority populations living at or below the federal poverty level through education, increased access to healthy foods and beverages, and promotion of an active lifestyle. The partnership includes representatives from more than 18 public, private, and non-profit organizations, including but not limited to the following organizations: Placer County Public Health, UC CalFresh, Area 4 Agency on Aging, Placer County Human Services, Public Health Institute, Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), PlacerGROWN, Lighthouse Counseling and Family Resource Center, Latino Leadership Council, Project MANA (Making Adequate Nutrition Accessible), Placer Food Bank, Placer Food Closet Collaboration, Auburn Interfaith Food Closet, Chapa De Indian Health Services, Boys & Girls Club of Placer County, Community Garden Network Program, Tahoe Truckee Unified School District, Tahoe Truckee Nutrition Coalition, Seniors First and Placer County Office of Education (PCOE). Outreach will continue to be made to organizations within the community in order to recruit them to join the CNAP Partnership. LIA's will also promote SNAP-Ed services and activities by connecting with other agencies, such as the County Welfare Department, Family Resource Agencies, etc.

The mission of the Placer County Nutrition Action Plan (CNAP) Partnership is to leverage existing resources to promote and maximize community access to healthy foods and active living. CNAP partners collaborate to support the goals of the Local Implementing Agencies (LIAs). CNAP goals include: (1) Standardize and increase nutrition education messages throughout the county; (2) Provide nutrition and physical activity education opportunities and resources to priority populations; (3) Increase access to fresh produce in priority neighborhoods through farmers' markets, produce stands, and public gardens; and (4) Increase healthy choices in grocery and convenience stores. In addition to the goals stated above, more tailored objectives are discussed at each CNAP meeting in order to capture the current happenings in Placer County.

7. **Key Messages**

x	Food Safety	x	Physical Activity	x	Fiber-Rich Foods
x	Whole Grains	x	My Plate-Healthy Eating Plan	x	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
x	Fruits & Vegetables	x	Limit Added Sugars or Caloric Sweeteners		Other *(specify):*
x	Fats and Oils	x	Food Shopping/ Preparation		Other *(specify)*:
x	Lean Meat & Beans				
x	Sodium & Potassium				
x	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All educational materials, resources, and curriculum will be approved through the USDA SNAP-Ed Connection website (https://snaped.fns.usda.gov/), and/or FFY 2017-2019 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the California Department of Public Health - Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list, and the SNAP-Ed Integrated Curricula List.

Placer County reviewed the approved integrated curriculum list provided by the state agencies, and reviewed each different piece to determine the best option for our target population. Curriculum, materials and resources were chosen to best reflect the needs of the population, as well as our chosen SNAP-Ed three-year and annual objectives.

9. **Intervention and Evaluation Plan Narrative Summary**

Intervention Plan Summary

The implementing agencies (AAA, UCCE, CWD and LHD) in Placer County will collaborate to provide comprehensive, multi-level interventions that address nutrition and physical activity through a variety of strategies. Approaches will be broad-based and will seek to influence all levels of the Social Ecological Model, including the individual, interpersonal, organizational, community, and public sectors. Placer County LIA's will utilize all intervention categories to deliver this comprehensive "whole-site" approach, and the combination of providing direct services for nutrition education and physical activity promotion, training and technical assistance, and coordination/collaboration among local partners will provide the greatest potential for accomplishing system-wide change. Because Placer County's SNAP-Ed eligible population is dispersed throughout the region, rather than within concentrated low-income neighborhoods, implementing comprehensive strategies within each eligible site is essential.

The intervention activities for FFY17-19 address all five State Level Goals. More specifically, activities for Local Objective #1 address State Goals #1, #2, #4, and #5 by focusing on both the behavioral and environmental influences that impact one's access to and appeal of healthy dietary choices and physical activity. Local Objective #2 addresses all 5 State Goals as this objective seeks to influence both individuals and organizations within the community in order to promote healthy eating, food resource management, and physical fitness. Finally, activities for Local Objective #3 address State Goals #1, #2, #4, and #5 as this objective uses social media and community capacity building to deliver widespread health-related messages. All activities throughout the IWP support Placer County's overarching goal of addressing healthy eating and physical activity behaviors (and their relationship to the built environment) while building community capacity to support and sustain these initiatives.

Beginning with direct and indirect education, a variety of sites will be utilized to promote healthy eating and active living, including preschools, elementary, middle, and high schools, community gardens, food banks, places of worship, public housing, among other community venues. Building upon existing relationships with schools, LIAs will continue to provide direct nutrition and physical activity education services. Curriculum will include but is not limited to Farm to Fork/My Amazing Body, Harvest of the Month, Happy Healthy Me, Nutrition to Grow On, and Eat Play Grow. Utilizing a variety of school-based programs exposes students to an assortment of teaching methods, all of which reinforce the same message promoting healthy eating and physical activity. Additionally, information regarding the students' activities will be provided indirectly to parents to encourage that the home environment supports the lessons being taught at school. LIAs will also train and support teachers as extenders to provide direct education in the classroom and in after school programs. In addition to schools, SNAP-Ed eligible individuals will receive direct and indirect education at community gardens, CalFresh offices, public housing sites, and faith-based organizations. Along with other curriculum, the Fruit, Vegetable, and Physical Activity Toolbox for Community Educators, MyPlate, Cooking Matters, and Harvest of the Month will all be utilized to teach lessons on nutrition, physical activity, and/or food resource management. For the elderly population in particular, AAA will target them through both direct and indirect education, including a series-based class on nutrition education and physical activity and the

distribution of approved materials such as MyPlate for Older Adults. Public Housing will serve as the primary sites for targeting the senior population because the county's senior care centers are not in a SNAP-Ed eligible census tract. Utilizing public housing sites also allows for AAA to collaborate with Seniors First who hosts the Senior Nutrition Program at the same location. Finally, AAA will partner with a local food bank to expand and/or enhance its service and ensure the needs of the elderly population are appropriately met.

In addition to the delivery of direct education, intervention activities will assess factors within the built environment, and a significant effort will be made to incorporate policy, systems, and environmental (PSE) change efforts. Within schools, wellness initiatives that promote access to healthy foods, beverages and physical activity are a key component in producing sustainable institutional change and will go hand-in-hand with the behavioral changes accomplished through direct education. Healthy nutrition and physical activity initiatives will be implemented in early child care and education settings, which will include but are not limited to standards for all foods and beverages offered on site, opportunities for daily physical activity, limits on screen time and the provision of quality nutrition education, garden-based and physical activity education, and marketing guidelines for materials posted and shared on site. PSE efforts will also be focused on improving the school lunchroom by utilizing Smarter Lunchrooms Movement (SLM) principles, such as managing portion sizes, increasing convenience and visibility of healthy foods, enhancing taste expectations, using suggestive selling approaches, and encouraging smart pricing strategies. In addition to addressing the environment surrounding food and physical activity in schools, breastfeeding accommodations will be assessed in early childcare centers using the California Fit Business Kit. Because there is a lowered prevalence of obesity among breastfed children, it is important that early child care centers support breastfeeding mothers. Outside of schools, community-based PSE efforts will also be made. Creating sustainable community gardens, addressing the nutrition of meals provided in public housing, integrating healthy living initiatives in faith-based organizations, and encouraging farmers markets to accept EBT represent only a few of the strategies that will be used within the community. Efforts will also be made to establish a joint use agreement with local cities/schools to ensure SNAP-Ed eligible community members can access a convenient place to participate in physical activity.

Progressing to the broadest sector of the Social Ecological Model, LIAs will identify strategic partners and community-wide coalitions will be convened to improve nutrition and physical activity. Establishing strong community partners is essential to producing sustainable change within SNAP-Ed eligible communities as their support will be needed to create and deliver interventions geared toward Placer County's target population. In order to reach community partners, social media sites will be used (i.e. Facebook, websites, etc.) as these technologies represent one of today's most successful methods of resource sharing. Utilizing online platforms to spread healthy eating and physical activity promoting messages will help build community capacity and interest in SNAP-Ed related activities, and all LIAs will be able to contribute to the dissemination of materials.

While LIA's work independently on intervention activities, the agencies all work to together to support SNAP-Ed eligible communities, and these efforts align with one another in such a way that is complementary rather than duplicative. Special attention will be given to provide opportunities for collaboration to ensure eligible sites receive the most comprehensive strategies possible, and each LIA will be leveraged for the unique resources each can provide.

Additionally, it is important to note that CWD activities are only included for the year FFY17, as FFY17 represents the final year in Public Health Institute's Get Fresh grant.

Evaluation Plan Summary

Evaluation processes will be used to assess and improve services for all intervention strategies. The evaluation plan includes formative, process, and outcome evaluation activities using state and locally approved surveys.

Formative and outcome evaluations will be collected using observations and pre/posttest surveys. This includes, but is not limited to, intent to change questions measuring current behavior and readiness to change, pre/post assessments measuring true behavior change, teacher observation tools assessing a teacher's perceived behavior change among students, and a teacher tasting tool assessing a teacher's perception of student's willingness to re-try foods at a later date. Process evaluation measures (i.e. number of nutrition education lessons conducted, number of food demonstrations conducted, number of participants reached, number of staff/volunteers trained) will be tracked using sign-in sheets and reported on the Activity Tracking Form and Quarterly Report. Participants will be requested to complete evaluation surveys that address indicators from the Western Region SNAP-Ed Evaluation Framework.

All LHD PSE projects will be reported using the RE-AIM evaluation framework to assess Reach, Effectiveness, Adoption, Implementation, and Maintenance (RE-AIM). Other interested LIAs may also utilize the RE-AIM reporting as appropriate. The RE-AIM framework will address whether the intervention reaches the priority population, is effective in achieving intended outcomes, is adopted by providers and settings, and is implemented with fidelity and in a manner that will be maintained over time. Throughout the implementation of the work plan and the evaluation of services provided, LIAs will collaborate to ensure that all intervention strategies are tailored to the Placer County population.

SECTION B: Target Audience Description

1. Gender	%

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

By September 30, 2019, increase knowledge, access and appeal of healthy dietary choices and physical activity of SNAP-Ed eligible individuals at 10 SNAP-Ed qualifying early child care centers, preschools, and schools.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- School wellness initiatives to promote access to healthy foods, beverages, and physical activity
- Increase access to breastfeeding friendly environments
- Smarter Lunchrooms Movement

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

    a. By September 30, 2017, provide 1500 SNAP-Ed eligible preschool/school-aged children and 500 parents of preschool/school-aged children at 5 sites with a combination of direct and indirect education to increase knowledge and appeal of healthy food choices and physical activity.

    b. By September 30, 2017, assess school wellness initiatives at 5 qualifying SNAP-Ed preschools or schools and identify areas for improvement that will support healthy eating behaviors and physical activity.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30, 2018, provide 1750 SNAP-Ed eligible preschool/school-aged children and 750 parents of preschool/school-aged children with a combination of direct and indirect education to increase knowledge and appeal of healthy food choices and physical activity.

b. By September 30, 2018, collaborate with 3 of the 5 schools assessed during Year 1. SNAP-Ed eligible preschools or schools to develop new school wellness initiatives, strengthen existing programs, or make changes to the school built environment that support healthy eating and physical activity behaviors.

3. **FFY 2019 (Year 3) Objective(s):**

a. By September 30, 2019, provide 2000 SNAP-Ed eligible preschool/school-aged children and 1000 parents of preschool/school-aged children at 5 sites with a combination of direct and indirect education to increase knowledge and appeal of healthy food choices.

b. By September 30, 2019, continue to develop new school wellness initiatives, strengthen existing programs, or make changes to the school built environment that support physical activity behaviors in 4 SNAP-Ed eligible preschools or schools.

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):
By September 30, 2019, increase knowledge, access and appeal of healthy dietary choices and physical activity at 20 SNAP-Ed qualifying early child care centers, preschools, and schools.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation

Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**

By September 30, 2019, collaborate with 10 SNAP-Ed qualifying community-based sites, including but not limited to faith based organizations, community gardens, produce stands, public housing, CalFresh offices, and farmers markets to increase knowledge, access, and appeal of healthy dietary choices and physical activity among SNAP-Ed eligible population.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Increase community-based access to healthy foods, beverages, and physical activity
- Improve the built environment to better support healthy eating and physical activity behaviors

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017, reach 400 community members through direct and/or indirect education at 5 SNAP-Ed qualifying sites, including but not limited to, food retail sites, community gardens, public housing sites, produce stands, places of worship, food banks, and farmers markets.

   b. By September 30, 2017, 5 SNAP-Ed qualifying community sites will be assessed to identify the presence/absence of PSE indicators that support healthy eating choices and physical activity and 1 site will begin developing plans for improvements.

   c. By September 30, 2017, conduct an assessment of the built environment in 5 SNAP-Ed qualifying neighborhoods and identify sites for joint use agreements.

2. **FFY 2018 (Year 2) Objective(s):**

   a. By September 30, 2018, reach 500 community members through direct and/or indirect education at 5 SNAP-Ed qualifying sites, including but not limited to, food retail sites, community gardens, public housing sites, produce stands, places of worship, food banks, and farmers markets.

   b. By September 30, 2018, 5 SNAP-Ed qualifying community sites will continue assessing PSE indicators that support healthy eating choices, and 2 sites will begin developing plans for improvements or will implement changes to support healthy eating and physical activity.

   c. By September 30, 2018, begin collaborating with 2 community sites to discuss the implementation of a joint use agreement.

2. **FFY 2019 (Year 3) Objective(s):**

   a. By September 30, 2019, reach 600 community members through direct and/or indirect education at 5 SNAP-Ed qualifying sites, including but not limited to, food retail sites, community gardens, public housing sites, produce stands, places of worship, food banks, and farmers markets.

   b. By September 30, 2019, 5 SNAP-Ed qualifying community sites will continue to be assessed to identify the presence/absence of PSE indicators that support healthy eating choices, and 3 sites will begin developing plans for improvements or will implement changes to support healthy eating and physical activity.

   c. By September 30, 2019, solidify 1 joint use agreement within a SNAP-Ed qualifying neighborhood.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Placer County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

By September 30, 2019, collaborate with 10 SNAP-Ed qualifying community-based sites, including but not limited to faith based organizations, community gardens, produce stands, public housing, CalFresh offices, and farmers markets to increase knowledge, access, and appeal of healthy dietary choices and physical activity.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation

Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019) Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**

By September 30, 2019, LIAs will reach 1000 SNAP-Ed eligible community members by means of the CNAP partnership, 2 platforms of social media/internet (i.e. Facebook, Twitter, etc.), and community-based technical assistance trainings in order to build community capacity, share resources, and collaborate with partners to support SNAP-Ed activities.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Use of social media to increase knowledge and promote access/appeal of healthy foods and physical activity
- Mobilize community partnerships to share resources, build community capacity, and sustain long-term environmental changes

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

    a. By September 30, 2017, establish 2 social media platforms and promote to 1000 SNAP-Ed eligible individuals in order to encourage healthy eating and physical activity.

    b. By September 30, 2017, maintain the CNAP partnership and coordinate the delivery of 1 community-based technical assistance trainings in order to build community capacity related to healthy eating and physical activity.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30, 2018, use 2 social media platforms to post 50 resources/educational materials and promote 5 community events in order to support healthy eating and physical activity.

    b. By September 30, 2018, maintain the CNAP partnership and coordinate the delivery of 2 community-based technical assistance trainings in order to build community capacity related to healthy eating and physical activity.

3. **FFY 2019 (Year 3) Objective(s):**

   a. By September 30, 2019, continue using 2 social media platforms to post 75 resources/educational materials and promote 10 community events in order to support healthy eating and physical activity.

   b. By September 30, 2019, maintain the CNAP partnership and coordinate the delivery of 3 community-based technical assistance trainings in order to build community capacity related to healthy eating and physical activity.

   c.

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):
By September 30, 2019, LIAs will reach 1000 SNAP-Ed eligible community members by means of the CNAP partnership, 2 platforms of social media/internet (i.e. Facebook, Twitter, etc.), and community-based technical assistance trainings in order to build community capacity, share resources, and collaborate with partners to support SNAP-Ed activities.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Maintain and update UC CalFresh Nutrition Education website for Placer and Nevada counties with nutrition education information and resources including nutrition newsletters, food safety instructions, informational videos, and local event announcements. FFY 2018 SNAP-Ed Budget

Organization Name:	California Department of Public Health
County/Jurisdiction:	County of Placer
FFY 2018 Total Budget:	**$343,692.00**
Budget Adjustment Request #:	

	Expenses*	FFY 2017 Carry-In Budget****	FFY 2017 Budget	FFY 2018 Budget	FFY 2017 Carry-In and FFY 2018 Budget	% Difference
1	Salaries/Benefits	$0	$232,145	$206,834	$206,834	-10.90%
2	Non-Capital Equipment/Supplies	$0	$5,454	$1,887	$1,887	-65.40%
3	Materials	$0	$8,325	$6,728	$6,728	-19.18%
4	Travel	$0	$17,117	$1,974	$1,974	-88.47%
5	Building/Space	$0	$0	$760	$760	
6	Maintenance	$0	$0	$0	$0	
7	Equipment and Other Capital Expenditures	$0	$0	$0	$0	
8	Contracts/Sub-Grants/ Agreements**	$44,829	$77,864	$28,971	$73,800	-5.22%
	Total Direct Costs:	**$44,829**	**$340,905**	**$247,154**	**$291,983**	-14.35%
9	Indirect Costs*** Indirect Cost Rate= 25 %	$0	$58,036	$51,709	$51,709	-10.90%
	Total Federal Funds	**$44,829**	**$398,941**	**$298,863**	**$343,692**	-13.85%

	Budget Categories	Justification For Greater Than 5% Difference From FFY 2017 Budget
1	Salaries/Benefits	Annual budget cut by 13.85% from FFY17 and the Public Health Program Manager has been removed from the budget.
2	Non-Capital Equipment/Supplies	Annual budget cut by 13.85% from FFY17 and fewer non-capital equipment/supply purchases are needed as many were purchased during FFY17.
3	Materials	Annual budget cut by 13.85% from FFY17 and fewer materials are needed as many were purchased during FFY17.
4	Travel	Travel was initially very overbudgeted. Due to Placer's close proximity to Sacramento and SNAP-Ed eligible sites, this has been reduced. This was corrected on a FFY17 budget that included FFY16 carry-in, and the amount budgeted for FFY18 is a more realistic amount for travel expenses.
5	Building/Space	N/A
6	Maintenance	N/A
7	Equipment and Other Capital Expenditures	N/A
8	Contracts/Sub-Grants/ Agreements**	Annual budget cut by 13.85% from FFY17, so the amount offered to subcontractors decreased.
9	Indirect Costs	Indirect costs decreased as salaries/benefits decreased.

*Provide narrative describing all expenses.

**Retain copies on site.

***Provide assurances that the indirect cost rate is an approved rate (Financial and Cost Policy Supplement).

****Please note that funds cannot be carried over into the next Federal Fiscal Year if the funds are in the last year of their 2-year period of performance.

1			IBCLC Lactation Consultant	IBCLC Lactation Consultant to provide direct and indirect education to SNAP-Ed Eligible population ($50/hour) $50/hour x 8 hours/week x 52 weeks = $20,800 : THE NEOP Program will contract with an IBCLC Lactation Consultant, and collaborate with WIC to provide direct and indirect breastfeeding education to SNAP-Ed Eligible individuals. She will provide breastfeeding support to mothers that are not participating in Placer County WIC's peer counseling program. Placer County WIC's peer counseling program only provides support to new breastfeeding mothers, not second time mothers or mothers with long term breastfeeding issues. She will also conduct community based "train the trainer" exercises to teach other practitioners how to provide breastfeeding support. The IBCLC Lactation Consultant will collaborate with the Placer County WIC Program and WIC Senior Nutritionist Marcia Barnes (who is also the NEOP Program Senior Nutritionist) to ensure the work is complementary and not duplicative.	$20,800	
2			Sami's Circuit	Physical activity vendor providing family friendly instruction around obesity prevention. The activity portion of the program is a physical fitness based circuit; however, the program includes messaging that focuses on physical activity, nutrition and self-esteem building. Sami's Circuit is the only local contractor whose program incorporates physical activity, nutrition education, and self-esteem building for youth. It has also been used in many Placer County schools with great success. Sami's Circuit is used for Indirect Education at eligible FRPM schools and SNAP-Ed eligible community sites. This vendor provides family friendly instruction around obesity prevention. Sami's Circuit works with the NEOP Health Educator to promote SNAP- Ed approved messages at the IE events through Rethink Your Drink Resources (Guide for Presenting Rethink your Drink and Spin Wheel Quiz) and a physical activity circuit to get parents and children moving. The activity portion of the program is a physical fitness based circuit using the SPARK format. Champions for Change physical activity resources are distributed to parents.	$5,000	

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: County of Placer

3			Latino Leadership Council	Latino Leadership Council will coordinate nutrition and obesity prevention efforts to the Latino SNAP-Ed eligible population in Placer County. Latino Leadership Council, Tahoe Truckee Nutrition Coalition, and Sami's Circuit were all chosen because they represent sole source contractors in Placer County. The Latino Leadership Council is the only organization to provide education, advocacy, and capacity building specifically for Latinos in Placer. Finally, the Latino Leadership Council is a current contractor in the FFY 16 SNAP-Ed work plan, and utilizing them in FFY 17 will allow for a successful continuation of services amongst their respected target population. The approved curriculum and resources used are Cooking Matters (Cooking Matters in Your Food Pantry), Fruit Vegetable and PA Toolbox for Community Educators, Rethink Your Drink and resources from Rethink Your Drink, eatfresh.org , and Champions for Change.	$24,000	
4			Tahoe Truckee Nutrition Coalition	Tahoe Truckee Nutrition Coalition will coordinate nutrition and obesity prevention efforts in the Tahoe/Truckee region of Placer County. Tahoe Truckee Nutrition Coalition represents a diverse group of health professionals in the Tahoe Truckee region, including physicians, dieticians, and exercise physiologists, and this coalition is the primary organization in the region that can provide nutrition education and technical assistance to both community members and schools. Finally, the Tahoe Truckee Nutrition Coalitio is current a contractor in the FFY 16 SNAP-Ed work plan, and utilizing them in FFY 17 will allow for a successful continuation of services amongst their respected target population	$24,000	
					Total Contracts/Sub-Grants/Agreements:	**$73,800**	

Total Direct Costs:	**$291,983**

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Plumas County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 01/20/2017**

County Name: Plumas

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
X	**California Department of Public Health: CDPH: Plumas County Public Health Agency (LHD)**
X	**California Department of Aging: CDA: (CSU, Chico Research Foundation (PSA3): AAA)**
	Catholic Charities of California: CCC: (Catholic Charities of California: CCC)

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.

- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.

[2] Defined as not running out of food at the end of the month.

[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.

[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Plumas County encompasses 2,553 square miles of rugged mountain terrain in northeast California, and is home to a low population density, and small, diffuse rural communities. The National Center for Frontier Communities ranks Plumas County as almost entirely Frontier Area, indicating the county's remoteness, geographic isolation, sparse population, lack of services, and extreme travel distances between communities. The USDA Food Access Research Atlas lists parts of the county as food desert, and the majority of the county as low income. US Census data from 2010 list the population of Plumas County at 20,007, down from 20,824 in 2000, and continuing to decline with an estimated population of 18,409 for 2015 in American Community Survey projections.

Of the total Plumas County population, 35.2% are SNAP-Ed eligible based on income (≤185% FPL), from the most recent 2015 data. This represents a total of 6,734 individuals. The percentage of children less than 6 years old that live at <185% FPL is 52% (665 individuals). The percentage of children 6-17 years old that live at <185% FPL is 50.5%% (1,080 individuals). The percentage of adults 18-64 years old that live at <185% FPL is 32.3% (3,720 individuals), a .5% increase from 2014. The percentage of seniors 65 years old or older that live at <185% FPL is 30.1% (1,269 individuals), a 4.1% increase from 2014. According to the 2014 US Census estimates the countywide population is identified as 90.9% White, 8.4% as Hispanic or Latino, 3.2% as American Indian or Alaska Native, 1.2% as Black or African American, 1.1% as Asian, and 0.1% as Native Hawaiian or Pacific Islander[1].

Only 11.3% of the SNAP eligible population participates in CalFresh (2,151 individuals), leaving more than 4,583 eligible individuals unserved in Plumas County. CalFresh participation has increased by 2.3% since 2014. Of the 7 census tracts in Plumas County, 6 are SNAP-Ed eligible (≥50% incomes ≤185% FPL) based on American Community Survey data from 2010-2014. Of the 13 schools in the county, 10 (71.4%) are SNAP-Ed eligible (≥50% FRPM enrollment). Overall, 49.7% of Plumas County students are SNAP-Ed eligible (1,073 individuals).

Overweight or obese adults in Plumas County represent 54.2% of the population, and 37.1% of the overweight or obese population is SNAP-Ed eligible. For children 12-17 years old, 97.7% are obese. The overall rate of food insecurity in the county is 18.6%, a 1% increase from 2014 levels, and 3.6% higher than California rates. For children, 28.6% experience food insecurity, a 1.7% increase from 2014, and 3.5% higher than California rates. The percentage of SNAP-Ed eligible adults that can always find fruits and vegetables in their neighborhood is 45.1%, lower than the California average of 66.7%. Among adults, 19% report having no leisure-time physical activity, higher than the California average of 17%.[2]

Plumas County is estimated by CDA to have about 7,227 seniors (60 years or older). It is one of 15 counties projected to have more than a 200% increase in its senior population from 1990 to 2020. According to Plumas County Community Health Profile in 2012, majority of the seniors lives on social security.

[1] Percentage total greater than 100 due to discrepancy in designation as "Two or More Races" and/or "White (Hispanic or Latino)."

[2] These data come from combined information from Del Norte, Siskiyou, Lassen, Trinity, Modoc, Plumas, and Sierra counties, and may not represent actual numbers for Plumas County.

4. **Community Assessment**

Information about Plumas County comes in part from the SNAP-Ed County Profiles prepared by CDPH which includes county-level data from a variety of sources such as American Communities Survey (ACS) five-year estimates (2010-2014), Department of Social Services CalFresh Annual Trends data, the California Health Interview Survey, and Feeding America's Map the Food Gap: Food Insecurity in Your County. Additional data sources include: US Census 2010 data; California Employment Development Department data; Mountain Food Security Assessment Report; Healthy Stores for a Healthy Community County Profile; County Health Rankings & Roadmaps; and California Healthy Kids Survey.

A Community Health Assessment (CHA) process, and the resulting Community Health Improvement Plan (CHIP) document, provides guidance for addressing community-identified needs and gaps in services in Plumas County. The CHA/CHIP process was undertaken in 2012 in coordination with National Association of County and City Health Officials (NACCHO), and involved significant participation from community members and local organizations. The issues that were identified during that process continue to guide the planning of SNAP-Ed project activities. A subsequent CHA/CHIP is in process at the time of this writing, and the information gathered in collaboration with community partners will directly inform SNAP-Ed activities and interventions.

Information gathered during the Communities of Excellence (CX3) survey indicated that an important area of focus for SNAP-Ed activities in Plumas County was the places where people shop. Accordingly, a significant amount of activities & interventions are planned in the retail environment for FFY 2017-2019, and the majority of Policy, System, and Environment (PSE) change will occur in this setting. Activities have been designed to provide education, training, and technical assistance to community food retail partners, and to assist in improving health outcomes for SNAP-Ed eligible adults & families in the places where they shop by connecting shopping behaviors with nutrition education. Secondarily, and based on the experience of previous years' SNAP-Ed work, farmers' markets and after school settings in SNAP-Ed eligible locations are also targeted.

A significant amount of interventions are planned in schools and preschools that are eligible based on Free and Reduced Price Meals (FRPM) or Child and Adult Care Food Program (CACFP) status. Although numbers fluctuate yearly at most school sites, data indicates that children and youth in Plumas County live in families at less than 185% FPL in percentages higher than California state averages, which continues to have an appreciable impact on healthy food & beverage consumption. Activities are also targeted at Early Childhood Education settings, in order to increase the scope of ages impacted by direct and indirect education.

Adult education strategies have been incorporated into SNAP-Ed activities based on economic and employment figures available for Plumas County. The SNAP-Ed eligible adult population for Plumas County is higher than the California average. This population is targeted through education about smart shopping choices and healthy options available to maintain healthy families, the result of which will be long-term health and economic benefit.

According to the California Department of Aging, there are 9,152 seniors in PSA 3 (60+) that are living in poverty. Residents of low-income communities have less access to healthy foods and an abundance of unhealthy foods compared to their higher income counterparts. The aging of the population is particularly noticeable in PSA 3, where the senior population is already a significant portion of the total population and is continuously growing.

A needs assessment conducted in FFY14 identified the needs and opportunities necessary to enhance nutrition education, physical activity, and food security for CalFresh-participating and/or eligible seniors at congregate meals sites. Gaps in services provided to the seniors in the counties assessed were also determined. In Plumas County, focus will be on developing a system to provide constant nutrition and physical activity information to seniors, to encourage them to eat healthy and live actively. This is essential, as 2015 Plumas County Congregate Meal site nutrition assessment showed that 46.8% of the senior population is considered to be in the high nutritional risk group and 31% are in moderate nutrition risk group. The assessment also showed that 72% eat fewer than two servings of fruits or vegetable per day.

5. **Community Change Goals**

There are five local objectives for the SNAP-Ed in Plumas County for FFY-2017-2019, all of which have been developed using the results of various community needs assessments. These local objectives include activities and interventions in the areas of: behaviors surrounding foods and beverage consumption; behaviors surrounding physical activity; behaviors surrounding food resource management; the appeal or access of healthy eating & drinking options; and access or appeal of physical activity opportunities.

By September 30, 2019, consumption of healthy food & beverages will be increased among children (at one Early Childhood Education site, four elementary school sites, and one afterschool program site), adults (for parents at one Early Childhood Education site, parents of four elementary school sites), and seniors (at 2-4 Senior Congregate Meal Sites) by providing direct & indirect education to increase knowledge about healthy options, to reach at least 650 Plumas County SNAP-Ed eligible individuals, measured using the USDA RE-AIM framework.

This will be accomplished by implementing the following PSE strategies: cultivating school gardens; the use of place-based messaging to promote access and appeal for healthy foods and beverages; improvement of infrastructure and environments to promote access and appeal for healthy foods and beverages; mobilization of community partnerships around healthy eating; assistance in the development of wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health; development of healthy signage and informational material for senior nutrition centers and other congregate meals providers; and the training of, or technical assistance to, community professionals on obesity prevention through healthy eating.

By September 30, 2019, physical activity will be increased among children (at one Early Childhood Education site, one afterschool program site, and one USDA Summer Meals site), adults (for parents at one Early Childhood Education site), and seniors (at 2-4 Senior Congregate Meal Sites) by providing direct & indirect

education to increase knowledge about the benefits of increased physical activity, to reach at least 150 Plumas County SNAP-Ed eligible individuals, measured using the USDA RE-AIM framework.

This will be accomplished by implementing the following PSE strategies: the use of community or place-based messaging to promote access and appeal of physical activity; improvement of infrastructure and environments to promote access and appeal of physical activity; mobilization of community partnerships around physical activity; development of Nutrition and Physical Activity Center (NPAC) using SNAP-Ed approved materials for senior nutrition centers and other congregate meals providers; and the training of, or technical assistance to, community professionals on obesity prevention through physical activity.

By September 30, 2019, food resource management skills & practices will be increased among adults by providing direct & indirect education to increase knowledge about the benefits of smart & healthy shopping on a budget, and increasing access to healthy options in the retail environment and emergency food access locations (including farmers' markets and food banks), to reach at least 90 Plumas County SNAP-Ed eligible individuals.

This will be accomplished by implementing the following PSE strategies: developing systems that refer and link SNAP recipients to SNAP-Ed, and vice versa; promotion of farmers markets, including SNAP at farmers markets; assisting in the development of nutrition standards at emergency food distribution sites; development of point-of-purchase marketing/signage at food retailers or food distribution sites; assisting in the creation of healthy checkout lanes or food retail policies and organizational practices.

By September 30, 2019, increase the appeal and accessibility of healthy food and beverage options among children, adults, and seniors by increasing access to healthy choices where they shop and learn, to impact at least 3,367 Plumas County SNAP-Ed eligible individuals.

This will be accomplished by implementing the following PSE strategies: development of systems that refer and link SNAP recipients to SNAP-Ed, and vice versa; promotion of farmers markets, including SNAP at farmers markets; participation in state or local food policy councils; assistance in the procurement of fresh, local produce at emergency food distribution sites; development of point-of-purchase marketing/signage at food retailers or food distribution sites; development of healthy signage and informational material for senior nutrition centers and other congregate meals providers.

By September 30, 2019, increase the appeal and accessibility of physical activity among children by improvements to infrastructure in and around school sites that promotes active transportation or active play, to reach 873 Plumas County SNAP-Ed eligible youth.

This will be accomplished by implementing the following PSE strategies: allowing for the use of school facilities for recreation during non-school hours; promotion of access/appeal to support physical activity or exercise.

The above objectives will achieve community change goals identified during previous and ongoing community assessment work, with the overall goal of reducing food insecurity across Plumas County. Currently the overall rate of food insecurity for Plumas County is 18.6%, and the food insecurity rate for children is 28.6%, rates which continue to rise.

A significant focus of improving food security rates is adult education in regard to healthy eating & shopping on a limited budget, with an emphasis on the retail environment (and in some cases emergency food distribution sites). Employment opportunities are limited in Plumas County, and many SNAP-Ed eligible families experience significant economic hardship. Transportation limitations and the disperse location of food shopping locations add to the difficulties that many SNAP-Ed eligible individuals experience. All of these factors indicate that one of the most efficient approaches for reducing food insecurity is to address the problem at the places where people obtain food. This approach also allows opportunities for meaningful collaboration with community partners.

Improving access to healthy options for the SNAP-Ed eligibility populations in the existing retail environment is another primary community change goal. By 2019, at least one food store retailer will have implemented a “healthy check-out” lane program, with the support of SNAP-Ed programming and resources. The work of this retail ally will be promoted locally and regionally through the Champions for Change campaign.

6. **Partnerships and Collaborative Efforts**

CNAP partners include a variety of community stakeholders and organizations. The majority of CNAP partners are organizations not funded under SNAP-Ed. The one exception is collaboration with the Area Agency on Aging (AAA), which receives SNAP-Ed funding through the California Department of Aging. For all other non-funded partners, the Plumas-Sierra Community Food Council (PSCFC) serves as the primary point-of-contact, and all CNAP activities occur in association & collaboration with this group. Members of the PSCFC/CNAP group include, but are not limited to: University of California Cooperative Extension; Food Bank of Northern Nevada; Eastern Plumas Community Action Network (food pantry; Community Action Network (two food pantry locations); Feather River College; Mountain Passages – Digging In Program (garden education); Plumas Farmers’ Guild; Quincy Certified Farmers’ Market; Quincy Natural Foods / Feather River Food Co-op; Five Foot Farm; Follow Your Heart Farm; Loping Coyote Farm; Rosewater Ranch. The group’s role is to coordinate United States Department of Agriculture (USDA) food program interventions and efforts to increase food security in the target population. Representatives from the AAA also collaborate in the CNAP process.

7. **Key Messages**

	Food Safety	X	Physical Activity		Fiber-Rich Foods

8. **Educational Materials, Resources and Curriculum**

All educational materials, resources, and curriculum used is from the approved USDA SNAP-Ed Connection website (https://snaped.fns.usda.gov/), and/or FFY 2017-2019 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the California Department of Public Health - Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list.

All curricula and materials will be defined and appropriate for the target audience. Most of our chosen curriculum reflects suggested curriculum and resources from approved sources, reflecting the detail identified in Section B: Target Audience Description of this document.

9. **Intervention and Evaluation Plan Narrative Summary**

The LHD implementing agency in Plumas County, Plumas County Public Health Agency (PCPHA), will provide evidence-based nutrition education and physical activity promotion activities to the SNAP-Ed eligible population of the county. Interventions and strategies will be based on USDA guidance provided in the March 2015 “Nutrition Education and Obesity Prevention” document. All evidence-based intervention strategies will promote 2010 USDA Dietary Guidelines, or the most recently published guidelines, accordingly. Delivery methods include:

- Children of Preschool Age and their Parents: Provide parent education through the preschool setting; encourage child care center and student participation in federal food and nutrition assistance (CACFP, WIC, and SNAP); provide evidence-based, early intervention nutrition education to low-income families at the Feather River College Child Development Center.

- Youth: Develop, implement, and evaluate school gardens, and promote intersections between garden and classroom curriculum throughout the entire academic career of students in Plumas County, and at all elementary school sites; improve student access to nutrition information and classroom curriculum to improve student understanding of nutrition information; provide hands-on access to fresh fruits and vegetables through taste tests or other methods at multiple elementary school sites.
- Adults: Conduct trainings that provide adults with the skills they need to consume healthy foods and beverages on a budget; promote the purchase and cultivation of CalFresh allowable seeds and plant starts in order to promote the consumption of fresh fruits and vegetables.
- Community: Increase availability of healthy food in retail, including farmers' markets, corner/country stores, and grocery stores; promote community gardens; promote local farms and their products; promote availability of healthy restaurants and food vendors; provide education and collaborate with key community outlets and stakeholders.
- CNAP: Collaborate with local food policy council to implement strategies designed to increase food security.

In regard to outreach to seniors, the responsible implementing agency in Plumas County is the Area Agency on Aging (AAA), through the Center for Healthy Communities ("CHC," AAA PSA3-LIA). Its intervention plan progresses at the environmental level of the Social Ecological Model (SEM) through the inclusion of policy, systems, and environmental (PSE) change efforts. A Nutrition and Physical Activity Center (NPAC) toolkit will be developed and provided as environmental support to SNAP-Ed eligible congregate meal sites to increase consumption of healthy foods and beverages, food safety, and increased physical activity among seniors at four congregate meal sites. The NPAC toolkit will feature the four lessons of Eat Smart, Live Strong, and each lesson will be featured for three months. The County Senior Services Staff will be provided with the NPAC toolkit, and supported with resources, training, and technical assistance related to the Eat Smart, Live Strong curriculum, and the use the NPAC toolkit. Effectiveness of the NPAC toolkit will be evaluated using the pre and post survey Food Behavior Checklist (FBC) and Rapid Assessment of Physical Activity (RAPA).

Aside from the NPAC, the County Senior Services Staff will be provided with training and technical assistance regarding nutrition, physical activity, gardening, food safety, and/or food resource management as they relate to the SNAP-Ed senior. Training the County Senior Services Staff will leverage resources to increase county capacity and the reach to the senior population. AAA will also participate in Plumas County Senior Health Fair to reach SNAP-Ed eligible seniors who do not go to senior congregate meal sites.

CHC will continue to collaborate with Plumas LHD to provide an evidenced-based direct nutrition/physical activity education program to the senior sites. CHC will also continue to coordinate with local SNAP-Ed LIAs to create a complete and collaborative county work plan.

Evaluation processes will be used to improve services for all local objectives and intervention strategies. The evaluation plan includes formative, process, and outcome evaluation activities using state and locally developed surveys. The actual number of SNAP-Ed eligible individuals reached through direct education and indirect education will be documented in ATF and EARS. PSE Success Stories will also be shared annually.

SECTION B: Target Audience Description

1. Gender	%
Male	55%
Female	45%
Total:	100%

2. Age	#
0 to 4 years old (Preschool):	90
5 to 17 years old (School Age):	1,023
18 to 59 years old (Adult):	3,367
60 years old and over (Senior):	200
	4,680

3. Ethnicity/Race

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**
By September 30, 2019, increase consumption of healthy food & beverages among children (at one Early Childhood Education site, four elementary school sites, and one afterschool program site), adults (for parents at one Early Childhood Education site, and parents of four elementary school sites), and seniors (at 2-4 Senior Congregate Meal Sites) by providing direct & indirect education to increase knowledge about healthy options, to reach at least 650 Plumas County SNAP-Ed eligible individuals, measured using the USDA RE-AIM framework.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
	Goal 4: Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Cultivate school gardens.
- Use place-based messaging to promote access and appeal for healthy foods and beverages.
- Improve infrastructure and environments to promote access and appeal for healthy foods and beverages.
- Mobilize community partnerships around healthy eating.
- Assist in the development of wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
- Develop healthy signage and informational material for senior nutrition centers and other congregate meals providers.
- Provide training or technical assistance to community professionals on obesity prevention through healthy eating.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, provide direct & indirect education about healthy eating to 10-30 SNAP-Ed eligible Early Childhood Education students age 0-5 and their families through train-the-trainer activities with staff, student interns, or volunteers.
    b. By September 30, 2017, provide direct & indirect education about healthy eating, including but not limited to hands-on garden education, to 250-400 SNAP-Ed eligible elementary school students age 6-13 and their families.

c. By September 30, 2017, provide direct education about healthy food & beverages to 5-10 SNAP-Ed eligible students age 13-17 involved in afterschool activities.
d. By September 30, 2017, provide technical assistance to a minimum of 2 congregate senior meal sites to promote healthy eating.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, provide technical assistance about healthy eating to staff, student interns, or volunteers at an Early Childhood Education site, resulting in direct and indirect education of 10-30 SNAP-Ed eligible students age 0-5 and their families.
   b. By September 30, 2018, provide direct & indirect education about healthy eating, including but not limited to hands-on garden education, to 250-400 SNAP-Ed eligible elementary school students age 6-13 and their families.
   c. By September 30, 2018, provide direct education about healthy food & beverages to 5-10 SNAP-Ed eligible students age 13-17 involved in afterschool activities.
   d. By September 30, 2018, provide Plumas Unified School District, Plumas Office of Education, and/or Early Childhood Education site(s) staff with technical assistance in the development of healthy food and beverage-focused school wellness policy language.
   e. By September 30, 2018, provide technical assistance to a minimum of 2 congregate senior meal sites to promote healthy eating.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, provide technical assistance about healthy eating to staff, student interns, or volunteers at an Early Childhood Education site, resulting in direct and indirect education of 10-30 SNAP-Ed eligible students age 0-5 and their families.
   b. By September 30, 2019, provide direct & indirect education about healthy eating, including but not limited to hands-on garden education, to 250-400 SNAP-Ed eligible elementary school students age 6-13 and their families.
   c. By September 30, 2019, provide direct education about healthy food & beverages to 5-10 SNAP-Ed eligible students age 13-17 involved in afterschool activities.
   d. By September 30, 2019, provide Plumas Unified School District, Plumas Office of Education, and/or Early Childhood Education site(s) staff with technical assistance in implementation of healthy food and beverage-focused school wellness policy.
   e. By September 30, 2019, provide technical assistance to a minimum of 2 congregate senior meal sites to promote healthy eating.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Plumas County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 01/20/2017**

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019, increase consumption of healthy food & beverages among children (at one Early Childhood Education site, four elementary school sites, and one afterschool program site), adults (for parents at one Early Childhood Education site, and parents of four elementary school sites), and seniors (at 2-4 Senior Congregate Meal Sites) by providing direct & indirect education to increase knowledge about healthy options, to reach at least 650 Plumas County SNAP-Ed eligible individuals, measured using the USDA RE-AIM framework.

Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**
By September 30, 2019, physical activity will be increased among children (at one Early Childhood Education site, one afterschool program site, and one USDA Summer Meals site), adults (for parents at one Early Childhood Education site), and seniors (at 2-4 Senior Congregate Meal Sites) by providing direct & indirect education to increase knowledge about the benefits of increased physical activity, to reach at least 150 Plumas County SNAP-Ed eligible individuals, measured using the USDA RE-AIM framework.

SNAP-Ed State Goals:

	Goal 1: Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
	Goal 4: Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Use community or place-based messaging to promote access and appeal of physical activity.
- Improve infrastructure and environments to promote access and appeal of physical activity.
- Mobilize community partnerships around physical activity.
- Develop healthy signage and informational material for senior nutrition centers and other congregate meals providers.
- Provide training or technical assistance to community professionals on obesity prevention through physical activity.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, increase opportunities for coordinated physical activity for 10-30 SNAP-Ed eligible Early Childhood Education students age 0-5.
    b. By September 30, 2017, provide direct & indirect education about the benefits of physical activity to 30-60 SNAP-Ed eligible Early Childhood Education students age 0-5 and their families.
    c. By September 30, 2017, increase opportunity coordinated physical activity for 75-150 SNAP-Ed eligible youth age 0-17 at Free Summer Meals site(s).

d. By September 30, 2017, provide direct education about active lifestyles to 5-10 SNAP-Ed eligible students age 13-17 involved in afterschool activities.
e. By September 30, 2017, provide technical assistance to a minimum of 2 congregate senior meal sites to promote active lifestyles.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, increase opportunities for coordinated physical activity for 10-30 SNAP-Ed eligible Early Childhood Education students age 0-5 through train-the-trainer activities with staff, student interns, and volunteers.
   b. By September 30, 2018, provide direct & indirect education about the benefits of physical activity to 30-60 SNAP-Ed eligible Early Childhood Education students age 0-5 and their families.
   c. By September 30, 2018, increase opportunity coordinated physical activity for 75-150 SNAP-Ed eligible youth age 0-17 at Free Summer Meals site(s).
   d. By September 30, 2018, provide direct education about active lifestyles to 5-10 SNAP-Ed eligible students age 13-17 involved in afterschool activities.
   e. By September 30, 2018, provide technical assistance to a minimum of 2 congregate senior meal sites to promote active lifestyles.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, provide training & technical assistance to staff, student interns, or volunteers at Early Childhood Education site(s) to increase opportunity for coordinated physical activity for 10-30 SNAP-Ed eligible students age 0-5.
   b. By September 30, 2019, increase opportunity coordinated physical activity for 75-150 SNAP-Ed eligible youth age 0-17 at Free Summer Meals site(s).
   c. By September 30, 2019, provide direct education about active lifestyles to 5-10 SNAP-Ed eligible students age 13-17 involved in afterschool activities.
   d. By September 30, 2019, provide technical assistance to a minimum of 2 congregate senior meal sites to promote active lifestyles.

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**
By September 30, 2019, increase food resource management skills & practices among adults by providing direct & indirect education to increase knowledge about the benefits of smart & healthy shopping on a budget, and increasing access to healthy options in the retail environment and emergency food access locations (including farmers' markets and food banks), to reach at least 90 Plumas County SNAP-Ed eligible individuals.

SNAP-Ed State Goals:

	Goal 1: Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
	Goal 4: Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Develop systems that refer and link SNAP recipients to SNAP-Ed, and vice versa.
- Promote farmers markets, including SNAP at farmers markets.
- Assist in the development of nutrition standards at emergency food distribution sites.
- Develop point-of-sale marketing/signage at food retailers or food distribution sites.
- Assist in the creation of healthy checkout lanes or food retail policies and organizational practices.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, provide direct education about food resource management skills to 10-30 SNAP-Ed eligible adults age 18+.
    b. By September 30, 2017, coordinate with at least one retail food outlet to provide information and technical assistance about improved interior store environment, increase access to healthy food options, and improved informational material and healthy advertising.
    c. By September 30, 2017, conduct 1-5 indirect education activities promoting farmers' markets and access to fresh fruits and vegetables.
    d. By September 30, 2017, provide indirect education about food resource management skills to 50-100 SNAP-Ed eligible adults age 18+ at emergency food distribution sites.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, provide direct education about food resource management skills to 10-30 SNAP-Ed eligible adults age 18+.
    b. By September 30, 2018, coordinate with at least one retail food outlet to provide technical assistance to improve interior store environment, increase access to healthy food options, and improve informational material and healthy advertising.
    c. By September 30, 2018, conduct 1-5 indirect education activities promoting farmers' markets and access to fresh fruits and vegetables.
    d. By September 30, 2018, provide indirect education about food resource management skills to 50-100 SNAP-Ed eligible adults age 18+ at emergency food distribution sites.

3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, provide direct education about food resource management skills to 10-30 SNAP-Ed eligible adults age 18+.
    b. By September 30, 2019, coordinate with at least two retail food outlets to provide information about improvements to interior store environments, increase access to healthy food options, and improved informational material and healthy advertising activities conducted during FFY 2018.
    c. By September 30, 2019, conduct 1-5 indirect education activities promoting farmers' markets and access to fresh fruits and vegetables.
    d. By September 30, 2019, provide direct education about food resource management skills to 5-20 SNAP-Ed eligible adults age 18+ at emergency food distribution sites.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Plumas County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 01/20/2017**

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):

By September 30, 2019, increase food resource management skills & practices among adults by providing direct & indirect education to increase knowledge about the benefits of smart & healthy shopping on a budget, and increasing access to healthy options in the retail environment and emergency food access locations (including farmers' markets and food banks), to reach at least 90 Plumas County SNAP-Ed eligible individuals.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Provide direct nutrition education to 10-30 adults 18+ years old, in order to connect shopping behaviors and choices at Farmers' Markets to better health outcomes. The SNAP-Ed eligible adult target population will include, but is not limited to, families of children engaged in Activities 1.2 and 1.4. Education will include menu planning, food budgeting, increased knowledge of MyPlate recommendations, and increased exposure and acceptance to new healthy foods. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):**
By September 30, 2019, increase the appeal and accessibility of healthy food and beverage options among children, adults, and seniors by increasing access to healthy choices where they shop and learn, to impact at least 3,367 Plumas County SNAP-Ed eligible individuals.

SNAP-Ed State Goals:

	Goal 1: Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Develop systems that refer and link SNAP recipients to SNAP-Ed, and vice versa.
- Promote farmers markets, including SNAP at farmers markets.
- Participate in state or local food policy councils.
- Assist in the procurement of fresh, local produce at emergency food distribution sites.
- Develop point-of-purchase marketing/signage at food retailers or food distribution sites.
- Develop healthy signage and informational material for senior nutrition centers and other congregate meals providers.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, conduct a food security needs assessment to identify potential barriers to accessing healthy food and beverages or access to physical activity.
    b. By September 30, 2017, promote the use of EBT or WIC benefits at at least one farmers' market location.
    c. By September 30, 2017, compile information about best practices in healthy retail food location incentive programs in coordination with a local food policy council.
    d. By September 30, 2017, coordinate with local farmers, community food council(s), farmers' market(s), and emergency food distribution site(s) to secure healthy food donations for SNAP-Ed eligible families.

e. By September 30, 2017, participate in an annual Senior Summit event.
f. By September 30, 2017, assist a minimum of two senior nutrition congregate meal sites to install a Nutrition and Physical Activity Center.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, coordinate with local farmers, community food council(s), farmers' market(s), and emergency food distribution site(s) to plan activities addressing barriers to accessing healthy food and beverages or access to physical activity identified in previous needs assessment.
   b. By September 30, 2018, promote the use of EBT or WIC benefits at at least one farmers' market location.
   c. By September 30, 2018, plan a Healthy Plumas County Retailer program in coordination with a local food policy council.
   d. By September 30, 2018, coordinate with local farmers, community food council(s), farmers' market(s), and emergency food distribution site(s) to secure healthy food donations for SNAP-Ed eligible families.
   e. By September 30, 2018, participate in an annual Senior Summit event.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, coordinate with local farmers, community food council(s), farmers' market(s), and emergency food distribution site(s) implement activities to address barriers to accessing healthy food and beverages or access to physical activity identified in previous needs assessment.
   b. By September 30, 2019, promote the use of EBT or WIC benefits at at least one farmers' market location.
   c. By September 30, 2019, coordinate with local food policy council to implement best practices in healthy retail food location incentive programs.
   d. By September 30, 2019, coordinate with local farmers, community food council(s), farmers' market(s), and emergency food distribution site(s) to secure healthy food donations for SNAP-Ed eligible families.
   e. By September 30, 2019, participate in an annual Senior Summit event.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Plumas County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 01/20/2017**

Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):

By September 30, 2019, increase the appeal and accessibility of healthy food and beverage options among children, adults, and seniors by increasing access to healthy choices where they shop and learn, to impact at least 3,367 Plumas County SNAP-Ed eligible individuals.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
4.1	Conduct a Community Health Needs Assessment that includes gathering information about access to healthy food and beverages, or opportunities for physical activity, and use this information for planning activities. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):**
By September 30, 2019, increase the appeal and accessibility of physical activity among children by improvements to infrastructure in and around school sites that promotes active transportation or active play, to reach 873 Plumas County SNAP-Ed eligible youth.

SNAP-Ed State Goals:

	Goal 1: Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
	Goal 4: Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Allow for the use of school facilities for recreation during non-school hours.
- Promote access/appeal to support physical activity or exercise.

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, increase opportunities for physical activity among school age youth age 6-17 by infrastructure improvements that encourage active transportation, active play, or otherwise enhance the built environment at at least one school site or adjoining location.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, increase opportunities for physical activity among school age youth age 6-17 by infrastructure improvements that encourage active transportation, active play, or otherwise enhance the built environment at 1-2 school sites or adjoining locations.

3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, increase opportunities for physical activity among school age youth age 6-17 by infrastructure improvements that encourage active transportation, active play, or otherwise enhance the built environment at 1-2 school sites or adjoining location

1. **SNAP-Ed Implementing Agency Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
X	**University of California: UC CalFresh UCCE: UC Cooperative Extension: UC CalFresh (UCCE)**
X	**California Department of Public Health: CDPH: Riverside University Health System - Public Health (RUHS-PH) (LHD)**
X	**California Department of Aging: CDA: County of Riverside, Office on Aging PSA21 (AAA)**
X	**Catholic Charities of California: CCC: Catholic Charities of San Bernardino & Riverside Counties (CCC)**

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.

[2] Defined as not running out of food at the end of the month.

[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.

[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Riverside County is considered the fourth largest county in California with a population exceeding 2.2 million residents. Of the 2.2 million residents, 16.3% of the population lives below the Federal Poverty Level (FPL). The primary language spoken at home among residents 5-17 years old living below the FPL is English only (42.9%), Spanish (54.7%), Asian and Pacific Island languages (0.4%), and speak other languages (0.3%). Among residents 18 years and older living below the FPL, 50.1% speak only English, 44.2% Spanish, 2.9% Asian and Pacific Island languages, 1.7% Indo-European languages, and 1% speak other languages (ACS Census, 2010-2014). Among the SNAP-Ed Eligible, 47.1% are children <6 years, 44.7% are children 7-17 years old, 32.7% are adults 18-64 years old, and 28.3% are seniors 65 years and older. However, of the 35.7% SNAP-Ed eligible, only 13.3% (290,231) of Riverside County residents participate in the CalFresh Supplemental Nutrition Assistance Program.

Out of the 453 census tracts in Riverside County, 121 (26.8%) are SNAP-Ed eligible. Additionally, of the 501 schools in Riverside County, 360 (71.9%) meet SNAP-Ed eligibility (>50% FRPM Enrollment) and 64% of all students in Riverside County are eligible for the Free and Reduced Price Meal program. An estimated 16.9% of all residents live below poverty level with an overall food insecurity rate of 12.7% and a child food insecurity rate of 24.1% in Riverside County. Children of Hispanic/Latino, American Indian and African American/Black descent are among the poorest (www.kidsdata.org). Cities considered to be “poverty pockets,” with higher percentages of people living below poverty level compared to the county average (16.9%) are: Desert Hot Springs 33.1%, Coachella 31.5%, Perris 26.3%, Hemet 24.0%, Blythe 23.2%, Indio 22.3%, Cathedral City 21.9%, Banning 21.2% and Moreno Valley 20.1% (U.S. Census, 2010-2014).

In Riverside County, the four leading chronic diseases (which accounted for 63% of all deaths) are heart disease, cancer, lung disease, and stroke. The most recent study from UCLA’s Center for Health Policy Research (March 2016) shows that 48% of adults in Riverside County have pre-diabetes, higher than California average (46%). Without intervention, up to 30% of people with pre-diabetes will develop type 2 diabetes within five years, and as much as 70 % will develop the disease in their lifetime. These chronic diseases are preventable by changing health behaviors such as physical inactivity, poor diet, and tobacco use (Riverside County Community Health Profile, 2013). Education and income generally correlate with better access to resources such as healthy foods, knowledge of healthy food choices, fitness facilities and health care. Economically disadvantaged individuals are at-risk of poor health behaviors and undesirable health outcomes.

In addition to the SNAP-Ed nutrition program, Riverside County residents have access to learning about healthy eating and active living through participation in other nutrition programs such as the Women, Infants and Children (WIC) program, Expanded Food and Nutrition Education program (EFNEP), Loving Support Breastfeeding program and the Nutrition and Physical Activity Self-Assessment for Child Care (NAP SACC) program. The first three programs target the individual sphere in the Social Ecological Model (SEM), while the NAP SACC program targets both the individual and the organizational levels. The Women Infants and Children (WIC) program is a federally funded nutrition program that provides supplemental foods, health care referrals, and nutrition education for low-income pregnant, breastfeeding, and non-breastfeeding postpartum women, infants and children up to age five who are found to be at nutritional risk. The Riverside County WIC program serves 88,800 participants per month via 18 WIC sites, 10 of which are co-located with the RUHS-Medical Clinics which are Federally Qualified Health Centers. Annually, from May through September, WIC participants at 11 of the WIC sites can participate in the Farmers Market Nutrition Program (FMNP) and receive FMNP coupons to redeem at six participating Certified Farmers’ Markets locations, which helps promote locally grown produce and increase access and consumption of fruits and vegetables. The Expanded Foods and Nutrition Education Program (EFNEP) is a federally-funded program through

USDA's National Institute of Food and Agriculture (USDA NIFA) that offers nutrition education to limited-resource families and children. In Riverside County, EFNEP is implemented through the University of California Cooperative Extension. The Loving Support Breastfeeding program provides direct service with a 24 hour bilingual breastfeeding helpline and policy and systems changes with the breastfeeding friendly physician designation, breastfeeding friendly childcare designation and lactation accommodation for businesses programs. As well, Loving Support staff is involved in the community with hospitals, WIC programs, and the Inland Empire Breastfeeding Coalition. The NAP SACC program works with center and family-based licensed child care providers to become NAP SACC certified. The Certification process includes a five hour training, menu approval by the Registered Dietitian, nutrition and physical activity curriculum, assessment of the nutrition and physical activity environment, and policies which include healthy celebrations and documented physical activity time.

The prevalence of overweight or obese adults in Riverside County is 65.9% overall and 63.1% among SNAP-Ed eligible adults; among children 12-17 years old, 41.7% are obese or overweight. In Riverside County, 54.4% of restaurants are fast-food restaurants, with 67.2% of all adults and 64.3% of SNAP-Ed adults consuming fast food one or more times in the past week. Among SNAP-Ed adults, 65.1% can always find fruits and vegetables in their neighborhood; however, only 37.9% of SNAP-Ed adults can always find affordable fruits and vegetables in their neighborhood (SNAP-Ed County Profiles-Riverside, 2015). Additionally, 6.2% of Riverside County residents had limited access to healthy foods. Nearly 73% of children 2-11 years old and 66.4% of children and teens 12-17 years old consumed two or more servings of fruits per day. Moreover, 39.9% of adults consumed one or more sugar-sweetened beverages or more per day.

Riverside County has 6.2 recreational facilities per 100,000 residents. Among Riverside County children and teens (2-17) only 14% were physically active for at least an hour every day. In addition, 19% of adults aged 20 and older reported no leisure-time physical activity. Riverside County ranks 24th out of 57 counties in health outcomes (Robert Wood Johnson Foundation, 2015). This was an improvement from the prior year, where Riverside County ranked 26th.

4. **Community Assessment**

This FFY17-19 Integrated Work Plan was developed using the most current information available from various sources listed in our FFY16 Integrated Work Plan (Community Assessment section), CX^3 community assessment results, Riverside County Community Health Survey – Strategic Health Alliance Pursuing Health Equity (SHAPE), 2014 and 2015 Healthy Riverside County Annual Report, and input from community partners.

Riverside University Health System - Public Health recently conducted the community health assessment through a series of community forums and the SHAPE Community Health Survey. Data was gathered from 69 zip codes and 3,480 county residents to identify the top health issues that local residents and neighborhood groups felt were important to the health of their communities. Among the top ten priority issues identified are items related to health and wellness including diabetes (ranked 3rd), walkable streets (8th), safe neighborhoods (9th), and grocery stores and healthy food (10th).

The 2014 Healthy Riverside County Annual Report outlines the burden of chronic diseases resulting in increased health care costs, loss of productivity, and premature death, and the importance of obesity prevention. This report identifies the four priorities for the Healthy Riverside County Initiative: healthy eating, active living, reducing tobacco use and building safe and healthy communities. The 2015 Healthy Riverside County Annual Report and Strategic Plan highlights many programs and policy changes including a new specification to provide water stations with bottle filling capability and drinking fountains in all leased facilities; offering healthy snacks in vending machines; planning for a county-sponsored farmers market and participation in physical activity competitions. The

strategic plan was developed through analyses of strengths, weaknesses, opportunities and threats (SWOT) on the four initiatives priorities. The plan was developed to help move from envisioning positive outcomes to implementing practical actions to accomplish the established goals. On July 2015, the county Board of Supervisors approved this plan. The strategies address the social determinants of health by way of three domains: schools, workplaces, and our communities/ neighborhood. It also serves as a road map for this important work and as an integral step in the long-term monitoring of the initiative's impact on community health.

Riverside County CalFresh participation data and poverty pocket areas of the county (discussed in Jurisdiction Description) was used to identify target communities in this FFY17-19 Integrated Work Plan. Although nine cities are found to have higher percentages of people living below poverty level compared to the county average (Desert Hot Springs, Coachella, Perris, Hemet, Blythe, Indio, Cathedral City, Banning and Moreno Valley), there are some parts of other cities that fit the poverty pocket criteria (for example, Eastside Riverside). We plan to target these communities as well. Assessment data shows that only 37% of SNAP-Ed eligible individuals in Riverside County participate in the CalFresh Supplemental Nutrition Assistance Program. In addition, over 60% of SNAP-Ed adults cannot always find affordable fruits and vegetables in their neighborhood. Our CX^3 data shows that our retail environment is lacking consistent and affordable fresh fruits and vegetables for our SNAP-Ed population.

The Office on Aging utilizes the California Aging Reporting System (CARS), with 53% of SNAP-Ed eligible older adults (those participating in senior nutrition education interventions) at high nutrition risk. In conducting over 800 local focus groups and surveys at congregate meal sites, over 40% depend on those meals five days per week, and over 50% have participated in the meal program more than 2 years. According to Health Assessment and Research for Communities (HARC), 4% of Coachella Valley seniors regularly skip meals or cut the size of meals, due to lack of access or income. Approximately 2,600 older adults in the Coachella Valley have reported not eating for an entire day because they have no food available. This proves the importance of congregate meal service, mobile delivery programs, and alternate emergency food sources paired with nutrition education and resource management skills. Lack of steady nutrient consumption and decreased physical activity contribute to chronic disease and frailty in the aging population. The Office on Aging is committed to providing physical activity classes crafted specifically to meet their mobility needs and encourage socialization.

Our community assessment points to the need to work on increasing access to healthy food and physical activity opportunities. SNAP-Ed eligible populations of Riverside County would benefit from nutrition education coupled with physical activity interventions, food security assistance, and implementation of policy, systems and environmental support changes. We narrowed down our site list to be able to provide more comprehensive programming and selected sites where the same families would receive multiple interventions in different settings. Our direct education reach decreases from FFY17 (26,580) to FFY19 (21,780), as all four SNAP-Ed implementing agencies are working towards PSE efforts. PSE reach numbers increase in FFY17 from 30,000 to 43,790 in FFY19.

5. Community Change Goals

Based on the Community Assessment, our community change goals will focus on 1) increasing access to and consumption of fruits and vegetables, and healthy beverages and 2) increasing awareness of and participation in food assistance programs such as WIC, CalFresh, National School Lunch Program, Summer Feeding programs, Child and Adult Care Food Program. The Riverside County SNAP-Ed LIA partnership decided to organize our local objectives around "Settings" (shop, learn, eat, live, work and play). In each setting, we plan to work, as applicable, on the physical and social environment outcomes listed in the California SNAP-Ed

Theory of Change Model, specifically to increase access to affordable fruits and vegetables through healthy retail, Senior Nutrition Farmers' Market coupons, community/school gardens and working with Feeding America food bank to bring Kid's produce markets to low income schools ; decrease access to sugar sweetened foods and beverages; increase access to healthy meals and snacks; increase access to physical activity; and increase skills and attitudes regarding healthy eating, physical activity and resource management. By addressing these five strategies, we expect to be able to impact the five behavior change outcomes: increase FV consumption, decrease added sugar consumption, increase diet quality of meals and snacks, increase food resource management, and increase physical activity.

We plan to address access to healthy foods (fruits, vegetables and healthy meals and snacks) by various approaches including healthy retail, establish/revitalize/maintain community and school gardens, and Smarter Lunchrooms Movement (SLM) strategies, etc. Currently, our CNAP group is developing a relationship with Feeding America Food Bank in Riverside, cooperating to increase access to healthy foods by SNAP-Ed eligible populations. Some ideas that we are exploring include conducting an environmental scan using CX^3 at food pantries in the targeted "poverty pocket" communities to measure accessibility to healthy foods, and making connections to set up a school pantry, or a student or senior center produce program. Moreover, to address food insecurity we plan to work with other CNAP members to increase awareness of the available resources to assist these families to become food secure. We are partnering with DPSS/CalFresh Outreach Branch to reach the underserved populations. In addition, Riverside County has over 20 sponsor agencies that provide summer meals services. CNAP members recognize the need to facilitate and coordinate amongst summer feeding program sponsors to address the food access/food insecurity concern and the sustainability of summer meals feeding program.

To decrease access to sugar-sweetened foods and beverages, we plan to provide Rethink Your Drink education, apply SLM strategies, and provide technical assistance in sharing best practices for healthy vending and procurement policy. We plan to increase access to physical activity in a number of ways including integration of active recess and CATCH/SPARK in preschool and school settings, playground stencils, and sustain our partnership with Safe Routes to School to encourage active transportation. Finally, to increase skills and attitudes regarding healthy eating, physical activity and resource management, we plan to reach SNAP-Ed eligible youth and adults with direct education using evidence based SNAP-Ed approved curricula and materials in conjunction with taste testing, food demonstrations, grocery store tours; indirect education through health fairs/events/posters, distribution of recipe cards and Harvest of the Month information, and other methods; and PSE change such as community gardens, healthy food and beverage policy, signage/murals, etc.

The four local objectives we plan to achieve during FFY17-19:

1) By September 30, 2019, at least seven SNAP-Ed qualifying communities will make changes to the physical environment and /or policies to support improved nutrition and physical activity behaviors among residents. (LIVE, PLAY & EAT)

2) By September 30, 2019, at least 10 school districts and/or afterschool programs will make physical changes to support healthy school environments and improve nutrition and physical activity behaviors amongst students, parents and teachers. (LEARN K12)

3) By September 30, 2019, at least 18 childcare, head start and/or preschool sites will implement changes related to healthy food and beverage/ access to water and environmental supports for physical activity. (LEARN PreK)

4) By September 30, 2019, 10-15 SNAP-Ed qualifying retail stores, 5-10 food pantry/school food pantry/ and/or emergency food sites, and 1-3 food banks will implement environmental and system changes and/or develop healthy food and beverage standards and distribution policies to increase fruit and vegetable awareness, knowledge and demand. (SHOP)

6. **Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or Comparable]**

The Riverside County SNAP-Ed LIA partners include the Riverside University Health System - Public Health (RUHS-PH), the UCCE/UC CalFresh of Riverside County, the Riverside County Office on Aging, and the Catholic Charities of San Bernardino & Riverside Counties. All four partners are funded through USDA SNAP-Ed and worked collaboratively to develop this three-year work plan.

Riverside County's Nutrition Action Plan (CNAP) was initially formed in 2007 and was mainly comprised of USDA funded partners. Over the years, CNAP grew to include funded and non-funded partners. In 2011, Riverside County formed a larger collaborative called the Riverside County Health Coalition (RCHC). This larger collaborative included public and private sectors, school districts, community businesses, local and regional organizations and community members. RCHC took on the four county priorities: healthy eating, active living, reduce tobacco use and build safe and healthy communities. CNAP became a sub-set and smaller group of RCHC members and other partners. While the RCHC focuses on all county residents, CNAP specifically addresses the needs of SNAP-Ed eligible residents in the county to coordinate USDA food program interventions.

LIAs will promote SNAP-Ed services and activities by connecting with other agencies and CNAP partners, such as the Women, Infants and Children (WIC) program, Riverside County Childcare Consortium, First 5 Riverside County, Riverside County Office of Education, UC Cooperative Extension Expanded Food and Nutrition Education Program (EFNEP), Riverside County Department of Public Social Services - Community Outreach Branch, Nuview Union School District, Alvord Unified School District, Jurupa Unified School District, Riverside Unified School District, Moreno Valley Unified School District, City of Riverside, City of Perris, Riverside County Agricultural Commissioner, Feeding America Riverside/San Bernardino Counties Food Bank, Reach Out, Desert Healthcare District, Dairy Council of California, Community Action Partnership of Riverside County and Family Services Association.

The CNAP group continues to meet at least three times a year. The CNAP meetings serve many purposes including sharing of best practices and expertise, strategic planning, and coordination among members so there is no overlapping and to ensure that services complement each other. The CNAP group continues to see the value of collective impact and is working together to address the state and local objectives and continue the momentum that the Riverside County Health Initiative has generated towards policy, systems and environmental change. The group plans to continue focusing on the same key areas identified in the FFY16 IWP, which align with the current state objectives and our five local objectives in this IWP:

1) Increased consumption of and access to fruits and vegetables and healthy beverages (which includes Smarter Lunchrooms Movement, access to water, summer feeding program, and breakfast in the classroom)

2) Increased awareness of and participation in food assistance programs (which includes training and support for healthy food pantries).

Examples of numerous on-going collaborative efforts are included in the intervention narrative summary. These efforts also involve other partners that are not typically present at the CNAP table such as Kaiser Permanente, Alliance for a Healthier Generation, Riverside Community Health Foundation, UC Cooperative

Extension Master Gardener Program, retail grocery stores, and multiple school districts – given the expanse of the county and multiple obligations. Connections with these partners are made on an individual, personalized basis as well as at the larger Riverside County Health Coalition and other collaborative meetings.

7. **Key Messages**

X	Food Safety	X	Physical Activity	X	Fiber-Rich Foods
X	Whole Grains	X	My Plate-Healthy Eating Plan	X	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
X	Fruits & Vegetables	X	Limit Added Sugars or Caloric Sweeteners	X	Other *(specify):* Rethink Your Drink
X	Fats and Oils	X	Food Shopping/ Preparation		Other *(specify)*:
X	Lean Meat & Beans				
X	Sodium & Potassium				
X	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All educational materials, resources and curriculum selected for Riverside County's FFY17-FFY19 work plan come from the California SNAP-Ed Integrated Curricula List and/or the SNAP-Ed Strategies and Interventions: An Obesity Prevention Toolkit for States, available at: https://snaped.fns.usda.gov/snap/SNAP-EdInterventionsToolkit.pdf. Each LIA partner reviewed the integrated list and selected approved materials appropriate for the intended SNAP-Ed targeted audience for the intervention. Each local objective will list the curriculum, toolkit, and/or resource used for each activity and SNAP-Ed funded partner(s).

9. **Intervention and Evaluation Plan Narrative Summary**

Intervention Summary

Just as in FFY16, LHD will continue to subcontract funds to four targeted communities: Riverside (City of Riverside), Perris (City of Perris), Jurupa Valley (Reach Out and Jurupa Unified School District [JUSD]) and Desert Hot Springs (Desert Healthcare District) for FFY17-FFY19. Together, the four LIAs and LHD subcontractors will collaborate to deliver evidenced-based obesity prevention programs and identify policy, systems and environmental (PSE) change strategies utilizing multi-level interventions and public health approaches.

Over the next three years, the four LIA partners and subcontractors will address five local objectives. Each of these local objectives will focus on an environmental setting (LIVE, LEARN, SHOP, PLAY and EAT) and together will have a broader reach of children, adults and seniors. Interventions will include nutrition education, both direct and indirect, and support PSE strategies to be more effective in addressing obesity in the county's SNAP-Ed population. The information gathered in the jurisdiction description assisted the LIA partners in identifying which communities within the county had the greatest need for

concentrated interventions. Areas of the county identified as "poverty pockets" are the primary focus. Poverty pockets are defined as cities with higher percentages of people living below poverty level, compared to the county average of 16.9%. We will coordinate activities to complement each other if we serve the same areas so there is no overlap.

Objective 1 (LIVE, PLAY, EAT) (Fourteen PSE changes over the three year period.)

LIAs will be addressing interventions conducted where people **Live**, **Play** and **Eat**. Together, the four SNAP-Ed funded agencies will collaborate to address the needs of SNAP-Ed individuals in seven qualifying communities to promote healthy food and beverage strategies, increase skills and attitudes towards healthy eating, active living, and resource management. Year 1 will focus on building partnerships to support the interventions in five qualifying communities, and then in year 2 we will continue collaborating and building partnerships and add an additional community and then do the same in year 3, for a total of seven communities by 2019. Objective 1 will allow us to work with SNAP-Ed individuals of all ages; LHD and UCCE will reach children, youth and adults through parks, community centers, youth centers, and/or faith based organizations and CCC and AAA will reach adults and seniors participating in community centers, congregate meal sites and faith based organizations. UCCE is currently working with the Torres Martinez Indian Reservation (Thermal/Salton City area) to provide direct and indirect education to youth and adults. They will continue to build on this relationship in the next three years. In FFY16, LHD made a connection with the Morongo Band of Mission Indians (Banning/Cabazon area) and had the opportunity to participate in an event on the reservation. In FFY17, we hope to build this partnership and provide direct and indirect education over the next three years.

All LIAs and the LHD subcontractors will conduct direct education using a combination of single session and class series, workshops and spotlight education, as appropriate. From past experience, we found that not every participant is at the same stage of change and a brief 15-minute educational session (spotlight) could be effective in delivering a focused message. When possible, indirect education in the form of posters, videos, brochures and online resources/social media will be used to reinforce the messages SNAP-Ed individuals received through direct education. We plan to use different PSE strategies to complement direct and indirect education including a community garden, sharing of model healthy food and beverage standards and hydration stations to increase access to water, and create awareness and facilitate opportunities for physical activity through the use of stencils, bingocize and physical activity classes

LHD plans to identify "Community Champions" such as residents, physicians, community based partners or stakeholders who can advocate for healthy changes in these same seven communities. LHD will utilize the champions to be guest speakers at NEOPB signature events; such as Latino Health Awareness Month, Black Health Awareness Month or Food Day events. Through the advocacy of "Community Champions" LHD hopes to inspire and empower others in the community to make healthy changes, just as the champions did themselves.

LHD subcontractors will build on the successes from FFY15 and FFY16 and continue to leverage funding from community partners. The City of Riverside, an LHD funded subcontractor, has been successful in leveraging outside funding through the Kaiser Permanente HEALZone grant to advance PSE work in two CX^3 neighborhoods by installing outdoor fitness equipment at Bordwell and Lincoln Parks and a preschool playground at Bobby Bonds Park. The city also captivated the momentum of the Healthy Food and Beverage policy that first started in youth programs, leading to the city council adopting a city-wide vending and procurement policy.

The City of Perris, another LHD funded subcontractor, worked with the Safe Routes to School program in Riverside County to apply for the Active Transportation Program grant and was awarded infrastructure funds for street improvements near schools in the CX³ neighborhood for enhanced walkability. Most recently, City of Perris and Eastern Municipal Water District have partnered on a "Perris Green City Farm program" which will feature a learning garden to teach residents low-cost gardening concepts. LHD will be collaborating with the program to provide nutrition education along with a UC Cooperative Extension Master Gardener. UC CalFresh has been partnering with the Community Settlement Association (CSA) to revitalize and expand their community garden to grow produce for families at the CSA food pantry. This project has received funding from the Kaiser Permanente HEALZone grant through Riverside Community Health Foundation to expand the garden. UC CalFresh will be leading this project with a team of Master Gardeners in the next three years. UC CalFresh has also been working with youth centers including the Boys and Girls Clubs and Youth Opportunity Centers. They plan to introduce a garden component at three sites by 2019. Office on Aging will continue to implement a “Bingocize” train-the-trainer model, to promote physical activity in the senior population at congregate meal sites. Catholic Charities will continue to engage residents in the development of community gardens and encourage families to use their CalFresh benefits to purchase seeds to start up their home gardens.

Objective 2 (LEARN K-12) (Thirty one PSE changes over the three year period.)

LHD and subcontractors along with UCCE will work collaboratively to provide interventions in the **Learn (K-12)** setting. UCCE plans to work with the following school districts: Coachella Valley Unified, Alvord Unified (Riverside area), Val Verde (Perris and Moreno Valley areas) Unified, Banning Unified and Palm Springs Unified. UCCE's focus will be on Coachella and Alvord since they have been building a strong relationship at the district level over the years. LHD and subcontractors plan to work with the following school districts: Desert Sands Unified, Riverside Unified, Jurupa Unified, Palm Springs Unified, San Jacinto Unified, Alvord Unified, Moreno Valley Unified, Perris Elementary, Perris Union High, Banning Unified and Val Verde Unified. To meet the needs of the school districts, LHD and UCCE will work together to ensure that elementary, middle and high schools in those districts receive interventions without overlapping services. For example, at Alvord, Banning and Val Verde Unified, UCCE will focus on middle and high schools, while LHD will focus on elementary schools.

The LHD, their subcontractors and UCCE will conduct direct education using a combination of single session and class series, as appropriate for the grade level. Both agencies will participate in school events, such as Open House, Back-to-School, Walk to School Day and Wellness Day events to provide indirect education. LHD will leverage the Safe Routes to School program in Riverside County and encourage the schools that are receiving SNAP-Ed interventions to participate in the Walk to School Day events to encourage physical activity. Schools will also be provided with additional indirect education through the display of posters and/or murals with healthy eating and active living messages to once again reinforce direct education messages.

PSE efforts have been enhanced through the efforts of LHD subcontractors by seeking external funding to support the NEOPB initiatives in schools. Alvord Unified has been recognized by the Alliance for a Healthier Generation for their programming, training and policy work towards active, healthy schools and have been awarded funds to build on PSE efforts in the future. Jurupa Unified is frequently in pursuit of additional funding sources to supplement fitness opportunities for students (such as 100 Mile Club, soccer intramurals, elementary school tracks and

soccer goals) as well as partnering for school food pantries, school-based health centers, and stipends for wellness leaders on campus. Desert Healthcare District has established an innovative collective impact project, providing swim lessons and nutrition education to third graders across Palm Springs Unified, with the investment and backing of several key community partners. Riverside Unified continues to grow the number of elementary school sites hosting “Kids Produce Market” (a monthly food distribution for students attending specific low-income schools), in cooperation with Feeding America. City of Perris has contributed to a successful grant application for Safe Routes to School infrastructure funds to improve walkability at a local school. UCCE/UC CalFresh has been working on school garden projects and has started Smarter Lunchrooms Movement (SLM) with two schools in Coachella Valley Unified as well as helped them secure the USDA Team Nutrition SLM grant. In the next 3 years, UC CalFresh plans to pilot Shaping Healthy Choices Program, one school per year. The Shaping Healthy Choices Program, from UC Davis Center for Nutrition in Schools, is a multi-component, school- based intervention that was developed to improve children’s health. The program integrates nutrition education with school wellness policy and other PSE components to sustain positive student health outcomes.

As the LHD and subcontractors implement SNAP-Ed activities, they will identify "School Champions" such as students, parents, faculty or counselors who advocate for healthy change in their schools. These "School Champions" will be invited to take a leadership role for school events like Walk to School Day and Wellness Days to empower others to make healthy changes. With each passing year, UCCE, LHD and subcontractors will continue providing direct education, with greater emphasis on integrating more into PSE strategies. We will work with the targeted school districts to take the comprehensive school health approach to the next level as much as possible. In 2017, LHD and UCCE will begin the planning and coordination phase for school gardens, SLM, Access to Water, and stencils. By 2018, both LIAs will establish or revitalize 5 school gardens, 4 SLM sites, 3 Access to Water sites, and 3 stencil sites. In 2019, LHD and UCCE will support the existing sites and in addition will add 5 school gardens, 4 SLM sites, 3 Access to Water sites and 4 stencil sites.Both LHD and UCCE plan to promote physical activity and active recess, including CATCH/SPARK activities, facilitate the painting of murals or playground stencils, and advocate for healthy food and beverages and water access at school sites.

Objective 3 (LEARN PreK) (Eight PSE changes over the three year period.)

LHD and UCCE will collaborate to provide interventions in the **Learn (Early childhood)** setting. In year one, we plan to work with at least five sites, add six additional sites in year two, and another seven sites by year three to reach a minimum of 18 childcare, head start and/or preschool sites by 2019. UCCE plans to work with Desert Sands Unified (DSUSD) Head Start Program and YMCA Early Childhood Program to provide direct education to children and families, and take steps to integrate PSE activities by including PA/CATCH and possibly mural or playground stencils. LHD will partner with the Nutrition and Physical Activity Self-Assessment of Childcare Centers (NAPSACC) program to identify SNAP-Ed eligible early childhood education sites located in the "poverty pocket" cities of the county. Through direct and indirect education, LHD will introduce Potter the Otter, Harvest of the Month, and Rethink Your Drink nutrition education and healthy beverage messages for preschool children and their families. LHD will promote physical activity and PSE strategies by offering training and technical assistance to staff using Shape of Yoga, SPARK/CATCH, or other age-appropriate SNAP-Ed approved PA material. To further promote physical activity and affect environmental change, centers will be encouraged to utilize playground stencils to encourage active play.

Objective 4 (SHOP) (Four PSE changes over the three year period.)

UCCE, CCC and LHD and their subcontractors will work collaboratively to provide interventions where SNAP-Ed families **Shop**. CCC and UCCE will provide direct education through classes and spotlight education at food pantries and/or emergency food sites. Indirect education will be provided by LHD, UCCE and CCC, through distribution of posters, brochures and online resources/social media, Harvest of the Month handouts and recipe cards to promote awareness of food assistance programs and tips for storage and preparation of food pantry items. LHD will identify retail grocery stores in the "poverty pocket" cities and small markets in the Eastside/Riverside CX[3] neighborhood. Through retail merchandising materials and healthy retail strategies, LHD will increase fruit and vegetable awareness, including common marketing tactics of improving display, pricing, variety and quality. Retail partners, such as Cardenas and Rio Ranch Markets, are energetic partners in hosting store tours, Fruit and Veggie Fest events and have a strong potential for comprehensive PSE work to connect directly with residents as they shop.

Moreover, all four LIAs plan to collaborate with Feeding America to encourage healthy food access at food pantries in the "poverty pocket" areas, and coordinate with partners to bring attention and potential funding to areas with limited options for dependable emergency food, and to offer supplementary programs and services when appropriate. Jurupa, Alvord and Riverside Unified school districts have been successful at food distribution to students and families, meeting the needs of food insecurity in a forum that can provide education and environmental supports. School food pantries or distribution events can provide a meaningful link to healthy food access, bridging the gap between shop and learn objectives. In 2017, LHD, UCCE and CCC will assess, plan and coordinate healthy retail and emergency food PSE efforts. By 2018, at least 10 retail stores will adopt healthy signage, at least 1 store will implement a healthy checkout aisle and 2 food pantries will adopt a PSE change. In 2019, the three LIAs will continue supporting the existing sites, 2 additional retail sites will implement a healthy checkout aisle and 3 additional food pantries will adopt a PSE change. Our goal in the next three years is to provide food pantry volunteers and facilities with technical assistance and support to prioritize healthy eating within the emergency food system, including nutrition education and helpful information to complement the needs and build the resource management skills of families receiving food.

With the interventions outlined above in the four local objectives in various settings (Live, Eat, Play, Learn, and Shop), all four LIA partners will reach all age groups of the SNAP-Ed eligible population using the three approaches: direct and indirect nutrition education, PSE change, and media and communications. During this three year period, we will form partnerships, provide training, engage communities, seek local champions and leverage funds to contribute towards physical and social environment outcomes and behavioral outcomes in the California SNAP-Ed Theory of Change Model.

Evaluation Narrative Summary

Over the three year integrated work plan, LIAs have included a number of evaluation methods; process, formative and impact/outcome. Annually, each LIA will use process evaluation to track and report SNAP-Ed activities for each of the five local objectives. LHD and their subcontractors, AAA, and CCC will use the Activity Tracking Form (ATF) to report activities and UCCE will use the UC CalFresh Reporting Tools Workbook (RTW). The information entered into the ATF and RTW, will then allow LIAs to run Education and Administrative Reporting Systems (EARS) reports and Semi-Annual Activity (SAAR) reports to monitor SNAP-Ed activities. With this data, LIAs can make decisions throughout to direct work plan efforts and divert resources to the most effective programs.

To evaluate PSE efforts, LHD and CCC will utilize the Reach, Effectiveness, Adoption, Implementation and Maintenance (RE-AIM) report to summarize progress. LHD will be meeting with their subcontractors on a quarterly basis to update and summarize their PSE efforts using the on-line Access database. By maintaining the database on a quarterly basis, LHDs will track, inform and improve continued PSE efforts. LHD and subcontractors will utilize success stories to document best practices and noteworthy PSE efforts for others to learn from.

Coordinated by the LHD and subcontractors, Communities of Excellence - CX^3 tools will be utilized in both the Live and Shop objectives, to gather community data on healthy food availability, marketing and signage, walkability, and to evaluate the emergency food climate of several key "poverty pockets" in order to inform stakeholders on areas of high concern. These CX^3 findings can also inspire resident projects, implore civic leadership intervention, attract external grant funding, and bleed into the Learn and Play objectives affecting local schools and parks. The NEOPB database will be utilized to capture the progress and process of implementing PSE changes in the Live, Learn, and Shop objectives, in addition to photos and success stories and the identification of "Champions" in their respective areas of influence. We also plan to take photographs to document environmental changes and collect success stories.

- In Objective 1 (LIVE), LHD and the City of Riverside subcontractor will use the CX^3 assessment tools to reassess the environmental changes that have occurred in the two Eastside/Riverside neighborhoods. This reassessment will take place in year 3, as the third data point for the Eastside neighborhood, serving as a culminating evaluation of NEOPB and HEALZone efforts with multiple agencies involved.
- In Objective 4 (SHOP), the LHD CX^3 assessment tools will be used to assess the retail and emergency food sites. During year 1, baseline data will be collected, followed by interventions and subsequently in year 2 and 3, the sites will be re-evaluated to measure the outcome of intervention and PSE strategies throughout each year.

Impact/Outcome evaluation of the nutrition education class series for youth will be conducted by LHD subcontractors using a survey from the compendium of surveys from the Nutrition Education and Obesity Prevention Branch compendium of surveys for IOE projects. This targeted program will use a matched-pair, pre/post evaluation design with data from individual youth in the intervention group, as well as control group. Annually, the rigor of the IOE project will increase with more matched pairs. The survey used will measure change in consumption of fruits, vegetables, and other foods; physical activity behaviors as well as knowledge and attitudes related to eating healthy foods and drinking healthy beverages. The information gathered from this evaluation can be used to inform future SNAP-Ed programming and add to the evidence base for related strategies helping to strengthen future PSE interventions with youth.

UCCE will conduct impact/outcome evaluation using approved evaluation tools that are appropriate for the curriculum or lesson taught, including PSSC Checklist, Intent-to-Change Tools (ITC), Teacher Observation Tool (TOT), Taste Testing Tool (TTT), and student pre/post or retrospective surveys. These tools are listed in the "Core Curriculum and Evaluation Tools with SMART Objectives". UCCE will also use success story and pre/post photos to evaluate PSE efforts.

AAA will be conducting Food Behavior Checklist surveys and collecting RAPA pedometer data for evaluation purposes. CCC will conduct impact/outcome evaluation using approved evaluation tools and surveys that are appropriate for the curriculum used, including pre-test and post-test surveys for Food Smarts and the use of Food Behavior Checklist surveys. CCC will also use success stories, focus group interviews, and pre/post photos to evaluate PSE efforts.

SECTION B: Target Audience Description

1. Gender & Age

1. Gender	%		2. Age	#
Male	20%		0 to 4 years old (Preschool):	21,562
Female	80%		5 to 17 years old (School Age):	575,820
			18 to 59 years old (Adult):	115,000
			60 years old and over (Senior):	7,188
Total:	100%		Total:	719,570

3. Ethnicity/Race

Total Percentage Hispanic/Latino	Total Percentage Not Hispanic/Latino	Total Percentage Ethnicity
60%	40%	100%

RACE	**Hispanic/Latino**	**Not Hispanic/Latino**
Black or African American	1%	14%
Asian	0%	2%

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**
By September 30, 2019, at least seven SNAP-Ed qualifying communities will make changes to the physical environment and /or policies to support improved nutrition and physical activity behaviors among residents. (**LIVE, PLAY & EAT**)

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**
- Healthy Food and Beverage Standards
- Community Gardens
- Access to Water
- Environmental Support to Promote Physical Activity / Stencils
- Signage and Marketing of Food and Nutrition Assistance Programs

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, LIAs will collaborate with at least five SNAP-Ed qualifying communities to build partnerships with community leaders, civic leaders, stakeholders, identified "Champions", and other community based partners through the County Nutrition Action Plan (CNAP), Riverside County Health Coalition and other collaborative meetings to advance healthy food and beverage strategies and environmental supports for active living.
    b. By September 30, 2017, LIAs will provide direct education classes to reach at least 4,500 SNAP-Ed qualified individuals to change their behavior towards healthy eating, active living and food resource management.
    c. By September 30, 2017, LHD, UCCE and CCC will reach 23,700 SNAP-Ed qualifying individuals with indirect nutrition education messages through community events and display of posters, brochures, online resources/social media and/or videos to increase exposure to healthy eating and physical activity messages.
    d. By September 30, 2017, provide training and/or technical assistance to at least 5 SNAP-Ed qualifying communities to build capacity for implementation of healthy food and beverage strategies and environmental supports for physical activity.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, LIAs will collaborate with one additional SNAP-Ed qualifying community to build partnerships with community leaders, civic leaders, stakeholders, identified "Champions", and other community based partner to advance healthy food and beverage strategies and environmental supports for active living.
    b. By September 30, 2018, LIAs will provide direct education classes to reach at least 4,320 SNAP-Ed qualified individuals to change their behavior towards healthy eating, active living and food resource management.
    c. By September 30, 2018, reach 24,350 SNAP-Ed qualifying individuals with indirect nutrition education messages through community events and display of posters, brochures, online resources/social media and/or videos to increase exposure to healthy eating and physical activity messages.
    d. By September 30, 2018, continue to provide training and/or technical assistance to one additional SNAP-Ed qualifying community to further increase capacity to advance the implementation of healthy food and beverage strategies and environmental supports for physical activity.

3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, LIAs will collaborate with one additional SNAP-Ed qualifying community to build partnerships with community leaders, civic leaders, stakeholders, identified "Champions", and other community based partners to advance healthy food and beverage strategies and environmental supports for active living.
    b. By September 30, 2019, LIAs will provide direct education classes to reach at least 4,140 SNAP-Ed qualified individuals to change their behavior towards healthy eating, active living and food resource management.

c. By September 30, 2019, reach 25,050 SNAP-Ed qualifying individuals with indirect nutrition education messages through community events and display of posters, brochures and/or videos to increase exposure to healthy eating and physical activity messages.
d. By September 30, 2019, continue to provide training and/or technical assistance one additional SNAP-Ed qualifying community to further increase capacity to advance the implementation of healthy food and beverage strategies and environmental supports for physical activity.

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019, at least seven SNAP-Ed qualifying communities will make changes to the physical environment and /or policies to support improved nutrition and physical activity behaviors among residents. (**LIVE, PLAY & EAT**)

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Establish and maintain communication with community partners and stakeholders to provide linkages and coordination of efforts to address food security, healthy eating, active living and awareness of and participation in food assistance programs: such as coalition meetings, County Nutrition Action Plan and Local Implementing Agency meetings.	CED CEI MPR X C&C TTA	CWD X LHD X AAA X UCCE X CCC	CWD: LHD: City of Riverside, City of Perris, DHCD, and Reach Out AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	On File: Meeting agenda/notes, emails Submit: ATF

1.2	Conduct direct nutrition education classes (includes single class, workshop, series and/or spotlights) reaching 12,960 SNAP-Ed individuals at community centers, congregate meal sites, senior centers, youth centers, FQHC, WIC sites, faith-based organizations, , and/or parks using SNAP-Ed approved materials. • Year 1 - reach 4,500 individuals • Year 2 - reach 4,320 individuals • Year 3 - reach 4,140 individuals	X CED CEI MPR C&C TTA	CWD X LHD X AAA X UCCE X CCC	CWD: LHD: City of Riverside, City of Perris, DHCD and Reach Out AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	On File: Sign-in sheet, Class flyer (if available), Data cards, UC CalFresh TEA, NARF Submit: ATF, UC CalFresh RTW
1.3	Conduct indirect nutrition education activities through events reaching 20,000 SNAP-Ed individuals at community centers, congregate meal sites, senior centers, youth centers, FQHC, WIC sites, faith-based organizations, , and/or parks using SNAP-Ed approved materials. • Year 1 - reach 7,000 individuals • Year 2 -reach 6,500 individuals • Year 3 -reach 6,500 individuals Annually, host at least one NEOPB signature event. ****Time Frame: Year & Quarter:**

Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)

Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**
By September 30, 2019, at least 10 school districts and/or afterschool programs will make physical changes to support healthy school environments and improve nutrition and physical activity behaviors amongst students, parents and teachers. (**LEARN K-12**)

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**
- School Gardens
- School Wellness Policies
- Smarter Lunchrooms Movement
- Access to Water
- Environmental Support to Promote Physical Activity / Safe Routes to School / Stencils
- Signage and Marketing of Food and Nutrition Assistance Programs

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, build partnerships with at least 10 school districts and/or afterschool programs through County Nutrition Action Plan (CNAP) and community based partners to collaborate and support nutrition education and PSE efforts.
    b. By September 30, 2017, provide direct education classes to reach at least 21,260 students and/or parents to promote healthy eating and physical activity messages along with resource management skills.
    c. By September 30, 2017, reach 30,500 students and/or adults with indirect nutrition education messages through school events and display of posters and/or brochures.
    d. By September 30, 2017, plan, coordinate and train at least six school districts with SNAP-Ed approved materials to implement School Wellness Policy and/or PSE efforts such as Smarter Lunchrooms Movement, School Gardens, Access to Water, Physical Activity supports, and/or healthy food and beverage standards.

e. By September 30, 2017, identify and involve students, parents, caretakers, and/or school faculty at 5 schools to be School Champions and support PSE efforts.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, continue building partnerships with at least 10 school districts and/or afterschool programs through County Nutrition Action Plan (CNAP) and community based partners to collaborate and support nutrition education and PSE efforts.
   b. By September 30, 2018, provide direct education classes to reach at least 19,060 students and/or parents to promote healthy eating and physical activity messages along with resource management skills.
   c. By September 30, 2018, reach 29,500 students and/or adults with indirect nutrition education messages through school events and display of posters and/or brochures.
   d. By September 30, 2018, plan, coordinate and train at least eight school districts with SNAP-Ed approved materials to implement School Wellness Policy and/or PSE efforts such as Smarter Lunchrooms Movement, School Gardens, Access to Water, Physical Activity supports, and/or healthy food and beverage standards.
   e. By September 30, 2018, identify and involve students, parents, caretakers, and/or school faculty at 3 additional schools to be School Champions and support PSE efforts.
3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, continue building partnerships with at least 10 school districts and/or afterschool programs through County Nutrition Action Plan (CNAP) and community based partners to collaborate and support nutrition education and PSE efforts.
   b. By September 30, 2019, provide direct education classes to reach at least 16,860 students and/or parents to promote healthy eating and physical activity messages along with resource management skills.
   c. By September 30, 2019, reach 28,500 students and/or adults with indirect nutrition education messages through school events and display of posters and/or brochures.
   d. By September 30, 2019, plan, coordinate and train at least 10 school districts with SNAP-Ed approved materials to implement School Wellness Policy and/or PSE efforts; such as Smarter Lunchrooms Movement, School Gardens, Access to Water, Physical Activity supports, and/or healthy food and beverage standards.
   e. By September 30, 2019, identify and involve students, parents, caretakers, and/or school faculty at 2 additional schools to be School Champions and support PSE efforts.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Riverside County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

By September 30, 2019, at least 10 school districts and/or afterschool programs will make physical changes to support healthy school environments and improve nutrition and physical activity behaviors amongst students, parents and teachers. (**LEARN K-12**)

(**LEARN K-12**)

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Establish and maintain communication with CNAP partners, School Wellness Committees and community based partners to build capacity for policy, systems and environmental change efforts; such as School Wellness, Smarter Lunchrooms Movement, School Gardens, Safe Routes to School, Summer Feeding, Emergency Food and Access to Water, etc. May include access to water, healthy classroom celebrations and fundraisers, breakfast in the classroom and/or afterschool snacks. Provide school partners with information on food assistance programs to increase awareness and participation.	CED: ; CEI: ; MPR: ; C&C: X ; TTA:	CWD: ; LHD: X ; AAA: ; UCCE: X ; CCC:	CWD: LHD: City of Riverside, City of Perris, DHCD, JUSD and Reach Out AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	On File: Meeting agendas, notes, emails Submit: ATF

2.2	Conduct direct nutrition education classes (includes single class, series and/or spotlights) reaching 57,180 students and/or adults at K-12 schools and/or afterschool programs using SNAP-Ed approved materials. • Year 1 - reach 21,260 students and/or adults • Year 2 - reach 19,060 students and/or adults • Year 3 - reach 16,860 students and/or adults LHD will conduct one youth IOE project annually. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**
By September 30, 2019, at least 18 childcare, head start and/or preschool sites will implement changes related to healthy food and beverage/ access to water and environmental supports for physical activity.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Healthy Food & Beverage Standards
- Access to Water
- Environmental Support to Promote Physical Activity / Stencils
- Signage and Marketing of Food and Nutrition Assistance Programs

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, build partnerships with early childhood education partners; such as Nutrition and Physical Activity Self-Assessment of Child Care (NAPSACC) program to collaborate and support the PSE efforts at a minimum of five childcare, head start and/or preschool sites.
    b. By September 30, 2017, provide direct education classes to 430 preschool children and/or adults encouraging healthy eating and active living at a minimum of five childcare, head start and/or preschool sites.
    c. By September 30, 2017, reach 450 preschool children and/or adults with indirect nutrition education messages encouraging healthy eating and active living at a minimum of five childcare, head start and/or preschool sites.
    d. By September 30, 2017, provide training and technical assistance to staff at a minimum of five childcare sites to support and promote physical activity, healthy food and beverage standards and/or access to water.
2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, continue partnering with early childhood education partners; such as Nutrition and Physical Activity Self-Assessment of Child Care (NAPSACC) support the PSE efforts at a minimum of six additional childcare, head start and/or preschool sites.
    b. By September 30, 2018, provide direct education to 430 preschool children and /or adults encouraging healthy eating and active living at six childcare, head start and/or preschool sites.
    c. By September 30, 2018, reach 570 preschool children and/or adults with indirect nutrition education messages encouraging healthy eating and active living at a minimum of six childcare, head start and/or preschool sites.
    d. By September 30, 2018, provide training and technical assistance to staff at a minimum of six additional childcare sites to support and promote physical activity, healthy food and beverage standards and/or access to water.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, continue partnering with early childhood education partners; such as Nutrition and Physical Activity Self-Assessment of Child Care (NAPSACC) to support the PSE efforts at a minimum of seven additional childcare, head start and/or preschool sites.
   b. By September 30, 2019, provide direct education to 430 preschool children and/or adults encouraging healthy eating and active living at a minimum of seven childcare, head start and/or preschool sites.
   c. By September 30, 2019, reach 690 preschool children and/or adults with indirect nutrition education messages encouraging healthy eating and active living at a minimum of seven childcare, head start and/or preschool sites.
   d. By September 30, 2019, provide training and technical assistance to staff at a minimum of seven additional childcare sites to support and promote physical activity, healthy food and beverage standards and/or access to water.

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):

By September 30, 2019, at least 18 childcare, head start and/or preschool sites will implement changes related to healthy food and beverage/ access to water and environmental supports for physical activity. (LEARN PreK)

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Collaborate with NAP SACC program and other early childhood education partners to build capacity for nutrition and physical activity programs and PSE efforts at childcare, head start and/or preschool sites. • Year 1 - at a minimum of five sites • Year 2 - at a minimum of six sites • Year 3 - at a minimum of seven sites Provide early childhood partners with information on food assistance programs to increase awareness and participation. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):**
By September 30, 2019, 10-15 SNAP-Ed qualifying retail stores, 5-10 food pantry/school food pantry/ and/or emergency food sites, and 1-3 food banks will implement environmental and system changes and/or develop healthy food and beverage standards and distribution policies to increase fruit and vegetable awareness, knowledge and demand. (SHOP)

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Healthy Food and Beverage Standards
- Healthy Retail Strategies
- Signage and Marketing of Food and Nutrition Assistance Programs

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, establish partnerships with 10-15 SNAP-Ed qualifying neighborhood retail stores with the goal of piloting healthy retail aisles, displaying healthy food and beverage merchandising materials, and hosting at least two store tours.

    b. By September 30, 2017, conduct an assessment of the retail environment using the CX^3 retail assessment tool at 10-15 SNAP-Ed qualifying neighborhood retail stores for pricing, quality and availability of healthy food and beverage options.

    c. By September 30, 2017, LHD will provide 10-15 SNAP-Ed qualifying neighborhood retail stores with healthy food and beverage merchandising materials to support healthy retail aisle environmental change.

    d. By September 30, 2017, conduct an assessment of the emergency food environment in at least two communities using the CX^3 Emergency Food Assessment tool to determine the availability and quality of healthy food and beverages.

    e. By September 30, 2017, establish partnerships with food banks and other community partners to support improvement of existing food pantries and/or identify potential new food pantries in communities identified with the greatest need.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, maintain partnerships with 10-15 SNAP-Ed qualifying neighborhood retail stores to continue healthy retail strategies from year 1.

    b. By September 30, 2018, LHD will provide 10-15 SNAP-Ed qualifying neighborhood retail stores with healthy food and beverage merchandising materials to support healthy retail aisle environmental change.

    c. By September 30, 2018, pilot at least two healthy retail aisles and host one Fruit and Veggie Fest marketing event in support of the healthy retail aisle.

    d. By September 30, 2018, conduct a re-assessment of the retail environment using the CX^3 retail assessment tool at 10-15 SNAP-Ed qualifying neighborhood retail stores for pricing, quality and availability of healthy food and beverage options.

    e. By September 30, 2018, conduct at least three store tours to reach a minimum of 30 children and/or adults with indirect education.

f. By September 30, 2018, work with food banks and other community partners to address food insecurity and healthy food access, (including healthy food and beverage standards, donation and distribution systems and/or environmental change) with at least two existing food pantries and/or identify potential new food pantries in communities identified with the greatest need.

3. **FFY 2019 (Year 3) Objective(s):**

a. By September 30, 2019, maintain partnerships with 10-15 SNAP-Ed qualifying neighborhood retail stores to continue healthy retail strategies from year 1 and year 2.

b. By September 30, 2019, LHD will provide 10-15 SNAP-Ed qualifying neighborhood retail stores with healthy food and beverage merchandising materials to support healthy retail aisle environmental change.

c. By September 30, 2019, pilot at least one additional healthy retail aisle in two SNAP-Ed qualifying neighborhood retail stores and host one Fruit and Veggie Fest marketing event in support of the healthy retail aisle.

d. By September 30, 2019, conduct a re-assessment of the retail environment using the CX^3 retail assessment tool at 10-15 SNAP-Ed qualifying neighborhood retail stores for pricing, quality and availability of healthy food and beverage options.

e. By September 30, 2019, conduct at least four store tours to reach a minimum of 40 children and/or adults with indirect education.

f. By September 30, 2019, work with food banks and other community partners to address food insecurity and healthy food access (including adoption and implementation of healthy food and beverage standards, donation and distribution systems, environmental and/or policy change) with at least two additional existing food pantries and/or newly established food pantries in the communities identified with the greatest need.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	pens, paper, folders, staples, note pads, cartridges, etc.	22.2064	$6.40	12	$1,705	
2			Postage	Mail State contracts, MOUs, reports and/or correspondences, etc.	22.2064	$5.54	1	$123	
3			CCLHDN Organization Membership	CCLHDN Membership fees for Gayle Hoxter, Nancy Allende, Michael Paalani, Lorie Brendecke and Shelley Nail	1	$150.00	1	$150	
				Theft-sensitive equipment/supplies that are less than $5,000 (Computers, printers, projectors, etc.)					
1			Computer	Equipment -As needed and with NEOPB approval; 5 PC's with monitor @ **$934** Computer keyboard and mouse - Ergonomic: Wired keyboard and wireless mouse will be used to minimize wrong hand posture which created awkward postures that harm wrists. Item(s) meet County ergonomic safety standards. Keyboards 5 @ $59.00 each = **$295.0**0 and Mouse 5 @ $45.00 = **$225.0**0 The five PC's are needed to replace existing, aging equipment. Riverside County IT schedule shows five SNAP-Ed funded PC's being retired and no longer supported next year. Description/Justification to the following position names/staff names: (2) Health Educators – Cherice Hendrickson and Claudia Pelayo, (2) Program Coordinators – Valerie Comeaux and Andrea Morey, and (1) Office Manager – Tanya Lee. Designated Staff: (2) Health Educators - TBD, (1) Office Assistant - Ashleight Bennett and (1) Nutritionist - Taylor Wolfcale	4	$1,454.00	1	$5,816	
2			Office Equipment - Desk Chairs	Desk Chairs which meet County Ergonomic and Safety standards. Ergo chairs will not be purchased until ergo reports are submitted to CDPH Designated Staff: Hosea Jones and Tanya Lee Existing chairs have had a useful life of approximately 15 years and no longer meet the County ergonomic safety standards. The new purchase will require competitive bid for County approved vendor to provide the equipment. From experience County vendors have provided a better quality product with a long term useful life. In addition, due to Procurement protocol we are unable to purchase chairs through on-line vendors such as Amazon.	2	$607.00	1	$1,214	
							Total Non-Capital Equipment/Supplies:	**$9,008**	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Printing	Business cards (Approx. 14-staff x $54.00 /box-500 ea cards = $756.00) and Participant data card (Approx. 12,005 ea X $0.05/card) = $600.25 and Flyer (color) (Approx. 12,005 ea X $0.35) = $4,201.75	$5,558.00	1	$5,558	
2			Food Demonstration Materials	Disposable supplies (small plates, forks, napkins, serving bowls, serving spoons, etc…) and Ingredients to distribute NEOP approved recipes.	$0.60	5448.	$3,269	
3			Food Demo Supplies	cooking utensils and/or chopping boards, serving bowl, water dispenser, NEOP tablecloth and etc. Average of $25.00 x 40 = $1,000.00 We anticipate items purchased for FY18 will need to be replaced due to normal wear and tear and potential damage due to frequent use and transportation of supplies. If replacement supplies are unneeded or less than anticipated, we will redistribute those funds in the future.	$1,000.00	1	$1,000	
4			Educational Materials	Materials required for delivery of critical program services used in events/education. Brochures and Handouts for Nutrition Education (Approx. 1,326.53 ea. X $0.14) = $185.71 MyPlate, etc. (Approx. 1,326.53 X $0.35) = $464.28	$650.00	1	$650	
5			Food Handler Cards	Employees must have a current Food Handler Certificate for handling/preparing food for food demos. Designated Staff: (6) current staff and (2) new staff.	$27.00	8	$216

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Sacramento County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 08/28/2017**

***County Name:* Sacramento**

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
X	**California Department of Public Health: CDPH: (Local Health Department: LHD)**
X	**California Department of Aging: CDA: (Agency on Aging\Area 4: AAA4)**
	Catholic Charities of California: CCC: (Catholic Charities of California: CCC)

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

Located in the northern portion of the California Central Valley, Sacramento County covers a land area of 965 square miles and extends from the low delta lands between the Sacramento and San Joaquin rivers north to about ten miles beyond the State Capitol (Sacramento) and east to the foothills of the Sierra Nevada Mountains. The county is bordered by Contra Costa and San Joaquin Counties to the south, Amador and El Dorado Counties to the east, Placer and Sutter Counties to the north and Yolo and Solano Counties on the west. The county is considered the core cultural and economic center of its four-county metropolitan area (El Dorado, Placer, Sacramento and Yolo counties) with a combined population of more than 2 million.

Demographic Information

Sacramento County is comprised of 317 census tracts, 72 of which are SNAP-Ed eligible, with a total population of approximately 1.48 million. Based on American Community Survey data [ACS] (ACS 2009-2013) 34.7% of all county residents are SNAP-Ed eligible, falling 185% below the Federal Poverty Level, with 15% of county residents participating in CalFresh and 58.2% of children eligible for Free/Reduced Price Meals. SNAP-Ed eligibility within the county is divided almost equally amongst (49%) men and women (51%) with adults (aged 18-64) comprising the largest percent at 58.8%, followed by school-aged children (aged 6-17) at 21.3%, preschool children (aged 0-5), and seniors/older adults (aged 65+) at 8.7%. The number of county residents living below the federal poverty level is 18.1%, which is higher than the statewide average of 16.4% (ACS 2010-2014). According to the most recent ACS data, the number of children within the county living in poverty is even higher with an estimated 24.9% of children living in poverty.

Sacramento County is home to a racially and ethnically diverse population with 20% of the population born of foreign origin. This diversity is reflected in the SNAP-Ed eligible population. Of the 489,414 eligible residents, 35.3% are White, 30.6% are Hispanic, 13.8% are African-American, 14.8% are Asian, 3.6% are Multiracial, 0.8% are American Indian/Alaska Native, 0.8% are Native Hawaiian/Other Pacific Islander, and 0.3% considered Other (ACS 2009-2013). Approximately 31.3% of persons over 5 years of age in Sacramento County speak a language other than English at home (ACS 2010-2014). Of those speaking a language other than English at home, 42% spoke Spanish, 58% spoke some other language and 44% reported they did not speak English "very well."

Obesity and Health Behaviors

Based on California Health Interview Survey (CHIS) data, a lower proportion of SNAP-Ed eligible adults are overweight or obese (53.4%) than adults in Sacramento County overall (55.9%). Among low income children aged 12-17, approximately 21.6% and 18.5% are considered overweight and obese, respectively.

Low income populations are more likely to follow unhealthy nutrition and physical activity behaviors. They are less likely to have a diet that meets USDA Dietary Guideline recommendations for fruit and vegetable consumption. Among SNAP-eligible children, it is estimated that 44.7% eat the recommended five or more servings of fruit and vegetables compared to 47.8% among all children in the county. Fast food consumption, defined as having consumed fast food one or more times in the past week, is higher among the county's SNAP-eligible population at 79.1% than the county percentage of 68.2% (CHIS, 2012). Around 28% of children and teens in the county drink sugar-sweetened beverages, including soda and juices, daily (CHIS, 2012).

Lack of physical activity is another factor contributing to obesity prevalence. Among the SNAP-Ed eligible population in Sacramento County, only 12% of children and teens are physically active at least one hour per day and 17% of adults over 20 years old report no leisure physical activity. Adult physical inactivity levels are higher among women than men. These levels are disproportionate to the high access percentage, with 97% (Robert Wood Johnson Foundation, *County Health Rankings*, 2016) of the total population having access to physical activity opportunities.

Food Insecurity

Food insecurity continues to be a serious problem for many Sacramento County residents with rates are higher than both state and national averages. It is estimated 17.1% of the county's population and 25.3% of children in Sacramento County experience food insecurity. Though 74.5% of SNAP-Ed adults have regular access to fresh fruits and vegetables, only 45.1% can find them at affordable prices. According to USDA data, 36% (114 of 317) of census tracts in Sacramento County are designated as "Low-Income, Low-Access" tracts indicating a high proportion of residents whom are low wage earners and have limited access to food retail outlets. An additional 23% of the population experience food insecurity but are not eligible for State or Federal nutrition assistance programs (Feeding America, Map the Meal Gap, 2013).

In Sacramento County, Agency on Aging\Area 4 (AAA4) utilizes Older Americans Act Title IIIC Congregate Nutrition Program funds to contract with Meals on Wheels (MOW) by ACC which provides nutritious meals to adults 60 years of age and older at 22 congregate nutrition sites: of these, 11 meet SNAP-Ed eligibility requirements, with more than 50% of participants earning at or below 185% of FPL.

4. **Community Assessment**

Data show health disparities continue to persist among low income and minority populations, including obesity rates. According to the *2016 County Health Rankings*, compiled by the Robert Wood Johnson Foundation in collaboration with the University of Wisconsin Population Health Institute (UWPHI), Sacramento County ranks 32nd among California's 57 ranked counties. *Rankings* are based on four types of health factors - health behaviors, clinical care, social and economic, and physical environment- that, if improved, such can help make communities healthier places to live, learn, work and play.

The FFY 17-19 Integrated Work Plan, including neighborhood selection, was developed by Sacramento County Local Implementing Agencies (LIAs) using various data sources (in the jurisdiction section), CX3 community assessments, local nutrition and physical activity related reports, input from community stakeholders, and experience/knowledge gained from providing SNAP-Ed interventions for over the past 4 years.

Selection and prioritization of SNAP-Ed-eligible census tracts was taken into consideration in order to reach the most vulnerable and underserved populations and was informed by both quantitative and qualitative data. The criteria for neighborhood selection included the following:

- Among the top 20% of SNAP- Ed qualifying census tracts/block groups
- Inclusion of at least one SNAP-Ed qualifying school among the 20% of qualifying schools and/or is located in or whose catchment intersections with a qualifying census tract/block group

- Means-tested program sites located within the qualifying census tract/block group
- A variety of non-means tested sites located within a qualifying census tract/block group
- Previous LIAs work within a census tract/block group
- Input from key partners and stakeholders
- Avoidance of oversaturation of services
- Inclusion into the designated Sacramento *Promise Zone* Area
- Designation as a *vulnerable population* based on high levels of both low income and low educational attainment (ACS 2010-14)

Ultimately, priority census tracts were selected based upon where the population would be exposed to multiple interventions across various settings – where people live, shop, and learn.

In total, 23 census tracts were selected based on these criteria. These census tracts were grouped into 3 broader neighborhoods: North Sacramento/Del Paso Heights, Arden, and South Sacramento. Census tract inclusion within each neighborhood is defined in Table 1 below.

Table 1. Sacramento County SNAP-Ed priority neighborhoods

	North Sacramento/Del Paso Heights	Arden	South Sacramento
Census tract (last 4 digits)	6300	6201	3600
	6400	6202	3700
	6500		4100
	6600		4202
	6702		4203
	6800		4300
			4401
			4402
			4501
			4502
			4601
			4602
			4701
			4702
			4903

Poor health behaviors related to nutrition and physical activity are high among selected priority neighborhoods. The needs assessment found higher levels of food insecurity, low educational attainment, poverty, linguistic isolation, sedentary lifestyles, limited access to healthy food, and greater concentrations of fast food and convenience stores. These factors contribute to poor nutrition and physical activity behaviors. To help mitigate these issues, LIAs have developed a strategic work plan to address the unmet needs of the county.

To address the unique needs of the aging population, Agency on Aging\Area 4 (AAA4) conducted needs assessments in 2009 and again in 2012 to determine what types of services were needed most by adults 60 years of age and older and family caregivers in the seven county planning and service area (PSA). The most striking difference between the 2009 and 2012 Senior Needs assessments was the elevation of food as a major concern. In the prior study, "Having enough food to eat" ranked last (22nd overall); in a follow-up assessment in 2012, it ranked 6th. This was a topic of discussion in Town Hall meetings and in the Senior Information & Assistance Program data. There are several recession-related reasons for this trend, including shortages of surplus food for homeless seniors, shortages of food commodities for low-income seniors and increasing waiting lists for AAA4-funded home-delivered meals. In addition to access to food, AAA4 and its partners are aware of the incidence of chronic disease and poor physical health of many older adults. Consequently, local intervention strategies will include curriculum focused on increasing access to and consumption of fruits and vegetables as well as encouragement of physical activity in the senior SNAP eligible community.

5. **Community Change Goals**

Analysis of community assessments and partner input have identified the following obesity-related trends: sedentary behavior, poor dietary patterns, food insecurity, and co-morbidities and other chronic diseases within Sacramento County. County and partner efforts have worked towards reversing these trends; however unmet needs surrounding obesity-related education, policy, and environmental supports persist. As a result, Sacramento County has identified the following community change goals:

1. Improve food security for all Sacramento County residents.
    - Improve food resource management strategies
    - Promote enrollment and utilization of FNS funded programs
    - Support food waste reduction/repurposing programs
    - Engage stakeholders to improve access to and demand for healthy food and beverage options, including healthy snacks, across all sectors
    - Increase healthy food and beverage options, including healthy snacks, across all sectors
    - Support policy, system, and environmental change efforts

2. Increase consumption and support the promotion of healthy foods and beverages, including healthy snacks, to improve food-related health behaviors for all Sacramento County residents.
    - Provide and promote nutrition education
    - Increase food literacy
    - Coordinate and collaborate on communications and media campaigns
    - Engage community members and stakeholders across all sectors to increase capacity of residents to consume healthy food and beverages
    - Decrease unhealthy food and beverage consumption, including unhealthy snacks, across all sectors
    - Support policy, system, and environmental change efforts

3. Increase and promote physical activity opportunities to improve sedentary health behaviors for all Sacramento County residents.
    - Provide and promote physical activity education
    - Develop best practice plans and toolkits to improve active living/design
    - Improve mobility throughout the county
    - Engage community members and stakeholders across all sectors to increase capacity to access and demand safe, and appealing environments for physical activity
    - Increase access to safe environments for physical activity, across all sectors
    - Support policy, system and environmental change efforts

While the majority of the community change goals relate to the entire population within the county, Sacramento County's SNAP-Ed funded LIAs will focus efforts on serving SNAP-Ed eligible populations. Additional partners and funding streams within Sacramento County will also contribute to both the community change goals and Sacramento County LIAs' multi-year objectives. The five local objectives of Sacramento County SNAP-Ed program for FFY 17-19 are:

1. By September 30, 2019 assist 20 early child care sites to establish, implement, and/or improve their food and nutrition, physical activity and/or screen time procedures and/or policies to change site environments to support healthy food and beverage practices and promote physical activity as measured by pre/post assessment.

    This objective aligns with state level objectives 1, 2, 4, and 5 as well as Sacramento County community change goals 1, 2, and 3. Refer to section A2 for state level objectives.

2. By September 30, 2019 assist 30 qualifying schools to develop, implement and/or improve school wellness policies, physical environments, and/or institutional capacity (in school and/or afterschool) to support healthy food and beverage practices and promotion and increase and/or promote physical activity behaviors among students, parents, and school staff (as reflected in activities and evaluation plans).

This objective aligns with state level objectives 1, 2, 3, 4, and 5 as well as Sacramento County community change goals 1, 2, and 3. Refer to section A2 for state level objectives.

3. By September 30, 2019, a minimum of 20 qualifying retail sites, including retail stores, food banks, and farmers' markets, will increase access to healthy foods and beverages through interior and exterior changes and marketing strategies as measured by pre/post assessment(s).

   This objective aligns with state level objectives 1, 3, and 4 as well as Sacramento County community change goals 1 and 2. Refer to section A2 for state level objectives.

4. By September 30, 2019, a minimum of 30 qualifying community organizations, SNAP offices, public housing, health clinics, places of worship, parks and recreation facilities, etc. will receive healthy food and beverage education and promotion and physical activity education and/or promotion to support healthy environmental changes and practices as measured by pre/post assessment(s).

   This objective aligns with state level objectives 1, 2, 3, 4, and 5 as well as Sacramento County community change goals 1, 2 and 3. Refer to section A2 for state level objectives.

5. By September 30, 2019, collaborate with 12 SNAP-Ed qualifying community-based sites, including but not limited to, public housing, senior/community centers, and food banks to increase knowledge, access, and appeal of healthy dietary choices and physical activity.

   This objective aligns with state level objectives 1, 2, 3, 4, and 5 as well as Sacramento County community change goals 1, 2 and 3. Refer to section A2 for state level objectives.

Sacramento County LIA's, along with community partners and agencies, are committed to working together to achieve these community goals and overarching state level objectives. LIA contributions will be based on agency expertise and SNAP-Ed parameters.

6. **Partnerships and Collaborative Efforts**

The Sacramento (CNAP) group was established to increase healthy food/beverage consumption and physical activity levels among SNAP-Ed eligible populations within Sacramento County. The CNAP group is comprised of Food and Nutrition Service (FNS) funded, as well as other unfunded agencies serving the low-income population in nutrition related education and assistance, and/or physical activity promotion. Current Sacramento CNAP member agencies include: UC Cooperative Extension (UCCE), Agency on Aging\Area 4, Women Infants and Children (WIC), Sacramento County LHD, Sacramento County Office of Education (SCOE), CalFresh, Sacramento City Unified School District, Sacramento Food Bank and Family Services, Health Education Council, Sacramento Chinese Community Service Center, Dairy Council of California, 2-1-1 Sacramento, Soil Born Farms, Alchemist, and California Food Literacy Council. CNAP objectives and action plan are being developed with the goal of increasing access to healthy food/beverages and increasing physical activity for the target population by: 1) increasing participation in all FNS programs throughout the county, 2) ensuring coordination of nutrition/physical activity education and messaging (while leveraging

resources), and 3) sharing the plan with others to identify and develop new partnerships. Activities to meet these goals will vary throughout the course of the cycle in order to address changes/needs as they arise. Moreover, LIAs will promote SNAP-Ed services and activities by connecting with other agencies, such as County Welfare Departments, etc. Sacramento LHD will continue to facilitate the CNAP group quarterly to regularly exchange information, track progress, and improve coordination efforts. For the FFY17-19 grant cycle, CNAP will work to reevaluate the needs of Sacramento County and what gaps can be filled by the CNAP group. A change in structure or membership may occur to best utilize the time and efforts of the members involved and to not overlap existing efforts in Sacramento County.

In addition to CNAP, Sacramento LHD staff continue to accomplish the broader SNAP-Ed community change goal objectives (please refer to Section A.6) through partnerships with an extensive and diverse network of community organizations, agencies, and coalitions/collaboratives utilizing the collective impact model. Key partnerships include: First 5, Design 4 Active Sacramento Advisory Council, Sacramento Food Policy Council, Sacramento Unified School District Coordinated Health Committee, Yisrael Family Farm, and American River College Horticulture Program. These partners work together to increase healthy eating and physical activity opportunities across all sectors, from school districts to community settings to local government. LHD staff will continue to identify and expand new partnerships and identify obesity prevention priorities for Sacramento County throughout the duration of the FFY17-19 cycle.

7. **Key Messages**

X	Food Safety	X	Physical Activity	X	Fiber-Rich Foods
X	Whole Grains	X	My Plate-Healthy Eating Plan	X	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
X	Fruits & Vegetables	X	Limit Added Sugars or Caloric Sweeteners	X	Other *(specify): sugar-sweetened beverages (RYD)*
X	Fats and Oils	X	Food Shopping/ Preparation	X	Other *(specify)*: *portion sizes and serving sizes*
X	Lean Meat & Beans			X	Other *(specify): food management*
X	Sodium & Potassium			X	Other *(specify): CalFresh utilization*
X	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All curriculum and materials used will be from the approved USDA SNAP-Ed Connection website, and/or FFY17-FFY19 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the CDPH Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list. All curricula and materials will be defined and appropriate for the target audience identified in Section B: Target Audience Description of this document.

LHD staff reviewed the approved curriculum list provided by NEOPB and determined which curricula, resources, and materials best met the needs of our community. The curricula will cover all the topics listed in the previous section (Key Messages) to align with the LIAs' three-year and annual objectives. Each curriculum used will be age-appropriate and culturally relevant to our diverse community. Curricula and materials that are available in both English and Spanish will be preferred, being the predominant languages of our target audience.

9. **Intervention and Evaluation Plan Narrative Summary**

Intervention Summary

Sacramento County LIA's will provide comprehensive, multi-level strategies and interventions including nutrition and physical activity education and promotion, training and technical assistance, and policy, system and environment changes to support behavior change. All projects will promote the current USDA Dietary Guidelines and use SNAP-Ed intervention strategies (SNAP-Ed Strategies Interventions: An Obesity Prevention Toolkit for States) and approved curricula proven to support behavior change. LIA staff will provide technical assistance, resources, marketing materials, and guidance to ensure effective delivery of nutrition education to the target audience. LIA staff will also convene partners to facilitate collaboration, and provide resources to support policy, systems, and environmental changes (PSEs).

Policy, system and environment changes will be employed to further obesity prevention efforts. These changes will supplement individual, environmental, and sector level strategies to strengthen and sustain improved nutrition and physical activity behaviors. LIA's will also apply media and public relation campaigns and coordinate and collaborate with key partners and stakeholders to promote activities and address gaps. Education, coupled with marketing approaches and PSE initiatives is more effective than one strategy alone for preventing overweight and obesity in Sacramento County residents. The objectives, activities, and PSE changes related to Live, Learn – K-12, Learn – ECE, and Shop will support the overall state level goal, and the behavioral outcome goals 1, 2, 3, 4, and 5.

<u>Learn – Early Childhood Education</u>

Early Childhood Education sites will utilize age appropriate, approved curricula to teach children aged 2-5 about nutrition and/or physical activity. Indirect and direct education will be provided to parents/guardians on topics such as healthy beverages, healthy portions for small children, healthy snacks, food management strategies, healthy meal planning, physical activity, etc. Parents will receive resources to complement classroom nutrition and physical activity lessons, healthy recipes, and updates on community/site wellness events.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Sacramento County **Three-Year Integrated Work Plan FFY 2017–2019** **Rev. 08/28/2017**

Sacramento County LHD will provide technical assistance and training for educators, staff, and family advocates, parents/guardians to establish and/or implement policies supporting healthy eating patterns, healthy beverage options (Rethink Your Drink), physical activity opportunities, school/community gardens, for children aged 0-5.

Learn – K-12

For students and parents in qualifying K-12 schools, The LHD will provide direct and indirect education opportunities at the individual level using age-appropriate, NEOPB approved curricula and materials. Students will receive multisession and/or single session direct nutrition and/or physical activity education lessons. Indirect education will include health fairs, family nights, festivals, and distribute resources to expose more students and parents to SNAP-Ed and reinforce messaging.

In addition to education, LHD's will assist schools to develop, implement, update, and/or sustain healthy changes in the school environment. These can include policies, environment changes, and/or informal practices as related to nutrition and physical activity behaviors.

Students will also have the opportunity to complete YPAR (Youth-led Participatory Action Research) project(s). The youth will identify a public health concern, conduct research, analyze the data, and identify an approach that will result in a PSE change. Lessons can cover nutrition education concepts, physical activity promotion, food demonstrations and tastings, and continually support the development of the project focus. The youth will choose a project with a PSE focus.

Designated LHD staff will participate in school related strategic-planning and implementation meetings, committees, and coalition meetings as they related to student/school wellness and seek new partnerships to expand efforts. Training and technical assistance will be provided to school staff, as needed, on approved curricula, coordination of parent education, school wellness related activities, and provide educational materials and resources pertinent to the topics being addressed. Media and public relation strategies will be customized for the school environment based upon the media activities described in the "Live" setting.

Shop

In the areas where Sacramento County residents "shop", the LHD will focus efforts at SNAP-Ed eligible sites in qualifying census tracts to increase access and encourage consumption of healthy foods and beverages. Healthy choices will be promoted at the individual level through direct and indirect education activities, such as store tours, food demonstrations, taste tests, and interactive booths. The LHD will also host and/or participate in one NEOPB-sponsored event per year, such as the Fruit and Veggie Fest. Food banks and farmers' markets will be promoted as other avenues for access to healthy foods and to increase EBT enrollment and utilization.

At the environmental and sector level, the LHD will engage retail sites to make changes to the interior and exterior environment of the site, such as improving product placement, increasing signage to promote healthy products, and increasing fresh produce options, based up baseline assessment results. LHD staff will provide ongoing training and technical assistance, including resources/materials, to appropriate retail staff on the agreed upon environmental changes and policies. All resources and materials will be NEOPB-approved, including but not limited to, cookbooks, recipe cards, and point-of-purchase signage. Educational

materials will also be NEOPB- approved, such as HOTM and USDA's 10 Nutrition Education Series. Media and public relation strategies will be customized for "shop" sites based upon the media activities described in the "Live" setting and will complement each other.

Live

Activities in the "Live" objective will take place in qualifying faith-based institutions, public housing, libraries, health clinics, SNAP offices, parks and recreation centers, senior congregate nutrition sites, and other community settings. The majority of activities will target adults and seniors with some activities targeting youth.

Indirect nutrition education will include promotional activities, including food demos and taste, health/community fairs, and distribution of educational and promotional materials. The activities will increase individuals' health literacy and promote the consumption of healthy food and beverages and increasing physical activity levels.

Culturally relevant, nutrition education (indirect and direct) will be delivered to SNAP-Ed eligible adults using the peer-to-peer model. Lessons will be focused on increasing knowledge of healthy eating practices (health literacy), improving self-efficacy and consumption of healthy food and beverages, increasing physical activity, and food demonstrations and will take place in a variety of community settings. Peer-to-peer multisession classes will be used to fulfill IOE requirements. All curricula and intervention strategies used will be practice and/or evidence-based from NEOPB approved lists.

Series-based direct education will be provided to seniors at SNAP-Ed eligible senior public housing sites utilizing the Eat Smart, Live Strong curriculum. Other approved materials such as MyPlate for Older Adults and Harvest of the Month will be used for indirect education to senior adults at SNAP-Ed eligible senior congregate nutrition sites in Sacramento County.

In addition to education, peers will integrate community empowerment and mobilization efforts into classes to encourage community involvement in policy, systems, and environmental (PSE) change strategies and initiatives. Discussion of PSE changes during nutrition education classes will foster community participation in the adoption and sustainability of these changes. PSE initiatives will be selected based on need(s) found through baseline assessment(s) as well as input from the community and key stakeholders. Ultimately, PSEs will improve the food, beverage and physical activity environment providing support for community members to make healthy choices for themselves and/or their families. PSE projects include, but are not limited to, healthy fundraising guidelines, establishing community edible gardens, establishment of physical activity practices, increasing access to drinking water, and other appropriate topics as determined by site.

AAA4 will work to explore the feasibility of developing new food distribution sites with a local food bank and the Sacramento County senior nutrition services provided. This work will build relationships in the community and increase access to healthy foods for the SNAP-Ed eligible senior population.

The LHD will also build partnerships with organizations, agencies, and other key stakeholders to advance active living/active transportation policies, plans, and infrastructure improvements in SNAP-Ed qualifying neighborhoods. In addition to partnership building, LIAs will provide training and/or technical assistance to

appropriate parties on policy and planning efforts that increase opportunities in the community for physical activity. Technical assistance provided will specifically address and reflect the needs and issues of SNAP-Ed eligible neighborhoods. Grant funds will not be used to pay for the installation of infrastructure projects.

In an effort to help reduce food insecurity rates, the LHD will investigate the feasibility of a food recovery program aimed at the donation and distribution of wholesome surplus food from food producing facilities (hospitals, restaurants, schools, etc.) to local pantries within SNAP-Ed eligible neighborhoods. Feasibility efforts and strategies will be guided by the *WasteNot Orange County Coalition Community Toolkit* handbook. Please see WasteNot OC website for more information (http://media.wix.com/ugd/c117b4_c7a0a88d15bc40fbae72ea6468cbf28e.pdf).

The LHD will develop communication tools to support LHD objectives, including but not limited to, fact sheets, school wellness snapshots, programmatic promotional materials, etc. There will be coordinated local media efforts that support healthy food and/or beverage and/or physical activity education promotion. Purchase local media buys (billboards, bus shelters, TV or radio commercials, or other approved methods) of CDPH approved messages in qualifying neighborhoods. Media buys will be made in conjunction with CDPH.

Evaluation Plan

Sacramento County will apply a variety of evaluation strategies to assess program implementation, outcomes and effectiveness. Evaluation efforts will involve the collection of formative, process, impact and outcomes measures. The evaluation methods will measure changes in knowledge (e.g., understanding USDA recommendations, sugar-sweetened beverages (RYD), and forms of physical activity), behavior (e.g., increased consumption of healthy foods and beverages, reduced consumption of less healthy foods and sugar-sweetened beverages, and increased physical activity), and improvement in policies, systems, and environments (PSEs) designed for Sacramento county residents. All evaluation will align with the SNAP-Ed Evaluation Framework and use NEOPB-approved materials to ensure program fidelity. Evaluation efforts will include:

Formative Evaluation

Formative evaluation measures will include key informant interviews (KIIs) or focus groups to access site and site staff readiness to change and what those changes may entail. Information gathered during the KII will be used to help develop an action plan and decide what individual, environmental, and sector level activities and strategies can be implemented successfully. CX3 surveys will be utilized in a similar fashion as the KIIs, in appropriate and designated areas, to help determine the sites readiness for program strategy implementation.

Process Evaluation

Process evaluation measures will document program effort implementation and integration of intervention strategies. Tools will include, but are not limited to: the Activity Tracking Form (ATF), tracking logs, participant sign in sheets, demographic questionnaires/data-cards, and material distribution logs. The ATF will track progress of activities and progression of overall objective work.

Post-Intervention Evaluation

To evaluate the outcomes and impact of LIA activities, evaluation measures will be utilized across all sectors to measure nutrition and physical activity knowledge, attitudes, and behaviors as well as policy, systems, and environmental changes. Post-intervention measures will include, intercept surveys, focus groups, one-on-one interviews, and/or follow-up surveys. Intercept surveys (for faith and retail settings) will gather information, at appropriate settings, related to community members' perceptions of access to and consumption of healthy food and beverages and/or physical activity, as well as factors hindering or supporting desired health behaviors. Site staff will be evaluated annually to measure successes and challenges of wellness policy/procedural changes, curricula, and/or related activities as appropriate. Pre/post/follow-up surveys will measure participants' changes in knowledge, attitudes, and behaviors at baseline compared to those post-intervention for the adult nutrition and physical activity education classes and youth nutrition and physical activity education classes. These classes will follow NEOPB IOE requirements, using NEOPB-approved pre/post-test measures and complete related plans and reports.

Impact/Outcome Evaluation

The intervention will use a NEOPB approved, evidence-based curriculum for the basis of its nutrition education and physical activity intervention. This curriculum will be suitable for adults and based on the Dietary Guidelines for Americans 2010 and 2008 Physical Activity Guidelines for Americans. Each IOE class will include nutrition/healthy eating information, food samplings, interactive learning activities, informational handouts, and nutrition education reinforcement items (e.g., cookbooks and aprons). Classes will be supplemented with materials addressing, but not limited to, consumption behaviors, shopping behaviors, physical activity behaviors, knowledge/attitudes of eating healthy foods, drinking healthy beverages, and self-reported access to healthier food environments and opportunities for physical activity among SNAP-eligible populations. The target population will be SNAP-eligible English and/or Spanish speaking adults. All the classes will take place in a classroom setting and will be conducted using the peer-to-peer model. Impact Outcome Evaluation (IOE) of nutrition education multi-session series for adults will be conducted using the Food Behavior Checklist, as well as an internally developed, state approved additional module. A matched-pair, pre/post evaluation design will be used to collect data from individual participants. To improve rigor of IOE study design, the plan also includes an annual increase in intervention group matched pairs (to be determined annually) as well as follow up surveys 4 weeks post intervention completion.

PSE Assessments

All PSE related activities will be tracked using the NEOPB provided RE-AIM tool to enable mid-year improvements, changes, or maintenance of success implementation strategies. Environmental scans will also inform the ways in which healthy behaviors are being supported and/or hindered by the environment. They will document changes in the environment generated by PSE interventions. Data analysis and dissemination of results will follow in years two and three to address need and improve implementation.

All program evaluation measures will be analyzed to refine and enhance program efforts. Tools and measure will be developed and approved by NEOPB as needed. In addition to the aforementioned quantitative measures and tools, event and activity photographs and success stories will be collected to add a

complementary qualitative evaluation component. Program progress and results will also be disseminated as appropriate to community members, stakeholders, partners, etc. to keep supporters informed and to continually gain momentum to reach SNAP-Ed and Sacramento County's goals.

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

By September 30, 2019 assist 20 early child care sites to establish, implement, and/or improve their food and nutrition, physical activity and/or screen time procedures and/or policies to change site environments to support healthy food and beverage practices and promote physical activity as measured by pre/post assessment.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Site wellness polices related to nutrition, physical activity, and/or reduced screen time
- Environmental supports to promote healthy eating patterns and/or physical activity (e.g. Painting Playgrounds for Movement)
- Healthy food and beverage access and physical activity opportunities

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017, develop partnerships with early child care sites and other 0-5 serving organizations/agencies; conduct and analyze assessment(s) at 5 sites to identify areas of improvement; implement and/or improve at least one nutrition, physical activity, and/or screen time procedure and/or policy at each site; provide training and technical assistance as needed; regularly disseminate information and resources on nutrition, physical activity, and/or wellness related topics.

   b. By September 30, 2017, provide age-appropriate nutrition and physical activity direct education activities to reach 100 students and 100 parents; reach 400 students, parents, and administrators with indirect nutrition and physical activity education activities.

2. **FFY 2018 (Year 2) Objective(s):**

   a. By September 30, 2018, continue to develop partnerships with early child care sites and other 0-5 serving organizations/agencies; conduct and analyze assessment(s) at 7 additional sites to identify areas of improvement; implement and/or improve at least one nutrition, physical activity, and/or screen time procedure and/or policy at each site; provide training and technical assistance as needed; regularly disseminate information and resources on nutrition, physical activity, and/or wellness related topics.

   b. By September 30, 2018, provide age-appropriate nutrition and physical activity direct education activities to reach 140 students and 140 parents; reach 600 students, parents, and administrators with indirect nutrition and physical activity education activities.

3. **FFY 2019 (Year 3) Objective(s):**

   a. By September 30, 2019, continue to develop partnerships with early child care sites and other 0-5 serving organizations/agencies; conduct and analyze assessment(s) at 8 additional sites to identify areas of improvement; implement and/or improve at least one nutrition, physical activity, and/or screen time procedure and/or policy at each site; provide training and technical assistance as needed; regularly disseminate information and resources on nutrition, physical activity, and/or wellness related topics.

   b. By September 30, 2019, provide age-appropriate nutrition and physical activity direct education activities to reach 160 students and 160 parents; reach 700 students, parents, administrators with indirect nutrition and physical activity education activities.

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):
By September 30, 2019 assist 20 early child care sites to establish, implement, and/or improve their food and nutrition, physical activity and/or screen time procedures and/or policies to change site environments to support healthy food and beverage practices and promote physical activity as measured by pre/post assessment.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**

By September 30, 2019 assist 30 qualifying schools to develop, implement and/or improve school wellness policies, physical environments, and/or institutional capacity (in school and/or afterschool) to support healthy food and beverage practices and promotion and increase and/or promote physical activity behaviors among students, parents, and school staff (as reflected in activities and evaluation plans).

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- School wellness polices related to healthy food and beverage and/or physical activity
- Environmental supports to promote healthy food and beverage access and consumption
    - Smarter Lunchrooms Movement (SLM)
    - Hydration Stations
    - Healthy celebrations/fundraising
    - School gardens
    - Farm to School
- Environmental supports to promote physical activity access and opportunities
    - Painting Playgrounds for Movement
    - Structured and unstructured physical activity
    - Safe Routes to School
    - Joint use agreements

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017, develop partnerships with appropriate school staff (school and district), parents, and other youth serving agencies (K-12); conduct and analyze assessment(s) at 10 schools to identify areas of improvement; implement and/or improve at least one nutrition and/or physical activity, procedure and/or policy at each site; provide training and technical assistance as needed; regularly disseminate information and resources on nutrition, physical activity, and/or wellness related topics.

   b. By September 30, 2017, provide age-appropriate nutrition and physical activity direct education activities to reach 7,020 students and 500 parents; reach 14,000 students and parents with indirect nutrition and physical activity education activities.

2. **FFY 2018 (Year 2) Objective(s):**

   a. By September 30, 2018, continue to develop partnerships with appropriate school staff (school and district), parents, and other youth serving agencies (K-12); conduct and analyze assessment(s) at 10 additional schools to identify areas of improvement; implement and/or improve at least one nutrition and/or physical activity, procedure and/or policy at each site; provide training and technical assistance as needed; regularly disseminate information and resources on nutrition, physical activity, and/or wellness related topics.

   b. By September 30, 2018, provide age-appropriate nutrition and physical activity direct education activities to reach 7,520 students and 525 parents; reach 15,000 students and parents with indirect nutrition and physical activity education activities.

3. **FFY 2019 (Year 3) Objective(s):**

   a. By September 30, 2019, continue to develop partnerships with appropriate school staff (school and district), parents, and other youth serving agencies (K-12); conduct and analyze assessment(s) at 10 additional schools to identify areas of improvement; implement and/or improve at least one nutrition and/or physical activity, procedure and/or policy at each site; provide training and technical assistance as needed; regularly disseminate information and resources on nutrition, physical activity, and/or wellness related topics.

   b. By September 30, 2019, provide age-appropriate nutrition and physical activity direct education activities to reach 8,020 students and 550 parents; reach 16,000 students and parents with indirect nutrition and physical activity education activities.

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**

By September 30, 2019, a minimum of 20 qualifying retail sites, including retail stores, food banks, and farmers' markets, will increase access to healthy foods and beverages through interior and exterior changes and marketing strategies as measured by pre/post assessment(s).

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Corner store market conversion
- Walkability
- Signage (interior and exterior)
- Marketing
- Stocking standards
- Food procurement (local)
- CalFresh/EBT acceptance and utilization
- Food distributions/pantries
- Farmers‘ Markets promotion

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017, complete CX 3 and/or other environmental assessments at qualifying sites.

   b. By September 30, 2017, conduct at least 10 healthy food and beverage store tours and 4 indirect education activities, such as taste tests and interactive booths at qualifying sites, including one NEOPB-sponsored event, such as Fruit and Veggie Fest.

c. By September 30, 2017, at least 4 qualifying retail sites will increase access to healthy foods and beverages through interior and exterior changes and marketing strategies; establish partnerships with local farmers, distributors, community-supported agriculture programs, and other appropriate parties to advance strategies.

d. By September 30, 2017, provide ongoing training and technical assistance, including resources/materials, to appropriate retail staff on healthy store environmental changes and policies. Topics may include, but are not limited to, signage, produce procurement, storage strategies, product placement and pricing, store layout, etc.

e. By September 30, 2017, develop a Healthy Retail Recognition Program to increase awareness of healthy retail sites within the community and to increase retail staff self-efficacy to sustain changes/policies.

2. **FFY 2018 (Year 2) Objective(s):**

a. By September 30, 2018, conduct at least 10 healthy food and beverage store tours and 4 indirect education activities, such as taste tests and interactive booths at qualifying sites, including one NEOPB-sponsored event, such as Fruit and Veggie Fest.

b. By September 30, 2018, at least 7 additional qualifying retail sites will increase access to healthy foods and beverages through interior and exterior changes and marketing strategies; establish partnerships with local farmers, distributors, community supported agriculture programs, and other appropriate parties to advance strategies.

c. By September 30, 2018, provide ongoing training and technical assistance, including resources/materials, to appropriate retail staff on healthy store environmental changes and policies. Topics may include, but are not limited to, signage, produce procurement, storage strategies, product placement and pricing, store layout, etc.

d. By September 30, 2018, continue development and begin implementation of a Healthy Retail Recognition Program to increase awareness of healthy retail sites within the community and to increase retail staff self-efficacy to sustain changes/policies.

3. **FFY 2019 (Year 3) Objective(s):**

a. By September 30, 2019, conduct at least 10 healthy food and beverage store tours and 4 indirect education activities, such as taste tests and interactive booths at qualifying sites, including one NEOPB-sponsored event, such as Fruit and Veggie Fest.

b. By September 30, 2019, provide ongoing training and technical assistance, including resources/materials, to appropriate retail staff on healthy store environmental changes and policies. Topics may include, but are not limited to, signage, produce procurement, storage strategies, product placement and pricing, store layout, etc.

c. By September 30, 2019, at least 9 additional qualifying retail sites will increase access to healthy foods and beverages through interior and exterior changes and marketing strategies; establish partnerships with local farmers, distributors, community-supported agriculture programs, and other appropriate parties to advance strategies.

d. By September 30, 2019, continue implementation of a Healthy Retail Recognition Program to increase awareness of healthy retail sites within the community and to increase retail staff self-efficacy to sustain changes/policies.

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):
By September 30, 2019, a minimum of 20 qualifying retail sites, including retail stores, food banks, and farmers' markets, will increase access to healthy foods and beverages through interior and exterior changes and marketing strategies as measured by pre/post assessment(s).

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Provide 10 healthy food and beverage educational store tours at qualifying retail sites to reach individuals and/or youth. Tours may include food and beverage tastings and/or demonstrations. - Year 1: 50 individuals* - Year 2: 70 individuals - Year 3: 90 individuals * Conduct 1-2 Cooking Matters class series that supports healthy cooking and shopping at qualifying retail sites to reach 15 – 20 individuals. Store tours will be implemented with class attendees. Explore recruiting a Champion Community Liaison from class attendees to receive community input regarding grocery store preferences and shopping patterns.	x CED CEI MPR C&C TTA	CWD x LHD AAA UCCE CCC	CWD: LHD: PHI AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 X Year 3: Q1 x, Q2 x, Q3 x, Q4 X	- ATF - Attendance list - Education materials - Photos with release - Data files - pre/post-tests

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):**

By September 30, 2019, a minimum of 30 qualifying community organizations, SNAP offices, public housing, health clinics, places of worship, parks and recreation facilities, etc. will receive healthy food and beverage education and promotion and physical activity education and/or promotion to support healthy environmental changes and practices as measured by pre/post assessment(s).

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Site polices related to healthy food and beverage and/or physical activity

- Environmental supports to promote healthy food and beverage access and consumption
  - Food procurement
  - Food waste
  - Healthy celebrations/fundraising
  - Community gardens
  - Hydration Stations
  - Built environment infrastructure – food access

- Environmental supports to promote physical activity access and opportunities
  - Painting Playgrounds for Movement
  - Structured and unstructured physical activity
  - Active Living/Transport/Complete Streets
  - Joint use agreements
  - Safety
  - Built environment infrastructure – physical activity

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017, conduct age-appropriate nutrition and/or physical activity direct education single and/or multisession lessons at 5 qualifying community sites to reach at least 475 unduplicated SNAP-Ed eligible individuals using approved curricula and materials.

   b. By September 30, 2017, conduct multisession direct education classes utilizing the peer-to-peer model at qualifying sites to reach at least 125 unduplicated SNAP-Ed eligible adults.

   c. By September 30, 2017, conduct age-appropriate indirect nutrition and/or physical activity education at 5 qualifying community sites to reach at least 1,000 SNAP-Ed eligible individuals.

   d. By September 30, 2017, complete policy, systems, and environmental assessments (as related to nutrition and physical activity) at 5 qualifying community sites.

   e. By September 30, 2017, recruit at least 2 new strategic partners and build relationships to strengthen CNAP group.

   f. By September 30, 2017, provide ongoing training and technical assistance, including resources/materials, to appropriate community site staff on healthy food/beverage or physical activity environmental changes and policies.

   g. By September 30, 2017, 5 qualifying sites will implement and evaluate at least 1 policy, system, or environmental change.

   h. By September 30, 2017, Sacramento County will recruit, train and utilize at least 2 Champions, spokespersons, parents, and/or community members, etc. to serve a leadership role in supporting policy, systems, and environment changes.

   i. By September 30, 2017, coordinate local media efforts that support healthy food and/or beverage and/or physical activity education promotion. Purchase local media buys near qualifying sites of CDPH approved messages in qualifying neighborhoods.

2. **FFY 2018 (Year 2) Objective(s):**

   a. By September 30, 2018, conduct age-appropriate nutrition and/or physical activity direct education single and/or multisession lessons at 10 additional qualifying community sites to reach at least 500 unduplicated SNAP-Ed eligible individuals using approved curricula and materials.

   b. By September 30, 2018, conduct multisession direct education classes utilizing the peer-to-peer model at qualifying sites to reach at least 150 unduplicated SNAP-Ed eligible adults.

c. By September 30, 2018, conduct age-appropriate indirect nutrition and/or physical activity education at 10 additional qualifying community sites to reach at least 2,000 SNAP-Ed eligible individuals.

d. By September 30, 2018, complete policy, systems, and environmental assessments (as related to nutrition and physical activity) at 10 additional qualifying community sites.

e. By September 30, 2018, recruit at least 1 new strategic partner, continue building relationships to strengthen CNAP group and develop a strategic action plan.

f. By September 30, 2018, provide ongoing training and technical assistance, including resources/materials, to appropriate community site staff on healthy food/beverage or physical activity environmental changes and policies

g. By September 30, 2018, 10 additional qualifying sites will implement and evaluate at least 1 policy, system, or environmental change.

h. By September 30, 2018, Sacramento County will recruit, train and utilize at least 2 additional Champions, spokespersons, parents, and/or community members, etc. to serve a leadership role in supporting policy, systems, and environment changes.

i. By September 30, 2018, coordinate local media efforts that support healthy food and/or beverage and/or physical activity education promotion. Purchase local media buys near qualifying sites of CDPH approved messages in qualifying neighborhoods.

3. **FFY 2019 (Year 3) Objective(s):**

a. By September 30, 2019, conduct age-appropriate nutrition and/or physical activity direct education single and/or multisession lessons at 15 additional qualifying community sites to reach at least 525 unduplicated SNAP-Ed eligible individuals using approved curricula and materials.

b. By September 30, 2019, conduct multisession direct education classes utilizing the peer-to-peer model at qualifying sites to reach at least 175 unduplicated SNAP-Ed eligible adults.

c. By September 30, 2019, conduct age-appropriate indirect nutrition and/or physical activity education at 15 additional qualifying community sites to reach at least 3,000 SNAP-Ed eligible individuals.

d. By September 30, 2019, complete policy, systems, and environmental assessments (as related to nutrition and physical activity) at 15 additional qualifying community sites.

e. By September 30, 2019, recruit at least 1 new strategic partner, continue building relationships to strengthen CNAP group and execute the strategic action plan.

f. By September 30, 2019, provide ongoing training and technical assistance, including resources/materials, to appropriate community site staff on healthy food/beverage or physical activity environmental changes and policies.

g. By September 30, 2019, 15 additional qualifying sites will implement and evaluate at least 1 policy, system, or environmental change.

h. By September 30, 2019, Sacramento County will recruit, train and utilize at least 2 additional Champions, spokespersons, parents, and/or community members, etc. to serve a leadership role in supporting policy, systems, and environment changes.

i. By September 30, 2019, coordinate local media efforts that support healthy food and/or beverage and/or physical activity education promotion. Purchase local media buys near qualifying sites of CDPH approved messages in qualifying neighborhoods.

Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):

By September 30, 2019, a minimum of 30 qualifying community organizations, SNAP offices, public housing, health clinics, places of worship, parks and recreation facilities, etc. will receive healthy food and beverage education and promotion and physical activity education and/or promotion to support healthy environmental changes and practices as measured by pre/post assessment(s).

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
4.1	Provide multisession direct education classes utilizing the peer-to-peer model at qualifying sites to reach at least 100 unduplicated SNAP-Ed eligible individuals. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):**

By September 30, 2019, collaborate with 12 SNAP-Ed qualifying community-based sites, including but not limited to, public housing, senior/community centers, and food banks to increase knowledge, access, and appeal of healthy dietary choices and physical activity.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Increased food security and access to healthy foods and physical activity

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

    a. By September 30, 2017, reach 140 older adults through direct and/or indirect education at 5 SNAP-Ed qualifying sites, including but not limited to, senior congregate nutrition sites and public housing facilities.

    b. By September 30, 2017, collaborate with 1 food bank and the Sacramento County senior nutrition services provider to explore feasibility of developing new distribution sites.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30, 2018, reach 130 older adults through direct and/or indirect education at 4 SNAP-Ed qualifying sites, including but not limited to, senior congregate nutrition sites and public housing facilities.

    b. By September 30, 2018, assess which senior nutrition sites are most compatible as food bank distribution site(s) and begin developing plans for implementation. Select one site for a pilot program.

3. **FFY 2019 (Year 3) Objective(s):**

   a. By September 30, 2019, reach 120 older adults through direct and/or indirect education at **3** SNAP-Ed qualifying sites, including but not limited to, senior congregate nutrition sites and public housing facilities.

   b. By September 30, 2019, establish new food distribution site(s) at 3 senior congregate nutrition sites.

Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):
By September 30, 2019, collaborate with 12 SNAP-Ed qualifying community-based sites, including but not limited to, public housing, senior/community centers, and food banks to increase knowledge, access, and appeal of healthy dietary choices and physical activity.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
5.1	Provide series-based direct education at **3** SNAP-Ed eligible senior public housing facilities. • Year 1. Provide direct nutrition education and physical activity using approved curricula to 2**0** older adult participants at eligible senior public housing facilities. • Year 2. Provide direct nutrition education and physical activity using approved curricula to **10** older adult participants at eligible senior public housing facilities.	x CED CEI MPR C&C TTA	CWD LHD x AAA UCCE CCC	CWD: LHD: AAA: Peggy Savant, RD UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3, Q4 Year 2: Q1 x, Q2 x, Q3, Q4 Year 3: Q1, Q2, Q3, Q4	ATF, quarterly reports, pre/post-evaluations

5.2	Provide regularly scheduled indirect nutrition education to **360** older adults at **9** SNAP-Ed eligible senior congregate nutrition sites using approved materials such as *MyPlate for Older Adults* and *Harvest of the Month*. • Year 1. Provide indirect nutrition education to **120** older adult participants at **3** sites. • Year 2. Provide indirect nutrition education to **120** older adult participants at **3** sites. • Year 3. FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: Sacramento County

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Office Supplies	Cost to purchase supplies to support program staff including, but not limited to paper, envelopes, pens, pads, folders, copy paper, black & color printer cartridges, binders, clips, markers, laminate pouches, pull cart, file boxes, keyboard tray, batteries, Headsets, USB, camera memory card, pull cart for health fairs, display holders for brochures, laptop bags, clip boards, small scissors, etc.	8.59	$87.31	12	$9,000	
2			Postage/Overnight Mail	Cost to send out U.S mail (event/meeting flyers, minutes, contracts, reports, and other program correspondence) @ .49 each and/or other packages. This may also include cost to send packages via Fed Ex or UPS.	8.59	$0.49	226	$951	
				Theft-sensitive equipment/supplies that are less than $5,000 (Computers, printers, projectors, etc.)					
1			Computer	One (1) Dell OpitPlex 9020 (Desktop PC) computers, monitors ($1045 each, including tax) for Position 6, Health Educator, Lizette Martinez, 1.0 FTE. Total cost $1380 each.	1	$1,380.00	1	$1,380	
							Total Non-Capital Equipment/Supplies:	**$11,331**	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Black and White Copies	Cost = $.04/copy. Nut Ed class flyers and handouts, CNAP material, Nut Ed (RYD/My Plate) and/or PA material for community events/mtgs. Admin paperwork (copies of receipts, progress reports, correspondence, support material for Subs and other mtgs): .04 x 75,000.	$0.04	75000	$3,000	
2			Color Copies	Cost = $.29/copy. Nut Ed class flyers and handouts, CNAP material, Nut Ed (RYD/My Plate) and/or PA material for community events/mtgs. Admin paperwork (copies of receipts, progress reports, correspondence, support material for Subs and other mtgs): .29 x 31,034	$0.29	31034	$9,000	
4			Raised Garden Kits & Supplies	To promote healthy eating with SNAP eligible recipients to assist in developing community gardens in the priority neighborhoods, including qualifying schools and community sites. 34 garden beds + supplies/site @ ~$678.57 for raised garden beds, ponics and/or pods + supplies. Includes raised garden beds, hot pods (pallets, large durable paper/plastic container) and/or barrel-ponic supplies (PVC pipes, aqua pump, plastic/metal/wood containers/drums...), seeds, seedlings, vines, soil and soil mixtures, wood chips, garden fabric, garden tools, gardening books, timers, rebar, hoses, drip system, chicken wire, worms and worm castings, 6-foot folding tables & chairs, wheelbarrows, produce scales, hoses, drip system, soil testing kits, decompostable pots to grow starts in, rental of a rototiller and/or a trencher (including labor and machine rental), and other supplies to start-up a community or school garden (a LHD PSE). The price per garden bed is an elevated cost to include costs of items that are not included in the "garden bed" costs, such as 6-foot folding tables & chairs, wheelbarrows, rental of rototiller and trenchers, etc. In addition, each garden we develop has individual needs, some are re-fresh gardens and beds are already in-tact and only soil and plants are needed, others require a start from scratch so every garden/garden bed will need a different variation of the items listed above.	$678.57	34	$23,071	
5			Training Materials	USDA approved Nut-Ed and/or PA trng materials for Nut-Ed classes, community events, CNAP, PSEs, and/or RYD events, including but not limited to TBD evidence-based curriculums @ $1,206; SPARK and/or CATCH K-12 curriculums (@ $400/curriculum X 4); and/or PA equipment (@ $400/set X 9).	$6,406.00	1	$6,406	
6			Educational Materials	USDA approved Nut-Ed & PA materials for 2000 participants @$4.10/person (including recipe books/cards, PA games, grocery bags, Frisbees, jump ropes, etc.) and My Plate/RYD display boards @ $200-$400 each, NEOPB Prize Wheels, and supplies for Nut-Ed classes, community events, PSEs, and/or RYD events.	$4.00	5000	$20,000	
7			Food and Food Prep Supplies	Food: From USDA approved recipes-Food taste tests for 1,000 participants @$2.5/person for Nut-Ed classes, community and/or RYD events.	$2.50	1000	$2,500	
8			Food Prep Supplies	Food Prep Supplies for Nut-Ed classes, community and/or RYD events such as: cooking & serving utensils, knives, cutting boards, blenders, pots/pans, towels, napkins, drink dispensers/containers, food storage containers and bags, bowls, plates, cups, utensils, measuring utensils, salad spinner, rice cooker, scissors (kids), electric skillet, cleaning supplies, first aid kits, etc.	$2,000.00	1	$2,000	

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: Sacramento County

9			Media	Print media ads and/or social media costs to promote and/or highlight program activities/progress, such as work with retail merchants or community gardens. Print media to promote NEOPB "Be Better" campaign at local fixed site bus shelters or billboards. For a run time of 1 month: Billboards cost = @$480 x 15 = $7200. Bus shelters cost = @$240x50 = $12,000. May run for 4 months (once each quarter or twice for two months) = $19,200x4 = $76,800. Radio ad costs = @15,000. In-store ads costs = $2,200. Total = $94,000.	$94,000.00	1	$94,000	
10			Adobe Creative Cloud	Adobe Creative Cloud annual membership @ ~$800 for a one year subscription to access graphic software applications. Software CDs are no longer available, thus an annual membership is required.	$800.00	1	$800	
11			Translation/TBD	Translate flyers/ed material to Spanish, Russian, and/or Hmong. Based on County contracted vendor. Cost is approximatly $120 - $500 per project.	$400.00	10	$4,000	
12			Survey Gizmo	Subscription: Survey Gizmo @$750 for a one year subscription to create and distribute on-site custom surveys and analyze responses to be used with previously purchased iPod Touches. The surveys will measure changes of knowledge, behavior and attitudes before and after educational trainings. They will be used to gather public opinion surveys, observational surveys and satisfaction surveys. The benefit of using digital surveys is less money is spent on paper and staff time.	$750.00	1	$750	
13			Community Development	Fee for 400 students who attend qualifying schools to attend community garden/farm event @ approximatly $15/youth. Fee is for a farm tour and community garden education.	$15.00	400	$6,000	
						Total Materials:	**$171,527**

1			GEO Garden Tour Alumni	Cost to reimburse GEO garden tour alumni who will maintain the garden, provide peer mentorship to current GEO Academy students and facilitate 30 garden tours during the 2017/2018 school year. Payment is distributed following collection of timesheets and outline of activities performed. The GEO Garden is an Environmental Science and Design Academy which provides strong academic coursework where the curriculum and activities are guided by the following principles that foster environmental awareness and community responsibility at Grant Union High School in North Sacramento. The payment would be cash incentives to each alumni. Alumni are paid an hourly wage based on the current minimum wage. The alumni work a maximum of 8 hours per week, and their overall amount is capped at $528 maximum. Each alumni would have an agreement with HEC to provide services described above. Each month the alumni would provide a time sheet with a "progress report" on what they have accomplished that month. Each alumni would be capped at a maximum payment for work provided.	$14,784	
2			LPC Consulting	Outcome evaluation, cost will cover matching, coding, data entry, analysis and report highlighting key outcomes.	$10,000	
3			Brenda Ruiz	Chef Brenda will oversee GEO Academy peer mentors and lead instructional cooking lessons to support 30 Garden Enhanced Nutrition Education 5-grade field trips to Grant High School GEO Garden.	$8,550

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Benito County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

County Name: San Benito

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
x	**California Department of Public Health: CDPH: (Local Health Department: LHD)**
	California Department of Aging: CDA: (Area Agency on Aging: AAA)
	Catholic Charities of California: CCC: (Catholic Charities of California: CCC)

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.

- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

San Benito County is a small, rural and geographically isolated county in central California. It is approximately 45 miles southwest of San Jose and 30 miles northeast of Salinas. It is bordered by Santa Clara, Santa Cruz and Monterey counties to the northwest and southwest, and Merced and Fresno counties to the northeast and southeast. English is the primary language *among residents with 62.8% while* 35.3% speak Spanish as their primary language at home according to 2010 United States Census. In addition, the U.S. Census illustrated that San Benito County was the only county in the greater San Francisco Bay Area with a Hispanic majority and where a minority race formed the largest race composition.According to the U.S. Census, San Benito County has a population of 58,267 as of 2014. From that total population, 88% is white alone, not Hispanic or Latino, 58.3% of population is Hispanic or Latino, 1.3% is Black or African American, 3.1% is American Indian and Alaska Native, 3.5% is Asian, 0.4% is Native Hawaiian and other Pacific Islander, and 3.3% consider themselves two or more Races. 20.5% of the population is foreign born. 77.9% of persons aged 25 years and older have high school diplomas whereas as only 19% of persons aged over 25 have a Bachelor's Degree or higher.

According to County Health Rankings website, San Benito County ranks #10 in overall health outcomes. Out of the total county population, adults in the county are 68.2% overweight/obese compared to surrounding counties, Santa Cruz 53.3% and Monterey 74.4%. This is an improvement and decrease for San Benito as the rate for overall adults overweight/obesity was 76.3% in 2014 according to the 2014 SNAP-Ed County Profile provided by California Department of Public Health. The Community Dashboard on Benito Link has data from the California Health Interview Survey and it shows that since 2005 there has been an increase of diabetes in adults in San Benito County. Current percentage of adults with diabetes is 17.5%. This data alone shows the need for nutrition and physical activity interventions.

The San Benito County Health and Human Services Agency's Public Health Division is the lead Local Health Department (LHD) and is the only Local Implementing Agency in San Benito County. There are no subcontractors in the county. In addition to SNAP-Ed, there are several nutrition related non- SNAP-Ed funded programs in San Benito County. For example, San Benito County has Women's, Infants, and Children (WIC), CalFresh, Meals on Wheels, Jovenes de Antano Golden Age Program (congregate meals), Community Food Pantry of San Benito County (which also distributes Emergency Food Assistance, Backpack Program, and Brown Bag Delivery), San Juan Bautista Food Bank and Thrift Store, Youth Alliance's Health Squad Summer Program and Fish and Loaves program from Sacred Heart Catholic Church. Lastly, our schools participate in the Free and Reduced Meals Program, Summer Meals Program, and School Breakfast Program.

Out of the total population in the county, a total of 16,535 or 29.7% of its total population is SNAP-Ed eligible (income less than 185% Federal Poverty Level). Out of the 29.9% of SNAP Ed eligible population, 78% identify themselves as Hispanic, 16%, White (non-Hispanic), 2.6% Asian, 2.7% unknown and 0.7% as multiracial. San Benito County serves a total of 6,283 (11.3%) CalFresh participants. There are also a total of 6,170 (55.0%) of the total student population that are eligible for the Free/Reduced Price Meals (FRPM). Out of the 11 census tracts in San Benito County, one (9.1%) is SNAP-Ed eligible based on all races data. Out of the 27 schools, 18 (66.7%) are SNAP- Ed eligible. The adult overweight/obese prevalence in San Benito County is 68.2% overall and 62.1% are SNAP-Ed eligible adults. Out of SNAP-Ed eligible adults, 33.6% are considered obese. For total population, obese non-SNAP-Ed eligible adults have a 33.3% rate. For children, 14.2% ages

2-11 are overweight and there is currently no data available for obese rates within that age group. Out of children ages 12-17 years old 32.8% are overweight and 21.6% are obese. The percentage of children and teens that are physically active at least 1 hour every day in San Benito County is 14.7%. Out of children ages 2-11, 28.8% are physically active at least 1 hour a day. The percentage of adults over age 20 who do not report any leisure time physical activity is 15%. According to the 2014 San Benito County Profile, the county has (n=9) recreational facilities per 100,000 residents.

In the 2015 SNAP-Ed county profile there is no data available to show the servings of fruit and vegetables consumed by children and teens. However, according to the California Health Interview Survey, fifty two percent (52%) of San Benito County children ages 2-11 years old report eating 2-5 servings of fruits and vegetables a day.

In a survey on sugary drink consumption conducted by the Nutrition and Fitness Collaborative of the Central Coast (NFCCC) that was released last year in 2015, San Benito County data was collected. To understand beverage consumption patterns, members of the NFCCC collected 1,227 self-report surveys from the central coast. One hundred twenty three of the survey respondents were from San Benito County. Convenience sampling was used to select survey sites, two in San Benito County. Surveying took place at schools, clinics, stores, recreational facilities, and public events during May, June, and July 2012.

The survey respondents indicated they consumed more sugary drinks than water. For every glass of water consumed, respondents said they consumed 1.2 glasses of sugary beverages (soda, diet soda, sweetened drink, sport drink, energy drink, coffee beverage, and blended drink). 47% of survey respondents said they drank regular soda most often, followed by sweetened teas or fruit-flavored beverages (41%), coffee beverages (41%), and blended drinks (36%). Of beverages not included in the sugary drink category, 47% of survey respondents also indicated they had consumed 100% fruit juice in the prior 24 hours.

San Benito County survey respondents ages 11-17 consumed the most sugary drinks in every category, besides diet sodas and blended drinks, compared with adults (ages 18+). Fifty percent of adolescents reported consuming only one plain water drink within the previous 24 hours before survey. Adolescents drank 1.7 times as many sugary drinks as water. Within a 24-hour period, 83% had at least one sweetened tea or fruit-flavored beverage, 67% reported having consumed at least one coffee beverage, 50% consumed at least one regular soda, 33% had at least one sports drink, and 33% also had at least one energy drink.

Survey also found that adults on an average day drank 1.2 sugary drinks for every one glass of water. Within a 24-hour period, 45% had consumed at least one regular soda, 41% had a coffee beverage, 40% consumed at least one sweetened tea or fruit-flavored beverage, 39% had consumed at least one blended drink, 23% consumed at least one diet soda, 8% had at least one sports drink and 8% also had at least one energy drink.

Since the data from NFCCC was from 2012 we also used data from the 2015 SNAP-ED County Profile which states that 26.8% of San Benito County SNAP-Ed eligible adults drink 1 or more sugary sweetened beverage per week.

According to the 2014 SNAP-Ed County Profile, the amount of restaurants in San Benito County that are fast food is 50%. Fifty percent (50%) of zip codes in San Benito County have grocery stores, produce stands or farmers markets. According to Healthy Stores for a Health Community campaign survey conducted in 2012, 39 stores were surveyed in San Benito County. Out of those stores only 64.1% carried low or non-fat milk and 84.6% had sugary drinks at the check-out lane. In terms of fruits and vegetables, the survey found that only 48.7% of the 39 stores carried any fresh fruit or vegetables. It also showed that 25% of good quality fruits and vegetables are in low income areas versus 40% of good quality fruits and vegetables in non-low income areas. In addition, 36.8% of stores carried a good quality selection of fruits and vegetables. The survey also showed that only 41% of stores accept Cal Fresh or WIC (Healthy Stores for a Healthy Community, 2013).

According to the 2015 SNAP-Ed County Profile, the percentage of low income population that has limited access to healthy food is 3%. There is a 10.5% overall food insecurity rate among San Benito County residents and 23% for children. The percentage of children under 18 years old who live in households that experience food insecurity is 26.8% (Feeding America).

4. **Community Assessment**

The information in the jurisdiction description comes in part from the SNAP-Ed County 2014 and 2015 Profiles prepared by CDPH which includes county-level data from a variety of sources such as American Communities Survey (ACS) five-year estimates, Departments of Social Services Cal Fresh Annual Trends data, US Census 2010 data, the California Health Interview Survey, Feeding American's Map the Food Gap, Food Insecurity in your County. Information from the NFCCC Rethinking Sugary Drinks on the Central Coast survey report and the Benito Link Community Dashboard was also used in this work plan. Using these data sources, nutrition education interventions focuses adults, seniors and students with a high percentage of obesity/overweight in SNAP-Ed target populations. Conducting outreach in schools and community events will help support healthy beverage choices among San Benito County residents who consume 1 or more sweetened beverage a day. LHD staff will implement Rethink Your Drink activities in schools and community events to SNAP-Ed eligible participants to decrease the number of sugary beverages that are consumed.

This data also illustrated the need for outreach in community on healthy choices and healthy foods considering that 50% of the San Benito County restaurants are fast food restaurants. Based on this nutrition data, LHD will implement nutrition and physical activity interventions as well as Policy, Systems and Environmental (PSE) change in schools and in community to bring awareness and encourage eating more fruits/vegetables and increase physical activity. With the high rates of obesity in youth and with informal assessments conducted by staff at schools and school cafeterias, LHD will be working on PSEs such as improving school wellness policies to include structured physical activity and nutrition education, salad bars in schools, Smarter Lunchrooms Movement, and/or resurrecting school gardens. LHD will also be providing nutrition education activities to students and parents as well as training for staff.

The data from the 2013 Healthy Stores Healthy Community Campaign revealed a need for corner stores and retail stores to have a good selection of fruits and vegetables available in low income areas. LHD staff will conduct assessment and use CX3 tools to determine retail needs. This work plan will also focus working

with retail stores on increasing access to healthy fruits and vegetables as well as Policy, Systems and Environmental (PSE) change efforts by providing technical support and assisting in corner store market conversions, healthy food and beverage policies/stocking standing, healthy in store marketing and promotions and store exterior improvements. LHD staff will conduct indirect education at retail sites and other qualifying means tested sites to increase access of fruit and vegetables. LHD also plans on collaborating with County Tobacco Education Program for their next Healthy Stores Healthy Community Campaign 2016-2017.

The data from all the sources mentioned above also illustrated a need for messages that can reach a wide audience. Approved media messages such as billboard advertisements, bus shelters, radio stations, and TV spots will help ensure that nutrition education and healthy beverage education will help reach the SNAP-Ed population at eligible sites. The LHD will also explore and research new SNAP-ED approved media outlets in San Benito County. Due to the size of San Benito, most of the media outlets are from other counties such as Monterey and Santa Cruz. The data used to develop this work plan also informed the need for continuous visibility in community in the form of community events like Kids at the Park, Healthy Kids Day, National Night Out, back to school nights, etc. These events provide an opportunity for SNAP-Ed staff to connect the messages conveyed in media to the target audience who attend these community events. Direct education in the form of classes with parents, teens, children, schools, etc. will be important to promote and support nutrition education and healthy beverage promotion.

Based on the 2015 SNAP-ED County Profile, low numbers of adults and children are getting the recommended amounts of physical activity. Only 28.8% of children ages 2-11 are physically active at least 1 hour a day while 14.7% of Children and Teens 2-17 years old are active at least 1 hour every day. According to the California Department of Education between 2012 through 2013 only 50.9% of 7th grade students were physically fit compared to 60.7% in California. This data was compared to 2011-2012 data whereas 60% of 7th grade students were physically fit. This indicator shows the percentage of 7th grade students that achieve the Healthy Fitness Zone for the aerobic capacity portion of the annual California Physical Fitness test.

Physical activity was also assessed utilizing the resources mentioned previously. The California Health Interview Survey conducted in 2011-2012 states that only 49% of teens within San Benito County engage in regular physical activity compared to 68.4% California state value. This data was compared to 2009 data whereas 67.6% of teens within San Benito County engaged in regular physical activity. This indicator shows the percentage of teens that are physically active for at least one hour on three or more days per week. Inactivity during childhood and adolescence increases the likelihood of being inactive as an adult.

Adults who are less active are at greater risk of dying of heart disease and developing diabetes, colon cancer, and high blood pressure. Participation in all types of physical activity declines drastically with both age and grade in school. According to 2015 San Benito County SNAP-Ed County Profile, 15% of SNAP-Ed eligible adults reported no leisure time physical activity. The data sources identified large need of physical activity education and promotion in community for both adults and children. In the 2014 SNAP-Ed profile, it was reported that 25.3% of adults engaged in regular walking and that for every 10,000 residents there are only 9 recreational facilities.

Based on the data found on environment and physical activity, LHD will work with qualifying sites to provide physical activity education. Staff will work with schools, parents, and children to increase opportunity for physical activity. With such a high need of physical activity in schools and community, LHD will collaborate with non-SNAP-Ed funded partners to provide more physical activity opportunities and education in SNAP-Ed eligible sites.

5. **Community Change Goals**

With 68.2% overweight/obesity rates, nutrition and obesity issues have been determined to be priority areas of focus in San Benito County. These are just two of the many concerns analyzed in community-wide assessments. Long term community change goals for San Benito County also include increasing breastfeeding rates, increasing the number of residents who are in a healthy weight category, reduce the rates of diabetes in adults, and increased physical activity in community. As San Benito County's only SNAP-Ed LIA, the LHD will focus their efforts on the SNAP-Ed eligible portion of the county's population and on SNAP-Ed allowable interventions and activities which align with the United States Department of Agriculture (USDA)-Western Regional Office (WRO) Evaluation Framework.

While San Benito County had multiple data sources to use when assessing community needs, because of the focus on nutrition and obesity issues LHD focused on data that supported that work. The data pointed up towards efforts pertaining to strategies in the following areas: healthy retail, school-based interventions, physical activity promotion and interventions in community based organizations to impact children, parents, adults and seniors in SNAP-Ed eligible sites.

LHD will support long term community change goals in the county by working with community partners to identify strategic partners and convene community-wide, multi-sector coalitions to improve nutrition and physical activity; create an environment that makes healthy food and beverage options the routine, easy choice; improve availability, accessibility and demand for healthy foods and beverages; ensure opportunities for physical activity and enhance the physical and built environment around the targeted institutions where the SNAP-Ed population can be found; develop and support a sustained, targeted physical activity and nutrition social marketing program (e.g., community-wide campaigns to promote healthy eating and active living) and provide evidence-based education with a focus on behavior changes goals; build capacity and engagement at school sites for comprehensive nutrition and physical education programs that help to achieve and further strengthen school wellness policies through nutrition education, increased access to physical activity, educate community/partners about policy/legislative changes that would improve retail environment; collaborate to create more opportunities for physical activity interventions in community; work with community based organizations to encourage nutrition education and environmental changes that support healthy behaviors.

Based on results of the Community Assessment, existing and new data were incorporated to help determine local need. Based on the results, the LHD along with input from Wellness Committee and Subcommittee to help plan SNAP-Ed FFY 17-19 work plan and various other community groups/programs, such as Maternal, Child and Adolescent Health, Tobacco Education Coalition, and the Healthy Stores for a Healthy Community campaign, determined that the community change goals would be the following: increasing consumption of and access to healthy food, promotion of healthy beverages and reduction of sugary beverages, increase of physical activity in community, and focus on school-based wellness strategies.

The LHD has determined that these four areas of need are essential to increasing the overall health of San Benito County. Overall community goals for each area include the following:

1. Increasing consumption of and access to fruits and vegetables
    - Increased healthy retail options, and healthy corner store options
    - Improved food resource management strategies and increased food security so SNAP-ED participants' funds' are available to purchase fruits and vegetables
    - Increased knowledge in children on fruits and vegetables
    - Create awareness of healthy foods through food demos/taste test in qualifying census tracts
    - Corner store market conversions
    - Healthy food and beverage policies/stocking standing
    - Healthy in store marketing and promotions
    - Increased knowledge on healthy foods and recipes including more fruits and vegetables

2. Increased promotion of healthy beverages and reduction of sugary beverages
    - Increased skills to determine sugar content in adult population
    - Awareness towards what counts as a sugary beverage with parents and children
    - Increased healthy beverage options including more water, available in schools and corner/retail stores
    - Increased media promotion on risks of sugary drinks

3. Increasing physical activity rates for all residents
    - Increased opportunities and promotion of physical activity in community
    - Increased physical activity during school hours
    - Increased knowledge of activities for families

4. School-based wellness strategies and environmental changes within schools
    - Update wellness policies
    - Administrator, teacher, parent and student education
    - Making more water available in schools
    - Smarter Lunchrooms Movement
    - Availability of salad bars in schools

- School garden opportunities
- Increasing access to healthy foods in schools

The LHD recognizes that many of these community change goals are multi-year strategies and require the support of external partners and additional funding streams. The LHD has determined to set three SMART local objectives for FFY17-19 around the following areas:

1. By September 30th, 2019, increase access to and demand for healthy fruits, vegetables and beverages and physical activity at 4 SNAP-Ed qualifying retail stores, 1 senior center, 3 public housing facilities, 8 early childcare sites and at least 4 community based organizations through adopted and implemented policy site changes.

2. By September 30th, 2019, LHD will work with 1-2 school districts and in 4-6 qualifying schools to update school wellness policies, physical environment and institutional capacity to support improved nutrition and physical activity behaviors among students, parents, and teachers.

3. By September 30, 2019, collaborate with at least 10 partner agencies in the community to provide resources, trainings, technical assistance and availability of healthy food programs information to increase food security in the SNAP-Ed population.

SNAP-Ed funding will allow the LHD to design and implement activities that support the overall well-being of local SNAP-Ed eligible neighborhoods. The San Benito County Wellness Committee is positioned to support these larger community change goals with work in nutrition education, media and public relations, coalition building, and training support and technical assistance. Much of the larger community change goal work will require additional funding to support capital improvements and policy advocacy, but the SNAP-Ed contribution will remain exclusive to SNAP-Ed eligible populations and allowable activities. Direct education is the foundation of SNAP-Ed. LHD will provide nutrition and physical activity education, as well as support for policy, systems and environmental changes.

All three Local Objectives support and provide education and technical assistance for improved nutrition, and in some cases support opportunities to incorporate physical activity in daily lives. Policy, Systems, and Environmental (PSE) changes that are supported by three Local Objectives are the following: school wellness policies, farm to school, school gardens, physical activity and retail interventions. As mentioned above, San Benito County has the highest obesity rate from the tri county area. The objectives presented in this work plan will aim to decrease the obesity rates in the county and improve the health and well-being of the SNAP-ED eligible population.

6. **Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]**

Due to the small size of San Benito County, San Benito LHD will not have a County Nutrition Action Plan (CNAP) at this time. LHD will continue to attend Monterey County CNAP and continue in participating in the Nutrition and Fitness Collaborative of the Central Coast as co-chair during their quarterly meetings. These meeting serve as valuable training and learning opportunities so LHD can get trainings on different topics as well as build relationships to coordinate nutrition messages and physical activity strategies with partners who have similar goals and objectives.

LHD will also participate in the Hollister School District Wellness Committee and as well as other qualifying district Wellness Committee. The LHD will to collaborate with all qualifying partners to ensure that FFY 17-19 Local Objectives are met. In addition, LHD plans on continuing to connect and identify new partners in community. LHD will promote SNAP-Ed services and activities by connecting with other agencies, such as County Welfare Departments, etc.

Staff from LHD has also partnered up with Tobacco Program and Behavioral Health in participating monthly in their Youth Prevention Coalition to provide trainings, lessons and resources on healthy food/beverages and physical activity to qualifying youth.

In addition, LHD also will participate in local San Benito County Wellness Coalition which will include USDA and non-USDA funded partners that will meet quarterly to coordinate activities and provide technical assistance to each other's activities. Members of the Wellness Coalition include First 5 San Benito, San Benito County Health and Human Services, San Benito County Public Health Division (Tobacco Control, SNAP-Ed, Emergency Preparedness, Maternal Child and Adolescent Health), Gavilan College, Go Kids, San Benito County Migrant Center, City of Hollister, Parks and Recreation, San Benito County Office of Education, Hollister School District, Breathe California, American Cancer Society, San Benito County Behavioral Health, Youth Alliance, City of Hollister Code Enforcement, San Benito Health Foundation/WIC, Jovenes de Antano, Slow Food and San Benito County Sheriff's Office.

A sub-committee of the Wellness Coalition was formed to help strategically plan IWP for FFY17-19. Ideas from the strategy session were used and incorporated into this work plan. Aside from SNAP-Ed staff, members of the sub-committee included: First 5 San Benito, San Benito County Emergency Preparedness Program, Hollister Recreation, County Council of Governments, Local Transportation Agency, Gavilan College, and San Benito County Office of Education.

7. **Key Messages**

x	Food Safety	x	Physical Activity	x	Fiber-Rich Foods
x	Whole Grains	x	My Plate-Healthy Eating Plan	x	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
x	Fruits & Vegetables	x	Limit Added Sugars or Caloric Sweeteners	x	Other (specify): Healthy Breakfast
x	Fats and Oils	x	Food Shopping/ Preparation	x	Other *(specify)*: Healthy Snacks
x	Lean Meat & Beans				
x	Sodium & Potassium				
x	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All curriculum and materials used will be from the approved USDA SNAP-Ed Connection website, and/or 2017-2019 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the CDPH Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list. All curricula and materials will be defined and appropriate for the target audience identified in Section B: Target Audience Description of this document.

San Benito County reviewed the approved integrated curriculum list provided and LHD reviewed curriculum and determined the best option for our target SNAP-Ed eligible population. All curriculum, materials and resources were chosen to provide the best information possible that will help us achieve our state and local objectives. Most of curriculum will be for children and adult population as most work will be in school based and community settings.

9. **Intervention and Evaluation Plan Narrative Summary**

The implementing agency (LHD) in San Benito County will provide comprehensive multi-level behavior-focused strategies and interventions which include nutrition education and physical activity promotion, community events, training and technical assistance, while also utilizing media and public relations and coordination/collaboration with partners throughout the county. The LHD will promote the current 2015 Dietary Guidelines and SNAP-Ed intervention strategies that have been proven to support behavior change. The LHD will provide education and support to encourage consumption of healthy food and beverages, decrease consumption of less healthy food and beverages and increase physical activity to the SNAP-Ed eligible population by September 2019.

The LHD will conduct activities at the individual and interpersonal level of the Social Ecological Model. The LHD will incorporate the environmental approach which may address several or all elements of the socio-ecological model targeting interpersonal as well as organizational and community venues. The LHD will

provide training and technical assistance to partner organizations and in SNAP-Ed eligible parts of the community by sharing training opportunities across partner agencies when possible. All aspects of the work plan, such as direct and indirect education, training and technical assistance, media, public relations, coordination and collaboration will be addressed by the LHD.

The LHD will employ evidence and practice-based interventions. The LHD will also include research-based interventions. The objectives and activities for the integrated work plan were derived from results obtained via SNAP-Ed 2014 County Profiles, Rethinking Sugary Drinks in Central Coast Survey, and Healthy Stores for Healthy Community county data in addition to the data used in FFY16.

LHD will employ evidence-and practice-based, research and emerging interventions. LHD used the SNAP-Ed Toolkit Interventions for the States, Physical Activity Resource Guide, Portfolios and approved curricula and resource guide for all planned interventions. With these resources and data derived from the SNAP-Ed 2014 and 2015 County Profile, Rethinking Sugary Drinks in Central Coast, Healthy Stores for Healthy Community county data, and Community Dashboard, objectives and activities developed for the integrated work in addition to the data used in FFY16.

In addition, LHD will conduct nutrition education, physical activity education and obesity prevention services at SNAP-Ed eligible sites, reaching a large portion of the SNAP-Ed eligible population. They will be assisted by extenders/trainees that will support these efforts. The intervention plan includes activities that provide comprehensive education on proper nutrition and physical activity; approaches, which when used in combination provide high strength intervention strategies, with implementation of nutrition education and physical activity (PA) focused direct delivery, staff training and coordinated implementation strategies for direct education providers, food service providers, and other staff that interface with and impact children in the multiple settings. Building upon relationships with elementary schools already existing within the county, LHD will continue to provide direct nutrition education and provide physical activity education. LHD will also develop new partnerships with other qualifying schools and districts. LHD will train and support teachers as extenders to provide direct education in the classroom and in after school programs such as YMCA, Si Se Puede Center and Youth Alliance at qualifying schools. Nutrition education will be provided to the adult and older adult SNAP-Ed population that connects shopping behaviors and choices to better health outcomes as per MyPlate and Dietary Guidelines. Focus will be placed on selecting target foods and beverages; increasing the skills for label reading, menu planning and food budgeting; increasing knowledge of MyPlate recommendations and exposure to and acceptance of new healthy foods.

LHD will conduct activities at the individual and interpersonal level of the Social Ecological Model. The LHD will incorporate the environmental approach which may address several or all elements of the socio-ecological model targeting interpersonal as well as organizational and community venues. The LHD will provide training and technical assistance to partner organizations and in SNAP-Ed eligible parts of the community by sharing training opportunities across partner agencies when possible.

The intervention plan includes policy, systems and environmental (PSE) change efforts such as implementing school wellness policies that promote access to healthy foods, beverages and physical activity. Healthy nutrition and physical activity policies and procedures will be implemented in elementary schools which

will include standards for all foods and beverage offered on site, opportunities for daily physical activity, nutrition education, garden-based and physical activity education and marketing guidelines for materials posted and shared on site. PSE efforts will also be focused on improving the school lunchroom utilizing the Smarter Lunchrooms Movement (SLM) principles, salad bar opportunities and retail store environments with product placement strategies, healthy grab and go, smart snacking stations, healthy items in prominent school lunchroom and store locations with the removal of child oriented advertising and less healthy foods and beverages at children's eye level.

The LHD participates in San Benito County Wellness Committee comprised of SNAP-Ed funded and non-SNAP-Ed funded partners – this is one of the primary coordinated/collaborative health efforts in San Benito County. Partners have been very active in promoting healthy communities throughout the years. It is expected that these partners will continue to participate for this fiscal year. Partners will continue to support the LHD behavioral change goals and messages. With their continued support, community change goals will be successful.
The chosen objectives will include community engagement strategies for all SNAP-Ed eligible populations in San Benito County. Community engagement will include partnering with San Benito County Tobacco Control Program on the Healthy Stores for a Healthy Community campaign. There are opportunities for youth, adult, family, and senior engagement throughout the work plan activities. The LHD will provide PSE as well as direct and indirect education interventions to engage the community. LHD will also try to get champions from Youth Prevention Coalition to assist in the assessment of stores for retail work. LHD will use appropriate CX3 tools to assess retail environments. LHD will use approved State developed media materials to promote messages in the community.

The three overarching Local Objectives for FFY 17-19 tie in with the five State Objectives in the following ways:

State Goal 1, centered on increasing consumption and access to healthy foods, will be addressed in Local Objectives 1 and 2:

- Local Objective 1 focuses on increase access to healthy foods in multiple venues such as retail, early childcare, and community based organizations.
- Local Objective 1 will use interventions such as on corner store market conversions, healthy food and beverage policies and healthy in store marketing and promotions to increase access to healthy foods.
- Local Objective 2 focuses on school districts and schools to help make changes to school wellness policies, physical environment and institutional capacity to increase access to healthy foods.
- Local Objective 2 focuses on school environment changes like gardens and salad bars in schools to increase access.
- Local Objective 2 focuses on working with school staff to promote Smarter Lunchrooms Movement (SLM), making access to healthy foods the easy choice.
- Local Objective 3 focuses on partnerships with community organizations to collaborate and work towards access to healthy foods and beverages.

State Goal 2, which is centered on physical activity, will be addressed in Local Objective 1 and 2 :

- Local Objective 1 will focus on partnering with partners in community to implement events promoting physical activity and healthy behaviors.
- In Local Objective 1, LHD will use media to promote physical activity behaviors in SNAP-Ed population.
- Local Objective 1 will also focus on providing physical activity education and resources to qualifying populations.
- In Local Objective 2, LHD will work with school wellness committees, school board and food service director to assess and review school wellness policies and make physical activity related environmental or policy changes.
- Local Objective 2 will also focus on offering PA education to parents as well as children through direct and indirect education.
- Local Objective 3 focuses on creating partnerships with local coalitions to promote PA and provide resources.

State Goal 3, which is centered on providing food resource management to SNAP-Ed eligible population is represented in Local Objectives 1 and 2:

- Local Objective 1 will focus on providing food resource management education to adults at community settings and promote opportunities to access healthy fruit, vegetables and beverages to eligible populations.
- Local Objective 2 addresses State Goal #3 by providing parents with nutrition education that will include food resource management lessons.

State Goal 4, which aims to increase access and/or appeal of healthy dietary choices and decrease access and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop will be addresses in Local Objectives 1, 2, 3:

- Local Objective 1 will promote healthy dietary choices along with PA in qualifying sites.
- Local Objective 1 will promote increased access and appeal of healthy dietary choices and decrease appeal of unhealthy choices by indirect education such as bulletin boards, newsletters, media ads, billboards, TV and radio spots.
- Local Objective 1 focuses on educating retail managers/owners on proper fruit and vegetable storage and display protocol to help improve the quality of fruits and vegetables.
- In Local Objective 1, LHD will provide retail materials to qualifying retail stores to encourage customers to make healthy food and beverages choices. Materials to include signage, posters, newsletters and NEOPB recipe cards, etc.
- Local Objective 1 will focus on conducting retail assessments and presenting data to store owners as well community. Will use data to create PSE changes in retail environments that promote healthy dietary choices.
- Local Objective 2 aims to increase access to healthy foods and beverages by working with school districts on their school wellness policy and/or promoting salad bars and school gardens.
- Local Objective 2 will focus on incorporating Smarter Lunchrooms Movement (SLM) in schools to make healthy choices the easy choice.

- In Local Objective 2, LHD will promote healthy food and beverages messages through direct and indirect education to parents and children in school and after school settings.
- Local Objective 3 will aim to increase appeal of healthy choices through partnerships and collaborations.

And lastly, State Goal 5 aims to increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations, will be addresses in Local Objectives 1 and 2:

- Local Objective 1 will focus on working with community partners to create and promote new community events that will encourage physical activity.
- Local Objective 1 will use both direct and indirect education to reach SNAP-Ed eligible population on the importance of physical activity.
- Local Objective 2 will focus on working work with schools on school wellness policies to include environmental changes to support PA.
- Local Objective 2 focuses on providing direct and indirect education to both parents and children to promote physical activity opportunities.
- Local Objective 3 will incorporate media messaging via newsletters, billboards, TV and radio spots to increase awareness and appeal of physical activity in SNAP-Ed eligible populations.
- Local Objective 3 plans on using coalitions and partnerships to promote PA messages to SNAP-Ed eligible community.

Evaluation processes will be used to improve services for all local objectives. The LHD will use process evaluation (RE-AIM) and may include curriculum-specific evaluations to determine effectiveness. LHD will record all SNAP-ED activity into the Activity Tracking Form (ATF). The LHD will also use the evaluation form included after each Orange County Nutrition Series lesson as well as a parent/adult survey about lesson.

Process evaluation reporting will document the range of SNAP-Ed services provided in the local jurisdiction, the locations and specific SNAP-Ed eligible audiences reached, as well as other required EARS elements. The actual number of SNAP Ed eligible individuals reached through direct education, indirect education and PSE change activities will be compared to original reach targets. Sites that showed high performance in terms of reach and multi-intervention strategies will also be identified and replicated in other sites. The LHD will also use evaluation to make changes in delivery of education or topics to future evaluation plans.

By collaborating and partnering with other programs and organizations in San Benito County, LHD will increase program visibility in community as well as have a larger reach to target audience and multiple reach via different levels of the Social Ecological Model. Since the LHD is the only LIA in San Benito County, all aspects of the work plan, such as direct and indirect education, training and technical assistance, media, public relations, coordination and collaboration will be addressed by the LHD.

SECTION B: Target Audience Description

1. Gender	%		2. Age	#
Male	49.9		0 to 4 years old (Preschool):	100
Female	50.1		5 to 17 years old (School Age):	2,700
			18 to 59 years old (Adult):	4,000
			60 years old and over (Senior):	300
Total:	100%			7,100

3. Ethnicity/Race

Ethnicity

Total Percentage Hispanic/Latino	Total Percentage Not Hispanic/Latino	Total Percentage Ethnicity
78%	22%	100%

RACE	**Hispanic/Latino**	**Not Hispanic/Latino**
Black or African American	78%	0%
Asian	0%	2.6%
American Indian/Alaskan Native	0%	0%
Native Hawaiian/Other Pacific Islander	0%	0%
White	0%	16%

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

By September 30th, 2019, increase access to and demand for healthy fruits, vegetables, healthy beverages and physical activity at 4 SNAP-Ed qualifying retail stores, 1 senior center, 3 public housing facilities, and 4 community based organizations through adopted and implemented policy site changes.

SNAP-Ed State Goals

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- **corner store market conversions**
- **healthy food and beverage policies/stocking standing**
- **healthy in store marketing and promotions**
- **store exterior improvements**

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30th, 2017, San Benito County LHD will work with community partners to establish a Healthy Retail Advisory Committee that includes up to 5 community and retail partners representing SNAP-Ed qualifying neighborhoods.
    b. By September 30th, 2017, conduct an assessment of the retail environment in up to 2 selected SNAP-Ed qualifying neighborhoods.
    c. By September 30th, 2017, 2 retail stores in SNAP-ED qualifying areas will increase access and/or promotion of healthy foods and beverages through healthy food demonstrations, retail marketing and access to healthier food options.

d. By September 30th, 2017, provide food resource management and physical activity education to adults at 2 community sites and promote retail opportunities to access healthy fruit, vegetables and beverages to class participants.
e. By September 30th 2017, implement approved SNAP-Ed nutrition education and physical activity materials, resources and curriculum in 2 senior centers/public housing facilities/community based organizations.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30th, 2018 San Benito County Healthy Retail Advisory Committee will create and implement a plan for healthy retail recognition program and provide support and technical assistance to qualifying stores.
   b. By September 30th, 2018, 1 additional retail store~~s~~ in SNAP-Ed qualifying areas will increase and access and/or promotion of healthy food, healthy beverages and physical activity through Policy, Systems and Environmental Changes PSEs such as healthy check -out lanes.
   c. By September 30th, 2018, provide food resource management and physical activity education to adults at 2 additional community sites and promote the retail opportunities to access healthy fruits and vegetables.
   d. By September 30th 2018, implement approved SNAP-Ed nutrition education and physical activity materials, resources and curriculum in 2 additional senior center~~s~~/public housing facilities/community based organizations.
3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30th, 2019, San Benito County will implement a healthy retailer recognition and incentive program in up to 3 selected SNAP-Ed qualifying neighborhoods.
   b. By September, 30th, 2019 provide food resource management, physical activity and healthy beverage education to eligible adult participants at 2 additional qualifying community sites.
   c. By September 30th, 2019 implement approved SNAP-Ed nutrition and physical activity education materials, resources and curriculum in 2 additional senior centers/public housing facilities/community based organizations.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Benito County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30th, 2019, increase access to and demand for healthy fruits, vegetables and beverages and physical activity at 3 SNAP-Ed qualifying retail stores, 1 senior center, 3 public housing facilities and 4 community based organizations through adopted and implemented policy site changes.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Establish and maintain a Healthy Retail Advisory Committee as a subcommittee of Wellness Coalition members, including 5 Wellness Coalition partners, LHD Healthy Retail Store Healthy Community Retail Partners, residents and retail representatives from up to 3 select SNAP-Ed qualifying neighborhoods.	CED: ; CEI: ; MPR: ; C&C: x; TTA:	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3, Q4 Year 3: Q1 x, Q2 x, Q3, Q4	ATF On file: Copy of meeting agendas, Member Roster
1.2	Partner with Tobacco program to provide 1~~-3~~ education and technical assistance sessions to community partners and residents to teach skills needed to conduct retail assessments.	CED: ; CEI: x; MPR: ; C&C: ; TTA: x	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 Year 3: Q1 x, Q2, Q3, Q4	ATF On file: Sign in sheets, training documents, TA materials

1.3	Conduct baseline retail assessments at grocery stores and/or independent corner stores in up to 3 SNAP-Ed qualifying neighborhoods.		CED CEI MPR C&C TTA		CWD LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC: :	Year 1 Q1: x; Q2; Q3; Q4 Year 2 Q1: x; Q2; Q3; Q4 Year 3 Q1: x; Q2; Q3; Q4	ATF On file: Retail assessment
1.4	Review retail assessments and summarize findings. As relevant, incorporate findings from Healthy Stores Healthy Communities survey data. Identify retail partners within the qualifying neighborhoods to approach then develop and implement healthy retail changes.		CED CEI MPR C&C TTA		CWD LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1 Q1: x; Q2: x; Q3: x; Q4 Year 2 Q1: x; Q2: x; Q3: x; Q4 Year 3 Q1: x; Q2: x; Q3: x; Q4	ATF On File: Partner listing, retail assessments, summary of findings Partners: Hollister Super (3rd Street) Hollister Super (San Juan Rd) Lucky

1.5	Provide healthy marketing materials, which may include NEOPB retail and Harvest of the Month signage, posters, newsletters and NEOPB recipe cards to 4 qualifying retailers and 2 food banks/pantries.	CED: ; CEI: x; MPR: ; C&C: x; TTA: x	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF Before and After Photos; materials provided
1.6	Educate 1-2 independent retailers and/or managers/owners on the health importance of fruits, vegetables and healthy beverages.	CED: ; CEI: ; MPR: ; C&C: ; TTA: x	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF On file: Educational materials
1.7	Educate 1-2 of independent retailer managers/owners on: proper fruit and vegetable storage and display protocol to help improve the quality of fruits and vegetables available to local SNAP-Ed eligible residents. Provide training and technical assistance as needed.	CED: ; CEI: ; MPR: ; C&C: ; TTA: x	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF On File: Educational materials

1.8	Provide leadership to Healthy Retail Advisory Committee to draft a "Healthy Retail Recognition Program" implementation plan. The Healthy Retail Recognition Program will signal to area residents and families that healthy food and beverages are available at that retail location. Integrate resources and tools available through the Healthy Stores Healthy Communities program. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**

By September 30th, 2019, LHD will work with 1-2 school districts and in at least 4-6 qualifying schools to update school wellness policies, physical environment and institutional capacity to support improved nutrition and physical activity behaviors among students, parents, and teachers.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- **School Environment Changes**
  - **Physical Activity**
  - **Murals/Stencils**
  - **School Gardens**
- **Healthy Eating**
  - **Smarter Lunchrooms Movement (SLM)**
  - **Salad Bars in Schools**
- **School Wellness Policies**

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

a. By September 30, 2017, at a minimum of 1-2 qualifying school sites, LHD educators and 2-3 trained staff (classroom teachers and afterschool staff) will reach 1,000 elementary school students with direct education, 50 parents with direct education and 800 parents with indirect education.
b. By September 30, 2017, LHD staff will work with partners such as school wellness committees to improve a minimum of 3 of the 6 qualifying school environments by establishing or reinvigorating school gardens, adopting SLM strategies and/or implementing salad bars.
c. By September 30, 2017 LHD staff will promote fruit and vegetable intake, healthy beverages and physical activity by participating in a minimum of 2-4 school events such as back to school night, community open house, health fairs, and lunchtime activities.
d. By September 30, 2017, 2017 LHD will provide guidance and technical assistance to 1 qualifying school district in assessing current school wellness policy using assessment tool such as WELLSat to evaluate current state of wellness policy.

2. By September 30, 2017, staff will work with partners including school wellness committees, school board and food service director to assess and review school wellness policies and make nutrition and physical activity related environmental or policy changes at 1 qualifying school site. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, at a minimum of 2-4 qualifying school sites, LHD educators and 3-6 trained staff (classroom teachers and afterschool staff) will reach 1,200 elementary school students with direct education, 60 parents with direct education, and 1,000 parents with indirect education.
    b. By September 30, 2018, LHD staff will work with partners to improve an additional 2 schools out of the 6 qualifying schools to improve school environments by establishing or reinvigorating school gardens, adopting SLM strategies and/or implementing salad bars.
    c. By September 30, 2018 LHD staff will promote fruit and vegetable intake, healthy beverages and physical activity by participating in 6-8 school events such as back to school night, community open house, health fairs, and lunchtime activities.
    d. By September 30, 2018, LHD will provide guidance and technical assistance to 1 additional qualifying school district in assessing current school wellness policy using assessment tool such as WELLSat to evaluate current state of wellness policy**.**
    e. By September 30, 2018, LHD staff will work with partners including school wellness committees to make nutrition and/or physical activity related environmental or policy changes at 1 additional qualifying school.
3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, at 4-6 qualifying school sites LHD educators and an additional 1-2 trained staff (classroom teachers and afternoon staff) will reach 1,400 students with direct education, 70 parents with direct education and 1,200 parents with direct education.
    b. By September 30, 2019, LHD staff will work with partners to improve an additional 2 of the 6 qualifying schools environments by establishing or reinvigorating school gardens, adopting SLM strategies and/or implementing salad bars.

c. By September 30, 2019 LHD staff will promote fruit and vegetable intake as well as healthy beverages by participating in 8-12 school events such as back to school night, community open house, health fairs, and lunchtime activities.
d. By September 30, 2019, LHD staff will follow up with both school districts to provide technical assistance and support on district wellness in the development and implementation of district school wellness policies.
e. By September 30, 2019 LHD staff will work with partners including school wellness committees to make nutrition and/or physical activity related environmental or policy changes and enhance school district wellness policy language guidelines at least one qualifying school.

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

By September 30th, 2019, LHD will work with 1- 2 school districts and in least 2-4 qualifying schools to make changes to school wellness policies, physical environment and institutional capacity to support improved nutrition and physical activity behaviors among students, parents, and teachers.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Provide direct education and taste tests to students at qualifying schools using approved curricula through direct delivery or extender staff such as teachers, PE teachers, after school staff: • In Year 1 (FFY 17) reach 1,000 students at qualified schools; • In Year 2 (FFY 18) reach 1,200 students at qualified schools; • In Year 3 (FFY 19) reach 1,400 students at qualified schools.	x CED CEI MPR x C&C x TTA	 x LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 X X X X Year 2 Q1 Q2 Q3 Q4 X X X X Year 3 Q1 Q2 Q3 Q4 X X X X	ATF On file: Lesson Plans

2.2	Provide direct education to parents in qualifying school using USDA/NEOPB approved curriculum and lesson plans. Taste tests may be offered. • In Year 1 (FFY 17) reach 30 parents through direct education and approved curriculum; • In Year 2 (FFY 18) reach 50 parents through direct education and approved curriculum; • In Year 3 (FFY 19) reach 70 parents through direct education and approved curriculum.	x CED CEI MPR C&C TTA	CWD x LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF On File: Sign in sheets, Recipes Lesson plans
2.3	Offer and provide trainings to extenders such as teachers, afterschool staff, etc. on approved curricula and/or stencil kits to at least 3 SNAP-Ed qualified schools and after school sites. Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019) Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**

By September 30, 2019, collaborate with at least 10 partner agencies in the community to provide resources, trainings, technical assistance and availability of healthy food programs information to increase food security in the SNAP-Ed population.

SNAP-Ed State Goals

x	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- **Access to healthy food**

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 30, 2017, collaborate with San Benito County Wellness Coalition in the community to identify issues as well as provide access and availability of healthy food programs information to increase food security in SNAP-Ed population.
   b. By September 30, 2017, LHD will convene the San Benito County Wellness Coalition and recruit an additional 2 community based organizations.
   c. By September 30, 2017, LHD staff will attend and co-chair quarterly meetings of the Nutrition and Fitness Collaborative of the Central Coast (NFCCC) to form working relationships with other governmental and non-governmental entities to exchange information, share best practices and explore mutual interventions to provide nutrition education and obesity prevention services as indicated by SNAP-Ed.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30, 2018 the LHD will collaborate with San Benito County Wellness Coalition to develop plans in the community to provide access and availability of healthy food programs information to increase food security in SNAP-Ed population.
    b. By September 30, 2018, LHD staff will attend quarterly meetings of the Nutrition and Fitness Collaborative of the Central Coast (NFCCC) to sustain working relationships with other governmental and non-governmental entities to exchange information, share best practices and explore mutual interventions to provide nutrition education and obesity prevention services as indicted by SNAP-Ed.

3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, the LHD will collaborate with San Benito County Wellness Coalition to implement plans to provide access and availability of healthy food programs information to increase food security in SNAP-Ed population.
    b. By September 30, 2019, LHD staff will continue attend quarterly meetings of the Nutrition and Fitness Collaborative of the Central Coast (NFCCC) to sustain working relationships with other governmental and non-governmental entities to exchange information, share best practices and explore mutual interventions to provide nutrition education and obesity prevention services as indicted by SNAP-Ed.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Bernardino County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

County Name: ***San Bernardino***

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency Names**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
X	**California Department of Public Health: CDPH: San Bernardino County: LHD**
	California Department of Aging: CDA: (Area Agency on Aging: AAA)
X	**Catholic Charities of California: CCC: Catholic Charities San Bernardino & Riverside Counties: CCC**

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description**

San Bernardino County is located in southeastern California, with Inyo County to the north, Kern and Los Angeles Counties to the west, and Orange and Riverside Counties to the south. At just over 20,000 square miles (52,000 km^2), San Bernardino County is the largest county in the contiguous United States. There are 24 cities and towns in the county and multiple unincorporated areas. The county is commonly divided into three distinct areas made up of the Valley Region, the Mountain Region, and the Desert Region. The Valley Region, (2.5% of the county land region), contains the majority of the county's incorporated areas and population. The Mountain Region is primarily comprised of public lands owned and managed by federal and state agencies. The Desert Region is the largest region covering approximately 93% of the county's land area including parts of the Mojave Desert. [1]

San Bernardino County has the fifth largest population in California. Almost three-quarters of San Bernardino County is open or undeveloped with a population density of about 105 people per square mile (substantially lower than the four most populated counties: Riverside, Orange, San Diego and Los Angeles). The Valley Region however, is where 73% of the population resides. It has a population density of approximately 2,997 persons per square mile. This is similar to neighboring Los Angeles and Orange Counties. [1]

The County of San Bernardino has a population of 2.1 million of which 38.6% (774,930) are SNAP-Ed eligible. Of those, 60.9% are Hispanic, 23.4% White (non-Hispanic), 9.3% African American (non-Hispanic), 3.6% Asian, 0.6% American Indian/Alaskan Native, and 2.0% multiracial or another race. [2] Cal Fresh participants represent 19.9% (398,523) of San Bernardino County's total population. Of the 369 census tracts in San Bernardino County, 104 (28.2%) are SNAP-Ed eligible ($\geq$50% incomes <185% FPL) based on 2013-14 American Census Survey data (all races). The primary language spoken at home in more than half (59%) of the households with people 5 years of age and over in 2011 was English, followed by Spanish in one-third (33%) of the households, and an Asian or Pacific Islander language in 5% of households. [1]

San Bernardino County has a number of mean-tested sites that are eligible for SNAP-Ed services including 108 USDA Commodities Distribution sites, 17 Women Infant and Children (WIC) clinics, 43 Head Start sites, four Federally Qualified Health Centers and 18 CalFresh offices serving 441,646 CalFresh participants.[2] Throughout the County there are also 21 farmer's markets, 60 senior centers and per the 211 United Way database, 58 food pantries. UC Cooperative Extension Expanded Food and Nutrition Education Program (EFNEP) and Catholic Charities offer other much needed resources and nutrition related/social programs for low-income residents. The County has 33 school districts with 562 public schools, 461 (82.1%) of which are SNAP-Ed eligible. Approximately 70% of the public school student population are eligible for the Free and Reduced Priced Meals (FRPM) program.[1,3] Children (less than six years old) comprise the largest percentage of SNAP-Ed eligible participants in San Bernardino County at 51.5%. This is followed by children/youth between six and seventeen years of age (48.1%), adults (34.6%) and seniors (32.2%). The food insecurity rates are 13.2% overall and 24.7% for children. [3]

According to the San Bernardino SNAP-Ed County Profile, the adult overweight/obesity prevalence in San Bernardino County is 71.9% overall and 72.0% among SNAP-Ed eligible adults which is greater than State rates of 62.5% and 67.3% respectively. Thirty-four percent of our adult population and 33.3% of SNAP-Ed

adults are obese compared to 27.0% and 31.5% in the State. In SNAP-Ed eligible children approximately 17.5% of two to eleven year olds and 11.7% of twelve to seventeen year olds are overweight or obese. [3]

The childhood diabetes hospitalization rate for children under 18 was 51 per 100,000 in San Bernardino County, higher than the state at 35 per 100,000 children in 2010. Eleven percent of county adults had been diagnosed with any type of diabetes at some point in their life according to 2009 data, up from 7% of adults in 2005. Further, the county had consistently higher rates of diabetes than the state between 2003 and 2009. Latinos had slightly higher rates of diabetes (11.3%) as compared to Whites at 10.6% in 2009. Latinos with diabetes increased at a quicker rate from 8.4% in 2007 to 11.3% in 2009, compared to Whites who increased from 10% in 2007 to 10.6% in 2009.[4]

Overall, heart disease went down slightly both in the county and the state between 2001 and 2009. Approximately 7% of county adults ages 18 and older had been diagnosed at some point in their lives with heart disease in 2001, dropping slightly to 6% in 2009. The most recent heart disease rates in 2009 were the same for both the county and the state (6%). Whites had higher percentages of diagnosed heart disease (8%) as compared to Latinos (4%) in 2009. Hospitalizations for heart disease have been going down in the county; 108 out of every 10,000 individuals had been hospitalized due to heart disease in 2009, down from 127 per 10,000 in 2005. However, hospitalization rates were higher for African Americans (160), than for Whites or any other race (121), and Latinos (86) per 10,000 individuals. [4]

High blood pressure is going up in the county. Twenty-six percent of county adults had been diagnosed at some point in their lives with high blood pressure (which is a risk factor for heart disease) according to 2009 data, an increase from 23% in 2001. Whites had higher rates of diagnosed high blood pressure (31%) as compared to African Americans (26%) and Latinos (23%) in 2009.[4]

In San Bernardino County, 28 out of every 10,000 individuals were hospitalized for cerebrovascular disease in 2009, down slightly from 30 per 10,000 in 2005. Stroke hospitalizations for African Americans were more common at 40 per 10,000 as compared to Whites or other races (excluding African American, Asian or Pacific Islander, Latino, and Native American) at 28 per 10,000 individuals and Latinos at 26 per 10,000.[4]

Wide-open spaces are plentiful in San Bernardino County. There are 2.5 million acres of recreational land in San Bernardino County, and six acres of park land per 1,000 residents – twice the California rate. [1] However, due to the nature of the county's vast sprawl, San Bernardino County still has a 400 acre deficit of parks with two-thirds of residents having less than one acre of parks within a mile of their home. [5] There are 5.4 recreational facilities per 100,000 residents, and 77.6% of children and teens (ages 1-17) have a park or open space within walking distance. Approximately 19% of adults aged 20 and over reporting no leisure time physical activity. For children and teens (2-17 years), 17.8% were physically active at least 1 hour every day. For children (2-11 years), 39.8% were physically active at least 1 hour every day. [3]

San Bernardino County has an overabundance of unhealthy food choices with the highest Retail Food Environment Index (RFEI) in the state (ratio of fast food outlets and convenience stores to the total number of supermarkets and produce vendors in a region). In the County, there were 5.72 fast food/convenience

store outlets for every one supermarket/produce vendor in 2007. [6] The City of San Bernardino had a RFEI of 8.0 in 2010. The City of San Bernardino has almost 8 fast food and convenience stores for every one grocery store outlet, which is more than double that of the state. [5]

Within this high RFEI environment, 82.4% of SNAP-Ed eligible adults consumed fast foods one or more times in the past week. Almost half (49.5%) of adults consumed a sugar-sweetened beverage one or more times per day and approximately 31% of San Bernardino City residents do not live within 1 mile of a grocery store. [2] Yet, approximately 77.4% of children and teens (2-17 years) report consuming two or more servings of fruits; this is likely attributable to the National School Lunch and Breakfast Programs and Afterschool Meals Program in County schools.

Given this data, the San Bernardino County Local Implementing Agencies (LIAs) will work cooperatively to conduct nutrition education, increase access to healthy food and beverages and promote physical activity interventions to address the unmet needs of the SNAP-Ed eligible population. These initiatives will be strengthened through collaborative efforts and policy, systems and environmental (PSE) changes.

4. Community Assessment

The assessment data utilized to identify the intervention strategies that informed the development of the work plan include demographic, health, and community environment data. The triangulation of these assessment measures provided a comprehensive analysis to help identify populations and areas of high need in order to design and coordinate local interventions incorporating all sectors of the socio-ecological model for the long-term benefit to the SNAP-Ed eligible population.

The FFY 17-19 Integrated Work Plan was developed using information listed in the jurisdiction description, US Census Bureau data, California Department of Social Services data, California Health Interview Survey data, Robert Wood Johnson Foundation County Health Rankings, local Communities of Excellence in Nutrition, Physical Activity, and Obesity Prevention (CX^3) data, County reports (San Bernardino County: Our Community Vital Signs Final Report and San Bernardino County: Our Community Vital Signs 2013 Community Engagement Summary), input from community partners, and experience gained from the Local Implementing Agencies (LIAs) providing SNAP-Ed nutrition interventions for a few decades in the county. A final tool, the Food Security in San Bernardino

County report (developed by the Nutrition Program and released in 1998 and 2005) is currently under revision, but data gathered to date, has been influential in helping to identify areas of greatest need.

The largest segment of our SNAP-Ed eligible residents in San Bernardino County is our children/youth and approximately 1 out of every 4 experiences food insecurity. In 2014, only 10 percent (1 in 10) of those who participated in free or reduced school meals during the school year, participated in summer meals as compared to the national average of 17 percent (1 in 6). This amounts to approximately 194,000 children who participated in free or reduced meals during the school year and a mere 20,000 who participated in the Summer Meals Program, representing a gap in services affecting about 176,000 San Bernardino children or 90 percent of eligible children/youth. The Summer Meals Program is highly underutilized in San Bernardino County, though the available Summer Meals Data from 2013 to 2015 indicates that the number of participants as well as participating sites, sponsors and cities has steadily increased. The Summer Meals 2015 Evaluation Report revealed that promotion strategies could be improved to increase awareness and utilization of the program. The LIAs continue to work collectively to this end in order to foster partnerships among organizations in the promotion of healthy eating, active living, and to address food insecurity, especially as it relates to children and youth.

Based on the assessment data gathered to date (for inclusion in the Food Security in San Bernardino report), 32 of the County's 369 census tracts are considered high need because they meet the following criteria: high poverty (greater than 50% of the tract population with income less than 185% federal poverty level), low access to healthy foods (at least 500 people or 33% of the tract population resides more than one mile (in urban centers) and ten miles (in rural areas) from the nearest grocery store, greater minority population than the countywide racial/ethnic distribution, and a higher number of CalFresh eligible families that are not currently receiving the benefit. The tracts were ranked accordingly and the top ten are the focus of our CX^3 initiative in the FFY 17-19 Integrated Work Plan. Those communities include: Apple Valley (CT 97.12), Phelan/Victorville (CT 91.17 and 91.12), Joshua Tree/Yucca Valley (CT 104.23), Muscoy (CT 41.04), Upland (CT 9.03), Victorville (CT 99.05), Barstow (CT 93), Hesperia (CT 100.15) and Montclair (CT 3.03).

CX^3 assessments conducted in six low- income communities in the FY 13-16 Integrated Work Plan confirm the need to address healthy food access in specific areas of the County. In particular, the high desert areas of the County engaged in CX^3 not only have decreased access to healthy foods, but have no access to any type of stores that offer healthier foods such as fresh fruits and vegetables, have poverty rates consisting of 80% and higher overall overweight/obesity rates. These high desert neighborhood concerns have increased the need to support area residents and community partners interested in Policy, Systems and Environment change (PSE) efforts in this region.

San Bernardino County coordinated a community-driven initiative to identify priority areas among local community residents. This project was started by the San Bernardino County Departments of Public and Behavioral Health as well as Arrowhead Regional Medical Center, and has transformed into a community-wide initiative. The first community workshop was held in September 2011 with more than 80 community stakeholders representing local nonprofit hospitals, universities, government agencies, businesses, faith, and community-based organizations. These groups gathered to discuss the purpose of the Community Vital Signs Initiative and to develop a shared vision. A working group of ten participants was selected by this larger body to create the purpose, value, and vision statements of the Community Vital Signs Initiative, which were then discussed and adopted by a cross sector of community members at a summit meeting in March 2012. They include:

Purpose - Community Vital Signs is a community health improvement framework jointly developed by San Bernardino County residents, organizations, and government. It builds upon the Countywide Vision by setting evidence-based goals and priorities for action that encompass policy, education, environment, and systems change in addition to quality, affordable and accessible health care and prevention services. It provides the basis for aligning and leveraging resources and efforts by diverse agencies, organizations, and institutions to empower the community to make healthy choices.

Vision - We envision a county where a commitment to optimizing health and wellness is embedded in all decisions by residents, organizations, and government. The Community Vital Signs (CVS) initiative involves the collaboration of community partners, local residents, and other stakeholders and uses Collective Impact to begin putting into action the Countywide Vision and its Wellness Element. More than 1,000 people participated in 23 community engagement meetings in 2012-2013, which invited local residents to identify priorities in the County. Results from these sessions revealed that nutrition and access to healthy foods are in the top five leading priorities of County residents. Outcomes from these meetings will be incorporated into the County's long tern Vision and will help prioritize the importance of addressing nutrition and access to healthy food particularly among populations at greatest risk.

Due to the horrific tragedy that occurred on December 2, 2015, San Bernardino County Department of Public Health has remained dedicated to rebuilding communities affected by this devastating event. Together with partners and residents, a collaborative healing process is taking place, in which the Nutrition Program through NEOP is able to play an important role. One of these is focusing on safety related priorities identified by the residents such as walkable communities, safe routes to school, and building a sense of renewed neighborhood spirit through community engagement.

5. **Community Change Goals**

Our community change goals align with the priority areas of the San Bernardino County Vital Signs Community Transformation Plan and the San Bernardino County Local Health Department (LHD) will work to explore longer term metrics impacting broader population health for low-income residents through 2020 and beyond. At present, through collective impact, the county-wide initiative aims to decrease the incidence of chronic diseases (including diabetes, high blood pressure, cardiovascular disease, and obesity) and increase the number of residents engaged in active living activities.

Overall community goals and strategies supporting these areas may include the following:

1. Increase access to healthy food options within communities

- Promote health elements in the city general plans
- Consider policies that address zoning for equitable food access and limits on tobacco and alcohol facilities
- Increase number of and promotion of farmers markets
- Increase number of and promotion of community and/or school food gardens
- Increase number of purchased and/or donated food policies of food distribution sites
- Implement a county-wide Food Policy Council to support food systems work

- Improve healthy retail (corner store and/or worksite wellness options)
- Improve transit and/or active transit to food retail sites

2. Increase the number of residents participating in physical activity
   - Improve built environment to support physical activity
   - Improve public safety to support physical activity
   - Promote "exercise prescriptions" from providers
   - Include Active Transportation Plan in city general plans
   - Improve signage and pedestrian amenities around schools, senior centers, parks and community centers
   - Promote the adoption of complete streets

The San Bernardino County LIAs have identified five SMART local objectives for FFY 2017-2019 that complement the larger community change goals:

1. By September 30, 2019, increase access to and demand for healthy fruits, vegetables, and beverages at twenty-five (25) SNAP-Ed qualifying neighborhood retail stores, eleven (11) food pantries/food banks/emergency food sites, Farmer's Markets, community and faith-based organizations, and senior centers/public housing facilities through adopted and implemented policy and physical site changes.
2. By September 30, 2019, work with SNAP-Ed eligible populations in at least five (5) qualifying CX[3] neighborhoods to assess their community, prioritize identified problem areas based on findings and community feedback, and develop and implement a community action plan including evaluation activities supporting policy, systems and environmental changes within targeted neighborhoods to reach, engage and empower at least 100 community members to select healthy foods and beverages and increase physical activity in their community.
3. By September 30, 2019, partner with thirty (30) qualifying early-childhood care and education sites (ECE), of which nine (9) engaged sites will implement playground stencil projects in order to increase opportunities for physical activity and active play, and at least fifteen (15) sites will create and/or implement wellness policies and procedures including making healthy site changes to improve the nutrition, physical activity, and/or screen time environment for participating children.
4. By September 30, 2019, partner with 200 qualifying school/afterschool/extended break sites, where at least fifteen (15) qualifying sites work to improve the school site environments by adopting Smarter Lunchroom Movement Strategies and/or establishing or revitalizing school food gardens, thirty (30) sites implement structured physical activity programming, and twenty (20) qualifying school/afterschool/extended break sites will implement School Wellness Policies and make physical activity related environmental or policy changes.
5. By September 30, 2019, promote the increased consumption of healthy food and beverages, through coordination and collaboration with 50 partnering agencies to adopt and implement a minimum of three (3) organizational policies/nutrition standards to increase access to and/or appeal of healthy foods, beverages, and physical activity opportunities in SNAP-Ed eligible communities, which may include, but are not limited to, places of worship, food pantries, soup kitchens, Farmer's Markets, schools, senior centers, summer meal sites, and community festivals and gatherings.

The LIAs will work together on the five local objectives listed above – each working within its population reach and area of expertise. The LIAs are uniquely positioned to support these larger community change goals with our extensive knowledge of and work in nutrition education, media and public relations, coalition building, and training support and technical assistance. The LIAs recognize that many of these community change goals are multi-year strategies, and require the support of external partners and additional funding streams. The San Bernardino County LIAs will contribute to these larger community goals based on agency expertise and SNAP-Ed allowable and unallowable guidelines. In order to meet our community change goals to increase access to healthy food options within communities and increase the number of residents participating in physical activity, our local work will focus on educational activities, training and technical assistance support, and other policy, systems and environmental support activities as they relate to increasing access to healthy food and beverages, improving physical activity rates for residents, and promoting the adoption of wellness policies in the worksite, school or community setting to strengthen healthy eating and/or physical activity opportunities for SNAP-Ed residents where they SHOP, LIVE, WORK, PLAY, and LEARN, as informed by the community needs assessment.

6. **Partnerships and Collaborative Efforts [County Nutrition Action Plan (CNAP) Partners or comparable]**

In San Bernardino County, the SNAP-ED LIA Partnership includes the San Bernardino County Department of Public Health (SBCDPH) Nutrition Program and Catholic Charities San Bernardino and Riverside Counties. Both are funded by USDA SNAP-Ed funding and meet together to create the annual work plan and meet in-person quarterly, as initiated by the CNAP and Work Plan Coordinators, to assess work plan progress. In addition, the SNAP-ED LIA Partners keep in contact through the monthly County Nutrition Action Plan (CNAP) meetings.

Since October of 2012, the San Bernardino County Nutrition Action Plan (CNAP) stakeholders, coordinated by SBCDPH, meet bimonthly to coordinate collaborative efforts and foster partnerships among its Food and Nutrition Services (FNS) funded and non-funded partners. In a 2015 survey, 71% of CNAP members indicated that they had collaborated with another member to promote and support healthy eating and active living activities as a result of these meetings. Networking and collaboration is the reason 48% of members attend and participate in CNAP, and 29% indicated that this is a major strength of the local collaborative.

During the CNAP Strategic Planning process in October 2015, three priorities were identified by members that would increase access to healthy foods, promote physical activity, prevent obesity, and address food insecurity among low income residents. These prioritized activities were as follows:

- Promote the USDA Summer Food Service Program (SFSP) to increase participation rates, incorporate nutrition education, physical activity, and other obesity prevention efforts at summer meal sites.
- Support physical activity (Sit for 60, Move for 3) among partners and the residents they serve.
- Promote the Mobile Fresh Bus, especially in food deserts serving low income residents, including the elderly.

Other coordinated strategies conducted with specific CNAP members include:

- Support healthy vending nutrition standards with Arrowhead Regional Medical Center.
- Initiation and support of healthy food bank/pantry nutrition standards and policies with Community Action Partnership Food Bank and the food pantries and soup kitchens they serve.
- Participation and support of the Food Policy Advisory Council serving San Bernardino County.
- Partner with CalFresh to conduct outreach and nutrition education at USDA Food Distribution sites.
- Support organizations in their Policy, Systems, and Environment (PSE) change efforts.

The role of partners includes the dissemination of NEOP related messaging and education; strategic planning to prioritize CNAP collaborative efforts; recruitment and referral of agencies to increase CNAP membership; resource sharing; initiation and support of nutrition standards and policies; promotion and support of the Summer Food Service Program (SFSP), including maintaining the Summer Meals Subcommittee; guidance and collaboration with the Food Policy Advisory Council (FPAC) serving San Bernardino County; dissemination of *Rethink Your Drink* materials; and promotion of physical activity within their respective organizations.

The LIAs promote SNAP-Ed services and activities by connecting with other agencies and partners including: Transitional Assistance Department/Cal Fresh, WIC, Catholic Charities, San Bernardino County LHD, Child Care Resource Center, Healthy Fontana, Family Service Association, Helping Hands Food Pantry, Community Action Partnership (CAPSBC), Dairy Council, 2-1-1, San Bernardino County Superintendent of Schools, Loma Linda University School of Public Health, University of California Cooperative Extension Expanded Food and Nutrition Education Program (EFNEP), Healthy Communities, Healthy Heritage, El Sol, and others. Through the establishment of partnerships with these organizations, coordinated and collaborative efforts have been fostered. Consequently, CNAP strategically identifies, addresses, and has an impact on nutrition education and obesity prevention priorities in San Bernardino County.

7. **Key Messages**

	Food Safety	X	Physical Activity	X	Fiber-Rich Foods
X	Whole Grains	X	My Plate-Healthy Eating Plan	X	Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources
X	Fruits & Vegetables	X	Limit Added Sugars or Caloric Sweeteners		Other *(specify):*
X	Fats and Oils	X	Food Shopping/ Preparation		Other *(specify)*:
X	Lean Meat & Beans				
X	Sodium & Potassium				
X	Promote Healthy Weight				

8. **Educational Materials, Resources and Curriculum**

All educational materials, resources, and curriculum will be approved through the USDA SNAP-Ed Connection website (https://snaped.fns.usda.gov/), and/or FFY 2017-2019 USDA approved UC CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the California Department of Public Health - Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list.

San Bernardino County LIAs reviewed the approved integrated curriculum list provided by the state agencies, and examined each piece to determine the best option for the intended target populations. Curriculum, materials and resources were chosen to best reflect the needs of the population, as well as our chosen SNAP-Ed three-year and annual objectives.

9. **Intervention and Evaluation Plan Narrative Summary**

The implementing agencies in San Bernardino County will conduct nutrition education and obesity prevention services at SNAP-Ed eligible sites, reaching a large portion of the SNAP-Ed eligible population, with the assistance of subcontractors and extenders who will support these efforts (please note: at present, subcontractors have not yet been identified; San Bernardino County released the Request for Proposal on March 28, 2016 and plans to have subcontractors selected in June 2016). The intervention plan includes activities that provide comprehensive education on proper nutrition and physical activity; approaches, which when used in combination provide high strength intervention strategies. Efforts will focus in the places where SNAP-Ed eligible residents shop, live, and learn to primarily increase access to and/or increase the appeal of healthy foods, beverages, and physical activity opportunities available locally. In so doing, it is more likely that low-income County residents will be better able to make healthy food choices within a limited budget and choose physically active lifestyles consistent with the current Dietary Guidelines for Americans (DGA), the Unites States Department of Agriculture (USDA) Food Guidance, and the *Physical Activity Guidelines for Americans*.

Nutrition education will be provided to the adult SNAP-Ed population in places where they shop/get food including traditional (retail stores) as well as non-traditional (emergency food assistance/food banks/pantries) sites. The education will connect shopping behaviors and choices to better health outcomes as per MyPlate and the DGA, with a concentration on selecting target foods and beverages, increasing label reading skills, menu planning and food budgeting, increasing knowledge of MyPlate recommendations, and exposure to and acceptance of new healthy foods. The LHD will train independent retail owners/managers on proper fruit and vegetable storage and display protocols to help improve the quality and quantity of fruits and vegetables available to local SNAP-Ed-eligible residents. Recognition of the importance of fruits and vegetables and physical activity will culminate in one Fruit & Veggie Fest promotion in a different location each year. The event will highlight one champion retailer and LHD staff will secure media to promote the event.

The LHD will form a Retail Advisory Committee to pilot and establish a Healthy Retail Recognition Program to recognize and promote retailers that implement policies that improve access to and the appeal of healthy foods. Partners may include CNAP or other coalition partners, Communities of Excellence in Nutrition, Physical Activity, and Obesity Prevention (CX^3) neighborhood residents and retailers, San Bernardino County Healthy Communities Program, and San Bernardino County Community Vital Signs Initiative. Through this collaborative endeavor, partners will help to identify funding and support for corner store

conversions/improvements in low-resource communities with poor access to healthy foods as identified through retail and CX^{3}assessment data. Catholic Charities will work to implement environmental and system changes and/or develop healthy food and beverage standards and distribution policies in emergency food assistance, food banks and pantries to increase access to healthy foods and beverages. Catholic Charities will also encourage families to use their CalFresh benefits to purchase seeds to start up home gardens in order to increase healthy food access and encourage healthy choices.

LHD will and identify and partner with 15 (in FFY17) to 25 (in FFY19) supermarkets, grocery stores, and/or independent corner stores to place and maintain retail materials and conduct promotional activities. Retail stores will be selected based on GIS qualifications and/or CX3 assessments. LHD will train LIA staff and Community Health Leaders to conduct high quality, culturally-appropriate retail promotional activities such as healthy food and beverage demonstrations and indirect nutrition education at Retail Program partnered stores.

The retail environment also presents as an opportunity to engage worksites and SNAP-Ed eligible workers in San Bernardino County. Presently, Cardena's Markets is involved in the Healthy Worksite intervention and because the organization has locations in neighboring Riverside and Los Angeles Counties, San Bernardino County will continue to work closely with the other LIAs to coordinate interactions and technical assistance offered to the worksite as they develop and implement policy and systems changes at their stores during FFY17 to FFY19.

The LIAs will implement education as well as community engagement strategies in places where the SNAP-Ed population lives. Through the CX^3 initiative, residents, local partners/leaders and LIA educators/extenders will work collectively to assess, analyze and interpret the nutrition and physical activity assets and challenges unique to their community; they will also strategize, prioritize, implement and monitor solutions to improve or strengthen healthy eating and/or physical activity opportunities in the areas where they live. At least five (5) neighborhoods will be targeted throughout this contract term. Work will be concentrated in select communities identified as high need (based on the community assessment data) and will use a place-based approach to layer the outreach of multiple sectors (i.e. early child care and education, school/afterschool, faith, Peer-to-Peer, and retail), as much as feasible, in focused SNAP-Ed areas; the LIAs will work collaboratively to refer residents as appropriate to the resources and services available within each respective agency, especially when working in these communities. The education will connect the built environment to health outcomes and engage residents as Champions for Change in their communities to advocate for improvements to better their neighborhoods. Topics will include MyPlate recommendations, selecting target foods and beverages, menu planning and food budgeting, edible gardens, physical activity and advocating for healthier school environments. In addition, the LHD will conduct nutrition education in a variety of community settings (including places of worship, food pantries, soup kitchens, Farmer's Markets, senior centers/congregate meal sites) with a focus in CX^3 communities. In the faith communities, particular attention will be paid to working with faith members and leaders to assess and improve the faith and/or the surrounding community environment through policy, systems, and/or environmental (PSE) change to improve access to healthy food/beverages and physical activity opportunities on their campuses. Annual Signature Events such as Black Health Awareness Month and Latino Health Awareness Month will be celebrated and used as opportunities to continue to promote increased fruit and vegetable consumption and daily physical activity in minority communities. Catholic Charities will connect SNAP-Ed participants to PA opportunities such as PA classes as well as engage residents in the development, revitalization, and expansion of community gardens.

Building upon relationships with early childcare/education (ECE) sites, elementary schools, middle schools, high schools and alternative schools already existing within the county, the LHD will continue to train and support teachers as extenders to provide direct nutrition and healthy beverage education, as well as physical activity education in the classroom and in after school/extended care programs. Emphasis will be placed on the implementation of playground stencil projects in three (3) ECE settings each year to increase opportunities for physical activity and active play. In addition to the implementation of wellness policies and procedures including making healthy site changes to improve the nutrition, physical activity, and/or screen time environment for participating children. In the elementary through high school settings, emphasis will be placed on improving school site environments by adopting Smarter Lunchroom Movement (SLM) Strategies and/or establishing or revitalizing school food gardens, implementing structured physical activity programming, and implementing School Wellness Policies. LHD educators will work closely with ECE and school sites to ensure accurate implementation of nutrition education and physical activity (PA) focused direct delivery, staff training and coordinated implementation strategies for direct care and education providers, food service providers, and other staff that interface with and impact children in the multiple settings. While primarily focused on the children and youth, the school setting will also be used for LIA educators to provide nutrition and physical activity education to the parents/caregivers of the students.

An additional outreach related to the school environment is Summer Meals outreach. Over the next three-year period, the LIAs will work with partners to increase utilization of the program by eligible students. Partners such as UC Cooperative Extension Master Gardeners, UC Cooperative Extension Expanded Food and Nutrition Education Program (Youth), Molina, Kids to Cops (K2C) and Azusa Pacific University-High Desert School of Nursing will offer enrichment activities to youth in FFY17. LIAs will continue to seek out additional partner agencies each year to assist in this effort.

The intervention plan progresses to interventions at the environmental level of the Social Ecological Model (SEM) via the inclusion of policy, systems and environmental (PSE) change efforts that include: (1) Healthy food/beverage policies and stocking standards, healthy in-store marketing and promotions, corner store market conversions, and healthy mobile vending to promote access to and the appeal of healthy foods and beverages in the retail environment; (2) Community/edible gardens, and structural environmental changes in CX^3 communities to improve access to and the consumption of fruits and vegetables as well as resident safety for involvement in daily physical activity; (3) Healthy food and beverage policies/procedures and access to physical activity opportunities in faith and worksite environments; (4) ECE and school wellness policies that promote access to healthy foods, beverages and physical activity, which will include (but are not limited to) standards for foods and beverages offered on site, opportunities for daily physical activity, limits on screen time and the provision of quality nutrition education, and garden-based and physical activity education.

Progressing to the sector level of the SEM, LIAs will identify strategic partners and community-wide, multi-sector coalitions to work collaboratively to improve nutrition and physical activity in San Bernardino County. A community health assessment with a focus on food security will be conducted to better understand and prioritize nutrition and physical activity intervention approaches that meet the unique needs of San Bernardino County. Community partners will be educated about policy/legislative changes and Smarter Lunchrooms Movement (SLM) principles that improve the school lunchroom and the retail environment.

Evaluation processes will be used to improve services for all local objectives and intervention strategies. The evaluation plan includes formative, process and outcome evaluation activities using State and locally developed tools to assess the effectiveness of trainings and observe and monitor the delivery of nutrition

education via trained extenders (i.e. subcontractors, teachers, CHLs, peer educators, etc.). An evaluation specialist will be contracted to assist in developing a well thought out plan allowing for improved data collection across LIAs and community partners and stakeholders as much as possible to better monitor our collective impact and progress over time. Past evaluation efforts have been primarily focused on the Impact Outcome Evaluation (IOE) in select schools and the LIAs intend to build and expand on this data by involving adults participating in faith and Peer-to Peer nutrition education series in the IOE assessments.

The locally developed Activity Tracking Form Summary will continue to be used to collect needed supporting documentation and verify SNAP-Ed Activity Tracking Form (ATF) and Reporting Tools Workbook (RTW) entries. Education and Administration Reporting System (EARS) and Semi Annual Activity Report results will be generated from the online ATF and quarterly RTW. Separate tracking of direct education taught by LIA staff and site staff trained by LIAs, such as teachers, will continue in an effort to better monitor effectiveness. Impact Outcome Evaluation (IOE) and SMART objectives, designed to measure change in dietary and physical activity behaviors, food resource management and the factors that influence these behaviors will be completed by the LIAs. Participants will be requested to complete evaluation surveys that address, but are not limited to, the following indicators from the Western Region SNAP-Ed Evaluation Framework: Nutrition, Physical Activity, and Obesity Prevention Outcomes: MyPlate Behaviors (MT1), Shopping Behaviors (MT2), Physical Activity Behaviors (MT3) and Fruit and Vegetables (LT2) Physical Activity Recommended Labels (LT7) and Entertainment Screen Time (LT8). At the environmental level, LIAs will also report as appropriate on the following SNAP-Ed Evaluation Framework priority indicators – Identification of Opportunities (ST4), Partnerships (ST6), Nutrition Supports Adopted (MT4) and Physical Activity Supports Adopted (MT5). An IOE Plan and Report will be submitted annually by LHDs and other LIAs will also collect, report and use evaluation data as well. All LIA PSE projects will be reported using the RE-AIM evaluation framework to assess Reach, Effectiveness, Adoption, Implementation, and Maintenance (RE-AIM). Reports generated from the database will be used to track, inform and improve continued PSE program efforts in San Bernardino County as well.

SECTION B: Target Audience Description

1. Gender	%		2. Age	#
Male	40		0 to 4 years old (Preschool):	2,200
Female	60		5 to 17 years old (School Age):	11,950

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**

By September 30, 2019, increase access to and demand for healthy fruits, vegetables, and beverages at 25 SNAP-Ed qualifying neighborhood retail stores, 11 food pantries/food banks/emergency food sites, Farmer's Markets, community and faith-based organizations, and senior centers/public housing facilities through adopted and implemented policy and physical site changes.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Healthy food and beverage policy(ies)/stocking standards
- Healthy in-store marketing and promotions
- Corner store market conversions
- Healthy mobile vending

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, San Bernardino County LHD will establish a Healthy Retail Advisory Committee to develop a Healthy Retail Recognition pilot program that includes up to 10 community and retail partners representing at least four (4) select SNAP-Ed qualifying neighborhoods.
    b. By September 30, 2017, LHD will conduct an assessment of the retail environment in at least four (4) selected SNAP-Ed qualifying neighborhoods.
    c. By September 30, 2017, LHD will engage qualifying retailers and/or food banks/pantries in establishing a Healthy Worksite program reaching at least 150 employees.
    d. By September 30, 2017, LHD will provide annual owner/retail staff education and/or technical assistance opportunities (in up to 15 retail stores) and support for one (1) Fruit and Veggie Fest marketing event in at least one (1) qualifying retail location.

e. By September 30, 2017, LHD will conduct taste testing demonstrations of healthy food/beverage recipes in up to 15 qualifying stores reaching 15,750 residents.
f. By September 30, 2017, CCC will engage at least five (5) emergency food assistance sites, community-based and faith-based organizations to develop healthy food and beverage standards, increase skills and behaviors towards healthy eating, active living and resource management.
g. By September 30, 2017, CCC will provide direct education classes to reach at least 750 SNAP-Ed qualified individuals to change their behavior towards healthy eating, active living, and food resource management.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, the San Bernardino County Healthy Retail Advisory Committee will create an implementation plan for a Healthy Retail Recognition program.
   b. By September 30, 2018, LHD will engage one (1) to four (4) stores located within the four (4) selected SNAP-Ed qualifying neighborhoods to increase access and/or promotion of healthy foods and beverages.
   c. By September 30, 2018, LHD will engage qualifying retailers and/or food banks/pantries in establishing a Healthy Worksite program reaching at least 200 employees.
   d. By September 30, 2018, LHD will provide annual owner/retail staff education and/or technical assistance opportunities (in up to 20 retail stores) and support for one (1) Fruit and Veggies Fest marketing event in at least one (1) qualifying retail location, and conduct indirect education reaching 17,250 residents.
   e. By September 30, 2018, LHD will conduct taste testing demonstrations of healthy food/beverage recipes in up to 20 qualifying retail stores reaching 17,250 residents.
   f. By September 30, 2018, CCC will engage at least six (6) emergency food assistance sites, community-based and faith-based organizations to further increase capacity to advance the development and/or adoption of healthy food and beverage standards, increase skills and behaviors towards healthy eating, active living and resource management.
   g. By September 30, 2018, CCC will provide direct education classes to reach at least 750 SNAP-Ed qualified individuals to change their behavior towards healthy eating, active living, and food resource management.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, the San Bernardino County Healthy Retail Advisory Committee will implement and conduct a preliminary evaluation of the Healthy Retail Recognition program in at least four (4) select SNAP-Ed qualifying neighborhoods.
   b. By September 30, 2019, LHD will engage qualifying retailers and/or food banks/pantries in establishing a Healthy Worksite program reaching at least 250 employees.

c. By September 30, 2019, LHD will provide annual owner/retail staff education and/or technical assistance opportunities (in up to 25 retail stores) and support for one (1) Fruit and Veggies Fest marketing event in at least one (1) qualifying retail location, and conduct indirect education reaching 18,750 residents.
d. By September 30, 2019, LHD will conduct taste testing demonstrations of healthy food/beverage recipes in up to 25 qualifying retail stores reaching 18,750 residents.
e. By September 30, 2019, CCC will engage at least seven (7) emergency food assistance sites, community-based and faith-based organizations to further increase capacity to advance the adoption and/or implementation of healthy food and beverage standards, increase skills and behaviors towards healthy eating, active living and resource management.
f. By September 30, 2019, CCC will provide direct education classes to reach at least 750 SNAP-Ed qualified individuals to change their behavior towards healthy eating, active living, and food resource management.

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):
By September 30, 2019, increase access to and demand for healthy fruits, vegetables, and beverages at 25 SNAP-Ed qualifying neighborhood retail stores, 11 food pantries/food banks/emergency food sites, Farmer's Markets, community and faith-based organizations, and senior centers/public housing facilities through adopted and implemented policy and physical site changes.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Establish a Healthy Retail Advisory Committee. Recruit 4-8 members, including CNAP or other coalition partners, San Bernardino County Healthy Community and Community Vital Signs partners, residents and retail representatives from at least four (4) SNAP-Ed qualifying neighborhoods.	( ) CED ( ) CEI ( ) MPR (X) C&C (X) TTA	( ) CWD (X) LHD ( ) AAA ( ) UCCE ( ) CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 (X) Q2 Q3 Q4 Year 2: Q1 (X) Q2 Q3 Q4 Year 3: Q1 (X) Q2 Q3 Q4	Submit: Activity Tracking Form (ATF), membership roster On File: Copy of meeting agendas and minutes

1.2	Convene two to four (2-4) times each year to draft an implementation plan for a Healthy Retail Recognition Program. Provide leadership and technical assistance. Integrate resources and tools available through the Healthy Stores Healthy Communities program. Assess the retail environment in at least 1 qualifying interested store in Year 1 and implement the Healthy Retail Recognition Program plan collaboratively in Year 2. Assess and evaluate program effectiveness in Year 3 using approved NEOP and locally developed survey instruments. Revise plan, as appropriate based on assessment results. Conduct assessments in partnership with Healthy Retail Advisory Committee members and/or CX[3], as appropriate.	<table><tr><td></td><td>CED</td></tr><tr><td></td><td>CEI</td></tr><tr><td></td><td>MPR</td></tr><tr><td>X</td><td>C&C</td></tr><tr><td>X</td><td>TTA</td></tr></table>	<table><tr><td></td><td>CWD</td></tr><tr><td>X</td><td>LHD</td></tr><tr><td></td><td>AAA</td></tr><tr><td></td><td>UCCE</td></tr><tr><td></td><td>CCC</td></tr></table>	CWD: LHD: AAA: UCCE: CCC:	Year 1 <table><tr><td>Q1</td><td>Q2</td><td>Q3</td><td>Q4</td></tr><tr><td>X</td><td>X</td><td>X</td><td>X</td></tr></table> Year 2 <table><tr><td>Q1</td><td>Q2</td><td>Q3</td><td>Q4</td></tr><tr><td>X</td><td>X</td><td>X</td><td>X</td></tr></table> Year 3 <table><tr><td>Q1</td><td>Q2</td><td>Q3</td><td>Q4</td></tr><tr><td>X</td><td>X</td><td>X</td><td>X</td></tr></table>	Submit: ATF On File: Copy of meeting agendas and minutes, Healthy Retail Recognition Program implementation plan, pre and post assessments

1.3	Conduct pre-assessment of the retail environment in Year 1 to establish baseline data and post-assessment in Year 3 to identify any changes in store marketing and promotion of healthy items, healthy food and beverage policies or stocking standards, and access to healthy foods and beverages for SNAP-Ed residents. Revise healthy marketing strategies, promotions, policies, stocking standards as appropriate. Conduct assessments in partnership with CX[3], as appropriate. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**

By September 30, 2019, work with SNAP-Ed eligible populations in at least five (5) qualifying CX^3 neighborhoods to assess their community, prioritize identified problem areas based on findings and community feedback, and develop and implement a community action plan including evaluation activities supporting policy, systems and environmental changes within targeted neighborhoods to reach, engage and empower at least 100 community members to select healthy foods and beverages and increase physical activity in their community.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Healthy retail
- Community/edible gardens
- Structural community changes to improve resident safety for physical activity

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, LHD will identify at least five (5) CX^3 neighborhoods that include high need census tracts and recruit a minimum of 100 residents and local partners to participate in the initiative.
    b. By September 30, 2017, LHD will train LIA educators, local partners, and residents to conduct neighborhood assessments and collect CX^3 data from at least five (5) neighborhoods.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, LHD will work with neighborhood residents and partners to convene one (1) town hall/community forum in each of the five (5) neighborhoods to disseminate CX^3 findings, create a community action plan for each neighborhood, and share the plan with stakeholders.

b. By September 30, 2018, LHD will conduct quarterly direct nutrition education to 100 engaged neighborhood residents.
c. By September 30, 2018, LHD will identify at least two (2) neighborhood and retail champions in each of the five (5) CX^3 neighborhoods to serve as advocates for the CX^3 initiative.

2. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, work with neighborhood residents, champions and partners to implement and market the community action plan in each of the five (5) neighborhoods.
   b. By September 30, 2019, work with neighborhood residents, champions and partners to monitor and evaluate CX^3 action plans to determine policy, systems and environmental (PSE) change outcomes in each of the five (5) neighborhoods that are supportive of nutrition and physical activity.

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):
By September 30, 2019, work with SNAP-Ed eligible populations in at least five (5) qualifying CX^3 neighborhoods to assess their community, prioritize identified problem areas based on findings and community feedback, and develop and implement a community action plan including evaluation activities supporting policy, systems and environmental changes within targeted neighborhoods to reach, engage and empower at least 100 community members to select healthy foods and beverages and increase physical activity in their community.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Establish CX^3 Resident Leadership/Champion teams in at least 5 neighborhoods. Recruit 20-25 members, including residents and local partners in each CX^3 neighborhood.	( ) CED ( ) CEI ( ) MPR (X) C&C ( ) TTA	( ) CWD (X) LHD ( ) AAA ( ) UCCE ( ) CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 Year 2: Q1 X, Q2, Q3, Q4 Year 3: Q1 X, Q2, Q3, Q4	On file: Resident/Leadership Champion roster

2.2	Train LIA educators, local partners, and residents. Topics may vary and can include: CX^3 orientation, GIS mapping, survey/field work, data collection and interpretation, facilitation and presentation skills, as well as basic nutrition, physical activity, and healthy beverage education. Offer ongoing education and technical assistance to support residents and community partners to improve or strengthen healthy eating and/or physical activity opportunities in their respective communities.	CED: ; CEI: ; MPR: ; C&C: ; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 , Q3 X, Q4 Year 3: Q1 X, Q2 , Q3 X, Q4
2.3	Organize community residents and partners to assist in the CX^3 neighborhood assessment and data collection in Year 1**.** Analyze and interpret the data collected from each of the CX^3 neighborhoods in Year 2. Share local data with neighborhood residents and appropriate stakeholders using CX^3 tools and methods in Years 2 and 3.	CED: ; CEI: ; MPR: ; C&C: X; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 , Q2 , Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 , Q4 Year 3: Q1 , Q2 , Q3 X, Q4 X
2.4	Prioritize identified problem areas based on CX^3 findings and generate a community action plan. 1. Host one nutrition education obesity prevention community forum/town hall reaching at least 25 neighborhood residents or individuals from the selected neighborhoods to review CX^3 findings and prioritize identified problem areas; provide dynamic nutrition education obesity prevention	CED: X; CEI: ; MPR: ; C&C: X; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 , Q2 , Q3 , Q4 Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X

	strategies to forum attendees. 2. Provide opportunity for ongoing nutrition education classes to Resident Leadership/Champion teams, forum attendees, and general community at least quarterly using approved NEOP curricula.					
2.5	Recruit at least two (2) neighborhood Champions and one (1) retail Champion for the CX^3 initiative in each of the CX^3 neighborhoods. Engage Champions in leadership roles. Use NEOP tools to continue to educate about the CX^3 initiative and present findings to a variety of stakeholders including policy leaders at least two (2) times each year. Utilize media efforts (e.g. newsletters, print media, PSAs, websites, social media, billboards, transit signs, etc.) to share CX^3 findings at least one (1) time each year. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**

By September 30, 2019, LHD will partner with thirty (30) qualifying early-childhood care and education sites (ECE), of which nine (9) engaged sites will implement playground stencil projects in order to increase opportunities for physical activity and active play, and at least fifteen (15) sites will create and/or implement wellness policies and procedures including making healthy site changes to improve the nutrition, physical activity, and/or screen time environment for participating children.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Access to healthy foods and beverages
- Structural environment changes to encourage physical activity/active play
- Site wellness policies and procedures

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017, LIA educators and trained extenders (teachers and program staff) will reach 200 preschoolers and 100 parents/caregivers of preschool-aged children with direct education and supportive indirect education activities to promote the increased consumption of healthy foods and beverages at twenty (20) qualifying early-childhood care and education sites.

   b. By September 30, 2017, at least three (3) qualified early-childhood care and education sites will implement playground stencil projects in order to increase opportunities for physical activity and active play.

   c. By September 30, 2017, LHD will support the development and/or implementation of site wellness policies and procedures at five (5) qualifying early-childhood care and education sites.

2. **FFY 2018 (Year 2) Objective(s):**

    a. By September 30, 2018, LIA educators and trained extenders (teachers and program staff) will reach 250 preschoolers and 125 parents/caregivers of preschool-aged children with direct education and supportive indirect education activities to promote the increased consumption of healthy foods and beverages at twenty-five (25) qualifying early-childhood care and education sites.

    b. By September 30, 2018, at least six (6) qualified early-childhood care and education sites will implement playground stencil projects in order to increase opportunities for physical activity and active play.

    c. By September 30, 2018, LHD will support the development and/or implementation of site wellness policies and procedures at ten (10) qualifying early-childhood care and education sites, including making at least one (1) new healthy site change per site to improve the nutrition, physical activity, and/or the screen time environment for participating preschoolers at engaged sites.

3. **FFY 2019 (Year 3) Objective(s):**

    a. By September 30, 2019, LIA educators and trained extenders (teachers and program staff) will reach 300 preschoolers and 150 parents/caregivers of preschool-aged children with direct education and supportive indirect education activities to promote the increased consumption of healthy foods and beverages at 30 qualifying early-childhood care and education sites.

    b. By September 30, 2019, at least nine (9) qualified early-childhood care and education sites will implement playground stencil projects in order to increase opportunities for physical activity and active play.

    c. By September 30, 2019, LHD will support the development and/or implementation of site wellness policies and procedures at fifteen (15) qualifying early-childhood care and education sites, including making at least one (1) new healthy site change per site to improve the nutrition, physical activity, and/or the screen time environment for participating preschoolers at engaged sites.

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):

By September 30, 2019, LHD will partner with 30 qualifying early-childhood care and education sites (ECE), of which nine (9) engaged sites will implement playground stencil projects in order to increase opportunities for physical activity and active play, and at least fifteen (15) sites will create and/or implement wellness policies and procedures including making healthy site changes to improve the nutrition, physical activity, and/or screen time environment for participating children.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Bernardino County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/23/2017**

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
3.1	Partner with a minimum of twenty (20) qualifying early childhood care/education sites (25 in FFY18 and 30 in FFY19) to allow teachers and program staff to be trained to conduct nutrition, healthy beverage and physical activity education interventions with preschool-aged children and their parents or caregivers. Establish relationships with school site administration and generate a commitment of support with school site administrator to allow for staff development, nutrition education interventions and wellness policy expansion at each site.	CED CEI MPR X C&C TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 X X X X Year 2 Q1 Q2 Q3 Q4 X Year 3 Q1 Q2 Q3 Q4 X	Submit: ATF, Site List On File: Commitment of Support
3.2	Provide at least one (1) teacher/program staff (extender) training annually per site and offer ongoing technical assistance for extenders to gain skills and tools to conduct high quality, culturally-appropriate nutrition education activities using approved curricula. Nutrition education will also address breastfeeding promotion and support in ECE settings. ****Time Frame: Year & Quarter:**
Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)
Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):**

By September 30, 2019, LHD will partner with 200 qualifying school/afterschool/extended break sites, where at least fifteen (15) qualifying sites work to improve the school site environments by adopting Smarter Lunchroom Movement Strategies and/or establishing or revitalizing school food gardens, thirty (30) sites implement structured physical activity programming, and twenty (20) qualifying school/afterschool/extended break sites will implement School Wellness Policies and make physical activity related environmental or policy changes.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Access to healthy foods and beverages
- Smarter Lunchroom Movement (SLM)
- Structured physical activity
- Edible gardens
- School wellness policies and procedures

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**

   a. By September 30, 2017, at 100 qualifying school/afterschool/extended break sites, LHD educators and trained extenders (classroom teachers and afterschool staff) will reach 5,000 students and 100 parents/caregivers with direct education, and reach 2,000 parents/caregivers with indirect education to promote the increased consumption of healthy foods and beverages.

   b. By September 30, 2017, LHD will develop and sustain partnerships including school wellness committees to improve five (5) of the qualifying school site environments by establishing or revitalizing school food gardens and/or adopting Smarter Lunchroom Movement strategies.

   c. By September 30, 2017, at twenty (20) of the 100 qualifying school sites, a structured physical activity (PA) program such as Children's Power Play! will be implemented by LHD trained physical activity educators.

   d. By September 30, 2017, LHD will work with partners including school wellness committees to implement School Wellness Policies and make physical activity related environmental or policy changes at ten (10) of the 100 qualifying sites.

2. **FFY 2018 (Year 2) Objective(s):**

   a. By September 30, 2018, at 150 qualifying school/afterschool/extended break sites, LHD educators and trained extenders (classroom teachers and afterschool staff) will reach 7,500 students and 150 parents/caregivers with direct education, and reach 2,500 parents/caregivers with indirect education to promote the increased consumption of healthy foods and beverages.

   b. By September 30, 2018, LHD will develop and sustain partnerships including school wellness committees to improve ten (10) of the qualifying school site environments by establishing or revitalizing school food gardens and/or adopting Smarter Lunchroom Movement strategies.

   c. By September 30, 2018, at twenty-five (25) of the 150 qualifying school sites, a structured physical activity (PA) program such as Children's Power Play! will be implemented by LHD trained physical activity educators.

   d. By September 30, 2018, LHD will work with partners including school wellness committees to implement School Wellness Policies and make physical activity related environmental or policy changes at fifteen (15) of the 150 qualifying sites.

3. **FFY 2019 (Year 3) Objective(s):**

   a. By September 30, 2019, at 200 qualifying school/afterschool/extended break sites, LHD educators and trained extenders (classroom teachers and afterschool staff) will reach 10,000 students and 200 parents/caregivers with direct education, and reach 3,000 parents/caregivers with indirect education to promote the increased consumption of healthy foods and beverages.

   b. By September 30, 2019, LHD will develop and sustain partnerships including school wellness committees to improve fifteen (15) of the qualifying school site environments by establishing or revitalizing school food gardens and/or adopting Smarter Lunchroom Movement strategies.

   c. By September 30, 2019, at thirty (30) of the 200 qualifying school sites, a structured PA program such as Children's Power Play! will be implemented by LHD trained physical activity educators.

   d. By September 30, 2019, LHD will work with partners including school wellness committees to implement School Wellness Policies and make physical activity related environmental or policy changes at twenty (20) of the 200 qualifying sites.

Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):
By September 30, 2019, LHD will partner with 200 qualifying school/afterschool/extended break sites, where at least fifteen (15) qualifying sites work to improve the school site environments by adopting Smarter Lunchroom Movement Strategies and/or establishing or revitalizing school food gardens, thirty (30) sites implement structured physical activity programming, and twenty (20) qualifying school/afterschool/extended break sites will implement School Wellness Policies and make physical activity related environmental or policy changes.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
4.1	Partner with a minimum of 100 qualifying school/afterschool/extended break sites (150 in FFY18 and 200 in FFY19) to allow teachers and program staff to be trained to conduct nutrition, healthy beverage and physical activity education interventions with students and their parents or caregivers. Establish relationships with school site administration and generate a commitment of support with school site administrator to allow for staff development, nutrition education interventions	CED: ; CEI: ; MPR: ; C&C: X ; TTA:	CWD: ; LHD: X ; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 ; Year 2: Q1 , Q2 , Q3 X, Q4 ; Year 3: Q1 , Q2 , Q3 X, Q4	Submit: ATF, Site List On File: Commitment of support

	and wellness policy expansion at each site.					
4.2	Provide at least one (1) extender training (teachers, program staff, etc.) annually per organization/site and offer ongoing technical assistance for extenders to gain skills and tools to conduct high quality, culturally-appropriate direct nutrition education activities using approved curricula.	☐ CED ☐ CEI ☐ MPR ☒ C&C ☒ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☐ CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Submit: ATF On File: Training agenda and materials, sign-in sheet
4.3	LIA educators and trained extenders will conduct direct nutrition education classes with a minimum of 5,000 students (7,500 in FFY18 and 10,000 in FFY19) and 100 parents/care givers (150 in FFYY18 and 200 in FFY19) at qualifying school/afterschool/extended break sites. Sessions may be delivered in a series of five (5) interactions, as feasible. Recipe demonstrations and/or taste-testing may be included.	☒ CED ☐ CEI ☐ MPR ☐ C&C ☐ TTA	☐ CWD ☒ LHD ☐ AAA ☐ UCCE ☒ CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Submit: ATF On File: Sign-in sheets, lesson plans, nutrition education materials, recipes, data cards, pre- and post-tests as appropriate

4.4	Conduct indirect nutrition education with 2,000 parents/adult family members in FFY17 (2,500 in FFY18 and 3,000 in FFY19) at school related events such as Back-to-School nights, Open Houses, school/community health fairs, PTA meetings, and/or newsletters or interactive online learning opportunities. ****Time Frame: Year & Quarter:**

Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)

Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):**

By September 30, 2019, promote the increased consumption of healthy food and beverages, through coordination and collaboration with 50 partnering agencies to adopt and implement a minimum of three (3) organizational policies/nutrition standards to increase access to and/or appeal of healthy foods, beverages, and physical activity opportunities in SNAP-Ed eligible communities, which may include, but are not limited to, places of worship, food pantries, soup kitchens, Farmer's Markets, schools, senior centers, summer meal sites, and community festivals and gatherings.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**

- Access to healthy food, beverage and physical activity opportunities
- Healthy food and beverage policies/procedures
- Community Gardens

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, LHD will conduct culturally appropriate indirect education at 20-25 qualified festivals/health fairs/community gatherings reaching a minimum of 5,500 SNAP-Ed eligible adults and annually plan, promote, and conduct at least one (1) Signature Event.
    b. By September 30, 2017, LHD will conduct culturally appropriate direct education at 20-25 qualified community sites and use trained extenders, such as peer educators, to reach a minimum of 2,000 SNAP-Ed eligible adults and seniors.
    c. By September 30, 2017, LHD will reach a minimum of 100 SNAP-Ed eligible faith members at ten (10) faith-based institutions, who in cooperation with faith leadership improve access to and/or the appeal of healthy food, beverage, and physical activity opportunities at their place of worship.

d. By September 30, 2017, LHD and CCC will work with at least 40 partner agencies in the County through coalitions or collaboratives (e.g. CNAP, Healthy Communities, School Wellness groups, Food Policy Advisory Council, Healthy Cities) to increase access to healthy foods and beverages, provide consistent nutrition and physical activity messaging, and improve the availability of food program information targeting SNAP-Ed eligible residents at sites that may include, but are not limited to, places of worship, schools, food banks and pantries, senior centers/congregate meals, and summer meal sites.

2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, LHD will conduct culturally appropriate education at 25-30 qualified festivals/health fairs/community gatherings reaching a minimum of 7,200 SNAP-Ed eligible adults and annually plan, promote, and conduct at least one (1) Signature Event.
   b. By September 30, 2018, LHD will conduct culturally appropriate direct education at 25-30 qualified community sites and use trained extenders, such as peer educators, to reach a minimum of 2,500 SNAP-Ed eligible adults and seniors.
   c. By September 30, 2018, LHD will reach a minimum of 120 SNAP-Ed eligible faith members at twelve (12) faith-based institutions, who in cooperation with faith leadership improve access to and/or the appeal of healthy food, beverage, and physical activity opportunities at their place of worship.
   d. By September 30, 2018, LHD and CCC will work with at least 45 partner agencies in the County through coalitions or collaboratives (e.g. CNAP, Healthy Communities, School Wellness groups, Food Policy Advisory Council, Healthy Cities) to increase access to healthy foods and beverages, provide consistent nutrition and physical activity messaging, and improve the availability of food program information targeting SNAP-Ed eligible residents at sites that may include, but are not limited to, places of worship, schools, food banks and pantries, senior centers/congregate meals, and summer meal sites.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, LHD will conduct culturally appropriate education at 30-35 qualified festivals/health fairs/community gatherings reaching a minimum of 8,900 SNAP-Ed eligible adults and annually plan, promote, and conduct at least one (1) Signature Event.
   b. By September 30, 2019, LHD will conduct culturally appropriate direct education at 30-35 qualified community sites and use trained extenders, such as peer educators, to reach a minimum of 3,000 SNAP-Ed eligible adults and seniors.
   c. By September 30, 2019, LHD will reach a minimum of 140 SNAP-Ed eligible faith members at fourteen (14) faith-based institutions, who in cooperation with faith leadership improve access to and/or the appeal of healthy food, beverage, and physical activity opportunities at their place of worship.
   d. By September 30, 2019, LHD and CCC will work with at least 50 partner agencies in the County through coalitions or collaboratives (e.g. CNAP, Healthy Communities, School Wellness groups, Food Policy Advisory Council, Healthy Cities) to increase access to healthy foods and beverages, provide consistent nutrition and physical activity messaging, and improve the availability of food program information

targeting SNAP-Ed eligible residents at sites that may include, but are not limited to, places of worship, schools, food banks and pantries, senior centers/congregate meals, and summer meal sites.

Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):

By September 30, 2019, promote the increased consumption of healthy food and beverages, through coordination and collaboration with 50 partnering agencies to adopt and implement a minimum of three (3) organizational policies/nutrition standards to increase access to and/or appeal of healthy foods, beverages, and physical activity opportunities in SNAP-Ed eligible communities, which may include, but are not limited to, places of worship, food pantries, soup kitchens, Farmer's Markets, schools, senior centers, summer meal sites, and community festivals and gatherings.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
5.1	Provide education and ongoing technical assistance to a minimum of 5-10 LIA educators and extenders (Community Health Leaders [CHLs], peer educators) per year, to teach skills needed to conduct high quality, culturally-appropriate community event promotional activities and/or direct nutrition education in community settings such as places of worship or community centers.	CED: ; CEI: ; MPR: ; C&C: X; TTA: X	CWD: ; LHD: X; AAA: ; UCCE: ; CCC:	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 , Q3 X, Q4 Year 2: Q1 X, Q2 , Q3 X, Q4 Year 3: Q1 X, Q2 , Q3 X, Q4	Submit: ATF On File: Sign-in sheets, training documents
5.2	LIA educators and extenders (CHLs) will conduct culturally appropriate indirect education at 20-25 qualified festivals, health fairs and culturally appropriate community gatherings (25-30 in FFY18 and 30-35 in FFY19), reaching a minimum of 5,500 adults in FFY17, 7,200 adults in FFY18, and 8,900 adults in FFY19. Applicable gatherings can involve Signature events such as Black Health Awareness Month (BHAM), Latino Health Awareness Month (LHAM), and local efforts such as My Hair, My Health (MHMH). Recipe demonstrations and/or taste test opportunities may be included.	CED: ; CEI: X; MPR: ; C&C: X; TTA:	CWD: ; LHD: X; AAA: ; UCCE: ; CCC: X	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Submit: ATF On File: Community event summaries, event flyers, event photos

5.3	LIA educators and extenders (CHLs, peer educators) will conduct culturally appropriate direct education at ten (10) qualified faith-based institutions (12 in FFY18 and 14 in FFY19) and 20-25 community agencies and senior centers (25-30 in FFY18 and 30-35 in FFY19), reaching a minimum of 2,140 adults in FFY17, 2,620 adults in FFY18, and 3,140 adults in FFY19. Recipe demonstrations and/or taste test opportunities may be included. Nutrition education may be delivered in a series of five (5) interactive sessions, as feasible. Work with faith leadership/health ministry at each site to assess and improve the faith and/or the surrounding community environment through policy, systems, and/or environmental (PSE) change to improve access to healthy food/beverages and physical activity opportunities. Provide ongoing technical assistance as needed.	X CED CEI MPR X C&C X TTA	CWD X LHD AAA UCCE X CCC	CWD: LHD: TBD AAA: UCCE: CCC:	Year 1: Q1 X, Q2 X, Q3 X, Q4 X Year 2: Q1 X, Q2 X, Q3 X, Q4 X Year 3: Q1 X, Q2 X, Q3 X, Q4 X	Submit: ATF On File: Nutrition education materials, lessons plans, data cards, pre- and post-tests as appropriate, sign-in sheets, draft/approved faith PSE documentation
5.4	Using approved NEOPB messaging and signage, promote nutrition education and obesity prevention strategies through media efforts (e.g. newsletters, print media, websites, social media, billboards, transit signs, radio remotes, etc.) to promote signature events such as BHAM, LHAM, and MHMH, to reinforce direct education of SNAP-Ed eligible residents. Work with NEOPB to ensure that billboard and/or transit signage is appropriate and non-duplicative of State media buys. Definition and basis for calculations of benefit rate(s):
Describe what is covered in the benefit rate for your agency.

Payroll taxes, workers comp, retirement benefits, and medical/dental benefits calculated at a range of 51.08-53% for staff.

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: San Bernardino County

2. Non-Capital Equipment/Supplies:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	FTE	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			General Office Supplies	General office supplies includes paper, pens, ink/toner and other small office supplies for LHD staff conducting NEOP funded activities. The cost is calculated at $63.79 per month x 12 months x 17.72	17.72	$63.79	12	$13,564	
2			Postage	Cost for mailing out program materials, required documentation and interoffice mail as part of our FFY18 Workplan and Contract. Cost is estimated per month at $100 X 12 months.	1	$100.00	12	$1,200	
3			CCLHDN Membership	Annual membership fee for San Bernardino CDPH	1	$155.00	1	$155	
4			Survey Monkey	The cost is for the annual subscription. This survey tool will be used to measure the effectiveness of meetings with contractors, community members, etc. The Nutrition Program is working to build our evaluation team and to better incorporate evaluation research into all aspects of our SNAP-Ed outreach to better serve the needs of our residents. The annual Survey Monkey subscription allows the program the latitude to develop surveys that help us to better understand our target audience and offer technical assistance to our partners. Thus far, the tool is being used successfully with our Body & Soul faith-based initiative. We are actively collecting data from our churches through September 2017. We aim to provide each participating church with their own personal report to help further build and support their health ministry programming and we plan to release the collective data to our consortium of pastors and the media in early November2017; other initiatives will soon follow. Survey Monkey works better than the free services suggested in a variety of respects. For example, with the annual subscription we are not limited to 10 questions per survey or limited to specific question types or limited in the number of responses per survey. The service also provides some survey analysis and exports the data in CSV, PDF, PPT, XLS, an SPSS formats for further more robust analysis. The free Google survey tool limits the maximum questions per survey to 10. Doodle does not offer surveys. It works to simplify the process of scheduling appointments and allows for group "polls".	1	$300.00	1	$300	
5			Fingerprinting, background checks and medical exam	Cost associated with the LHD hiring process which consist of a pre-employment background and reference checks. All employment offers are contingent upon fulfillment of established medical standards for the position. A post-offer, pre-employment physical examination, including drug and alcohol testing, is required. Some positions require a psychological evaluation. Failure to meet all medical standards may result in withdrawal of appointment or termination.	2	$400.00	1	$800	
				Theft-sensitive equipment/supplies that are less than $5,000 (Computers, printers, projectors, etc.)					
1			Keyboard	Cost of a regular or ergonomic keyboard depending on employees needs	1	$59.00	1	$59	
2			Mouse	Cost of a regular or ergonomic mouse depending on employees needs	1	$45.00	1	$45	
3			Office Chair	Cost of a regular or ergonomic chair depending on employees needs. SB will submit an ergo report to CDPH before purchasing a chair.	1	$300.00	1	$300	
4			Furniture	Minor furniture purchases such as key boards, key board trays, filing cabinets, mouse, etc. possibly due	2	$500.00	4	$4,000	
							Total Non-Capital Equipment/Supplies:	**$20,423**	

3. Materials:

	Budget Adjustment: Add Delete Increase Decrease	Budget Adjustment: Last Amount Approved	Budget Item	Description/Justification	Cost per Item	# of Items	Total	Budget Adjustment: Budget Justification
1			Copies/Reproduction	Routine printing and duplication for NEOP approved materials such as recipe cards and other nutrition education materials. As well as, marketing materials (flyers, brouchers, small posters, etc.).	$250.00	82.8	$20,700	
2			Nutrition Education Materials	Cost for purchase of approved nutrition/physical activity education materials, resources and curriculum supplies to be used with all FFY18 direct and indirect education activites included in our FFY18 objectives conducted at SNAP-ed eligible sites. This cost is for the purchase of approved educational materials that are either not available for download and/or are less expensive to purchase than to download/print ,curriculum not available for free, supplies required to implement approved curriculum activities and other resources (visual display, etc) that are used in conjunction with our approved curriculum for teaching classes and conducting IWP activities.	$4.75	4600	$21,850	
3			Food & Supplies	Cost is for food and supplies (cups, plates, table covers, gloves, etc.) used to conduct our food demonstration/tasting activities included in our FFY18 workplan objectives. Cost is estimated $2.50 per sample X 7980 samples.	$2.50	7980	$19,950	
4			Booth Rentals	Booth space at NEOP eligible sites to complete nutrition education classes described in FFY18 workplan objectives. Cost is calculated at $100 per event	$100.00	6	$600	

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: San Bernardino County

5			Keynote Speakers	Cost for presenters such as keynote speakers or celebrity chefs for Faith Outreach (Body & Soul) and signature community events as feasible, appropriate and approved by CDPH. Events may include: Black Health Awareness Month, Latino Health Awareness Month, Fruit & Veggie Fest, My Hair, My Health, etc.	$1,000.00	3	$3,000
6			Compartment Sink Rental	Cost for rental of a 3 or 4 basin compartment sink (at $200 per event for up to 15 events) to conduct nutrition demonstrations and taste test samplings at large outdoor community events, festivals, and/or Farmer's Markets in our FFY18 workplan and to be in compliance with County Environmental Health requirements.	$200.00	15	$3,000
8			Media Buys	Cost for NEOP approved graphic designs ads/billboards at NEOP eligible sites to promote healthy eating and a physically active lifestyle. Cost breakdown: billboard (possibly digital): $3200/mo. X 5 mos + $660 installation fee =$16,660; bus shelters $2050/mo X4 mos X 3 shelters + installation fees ($500) = $25,100 for a grand total $41,760	$41,760.00	1	$41,760
9			Radio Promotions	Cost for radio promotion of signature events such as Fruit & Veggie Fest and Summer Meals Kick-Off (as approved by CDPH) to promote healthy eating and physically active lifestyle.	$4,850.00	2	$9,700
10			Food Handler Certification	Food Handlers Certification for staff conducting healthy food/drink demos 3 X 22	$22.00	3	$66
11			Stencil Kits	Offer Stencil Kits to multiple qualifing sites and expose at least 200 children to stencils	$2.00	200	$400
						Total Materials:	**$121,026**

4. Travel:

1			Main Office 1505 South D Street San Bernardino, CA	Communication Expense (emails $80.34/month per person, phone $22/month per person)	17.72	$102.34	12	$21,762	
2			County Counsel	Document review and approval fees at $250.00/hr x 12 hr. This fee is a required County fee for all documents that need to be submitted for board approval, including contracts/subcontracts, contract/subcontract amendments, hiring of new staff and consultants.	1	$250.00	12	$3,000	
3			General Maintenance	General maintenance costs for facilities, equipment, and furniture (includes installation of furniture/equipment, data drops required updates to building signage, etc.)	1	$250.00	12	$3,000	

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: San Bernardino County

4			Human Services	Required fees to cover costs associated with contract issues including: Request for Proposals, contract development, contract monitoring, etc. These fees are mandated by the County Department of Public Health for programs that will be working with and/or adding new Subcontractors. Human Services charges a rate of $75.00 per staff hour. It is anticipated that at least 464 hrs will be incurred in the next fiscal year. Annual Audit Fee- County of San Bernardino Contracts with VDT CPA to report on expenditures of federal awards, required by OMB Circular A-133. The Single audit Invoice is allocated to each program based on the percentage of the program expenditures compared to the total federal grant expenditures. One to two people perform the audit. HS Admin- The HS department is responsible for following procedures to obtain approval to submit all grant applications and accept all grant awards. All HS grant applications, including reapplications, must be reviewed by and coordinated through our HS Grant Coordinator. HS Department obtains Board or CEO approval prior to submission of all grant applications, reapplications and amendments. The $75 is a combination of the rate paid for the HS Analyst's services, including HS indirect overhead, and County Counsel services. Currently Alice Rivaz-Ordaz is supporting the Nutrition program her current rate of pay is $62.70 an hour. She supports the program as the HS Analyst by conducting formal procurement processes; develop contracts, amendments and related Board Agenda Items; make contact and follow-up with subcontractor, as necessary; conduct contract monitoring; drafts Board Agenda items as it relates to grant application and awards.	1	$2,900.00	12	$34,800

San Diego County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

County Name: **San Diego**

SECTION A: OVERVIEW

1. **SNAP-Ed IMPLEMENTING AGENCY NAMES**

	California Department of Social Services: CDSS: (County Welfare Departments: CWD)
	University of California: UC CalFresh UCCE: (UC Cooperative Extension: UCCE)
X	**California Department of Public Health: CDPH: County of San Diego Health and Human Services Agency, Public Health Services (PHS)**
X	**California Department of Aging: CDA: County of San Diego Health and Human Services Agency, Aging & Independence Services (AIS)**
X	**Catholic Charities of California: CCC: Catholic Charities Diocese of San Diego (CCDSD)**

2. **STATE LEVEL GOALS AND OBJECTIVES**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP-Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list, and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. JURISDICTION DESCRIPTION

Demographics

San Diego is a diverse, multicultural, and multilingual county located in the southwestern corner of California between Riverside, Orange, and Imperial counties and the US-Mexico border. Of the approximately 3,227,496 people living in the county (1), 922,984 (30.2%) are estimated to be SNAP-Ed eligible (income ≤ 185% Federal Poverty Level [FPL]) (2). Two out of every 21 San Diego County residents participate in CalFresh (2). A majority of the SNAP-Ed eligible population is female (53%), with 47% male (3). The age distribution of the SNAP-Ed eligible population peaks in adulthood with only 8% percent of SNAP-Ed eligible individuals identified as young children less than 4 years of age, while 21% are children between 5 and 17 years old, 57% are adults between 18 and 59 years old, and 14% are adults age 60 and over. The racial and ethnic distribution of this population reflects San Diego's diversity with 49% identifying as Hispanic/Latino, 33% as White, 6% as Black or African American, 8% as Asian, 3% as multiracial or identified as other, less than 1% as American-Indian/Alaskan Native, and less than 1% as Native Hawaiian/Other Pacific Islander. Though the SNAP-Ed eligible population primarily speaks either Spanish (32%) or English (46%) at home, other reported household languages include Vietnamese (1%), Arabic (1%), Tagalog (1%), and Mandarin (<1%) (3).

Obesity and Health Behaviors

San Diego County has seen a decline in rates of overweight/obesity among children, down 3.7% between 2005 and 2010, marking the biggest decline in that time period compared to all Southern California counties (4). However, overweight/obesity is still a significant issue, particularly among the SNAP-Ed eligible population. A higher proportion of SNAP-Ed eligible adults are overweight or obese (64%) compared to adults in the county overall (59%) (2). Fifty-six percent (56%) of the county's adults age 60 and over are either overweight or obese. The prevalence of overweight and obesity is slightly higher among the SNAP-Ed eligible older adult population, age 65 and above (57%) (5). Among low-income children, approximately 33% of children ages 2-4 and close to 43% of children and teens ages 5-19 are overweight or obese (2). The low-income population is also less likely to have a diet that meets national recommendations for fruit and vegetable consumption. In the county, approximately 37% of SNAP-Ed eligible children ages 2-17 had less than 2 servings of fruit the previous day (6).

Additional concerns for San Diego's SNAP-Ed eligible population include a reliance on fast food and a lack of access to physical activity and active living opportunities. Among the SNAP-Ed eligible population in San Diego County, 61% eat fast food at least once per week. Only 24% of all children ages 2-11 and 17% of 12-17 year olds are physically active for at least one hour every day (2). Rates of walking and bicycling to school have declined drastically in the past generation. One study shows that among 5-17 year olds in San Diego County, 73.5% did not walk, bike, or skate to or from school in the past week (7). Among workers 16 years of age and over in San Diego County, only 2.8% commute to work on foot, 0.7% ride a bicycle, and 3% take public transportation compared to 85.8% that commute to work by car (3). Although 35% of adults have engaged in regular walking in the past week, 15% of adults have not exercised in the past month (2). A 2012 SANDAG survey of the region's older adults found that almost a third (31%) have at least minor difficulty walking (8). About 23% of adults age 60 and over in San Diego County engage in at least 30 minutes of moderate physical activity a day for five days a week (5).

Food Insecurity

While the overall food insecurity rate for San Diego County is 14%, among families with children the food insecurity rate is higher at about 22% (2). Food insecurity also varies among the six County of San Diego Health and Human Services Agency (HHSA) Regions. Among adults living below 185% of the federal poverty level, more than fifty percent (54%) in the Central Region report periods of food insecurity; the remaining regions range from 17% in North Coastal Region, 23% in North Central Region, 20% in South Region, 43% in North Inland Region, to over half (52%) in East Region (6). Although African Americans make up only 6% of the SNAP-Ed eligible population in San Diego County (3), they are disproportionately impacted by food insecurity. Approximately 65% of eligible African American adults are not able to afford enough food compared to 32% of eligible Hispanics/Latinos and 40% of eligible Whites (6). Almost half (49%) of low-income adults who are non-citizens are food insecure, compared to 37% of low-income adult citizens. In 2013, Catholic Charities Dioceses of San Diego (CCDSD) distributed food to 109,038 food insecure people. The majority (71%) of the SNAP-Ed eligible population CCDSD serves is made up of adults between the ages of 18 and 59 (9). Other nutrition-related programs that work with local low-income populations to increase food security include the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), Eatfresh.org, food banks (San Diego Food Bank, Feeding America San Diego), University of California Cooperative Extension, Dairy Council, and County of San Diego HHSA family resource centers.

Health Disparities

As mentioned above, San Diego has a diverse population with a large percentage of Hispanics/Latinos as well as African Americans, Asians, and a large refugee population. Certain racial and ethnic groups experience higher rates of obesity and obesity-related chronic diseases compared to the general population. In San Diego County, 72% of African Americans are overweight/obese compared to 69% of Hispanics/Latinos and 57% of non-Hispanic Whites. Seventy-two percent (72%) of SNAP-Ed eligible Hispanics/Latinos are overweight/obese, including 60% of U.S.-born SNAP-Ed eligible Hispanics/Latinos, compared to 78% of foreign-born eligible Hispanics/Latinos (5).

The percentage of people with diabetes is highest among African Americans at 16%, followed by Hispanics/Latinos at 8% and non-Hispanic Whites at 7%. Hospital discharge data for San Diego County from 2008-2012 show that while the rate of diabetes hospitalizations has decreased among Hispanics/Latinos, it is still almost twice as high as the rate among Whites, with 202 hospitalizations per 100,000 Hispanics/Latinos compared to 102 per 100,000 among Whites in 2012. (10). The rate of diabetes hospitalizations has increased among African Americans, with 412 diabetes hospitalizations per 100,000 in 2012. The rate of coronary heart disease hospitalizations appeared to decrease from 2008 to 2012 among Whites and Hispanics/Latinos. African Americans had the highest rate of coronary heart disease hospitalizations every year, with 396 hospitalizations per 100,000 compared to 227 hospitalizations per 100,000 among Hispanics/Latinos and 228 per 100,000 hospitalizations among Whites in 2012 (11).

The stresses associated with poverty are reflected in higher than average reports of psychological distress, which contributes to health disparities. About 4% of SNAP-Ed eligible adults have reported having had serious psychological distress during the past year compared to 3% of the overall county population (6).

Nutrition Environment

With 5,732 farms and 363 registered organic growers (12), San Diego County has more farms and organic farms than any other county in the United States (13). Of the 42 school districts in the county, 33 report involvement in "farm to school" programming and the districts spent $6.9 million on local and regional foods during the 2014-2015 school year, or about 10% of their total food cost per year (14). There are 46 farmers markets in the county; thirteen farmers markets located in low-income areas accept EBT, providing significant opportunity for locally sourced healthy food (15). Eighty-two percent (82%) of the zip codes in San Diego County have grocery stores, produce stands, or farmers markets, but unhealthy food options are prevalent, with 50% of the restaurants in the county classified as fast food restaurants (16). Three percent (3%) of the low-income population has limited access to healthy food, which is defined as living more than 1 mile from a supermarket or large grocery store in an urban area, or more than 10 miles from a supermarket or large grocery store in a rural area (16).

Physical Activity Environment

San Diego County has 10 recreational facilities per 100,000 residents, and 92% of children and teens ages 1-17 have a park or open space within a 30 minute walking distance (5). In San Diego County, 87% of children and teens in the SNAP-Ed eligible populations have visited a park or other open spaces in the past month, and the majority of teens (98%) feel their nearby park or playground is safe during the day (6). However, a recent study shows that per-resident spending on parks and recreation in San Diego lags behind other major cities. San Diego spent only $102 in "operational spending" (e.g., landscape tree maintenance, trash removal) and $9 in "capital spending" (e.g., one-time items like land acquisition, construction, major repairs), well below the average of $220 and $100, respectively, in cities like Washington D.C. and Seattle (17). Additionally, the San Diego region has the 6th highest rate of pedestrian deaths in the U.S. as a percentage of total traffic fatalities (18). Correspondingly, residents in SNAP-Ed eligible assessments and community meetings have expressed concerns with personal and traffic safety; aspects of walkability such as poor street connectivity and lack of sidewalks; and overall access to parks, stores, and schools.

Natural Environment

Increases in temperature and adverse weather events due to climate change negatively impact both food systems and opportunities for active living in San Diego County. As on-road transportation accounts for 43% of greenhouse gas emissions in the county (14), improving the built environment to create safe routes and increase active transportation to places where people live, learn, shop, and work, would help to reduce emissions and increase physical activity. Increases in temperature and dry conditions could potentially become a barrier to outdoor physical activity, disproportionately affecting residents in areas with limited access to indoor recreational facilities, particularly for low-income populations. Climate change is projected to reduce the amount of imported water available from the Colorado River, the Sacramento-San Joaquin River Delta, and the Sierra Nevada. Warmer and drier conditions would negatively impact agriculture, exacerbating the current water shortages by increasing demand for irrigation. The cost of water could impact the cost of produce, affecting access to fresh fruits and vegetables for the SNAP-Ed eligible population.

Targeted Settings

- ***Cities and Communities***: There are a total of 19 jurisdictions in San Diego County – 18 cities and the unincorporated county. Healthy Cities/Healthy Residents projects will target three cities with large numbers of SNAP-Ed eligible residents and high need in terms of access to healthy food and active transportation/active living opportunities. The projects will engage SNAP-Ed eligible residents and community-based organizations (CBOs), and assist the cities with adopting and implementing policies that improve the food and active living environments for the communities in greatest need. Additionally, retail and food systems efforts will work with local jurisdictions on the adoption of municipal retail policies and other policies that increase access to and availability of healthy, local food for SNAP-Ed eligible residents.

- ***Food Resource Centers (FRCs):*** CCDSD runs three FRCs in San Diego County that serve a demographically diverse and low-income population. The FRCs provide clients with government commodities and donations. In FFY 2014, CCDSD's FRCs served a total of 38,694 households and 90,603 individuals, including 4,212 homeless people.

- ***Faith-Based Organizations***: There are 1,720 congregations scattered throughout San Diego County with over 1.3 million members (19). In 2010, there were 19 Muslim congregations with an estimated 22,000 members and over 115 Catholic churches with an estimated 801,850 congregants (19). Faith-based programs will provide training on healthy food/physical activity and support for PSE efforts to members of congregations in SNAP-Ed eligible areas, specifically targeting congregations serving Muslims and Hispanics/Latinos.

- ***Schools*****:** Of the 627 census tracts in San Diego County, 103 (17%) are SNAP-Ed eligible based on all races data for2009-2013. Over half (55%) of the 780 schools in the county are SNAP-Ed eligible, and 256,705 (51%) out of 503,939 enrolled students in the county are eligible for the Free and Reduced Price Meals (FRPM) program. District wellness policies, school-based programs, and Safe Routes to School (SRTS) efforts will target schools with a high percentage of SNAP-Ed eligible students (2).

- ***Retail:*** There are 22 census tracts within all of the regions in San Diego County that are classified as food deserts where residents have low access to a supermarket or large grocery store (18). Retail efforts will focus on store conversions and incorporating fresh fruits and vegetables and healthy food and beverage options to increase access to healthy foods in low-income neighborhoods. Additionally, municipalities will receive technical assistance to adopt municipal policies to improve healthy retail options.

- ***Worksites*****:** In San Diego County, about 27% of employees are SNAP-Ed eligible and 14% of those eligible participate in CalFresh (21). Worksite Wellness programs for SNAP-Ed eligible employees will provide education, resources, and assistance with implementing policy, systems, and environmental (PSE) changes at worksites with a large proportion of low-income workers.

Targeted Populations

- ***Early Childhood:*** In 2014 there were 4,653 licensed child care centers in San Diego County (21). Thirty-six percent (36%) of these licensed child care centers serve children receiving child care subsidy for Stage 1, indicating an opportunity to provide nutrition education and obesity prevention services. Programmatic efforts will provide early child care providers with nutrition education and technical assistance in adopting policies to increase healthy eating and physical activity. Technical assistance will also be provided to school districts to include preschool-specific language in school wellness policies.

- ***Older Adults:*** In 2012, older adults (age 65 and above) represented about 12% (374,535) out of the County's total population of 3.1 million which was slightly less than the nation as a whole (14%). Although 79% of older adults in the county reported being in good to excellent health in 2012, 56% of them reported being overweight or obese. About 10% of older adults reported eating fast food three or more times in the past week, which was slightly higher than the 9% reported in 2009. According to 2009 data, 69% of the older adult population walked for transportation, fun, or exercise in the past week. However, smoking among older adults has been continuously rising from 6% to 7% and up to 9%, in 2006, 2009, 2012 respectively. Moreover, an estimated 45,000 older adults in San Diego County reported falling more than once in the past year (22).

  Aging & Independence Services (AIS) provides services to the older adult population in San Diego County via home delivered meals and congregate sites. Over 7,132 older adults were registered and received meals at 37 congregate sites between July 1, 2015 and December 31, 2015. Of the 37 meal sites, 18 locations are SNAP-Ed eligible. Of the total 3,520 registered meal participants at the eligible sites, 2,694 (76.5%) are low-income (<185% FPL). Forty-eight percent (48%) identify as White, 22.8% as Hispanic/Latino, 9% as African American, 27.7% as Asian, 4% as Native Hawaiian or Other Pacific Islander, less than 1% as American Indian/Alaskan-Native, and 13% as multicultural/other. A 2015 community assessment indicated many older adults would like to improve their nutrition knowledge and behavior, and need additional support for food security. Forty nine percent (49%) of the meal site participants are at high nutritional risk as measured by the *Determine Your Nutritional Health* checklist (23). CCDSD will also coordinate with AIS to provide nutrition education to CCDSD and other SNAP-Ed eligible older adult residential sites.

- ***Homeless Individuals and Migrant Workers:*** San Diego County has the 4th largest homeless population in the nation, with approximately 8,742 homeless individuals (24). CCDSD will also provide SNAP-Ed nutrition education services to homeless individuals and migrant workers in the following settings:
  - La Posada Men's Shelter to reach up to 50 migrant workers and 50 homeless men.
  - The Leah Residence, which is affordable housing for up to 30 previously homeless women and those with special needs.

- ***Refugees:*** The California State Refugee Programs Bureau arrival information report indicates that between October 2007 and September 2012, San Diego County resettled 15,158 newly arriving refugees; 11,837 of these are CalFresh recipients. Thirty-six percent (36%) are children and teens between the ages of 0 and 17, 55% are adults between 18 and 50, and 9% are adults ages 51 and over. The majority (77%) are from the Middle East, primarily Iraq. The languages spoken by the refugees reflect their countries of origin with 78% speaking Arabic in the home and 3% speaking Somali.

In FFY 2017-2019, refugee populations located in the Central and East Regions of San Diego County, where the vast majority of eligible refugee families reside, will continue to receive direct and indirect education from CCDSD and PHS. CCDSD facilitates the transition for refugee clients through an integrated provision of services, including resettlement, employment, acculturation, case management, and health. Refugees will also be recruited to participate in Healthy Cities/Healthy Residents projects to improve environmental supports to increase access to healthy food and active living opportunities.

4. COMMUNITY ASSESSMENT

The County of San Diego SNAP-Ed Local Implementing Agencies (LIAs) utilized a comprehensive set of assessment measures to inform development of the work plan. The assessment included an analysis of the following types of data and information: demographic; health; community and environmental settings, including municipal policy gaps and opportunities; sectors of influence; and social and cultural norms and values. This comprehensive approach enabled the LIAs to identify the populations and areas of highest need and to develop a coordinated set of interventions that address all levels of the Social-Ecological Model (SEM) and can help provide long-term benefits to the SNAP-Ed eligible population.

Demographics

Jurisdiction demographic data were derived from the SNAP-Ed County Profile prepared by CDPH. Included in the profile are county-level data from the American Communities Survey (ACS) five-year estimates, the Department of Social Services Annual Trends, the California Health Interview Survey (CHIS), and Feeding America's Map the Meal Gap. CCDSD and AIS provided demographics for each of their targeted groups. Data from all these sources were used to assess existing SNAP-Ed sites; identify gaps and potential additional groups and sites; identify nutrition education activities and PSE change strategies; and identify mechanisms to coordinate, leverage, and layer intervention activities of the LIAs and other community partners.

Health

Data from the SNAP-Ed County Profile were used to identify obesity prevalence, health behaviors, and health disparities within the SNAP-Ed eligible population, informing the identification of target audiences for nutrition education and obesity prevention strategies. Data from CHIS provided additional information to supplement the SNAP-Ed County Profiles and further refine the intervention strategies outlined in Section A: Jurisdiction Description.

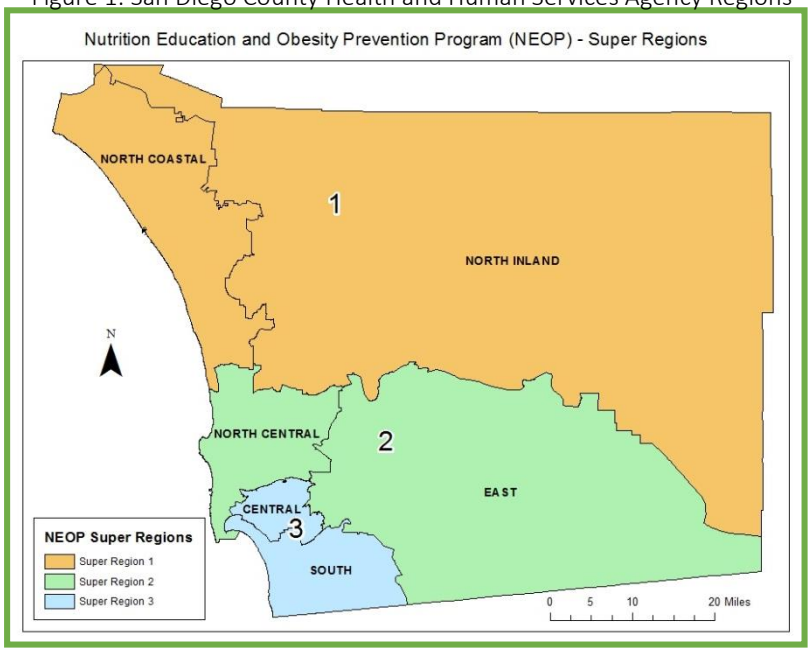
Community and Environmental Settings

Information on eligible census tracts, schools, and the nutrition and physical activity environment came from the SNAP-Ed County Profile; the United States Department of Agriculture (USDA) Food Environment Atlas; the County of San Diego Department of Agriculture, Weights, and Measures; the State of Farm to School in San Diego County report; the Healthy Food in Every Neighborhood/A Policy Scan of Jurisdictions in San Diego County report; and the 2015 Circulate San Diego Regional Walk Scorecard report. To inform the worksite interventions, data from CHIS were used to determine the proportion of working adults in San Diego County that are SNAP-Ed eligible and those that are participating in CalFresh, as well as information about obesity prevalence and healthy behaviors among workers. To inform the faith-based interventions, information from the Association of Religion Data Archives County Membership Report was used to describe congregations and adherents in the county.

The County of San Diego HHSA's *Live Well San Diego* Community Health Assessment (CHA) informed development of the work plan. The CHA was conducted in 2012 as part of the County's public health accreditation community engagement process to identify and prioritize public health issues and to develop a Community Health Improvement Plan (CHIP) to address priority issues. CHA data aided in identifying goals, strategies, and measurable objectives to address community health and safety needs for different communities. CHIP goals reflected in the work plan include implementing PSE changes such as improving active transportation/active living options, corner store conversions, worksite wellness policies, and farm to school programs.

The LIAs developed and reviewed GIS maps of San Diego County showing demographic factors overlaid with locations of FFY 2015 SNAP-Ed programs and services. The maps helped inform the LIAs about what underserved areas to target in FFY 2017-2019 and where the programs can coordinate to ensure locations are being targeted at each level of the SEM.

Figure 1: San Diego County Health and Human Services Agency Regions



Municipal Policy Gaps and Opportunities

PHS utilized two key sources of information to assess the status of local jurisdictions' policy gaps and opportunities for improving access to healthy food and active transportation/active living. These included the *Healthy Food in Every Neighborhood: A Policy Scan of Jurisdictions in San Diego County* report, developed by ChangeLab Solutions, and the *2015 San Diego Regional Walk Scorecard,* developed by Circulate San Diego. These analyses pointed to the need to place a greater programmatic focus for FFY 2017-2019 on policy changes at the jurisdiction level that benefit low-income communities and work to eliminate health disparities. As such, PHS will implement new Healthy Cities/Healthy Residents projects in each of HHSA's Super Regions. A map of the how the six HHSA regions are organized into three Super Regions is located in Figure 1.

School Environment and Policy

Assessment of the status of current school wellness policies in San Diego County pointed to the need to take a higher level policy approach to ensuring schools adopt and implement wellness policies and provide healthy food and physical activity environments for children. Therefore, PHS will work with four school districts, assisting them to allocate funding in their new Local Control and Accountability Plans (LCAPs) to support wellness priorities (e.g., increase resources for physical activity, improve access to drinking water, improvements to the cafeteria environment). Selection of the four school districts was based on a combination of factors, including SNAP-Ed eligibility of schools, readiness and interest on the part of the district, and WellSAT scores.

Retail Environment

Retail survey data collected as part of CDPH's second round of data collection for the Healthy Stores for a Healthy Community Campaign in 2016 will be used to identify opportunities to collaborate with tobacco control and alcohol and drug efforts in SNAP-Ed Healthy Retail interventions. This will inform locations to target for store conversions and designation under the new *Live Well San Diego* Healthy Retail Recognition program.

Healthy Cities/Healthy Residents will consist of community-driven projects that advance city-level policies and neighborhood environmental improvements to increase residents' access to healthy food and active transportation/active living. The three locations identified for the projects will be in the cities of Vista, El Cajon, and National City. These locations were selected based on income eligibility of the population, policy gaps and opportunities identified in the policy analyses reports, considerations of city and community readiness, presence of an existing and highly functioning CX3 and/or Resident Leadership Academy graduates, presence of strong community-based organization, and regional priorities. The San Diego Regional Walk Scorecard and local assessments to be conducted by residents will inform identification of priority environmental improvements to implement (e.g., bike/walk infrastructure, community gardens, retail conversions).

Sectors that Influence Nutrition and Physical Activity

Information on sectors related to nutrition and physical activity was gathered from various sources, including the County of San Diego Department of Agriculture, Weights, and Measures for the number of farms in the county, and SANDAG's Climate Action Strategy for the potential disproportionate effects of climate change on the SNAP-Ed eligible population.

CCDSD conducted needs assessments in both its FRCs and older adult residential locations. The needs assessment identified food security as the number one issue, followed by access to healthy foods and meal planning strategies. In the Senior Residential program, residents identified chronic heart disease as their main concern and expressed the desire to learn to eat for a healthy heart and to increase physical activity.

In 2015, AIS conducted a survey of over 1,300 Senior Nutrition Program participants to understand their views of the program and their perception of the services they receive. Participants reported attending the meal sites for a variety of reasons, including balanced nutrition (60%) and nutrition education (28%). Also, 30% of respondents indicated needing additional resources to help with their food needs. These issues will be addressed in the FFY 2017-2019 AIS SNAP-Ed interventions.

Social and Cultural Norms and Values

Public opinion information was also considered in developing SNAP-Ed activities within the county. Findings from the Obesity and Diabetes Prevention Survey conducted in 2013 by The California Endowment were used to support SNAP-Ed activities to promote healthy food and beverage standards in community settings, and to increase the availability and visibility of healthy foods and beverages in retail stores. Key results showed that 70% of the California voters strongly favored providing incentives and enacting policies to attract more farmers markets and produce stands to sell fresh fruits and vegetables in low-income neighborhoods. Similarly, 62% strongly favored providing incentives and enacting policies to attract more supermarkets to sell fresh fruits and vegetables in low-income neighborhoods.

5. COMMUNITY CHANGE GOALS

Led by the County of San Diego, *Live Well San Diego* is a countywide, long-term vision to promote healthy, safe, and thriving communities. Under *Live Well San Diego,* all County departments work together with the community – engaging partners in every sector – to achieve a shared vision and collective impact. *Live Well San Diego* encompasses three components: Building Better Health, Living Safely, and Thriving. It utilizes ten indicators, including community involvement, built environment, and life expectancy, that allow the County to measure progress in achieving *Live Well San Diego's* goal of improving the well-being of the entire San Diego Region. To date, about 150 organizations countywide*,* including businesses, local and regional governments, schools, and faith-based and community organizations, have become recognized *Live Well San Diego* partners and have committed to working collectively toward this goal.

In 2012, HHSA conducted a comprehensive, countywide community planning through the *Live Well San Diego* CHA. Priority health issues identified by the CHA include chronic disease prevention (active living, healthy eating, and tobacco control), quality healthcare systems, and behavioral health and substance abuse. These priorities are embedded in the Building Better Health strategies of *Live Well San Diego*:

1. Building a Better Service Delivery System
    - Increase access to quality health care, including preventive health care and behavioral health services
2. Supporting Positive Choices
    - Increase consumption of healthy food
    - Increase rates of physical activity/active living
    - Decrease tobacco and substance abuse
3. Pursuing Policy Change
    - Increase access to healthy food
    - Increase opportunities for physical activity/active living
    - Improve safety through built environment
    - Decrease substance abuse
    - Improve community safety and decrease violence

The SNAP-Ed program in San Diego, including the integrated efforts of all three LIAs, supports the *Live Well San Diego* vision and strategies, and contributes to its collective impact. However, the assessment of issues and opportunities for San Diego's FFY 2017-2019 SNAP-Ed planning looked more specifically at data related to nutrition, obesity, and the food and active living environment and related policies. As such, San Diego's SNAP-Ed efforts are focused more specifically on two *Live Well San Diego* Building Better Health strategies: 1) Supporting Positive Choices and 2) Pursuing Policy Changes for a Healthy Environment.

San Diego's NEOP efforts also support and align with community change goals of the San Diego County Childhood Obesity Initiative (COI), a private-public partnership and countywide coalition with the mission of reducing and preventing childhood obesity through policy, systems, and environmental change. These include goals to: 1) increase access to healthful foods and beverages in a culturally appropriate manner; 2) increase opportunities for safe physical activity in an inclusive and culturally appropriate manner; and 3) create and improve social, economic, service, and built environments that support healthy eating and active living.

San Diego's LIAs are committed to advancing high-impact and sustainable PSE solutions to change the upstream, systemic conditions that contribute to obesity in the county. Toward that end, the LIAs will target four critical settings – LIVE, LEARN, SHOP, and WORK – to the following local objectives for FFY 2017-2019. These will contribute to the countywide collective impact and community change goals of *Live Well San Diego* and the San Diego County Childhood Obesity Initiative.

LIVE

1. By September 30, 2019, implement up to 20 PSE changes in a variety of community settings to increase access and availability of healthy food and beverages and opportunities for active living in daily life, reaching 26,460 SNAP-Ed eligible individuals.
2. By September 30, 2019, three cities in San Diego County will advance one municipal healthy food systems policy; one municipal active transportation/active living policy; and one community environmental change that supports access to healthy food and/or active transportation/active living, utilizing the Healthy Cities/Healthy Residents community engagement process, reaching 150,000 SNAP-Ed eligible residents.

LEARN

1. By September 30, 2019, 24 child care providers will participate in the healthy child care designation program by developing and implementing wellness policies and procedures that follow best practices related to healthy food and beverages and access to physical activity in settings where 0-5 year olds learn, and 3 school districts in San Diego County will incorporate preschool – specific language into their district wellness policies, reaching 1,600 SNAP-Ed eligible individuals.
2. By September 30, 2019, 15 schools will adopt PSE changes that improve the food and physical activity environments where students in grades K-12 learn, and 3 school districts in San Diego County will allocate funding in their Local Control and Accountability Plans (LCAPs) to implement components of their wellness policies that address access to healthy food and beverages and/or opportunities for physical activity, reaching 26,000 SNAP-Ed eligible individuals.

SHOP

1. By September 30, 2019, 15 small- to medium-sized retailers will participate in the *Live Well* Community Market Recognition Program to increase access to healthy food and beverages in settings where people shop, and 2 municipalities in San Diego County will adopt a municipal or systems change to improve healthy retail options, reaching 106,000 SNAP-Ed eligible individuals.

WORK

1. By September 30, 2019, adopt and implement 13 wellness PSEs in worksites through the Live Well @ Work program and enroll 7 of the 13 worksites in the Live Well @ Work designation program to increase access to healthy food and beverages and opportunities for active living in settings where people work, reaching 3,500 SNAP-Ed eligible individuals.

Specific PSE strategies to be implemented by San Diego's LIAs to achieve these objectives include:

1. Early Childhood
2. School Wellness
3. Farm to Fork/Local Procurement
4. Joint-Use
5. Healthy Corner Stores
6. Structured Physical Activity
7. School and Community Gardens
8. Worksite Wellness
9. Safe Routes to Healthy Places
10. Healthy Food and Beverage Standards

San Diego's LIAs will work together to achieve the six local objectives listed above – each working within its population reach and area of expertise. San Diego's LIAs will focus these efforts on the SNAP-Ed eligible portion of the county's population and on SNAP-Ed allowable interventions and activities that align with the USDA-Western Regional Office (WRO) Evaluation Framework. All LIAs will provide nutrition and physical activity education, as well as pursue complementary efforts to support policy, systems, and environmental changes. Information on how each local objective relates to the state objectives is below. Detail on activities for each objective are in Section A9: Intervention and Evaluation Plan Narrative Summary and Section C: Intervention Plan.

6. PARTNERSHIPS AND COLLABORATIVE EFFORTS [COUNTY NUTRITION ACTION PLAN (CNAP) PARTNERS OR COMPARABLE]

San Diego's County Nutrition Action Partnership (CNAP), made up of public health professionals and community stakeholders, seeks to reduce obesity, health disparities, and food insecurity within San Diego's low-income communities by collaborating on upstream policy and systems changes and coordinating nutrition and physical activity education and activities. San Diego's CNAP meets a minimum of four times per year. All SNAP-Ed LIAs will participate in the CNAP in FFY 2017-2019, along with other USDA Food and Nutrition Service-funded programs and community organizations, including:

- Expanded Food and Nutrition Education Program (administered by the University of California Cooperative Extension) to coordinate nutrition education.
- Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) to coordinate messages and references to the programs.
- Feeding America San Diego and San Diego Food Bank to leverage CalFresh Outreach and provide nutrition education classes at food distribution events.

- Senior, school, and summer meals programs to cross-promote Harvest of the Month (HOTM) featured produce.
- Eat Fresh (eatfresh.org – a nutrition education web-based tool) is being utilized by funded and non-funded partners, such as County libraries, to improve computer literacy and to provide nutrition education.

In FFY 2015, CNAP went through a strategic planning process and decided to focus on implementing Farm to Fork (F2F)/HOTM strategies in various settings. In the beginning of FFY 2017, CNAP will assess its effectiveness in advancing this work, specifically looking at its ability to foster members' comprehensive knowledge of the food system, improve members' ability to systematically increase local procurement in their respective intervention setting, and support mutually reinforcing strategies that increase the availability of locally grown products available to SNAP-Ed populations.

Based on results of the assessment and partner interest, CNAP partners were integrated into existing workgroups of the Food System Alliance and other existing farm to institution groups. The partners will continue F2F/HOTM efforts as one of several strategies to support mutually reinforcing activities and shared messaging across federal nutrition programs to reduce food insecurity and increase access to healthy food.

In addition to CNAP, PHS coordinates with a much broader and diverse network of community partners and coalitions to accomplish SNAP-Ed objectives and to leverage collective impact in advancing community change goals. Several SNAP-Ed objectives are advanced through active involvement and support of the San Diego County Childhood Obesity Initiative (COI). The numerous partners of the COI work together to increase healthy eating and physical activity opportunities across several domains, including early childhood institutions, school districts and after-school programs, local governments, healthcare, business, community, and media. PHS and key contracted partners are in leadership roles on the Leadership Council, Government Domain, and the Schools and After-school Domain working groups, providing a forum for moving NEOP objectives forward and linking them to broader objectives. California Thursdays is a project of the Farm to School Taskforce, which is a workgroup of the COI Schools and After-school Domain. NEOP staff leverage the partnerships created within the F2S Taskforce and schools that participate in California Thursdays by providing additional (NEOP-approved) resources, including nutrition education, wellness policy consultation, and Smarter Lunchrooms Movement technical assistance.

PHS' food systems objectives are advanced through collaboration with the San Diego Food System Task Force, and by increasing the level of support and involvement in the San Diego County Food System Alliance (FSA). The goal of the FSA is to develop and maintain an equitable, healthy, and sustainable food system for the benefit of all people in San Diego County. It includes representatives from organizations at all levels of the local food system, including community; environment; food production, processing, and distribution; education and research; food security; and public health. Composed of four working groups – Healthy Food Access, Food Recovery, Reducing Barriers to Farming, and Urban Agriculture – FSA is a key collaborative partner that will enable PHS to advance broader objectives related to ensuring SNAP-Ed residents have access to healthy, affordable, and culturally appropriate food at all times; informing policies that address the recovery of food resources for consumption, livestock feed, energy, and compost; increasing the amount of produce available to SNAP-Ed eligible individuals; developing an equitable growing environment in San Diego; and supporting beginning farmers and addressing barriers to entry, hence expanding workforce opportunities.

Other significant partners and coalitions, that aid PHS in achieving SNAP-Ed objectives, include the San Diego County First 5 Commission, San Diego Association of Governments (SANDAG), Circulate San Diego, San Diego County Safe Routes to School Coalition and North County Safe Routes to School Coalition, Complete Streets Task Force, Farm to School Task Force, and San Diego Vision Zero Initiative, which is a strategy in the City of San Diego to reach zero traffic deaths by 2025.

CCDSD will continue to expand its reach of partners, including the San Diego Food Bank, Feeding America San Diego, the Hunger Advocacy Network, the CalFresh Task Force, Produce Good, and Harvest Crops, to partner on projects that increase access to healthy food at emergency food locations.

In addition to CNAP, SNAP-Ed PSE initiatives will be shared with several coalitions that focus on issues facing older adults. For instance, the Aging & Independence Services (AIS) Health Promotion unit coordinates with the AIS Health Promotion community committee, which includes older adults and service providers. AIS will host an Aging Summit for approximately 2,000 older adults and service providers in the spring of 2016. The focus of the summit will be on "*Age Friendly Communities,"* and there will be several Action Teams that continue to work on these issues after the Summit. One of the Action Teams will focus on Transportation. AIS SNAP-Ed staff will present to these committees and collaborate with them to assist in the advancement of the PSE goals of AIS.

In addition to participation on CNAP and other important coalitions, the San Diego LIAs meet quarterly to collaborate on sites and to coordinate on layering of each group's interventions in order to ensure that SNAP-Ed residents are reached by multiple interventions in multiple settings. Additionally, LIAs will promote SNAP-Ed services and activities by connecting with other agencies, such as County Welfare Departments.

Through these coordinated, complementary efforts, the FFY 2017-2019 SNAP-Ed program in the County of San Diego will effectively provide nutrition education and obesity prevention services to the SNAP-Ed eligible population and will advance policy, systems, and environmental changes that create healthier environments for these residents.

7. KEY MESSAGES

☒ Food Safety	☒ Physical Activity	☒ Fiber-Rich Foods
☒ Whole Grains	☒ My Plate-Healthy Eating Plan	☒ Fat-Free & Low-fat Milk or Equivalent (& Alt. Calcium Sources)
☒ Fruits & Vegetables	☒ Limit Added Sugars or Caloric Sweeteners	☒ Other *(specify)*: Healthy Beverages
☒ Fats and Oils	☒ Food Shopping/ Preparation	
☒ Lean Meat & Beans		
☒ Sodium & Potassium		
☒ Promote Healthy Weight		

8. EDUCATIONAL MATERIALS, RESOURCES AND CURRICULUM

All educational materials, resources, and curriculum will be approved through the USDA SNAP-Ed Connection website (https://snaped.fns.usda.gov/), and/or FFY 2017-2019 USDA-approved California Department of Aging, Catholic Charities of California, or the California Department of Public Health - Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials list.

The County of San Diego considered target populations – especially those most underserved – and venue settings when choosing the best curricula and materials to include in the Integrated Work Plan. San Diego LIAs also projected need based on its SNAP-Ed annual and three-year objectives. The focus areas are varied, and include preschools, schools at all grade levels, afterschool programs, faith-based organizations, worksites, retail establishments, and older adults. Some of the factors that contributed to the section of the curricula and materials included the level of engaging activities and the availability of materials in languages other than English.

9. INTERVENTION AND EVALUATION PLAN NARRATIVE SUMMARY

In San Diego County, SNAP-Ed funds from three state implementing agencies will support three local SNAP-Ed programs in Federal Fiscal Years 2017-2019 to implement SNAP-Ed goals and objectives. The California Department of Aging's program is locally administered by the County of San Diego HHSA, Aging & Independence Services (AIS). The Catholic Charities of California SNAP-Ed program is locally administered by Catholic Charities Diocese of San Diego (CCDSD). Lastly, the California Department of Public Health's (CDPH) Nutrition Education and Obesity Prevention Branch's program is administered by the County of San Diego HHSA's Division of Public Health Services (PHS). The Local Implementing Agencies (LIAs) in San Diego County – AIS, CCDSD, and PHS – will collaborate to implement upstream public health approaches to obesity prevention integrated with targeted nutrition and physical activity education for SNAP-Ed eligible individuals throughout the county. The LIAs' collective efforts, working in partnership with other nutrition, public health, and non-traditional stakeholders, will address California's state-level objectives, as indicated in Table 1 below.

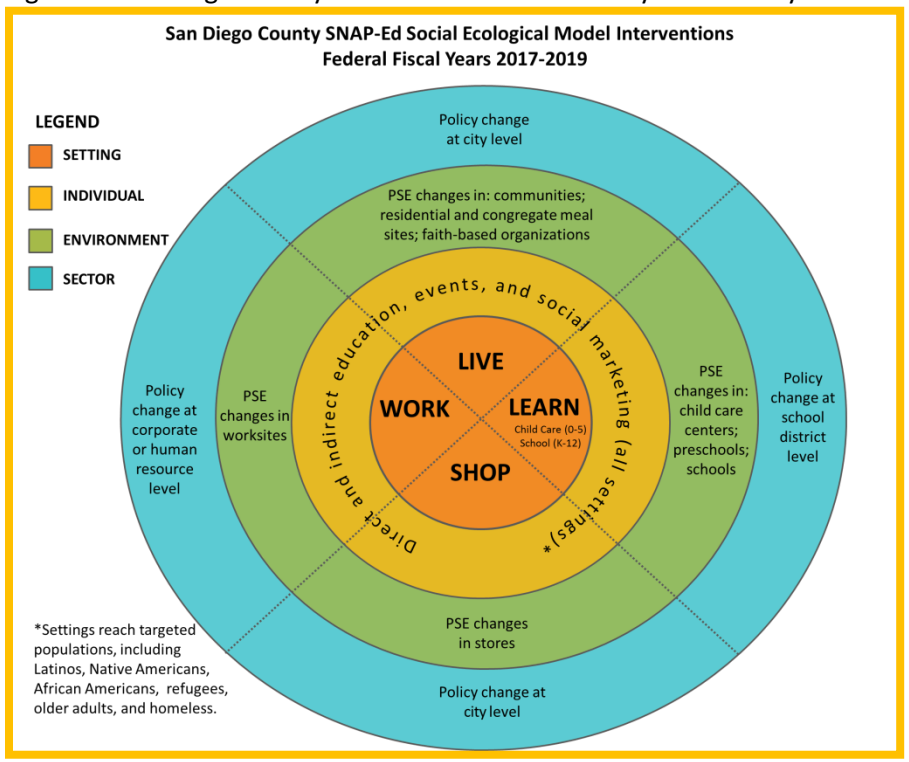
Table 1: State Level SNAP-Ed Goals and Objectives in Relation to San Diego Objectives

State Level Goal	State Level Objectives	Local Level Objectives
Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages	**1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*. **1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population. **1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.	LIVE 1; LIVE 2; LEARN A; LEARN B; SHOP; WORK
Goal 2: Increase Physical Activity	**2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.	LIVE 1; LIVE 2; LEARN A; LEARN B; WORK
Goal 3: Improve Food Resource Management	**3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population. **3b:** Annually increase food security [2] among the SNAP-Ed eligible population.	LIVE 1; LIVE 2; SHOP; WORK
Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.	**4a:** Annually improve [4] food environments at SNAP-Ed eligible sites. **4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.	LIVE 1; LIVE 2; LEARN A; LEARN B; SHOP; WORK
Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.	**5a:** Annually improve [4] environments and opportunities for physical activity at SNAP-Ed eligible sites **5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.	LIVE 1; LIVE 2; LEARN A; LEARN B; WORK

All LIAs will employ evidence- and practice-based interventions. The objectives and activities for the Intervention Plan are derived from each agency's community assessment results. All three of the LIAs collaborated and coordinated to create an Integrated Work Plan that complements the experience and expertise of each LIA. The objectives will be accomplished through activities that advance policy, systems, and environmental changes in various settings and levels within communities, and the objectives are layered with comprehensive behavior-focused nutrition and physical activity education and media and public relations.

The LIAs' activities will address all levels of the Social Ecological Model (SEM) to improve the likelihood that the SNAP-Ed eligible population will increase healthy behaviors. Interventions are layered to provide support at individual and environmental levels as well as address multiple sectors of influence and social and cultural norms. The LIAs will collectively work in settings where people live, learn, shop, and work to implement nutrition and obesity prevention interventions that reach the individual, environmental, and sector levels of the SEM, as noted in Figure 2.

Figure 2: San Diego County SNAP-Ed Nutrition and Physical Activity Intervention Strategies



Coordination and Collaboration among the LIAs

The LIAs will coordinate intervention sites and collaborate on activities to ensure their programs complement rather than duplicate each other. For example, in the cities with Healthy Cities/Healthy Residents projects, PHS will engage older adults that receive direct education from AIS to participate in the resident coalitions and work with cities on PSE changes. CCDSD will receive technical assistance from PHS to design and implement a project that decreases active transportation barriers that CCDSD clients experience as revealed by the FFY 2016 needs assessment. CCDSD will also coordinate with AIS to identify and

provide nutrition education at SNAP-Ed eligible older adult residential sites and to design a donated food policy template. Finally, the LIAs will collaborate as part of the County Nutrition Action Partnership (CNAP) to advance local food systems objectives and state SNAP-Ed goals.

FFY 2017–2019 Intervention Strategies

Aging & Independence Services

AIS is the federally designated Area Agency on Aging (AAA) serving the entire county. A 2015 community assessment indicates that many older adults would like to improve their nutrition knowledge and behavior, and need additional support for food security. AIS will conduct three major interventions designed to improve healthy eating and physical activity among older adults, with support from the subcontractor Full Spectrum Nutrition Services (FSNS).

- ***Nutrition Education:*** Direct education intervention will use CDA/USDA-approved curriculum at three SNAP-Ed eligible sites that serve older adults in each of the three years, for a total of nine cohorts. FFY 2017 sites will be located in the Healthy Cities/Healthy Residents communities. The FFY 2018 and FFY 2019 sites will be located at the remaining SNAP-Ed eligible locations within the County. AIS will administer one of the curriculum programs one to two times at each center to reach 50 older adults each year. One of the curricula that will be used is *Eat Smart, Live Strong* (ESLS), which is a four-week program that focuses on two key behaviors: eating at least three and a half cups of fruits and vegetables every day and participating in at least 30 minutes of physical activity most days of the week. FSNS, will coordinate the placement of HOTM informational placards for table displays at 10 SNAP-Ed eligible congregate meal sites.

- ***Evaluation:*** Matched pre- and post- surveys will be completed with at least 25 seniors attending the direct education interventions held at AIS senior meal sites.

- ***Organizational and Municipal PSE/Community Engagement Strategies:*** In FFY 2017-2019, AIS will work with the seniors and staff at each of the selected SNAP-Ed eligible sites to build support for PSE changes within those organizations through training and technical assistance and coordination with other partners. AIS staff will provide at least one PSE educational session for seniors at three or more interested SNAP-Ed eligible sites focusing on organizational policies that the site could implement, such as food donation policies, local procurement, and HOTM menus; introduce and/or re-introduce PSE concepts; and introduce the collaborative work with the Healthy Cities/Healthy Resident teams. In each of the three years, AIS staff will serve as a point of contact with the Healthy Cities/Healthy Residents teams for the older adults at these sites. Older adults from each site will be engaged to participate in the food systems or active transportation trainings that will be led by PHS for the Healthy Cities/Healthy Residents project. AIS staff will also coordinate and collaborate with relevant AIS community committees that are working on PSE strategies, such as the Age Friendly Communities initiative's "Action Team" on transportation, and the AIS Health Promotion Community Committee.

Catholic Charities Diocese of San Diego

CCDSD will provide nutrition education at Food Resource Centers (FRCs), older adult residential sites, refugee acculturation centers, and homeless shelters/centers in San Diego County. Based on CCDSD's needs assessment in both the FRCs and older adult residential sites, food security was identified as the number one issue, followed by access to healthy foods and meal planning strategies. Older adults identified chronic heart disease as their main concern and expressed the desire to learn to eat for a healthy heart and increase physical activity. The following activities address these priorities:

- ***Nutrition Education:*** CCDSD will provide direct education at all sites and indirect at selected locations. The FRC programs will provide nutrition education sessions with clients about healthy eating and drinking, and increasing physical activity.

- ***Evaluation:*** Evaluation of CCDSD's activities will include a pre/post survey for the refugee populations participating in the one-time, two-hour nutrition and physical activity workshop.

- ***PSE Change Implementation and Development:*** In FFY 2017-2019, CCDSD will collaborate with AIS to develop policies for donated foods and healthy meals and beverages to be used as a guideline by organizations that receive donated food items, and prepare or serve meals. CCDSD will also work in collaboration with The Hunger Advocacy Network and Mazon to identify ways to improve the nutritional quality of government-funded food programs such as The Emergency Food Assistance Program (TEFAP) and the Emergency Food and Shelter Program (EFSP). Other PSEs that CCDSD will implement include increasing the amount of local produce distributed at FRCs; and possibly establishing community gardens at senior residential and/or shelter sites.

- ***Active Transportation Planning:*** CCDSD will collaborate with PHS and AIS to use the information gathered in FY 2016 to implement changes that will increase active transportation among older adults.

Public Health Services

PHS will implement a comprehensive set of nutrition education and obesity prevention efforts targeting eligible SNAP-Ed residents in San Diego County. These activities address needs and priorities identified through the community assessment and help to achieve the federal SNAP-Ed goals and objectives. PHS will focus activities on SNAP-Ed eligible populations that experience health disparities, including Hispanic/Latino, African American, American Indian/Alaskan Native, and refugee communities. Interventions will be layered by setting and geography, increasing the number and amount of time people are exposed to interventions over the three years.

PHS will utilize an extended collaboration network to coordinate these efforts and to increase collective impact. This includes leading the CNAP, supporting the San Diego Food System Alliance (FSA), leading key domain workgroups of the San Diego County Childhood Obesity Initiative, and collaborating with the City of San Diego Vision Zero initiative. These efforts will occur under the umbrella of *Live Well San Diego*, the County's long-term vision to create healthy, safe, and thriving communities. PHS's efforts will be led through the Chronic Disease and Health Equity Unit, a part of PHS's Maternal, Child, and Family Health Services Branch. As such, the services provided will complement other chronic disease and health equity initiatives, as well as maternal, child, and family health

initiatives being implemented in the county. Where possible and appropriate, PHS will leverage complementary efforts being implemented through its other major initiatives, including its 1422 grant, funded by the Centers for Disease Control and Prevention, and locally called *Healthy Works: Prevention Initiative*.

- ***Individual and Group-Based Nutrition Education and Health Promotion Strategies:*** Annually, PHS will provide nutrition education and promote physical activity to SNAP-Ed eligible individuals using NEOPB-approved curricula within settings where people live, learn, shop, and work. Education will include direct nutrition education classes and series of classes, indirect nutrition education, media messaging, and education at community events. Based on results from the community assessment, PHS will increasingly align the locations of nutrition and physical activity education activities with the locations and communities where PSEs are being pursued. PHS will provide train-the-trainer sessions annually to promotore(a)s that work with Latino residents and an American Indian/Alaskan Native peer educator who will distribute healthy eating and physical activity messages within their own communities. Child care providers and teachers will also participate in annual train-the-trainer sessions to teach nutrition education in their respective settings and expand the reach of nutrition education programming.

- ***Comprehensive, Multi-level Interventions and Community and Public Health Approaches to Improve Nutrition and Physical Activity***: Complementing the education and promotional activities, PHS and its contracted partners will implement comprehensive, multi-level, and evidence-based interventions targeting the places where SNAP-Ed residents LIVE, LEARN, SHOP, and WORK. All interventions will utilize USDA-approved strategies.

  LIVE: Activities and objectives within the LIVE setting include four key strategies to increase healthy food access and active transportation/active living opportunities, including advancing PSE strategies in and around faith-based organizations, exploring agricultural microenterprise models, improving food systems, and adopting local jurisdiction planning policies and practice. The proposed LIVE interventions address key issues and needs identified through the community assessment, including gaps in local jurisdictions' policies related to healthy food and active transportation/active living and the need to have more robust leadership within community-based organizations to engage and support residents in PSE changes with their cities.
  - Faith-Centered Work: PHS, through a contracted partner, will augment the amount of community engagement occurring in the county by recruiting residents and faith leaders from Latino and Muslim communities to design and implement PSE changes within faith-based organizations and within their communities at large. The primary audience in mosques settings is Muslim refugees. San Diego is one of the largest resettlement communities for refugees in the county. The majority of the refugees that are arriving in San Diego are from the Middle East and many are Muslim. Faith-based interventions will only occur in SNAP-Ed eligible locations and they will be prioritized based on need.
  - Agricultural Microenterprise: PHS will build upon the agricultural microenterprise and self-sufficiency efforts of FFY 2015 and 2016 to increase employment and job placement opportunities for SNAP-Ed eligible populations in low-income communities. Activities may include training in food resource management and business development through culinary arts or other related enterprises. The project will support SNAP-Ed eligible populations to engage in agricultural microenterprise to make healthy food available in neighborhood retail stores, restaurants, and schools. This will increase access to healthy, affordable food in areas where food access is limited, while increasing self-sufficiency of participants.
  - Food Systems: PHS will support the San Diego Food System Alliance (FSA) to advance broad-level food system policies and changes in San Diego County. PHS, through its contracted partner and through direct participation, will support strategic planning, facilitation, and

coordination of FSA workgroups that relate to NEOP objectives such as food access, food recovery, and urban agriculture. In partnership with FSA, PHS will implement two policies related to food systems over the three-year timeframe, which may include further adoption by local jurisdictions of Urban Agriculture Incentive Zones, made possible by state law AB 551.

- Healthy Cities/Healthy Residents Projects: PHS will partner with three contracted CBOs to implement community-driven projects that advance city-level policies and neighborhood environmental improvements to increase SNAP-Ed eligible residents' access to healthy food and active transportation/active living and promote vibrant and healthy neighborhoods. This will build upon successes and community engagement experience gained in FFY 2015 and FFY 2016 from the Community Agriculture Planning Project, San Marcos Safe Routes to School (SRTS) project, and the City of El Cajon Active Transportation project. The first project resulted in the adoption of AB 551 Urban Agriculture Incentive Zones in the City of San Diego and County of San Diego.
  The Healthy Cities/Healthy Residents projects are in the cities of Vista, El Cajon, and National City). Assisted by PHS contracted technical experts, each CBO will recruit and train resident coalitions on PSE strategies for healthy food systems and active transportation/active living. They will also receive technical assistance and support in improving their organizational capacity to engage in public policy change, including working with their city to adopt municipal policies or plans that support healthy food systems and active transportation/active living.

LEARN A (ages 0-5): Activities and objectives in the early child care LEARN setting will focus on increasing access to healthy food and opportunities for physical activity in the 0-5 population at family and center-based child care sites and within preschools. Through a contracted partner, PHS will train child care providers and preschool teachers on best practices and provide technical assistance in becoming Child Care Champions by creating or improving their wellness policies and making other PSE changes to improve the food and physical activity environments of their sites. PHS will also work with three school districts to incorporate preschool-specific language into their district wellness policies. PHS will train stakeholders, such as school district wellness leads and committees, preschool teachers and administrators, and parents, on how to incorporate preschool-specific language into school district wellness policies and include preschools in district wellness efforts. PHS will also provide sample policy language to the stakeholders and provide opportunities for local school districts that accomplish this change to share their experiences with peers.

LEARN B (Grades K-12): Activities and objectives in the school LEARN setting will focus on increasing access to healthy food and opportunities for physical activity. PHS and a contracted partner will improve school environments by educating and engaging students and parents on PSE opportunities at their schools. Extensive technical assistance will be provided to the groups as they advance a variety of approaches, which may include: creating parent, staff and/or student committees; working directly with staff and/or existing parent or student groups to focus on improvements to the school cafeteria through Smarter Lunchrooms Movement strategies; developing healthy celebrations and/or healthy fundraising policies; conducting walkability and bikeability assessments and implementing Safe Routes to School programs; and promoting farm to fork through Harvest of the Month activities. As part of LEARN, PHS will also target a broader, district-level PSE change that will enable districts to implement components of their wellness policies by allocating funding within their Local Control and Accountability Plans (LCAPs). For example, districts could allocate funds through their LCAPs to hire physical education teachers or wellness coordinators, install hydration stations, install bike racks, or make improvements to the cafeteria environment. To accomplish this, PHS will provide training and technical assistance to parents, students, and district staff and will collaborate and coordinate with the broader *Live Well San Diego* school efforts to leverage their engagement with school superintendents.

SHOP: Activities and objectives in the SHOP setting will focus on increasing access to healthy food and opportunities for physical activity in and around food retail environments. PHS will coordinate with the FSA Healthy Food Access Working Group, the Healthy Retail Working Group, and NEOPB to develop, approve, and implement the *Live Well* Community Market Recognition Program throughout San Diego County. The program will increase retailers' capacity to provide healthier food retail environments through training and technical assistance on topics, such as pricing strategies; produce stocking, storage, and handling; façade improvements; marketing and merchandising of healthy beverages and snacks; community engagement; media relations and opportunities; and resources related to tobacco, alcohol, and environmental health compliance. Additionally, PHS and contracted partners will design and coordinate a peer-to-peer training for market owners who are interested in pursuing healthy business strategies, such as obtaining microloans, securing local produce procurement, creating a prepared foods section, bringing partners to review alcohol and tobacco ordinances, and installing storefront improvements (e.g., bike racks). PHS will collaborate with partners such as the FSA Healthy Food Access and Food Recovery Working Groups to explore economic opportunities for a small network of local product distribution to retail stores. Lastly, PHS will work with pre-identified jurisdictions throughout San Diego County to develop, adopt, and implement city-level policies or systems changes that positively impact the retail environment in SNAP-Ed eligible communities. The goal of the partnership is to implement municipal plans that support healthy retail through economic development/incentives, zoning ordinances, licensing ordinances, and other policy or systems changes.

WORK: Activities and objectives in the WORK setting will focus on increasing access to healthy food and opportunities for physical activity in individual worksites and at the corporate level. Strategies to improve work environments will include engaging employers in the Live Well @ Work program and using the California Fit Business Kit to guide the intervention, along with other SNAP-Ed approved materials. PHS, through a contracted partner, will implement a standardized protocol with all engaged sites that includes completion of the worksite wellness assessment tool, and development of a tailored action plan for each site that focuses on PSE approaches to increasing employee access to and consumption of healthy foods and beverages and opportunities for active living. Each site will receive technical assistance in the implementation of their action plans. Concurrently, a worksite wellness designation program model will be developed in year 1 and piloted in year 2 with the recruited sites. Similar to the designation programs in the LEARN A and SHOP settings, the Live Well @ Work designation program will provide more structure and recognition for employers to participate and remain engaged in the program. Lessons learned from the initial pilot will be applied to the sites that are recruited in FFY 2019. PHS will explore offering this as a special *Live Well San Diego* designation, allowing for the leveraging of this broader collective impact effort.

- ***Communications*:** PHS, with support from contracted partners, will develop and disseminate success stories on web sites and in the media and utilize social marketing strategies in LIVE, LEARN, SHOP, WORK, and other eligible settings to increase access to and consumption of healthy food and beverages and opportunities for active living. PHS will also leverage approved NEOPB social media, messaging, and branding and integrate this into PHS media and communications directives. The communication strategy will emphasize San Diego County's NEOP program as one of the major PHS efforts to promote health equity by working specifically in vulnerable, low-income communities, and with the public health network to reduce the burden of chronic disease and promote an equal opportunity for health among all San Diegans.

- ***Evaluation*:** PHS will demonstrate program effectiveness and identify opportunities to improve San Diego's SNAP-Ed interventions through evaluation. The Impact Outcome Evaluation (IOE) will focus on schools with high proportions of students from our targeted populations. Additionally, PHS will use

the approved PSE evaluation framework to evaluate policy, systems, and environmental changes including, but not limited to, community and school gardens; early childhood education policies; farm-to-school; food and beverage standards; municipal food, retail, and active transportation policies; retail conversions; and school and worksite wellness policies and environmental changes. Building on FFY 2016 work to create a foundation for economic evaluation of San Diego's NEOP efforts, PHS will also assess the economic effectiveness of programs and explore policy analysis of key interventions. The worksite wellness designation pilot will use economic methods to explore the effect of wellness programs (MT4) on employee productivity and increasing employee engagement. The WellSAT tool will be used to assess school wellness policies (MT4, MT5) and provide a baseline for further policy development and to determine any improvements to nutrition and physical activity policies. The evaluation of healthy retail programs will leverage methods developed for another PHS grant-funded program to assess the impact of adding healthy food products on retail sales (MT7) and customer satisfaction, illustrating return on investment for retailers. The evaluation of community engagement strategies to advance city policies on food systems (MT7) and active transportation (MT3, MT5) will be conducted using a blend of policy analysis and economic methods and will explore potential use of predictive models to work with policymakers and communities (ST6).

PHS will subcontract a total of 51% of its overall funding to achieve its goals. A funding chart is provided in Figure 3 on the following page.

Figure 3: Organizational chart of SNAP-Ed funding in San Diego County FFY 2017-2019

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):**
By September 30, 2019, implement up to 20 PSE changes in a variety of community settings to increase access and availability of healthy food and beverages and opportunities for active living in daily life, reaching 26,460 SNAP-Ed eligible individuals.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**
- Farm to Fork/Local Procurement
- School and Community Gardens
- Structured PA
- Healthy Food and Beverage Standards
- Joint-Use
- Safe Routes to Healthy Places

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**
1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, three faith-based organizations will implement one PSE change each to improve access to healthy food and opportunities for active living, reaching 300 SNAP-Ed eligible individuals.
2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, four PSE changes will occur in community and faith-based settings to improve access to healthy food and opportunities for active living, reaching 10,300 SNAP-Ed eligible individuals.
3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, up to 12 PSE changes will occur in community, faith-based, residential and older adult settings to improve access to healthy food and opportunities for active living, reaching 15,460 SNAP-Ed eligible individuals.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

Three-Year
Integrated Work Plan
FFY 2017–2019

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):
By September 30, 2019, implement up to 20 PSE changes in a variety of community settings to increase access and availability of healthy food and beverages and opportunities for active living in daily life, reaching 26,460 SNAP-Ed eligible individuals.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Annually, provide direct education using CDA-approved materials and curricula to 50 older adults at three SNAP-Ed eligible sites.	X CED CEI MPR C&C TTA	CWD LHD X AAA UCCE CCC	CWD: LHD: AAA: Full Spectrum Nutrition Services (FSNS) UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3, Q4 Year 2: Q1 x, Q2 x, Q3, Q4 Year 3: Q1 x, Q2 x, Q3, Q4	ATF, Attendance sign-in sheets
1.2	Annually, provide indirect education using CDA-approved materials at 10 congregate meal sites, reaching 5,000 SNAP-Ed eligible individuals.	CED X CEI MPR C&C TTA	CWD LHD X AAA UCCE CCC	CWD: LHD: AAA: FSNS UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	Self-report of nutrition site managers
1.3	Annually, provide training and technical assistance to 13 congregate meal site managers regarding menu planning and production using locally grown HOTM produce. Over the three years, a minimum of 30 HOTM items will be featured.	CED CEI MPR C&C X TTA	CWD LHD X AAA UCCE CCC	CWD: LHD: AAA: FSNS UCCE: CCC: :	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	Meeting agendas and attendance sign-in sheets

1.4	Train 13 congregate meal site managers on the benefits of organizational PSE approaches to improve access to healthy food and beverages and active living opportunities, such as the benefit of procuring local produce. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):**
By September 30, 2019, three cities in San Diego County will advance one municipal healthy food systems policy; one municipal active transportation/active living policy; and one community environmental change that supports access to healthy food and/or active transportation/active living, utilizing the Healthy Cities/Healthy Residents community engagement process, reaching 150,000 SNAP-Ed eligible residents.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
X	**Goal 3:** Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**
- Safe Routes to Healthy Places Municipal Policies and Environmental Changes
- Urban Agriculture/Healthy Food Systems Municipal Policies
- School and Community Gardens
- Joint-Use
- Farm to Fork/Local Procurement

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
   a. By September 30, 2017, LHD will train three Healthy Cities/Healthy Residents coalitions to assess barriers and develop an action plan to advance policy and environmental changes that support healthy food systems and active transportation/active living opportunities in three SNAP-Ed eligible communities.
2. **FFY 2018 (Year 2) Objective(s):**
   a. By September 30, 2018, three Healthy Cities/Healthy Residents coalitions will implement their action plans and engage with their cities to develop one healthy food systems policy and one active transportation/active living policy that address the needs of SNAP-Ed eligible residents.
2. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, three cities that have Healthy Cities/Healthy Residents will advance one healthy food systems policy and one active transportation/active living policy, and will implement one community environmental change that supports access to healthy food and/or active transportation/active living, reaching 150,000 SNAP-Ed eligible residents.

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):
By September 30, 2019, three cities in San Diego County will adopt one municipal healthy food systems policy; one municipal active transportation/active living policy; and one community environmental change that supports access to healthy food and/or active transportation/active living, utilizing the Healthy Cities/Healthy Residents community engagement process, reaching 150,000 SNAP-Ed eligible residents.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Annually, reach a minimum of 50 SNAP-Ed eligible individuals in the three Healthy Cities/Healthy Residents cities with direct education using NEOPB-approved materials and curricula. Taste testing will be included. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):**
By September 30, 2019, 24 child care providers will participate in the healthy child care designation program by developing and implementing wellness policies and procedures that follow best practices related to healthy food and beverages and access to physical activity in settings where 0-5 year olds learn, and 3 school districts in San Diego County will incorporate preschool-specific language into their district wellness policies, reaching 1,600 SNAP-Ed eligible individuals.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**
   a. Early Childhood
   b. School Wellness
   c. Healthy Food and Beverage Standards
   d. Structured Physical Activity

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**
   1. **FFY 2017 (Year 1) Objective(s):**
      a. By September 30, 2017, LHD will support eight family and/or center-based child care centers or preschools to develop, adopt, and implement wellness PSEs to increase availability of healthy food and beverages and access to active living opportunities among the 0-5 population at NEOPB-approved child care sites in San Diego County, reaching 200 SNAP-Ed individuals.
   2. **FFY 2018 (Year 2) Objective(s):**
      a. By September 30, 2018, LHD will support eight additional family and/or center-based child care centers or preschools to develop, adopt, and implement wellness PSEs to increase availability of healthy food and beverages and access to active living opportunities among the 0-5 population at NEOPB-approved child care sites in San Diego County, reaching 200 SNAP-Ed individuals.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, LHD will support eight additional family and/or center-based child care centers or preschools to develop, adopt, and implement wellness PSEs to increase availability of healthy food and beverages and access to active living opportunities among the 0-5 population at NEOPB-approved child care sites in San Diego County, reaching 200 SNAP-Ed individuals.
   b. By September 30, 2019, LHD will support two school districts in San Diego County to incorporate preschool-specific language into their district wellness policies to increase access to healthy food and/or opportunities for physical activity among the 0-5 population, reaching 1,000 SNAP-Ed individuals.

Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):
By September 30, 2019, 24 child care providers will participate in the healthy child care designation program by developing and implementing wellness policies and procedures that follow best practices related to healthy food and beverages and access to physical activity in settings where 0-5 year olds learn, and 3 school districts in San Diego County will incorporate preschool-specific language into their district wellness policies, reaching 1,600 SNAP-Ed eligible individuals.

Year 1 (FFY 2017); Year 2 (FFY 2018); Year 3 (FFY 2019)
Qtr. 1 (Oct. 1-Dec. 31); Qtr. 2 (Jan. 1-March 31); Qtr. 3 (Apr. 1-Jun. 30); Qtr. 4 (Jul. 1-Sept.30)

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):**
By September 30, 2019, 15 schools will adopt PSE changes that improve the food and physical activity environments where students in grades K-12 learn, and 3 school districts in San Diego County will allocate funding in their Local Control and Accountability Plans (LCAPs) to implement components of their wellness policies that address access to healthy food and beverages and/or opportunities for physical activity, reaching 26,000 SNAP-Ed eligible individuals.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
X	**Goal 2:** Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
X	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**
- School Wellness
- Farm to Fork/Local Procurement
- Healthy Food and Beverage Standards
- Structured Physical Activity

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**
1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, five SNAP-Ed eligible schools will adopt and implement wellness PSEs to increase availability of healthy food and beverages and access to active living opportunities, reaching 2,000 SNAP-Ed individuals.
    b. By September 30, 2017, one school district in San Diego County will allocate funding in its LCAPs to implement components of its wellness policy that address access to healthy food and beverages and/or opportunities for physical activity, reaching 5,000 SNAP-Ed eligible students.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, five additional SNAP-Ed eligible schools will adopt and implement wellness PSEs to increase availability of healthy food and beverages and access to active living opportunities, reaching 2,000 SNAP-Ed individuals.

b. By September 30, 2018, one additional school district in San Diego County will allocate funding in its LCAP to implement components of the district wellness policy that addresses access to healthy food and beverages and/or opportunities for physical activity, reaching 5,000 SNAP-Ed eligible individuals.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, five additional SNAP-Ed eligible schools will adopt and implement wellness PSEs to increase availability of healthy food and beverages and access to active living opportunities, reaching 2,000 SNAP-Ed individuals.
   b. By September 30, 2019, one additional school district in San Diego County will allocate funding in its LCAP to implement components of the district wellness policy that address access to healthy food and beverages and/or opportunities for physical activity, reaching 5,000 SNAP-Ed eligible individuals.

Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):
By September 30, 2019, 15 schools will adopt PSE changes that improve the food and physical activity environments where students in grades K-12 learn, and 3 school districts in San Diego County will allocate funding in their Local Control and Accountability Plans (LCAPs) to implement components of their wellness policies that address access to healthy food and beverages and/or opportunities for physical activity, reaching 21,000 SNAP-Ed eligible individuals.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
4.1	Annually, reach a minimum of 1,000 SNAP-Ed eligible individuals in school settings with direct education using NEOPB-approved materials and curricula. Taste testing will be included. SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):**
By September 30, 2019, 15 small to medium sized retailers will participate in the *Live Well* Community Market Recognition Program to increase access to healthy food and beverages in settings where people shop, and 2 municipalities in San Diego County will adopt a municipal or systems change to improve healthy retail options, reaching 106,000 SNAP-Ed eligible individuals.

SNAP-Ed State Goals:

X	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
X	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**
- Farm to Fork/Local Procurement
- Healthy Corner Stores

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, LHD will develop and implement a *Live Well* Community Market Recognition Program with five small to medium sized food retailers to increase the availability, placement, pricing, and promotion of healthy foods and beverages in SNAP-Ed eligible retailers in San Diego County, reaching 2,000.
    b. By September 30, 2017, one municipality in San Diego County will create a plan to develop a municipal policy or systems change that supports healthy retail in SNAP-Ed eligible communities.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, five additional small to medium sized food retailers will implement the *Live Well* Community Market Recognition Program to increase the availability, placement, pricing, and promotion of healthy foods and beverages in SNAP-Ed eligible retailers in San Diego County, reaching 2,000.
    b. By September 30, 2018, the municipality recruited in FFY 2017 will adopt a healthy retail policy and one additional municipality in San Diego County will create a plan to develop a municipal policy or systems change that supports healthy retail in SNAP-Ed eligible communities, reaching 50,000 SNAP-Ed eligible individuals.

3. **FFY 2019 (Year 3) Objective(s):**
    a. By September 30, 2019, five additional small to medium sized food retailers will implement the *Live Well* Community Market Recognition Program to increase the availability, placement, pricing, and promotion of healthy foods and beverages in SNAP-Ed eligible retailers in San Diego County, reaching 2,000.
    b. By September 30, 2019, the municipality recruited in FFY 2018 will adopt a healthy retail policy and one additional municipality in San Diego County will create a plan to develop a municipal policy or systems change that supports healthy retail in SNAP-Ed eligible communities, reaching 50,000 SNAP-Ed eligible individuals.

Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):
By September 30, 2019, 15 small to medium sized retailers will participate in the *Live Well* Community Market Recognition Program to increase access to healthy food and beverages in settings where people shop, and 2 municipalities in San Diego County will adopt a municipal or systems change to improve healthy retail options, reaching 106,000 SNAP-Ed eligible individuals.

SECTION C: INTERVENTION PLAN

I. **Three-Year SNAP-Ed Local Objective #6 (FFY 2017–FFY 2019):**
By September 30, 2019, adopt and implement 13 wellness PSEs in worksites through the Live Well @ Work program and enroll 7 of those 13 worksites in the Live Well @ Work designation program to increase access to healthy food and beverages and opportunities for active living in settings where people work, reaching 3,500 SNAP-Ed eligible individuals.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices (Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

II. **PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:**
- Farm to Fork/Local Procurement
- Worksite Wellness
- Safe Routes to Healthy Places
- Healthy Food and Beverage Standards
- Structured Physical Activity

III. **Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:**

1. **FFY 2017 (Year 1) Objective(s):**
    a. By September 30, 2017, three worksites will adopt and implement wellness PSEs to increase availability of healthy food and beverages and access to active living opportunities among employees at NEOPB-approved worksites in San Diego County, reaching 500 SNAP-Ed eligible individuals.
    b. By September 30, 2017, develop a Live Well @ Work designation program to increase availability of healthy food and beverages and access to active living opportunities among employees at NEOPB-approved worksites in San Diego.

2. **FFY 2018 (Year 2) Objective(s):**
    a. By September 30, 2018, five additional worksites will adopt and implement wellness PSEs in to increase availability of healthy food and beverages and access to active living opportunities among employees at a minimum of five NEOPB-approved worksites in San Diego County, reaching 1,500 SNAP-Ed eligible individuals.

b. By September 30, 2018, two NEOP-engaged worksites will pilot the Live Well @ Work designation program to increase availability of healthy food and beverages and access to active living opportunities among employees.

3. **FFY 2019 (Year 3) Objective(s):**
   a. By September 30, 2019, five additional NEOP-engaged worksites will implement the Live Well @ Work designation program to increase availability of healthy food and beverages and access to active living opportunities among employees in San Diego County, reaching 1,500 SNAP-Ed eligible individuals.

Three-Year SNAP-Ed Local Objective #6 (FFY 2017–FFY 2019):
By September 30, 2019, adopt and implement 13 wellness PSEs in worksites through the Live Well @ Work program and enroll 7 of the 13 worksites in the Live Well @ Work designation program to increase access to healthy food and beverages and opportunities for active living in settings where people work, reaching 3,500 SNAP-Ed eligible individuals.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
6.1	Annually, reach a minimum of 250 SNAP-Ed eligible individuals in worksites settings with direct education using NEOPB-approved materials and curricula. Taste testing will be included.	X CED CEI MPR C&C TTA	CWD X LHD AAA UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF, sign-in sheets, data cards
6.2	Annually, reach a minimum of 2,000 SNAP-Ed eligible individuals in worksites settings with indirect education using NEOPB-approved materials. 4			Internal Services Fee for Contract services	Internal Service Fund (ISF) is not included in the County's calculation of indirect costs. ISF is the Department of Purchasing and Contracting's (DPC) method of recovering its P-Card, travel, and contract administration costs. DPC operats as an ISF. An ISF operates on a business-like model, directly billing its costumer departments for the cost of the ISF's services. All costs incurred by the ISF must be recovered through the ISF's approved rate structure. The rate is applied to the invoice paid through a P-Card and is assessed to the accounting information where the transaction originated. The current ISF rates are published on the DPC's website. These are the current DPC ISF rates: Procurement rate (08.6%); P-Card (1.88%); Travel (1.47%). Internal Service Fund - charge for services provided by support departments, such as Purchasing and	1	$19,631.00	1	$19,631	
5			Internal Services Fee for P-Card purchase	P-Card - used to purchase supplies for program; only purchased via County-approved purchase orders and Blank Purchase Agreements = **1.88% x $17,660**	1	$332.00	1	$332	
6			Internal Services Fee for Travel and Per Diem	1.47% of total travel and per diem.	1	$118.88	1	$119

			Contracts/Sub-Grants/Agreements that are $25,000 or more			
A			The Regents of the University of California, UCSD	Sub Grant will conduct SNAP-Ed allowable activities where people live, learn, shop, and work. Sub grant will specifically work with faith-based organizations, elementary schools, small- to medium-sized food retailers, and worksites that have SNAP-Ed eligible employees. Sub grant will also facilitate and coordinate workgroups in the San Diego Food System Alliance and support jurisdictions to adopt policies that support healthy retail. All projects will support the five state-level objectives of the SNAP-Ed grant: Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages; Goal 2: Increase Physical Activity; Goal 3: Improve Food Resource Management; Goal 4: Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop; Goal 5: Increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations.	$1,564,524	
B			YMCA	Sub Grant will provide training and technical assistance to eligible child care centers about best practices and how to incorporate environmental supports for nutrition education and obesity prevention in the 0-5 population. Additionally, they will provide nutrition education and obesity prevention services to SNAP-Ed eligible families through a resource and referral network and implement the healthy child care designation program. Projects will support the following state-level objectives of the SNAP-Ed grant: Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages; Goal 2: Increase Physical Activity; Goal 4: Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop; Goal 5: Increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations.	$100,000	
C			Vista Community Clinic	Sub Grant will conduct SNAP-Ed allowable activities where people live under the Healthy Cities, Healthy Residents project. Sub grant will engage SNAP-Ed eligible residents and assist their city with adopting and implementing policies that improve the food and active living environments in SNAP-Ed eligible communities. This project will be in Vista, CA. Projects will support the following state-level objectives of the SNAP-Ed grant: Goal 4: Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop; Goal 5: Increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations.	$100,000	
D			International Rescue Committee	Sub Grant will conduct SNAP-Ed allowable activities where people live under the Healthy Cities, Healthy Residents project. Sub grant will engage SNAP-Ed eligible residents and assist their city with adopting and implementing policies that improve the food and active living environments in SNAP-Ed eligible communities. This project will be in El Cajon, CA. Projects will support the following state-level objectives of the SNAP-Ed grant: Goal 4: Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop; Goal 5: Increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations.	$100,000	
E			Environmental Health Services	Sub Grant will conduct SNAP-Ed allowable activities where people live under the Healthy Cities, Healthy Residents project. Sub grant will engage SNAP-Ed eligible residents and assist their city with adopting and implementing policies that improve the food and active living environments in SNAP-Ed eligible communities. This project will be in National City, CA. Projects will support the following state-level objectives of the SNAP-Ed grant: Goal 4: Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop; Goal 5: Increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations.	$100,000	
F			Evaluation - TBD	Sub grant will assess the long-term impacts of SNAP-Ed interventions, such as evaluating the economic effectiveness of policy, systems, and environmental changes, documenting progress for the Healthy Cities, Healthy Residents project, and identifying how the LHD can improve dose of interventions by multi-layering SNAP-Ed activities in certain communities. Consultant will also identify opportunities for dissemination of evaluation results through reports, success stories, case studies, presentations, and/or publications. All projects will evaluate the local efforts to achieve the five state-level objectives of the SNAP-Ed grant: Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages; Goal 2: Increase Physical Activity; Goal 3: Improve Food Resource Management; Goal 4: Increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop; Goal 5: Increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations. Procurement Process: Request for Proposals Timeline and extensions: Existing contracts will not be extended. New contract for Subgrant G will tentatively be in placed on November 1, 2017.	$160,000	

FFY 2018 SNAP-Ed Budget

Organization Name: California Department of Public Health
County/Jurisdiction: County of San Diego - Health and Human Services Agency - Public Health Services

G			Active Transportation Planning - TBD	Sub grant will provide technical assistance on active transportation and/or safe routes to school (SRTS) to the Healthy Cities/Healthy Residents teams and cities. Sub grant will assist teams implement the policy, systems, and environmental changes that they can advance to improve walkability and bikeability for SNAP-Ed eligible residents. Sub grant will work with the teams and cities to develop active transportation plans/policies that address the needs of SNAP-Ed eligible communities in the city. These efforts will address and reflect the needs and issues of Healthy Cities/Healthy Resident teams and SNAP-Ed eligible neighborhoods or schools. No Federal funds will be used to pay for the installation of infrastructure projects. Projects will support the following state-level objectives of the SNAP-Ed grant: Goal 2: Increase Physical Activity; Goal 5: Increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations. Procurement Process: Request for Proposals Timeline and extensions: Existing contracts will not be extended. New contract for Subgrant H will tentatively be in placed on October 10, 2017.	$125,000	
H			Communication - TBD	Sub Grant (media and communications) will provide support (through website maintenance) to the Healthy Works website, which is the online communication tool for the LHD's SNAP-Ed program. They also support printing and purchasing of educational materials, which includes but is not limited to supplies, workbooks, social marketing, and signage.	$30,000	
				Contracts/Sub-Grants/Agreements that are less than $25,000		
1			TBD	Agreements with up to four (4) subject matter experts to provide presentations and trainings to participants that attend workshops related to IWP Activity 2.11: Conduct one workshop per year to build knowledge and support among land use planners and traffic engineers to implement and bring to scale the Healthy Cities/Healthy Residents activities. Budget is $750/guest including event travel costs. (Each presenter will receive about $750 to cover their speaking fees and travel costs. The costs are approximately broken down to airfare: $450; per diem: $46; lodging: $120; Speaking fee: $384.)	$3,000	
					Total Contracts/Sub-Grants/Agreements:	**$2,282,524**

Total Direct Costs:	**$4,051,800**

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Francisco County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

County Name: San Francisco

SECTION A: OVERVIEW

1. **SNAP-Ed Implementing Agency (counterpart local agency) Names**

x	**California Department of Social Services: CDSS: (City and County of San Francisco Human Services Agency: CWD)**
x	**University of California: UC CalFresh UCCE: (San Francisco, San Mateo and Santa Clara UC Cooperative Extension: UCCE)**
x	**California Department of Public Health: CDPH: (City and County of San Francisco Department of Public Health: LHD)**
x	**California Department of Aging: CDA: (City and County of San Francisco Department of Aging and Adult Services: AAA)**
x	**Catholic Charities of California: CCC: (Catholic Charities of San Francisco, Marin and San Mateo: CCC)**

2. **State Level Goals and Objectives**

Overall State Level Goal and Focus

The California SNAP-Ed goal is to improve the likelihood that persons eligible for SNAP-Ed will make healthy food and physical activity choices within a limited budget consistent with the current *Dietary Guidelines for Americans* and *Physical Activity Guidelines for Americans*.

California SNAP-Ed focuses on preventing nutrition and activity-related chronic diseases and improving food security among persons eligible for SNAP-Ed by:

- Providing information and education to promote food resource management, healthy eating, and a physically active lifestyle, and
- Creating supportive food and activity environments in collaboration with community partners in order to make healthy choices easier where people eat, live, learn, work, play, and shop.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Francisco County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

Behavioral Outcomes

Goal 1: Increase Consumption of Healthy Foods and Beverages and Decrease Consumption of Unhealthy Foods and Beverages

- **Objective 1a:** Annually improve the dietary quality of meals and snacks consumed by the SNAP-Ed eligible population consistent with the current *Dietary Guidelines for Americans*.
- **Objective 1b:** Annually increase consumption of fruits and vegetables among the SNAP-Ed eligible population.
- **Objective 1c:** Annually decrease consumption of added sugar from food and beverages among the SNAP-Ed eligible population.

Goal 2: Increase Physical Activity

- **Objective 2:** Annually increase physical activity among the SNAP-Ed eligible population consistent with the current *Physical Activity Guidelines for Americans*.

Goal 3: Improve Food Resource Management

- **Objective 3a:** Annually improve resource management behaviors [1] among the SNAP-Ed eligible population.
- **Objective 3b:** Annually increase food security [2] among the SNAP-Ed eligible population.

Physical & Social Environment Outcomes

Goal 4: Increase access to and/or appeal [3] of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play, or shop.

- **Objective 4a:** Annually improve [4] food environments at SNAP-Ed eligible sites.
- **Objective 4b:** Annually improve the proportion of healthy to unhealthy food environments in SNAP-Ed eligible communities.

Goal 5: Increase access to and/or appeal [3] of physical activity opportunities for SNAP-Ed eligible populations.

- **Objective 5a:** Annually improve [4] environments and opportunities for physical activity at SNAP- Ed eligible sites.
- **Objective 5b:** Annually increase physical activity opportunities and improved environments community-wide in SNAP-Ed eligible communities.

[1] Behaviors, such as reading labels, shopping with a list and comparing prices to maximize use of limited resources to support a healthy diet.
[2] Defined as not running out of food at the end of the month.
[3] Defined as availability, affordability, appropriateness to priority population, variety, quality, and marketing strategies such as placement, point of decision prompts, healthy defaults, and promotion.
[4] Defined as a combination of introducing healthy changes at new sites and deepening or maintaining changes at existing sites.

3. **Jurisdiction Description –**

San Francisco County is the only consolidated city-county in California. San Francisco is the most densely populated city in California, and the second most densely populated city in the country. It is located on the northern edge of the San Francisco peninsula. It has a population of 837,442, with 27% SNAP-Ed eligible (income <185%FPL). The number of SNAP-Ed eligible people living in San Francisco is 214,954 with 20.4% identifying themselves as Hispanic, 28.6% White (nonHispanic), 37% Asian (nonHispanic) 10.4% African American (nonHispanic), 0.4% American Indian/Alaska Native, 0.6% Native Hawaiian/Other Pacific Islander and 2.6% multiracial or another race. As of April 2015, the 51,449 CalFresh participants represented 6.4% of San Francisco County's total population. The San Francisco Human Services Agency estimates that 49,000 residents are eligible, but not enrolled in CalFresh.

Of the 195 census tracts in San Francisco County, 24 (12.4%) are SNAP-Ed eligible (≥50% incomes <185% FPL) based on all races data for 2008-2012. Of the 124 schools in San Francisco County, 87 (70.2%) are SNAP-Ed eligible (>50% FRPM Enrollment, April 2015) and 36,861 students (62.4% are eligible for Free and Reduced Price Meals (FRPM)). As of April 2015, 13.5% of the population is below the Federal Poverty Level.

The adult overweight/obesity prevalence in San Francisco County is 46.4% overall and 49.6% among SNAP-Ed eligible adults. The prevalence rates of overweight/obesity for children 2-11 years of age is 7.8% and for youth 12-17 years of age prevalence rates of overweight are 11.3% and 9.5% for obesity.

As of April 2014 half (56%) of children (2-11 years) reported eating 5 or more servings of fruits and vegetables and about a third (33%) of adults had eaten fruit and vegetables 3 or more times the previous day, when surveyed. San Francisco County has an overall food insecurity rate of 16.7% and a child food insecurity rate of 19.9%. As of April 2015 49.7% of Adults consumed fast food one or more times in the past week and 65.1% of SNAP-Ed adults consumed fast food one or more times in the past week.

San Francisco has about 200 Food Pantries based in schools, community based organizations, Family Resource Centers and other sites. Nutrition education is planned at more than two-thirds of these sites, in order to ensure that low income individuals with food security challenges are being reached and supported in choosing healthier foods and beverages. Using non-SNAP-Ed funds, the SF-Marin Food Bank is providing CalFresh outreach at these sites to support longer term food security to these low income San Francisco residents.

San Francisco has many Community Based Organizations providing services to low income residents. This County Work Plan is collaborating with a wide range of these organizations in order to reach our target audience of SNAP-Ed eligible individuals. In general it is felt to be most effective to deliver nutrition education, to individuals in places where they already gather to receive other services, thereby providing value added benefits to the participants of these programs, and increasing the likelihood that factors related to Policy, Systems and Environments will be positively affected.

Older adults and persons with disabilities are at risk for food insecurity, which is closely connected to poor health status and negative health events. Over the last ten years, the percentage of the national senior population age 60 and older that faces the threat of hunger has increased by 45% (Ziliak & Gunderson, 2015). In California, an estimated 16.3% of seniors face the threat of hunger, and the state has the eleventh highest rate of senior food insecurity in the nation (United Health Foundation, 2015). Income is a significant factor in food insecurity. In San Francisco, the cost of food is estimated to be 23% higher than the national average (Wallace, 2015). Healthy eating is a key health priority identified in the San Francisco Community Health Improvement Plan which was developed by the San Francisco Department of Public Health in coordination with a wide range of community-based organizations and stakeholders. In addition, the "2013 Assessment of Food Security in San Francisco" report from the San Francisco Food Security Task Force indicated that food security is a major need. The 2015 updates from the San Francisco Food Security Task Force indicated that while the City had increased nutrition program funding for FY2015-16 by $2.54 million to increase meal programs and increase access to fruits and vegetable for high risk low income seniors and adults with disabilities, there's still a big gap in food security. The AAA conducted a local needs assessment of older adults, age 60 and older, in San Francisco City and County. The needs assessment identified food security and the access to and consumption of fruits and vegetables as major issues for older adults in the community. As of 2014, compared to the statewide level of 27%, San Francisco County has much higher rate of low income seniors with 35.1% (38,395) of seniors age 65 and older living under 185% FPL.

There are approximately 500 single resident occupancy (SRO) hotels in San Francisco with about 19,400 residential units. In 2014 the Board of Supervisors requested that the San Francisco Food Security Task Force (FSTF) provide them information on strategies to improve food security among SRO populations. The FSTF surveyed 600 SRO residents, of which 89% of residents were food insecure and 80% had high nutritional risk. The FSTF asked residents to rank a variety of interventions aimed at improving food security to gather information on their highest priorities. Although cooking and nutrition classes were a lower priority for SRO residents over additional funds to purchase healthy food and more home delivered meals and groceries, it is an important component of a layered strategy to address food insecurity among this highly vulnerable population.

San Francisco AAA conducted its 2015 City Survey to identify needs and gaps in services. The survey indicates the following results from senior and disabled adult respondents:

- Those most likely to have used food and meal services live in District 5 (Western Addition, Inner Sunset), District 6 (SOMA, Tenderloin), District 10 (Bayview-Hunter's Point, Visitacion Valley), and District 11 (Excelsior, OMI).
- Of those who did not access these services, people living in the southeast part of the city in Districts 9 (Mission), 10, and 11 were more likely to explain that they were unaware of services or services are not available – 20% to 23% of those who did not access services.
- Utilization rates were highest among African-American (32%) and Latino (20%) survey respondents.
- Asian Pacific Islander (API) respondents were most likely to report they did not use these services because they were unaware or services were not available.

Participants of all ethnic groups in focus groups held across the city spoke about the importance of nutrition services. In particular, they highlighted congregate meals; they appreciate both the social aspect of sitting down to a midday meal with others and the opportunity to get a low-cost or free meal – every bit of savings can be helpful. In San Francisco County, the AAA contracts out with community-based organizations to provide a nutritious meal, once daily, at 47 Older Americans Act Title IIIC Congregate Nutrition Programs (Title IIIC) throughout the county. The Title IIIC program targets older individuals who are in greatest economic or social need, and gives particular attention to low-income, minority individuals. In San Francisco County there are 40 Title IIIC sites that meet SNAP-Ed eligibility requirements.

In addition to nutrition status, older persons and those with disabilities are at risk of falls and reduced health status due to the more universal impacts of aging and disability. Dizziness and imbalance, reported by many older persons, may be the result of multiple underlying causes (Iwasaki & Tatsuya, 2015). A key potential contributor to unsteadiness and falls is sarcopenia, the degenerative loss of muscle mass and strength that begins as early as the fourth decade of life (Walston, 2012). According to the Centers for Disease Control and Prevention, (2015) one out of three older persons age 65 and older, get injured due to falls each year. Approximately 20% of falls result in a serious injury, such as a broken bone (Sterling, O'Connor & Bonadies, 2001). Even if not injured, many of those who fall become afraid of falling again and consequently may limit their daily activities, putting their health at risk and increasing the likelihood of another fall in the future (Vellas et al, 1997). The 2011-2012 California Health Interview Survey (CHIS) results estimated that 12% of San Francisco seniors age 60 and older had fallen more than once in the prior year. Health promotion and fall prevention will continue to be a high priority and goal for San Francisco's AAA.

As of April 2015, 15% of adults aged 20 and over report no leisure time physical activity; the number of children and teens 2-17 years of age that report being active for at least one hour a day is 6.8%; the number of children 2-11 years of age that are active at least 1 hour day is 32.3%.

Based on the above information, key audiences for San Francisco County include children at qualifying schools, seniors, and SRO residents. Additionally over the next three years, we will focus on the Tenderloin neighborhood, which has high rates of poverty and food insecurity. This neighborhood is also the location of several innovative initiatives working collaboratively to address food insecurity, particularly for SRO residents.

4. **Community Assessment**

The information in the jurisdiction description comes in part from the SNAP-Ed County Profiles prepared by CDPH which includes county-level data from a variety of sources such as American Communities Survey (ACS) five-year estimates, Department of Social Services CalFresh Annual Trends data, the California Health Interview Survey, Feeding America's Map the Food Gap, Food Insecurity in Your County. Using these data sources, LHD, UCCE, CWD, CCC and AAA nutrition education interventions primarily focuses on K-12 students and community settings with a high percentage of SNAP-Ed target populations. CWD and AAA interventions target out of school time, food pantry and congregate meal sites, which includes youth, adults, and seniors. Media related intervention activities are developed and informed by data showing that almost 21% of children and teens in San Francisco County, as of April 2014, that consume 1 or more sugar-sweetened beverages per day. Media messages and activities that support

healthy beverage promotion on a broad scale would help ensure that the SNAP-Ed eligible population is reached in all parts of the county. This same data also informs the need to develop community events like interactive booths at health fairs and other community events.

The data found in the county profiles also contributes to the identification and development of coordination and collaborative intervention activities. San Francisco County has developed a local objective to involve and increase the collaboration of twenty partner agencies through the County Nutrition Action Plan (CNAP) in order to address the high percentage of the low income population that has food insecurity (16.7% overall and 19.9% children) and that has challenges accessing healthy foods. The San Francisco CNAP is actively engaged in developing a Community Nutrition Education campaign that provides Community partners with tools and resources to promote Fruits and Vegetables, Physical Activity and the programs that provide Federal Nutrition Assistance in San Francisco, including CalFresh, WIC, Summer Meals, School Meals, Senior Congregate Meals, Child Care Meals and Senior Food Program/Home Delivered Groceries.

This work plan was also informed by *Communities of Excellence in Nutrition, Physical Activity, and Obesity Prevention (CX3)* assessments conducted in four low-income communities as well as community forums to share the findings and identify areas for future action that enjoyed resident and stakeholder support. Area residents and community partners were interested in working with SNAP-Ed implementing agencies on the following Policy, Systems and Environment (PSE) change efforts: work with local retailers to improve their food store quality scores especially those located near low income housing sites where there is limited access to healthy food retail. Baseline data retail survey data collected as part of the CDPH's Healthy Retail Campaign (proposition 99-funded data collection) has helped identify retail sites where SNAP-Ed interventions could take place, resulting in a synergistic effect from a combination of public health interventions conducted by tobacco control, alcohol and drug, and SNAP-Ed to create healthier retail environments.

In addition, the AAA and San Francisco Food Security Task Force conducted a needs assessment of older adults in San Francisco County, which identified food security, and access to healthy foods and consumption of fruits and vegetables as major issues within the county. As a result of this survey, local intervention strategies at SNAP-Ed eligible sites will include: curriculum focused nutrition education to increase access to healthy foods and consumption of fruits and vegetables; consumer information about availability of food programs within the county, such as use of EBT at farmers' markets, where to apply for CalFresh and WIC, availability of Summer Meals, Congregate Meals, etc.; and no-cost physical activity opportunities available to the SNAP-Ed eligible populations. Recent survey (N=633) results of single residents living in San Francisco's single room occupancy (SRO) hotels (January 2016) from the Food Security Task Force indicated that 89% of respondent were food insecure and nearly 80% were at "high" nutritional risk using the national validated nutrition risk assessment DETERMINE tool. Demographics of the SRO survey respondents: 1% under age 18, 56% age 18-59, 43% age 60 and above. Residents living in in SROs are among the poorest in the city.

The *CX3* Index of Unhealthy to Healthy Food Sources in four low-income neighborhoods of San Francisco, done in 2012-2013 and due to be repeated in FFY16, after the FFFY17-19 IWP is due were as follows: Tenderloin was 97% unhealthy to 3% healthy; South of Market (SOMA) was 92% to 8%; Mission was 92% to 8% and Western Addition was 100% to 0%, though the latter was based on a single store. None of the retail food stores in the Tenderloin, SOMA or the Western Addition met quality standards, though three stores in the Mission or 33% met quality standards.

The majority of stores had low scores for the variety and quality of their fresh fruit and vegetables while the prevalence of both exterior and interior ads promoting high fat/sugar foods was much greater than exterior and interior ads promoting healthy foods and very few stores placed healthy foods in the checkout area.

In the Tenderloin there are 2 small markets and 1 convenience store within 1000 feet, or about 2 city blocks of the Tenderloin Community School, an elementary school and 9 fast food outlets at the same distance. In the SOMA there is 1 small market and 3 convenience stores within 1000 feet, or about 2 city blocks of the Bessie Carmichael Elementary School and 3 fast food outlets at the same distance. In the Mission there are 6 small markets and 1 convenience store within 1000 feet, or about 2 city blocks of the Marshall Elementary School and 3 fast food outlets at the same distance. In the Western Addition there are no small markets or convenience stores within 1000 feet, or about 2 city blocks of the Ella Hill Hutch Head Start Center and no fast food outlets. We selected a 1000 foot buffer zone around these schools, due to the overall density of San Francisco and the great density of the Tenderloin, SOMA and Mission neighborhoods in San Francisco. The ethnically diverse population includes individuals who speak English, Spanish, Cantonese, Vietnamese, Tagalog and Arabic. This population is low income and many have limited cooking facilities, since there is a large concentration on Single Residency Occupancy hotels (SROs) and subsidized housing in the Tenderloin and SOMA neighborhoods.

Our challenge is that in the Western Addition there was only one Federally Qualified CT. There is a Farmers Market on Fillmore Street that is a few blocks from this CT though the EBT redemption rate is below 1% of all EBT redeemed in San Francisco Farmers' Market.

There is one farmers' markets within the Tenderloin that redeems 75% of all CalFresh EBT used in San Francisco Farmers' Markets, and where a large variety of well-priced produce is available year round, on two days of the week. There is one Farmers' Market in SOMA, as well, and there are none in the Mission or the Western Addition, in the Federally Qualified Census Tracts assessed. In San Francisco an ordinance was passed in 2007 that requires that all Farmers' Markets operating in the City and County of San Francisco have to accept all forms of Federal, State and Local Nutrition Assistance including EBT as well as WIC and Senior Farmers' Market Vouchers.

Currently there are five Local Implementing Agencies providing SNAP-Ed services in the City and County of San Francisco. These include the following:

- **San Francisco Department of Public Health (LHD**), together with their four Subcontractors, the San Francisco Unified School District (SFUSD), Children's Council of San Francisco (CCSF), 18 Reasons-Cooking Matters and the NEOPB Chinese Project, provided Direct Education to over 32,000 SNAP-Ed eligible individuals and Indirect Education to over 66,000 SNAP-Ed eligible individuals in FFY15, based on ATF/EARS data. In addition, they have provided materials and technical assistance to over 30 organizations serving SNAP-Ed eligible San Francisco Residents. Notable Policy, Systems and Environment (PSE) initiatives include work to update and implement the SFUSD Wellness Policy, the Healthy Apple Program (CCSF) that supports improvements in the Early Childhood Education environment, Store Tours in support of Healthy Retail to complement the work of a number of local initiatives including the Tenderloin Healthy Corner Store Coalition, Healthy RetailSF and EatSF (18

Reasons-Cooking Matters) and the Chinese Faith-based Project (NEOPB Chinese Project) further detailed below. We anticipate matching these numbers in FFY16.

The NEOP Chinese Project is a project of Chinatown Public Health Center, San Francisco Department of Public Health that targets the low-income Chinese population in San Francisco. In partnership with churches serving low income residents in San Francisco, the Chinese Project developed the **Chinese Body, Mind and Soul Program** to empower church members to learn and practice healthy eating habits and active lifestyles to achieve a healthy body, mind & soul. The program conducts different church activities including healthy eating and physical activity workshops, health fairs, healthy cooking classes, healthy Sundays, and food committee trainings to improve church members' nutritional and physical well-being, in order to reduce their risks of obesity and other chronic diseases. A pastor council was developed to provide guidance to the direction and implementation of the program. The council meets quarterly and is comprised of pastors, family practice and psychiatry MDs, TV public affairs director and dietitians. Activities of the council include development of an annual strategic plan, development of the program manual, and discussion of individualized implementation plans and evaluation of efforts.

- **San Francisco Human Services Agency (CWD),** together with their two subcontractors, Leah's Pantry and the SF-Marin Food Bank, provide a wide variety of workshop series for adults, kids and seniors in several languages using the Food Smarts Curriculum. In addition, relationships developed in the course of direct and indirect education workshops have led to the opportunity to work more closely with agency leadership on site wellness initiatives. In addition, CWD continues to develop, maintain and provide outreach for Eatfresh.org. This portfolio of online and text-based interventions complements activities by SNAP-Ed funded partners in San Francisco county and statewide. Online tools designed for the SNAP-Ed audience are a critical piece of multi-layered interventions across the Social Ecological Model (SEM). According to Pew Research Center surveys from 2000-2015, 74% of individuals earning less than $30,000 a year access the internet daily. 62% of smartphone owners have gone online to look up information about a health condition. As low-income individuals increasingly use the internet to shop, work, and play, EatFresh.org offers a safe place to find nutrition information and appropriate recipes.

  UC CalFresh (UCCE) - UCCE San Francisco County has a family-centered approach to nutrition education delivery and recognizes the importance of the policy, systems, and environmental supports necessary to encourage healthy eating and physical activity. UCCE's efforts are focused in preschools and schools that serve the SNAP-Ed eligible population in San Francisco. When UCCE is working with other community based organizations, significant efforts are made to reach all SNAP-Ed populations served by those agencies.

  UCCE provides training and support in the implementation of Smarter Lunchroom Strategies and assists with the establishment, maintenance, and/or revitalization of edible school gardens. In the preschools and schools served, UCCE promotes the adoption of new structured physical activity programs. Again, training support and technical assistance is provided as needed. In FFY17-19, UCCE will collaborate closely with the Children's Council of San Francisco to encourage preschools to participate in the Healthy Apple Program and make new healthy site changes

In addition to one time workshops, delivered to busy parents working multiple jobs, UCCE's adult educators focus on the multi-lesson series *Plan, Shop, Save, Cook* that teaches food resource management and reduces instances of food insecurity. Participants learn how to plan meals ahead of time, use a grocery list, make healthy food choices, read nutrition fact labels, and compare unit prices to ensure that the family has enough food for the entire month. Parent and adult lessons include the promotion of EatFresh.org and, in FFY17-19, will include promotion of EatFresh.org's online nutrition education classes. Family newsletters and Harvest of the Month handouts are sent home to parents in support of nutrition education taught in youth classrooms.

- **Department of Aging and Adult Services (DAAS**) – DAAS is an Area Agency on Aging. Its mission is to plan, coordinate and provide services to keep seniors healthy and living independently in the community. To this end, DAAS provides a wide array of nutrition programs, including congregate meals, home-delivered meals and home-delivered groceries to seniors to address food security issues, and evidence-based health promotion/physical fitness programs to SNAP-Ed eligible participants. While the SNAP-Ed grant comprised less than 1% of DAAS overall nutrition program budget in FFY 2015, the coordination and collaboration with LIAs were invaluable and helped us better target and leveraged our services. We are excited to announce that in March 2016 we will launch the new Benefits and Resource Hub for People with Disabilities and seniors. Located at 2 Gough, the DAAS Hub is an innovation that brings together County Veterans Service Office (CVSO) specialists, expert Medi-Cal and CalFresh benefits staff, and skilled Social Workers who provide access to the wide array of DAAS services. DAAS created the Benefits and Resource hub in order to make our complex service system easier for consumers and community partners to navigate. The Hub will act to increase channels of information and contacts already existing in community aging and disability resource centers, and create new partnerships between City Departments, Health Plans, and community-based partners and LIAs to maximize access to aid programs, health care, and social services. The Hub will help us make our collaborations more impactful to SNAP-Ed eligible participants. Through City funds, the AAA provides computer labs, training and free internet access at over 50 different sites throughout the city, including senior centers, senior housing, and recreation and parks facilities. We will continue to use technology to help publicize healthy food/resources and physical activities to increase access to SNAP-Ed eligible participants.

  In FFY 2015 DAAS implemented 3 SNAP-Ed projects: 1) Easy Urban Gardening: 3 community gardens were built and provided additional sources of healthy food and activities for seniors; 2) nutrition education: 4 Cooking Matters (6-weeks class series) and 11 Food Smarts (5-weeks class series) direct education workshops and indirect nutrition education were provided through health fairs; 3) Tai Chi for Arthritis and Fall Prevention: 40 certified Tai Chi instructors were trained and as a result 11 community partners implemented the Tai Chi for Arthritis and Fall Prevention program (2-hours a week over 6-weeks for total of 12 hours) to SNAP-Ed eligible seniors. Through direct education DAAS served a total of 301 unduplicated seniors and provided 1,637 contacts. Additional seniors were served with local funds, but not reported into SNAP-Ed, due to very limited resources for program administration. With 65.6% funding reduction in DAAS' SNAP-Ed grant in FFY 2016, DAAS will focus on maintaining the Gardening project and the Tai Chi Program, and reducing the number of direct nutrition education workshops offered.

DAAS will work with our contractors to fold-in as much of these SNAP-Ed activities/programs into existing AAA funded programs so that by FFY 2017 we will focus use of our reduced SNAP-Ed grant on physical activity initiatives, PSE objectives and collaborations with LIAs.

- **Catholic Charities of San Francisco, Marin and San Mateo (CCSF)** - Catholic Charities of San Francisco, Marin and San Mateo cultivate a holistically physical and nutrition based education amongst the San Francisco community. Physical education is paired with the nutrition classes across schools in San Francisco to teach adolescents the importance of taking care of the body from an early age. It is proven that the sooner a person implements a healthy lifestyle, the more likely they are to carry those habits through adulthood, and the less likely they are to become overweight or obese. By combining our nutrition education activities with physical education we aim to reduce risk of obesity, type 2 diabetes, depression and self-esteem issues, which can impact lifelong health. Our work in the schools has been evaluated and found effective for grades K-8. Our students take trips to the local farmer's market so they can learn how to pick out ripe and fresh produce. This has created huge excitement for the students when they are able to find and pick out their ingredients to cook with.

  Catholic Charities partners with 3 SNAP-Ed eligible schools, to provide them with physical education, and nutritionally based cooking classes. Because these schools are located in low-income neighborhoods in the Mission district, they are unable to afford and provide PE and nutrition to their students. During the school year, Catholic Charities of San Francisco, Marin and San Mateo reaches about 600 students with California Physical Education based curriculum, and USDA curriculum based cooking classes.

  During the summer months, Catholic Charities hosts 3 different sites for summer day camps for the same population. Due to the extremely high cost of living, most of these families cannot provide for proper after school and summer day care. Depending on further funding, Catholic Charities of San Francisco, Marin and San Mateo would like to provide more summer programs to keep kids safe, healthy, and having fun.

  There are vast amounts of neglected students in grades K-8 throughout the Mission neighborhood, as well as other parts of the city. Over the last 8 years, Catholic Charities has gone from one school, to providing PE and Nutrition to 12 schools. We have been able to offset their costs with the SNAP-Ed funding that has been provided. Last year, the participants in PE in those schools were followed, and showed improvements in all areas. The time to cover a mile decreased an average of 4 minutes per mile. The average increase in number of push-ups done in one minute was 5. At a first glance this is an improvement in physical fitness, but more importantly, the SNAP-Ed supported activities by Catholic Charities of San Francisco, Marin and San Mateo has influenced these children to have a healthier lifestyle. The nutrition class surveys revealed that the students had better knowledge about healthy choices, and they were re-creating the recipes at home with their families. Not only are the kids being empowered, but so are their families and parents.

  The information on San Francisco SNAP-Ed funded projects in the above section, in the Community Change Goals section, the Site List and the Activities under the Local Objectives support that we are collectively well positioned to provide a variety of services to a high percentage of SNAP-Ed eligible San Francisco residents and to engage a broad range of Community Partners in support of healthy food and beverage choices and physical activity. We appreciate the opportunity to make a difference in the lives of our most vulnerable residents.

5. **Community Change Goals**

The City and County of San Francisco has a variety of health initiatives focused on improving the health and well-being of San Francisco residents and addressing health disparities.

The San Francisco Health Improvement Partnership (SFHIP) (www.sfhip.org) has developed the San Francisco Community Health Improvement Plan, through engagement with a wide range of stakeholders (www.sfdph.org/dph/comupg/knowlcol/chip/default.asp). The objectives of the initiative are to: Ensure Safe and Healthy Living Environments; Increase Healthy Eating + Physical Activity; and Increase Access to Quality Health Care + Services. The work of all SNAP-Ed funded projects in San Francisco intersect and support the second SFHIP objective, related to healthy eating and physical activity. The local Objectives in the Integrated Work Plan that support the (SFHIP) include Objectives 1, 2, 3, 5 and 6. The three priority indicators selected by the SFHIP process include: 1) Decreasing the number of adults who report a BMI of 30 or greater; 2) Decrease from 17.2% to 16.3% the number of children and teens who consume two or more glasses of soda or sugar sweetened beverages per day; 3) Increase from 27.2 to 29 minutes per day that San Francisco residents spend walking and/or biking on non-leisure, utilitarian trips. Progress towards these goals will be based on comparing 2011-2012 CHIS (California Health Interview Survey) data, with subsequent data sets. These activities are in alignment with State Goals 2 and 5 to increase physical activity among the SNAP-Ed eligible population; and increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations.

Some neighborhood based initiatives, through funding from Kaiser Permanente, include the Bayview Healthy Eating, Active Living (HEAL) Zone/SEFA (Southeast Food access) project established in the Southeast sector of San Francisco. The HEAL Zone represents a network of community partners who work together to make healthy choices the easy choice for Bayview residents. In the past 6 years the project has worked to increase access to healthy foods by improving the food retail environment, supporting community gardening projects and partnering to increase opportunities for physical activity (www.healzones.org/communities/northern-california/bayview-san-francisco). This work is in alignment with State Goals 1, 2, 3, 4 and 5 to increase consumption and access to healthy foods, and decrease consumption of unhealthy foods and beverages; increase physical activity; improve food resource management; increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy choices where people eat, learn, work, play or shop; and increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations. The local Objectives in the Integrated Work Plan that support these efforts are Objectives 3, 5 and 6.

Kaiser Permanente, through their Community Benefits Grant process is also providing support to two of the LHD Subcontractors, Children's Council of San Francisco and 18 Reasons-Cooking Matters, which the SNAP-Ed grant partially supports. Kaiser Permanente also supports the work of the Tenderloin Healthy Corner Store Coalition, that empowers Tenderloin residents to assess and work together to improve access to healthy food retail options in this community. This work is in alignment with State Goals 1, 2, 3, 4 and 5 to increase consumption and access to healthy foods, and decrease consumption of unhealthy foods and beverages; increase physical activity; improve food resource management; increase access to

and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy choices where people eat, learn, work, play or shop; and increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations. The local Objectives in the Integrated Work Plan that support these efforts include Objectives 2, 3, 4, 5 and 6.

One other Community Initiative focuses on increasing access to fruits and vegetables for low income individuals who either face diet related medical conditions or who have families with young children. EatSF (www.hellmanfoundation.org/eatsf.html) distributes $20-$40 a month to individuals and families who meet one or both of their criteria, to purchase healthy produce. The distribution takes place at the healthcare facilities these individuals and families access. Two of the five San Francisco SNAP-Ed funded LIAs, (LHD and CWD), are collaborating to provide store tours and/or workshops for the recipients of the EatSF vouchers to develop healthy shopping and food preparation skills. The local Objectives in the Integrated Work Plan that support these efforts include Objectives 3, 4 and 5.

The Mission Promise Neighborhood Initiative which focuses on supporting families with children in the Mission District enhances the availability of nutrition education to the families served. The SNAP-Ed funded LIAs (UCCE, LHD) will collaborate to provide nutrition education and food preparation workshops to the families served by the Mission Promise Neighborhood Initiative. More specifically, UCCE will continue to provide nutrition education and support policy, systems, and environmental changes in SNAP-Ed eligible preschools in the Mission District. Nutrition education provided will include garden based nutrition education and support for new and previously established edible gardens. In addition, UCCE will inform all engaged ECE sites regarding the availability of and the criteria for the Healthy Apple Program and promote the use of Smarter Lunchrooms Movement strategies within these preschools. The local Objectives in the Integrated Work Plan that support the Mission Promise Neighborhood include Objectives 1, 2, 3 and 5. 18 Reasons will continue to offer Cooking Matters series to children, adults, teens, and families within the Mission Promise Neighborhood. 18 Reasons is based in the Mission, and reaches about 200 individuals with free, six-week-long Cooking Matters series each year. 18 Reasons also works with four peer educators in the Mission. These peer educators teach Cooking Matters classes, and lead Cooking Matters at the Store tours. In addition to six-week Cooking Matters series, 18 Reasons also reaches about 200 Mission residents each year through Cooking Matters at the Store tours, one-time events that offer lessons on nutrition and food resource management skills.

There are two physical activity initiatives, **ACTive Zones**, where free Zumba classes are offered at Boys and Girls Clubs, YMCA sites and Recreation and Parks Department sites and **Healthy Parks, Healthy People** where regular Saturday AM walks are offered in different parks around San Francisco. These interventions were developed as ways to create opportunities for low income San Francisco residents to be physically active and to make this a normative and free experience. The LIAs in San Francisco are exploring ways to link and promote the initiatives listed above within their Nutrition Education interventions. These interventions align with State Goals 2 and 5; increase physical activity; and increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations. The local Objectives in the Integrated Work Plan that support these Physical Activity initiatives include Objectives 2 and 5.

Some of the challenges faced in promoting physical activity is that the schedule and locations of the ACTive Zones interventions change on a regular basis and the mechanism to capture and disseminate this information to SNAP-Ed participants is still undefined..

6. Partnerships and Collaborative Efforts [County Nutrition Action Partnership (CNAP)]

LIA's will promote SNAP-Ed services and activities by connecting with other agencies, such as the County Welfare Department (City and County of San Francisco Human Services Agency). San Francisco County also has an active CNAP which includes both SNAP-Ed funded LIAs and many non-funded partners who deliver nutrition education, site wellness support, food programs, and social services to low-income populations. A list of current CNAP member organizations is below. We met five times in 2015, with several subcommittee meetings interspersed in between large group meetings. This past year our CNAP focused on developing a shared messaging campaign to align nutrition information shared with the SNAP-Ed population throughout San Francisco. In the next three years we look forward to launching this initiative and others that will more closely integrate our work and support other complementary efforts across the county. We continue to share programmatic updates to be able to cross-promote members' activities, and are increasingly focused on leveraging our direct and indirect education activities to strengthen PSE changes in the county.

In addition to our CNAP, there are many multi-sector coalitions and task forces in San Francisco which aim to increase food security for residents. The **San Francisco Food Security Task Force** is a guiding body for the city on policy and funding opportunities to eliminate hunger in the city by 2020. Many organizations with seats on the task force are also SNAP-Ed funded (DAAS, SF-Marin Food Bank, San Francisco DPH). The **Childhood Nutrition and Physical Activity Collaborative** in San Francisco shares research and updates on evidenced-based strategies to improve childhood health in childcare and early childhood education settings. **ShapeUp San Francisco** has developed a social marketing campaign backed by ongoing research which promotes drinking water and educates on the amount of sugar in many beverages. They also focus on increasing physical activity opportunities and consumption of fruits and vegetables through advocating for increased PE in schools, organizing Safe Routes to School and promoting Sunday Streets, where different neighborhoods are closed to motor vehicle traffic and residents are encouraged to walk, bike, skate instead. The **San Francisco CalFresh Coalition** is another diverse body of non-profit organizations that are trained in CalFresh referrals and

application assistance. Many members of the Coalition are SF-Marin Food Bank food pantry sites. Neighborhood-based efforts such as the **HEAL Zone/Southeast Food Access** working group and the **Tenderloin Healthy Corner Store Coalition** are another important focal point for local work with residents to improve access to healthy food. **EatSF** is an innovative program which began in 2015 and provides a fruit and vegetable voucher for low-income individuals and families living in the Tenderloin, SOMA, and Bayview neighborhoods. Finally, **HOPE SF,** together with the **Mayor's Office on Housing,** has championed efforts to improve public housing in San Francisco and improve the services available to their residents.

The San Francisco Department of Public Health Feeling Good Project is a member of the Tenderloin Healthy Corner Store Coalition Steering Committee, EatSF Leadership Committee, Healthy Parks, Healthy People Leadership Committee, as well as co-chair of the Childhood Nutrition and Physical Activity Collaborative. This creates an opportunity to inform a variety of partners on the assets and services available from SNAP-Ed funded partners and to promote their increased collaboration with organizations that are engaged in our County Change Goals.

These coalitions demonstrate the breadth and depth of San Francisco's efforts to achieve food security for all residents and support healthy, active lifestyles. They also align with identified city goals such as **SFHIP**. CNAP member organizations play important roles within these layered and interconnected initiatives, strengthening work through SNAP-Ed funded interventions and offering insight into the challenges and opportunities to improving the health of San Francisco's most vulnerable populations. The following page lists our current San Francisco CNAP Members.

➢ 18 Reasons/Cooking Matters ➢ 211 Line in San Francisco ➢ Catholic Charities of San Francisco, Marin and San Mateo ➢ Children's Council of San Francisco ➢ City College of San Francisco Nutrition Assistant Program ➢ Feeling Good Project, SFDPH ➢ Leah's Pantry ➢ Mission Head Start ➢ Native American Health Center, WIC Program ➢ Nutrition Education Project, Student Family, and Community Support Department (SFUSD) ➢ Nutrition Services, SF DPH	➢ San Francisco CalFresh Program (SNAP) ➢ San Francisco Department of Aging and Adult Services (DAAS) ➢ SF-Marin Food Bank (SFMFB) ➢ San Francisco Public Health Foundation – Chinese Faith-based Project ➢ San Francisco Department of Public Health WIC Program ➢ Student Nutrition Services, San Francisco Unified School District (SFUSD) ➢ Summer Food Service Program, Department of Children, Youth and their Families (DCYF) ➢ University of California Cooperative Extension ➢ Wu Yee Children's Services

8. **Educational Materials, Resources and Curriculum –**

All educational materials, resources and curriculum will be approved through the USDA SNAP-Ed Connection website (https://snaped.fns.usda.gov/) and/or FFY2017-2019 USDA approved CalFresh, California Department of Aging, California Department of Social Services, Catholic Charities of California or the California Department of Public Health – Nutrition Education Obesity Prevention Branch (NEOPB) Approved Nutrition Education Materials List.

The City and County of San Francisco Local Implementing Agencies (LIAs) reviewed the approved integrated curriculum list provided by the state agencies, and to determine the best option for our target populations and communities based on prior experience and knowledge of the community. Curriculum materials and resources were chosen to best reflect the needs of the population, as well as our chosen SNAP-Ed three-year and annual objectives. Our chosen curricula and materials are geared towards a variety of settings including Early Childhood Education, K-12 Schools, youth serving community sites, community based organizations, faith-based, food pantries, low income and public housing sites, CalFresh enrollment sites, senior centers, etc., as reflected in our narrative summaries and in the target audience description.

9. **Intervention and Evaluation Plan Narrative Summary**

The implementing agencies in the City and County of San Francisco will conduct nutrition education and obesity prevention services at SNAP-Ed eligible sites, reaching a large portion of the SNAP-Ed eligible population. They will be assisted by subcontractors and extenders who will support these efforts. San Francisco County LIAs have created six local objectives designed to align with the community change goals described above as well as leverage the

strengths, experience and relationships of our funded partners. These six objectives support all five SNAP-Ed State Goals, with two objectives supporting all five State goals, and the rest of the objectives supporting two to three State goals.

Due to the expiration of Get Fresh funding, CWD activities are only included for FFY17. This will impact San Francisco County reach numbers for all types of activities in FFY18 and FFY19.

Our site list primarily includes sites where SNAP-Ed programming has been conducted for a number of years. These sites include schools, Early Childhood Education (ECE) settings, food pantry sites, low-income and public housing, CalFresh enrollment sites, and Community Based Organizations (CBOs). San Francisco County has been praised by the USDA WRO for its work with difficult-to-reach SNAP-Ed populations, such as refugees, SRO residents and public housing communities.

San Francisco County has also been responsible for the development of the EatFresh.org interventions, which have received national attention as emerging SNAP-Ed activities. Although this IWP details only the activities occurring in SF County, CWD promotes and integrates these interventions throughout California as part of its SOW. These and other Community Education Direct (CED) and Community Education Indirect (CEI) interventions have been successful at reaching more eligible participants, strengthening a wide variety of PSE interventions, and extending the impact of in-person CED and CEI interventions.

San Francisco LHD and CWD work mostly on a partnership-based model where SNAP-Ed providers, work with sites to determine readiness and the appropriate intervention mix, and the sites themselves take a large responsibility for program outreach. Over the years, SNAP-Ed train-the-trainer programs have engaged a variety of partner staff, community members and volunteers in our work. This involvement has expanded our reach and broadened opportunities for communities to become champions of this work. Given uncertainty of future funding levels for SNAP-Ed, this also promotes sustainability of these efforts. Importantly, these programs serve to build a strong foundation upon which meaningful PSE changes can be built and often serve as the critical connector linking CED and CEI and higher level Policy, Systems and Environment (PSE) work.

Our local objectives fall into three groups: wellness policy design and implementation (1 and 2), healthy behavioral objectives (3, 5 and 6), and one intensive place-based objective with a focus on SNAP-Ed integration with a variety of stakeholders initiatives. (4)

These objectives encompass direct (CED) and indirect (CEI), coordination/collaboration (C&C), and set the stage for specific PSE strategies that include training and technical assistance (T&TA) and media (MPR) activities. Some activities are found under multiple objectives, and the objectives themselves reinforce each other. For example, increasing the consumption of fruits and vegetables among all of our sites (Local Objectives 3 and 5) supports the work being done in SFUSD, ECE centers, and Parochial schools served by Catholic Charities of San Francisco, Marin and San Mateo to increase adherence to wellness policies (Local Objectives 1 and 2.) In addition increasing the access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations is promoted by the work in Local Objectives 2, 3, 5 and 6.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Francisco County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

San Francisco has one public school district, the San Francisco Unified School District (SFUSD), which is the seventh largest school district in California, serving 57,000 children year. Of the 124 schools in San Francisco County, 87 (70.2%) are SNAP-Ed eligible (>50% FRPM Enrollment, April 2015) and 36,861 students (62.4% are eligible for Free and Reduced Price Meals (FRPM)). San Francisco children also attend parochial schools a number of which receive SNAP-Ed services through Catholic Charities of San Francisco, Marin and San Mateo, where a majority of students receive FRPM (CCC).

Local Objective #1

By September 30, 2019, 10 qualifying schools in San Francisco Unified School District (SFUSD) and 8 youth serving community sites will improve adherence to their respective Wellness Policy guidelines that support increased access to healthy foods and beverages and decreased access to foods and beverages not in compliance with the policy among students, their families and staff.

San Francisco County has already completed the first step in the development and adoption of a Wellness Policy for the SFUSD. All public school children in SF County attend the same school district - SFUSD - and every school is bound by the SFUSD Wellness Policy, which was revised and then passed in 2015. Additionally, many youth serving community sites, such as the Boys and Girls Club of San Francisco (BGCSF), have also passed comprehensive Wellness Policies. However, broad understanding of the implications and consistent application of these policies is still in its early stages and significant work is required to educate and motivate stakeholders so that students, faculty, and parents benefit as intended.

For the next three years, our IWP activities will focus on increasing the adherence to aspects of the Wellness Policy which address the types of foods and beverages consumed by faculty, students and their families. Wellness Policies are only as good as their implementation, so the LHD, CWD and UCCE will take a multi-level, multiple-LIA approach that combines intervention activities from different parts of the Social Ecological Model (SEM). LHD will oversee the training of funded and non-funded partners to ensure broad understanding of the Wellness Policy at SFUSD. CWD will lead the wellness policy work in youth serving community sites. The Wellness Policy contains language related to the Smarter Lunchrooms Movement and creating environments that encourage students to make healthy nutrition choices. In support of this, UCCE will build upon current Smarter Lunchrooms Movement work in order to further connect classroom education to the cafeteria. Our objective after three years is to report a significant increase in adherence to the Wellness Policies by 10 selected SFUSD schools and 8 youth serving community sites as measured by the assessment tools selected by each group.

During the first year, efforts will focus on identifying 10 SFUSD school sites to receive interventions. This year will also include the development and/or selection of assessment tools, gathering of baseline data, training SNAP-Ed funded partners working in the schools, and integration of this information into direct and indirect nutrition education activities to build a base of knowledge and support for the policies. During the second year, intervention activities will be delivered more intensely and a local recognition plan and website communications will be developed to encourage school sites and to broadcast the success throughout our community. During the last year, the assessment will be completed to determine the impact of these efforts. Intervention activities will continue through the three years as these are school sites with teacher and student turnover and continued work is essential to sustain this work.

LHD in coordination with the SFUSD will create a toolkit of resources that SNAP-Ed funded partners will use to achieve this objective. This toolkit will include Eat with the Seasons (more information in Local Objective 5), nutrition education resources distributed by the LHD, as well as EatFresh.org. These materials are evidence based NEOPB approved, including produce tips from Harvest of the Month and recipes from EatFresh.org.

In the case of youth serving community sites, CWD has identified the Boys and Girls Club of San Francisco (BGCSF) as a target of Wellness Policy interventions and received high-level buy-in to this work. In the first quarter of FY 2017, CWD will create or modify an existing assessment tool to deploy throughout all clubhouses. The assessment tool will include metrics around quality and healthfulness of food served, compliance to these standards, increase in fruits and vegetables procured for residential meals, decrease in added sugar served for residential meals and snacks, completion of training on healthy cooking techniques, and reduction of portion sizes for meals and snacks. Results from these assessments will be used to create a formal intervention plan in collaboration with BGCSF. This plan will include intervention activities and an effort to recruit individuals from within BGCSF to serve as champions for this work. CWD will work to implement the intervention plan at 2-3 clubhouses during Year #1.

This objective is intended to support State Goals 1 and 4 by encouraging the individual behaviors of healthier food consumption and also increasing the access to those foods in the school environment.

This objective supports San Francisco Community Change Goal by the San Francisco Health Improvement Partnership as it relates to Nutrition and Physical Activity - 2) Decrease from 17.2% to 16.3% the number of children and teens who consume two or more glasses of soda or sugar sweetened beverages per day;

Local Objective #2

By September 30, 2019, 30 Early Childhood Education (ECE) sites will develop and/or implement site wellness policies and procedures, including making healthy site changes to improve the nutrition, physical activity, and/or screen time environment for participating children.

This local objective has some similarities to Objective #1, but the target audience is 0-5 children, the work is more foundational since many sites do not yet have site wellness policies, and the objectives include physical activity (PA) and screen time in addition to healthy food and beverage consumption. The main LIAs working toward this objective are the LHD and UCCE, with some supporting activities being provided by CWD through their outreach for EatFresh.org interventions.

As in Objective #1, intervention activities span the Social Ecological Model (SEM) with the intention of not only supporting the development and adoption of ECE wellness policies, but supporting their implementation. LHD, in collaboration with Children's Council of San Francisco's Healthy Apple Program provides overall structure for providing training and technical assistance to childcare workers, along with a recognition mechanism and ongoing support for this objective. UCCE will provide CED and CEI interventions using curriculum approved for use with young children and parents to affect baseline knowledge, attitudes and behaviors required to embrace the wellness policies. Garden-based nutrition education (Fresh from the

Garden) will also be provided by UCCE at sites with this capacity. CWD will provide support for CED and CEI EatFresh.org interventions for parents of enrolled children as well as ECE staff.

While the activities are similar over the three years, LHD will expand reach each year by targeting a larger number of schools (5 schools in Year 1, 10 schools in Year 2 and 15 schools in Year 3.)

This comprehensive objective is intended to support all 5 State Goals.

This objective supports San Francisco Community Change Goal by the San Francisco Health Improvement Partnership as it relates to Nutrition and Physical Activity - 2) Decrease from 17.2% to 16.3% the number of children and teens who consume two or more glasses of soda or sugar sweetened beverages per day.

Local Objective #3

By September 30, 2019, provide direct and indirect nutrition education to 52,030 SNAP-Ed participants in schools, community-based, healthcare, healthy retail, housing (SRO, public, low-income), faith and emergency food sites and demonstrate a significant increase in fruit and vegetable consumption, food resource management and/or a significant decrease in unhealthy beverage consumption among SNAP-Ed participants participating in class series.

San Francisco County layers and combines interventions related to this objective based on the Trans theoretical model (Stages of Change.) CED and CEI interventions are particularly effective at moving individuals from pre-contemplation to action, but further support (at both the individual level and community level) is required to make healthy changes sustainable over time.

CED and CEI interventions are a successful staple of the SF County SNAP-Ed program. All LIAs provide evidence-based and practice-tested direct interventions which consistently show significant outcomes among our populations in annual outcome and impact evaluations. Evidenced by our expansive site list, SF County provides both single and multi-series sessions at schools (including qualified parochial and ECE sites), faith communities, housing (public, supportive, affordable), summer meal sites, congregate meals sites, senior centers, CalFresh outreach sites, and health clinics. In addition to classroom-based education, UCCE and CCC also provide garden-based education with youth. We work with residents of all ages and provide programs in English, Spanish, Mandarin, Russian, and Cantonese.

One of the challenges of our County is the extreme diversity of individuals qualified to receive SNAP-Ed programming. As demonstrated above, this diversity takes the form of language, living situation, culture, and ease of accessibility. This makes our past evaluation success even more exciting since some of us work with populations like single adult males, who are not the traditional targets of SNAP-Ed workshops.

In addition to using interactive and effective curricula, we believe our success is also a result of the thoughtfulness and intentionality with which our LIAs coordinate our site list. This coordination is effective at both avoiding duplication and providing the best possible LIA partner for each site. Effective coordination also allows us to combine and layer interventions for maximum impact (see more specific examples in the discussion around Objective #4.)

Other activities related to this objective which build over time are a commitment to training community members, volunteers, and partner staff to provide nutrition education that encourages healthy food consumption and food resource management. LHD, UCCE and CWD provide these regular training opportunities. While the number of training opportunities may not increase year over year, the cumulative effect of total graduates providing programs results in more people having access to SNAP-Ed programs through these extenders. Training program support for a larger number of graduates each year is part of this IWP. Learning from and providing leadership opportunities to the communities we serve deepens and expands our impact.

Other activities which are essential when working in our diverse County are the engagement of community members to delivery CED (for example SRO and public housing residents) and the development of culturally relevant resources (EatFresh.org, community-driven cookbooks, translation of Harvest of the Month materials to Chinese.) This is important as there are times when mainstream food resource management suggestions are not relevant because of disability, lack of access to healthy food retail locations and lack of a kitchen in which to store and prepare food.

At the intersection of individual decisions and retail environments, LHD provides “Cooking Matters at the Store” to make the connection between shopping trips and the benefits of healthy food choices for SNAP-Ed participants. This program provides both support for purchasing healthier foods and strategies for stretching food dollars. This program also provides an important bridge from classroom and community event-based CED and CEI activities and leverages the EatFresh.org platform. EatFresh.org specifically is an ongoing support and provides a trusted resource for participants interested in maintaining healthy behaviors over time. This work also supports the local initiatives around food security (EatSF) and those related to promoting healthy food retail in low income neighborhoods (Tenderloin Healthy Corner Store Coalition, HEAL Zone/SEFA and Healthy RetailSF).

For the past three years, we have laid the groundwork for EatFresh.org as an all-purpose nutrition education website. The outreach strategy has been primarily channel-driven, focusing on the introduction of the tool to providers operating in a similar capacity (nutrition educators, outreach workers, food pantries, etc.) With the addition of the Mini-Course and Text-Based Class to the EatFresh.org portfolio, we now have three robust interventions to support this objective by embracing the ongoing support required for sustained lifestyle changes. All LIAs leverage EatFresh.org as a support and extension of their activities. During FFFY17, CWD will continue to provide training and develop implementation materials to increase the usefulness and relevance of these resources. This objective is in alignment with three State Goals (1, 3 and 4).

From our County perspective, food resource management is one important strategy to alleviating food insecurity. Families who adopt these strategies will purchase more nutrients per dollar. In this way, this objective directly supports the SF Food Security Task Force’s initiative to be Hunger Free by 2020. This objective also supports San Francisco Community Change Goals by the San Francisco Health Improvement Partnership as it relates to

Nutrition and Physical Activity - 1) Decreasing the number of adults who report a BMI of 30 or greater; 2) Decrease from 17.2% to 16.3% the number of children and teens who consume two or more glasses of soda or sugar sweetened beverages per day.

Local Objective #4

By September 2019, demonstrate significant increase in access to and increase in the consumption of healthy foods to Tenderloin residents through multilevel SNAP-Ed interventions.

This objective will be achieved through an asset mapping of the Tenderloin neighborhood by the LHD, followed by outreach to stakeholders and collaboration activities intended to pull together a wide variety of existing initiatives to more efficiently leverage SNAP-Ed activities throughout the course of the next three years.

The Tenderloin neighborhood, one of the most distressed in San Francisco is home to a wide variety of SNAP-Ed eligible residents. Over 32 languages are spoken by residents of all ages. These residents are often described by statistics highlighting their disproportionate exposure to violence, chronic disease, substance abuse, mental health issues and poor dietary habits. San Francisco has previously identified this neighborhood as one in need of SNAP-Ed interventions, and this need has been met by various LIAs over the past several years. For example, there are 41 Tenderloin sites on the CWD site list, and CWD has primarily provided single and multi-session workshops using multi-lingual staff including community educators. LHD has been working on the retail level via the Tenderloin Healthy Corner Store Initiative, as well as supporting Cooking Matters in the Stores that supports both food security and healthy food retail initiatives.

For the next three years, we want to create a more structured framework for planning, delivering and evaluating efforts in this neighborhood. Other partners, such as EatSF which provides produce vouchers and Heart of the City Farmers' Market, which has the highest EBT redemption rate in the state will be integral to this work.

During the first year, asset mapping will identify activities occurring in this neighborhood provided by SNAP-Ed funded and non-funded partners, including efforts to increase access to fresh produce and decrease the availability of unhealthy foods and beverages. This asset mapping will be shared with stakeholders convened by the LHD, to discuss the most efficient ways to leverage these activities and initiatives, to best impact the health outcomes of Tenderloin Residents. Out of this process, an implementation plan will be developed to better align CED and CEI efforts to enhance healthy retail efforts. CWD will continue to provide these interventions to their 41 sites during Year 1, but also work to transition these sites to be either self-sufficient through training programs or by exploring partnerships with funded programs in Years 2 and 3.

By the end of Year 2, we will plan an evaluation, with the help of EatSF, as to whether participation in SNAP-Ed programs alongside EatSF significantly improves access to healthier foods and increases consumption of these foods. We will also seek to leverage data collected by other healthy food retail initiatives to determine if SNAP-Ed interventions help support access and consumption of healthy foods in the Tenderloin.

During Year 3, the evaluation plan with EatSF will be implemented and using other information collected from Year 2 activities, develop a neighborhood-wide plan that coordinates intervention activities and the promotion of healthy retail initiatives for all SNAP-Ed eligible residents of the Tenderloin. This plan will also include identified agency partners who want to participate in site wellness policy work, training and technical assistance activities that will increase their organizational capacity to deliver SNAP-Ed interventions on their own, and identification of community residents who may want to become community champions.

***Local Objective* #5**

By September 30, 2019, provide Resources, Training and Technical Assistance to 425 schools, community organizations, healthcare, housing (SRO, public, low-income), faith and emergency food sites to support improved nutrition and physical activity behaviors among the SNAP-Ed participants they serve, to further Community Change Goals.

As we seek to impact community wide norms around consumption of healthy foods and beverages and decrease consumption of unhealthy food and beverages, increase physical activity, improve food resource management, increase access to and/or appeal of healthy dietary choices and decrease access to and/or appeal of unhealthy dietary choices where people eat, live, learn, work, play or shop, we realize that this work requires a multiplier effect, beyond the efforts that reach SNAP-Ed eligible individuals.

This objective will be achieved through leveraging the wide variety of community partners that have been engaged through the years in the course of SNAP-Ed interventions in San Francisco. In FFY2016, our CNAP developed a plan to provide coordinated nutrition and physical activity messaging and resources to the communities and organizations we work with. These resulted in the development of an "Eat with the Seasons" quarterly e-newsletter designed to create messaging coordination, shared objectives, and consistent resources to the wide variety of community partners providing support for nutrition education and obesity prevention initiatives. These e-newsletters are developed and distributed by a subcommittee of the SF CNAP. Utilizing the messaging platform used by EatFresh.org for their statewide communication, the e-newsletter will provide a tangible product to be used throughout the County and will provide seasonal food suggestions, recipes, and resources that are both consistent with SNAP-Ed messaging and relevant for our County. Community Partners will be encouraged to sign up to receive these newsletters and will also be sent out, as needed by the SF CNAP members, to their community partners.

The "Eat with the Seasons" e-newsletter will include a training and technical assistance component as annual trainings will be offered to community partners to provide them with opportunities to participate in hands-on activities recommended in the quarterly newsletters, so as to bridge the gap between recommendation and implementation. We will use the results of efforts in FFY2017 to inform activities in FFY2018 and the results of efforts in FFY2018 to inform activities in FFY2019.

In FFY2017-FFY2019 we will strategically use this e-newsletter to highlight specific topics or campaigns (such as "Be Better") that align with our IWP objectives. This newsletter supports the organization-wide PSE work referenced in other objectives and reinforces our CED and CEI work with

individuals. Depending on funding for EatFresh.org we will need to revisit if this remains a viable platform for "Eat with the Seasons", which we hope is the case, or if another resource needs to be available to support this work.

We also anticipate providing training and technical assistance to community partners serving SNAP-Ed eligible clients. This includes training on providing direct nutrition education referenced in Local Objective 3 and in addition providing resources, training and technical assistance to our community partners on the process and tools available to support healthy food and beverage choices and increased physical activity in the SNAP-Ed eligible clients they serve.

We plan to collaborate with community partners serving SNAP-Ed eligible clients at community education events such as health fairs, and at farmers' markets, in order to support and reinforce messaging around healthy food and beverage choices and/or increased physical activity.

CWD has developed strong relationships with agencies that have led to greater opportunities for staff training and capacity building as well as site wellness initiatives. In FFY 17 CWD will work with 5 agencies, in addition to the BGCSF, to develop and/or implement site wellness policies. This PSE work builds upon years of Food Smarts workshops with SNAP-Ed participants, participation in health fairs, and EatFresh.org promotion.

CWD's train-the-trainer programs have greatly expanded the reach of SNAP-Ed messaging and the number of clients served. CWD will continue these programs in FFY 17. Additionally, CWD is also expanding support to agencies that have graduated from training programs through ongoing training and TA opportunities.

This objective intersects with the other Local objectives in our IWP, namely 3, 4 and 5, which support individuals and organizations to access the tools they need to make healthful changes to their diet. We believe that the strength of this area of our IWP creates opportunities to work effectively on system-wide or neighborhood-wide levels.

This objective also supports San Francisco Community Change Goals by the San Francisco Health Improvement Partnership as it relates to Nutrition and Physical Activity - 1) Decreasing the number of adults who report a BMI of 30 or greater; 2) Decrease from 17.2% to 16.3% the number of children and teens who consume two or more glasses of soda or sugar sweetened beverages per day.

Local Objective #6

By September 2019, coordinate ongoing promotion of free physical activity opportunities to 36,000 SNAP-Ed participants and 200 Community Partners, provide resources, training and technical assistance to 102 Tai Chi instructors to increase fall prevention through physical activities for at risk seniors and demonstrate increase in physical activity in youth receiving this program in SNAP-Ed eligible schools.

As we seek to impact community wide norms to increase physical activity and increase access to and/or appeal of physical activity opportunities for SNAP-Ed eligible populations, we realize that this work requires leveraging local initiatives around physical activity as well as measuring the impact of SNAP-Ed funded programs on the physical activity of youth attending selected schools.

In Year 1 SNAP-Ed funded partners will work with the San Francisco Department of Public Health, San Francisco Recreation and Parks Department, the Healthy Parks, Healthy People – Bay Area, and other relevant partners to gather and verify information on free physical activity opportunities county-wide and to jointly develop easy-to-access resources to share this information with SNAP-Ed participants and with providers serving SNAP-Ed eligible populations. Catholic Charities partners with Physical Education programs at their sites to promote the PA component of healthy living and obesity prevention. These resources will be disseminated by LIAs through direct, indirect and training activities over the three years of the work plan. This information will also be shared with the "Eat with the Seasons" mailing list. The survey of existing physical activities in Year 1 will also inform SNAP-Ed partners on the extent of free evidence-based fall prevention fitness program available for seniors. An annual goal of percentage increase in physical activity hours and opportunities, for seniors participating in the fall prevention workshops will be set for FFY2018 and FFY2019.

In Year 2: Review free physical activities available. Based on feedback from program participants, our LIAs will share any recommendations for physical activity interventions shared with the ACTive Zones, Healthy Parks, Healthy People – Bay Area, with the goal of increasing access to these, for the SNAP-Ed eligible populations we serve.

In Years 2 and 3, we will evaluate improved access and opportunities for physical activity among seniors, (AAA) and students, (CCC) and this will be compared to baseline data collected in Year 1.

Evaluation Summary:

Evaluation processes will be used to improve services for all local objectives and interventions strategies. The evaluation plan includes, as needed, formative, process and outcome evaluation activities using State and locally developed surveys. Details on these follow each of the Local Objectives. Past evaluation efforts have been exceedingly helpful in informing program design and activities. LHD, AAA, CCSF, CWD and CCC will continue to use the Activity Tracking Forms developed by the State and UC CalFresh will continue to use the Reporting Tools Workbook (RTW). Activities will be reported on a Quarterly basis to each State Implementing Agency, based on the ATF and RTW entries. Direct Education activities provided by LIA staff and by teachers trained by LIAs will continue to be evaluated as these take place. Impact/Outcome Evaluation will be implemented with class series that have five or more sessions and UC CalFresh will use their approved direct education reporting tools and SMART objectives, designed to measure change in dietary and physical activity behaviors and food resource management improvements.

As appropriate, participants will be requested to complete evaluation surveys that address, but are not limited to the following indicators from the Western Region SNAP-Ed Evaluation Framework: Nutrition, Physical Activity and Obesity Prevention Outcomes: MyPlate Knowledge (ST1), Shopping Knowledge and Intentions (ST2), MyPlate Behaviors (MT1), Shopping Behaviors (MT2), Physical Activity Behaviors (MT3), and Fruit and Vegetables (LT2), Non-Dairy Beverages (LT5), Food Security (LT6) Physical Activity Recommended (LT7), and Entertainment Screen Time (LT8).

At the environmental level, LIAs will also report as appropriate on the following SNAP-Ed Evaluation priority indicators – Identification of Opportunities (ST4), Partnerships (ST6), also tracked in the ATF and in Quarterly Reports, Nutrition Supports Adopted (MT4) and Physical Activity Supports Adopted (MT5). An IOE Plan and Report will be submitted annually by LHD to measure impact of nutrition education on SNAP-Ed participant dietary choices and food resource management. Other LIAs will also collect, report and use evaluation data as well. The LHD PSE projects focused on the School and Early Childhood Education settings will be reported using the RE-AIM evaluation framework to assess Reach, Effectiveness, Adoption, Implementation, and Maintenance (RE-AIM).

SECTION B: Target Audience Description

1. **Gender** **2. Age**

1. Gender	%		2. Age	#
Male	43		0 to 4 years old (Preschool):	4,041
Female	57		5 to 17 years old (School Age):	31,485
			18 to 59 years old (Adult):	35,060
			60 years old and over (Senior):	31,242

SECTION C: INTERVENTION PLAN

I. Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019, 10 qualifying schools in San Francisco Unified School District (SFUSD) and 8 youth serving community sites will improve adherence to their respective Wellness Policy guidelines that support increased access to healthy foods and beverages and decreased access to foods and beverages not in compliance with the policy among students, their families and staff.

II. PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:

- **Develop and/or Implement site wellness policies and procedures to improve the nutrition environment**
- **Implement changes in the school and youth community serving sites to increase access to healthy foods and beverages**
- **Implement and/or Support the Smarter Lunchrooms Movement**

III. Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. FFY 2017 (Year 1) Objective(s):

i. By September 30, 2017, identify 10 SFUSD schools with interest in improving SFUSD Wellness Policy implementation, identification of a district-wide assessment tool, the training of SNAP-Ed funded partners, quarterly meetings with Wellness Policy manager and direct education activities.

ii. By September 30, 2017, train SNAP-Ed funded partners on the SFUSD Wellness Policy and identify school sites where SNAP-Ed is provided and where activities could be implemented in support of this Wellness Policy.

iii. By September 30, 2017 identify activities and develop intervention plan for 8 youth serving community sites with established wellness policies to improve adherence. Identify an assessment tool to track progress and do initial assessment. Begin implementation of intervention plan at 2-3 sites. Specific implementation activities are detailed in Objective #3 (3.1, 3.2, 3.3 and 3.4) Train a group of Boys and Girls Clubs of San Francisco staff champions to continue work in Years #2 and #3.

iv. By September 30, 2017, at 2-3 middle/high schools, will conduct a site-specific youth engagement (YE) project engaging youth teams in leadership, critical thinking, problem-solving, community-based research and to address an identified issue with consumption and access to healthy foods and beverages, in support of the SFUSD Wellness Policy and identify solutions applying public health approaches.

2. FFY 2018 (Year 2) Objective(s):

i. By September 30, 2018, SNAP-Ed funded partners will work with 10 SNAP-Ed eligible schools in SFUSD to develop a plan to improve implementation of the SFUSD Wellness Policy, create a local recognition program, share best practices among SNAP-Ed funded partners and provide technical assistance to CBOs conducting interventions at qualifying sites.

ii. By September 30, 2018, at 2-3 middle/high schools, will continue efforts to conduct a site-specific youth engagement (YE) project engaging youth teams in leadership, critical thinking, problem-solving, community-based research and to address an identified issue with consumption and access to healthy foods and beverages, in support of the SFUSD Wellness Policy and identify solutions applying public health approaches.

3. FFY 2019 (Year 3) Objective(s):

i. By September 30, 2019, students, their families and school staff at 10 schools in SFUSD will demonstrate increased adherence to the SFUSD Wellness Policy as measured by SFUSD's assessment tool.

ii. By September 30, 2019, at 2-3 middle/high schools, will continue efforts to conduct a site-specific youth engagement (YE) project engaging youth teams in leadership, critical thinking, problem-solving, community-based research and to address an identified issue with consumption and access to healthy foods and beverages, in support of the SFUSD Wellness Policy and identify solutions applying public health approaches.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
	Goal 3: Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Francisco County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

Three-Year SNAP-Ed Local Objective #1 (FFY 2017–FFY 2019):

By September 30, 2019, 10 qualifying schools in San Francisco Unified School District (SFUSD) and 8 youth serving community sites will improve adherence to their respective Wellness Policy guidelines that support increased access to healthy foods and beverages and decreased access to foods and beverages not in compliance with the policy among students, their families and staff.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
1.1	Meet quarterly with SFUSD Wellness Policy Manager/ Committee and in collaboration, identify an assessment/planning tool to measure Wellness Policy Implementation, communication and action planning support at target sites; develop a recognition program for successful implementation; provide technical assistance related to nutrition education materials	CED CEI MPR x C&C x TTA	CWD x LHD AAA UCCE CCC	CWD: LHD: SFUSD AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF; Quarterly Reports; PSE Re-AIM Annual report
1.2	Establish relationships and commitment of support for wellness policy implementation, nutrition education interventions, and staff development from school/afterschool site administrators at **8-10 target sites**, to increase healthy food and beverage access and availability throughout the school/afterschool day. Facilitate ongoing communication throughout the school year providing nutrition education resources and maintain support for healthy school/afterschool campaigns. SECTION C: INTERVENTION PLAN

I. Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

By September 30, 2019, 30 Early Childhood Education (ECE) sites will develop and/or implement site wellness policies and procedures, including making healthy site changes to improve the nutrition, physical activity, and/or screen time environment for participating children.

II. PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:

- **Develop and/or implement written site wellness policies and procedures to improve the nutrition and physical activity environment, and to reduce screen time that meet the USDA and Let's Move Child Care standards.**
- **Implement changes in the preschool environment that support and promote physical activity.**
- **Increase access to healthy foods, beverages, and opportunities for active play.**
- **Develop and/or support Edible gardens that integrate nutrition education activities.**
- **Promote the Smarter Lunchrooms Movement**

III. Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. FFY 2017 (Year 1) Objective(s):

i. By September 30, 2017, activities will reach 1,000 (UCCE) preschool-age children and 75 (UCCE) parents of preschool-age children with direct education and 1,000 (UCCE) preschool-age children and/or their parents with indirect education; and will provide training and Technical Assistance, as well as support the development and/or implementation of site wellness policies and procedures in 5 new Early Childhood Education sites.

2. FFY 2018 (Year 2) Objective(s):

i. By September 30, 2018, activities will reach 1,000 (UCCE) preschool-age children and 75 (UCCE) parents of preschool-age children with direct education and 1,300 (UCCE + CCSF) preschool-age children and/or their parents with indirect education; and will provide training and Technical Assistance, as well as support the development and/or implementation of site wellness policies and procedures in 10 new Early Childhood Education sites.

3. FFY 2019 (Year 3) Objective(s):

i. By September 30, 2019, activities will reach 1,000 (UCCE) preschool-age children and 75 (UCCE) parents of preschool-age children with direct education; 1,300 (UCCE + CCSF) preschool-age children and their parents with indirect education; and will provide training and Technical Assistance, as well as support the development and/or implementation of site wellness policies and procedures in 15 new Early Childhood Education sites; including making at least one new healthy site change per site to improve the nutrition, physical activity, and/or screen time environment for participating children (at FFY 2017, 2018, and 2019 sites).

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
x	**Goal 2:** Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
x	**Goal 5:** Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Francisco County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

Three-Year SNAP-Ed Local Objective #2 (FFY 2017–FFY 2019):

By September 30, 2019, 30 Early Childhood Education (ECE) sites will develop and/or implement site wellness policies and procedures, including making healthy site changes to improve the nutrition, physical activity, and/or screen time environment for participating children.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
2.1	Annually provide and support nutrition education including EatFresh.org interventions, physical activity promotion and/or garden-based nutrition education reaching **1,000** (UCCE) **preschool-age children** and **75** (UCCE) **parents of preschool-age children**.	x CED CEI MPR x C&C x TTA	 CWD LHD AAA x UCCE CCC	CWD: LHD: AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 x x x x Year 2 Q1 Q2 Q3 Q4 x x x x Year 3 Q1 Q2 Q3 Q4 x x x x	Reporting Tools Workbook
2.2	Annually disseminate nutrition and physical activity messaging using handouts, materials, and/or newsletters reaching **1,300 (UCCE + CCSF) parents of preschool-age children**.	 x CEI x MPR x C&C TTA	 x LHD AAA x UCCE CCC	CWD: LHD: Children's Council of San Francisco AAA: UCCE: CCC:	Year 1 Q1 Q2 Q3 Q4 x x x x Year 2 Q1 Q2 Q3 Q4 x x x x Year 3 Q1 Q2 Q3 Q4 x x x x	Reporting Tools Workbook; ATF/EARS; Quarterly Reports; Annual Report

2.3	Inform all engaged ECE sites regarding the availability of and the criteria for the Healthy Apple Program		CED CEI x MPR x C&C x TTA		CWD x LHD AAA x UCCE CCC	CWD: LHD: Children's Council of San Francisco AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF/EARS; Quarterly Reports; Re-AIM Annual Report
2.4	In Year 1, work with **5 sites**; Year 2, work with **10 sites**; and in Year 3, work with **15 sites** to: • Identify site's interest and capacity to support the development and/or implementation of site wellness policies and procedures. • Assist sites to conduct environment and policy self-assessments in nutrition and/or physical activity practices to identify individual areas for improvement including the development of an action plan to address identified areas in which changes are needed as well as generalized/aggregate needs for workshops and trainings. At least one new healthy site change will be implemented and documented at each engaged site annually in Years 2 and 3. • Provide ongoing technical assistance		CED CEI MPR x C&C x TTA		CWD x LHD AAA x UCCE CCC	CWD: LHD: Children's Council of San Francisco AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF/EARS; Quarterly Reports; Re-AIM Annual Report, Team Nutrition Mealtime Assessments for Childcare Centers

	• The process, training opportunities and tools will be shared with UCCE and other LIAs working in the Early Childhood Setting to promote collaboration and the opportunity to build on proven strategies.					
2.5	Establish and maintain regular communication with key contacts for organizations and agencies focused on serving young children and their families, including but not limited to local Child Care Resource and Referral (R&R) agencies; Child and Adult Care Food Program (CACFP) sponsors; the First 5 Children and Families Commission (First 5); Head Start; and the Women, Infants, and Children Supplemental Nutrition Assistance Program (WIC). Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Francisco County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

I. Three-Year SNAP-Ed Local Objective #3 (FFY 2017–FFY 2019):

By September 2019, provide direct and indirect nutrition education to 52,030 SNAP-Ed participants in schools, community-based, healthcare, healthy retail, housing (SRO, public, low-income), faith and emergency food sites and demonstrate a significant increase in fruit and vegetable consumption, food resource management and/or a significant decrease in unhealthy beverage consumption among SNAP-Ed participants participating in class series.

II. PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:

- **Support family-friendly cooking demonstrations and taste tastings throughout the community**
- **Promote participation in federal food assistance programs (WIC, SNAP, CACFP)**
- **Encourage use of farmers' markets with SNAP and WIC access at key community outlets**
- **Develop and disseminate family-friendly educational materials that encourage family meals and kids' cooking**
- **Change existing communication and nutrition education protocols to expand food resource management tools by integrating EatFresh.org online interventions.**
- **Encourage participation in community and school gardens**

III. Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. FFY 2017 (Year 1) Objective(s):

i. By September 2017, provide direct nutrition education to 3795 SNAP-Ed participants in 16 schools to encourage increase in fruit and vegetable consumption and decrease in unhealthy beverage consumption.

ii. By September 2017, provide nutrition education to 4305 SNAP-Ed participants in community-based, healthcare, healthy retail, housing, faith and emergency food sites to encourage increase in fruit and vegetable consumption, food resource management, and/or decrease in unhealthy beverage consumption.

iii. By September 2017, 75% of graduates who complete at least 5 classes in a series will report a significant increase in fruit and vegetable consumption and a significant decrease in unhealthy beverage consumption.

iv. By September 30, 2017 SNAP-Ed funded partners will reach 25,445 SNAP-Ed eligible individuals through indirect education activities that focus on increased fruit and vegetable consumption, food resource management, and/or reduced unhealthy beverage consumption.

v. By September 2017, 75% of 200 graduates of grocery store tours will report using food resource management tools to make purchasing decisions. Graduates of nutrition and cooking classes report a significant increase in the use of food resource management strategies and a reduction in food insecurity.

vi. By September 2017, Integrate EatFresh.org Interventions into the services provided by 50 partner agencies with the intention of increasing access to Food Resource Management (FRM) strategies in environments which currently did not include FRM strategies.

2. FFY 2018 (Year 2) Objective(s):

i. By September 2018, provide nutrition education to 3795 SNAP-Ed participants in 17 schools to encourage increase in fruit and vegetable consumption, food resource management, and/or decrease in unhealthy beverage consumption.

ii. By September 2018, provide nutrition education to 2065 SNAP-Ed participants in community-based, healthcare, healthy retail, housing, faith and emergency food sites to encourage increase in fruit and vegetable consumption and decrease in unhealthy beverage consumption.

iii. By September 2018, 75% of graduates who complete at least 5 classes in a series will report a significant increase in fruit and vegetable consumption and a significant decrease in unhealthy beverage consumption.

iv. By September 30, 2018 SNAP-Ed funded partners will reach 12,675 SNAP-Ed eligible individuals through indirect education activities that focus on increased fruit and vegetable consumption, food resource management, and/or reduced unhealthy beverage consumption.

v. By September 2018, 75% of 400 graduates of grocery store tours will report using food resource management tools to make purchasing decisions. Graduates of nutrition and cooking classes report a significant increase in the use of food resource management strategies and a reduction in food insecurity.

3. FFY 2019 (Year 3) Objective(s):

i. By September 2019, provide nutrition education to 6795 SNAP-Ed participants in 18 schools to encourage increase in fruit and vegetable consumption and decrease in unhealthy beverage consumption.

ii. By September 2019, provide nutrition education to 2065 SNAP-Ed participants in community-based, healthcare, healthy retail, housing, faith and emergency food sites to encourage increase in fruit and vegetable consumption, food resource management, and/or decrease in unhealthy beverage consumption.

iii. By September 2019, 75% of graduates who complete at least 5 classes in a series will report a significant increase in fruit and vegetable consumption and a significant decrease in unhealthy beverage consumption.

iv. By September 2019, 75% of 600 graduates of grocery store tours will report using food resource management tools to make purchasing decisions. Graduates of nutrition and cooking classes report a significant increase in the use of food resource management strategies and a reduction in food insecurity.

v. By September 30, 2019 SNAP-Ed funded partners will reach 12,675 SNAP-Ed eligible individuals through indirect education activities that focus on increased fruit and vegetable consumption, food resource management, and/or reduced unhealthy beverage consumption

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Francisco County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

I. Three-Year SNAP-Ed Local Objective #4 (FFY 2017–FFY 2019):

By September 2019, demonstrate significant increase in access to and increase in the consumption of healthy foods to Tenderloin residents through multi-level SNAP-Ed interventions.

II. PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:

Healthy retail PSE strategies include:

- **Provide education and promote collaboration with key community outlets and stakeholders**
- **Encourage point-of-sale prompts for healthy foods and beverages at area food retail outlets**

Healthy eating PSE strategies include:

- **Promote availability of healthy food vendors and restaurants**
- **Promote the development of healthy food policies for purchased/donated food**

III. Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. FFY 2017 (Year 1) Objective(s):

i. By September 2017, in collaboration with all SNAP-Ed LIAs and other community partners identify and map current SNAP-Ed efforts in the Tenderloin and their geographic and/or programmatic proximity to Healthy RetailSF, Tenderloin Healthy Corner Store Coalition, Tenderloin Hunger Task Force, food pantries, Tenderloin Health Improvement Plan and EatSF initiatives.

ii. By September 2017, convene key stakeholders engaged in improving access to healthy foods in the Tenderloin to share information on the SNAP-Ed activities in the Tenderloin and explore opportunities to leverage our complementary work.

2. FFY 2018 (Year 2) Objective(s):

i. By September 2018, based on information and relationships established in FFY2017, develop and implement a work plan to integrate SNAP-Ed Direct Education and Indirect Education activities with promotion of healthy food retail outlets in the Tenderloin.

ii. By September 2018, develop a plan to assess if participating in SNAP-Ed by EatSF clients results in significantly improved access to and increased consumption of fruits and vegetables.

3. FFY 2019 (Year 3) Objective(s):

i. By September 2019, modify multi-level interventions based on evaluation data of the impact of these efforts on the access to and consumption of healthy food in Tenderloin residents who receive SNAP-Ed.

ii. By September 2019, evaluate the impact of participating in SNAP-Ed by EatSF clients in the Tenderloin to see if this results in additional improved access to and increased consumption of fruits and vegetables, beyond EatSF evaluation results.

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
4.3	Provide ongoing support and TA to healthy retail locations, Heart of the City Farmers' Market, and EatSF distribution sites in the Tenderloin including promotion of EatFresh.org. Coordinate with funded and non-funded partners in the neighborhood to leverage EatFresh.org and Cooking Matters tools to support increased food resource management and healthy eating behaviors. Begin the process of formalizing an internal food procurement policy that encourages fruit and vegetable consumption and decreases access to less healthy foods and beverages for all TL pantry partners (as well as pantry partners across the city. (Year 1)	CED: ; CEI: ; MPR: ; C&C: x; TTA: x	CWD: x; LHD: x; AAA: ; UCCE: ; CCC:	CWD: Leah's Pantry LHD: 18 Reasons AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF/EARS; Quarterly Reports; Annual Report; EatFresh.org Partner Survey
4.4	Using data from CX3 Store, Fast Food and Walkability Assessments done in FFY16, the LHD will be engaging local stakeholders to support community efforts to improve access to healthy food retail in the Tenderloin. This will involve disseminating results and coordinating efforts with the Tenderloin Healthy Corner Store Coalition to improve nutrition education and messaging in stores participating in EatSF and Healthy RetailSF.	CED: ; CEI: ; MPR: ; C&C: x; TTA: x	CWD: ; LHD: x; AAA: ; UCCE: ; CCC:	CWD: LHD: 18 Reasons AAA: UCCE: CCC:	Year 1: Q1 x, Q2 x, Q3 x, Q4 x Year 2: Q1 x, Q2 x, Q3 x, Q4 x Year 3: Q1 x, Q2 x, Q3 x, Q4 x	ATF/EARS; Quarterly Reports; Annual Report; CX3 Implementation Plan

4.5	Collaborate with Heart of the City Farmers' Market to provide nutrition education resources to EBT participants that purchase produce in their market and evaluate the impact of this on their shopping and eating habits. This Farmers' Market is located in a neighborhood that has access to little healthy food retail and Community Health Assessments have shown its residents to have high rates of chronic disease. Through surveys of CalFresh participants we have found interest in activities that show these individuals how select and prepare healthy foods. Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Francisco County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

I. Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):

By September 30, 2019, provide Resources, Training and Technical Assistance to 425 schools, community organizations, healthcare, housing (SRO, public, low-income), faith and emergency food sites to support improved nutrition and physical activity behaviors among the SNAP-Ed participants they serve, to further Community Change Goals.

II. PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:

- **Increase consumption of healthy food and beverages in SNAP-Ed eligibles through support of community norms**
- **Encourage drinking water access**
- **Encourage participation in Federal Nutrition and Food Assistance Programs**
- **Provide Education and Promote Collaboration with Key Community Outlets and Stakeholders**
- **Develop and disseminate policies to encourage healthy food choices for purchased and donated food**

III. Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. **FFY 2017 (Year 1) Objective(s):**
   i. By September 30, 2017 SNAP-Ed funded partners via CNAP will develop and implement the "Eat with the Seasons" quarterly newsletter supported by annual partner agency training. Partners will evaluate results from FFY2017 to inform FFY2018 activities.

   ii. By September 30, 2017 SNAP-Ed funded partners will provide 55 trainings to staff serving SNAP-Ed eligible clients that expand their capacity to promote increased fruit and vegetable consumption, food resource management, and/or decreased unhealthy beverage consumption.

   iii. By September 30, 2017 SNAP-Ed funded partners will provide materials, resources and technical assistance to 400 providers serving SNAP-Ed participants in order to build their capacity to support increased fruit and vegetable consumption, food resource management, and/or reduced unhealthy beverage consumption.

   iv. By September 30, 2017 SNAP-Ed funded partners will collaborate with community partners, through 45 events and media, to support increased fruit and vegetable consumption and reduced unhealthy beverage consumption reaching 140,000 SNAP-Ed eligible clients.

2. **FFY 2018 (Year 2) Objective(s):**
    i. By September 30, 2018 SNAP-Ed funded partners via CNAP will continue to implement the "Eat with the Seasons" quarterly newsletter supported by annual partner agency training. Partners will evaluate results from FFY2018 to inform FFY2019 activities.

    ii. By September 30, 2018 SNAP-Ed funded partners will provide 35 trainings events to staff serving SNAP-Ed eligible clients that expand their capacity to promote increased fruit and vegetable consumption, food resource management, and/or decreased unhealthy beverage consumption.

    iii. By September 30, 2018 SNAP-Ed funded partners will provide materials, resources and technical assistance to 200 providers serving SNAP-Ed participants in order to build their capacity to support increased fruit and vegetable consumption, food resource management, and/or reduced unhealthy beverage consumption.

    iv. By September 30, 2018 SNAP-Ed funded partners will collaborate with community partners, through 45 events and media, to support increased fruit and vegetable consumption and reduced unhealthy beverage consumption reaching 140,000 SNAP-Ed eligible clients.

3. **FFY 2019 (Year 3) Objective(s):**
    i. By September 30, 2019 SNAP-Ed funded partners via CNAP will continue to implement the "Eat with the Seasons" quarterly newsletter supported by annual partner agency training. Partners will evaluate results from FFY2019 to inform FFY2020 activities.

    ii. By September 30, 2019 SNAP-Ed funded partners will provide 35 trainings events to staff serving SNAP-Ed eligible clients that expand their capacity to promote increased fruit and vegetable consumption, food resource management, and/or decreased unhealthy beverage consumption.

    iii. By September 30, 2019 SNAP-Ed funded partners will provide materials, resources and technical assistance to 300 providers serving SNAP-Ed participants in order to build their capacity to support increased fruit and vegetable consumption, food resource management, and/or reduced unhealthy beverage consumption.

    iv. By September 30, 2019 SNAP-Ed funded partners will collaborate with community partners, through 45 events and media, to support increased fruit and vegetable consumption and reduced unhealthy beverage consumption reaching 140,000 SNAP-Ed eligible clients.

Supplemental Nutrition Assistance Program Education (SNAP-Ed)

San Francisco County | **Three-Year Integrated Work Plan FFY 2017–2019** | **Rev. 5/24/2017**

SNAP-Ed State Goals:

x	**Goal 1:** Food and Beverages (Behavioral)
	Goal 2: Physical Activity (Behavioral)
x	**Goal 3:** Food Resource Management (Behavioral)
x	**Goal 4:** Access to and/or appeal of dietary choices(Physical and Social Environmental)
	Goal 5: Access to and/or appeal of physical activity opportunities (Physical and Social Environmental)

Three-Year SNAP-Ed Local Objective #5 (FFY 2017–FFY 2019):

By September 30, 2019, provide Resources, Training and Technical Assistance to 425 schools, community organizations, healthcare, housing, faith and emergency food sites to support improved nutrition and physical activity behaviors among the SNAP-Ed participants they serve, to further Community Change Goals.

Activity Number	Activity Description	Intervention Categories*	Responsible SNAP-Ed Agency(ies)	Subcontractors	Time Frame: Year & Quarter**	Documentation
5.1	• Develop and implement "Eat with the Seasons" e-newsletter, with a focus on seasonal produce, physical activity promotion, information on food assistance programs to be distributed to Community Partners of SNAP-Ed funded programs. The anticipated reach of this e-newsletter is about 200 Community Partners per year. Develop and implement an annual training for the staff of our Community Partners to support their capacity to educate their SNAP-Ed eligible clients on healthy food and beverage choices and physical activity promotion, so they can integrate the recommendations in the "Eat with the Seasons" e-newsletter. Annual trainings estimated to reach 20 community partners per year. SECTION C: INTERVENTION PLAN

I. Three-Year SNAP-Ed Local Objective #6 (FFY 2017–FFY 2019):

By September 2019, coordinate ongoing promotion of free physical activity opportunities to 36,000 SNAP-Ed participants and 200 Community Partners, provide resources, training and technical assistance to 102 Tai Chi instructors to increase fall prevention through physical activities for at risk seniors and demonstrate increase in physical activity in youth receiving this program in SNAP-Ed eligible schools.

II. PSE Strategy(ies) that support the Three-Year SNAP-Ed Local Objective listed above:

- **Increase access to opportunities for physical activity**
- **Implement changes in SNAP-Ed eligible environments that support and promote physical activity**

III. Annual Objectives to support the Three-Year SNAP-Ed Local Objective listed above:

1. **FFY 2017 (Year 1) Objective(s):**
   i. By September 30, 2017, SNAP-Ed funded partners will work with San Francisco Department of Public Health, Parks and Recreation Department, Department of Aging and Adult Services (AAA) and other relevant partners to gather information on free physical activity opportunities county-wide, including evidence-based fall prevention activities for seniors, and develop easy-to-access resource to share this information. This information will be our baseline data for future comparison.

   ii. By September 30, 2017, LIAs will consistently disseminate collected county information about free existing physical activity opportunities through direct, indirect and training activities.

   iii. By September 30, 2017, Catholic Charities of San Francisco, Marin and San Mateo will provide physical activity opportunities to students in 1 SNAP-Ed eligible parochial school site and measure changes in the amount of physical activity they do as a result of this.

   iv. By September 30, 2017, SF Department of Aging & Adult Services will provide 2 Train-the-Trainer Tai Chi for Arthritis and Fall Prevention workshops to LIA partners and graduate 34 certified Tai Chi instructors and provide technical assistance to community-based organizations serving seniors to offer Tai Chi for Arthritis and Fall Prevention classes to SNAP-Ed eligible participants.

   v. By September 30, 2017, the certified Tai Chi instructors will provide a total of 812 hours of evidence based free physical fitness class to SNAP-ED eligible seniors in senior community centers or facilities, and reach at least 70 unduplicated seniors.

vi. By September 30, 2017, at least 25% of the certified Tai Chi instructors will incorporate and offer Tai Chi classes as part of the regular activities at their senior center/facility.

2. **FFY 2018 (Year 2) Objective(s):**
   i. By September 2018, in coordination with community partners identify and disseminate information about new physical activity opportunities based on feedback from SNAP-Ed participants PA promotion during year 1.

   ii. By September 30, 2018, Catholic Charities of San Francisco, Marin and San Mateo will provide physical activity opportunities to students in 2 SNAP-Ed eligible parochial schools and measure changes in the amount of physical activity they do as a result of this.
